Both companies plan to respond to the requests as expeditiously as practical and both expressed confidence that the proposed merger will proceed as planned.

The two companies had previously announced on Sept. 24, 1990, that they had entered into a merger agreement under which GBND would acquire VBND for an aggregate consideration of $50 million, or $9.77 per VBND share.

JACKSON, MS (NOV. 8) BUSINESS WIRE - LDDS Communications Inc. (NASDAQ/NMS:LDDSA) Thursday reported results for the third quarter and nine months ended Sept. 30, 1990.

For the three months ended Sept. 30, 1990, sales increased 39 percent to $42,678,000 compared with $30,718,000 in the third quarter of 1989. Net income more than doubled to $2,885,000 from $1,342,000, before an extraordinary charge, in the year-earlier period.

Earnings amounted to 35 cents per share, up 94 percent from 18 cents per share before the extraordinary item, in the same quarter last year.

For the nine months ended Sept. 30, 1990, sales increased 46 percent to $113,785,000 compared with $77,851,000 in the first nine months of 1989. Net income rose 135 percent to $6,503,000, or 79 cents per share, compared with

$2,763,000, or 42 cents per share, before an extraordinary item, a year ago.

LDDS is one of the largest regional long distance companies in the United States and provides long distance service to customers located in 12 contiguous states in the South and Midwest. The company offers its customers 24-hour long distance service to all points in the United States and many foreign countries.

TOKYO (NOV. 8) BUSINESS WIRE - US Sprint Thursday announced the reorganization of its Japanese subsidiary to reflect the company's expanded range of voice, data and videoconferencing products and services available in the Japanese market.

Sprint Japan Inc. (SJI), as the subsidiary will now be known, succeeds Telenet Japan Inc., which has marketed packet-switching data networks, electronic messaging services known as SprintMail(sm) and data network services in Japan since 1986.

Two of Sprint's expanded telecommunications services now available in Japan are:

--Sprint Express(sm), which lets customers make operator-assisted long distance calls from Japan to the United States at significant savings. The service provides a direct connection to US Sprint operators in the United States, avoiding the inconvenience of different currencies, dialing patterns or languages.

--International toll-free service, an important marketing tool for Japanese and American businesses that need to provide easy access to overseas customers.

SJI, which entered the Japanese market initially as a provider of Type II or value-added data services, is also responsible for carrier relations for Japan's Type I carriers.

In addition, the Japanese subsidiary also operates access nodes in Tokyo, Nagoya and Osaka for the SprintNet(sm) international data network. And it is a partner with INTEC and Sumitomo Corp. in Ace Telemail International Inc., a joint venture company which markets a wide range of message handling services to major Japanese customers.

Increasingly, however, voice and videoconferencing services have assumed greater importance in the Japanese market. Earlier this year, US Sprint

initiated a pioneering bilingual service for telephone calls to and from the United States for Japanese customers of JCB International Co. Ltd., the largest credit card company in Japan, and other leading card firms.

Sprint International will participate as well in the development of the fiber-optic Asia Pacific Cable (APC) stretching from Tokyo to Singapore. In addition, the three Tokyo public rooms are accessible through the Sprint Meeting Channel(sm) videoconferencing service which has a network of more than 725 rooms in 26 nations.

Sprint International is the international subsidiary of US Sprint.

US Sprint is a unit of United Telecommunications Inc., a diversified international telecommunications company with $7.5 billion in revenues. US Sprint provides a comprehensive array of voice, data and video communications products and services on the nation's only all-digital, fiber-optic network.

RICHMOND, VA (NOV. 8) BUSINESS WIRE - Hilb, Rogal and Hamilton Co. (NASDAQ: HRHC) announced Thursday that, in view of market conditions, its board of directors has authorized the corporation to purchase up to 400,000 shares of its common stock in open market or private transactions, or both.

According to Robert H. Hilb, president of Hilb, Rogal and Hamilton Co.: ''The timing of the purchases and the number of shares actually acquired, if any, will depend on subsequent developments and corporate needs and, if or when commenced, the purchases may be discontinued or interrupted from time to time.''

Hilb, Rogal and Hamilton Co. provides insurance agency services to a wide variety of clients through its network of wholly owned subsidiaries which operate 40 insurance agencies in 16 states and the District of Columbia. The company is traded on the NASDAQ National Market System, symbol HRHC.

#90312b0708 11/08/1990 ~Business Wire

GRAND PRAIRIE, TEXAS (NOV. 8) BUSINESS WIRE - Craftmade International, Inc. (NASDAQ:CRFT), Thursday announced results for the first quarter of fiscal 1991 ended September 30, 1990.

Net sales for the first quarter of 1991 increased 49% to $4,704,697 from $3,149,798 in the same quarter last year. Net income in the current period was $35,913 or $.01 per share, as compared to net income of $143,436 or $.06 per share in the first quarter of 1990.

Earnings per share calculations for the first quarter of 1991 were based on 3,289,825 weighted average shares outstanding, compared to 2,353,500 shares outstanding in the first quarter of 1990. The increase in the weighted average number of shares outstanding was the result of the Company's initial public offering in February 1990.

The increase in sales for the quarter is primarily due to a higher level of sales of CraftmadeR brand ceiling fans and accessories, and the addition of sales at Craftmade's subsidiary, Durocraft Design, which was acquired in July 1990.

Net income in the first quarter of 1991 declined due to several substantial, one-time charges; these include expenses associated with Craftmade's relocation in September 1990 to a larger facility; and costs related to the acquisition of Durocraft, and the subsequent integration of Durocraft into Craftmade's operations.

James L. Ridings, President, commented, ''We are pleased to report that sales of Craftmade products continued to rise in the first quarter. While the expenses we incurred in expanding our facilities and product line through the acquisition of Durocraft impacted net income in the period, we believe that we made sound investments in our future growth. Durocraft began contributing to sales in the first quarter, although the Company operated at a loss during the period. This situation has been turned around and Durocraft became profitable in October. We are confident that we will begin to see a profitable return on our investments in the second quarter of 1991.''

Craftmade International, Inc. is engaged in the design, distribution and marketing of ceiling fans, light kits and accessories manufactured to its specifications. The Company currently markets 87 basic models of ceiling fans and 32 lighting fixture models under its CraftmadeR brand to over 1,000 retail outlets. The Company's Durocraft Design subsidiary is a specialty lamp manufacturer.

KANSAS CITY, MO (NOV. 8) BUSINESS WIRE - US Sprint Thursday announced that it has signed an agreement with Allstate Motor Club, a division of Allstate Insurance Company, part of the Sears family of companies, to offer discounted long distance services for its 1.6 million members nationwide.

Discounts on the long distance services included in the Allstate Motor Club member program are Dial 1, US Sprint's basic long distance service and FONCARD US Sprint's travel card which allows the user to charge calls from any phone, even rotary.

Allstate Motor Club headquartered in Arlington Heights, Ill. will promote the new long distance services included in the US Sprint association program to its members in the Winter issue of Discovery, the quarterly publication received by Allstate Motor Club members.

The US Sprint Intermediaries Marketing Group, headquartered in Kansas City, was formed in 1988 to encourage and support distribution of US Sprint's products and services through third parties. These relationships include independent contractors and companies who are authorized to act as sales agents, long distance resellers, and the growing area of affinity marketing.

Selling through intermediaries is an increasingly more important method of distribution in the fast-growing telecommunications industry.

US Sprint is a unit of United Telecommunications Inc., a diversified international telecommunications company with $7.5 billion in revenues. US Sprint provides a comprehensive array of voice, data and video communications products and services over the nation's only all-digital, fiber-optic network.

#90312b0711 11/08/1990 ~Business Wire

STAMFORD, VT (NOV. 8) BUSINESS WIRE - Patten Corp. (NYSE:PAT) Thursday reported operating results for the three months ended Sept. 30, 1990.

Second quarter sales of real estate were $22.1 million compared to $33.6 million for the three months ended Sept. 30, 1990 and Oct. 1, 1989, respectively. Net loss for three months ended Sept. 30, 1990 was $2.7 million or $(.16) per share. Net income for the three months ended Oct. 1, 1989 was $1.2 million or $.07 per share.

The soft real estate market in the Northeast led to a decrease in sales volume and lower gross margins. The downturn in the market for real estate, and the economy in general, has had an adverse effect on the company's ability to sell inventory at historical rates of sales and margins. The effects of economic and real estate market fluctuations in the Northeast continue to be balanced by the company's operations in the Southeast, Mid-Atlantic and the West.

General and administrative expenses have been reduced by 25.6 percent for the three months ended Sept. 30, 1990 as compared with the three months ended Oct. 1, 1989 in order to offset lower volume of real estate sales and lower gross margins.

BALTIMORE (NOV. 8) BUSINESS WIRE - Allied Research Corp. (NASDAQ:ARAI) reports that its Barnes & Reinecke Inc. subsidiary received a total of $4.8 million in new orders during a recent one-week period.

All of the orders were from the U.S. Army.

BRI specializes in advanced design and engineering management of sophisticated defense vehicles and systems.

New orders from the U.S. Army Tank Command (TACOM) accounted for most of the business. TACOM awarded contracts to BRI for Systems Technical Support for:

-- M88A1 Medium Recovery Vehicles

-- M551A1 Armored Reconnaissance/Airborne Recovery Vehicles

-- M969 5,000 gallon tankers -- Heavy duty vehicle trailers

Also, TACOM awarded Barnes & Reinecke a contract calling for the production of the driver's master panel assembly for the Army's Main Battle Tank, the M1 Abrams.

Additionally, the U.S. Army's Rock Island Arsenal awarded BRI a contract to manufacture the drive assembly for the 20mm cannon portion of the Vulcan Air Defense System.

The Vulcan Air Defense System provides mobile air defense production for U.S. Army units.

In October, Allied Research reported that its BRI subsidiary had received a contract from the U.S. Army's Picatinny Arsenal calling for delivery of test quantities of Allied Research's bullet trap rifle grenades for evaluation. Some 35 countries throughout the world already use the Allied Research rifle grenades.

Allied Research is a leading developer and producer of ammunition systems, supplier of engineering services to defense departments worldwide and designer of advanced products and systems for industry.

PEABODY, MASS. (NOV. 8) BUSINESS WIRE - Hyde Athletic Industries Inc. has announced its financial results for the third quarter ended Sept. 30, 1990.

Gross revenues for the three-month period ended Sept. 30, 1990, were $15,223,000 compared to gross revenues of $14,630,000 for the same period in 1989. Net income was $441,000 versus $184,000-a for the comparable period in 1989. Net income per share showed a gain of 16 cents in 1990 compared to 7 cents-a for the same quarterly period in 1989.

Hyde Athletic Industries Inc.
Summary of Operations
(Unaudited)

	Three Months Ended Sept. 30,		Nine Months Ended Sept. 30.	
	1990	1989	1990	1989
Gross revenues	$15,223,000	$14,630,000	$46,867,000	$46,026,000
Net income (loss)	441,000	184,000-a	1,291,000	(346,000)-a
Net income (loss) per share	$0.16	$0.07-a	$0.47	$(0.13)-a
Average number of shares outstanding	2,761,967	2,761,967	2,761,967	2,761,967

-a: Restated to reflect the company's change in its method of accounting for Inventory.

Increased demand for the company's Saucony products overseas and the increasing demand for its children's roller skate products have been key to the increases in sales for the third quarter.

Planned reductions in selling, general and administrative expenses have reduced the company's operating expenses and are reflected in the company's three-month and nine-month net income figures.

Hyde Athletic Industries Inc., a Peabody, Mass.-based corporation, is the manufacturer of Hyde, Saucony, and Spot-bilt athletic footwear, and Brookfield children's sporting goods. Stock is traded over-the-counter in NASDAQ National Market; symbol HYDE.

TORONTO (NOV. 8) BUSINESS WIRE - Northern Telecom Limited (NYSE:NT) and STC PLC jointly announced Thursday in London that they have agreed upon an offer to be made by Northern Telecom to buy all outstanding ordinary 25 pence shares of STC PLC, other than the 27.1 percent currently owned by Northern Telecom, at a price of 317 pence per share.

The Northern Telecom offer amounts to approximately 1.3 billion pounds ($2.6 billion).

Under the terms of the offer, STC PLC shareholders will also receive a second interim dividend of 10 pence (net) in the event that the offer becomes wholly unconditional. The offer is conditional on, among other things, the completion of the disposal of 80 percent of STC International Computers Limited (ICL) to Fujitsu Limited which is expected to take place on Nov. 30, 1990.

The value of the offer to STC shareholders, assuming full exercise of options under the STC stock option schemes, together with the second interim dividend, is approximately 1.9 billion pounds.

Northern Telecom Limited currently holds 152,020,360 ordinary shares of STC PLC, representing approximately 27.1 percent of STC PLC's current issued ordinary share capital.

The board of STC PLC, with the exception of Paul G. Stern and Edmund B. Fitzgerald who are Northern Telecom's representatives on STC's board, will unanimously recommend that STC shareholders accept the offer.

STC PLC shareholders who accept Northern Telecom Limited's offer will be given the opportunity to elect to receive loan notes, instead of cash, for all or part of the consideration to which they are entitled under the offer. This loan note alternative will not be available to shareholders who are resident in North America.

The offer will be made by Baring Brothers & Co., Limited on behalf of Northern Telecom Limited. Northern Telecom Limited reserves the right for the offer to be made on behalf of any wholly owned subsidiary of Northern Telecom Limited. Financing has been underwritten by a group of banks comprising Barclays Bank PLC, Citibank N.A., Royal Bank of Canada and Toronto Dominion Bank.

STC PLC is a leading United Kingdom communications company. Established over 100 years ago, STC PLC was a wholly owned subsidiary of ITT Inc. until 1979 when STC PLC was floated on The London Stock Exchange. In July, STC PLC announced the sale of 80 percent of its interest in its ICL information systems subsidiary to Fujitsu Limited. The sale is expected to be completed on Nov. 30, 1990.

WILMINGTON, DE (NOV. 8) BUSINESS WIRE - A price increase of 5 cents per pound on all grades of polypropylene was announced Thursday by HIMONT U.S.A. Inc.

The increase is effective Dec. 1, 1990.

In making the announcement, Kenneth F. Dowd, director of marketing said, ''Large monthly increases in feedstock costs have become an increasing concern and we are doing everything possible to reduce the impact of these increases on our customers. For example, this increase is less than the total of the monomer and energy price increases we received in November and expect to receive in December. Further, we intend to hold at the December 1 price for 60 days thereafter unless there is a drastic change in costs during that period.''

HIMONT U.S.A. Inc., a subsidiary of HIMONT Inc., is a leading domestic producer and marketer of a broad line of polypropylene resins for packaging, fiber, automotive appliance and consumer products.

Himont, a Montedison/Ferruzzi company, is the world's leading producer of a broad range of specialty composites, alloys and advanced materials. Himont is the leading licensor of technology related to the production of polypropylene and also develops and markets catalysts used in its manufacture.

The Ferruzzi Group is a leading international industrial system which operates in the chemical, pharmaceutical and energy sectors through Montedison and in the agro-industrial sector through Eridania, which an aggregate turnover of approximately 40 billion U.S. dollars.

RYE, NY (NOV. 8) BUSINESS WIRE - Melville Corp., a specialty retailer of apparel, prescription drugs, health and beauty aids, footwear, toys and household furnishings, Thursday reported retail store sales for the fiscal month and 43 week and 6 day periods ended Nov. 3, and the comparable periods last year.

Retail store sales for the four weeks ended Nov. 3, were $689,996,000, an increase of 21.9 percent over sales of $565,838,000 for the four week period last year.

Retail store sales for the 43 week and 6 day period ended Nov. 3, increased 12.7 percent to $6,449,002,000 compared to $5,721,319,000 for the comparable period last year.

The reported October sales include the sales of Circus World Toy Stores and Peoples Drug Stores, incorporated and subsidiaries which were acquired on Aug. 17 and Sept. 17, respectively. Had the sales of these entities been excluded from consolidated sales as reported, sales would have increased by 7.9 percent and 10.1 percent for the four week and 43 week and 6 day periods ended Nov. 3, respectively.

Sales generated from assets held for sale, however, have been excluded from the amounts reported.

As of Nov. 3, after excluding the sales of the assets held for sale, the sales results of 7,715 stores and leased departments were included in the amounts reported, an increase of 12.5 percent from the 1989 total of 6,858.

Melville specialty retail chains, with stores located across the country, include Marshalls, the off-price brand name apparel chain; Chess King, the young men's apparel chain; Wilsons, in leather apparel; Bob's, the casual family apparel and footwear chain; Accessory Lady, the quality fashion accessory stores; CVS and Peoples, the prescription drugs, health and beauty aids chain; Freddy's, the ''deep discount'' drug and sundries stores; Thom McAn, Fan Club and the Meldisco Leased Department division in footwear; the Kay-Bee toy chain; Linens 'N Things, the brand name linens and domestics chain; This End Up, the casual furniture stores; and Prints Plus, the prints and wall decor stores.

#90312b0742 11/08/1990 ~Business Wire

TORONTO (NOV. 8) BUSINESS WIRE - Nov. 8, British Gas (NYSE:BRG) has announced that it has been notified that the Government of Ontario has approved its application to make an offer for all the outstanding common shares of The Consumers' Gas Company Ltd. of Toronto.

The approval of the Ontario cabinet, acting as the Lieutenant Governor in Council, is subject to British Gas accepting a number of undertakings, including substantially those recommended by the Ontario Energy Board in its report issued Oct. 26. British Gas has accepted those undertakings.

The undertakings agreed to by British Gas relate to research and development, employment levels and the re-establishment and maintenance of a public float in Consumers' Gas shares.

The proposed British Gas offer for Consumers' Gas shares remains subject to approval by Investment Canada.

British Gas has agreed to: o Research and development expenditures in Ontario of $30 million by Dec. 31, 2000, to focus on the efficient and environmentally friendly use of natural gas. o Create a $5 million venture capital fund to invest in Ontario energy and environmental technology over the next five years. If the fund is fully invested at that time, it will invest another $5 million over the following five years. o Make available at least $50 million in capital for investment over the next 10 years in economically viable cogeneration projects in Ontario, selected by British Gas. o Limit its participation in additional Consumers' Gas common equity issues to a maximum of 50 percent until the year 2000. o Encourage Consumers' Gas in an aggressive approach to energy efficiency. o Undertake that there will be no reduction in employment at Consumers' Gas as a result of the acquisition by British Gas.

British Gas announced its offer for the 32.6 million common shares of Consumers' Gas on March 7. At that time, GW Utilities Limited of Toronto, which owns approximately 82 percent of the common shares, agreed to tender its shares to the offer. In view of the extended period of time necessary to receive regulatory approval, the date for interest, net of dividends, on the $34-per-share purchase price has been changed from Aug. 20, to Nov. 20, 1990.

British Gas, headquartered in London, is the largest integrated gas company in the Western world and is primarily involved in the purchase, transmission, and sale of natural gas to domestic, industrial and commercial customers in Great Britain. Important support activities to its marketing efforts include appliance trading and customer service to domestic gas customers.

British Gas is also active in the exploration for and production of hydrocarbons both offshore and onshore. Expertise developed in the gas business is offered for sale overseas through the British Gas International Consultancy Service. American Depositary Receipts are traded on the New York Stock Exchange. One ADR is equivalent to 10 ordinary shares.

GREENBELT, MD (NOV. 8) BUSINESS WIRE - Group 1 Software (NASDAQ/NMS: GSOF) Thursday announced the highest fiscal second quarter revenue and earnings in its history, for the quarter ended September 30, 1990.

Revenue increased 21 percent to $5,541,000, from $4,578,000 for the comparable period the prior year. Net earnings increased 21 percent to $639,000, or $0.15

per share, versus $526,000, or $0.13 per share, reported the prior year.

For the six months ended September 30, 1990, revenue totalled $10,463,000 compared with $9,311,000 reported for the same period in fiscal 1989. Net earnings were $1,386,000, or $0.33 per share, compared with $1,216,000, or $0.29 per share, a year earlier.

Commenting on the results, Robert S. Bowen, Chairman and Chief Executive Officer of Group 1 Software, said, "The Company's record second quarter results are attributable to continued market strength in Group 1's software products for mainframe computers, plus strong early results for our new software for IBM's AS/400 midrange computers.

"These new products, together with additional new software packages, to be introduced shortly, for use with multiple computer platforms, represent major growth opportunities for Group 1 in coming months."

Group 1 Software, Inc. is the leading provider of mainframe, midrange, and microcomputer (PC) software for use in marketing and mail management. Group 1 offers a broad range of list management, postal discount, mail personalization and, demographic database software products. The company has offices throughout the United States and in Canada, and is represented in the United Kingdom, Australia, and New Zealand.

FORT WORTH, TX (NOV. 8) BUSINESS WIRE - William C. ''Bill'' Bousquette, 54, has been named executive vice president and chief financial officer of Tandy Corp. (NYSE:TAN), the world's leading consumer electronics retailer and a manufacturer of electronic products.

John V. Roach, chairman of the board and chief executive officer stated, ''Bill Bousquette has broad experience in corporate finance, accounting, and financial planning that I believe will complement and provide mature leadership to our financial staff. He has exhibited creativity in acquisitions, spin-offs, and credit that are highly desirable in his new position.''

Before joining Tandy, Bousquette was executive vice president and chief financial officer for Emerson Electric Co. with headquarters in St. Louis. From 1981-1984 he was vice president finance at Rockwell International. Prior to joining Rockwell, from 1957-1981 he held various financial and controller assignments with Ford Motor Co.

Bousquette's responsibilities at Tandy will include corporate finance, credit, internal audit, accounting, treasury and related financial functions.

Bousquette earned a BBA degree from the University of Detroit in 1958 where he graduated Summa Cum Laude. In 1962, he received a MBA from the University of Detroit.

He and his wife will reside in Fort Worth. They have five grown children.

CHATTANOOGA, TENN (NOV. 8) BUSINESS WIRE - Dixie Yarns Inc. (NASDAQ/NMS:DXYN) Thursday announced that the company's board of directors has declared a regular quarterly cash dividend of 17 cents per share on its common stock.

The dividend will be payable Nov. 30, 1990, to stockholders of record at the close of business on Nov. 23, 1990.

The board has authorized the company to purchase up to 40 percent of its outstanding 7 percent Convertible Subordinated Debentures due 2012 in either privately negotiated or public market transactions at prices deemed favorable by management.

Dixie's business consists of four product categories: specialty yarns, industrial sewing threads, knit fabrics, and carpet and rug yarns. The company manufactures and markets yarns and threads from a variety of natural and man-made fibers and also processes yarns into knit fabrics.

Its products are used in the apparel, carpeting, domestics, drapery and upholstery, hosiery, industrial fabrics, transportation and other industries. Dixie's common stock trades on the over-the-counter National Market System with the NASDAQ symbol DXYN.

#90312b0781 11/08/1990 ~Business Wire
NORTH STONINGTON, CT (NOV. 8) BUSINESS WIRE - Analysis & Technology Inc. (NASDAQ:AATI), which specializes in professional and technical services for submarines and antisubmarine warfare (ASW) and in training programs for Fortune 500 clients, won over $21.5 million in contracts and subcontracts during October 1990, A.T. Mollegen Jr., president and chief executive officer announced Thursday.

The company's total contractual backlog at the end of October stood at

approximately $310 million, over 12 percent above the $275.7 million at Oct. 31, 1989.

A $7.7 million three-year contract was awarded by the Naval Regional Contracting Center, San Diego, Calif. A&T will provide engineering and related technical services to support the Naval Electronic Systems Engineering Center, San Diego in-service engineering agent for submarine combat systems.

A $4.6 million four-year contract was awarded by the Naval Underwater Systems Center, Newport, R.I., for A&T to provide technical support services for the Weapons Systems Accuracy Trials Program.

A $3.5 million three-year contract was awarded by the Naval Oceanographic and Research Activity, Stennis Space Center, Mississippi for A&T to provide acoustic and geological support for the Sea Floor Geosciences Division.

A&T was notified of a contract award to AMTECH Corp., on which A&T is a subcontractor. This contract, awarded by the Trident Command & Control System Maintenance Activity, Newport, R.I., is for configuration management and integrated logistics support services. A&T estimates that this subcontract will have a value of approximately $1.4 million over a three-year duration.

The Naval Surface Warfare Center awarded A&T a $1.3 million three-year contract for technical and analytical services for submarine operating guidelines.

In addition, A&T received a variety of subcontracts, smaller awards, and add-ons during October. These total $3.0 million and extend for periods up to three years.

#90312b0782 11/08/1990 ~Business Wire

FRANKLIN LAKES, NJ (NOV. 8) BUSINESS WIRE - Becton Dickinson and Company reported Thursday that sales for its fourth fiscal quarter, which ended September 30, were $567 million, an increase of 13 percent over the $500 million reported a year ago.

Net income for the quarter was $62 million, an increase of 14 percent, compared with $54 million a year ago.

Earnings per share for the quarter were $1.60 compared with $1.40 a year ago, an increase of 14 percent.

On a geographic basis, U.S. sales grew 6 percent to $330 million, while sales

outside the United States grew 26 percent to $237 million.

On a business segment basis, diagnostic systems sales increased 20 percent to $239 million, and medical supplies and devices revenue grew 9 percent to $328 million.

For the fiscal year, which ended September 30, the company reported sales of $2.013 billion, an 11 percent increase over the $1.811 billion reported last year.

Net income for the fiscal year was $182 million compared with $158 million from continuing operations last year.

Earnings per share for the year were $4.67 compared with $4.00 a year ago from continuing operations.

Earnings per share for the previous fiscal year, including $1.40 from the operations and gain on the sale of a discontinued business, were $5.40.

#90312b0791 11/08/1990 ~Business Wire

ROTTERDAM, THE NETHERLANDS (NOV. 8) BUSINESS WIRE - VOC (Van Ommeren Ceteco), the Rotterdam-based international transport, tank storage and trading firm, Thursday announced that R.F. Hendriksen intends to resign from VOC's Board of Management, for personal reasons, effective May 31, 1991.

After holding management posts at Deli-Maatschappij and the KNSM-Group, Mr. Hendriksen joined the Board of Management of VOC in 1981. His resignation has been accepted with regrets.

At the general meeting of shareholders to be held on May 14, 1991, Messrs. R.R. Hendriks and H.C. van Westenbrugge will be nominated for election to the Board of Management of Van Ommeren Ceteco.

Mr. Hendriks (35) has been managing director of VOC's trading division since mid-1990. Joining AMRO Bank in 1977, he moved to Van Ommeren in 1980 as assistant treasurer. From 1982 to 1985, Hendriks held the same post at the Thyssen Bornemisza Group. In 1985, he returned to Van Ommeren as treasurer and was appointed chief financial officer in 1989.

Mr. van Westenbrugge (41) has been managing director of VOC's Matex Nederland tank storage subsidiary since 1988. After three years with the Stevin Group, he joined Van Ommeren in 1979. From 1980 to 1984, he was commercial manager, mineral oils at Matex Nederland; he was managing director of Van Ommeren

Terminal Singapore from 1984 to 1988.

These changes should have no particular effect on group policy, which is aimed at continued independence and further development of the group's interests in transport, tank storage and trading.

The Group took the opportunity of this announcement to state that, despite the negative effect of the weak US dollar on transport results and trading results lagging behind the 1989 performance, it maintains its forecast of a measurable improvement in net income for 1990 as a whole. This primarily reflects the very good results expected from tank storage operations.

VOC's shares are listed on the stock exchanges in Amsterdam, Brussels, Frankfurt, and Hamburg and trade in ADR form in the US (symbol 3VAOSY on the electronic OTC Bulletin Board). VOC may be accessed on the Reuters Equities 2000 service under the symbol OMMN.AS and on Quotron under the symbol OMREN.EU.

BOISE, ID (NOV. 8) BUSINESS WIRE - Trus Joist Corp., a division of TJ International (NASDAQ:TJCO), Thursday announced it has temporarily LAM laminated veneer lumber (LVL) manufacturing portion of its Stayton, Ore., facility, effective Jan. 5, 1991.

This will not affect the wood I-joist manufacturing facility at Stayton, which will continue normal operations. The company also announced that it will close permanently a small TJI joist warehousing and remanufacturing facility in Ft. Lupton, Colo. Approximately 50 jobs will be affected at the Oregon location and seven in Colorado.

Formal notification of the Stayton action was made Tuesday, Nov. 6, in order to comply with the Workers Adjustment and Retraining Act covering plant closures and layoffs. ''Over the next 60 days, the plant manager at Stayton will do what he can to place the affected workers in positions elsewhere in the organization, so we don't know the exact number of people who will eventually be laid off,'' said Bob Dingman, vice president of Western Operations for Trus Joist.

According to Trus Joist Corp. President Tom Denig, ''We have taken these steps in response to poor market conditions and a desire to make our organization as competitive as possible during what is anticipated to be a very depressed new housing market over the coming year.''

Trus Joist is the structural building products division of TJ International, a

Boise-based specialty building products company.

#90312b0821 11/08/1990 ~Business Wire

WARRENTON, OR (NOV. 8) BUSINESS WIRE - Ag-Bag International Limited, formerly A.B. Holding Group Inc. (NASDAQ:AGBG) announced Thursday its operating results for the quarter and nine months ended Sept. 30, 1990.

Net sales totalled $4,734,160 and $12,800,506, up 24 percent and 22 percent, respectively, from $3,827,395 and $10,451,369, respectively, in the comparable 1989 periods; net income of $555,406 and $1,396,826 (8 cents and 23 cents per share) was up 3 percent and 22 percent over the 1989 periods.

The main reason for the small increase in the quarter is due to certain non-recurring administrative expenses associated with opening a new manufacturing facility, increased research and development expenses and increased involvement in the European business, for which the selling and general expenses are proportionately higher than the United States business.

In commenting on the results, Sohail Masood, president, said, ''We are very pleased with the increased sales which were accomplished both in the United States and Europe.

''We expect this trend to continue for the forseeable future. The fourth quarter has gotten off to a good start and we believe the results will be in line with expectations.

''Our 56 percent owned subsidiary, Ag-Bag Europe plc, is performing ahead of schedule. Sales have been strong with good operating margins. Due to the continued expected growth, Ag-Bag Europe will require additional funding later this year in large part to enable it to purchase machines and bags from our company.''

As previously announced, Ag-Bag Europe has entered into an agreement with KW Agriculture Group (a part of the Bunge Group of companies), a $600 million in revenues company selling grains, alternative feeds and other products, whereby KW will act as the exclusive sales and marketing agent for the sale of Ag-Bag products and services in the United Kingdom.

Masood also noted that the shareholders had recently approved a change of the company's name to Ag-Bag International Limited and that such change has now been formally adopted.

Ag-Bag International Limited manufactures and sells bagging machinery and large (up to 250 feet long) disposble plastic storage bags to the agricultural industry for the storage of feed.

#90312b0828 11/08/1990 ~Business Wire

FRAMINGHAM, MA (NOV. 8) BUSINESS WIRE - Arrow Automotive Industries Inc. (ASE:AI) announced Thursday net earnings (after extraordinary credit) for its first quarter of fiscal year 1991, ending Sept. 29, 1990, of $522,639, or 19 cents per share, as compared with net earnings of $151,514, or 5 cents per share, for the first quarter of fiscal 1990.

Sales for the quarter were $25,436,594 as compared with sales of $26,386,688 during the same quarter in fiscal 1990.

Arrow President Jim L. Osment attributed the improved operating results in large part to changes made in the company's marketing programs and operating practices.

Arrow, with headquarters in Framingham, is one of the nation's largest remanufacturers of precision replacement parts for domestic and import passenger cars, light and heavy trucks, farm vehicles and off-road industrial and construction equipment. Arrow operates remanufacturing and distribution facilities in Spartanburg, S.C., Morrilton, Ark., and Santa Maria, Calif.

#90312b0841 11/08/1990 ~Business Wire

SYRACUSE, NY (NOV. 8) BUSINESS WIRE - Niagara Mohawk Power Corp. (NYSE:NMK) has reached an agreement that, if approved by the state's Public Service

Commission, will provide the company with a temporary revenue increase beginning in January.

It would be the first increase in base rates since March 1987 for electric service and since March 1985 for gas service. If the increase is approved, Niagara Mohawk's rates for electric and gas service would remain among the lowest in New York State.

The company is continuing to negotiate the development of a multi-year rate plan and resolution of other outstanding regulatory issues as part of a far-reaching agreement established in 1989 between Niagara Mohawk, the Department of Public Service, the consumer protection board, the attorney general and multiple intervenors -- a group of large industrial customers.

The proposed revenue adjustment is an increase of about $190 million, or 6.5 percent. Electric rates would increase by about $162.8 million (6.9 percent), and gas rates would increase by $27.2 million (4.9 percent). If approved, the rates would be subject to adjustment upon establishment of permanent rates.

Thursday's filing to the PSC for temporary revenue increases was signed by Niagara Mohawk, the Department of Public Service, multiple intervenors, the Public Utility Law Project and the city of Buffalo. The 1989 agreement stipulated that if negotiations could not be completed in time for a multi-year rate plan to take effect by Jan. 1, 1991, temporary rates would be put in place on that date.

The company and the PSC staff also have agreed to push back to July 1 from April 1 the date by which permanent rates for the rate year ending June 30, 1991, must be decided. This extension is intended to allow for completion of negotiations -- or, if necessary, litigation -- on permanent rates for the second and third rate years as well.

Niagara Mohawk filed in August 1989 for an increase in revenues of about $345 million, but agreed to suspend litigation of the rate filing pending the results of negotiations. A freeze on company rates that was to have ended July 1990 was extended through the end of the year, as part of the 1989 agreement.

The company also agreed to conduct a thorough selfassessment of its operations in an effort to improve efficiency and effectiveness. To date, the company has met each of the milestones related to that ongoing program.

#90312b0847 11/08/1990 ~Business Wire

NEW YORK (NOV. 8) BUSINESS WIRE - SCOR U.S. Corp. (NYSE:SUR) announced that income from continuing operations, excluding merger expenses and net realized investment gains, for the three months ended Sept. 30, 1990 increased significantly to $6,348,000, or 36 cents per share, compared with $647,000, or 4 cents per share, for the third quarter of 1989.

Net income for the 1990 third quarter increased 169 percent to $6,503,000, or 37 cents per share, compared with $2,420,000, or 14 cents per share, for the 1989 third quarter.

Income from continuing operations, excluding merger expenses and net realized investment gains, for the nine months ended Sept. 30, 1990 increased 74 percent to $17,445,000, or 97 cents per share, compared with $10,018,000, or 57 cents per share, for the corresponding period of 1989.

Net income for the 1990 nine-month period increased 40 percent to $16,581,000 or 93 cents per share, compared with $11,832,000, 67 cents per share, for the corresponding 1989 period.

The mid-year merger of Rockleigh Management Corp. into SCOR U.S. has been accounted for in a manner similar to a pooling of interests. Accordingly, all historical financial statements have been restated to reflect the combined results of the two companies. Merger expenses reported in the three-month and nine-month periods ending Sept. 30, 1990, were $23,000 and $1,671,000, or 9 cents per share.

After-tax net realized investment gains for the three-month and nine-month periods ending Sept. 30, 1990 were $178,000, or 1 cent per share, and $807,000 or 5 cents per share. After-tax net realized investment gains for the corresponding three-month and nine-month periods of 1989 were $1,667,000, or 9 cents per share, and $2,479,000, or 14 cents per share.

Patrick Peugeot, chairman and chief executive officer, said that, ''Third quarter results reflect improved underwriting experience, particularly as the 1989 third quarter and nine months were affected adversely by Hurricane Hugo. Competitiveness in the market remains strong; however, SCOR U.S. continues to maintain its disciplined underwriting approach.''

Although net premiums written for the 1990 third quarter increased 4 percent to $48,635,000 compared with $46,863,000 for the 1989 third quarter, net premiums written for the year-to-date period 1990 were down slightly to $135,458,000 compared with $137,372,000 for the corresponding period of 1989.

The statutory loss ratio for the combined reinsurance operations of SCOR U.S. improved to 67.6 percent for the nine-month period 1990 compared with 71.9 percent for the nine-month period 1989. The expense ratio increased to 35.5 percent compared with 31.8 percent for the nine-month periods 1990 and 1989,

respectively.

Jacques Blondeau, president and chief operating officer noted, that, ''The soft reinsurance market creates a magnified effect on the expense ratio as fixed costs, along with higher commission rates, must be charged against a declining volume of premiums written. SCOR U.S. is now in the process of creating efficiencies for the operations of Scor Re and The Unity Group.''

The resulting combined ratio improved to 103.1 percent compared with 103.7 percent for the nine-month periods 1990 and 1989, respectively.

Net cash provided by operating activities for the nine-month period ended Sept. 30, 1990, while remaining strong, decreased 8 percent to $41,995,000 compared with $45,824,000 for the corresponding period last year due principally to higher paid claims relating to catastrophe losses which occurred in late 1989.

Combined statutory capital and surplus at Sept. 30, 1990 was $203,655,000. During the quarter SCOR U.S. completed the purchase of Dai-Tokyo Fire and Marine's 51 percent interest in Southwest International Reinsurance Co. (SIRCO) for approximately $8 million. SCOR U.S. contributed this interest to Scor Re, which previously owned a 49 percent interest in SIRCO, thereby increasing its statutory surplus by $8 million.

Total consolidated assets increased over 12 percent during 1990 to $702,735,000 principally due to net cash flow from operations and an approximately $24,000,000 net increase in assets by the purchase of SIRCO.

The ''fresh start'' benefit for the three-month and nine-month periods ending Sept.30, 1990 were 1 cent per share and 2 cents per share.

SCOR U.S. Corp. is the holding company of Scor Reinsurnce Co. and The Unity Group. Scor Re specializes in underwriting treaties covering commercial and technical risks and is a recognized leader in the provision of facultative property, casualty and special risk covers.

The Unity Group primarily underwrites property business on a treaty basis. All of SCOR U.S.'s reinsurance subsidiaries are rated ''A'' (Excellent) by A.M. Best Co.

HILLIARD, OH (NOV. 8) BUSINESS WIRE - Medex Inc. and Ivion Corp. a Delaware corporation with its principal place of business in Englewood, Colo., have reached an agreement in principle for Medex to acquire Ivion through a merger transaction.

The transaction is subject to the completion of a definitive merger agreement and the approval of the board of directors and shareholders of Ivion. The terms of the agreement are being withheld pending completion of the definitive agreement.

Medex Inc. had previously announced on Oct. 3 that it had concluded an agreement with Aeneas Venture Corp. and Phemus Corp. to purchase a 52 percent voting share interest in Ivion Corp. As announced, the closing of the transaction was subject to a number of conditions. Medex has, pursuant to the terms of that agreement, terminated that transaction.

Medex Inc. manufactures and markets a broad range of disposable products for intravenous fluid administration and invasive pressure monitoring as well as special pumps for precise fluid and drug administration.

Ivion Corp. is a privately held manufacturer of high-tech intravenous infusion equipment for the home and pediatric hospital market.

Ivion complements Medex's commitment to provide products for the precision I.V. delivery of fluid and drugs.

#90312b0880 11/08/1990 ~Business Wire
PHILADELPHIA (NOV. 8) BUSINESS WIRE - Laurentian Capital Corp., a life insurance holding company based in Philadelphia, reported an unaudited consolidated net loss for the third quarter of $19.2 million, or $1.19 per share, compared to a net income of $1.2 million, or 7 cents per share, for the corresponding period in 1989.

For the nine-month period ended Sept. 30, the company had an unaudited net loss of $16.4 million, or $1.03 per share, as compared to an unaudited net income of $2.7 million, or 15 cents per share, for the corresponding period in 1989.

During the past two years, several reorganization initiatives were instituted to improve the financial base of the organization. These initiatives included reviewing the underlying value of acquired assets, administrative and operational restructuring, divestitutes and affiliate consolidations to produce efficiencies in the business.

To further strengthen financial returns and enhance shareholder value, the company significantly reorganized its operations to concentrate on profitability in both the short and long term.

The 1990 third-quarter and nine-months results reflect a $19.3 million after-tax charge of special items against earnings. These after-tax charges follow a two-year period of restructuring certain acquired assets and insurance operations. At the time of previous acquisitions, the valuation of

assets was based upon assumptions as to future performance and value.

The company has reviewed the current reasonableness of these assumptions after instituting changes in administrative, financial and product performance over the past two years. As a result, there is a special charge against earnings to reflect this current position.

These after-tax charges included a $16.7 million write off of goodwill and deferred acquisition costs, as they could not be recovered from future earnings; a $1 million provision for estimated expenses resulting from corporatewide consolidation and cost reduction programs; and a $1.6 million investment loss relating to real estate and certain assets acquired.

Excluding the effects of the special items recorded in the third quarter of 1990, unaudited net income was $130,000, or 0 cents per share, for the quarter ended Sept. 30, as compared to an unaudited net income of $1.2 million, or 7 cents per share, for the corresponding period in 1989.

For the nine-month period, unaudited net income was $2.9 million, or 17 cents per share, as compared to unaudited net income of $2.7 million, or 15 cents per share, for the corresponding period in 1989.

Consolidated revenues were $94.8 million for the first nine months of 1990, as compared to $106.2 million for the corresponding period in 1989. The decline in revenues is due to past divestitures of certain unprofitable lines of businesses in 1989, as well as lower realized investment gains.

Investment income increased $1.9 million following a period of restructuring of the investment portfolio. Earnings per share for both the three- and nine-month periods ended Sept. 30 were based upon 16,229,000 shares outstanding for both 1990 and 1989.

By MICHAEL STRAUSS - Comtex Washington Correspondent

WASHINGTON (NOV. 8) COMTEX - A top federal bank regulator urged the accounting industry to take a long hard look before deciding whether to change existing accounting standards for financial institutions from an historical basis to one predicated on current market value.

In remarks before the American Institute of Certified Public Accountants here, Comptroller of the Currency Robert Clarke suggested a move to mark-to-market accounting does not represent merely a change in bank accounting but a change in bank policy.

"A lot of people are trying to find cures for diseases which may or may not exist," Clarke said. "We don't want to fix the wrong problems or create a whole new set of problems."

Securities and Exchange Commission Chairman Richard Breeden favors changing the accounting standards and has urged the accounting industry to take action, arguing if banks had to list their financial assets at current value instead of at their original purchase value, it would provide the best possible information on the their financial condition.

In written testimony before the Senate Banking Committee eight weeks ago, the SEC chief said the experience with the savings and loan crisis "demonstrates the inherent and substantial dangers of a reporting system for financial institutions that is premised on historical cost accounting principles."

Bankers oppose any change to current standards because they say it would produce unacceptable volatility in operating results and force banks to completely restructure their asset-liability management strategies as a result of strictures imposed from the standard.

The banks received a boost from Federal Reserve Chairman Alan Greenspan, who sent a letter to Breeden saying such an overhaul of accounting standards could cause volatility in bank earnings and lead bankers to shorten the maturities of their investment portfolios to lessen the standard's impact on earnings and capital.

Clarke, as head of the Office of the Comptroller of the Currency, the federal agency which oversees national banks, failed to take sides on the issue and urged a thorough evaluation before any decision is made.

"Clearly the SEC is well-meaning, but I think we need to consider different facets and what the implications will be," Clarke said. "Any time you change a reporting or accounting rule you have the possibility of causing unforeseen consequences."

GROUP LED BY D.A. KASS OWNS 1,108,300 SHARES (17.50%) OF H.H. ROBERTSON CO. (TICKER: RHH) OF PITTSBURG, PENNSYLVANIA.

ANNOUNCEMENT:

The date for a meeting to vote on the proposed merger of H.H. Robertson Co. with Ceco Industries Inc. has been set for Nov. 8, 1990. D.A. Kass intend to

vote their shares against the agreement or attempt to effect a possible change in control of the company. D.A. Kass entered into two successive agreements with Frontera S.A. to purchase the shares held by D.A. Kass for $10 to $12 per share based upon the price in connection with the merger. The agreement was not consummated and a second agreement was entered into on Oct. 11, 1990 to purchase the shares for $7 per share. This second agreement was also not completed and D.A. Kass intend to pursuant their rights under the agreements.

LATEST TRANSACTION:

From Sept. 12 to Oct. 30, 1990, D.A. Kass purchased 46,400 shares for $7 to $8.25 per share and sold 409,000 shares $3.25 to $7.79 per share.

GROUP LED BY DAKOTA VENTURES INC OWNS 11,735,000 SHARES (49.30%) OF RESPONSE TECHNOLOGIES INC (TICKER: RTK) OF MEMPHIS, TENNESSEE.

ANNOUNCEMENT:

Pursuant to a securities purchase agreement, dated Sept. 26, 1990 between BMAC and Response, which contemplated three closings, the Oct. 31, 1990 acquisition was the first closing wherein Dakota acquired 5,735,000 shares of common stock for a cash purchase price of $.50 per share and presently exercisable warrants for an additional 6,000,000 shares of common stock. The agreement provides for the acquisition by Dakota in the next two closings (Aug. 31, 1991 and Feb. 28, 1992) of an aggregate of 4,000,000 shares of common stock and warrants to purchase 3,000,000 shares of common stock. The purchase of such shares is contingent upon Response's meeting certain performance requirements, its compliance with covenants in the agreement and the absence of material adverse events affecting Response. The agreement entitles Dakota to have two representatives nominated for election to the Response board; requires Dakota's consent to the payment by Response of dividends, or redemptions and distributions; requires Dakota's consent to mergers or other transactions that

might result in a preference allocation to holders of Response's series convertible A preferred stock of cash or securities received in such a transaction.

#90312d0180 11/08/1990 ~French/German News Agency

NEW YORK (NOV 8) - The U.N. General Assembly has unanimously adopted a resolution calling on the warring parties in Afghanistan to find a peaceful resolution to the country's 10-year-old civil conflict.

The resolution, adopted without debate late Wednesday, appealed to the Kabul government, the Moslem resistance and individual guerrilla chiefs for an early start of negotiations on "the establishment through democratic procedures acceptable to the Afghan people, including free and fair elections, of a broad-based gouvernment."

In Kabul, the Soviet-backed Afghan government said it was pleased the resolution did not exclude any parties from the peace process.

"We warmly welcome the U.N. resolution. It is what we too have been saying for some time now," commented government spokesman Humayun Mukammel.

He said Kabul was pleased that Pakistan, which the government constantly accuses of interfering in Afghganistan's internal affairs, did not object to the resolution and hoped Islamabad would abide by it.

The assembly also called for the return to Afghanistan of some four million Afghan refugees living in camps in Pakistan and Iran.

Finally the resolution reaffirmed the terms of the Geneva Accords concluded in 1988 between Afghanistan and Pakistan, with the support of the Soviet Union and the United States, calling for an end to all combat in Afghanistan and the creation of new political structures representing all sides in the conflict.

#90312d0210 11/08/1990 ~French/German News Agency

FRANKFURT (NOV. 8) - Frankfurt stocks suffered a slight loss on Thursday on the basis of the DAX index, which lost 1.71 points or 0.12 percent on the day. The Commerzbank index was off 12.7 points to 1,684.2.

The market had been off quite a bit at the start of the session, but stocks managed to claw back much of the lost ground, and operators said the tone was firm at the close.

They added that the main reasons for Thursday's loss were not new: the Gulf crisis and high oil prices.

In the auto sector, BMW dipped by 0.40 to 389.50 marks, Mercedes three to 457, and Volkswagen one to 332, but Daimler-Benz managed to advance by one to close at 551.

MAN (engineering) rose by seven marks to 372, while RWE (energy) tacked on 1.70 to 393.20.

Chemicals were off, but the losses did not exceed 3.20 (BASF). Steels were irregular, Thyssen being unchanged at 184.50, Mannesmann rising 0.50 to 263, and Hoesch off 2.50 to 202.50.

Banks were all off for the day, Commerzbank shedding one, Dresdner six, and Deutsche Bank 6.50.

The bond market was very week, and the average yield on government issues jumped to 9.10 percent, against 9.07 percent on Wednesday.

#90312d0240 11/08/1990 ~French/German News Agency

Accra (NOV. 8) - Fighting has broken out again in Liberia as the main rebel movement, the National Patriotic Front of Liberia (Npfl), launched a counterattack to retake some of the positions it lost to the other rebel movement about two weeks ago, the British Broadcasting Corporation (Bbc) reported Thursday.

Bbc monitored here said the Npfl led by Charles Taylor clashed with the small rebel movement of Prince Yormie Johnson about 30 kilometres northeast of the capital, Monrovia, after retaking positions it lost a fortnight ago.

It said the fresh offensive by Taylor, who has so far rejected all peace moves is thought to involve some 1,000 men. It said Johnson claimed that some of Taylor's fighters were soldiers from Burkina Faso whose president, Blaise Compaore, supports Taylor.

The broadcast said sporadic fighting was also reported near Paynsville, about 10 kilometres east of Monrovia.

There was a lull in the fighting for several days as the West African peacekeeping force and Johnson's men succeeded in pushing Taylor's forces as far back as Kakata, some 60 kilometres from Monrovia.

Bbc also said banners unfurled and crowds sang and danced Wednesday as Johnson's motorcade drove to the headquarters of the peacekeeping force to receive the interim president, Amos Sawyer, who had been waiting for several months out of the country to assume office.

However, Sawyer did not arrive as expected and the Nigerian ambassador in Liberia explained that he had been delayed by ''unforeseen circumstances.'' He said Sawyer would be in Monrovia ''in the shortest possible time''.

#90312d0250 11/08/1990 ~French/German News Agency

BRUSSELS (NOV 8) - Nato's highest military official, General Vigleik Eide, and its European commander-in-chief, General John Galvin, will begin a five-day trip to the Soviet Union on Sunday, the organisation announced Thursday.

They are to be received in Moscow by the Soviet defence minister, Marshal Dmitri Yasov, and Chief-of-staff Mikhail Moiseyev.

Eide, chairman of Nato's military committee, will fly on to Leningrad after his talks in the Soviet capital. Galvin will visit the Kiev military district.

A visit to the Soviet Black Sea fleet in Sevastopol is also planned.

#90312d0270 11/08/1990 ~French/German News Agency

LONDON (NOV. 8) - Nervous aluminium prices executed a modest up-bounce from recent lows on the London Metal Exchange (LME) here Thursday, but the recovery was not sustained, and traders said the metal's immediate prospects do not look good.

Three-months metal recovered to 1,635 dollars per tonne in morning deals, but fell back to quote at 1,613 dollars per ton in after hours kerb trading against 1,614 Wednesday.

Some support for prices was provided by the European Aluminium Association's prediction that European primary metal consumption would rise by one percent in 1990 against 1989's record level of 4.6 million tons.

But against this, the market absorbed predictions that LME stocks, already at their highest levels since 1983, were set to rise in coming weeks.

Nickel drifted lower throughout the day, quoting at 8,350 dollars per ton on the kerb against 8,375 on the ring and 8,500 on Wednesday.

#90312d0380 11/08/1990 ~French/German News Agency

TUNIS (NOV 8) - Palestine Liberation Organisation Chairman Yasser Arafat met here on Thursday for more than three hours with Swedish Foreign Minister Sten Andersson to discuss the Gulf crisis, the Palestinian news agency WAFA reported.

Mr. Arafat briefed the Swedish foreign minister on Palestinian proposals for a peaceful settlement to the Gulf crisis, the agency said.

It quoted Mr. Andersson as saying that a war in the Gulf would be "destructive" for the region as well as the world.

The talks also covered the "dangerous developments" in the Israeli-occupied territories, WAFA added.

Earlier Mr. Andersson had talks with his Tunisian counterpart Habib Boulares on the Gulf crisis, according to the Tunis Afrique Presse agency.

LUXEMBOURG (NOV 8) - The European Investment Bank (EIB), the long-term lending arm of the European Economic Community (EEC), will lend 11.8 million Ecu (more than 14 million dollars) to the European subsidiary of Japanese group TDK, the bank announced on Thursday.

The loan will be used to help build a cassette factory in Luxembourg. It will be in Bascharage, in the southern part of the country, and will create some 600 jobs in a region that has been depressed by a steel industry recession.

A bank spokesman said that in making loans, the institution does not pay any attention to borrowers' nationality or status, but makes sure the project being supported helps regional development. Japan's Sony Group has received an EIB loan to set up shop in southwestern France.

The factory is to go into operation in mid-1991 and make audio and video cassettes, with respective annual capacities of 150 million and 35 million.

DUBLIN (NOV. 8) - Mary Robinson, a leftist independent who advocates the

legalization of divorce and abortion in strongly Catholic Ireland, appeared Thursday the likely winner of presidential elections.

Although Brian Lenihan of the ruling conservative Fianna Fail party won 44.5 per cent of Wednesday's vote to Robinson's 38.8, second votes will have to be tabulated because neither gained an absolute majority.

Observers believe Robinson will receive the bulk of the second votes on ballots cast for the third candidate, Austin Currie of the opposition Fine Gael Party. Currie managed just 16.7 per cent of the vote.

An announcement of the final tally is expected Friday afternoon.

Lenihan entered the race as the favourite but was forced to step down as vice premier during the campaign because of his involvement in a political scandal that occurred eight years ago.

Robinson, 46, would be Ireland's first woman president. The presidential elections were the first in 17 years.

JERUSALEM (NOV 8) - An Israeli underground organisation announced Thursday it would start ''killing two prominent Arabs for every Israeli killed by Palestinians''.

The threat was issued in a telephone call to Israel's biggest newspaper Yedioth Aharonoth by a man claiming to speak for the previously unknown ''Organisation of Jewish Prophecy'' who said his group was made up of former students of religion and members of military fighting troops.

The caller also claimed the group's responsibility for a terrorist attack Wednesday on an Arab village, Shvar'am, in which an unidentified man fired a submachine gun wildly before escaping in an Israeli automobile.

The telephone caller said that ''Jewish Prophecy'' would start acting after seven days of mourning for Rabbi Meir Kahane, the Jewish rightwing leader assassinated Monday in New York.

Following serious disturbances during Kahane's funeral in Jerusalem, several Arab political leaders Thursday received special police protection after they getting anonymous murder threats.

Also on Thursday, police arrested seven members of Kahane's political party,

Kach, in a religious school for taking part in Wednesday's violence.

JEDDAH, Saudi Arabia (NOV. 8) - Saudi Arabia's King Fahd stressed on Thursday that Islamic sharia (law) would continue to be the only source of legislation in the kingdom, the official SPA news agency reported.

"Saudi Arabia, which has always upheld Islamic sharia ..., will not accept any other law dictated by man that opposes the path guided by tradition and the Koran (Islam's holy book)," King Fahd told Saudi editors.

Asked to comment on civil liberties, the Saudi monarch replied that "individual freedom in this country is guaranteed by Islamic faith."

"Islam guarantees to the individual in the kingdom the freedom of expression as well as all his rights and duties as long as this freedom does not hurt others and that it does not undermine Islamic teachings and laws," he stressed.

These remarks come at a time when more than 200,000 Western troops are deployed -- for the first time in the kingdom's history -- along Saudi borders to shore up the country's defenses against any attack following Iraq's August 2 invasion of Kuwait.

The deployment of foreign troops has come under harsh criticism from Islamic groups and Arab states, including several hitherto unknown movements that called in statements published by the Tunisian press Thursday for the overthrow of the Saudi government.

In an apparent reference to these attacks, King Fahd said his country called on a multinational troop deployment "after it became known that the Iraqi president was preparing something against Saudi Arabia."

"We see nothing wrong since the eminent ulemas (Moslem theologists) and numerous clerics worldwide have endorsed our call to the troops of friendly nations to support Saudi Arabia in the defense of its territory," he added.

Three Arab nations -- Egypt, Syria and Morocco -- have dispatched troops to the U.S.-led multinational force in Saudi Arabia and the Gulf region.

PARIS (NOV 8) - Peugeot SA Group (PSA) reported on Thursday that it had consolidated sales of 35.6 billion francs (7.3 billion dollars) in the third quarter, up 8.7 percent over the same quarter last year.

For the first nine months of the year, consolidated sales hit 121.3 billion francs, up 6.6 percent over the same period last year, it said.

PSA said that sales of the Peugeot branch were 70.7 billion francs for the nine months, up 6.5 percent, while those of the Citroen branch rose six per cent to 45.1 billion francs, and engineering and services activities accounted for 5.3 billion francs, a 9.7 percent increase.

Some 55.4 billion francs of group business for the nine months was done in France, up 9.5 percent, and 66 billion francs on other markets, up 4.3 per cent.

MOSCOW (NOV 8) - The mayor of Moscow, Gavril Popov, has said that food ration tickets will be distributed to residents of the Soviet capital from December 1 the daily Moskovskii Komsomolets reported Thursday.

It said he told city councillors and district officials that the tickets would be for monthly purchases totalling 31 rubles (18.6 dollars) per inhabitant.

Komsomolskaia Pravda said that the tickets would give each Muscovite the right to 1.5 kilos of beef, 200 grammes of butter and 500 grammes of flour. Such products are now virtually impossible to find in state stores.

Sugar has been rationed for the last year and cigarettes since this summer.

TUNIS (NOV. 8) - Swedish Foreign Minister Sten Andersson met here Thursday with Palestine Liberation Organisation chairman Yassir Arafat to discuss the Gulf crisis, the Palestinian news agency Wafa reported.

It quoted Andersson as saying that every effort must be made to prevent a war, which would have repercussions on the whole world.

The Swedish minister had also argued in favour of the Plo and the United States resuming their direct contacts which were suspended by the U.S. earlier this year when the Plo failed to disassociate itself from a terrorist attack on an Israeli beach.

JEDDAH (NOV 8) - Saudi Arabia's King Fahd said Thursday that an unconditional withdrawal of Iraqi troops from Kuwait and the reinstatement of the ousted legitimate government there constituted the only solution to the Gulf crisis.

''I don't see any other solution that could achieve peace in the (Gulf) region '' King Fahd said.

He made his remarks, carried by the official Saudi Press Agency, during a meeting with Saudi newspaper editors at his office in the Red Sea port city of Jeddah.

The king reaffirmed that Saudi Arabia's position on the Gulf crisis was based on the resolutions of Arab and Islamic conferences and of the United Nations Security Council.

In reply to a question, King Fahd said he had invited U.S. and other foreign and Arab forces to defend his country against any possible Iraqi attack in the wake of Iraq's August 2 invasion of Kuwait.

''The decision to call in sisterly Arab and Moslem forces and other friendly forces to support our armed forces in defending the Kingdom was taken after it had been proved to us beyond any doubt that the Iraqi President (Saddam Hussein) was planning something against the Kingdom following his invasion of the state of Kuwait,'' King Fahd said.

PIETERMARITZBURG, South Africa (NOV. 8) - Black-on-black violence which began with the mob murder of a railway worker on Thursday claimed 16 lives Bruntville black township, police said.

Women and children were streaming out of the township near Mooirivier, some 60 kilometres (36 miles) north-west of the provincial capital Pietermaritzburg, all day after a gang launched a dawn attack on a hostel for railway workers, hacking one victim to death and shooting and wounding another.

Tension simmered Thursday as gangs torched 18 prefabricated homes in a railway compound in the township, and then boiled over around 8 p.m. (1800 GMT) as rival mobs clashed.

Police said that by the time they had parted the fighters 15 bodies lay on the ground, all of them stabbed and mutilated.

Bruntville workers stayed away from their jobs in Mooirivier Thursday, police said, evidently anticipating trouble.

Police did not say who was involved in the fighting, but a virtual Zulu civil war in Natal province between Chief Mangosuthu Buthelezi's conservative Zulu movement Inkatha and the socialist United Democratic Front has claimed more than 4,000 lives in just over four years.

#90312d1630 11/08/1990 ~French/German News Agency
WASHINGTON (NOV. 8) - Americans are continuing to spend more on credit than they paid off, the Federal Reserve reported Thursday, although they are going deeper into debt at a slower rate.

But retailers are worried that this slowdown will mean a bleak business for them as Christmas -- the traditional big-spending period -- looms.

A separate report by the nation's major retailers Thursday showed the major chains were experienced lower sales in October than they did in the same month last year.

The Fed, in its report, said consumer credit rose by an annual rate of 4.9 per cent in September -- or three billion dollars -- compared to five per cent in August.

In July, consumer credit was soaring by an annualized rate of 7.8 per cent.

Revolving credit -- mainly credit card debts -- rose by 10.7 per cent in September, compared to 13.3 per cent the previous month, the Fed said.

Meanwhile, the nation's leading retailers -- including Sears Roebuck and J.C. Penney -- said October sales were down compared to one year earlier.

The largest retailer, Sears, said sales at its stores which were open last year were down 0.4 per cent in October; overall, sales were down 1.2 per cent.

Thomas Tashjan, an analyst with Seidler Amdec Securities of Los Angeles, said this all pointed to the 1990 holiday buying season being "a much more frugal Christmas."

Jeffrey Feiner, an anlyst with Merrill Lynch, said the figures -- following disappointing sales reports for August and September -- "reflect a recessionary psychology."

LIMA (NOV 8) - Clashes between government troops and Maoists rebels left at least 15 dead in the Andean highlands, and four people were injured in a rash of bombings in Lima, police said Thursday.

At a high school in Lima, two students de-activated two explosive devices thrown into a classroom by terrorists, police said.

"The explosives, equivalent in power to three grenades, could have caused a

bloodbath," said a police explosives expert.

Assailants exploded bombs late Wednesday near the residence of the U.S. ambassador, the Peruvian-North American Cultural Institute, a bank, a hotel and other private businesses, injuring four people, police said.

Meanwhile, an army vehcile carrying soldiers hit a land mine Wednesday while returning to Tingo Maria from a patrol, authorities said. Five soldiers and six rebels were killed by the explosion and an ensuing ambush by Shining Path guerrillas, the region's political-military chief Major Ruben Valle said Thursday. He did not elaborate.

In the province of Ancash in the Andes north of Lima, Shining Path rebels seized a police post in the village of Yautan and killed two soldiers, a lawyer and his driver, the police said.

#90312d1880 11/08/1990 ~French/German News Agency

BELGRADE (NOV 9) - The authorities in the northern Yugoslav republic of Slovenia on Thursday announced an inquiry into charges of fraudulent practices by a car leasing company whose director is said to have links with the republic's fledgling non-communist government, the Tanjug news agency reported.

Two hundred angry demonstrators, representing nearly 5,000 customers who claim to have been cheated by the company, assembled before the Slovene parliament as a hearing on the affair opened.

The republic's interior minister said an international arrest warrant had been issued on Wednesday for Sandi Grubelic, owner of the Trend company.

Mr. Grubelic, who faces charges of fraud, is reported to have fled to neighboring Italy.

The vice-president of the Slovene parliament said that Trend had failed to honor its obligations to nearly 5,000 leasees, who had lost up to 40 million Deutsche marks (26 million dollars).

Mr. Grubelic is rumored to have used the money from his clients to help finance the election campaign of the non-communist party, Demos, which won Slovenia's first multiparty elections earlier this year.

The brother of the Slovene defense minister is also reported to be a member of Trend's board of directors.

The government has neither confirmed nor denied the reports.

LANCASTER, PENNSYLVANIA (NOV. 8) - A U.S. company illegally sold a Chilean arms dealer the technology used to make thousands of cluster bombs that in turn was purchased by Iraq, a newspaper reported Thursday.

Citing federal investigators, the Intelligencer Journal reported that the technology for the bombs came from the Pennsylvania company International Signal and Control Corp. (ISC).

The company was started by James Guerin and it was his business partner, Carlos Cardoen of Chile, who sold the technology to Iraq in violation of a 1977 law barring Chile from receiving U.S. military technology, the newspaper reported.

A spokeman for Mr. Cardoen in Santiago denied any association with ISC, beyond enlisting the help of two of its engineers to solve technical problems with a radio-detonated explosive for the Chilean Air Force.

Cluster bombs release hundreds of similar bombs on impact, or above a target. The small bombs can detonate at various times, up to 72 hours after the main bomb has been dropped and spread over an about 1,000 meters (yards) wide.

Iraq obtained the cluster bomb technology through an Iraqi-owned British precision tooling firm called Matrix Churchill, the newspaper said.

The newspaper said that Mr. Cardoen used his Santiago headquarters to ship the bombs to Baghdad via Iraqi Airways or by ship.

A Chilean source told the Intelligencer Journal that Mr. Cardeon was believed to have sold Iraq 20,000 of one kind of cluster bomb for 7,100 dollars each and 4,000 of another kind of cluster bomb.

#90312d1950 11/08/1990 ~French/German News Agency
BRUSSELS (NOV. 9) - Belgian Defense Minister Guy Coeme on Thursday called for the dissolution of a secret western European intelligence network set up in the 1950's to counter a possible invasion by the forces of the Warsaw Pact.

"The Cold War is over," Mr. Coeme said on the state television station RTBF, adding that the network should be terminated.

He earlier Thursday confirmed the continued existence of the body, which is codenamed Glaive (blade) in French and Gladio in Italian, following recent revelations by Italian Prime Minister Guilio Andreotti.

Mr. Andreotti last month said a secret intelligence body had been set up in

1956 at the instigation of the North Atlantic Treaty Organization to protect western Europe against a possible communist invasion.

The headquarters of NATO's supreme allied command here had no comment on the reported relation between the Western military alliance and a secret intelligence network in Europe.

Mr. Andreotti on Thursday again linked "Gladio" with NATO in remarks before the Italian Senate. He told senators that his government had recently asked NATO to consider whether, in view of the changes in Eastern Europe, the network was not now "outdated."

The Belgian defense minister, in a state radio interview Thursday, said he had just learned that his country currently held the rotating chairmanship of "Glaive."

Mr. Coeme later told a private television station that the NATO authorities were aware of the body's activities, adding: "I am not at this moment certain that it is an organization within NATO. In its actual state I do not think that is the case."

Mr. Coeme added that he had asked if the U.S. Central Intelligence Agency had financed the network's operations and was told "'no', in a very clear way."

He said he believed the operation in Belgium had not been involved in stockpiling arms but rather was limited to "patriotic and civic actions."

But he said he had ordered an administrative inquiry into charges that the network might have had a hand in a series of still-unexplained terrorist attacks which shook Belgium in the 1980s.

Press reports in Italy have said the network might have been linked to terrorist activity in that country.

In Rome Thursday, Mr. Andreotti denied that "Gladio" had ever been involved in terrorist attacks or attempts to destabilise the country.

He also told the Italian Senate that the government would submit the names of 622 Italians who had been part of the organisation to a parliamentary committee on the secret services and security.

#90312d2340 11/08/1990 ~French/German News Agency

WELLINGTON (NOV. 9) - New Zealand Trade Minister Philip Burdon on Friday ruled out any immediate prospect of the government here underwriting the country's trade with the Soviet Union.

"We have not made any decision. We do not intend to make any decision in the immediate future," Mr. Burdon said.

Trade with the Soviet Union has come to a virtual standstill, with Moscow unable to pay 150 million New Zealand dollars (91.5 million U.S) for meat, wool and butter received this year.

Producers are understood to have urged the government to underwrite exports, but Mr. Burdon ruled out the measure in an interview with Radio New Zealand.

"We would hope the relationship could be preserved... but you are not going to get a blank cheque from the New Zealand Government to pay for exports that clearly have no prospect of being paid for by the recipient country," he said.

SEOUL (NOV. 9) - Thousands of South Korean villagers protesting plans to construct a nuclear dump were on Friday in a tense truce with police who moved in overnight to quell rioting, officials said.

In Seoul, Prime Minister Kang Young-Hoon ordered a crackdown on the violence, in the southwestern island of Anmyon.

About 2,000 policemen moved in overnight after villagers set fire to a police substation and vehicles, ransacked office buildings and kidnapped government officials, who were later beaten up.

Police fired volleys of tear gas to disperse the mobs, but sporadic clashes lasted into late night, officials said.

Six kidnapped officials, including a policeman, were admitted to hospital with broken bones and cuts and one of them was in serious condition, an official said.

Police rounded up some 60 people, including leaders of the protest.

A group of 60 people representing the villagers was meeting with Governor Shim Dae-Yong to seek a peaceful solution.

The government announced late Thursdasy that it had decided to postpone the construction plans and would educate the people about the safety of the storage facility before resuming the project.

Mr. Kang told Home Minister Ahn Eung-Mo bring the riot under control, the national Yonhap News Agency said.

"Whatever the cause, people should not try to resort to violence to settle

their grievances," Mr. Kang was quoted as saying. "There can be no tolerance of acts to destroy, torch and firebomb public facilities."

The violence broke out after press reports that the government would push ahead with the construction plan despite opposition by villagers.

Government officials said the proposed facilities would store nuclear waste pending a new recycling solution and contended that the storage would present little danger to the environment.

The riot was the largest and most violent related to envrionmental issues in South Korea. Sentiment against pollution is growing after a two-decade rush to industrialize.

#90312d2380 11/08/1990 ~French/German News Agency

MANILA (NOV. 9) - The Philippine government has ordered gasoline stations and cooking gas outlets to shut down at night to further reduce the country's oil consumption, officials said Friday.

The new restrictions, effective Monday, came as the country was bracing for an anticipated new increase in domestic oil prices after last week's 8.7 per cent devaluation of the Philippine peso.

The Energy Regulatory Board (ERB) said that from Monday to Saturday, the stations and outlets will be open for business from 7:00 a.m. to 7:00 p.m.

On Sundays and holidays, the hours will be limited to 8:00 a.m. to 5:00 p.m., with stations closed the whole day outside Manila and its suburbs.

President Corazon Aquino has also banned energy-consuming sports such as car and boat racing.

#90312d2420 11/08/1990 ~French/German News Agency

TOKYO (NOV. 9) - Japanese Finance Minister Ryutaro Hashimoto denied Friday that a meeting of the Group of Seven (G-7) leading industrialized countries would take place soon.

"I see no immediate need to hold such a meeting," Mr. Hashimoto told the reporters after a cabinet meeting.

French Finance Minister Pierre Beregovoy said Thursday he had agreed with U.S. Treasury Secretary Nicholas Brady on a meeting of G-7 finance ministers and central bankers to discuss the recent fall of the dollar.

"The dollar has not fallen sharply against the yen in the last one to two months," Mr. Hashimoto said, adding that Japan would consider a G-7 meeting if one were proposed.

"We have not received any proposals to hold one yet," he said.

The dollar was strong in Tokyo on Friday, closing the morning session at 130.60 yen, up 1.10 yen from Thursday's finish.

#90312d6400 11/08/1990 ~French/German News Agency

SEOUL (NOV. 8) - South Korea has chosen Bechtel Inc. of the United States to draw up the master plan for a new international airport serving Seoul, officials said Thursday.

A consortium formed by Bechtel and South Korea's Yooshin Engineering Corp. won the tender for the 4.89 million dollar job over another group made up of Aeroports de Paris (AdP) and Daewoo Engineering.

The Bechtel-Yooshin team becomes the front runner in the next stage of bidding for detailed designs and construction of the 3.28 billion dollar project.

The airport is to be built between 1991 and 1997 on reclaimed land near Yongjong island, 52 kilometers (32.5 miles) from downtown Seoul. It will be linked by sea bridge to the port city of Inchon and a 10-lane highway and high-speed railway to Seoul.

#90312d6410 11/08/1990 ~French/German News Agency

WELLINGTON (NOV. 8) - New Zealand Prime Minister Jim Bolger Thursday slammed the country's biggest company, Fletcher Challenge Ltd. (FCL), for voting a 50

percent increase in non-executive directors' fees.

"It's no use preaching the virtues of hard work and economy to the workers of New Zealand if the words aren't matched by action on the part of those in positions of responsibility in business or in politics," Mr. Bolger said.

The prime minister said the increase was not in keeping with the spirit of sacrifice shown by wage-earning workers.

At its annual meeting Wednesday FCL increased the fees from a total of 400,000 dollars New Zealand dollars (246,040 U.S.) to 600,000 dollars (369,060 U.S.) for the financial year starting July next year.

FCL's chairman, Sir Ronald Trotter, gave an assurance Wednesday that none of the seven non-executive directors' fees would rise this financial year.

The company had record earnings of 662 million dollars (403 million U.S.) last year and is a dominant player in the world pulp and paper industry. It also has interests in energy production and construction.

#90312d6640 11/08/1990 ~French/German News Agency

TOKYO (NOV. 8) - Japan's Daihatsu Motor Co. Ltd. said Thursday its net profit advanced 17 percent from a year earlier to 3.8 billion yen (28 million dollars) in the six months to September due to booming sales of mini-cars.

The affiliate of Toyota Motor Corp. and Japan's second-biggest mini-car maker said sales grew 10.2 percent to 388 billion yen (2.8 billion dollars). Domestic sales rose 9.8 percent to 318 billion yen (2.3 billion dollars) while exports climbed 12.3 percent to 70 billion yen (507 million dollars).

Daihatsu said sales volume rose 5.8 percent to 454,987 vehicles, fuelled by booming domestic sales of mini-cars, which offset declining sales of small commercial vehicles and other cars.

Mini-car sales soared 104 percent to 134,378 units despite a modest fall in exports while sales of small commercial vehicles plunged 30 percent to 118,050 units with exports suffering a particularly sharp decline.

Sales of other cars fell almost one percent to 59,387 units while sales of other commercial vehicles rose eight percent to 26,580 units. Sales of vehicles made for Toyota meanwhile grew 4.7 percent to 116,592 units.

Daihatsu said its net profit forecast for the full year was unchanged at six billion yen (44 million dollars) but reduced its sales estimate to 780 billion yen (5.7 billion dollars) from 820 billion yen (5.9 billion dollars).

#90312d6780 11/08/1990 ~French/German News Agency

ISLAMABAD (NOV. 8) - President Ghulam Ishaq Khan, taking a defiant stand toward the United States, said Thursday that Pakistan valued its relations with Washington but would not accept aid with strings attached.

"No matter how important the foreign aid is for us, we shall not at all compromise our independence and our freedom of action for it," the 75-year old Pakistani leader said in his first address at the newly elected parliament.

His speech followed Washington's decision last month to suspend its approximately 600 million dollars in annual military and economic assistance to Pakistan because of concerns that Islamabad might be developing nuclear weapons.

The conservative Islamic Democratic Alliance (IJI), which won the October 24 elections, accused ousted premier Benazir Bhutto during the campaign of lobbying for the aid freeze to pressure Pakistan to restore her to power.

The IJI alleged that Ms. Bhutto's associates told U.S. lawmakers that a rival government would turn the country's peaceful nuclear program to military ends. Ms. Bhutto has strongly denied the allegations.

"We hope that the United States will not allow baseless assumptions and lobbies representing vested interest to distort its views about Pakistan," President Ishaq Khan said.

He called upon Washington to realise the "real worth of its relations" with Pakistan, pointing to Islamabad's cooperation with the United States on Afghanistan and the Gulf situation.

#90312d6800 11/08/1990 ~French/German News Agency

MELBOURNE, AUSTRALIA (NOV. 8) - National Australia Bank Ltd., one of Australia's big four banks, announced Thursday net profit for the year of 769 million dollars (596 million U.S.), down 3.1 percent on last year.

The fall was blamed on difficult trading conditions, mainly high interest rates which led to a doubling of bad and doubtful debt charges to 651 million dollars (505 million U.S.) and lower interest margins.

Group managing director Don Argus said in a statement the bank believed the difficult economic conditions would apply for much of the current fiscal year to September.

"However, a further consistent result is expected in 1990-91," he added.

NAB was unable to maintain its dividend, declaring a final pay out of 29 cents making 55 cents in cash for the year compared with 50 cents cash and 10 cents in scrip last year.

Profit from NAB's trading and savings banks fell to 449 million dollars (348 million U.S.) from 552 million dollars (428 million U.S.).

British and Irish operations increased profit to 280 million dollars (217 million U.S.) from 136 million dollars (105 million U.S.).

#90312d6820 11/08/1990 ~French/German News Agency

MANILA (NOV. 8) - The Philippines will receive a total of 129 million dollars in loans from the Asian Development Bank (ADB) for road, transport and irrigation projects, the ADB said Thursday.

The Manila-based ADB said two loans of 50 million dollars each were approved for rebuilding dilapidated roads and upgrading public road transport.

One loan is from the ADB's ordinary capital resources, repayable in 15 years at variable interest rates, the other is a concessional loan repayable in 35 years with an annual service charge of one per cent.

The loans will be accompanied by 2.18 million dollars in technical assistance grants for consultancy fees.

The ADB also approved a 29 million-dollar package to improve irrigation systems on the southern island of Mindanao.

Nine million dollars will be repayable over 25 years and 20 million dollars over 35 years.

#90312d6900 11/08/1990 ~French/German News Agency
BANGKOK (NOV. 8) - The National League for Democracy (NLD), Burma's leading political party, is in total disarray after mass arrests and intimidation of its leaders, an NLD district organiser said here Thursday.

The organiser, from the south of Burma, who asked not to be identified, said all contact had been lost with headquarters in Rangoon, making it almost impossible for the party to function.

"The NLD is still alive, but only just. There is no order and we do not know in the districts what is happening. It is very hard to survive," he told a press conference.

And he admitted that what leaders are left following the military crackdown, are seriously considering setting up a government in exile on the Thai-Burma border.

"But I don't want to give any details at present. It would be too dangerous," said the man.

The NLD swept general elections in May but the military State Law and Order Restoration Council (SLORC), which took power in a bloody coup in 1988, has refused to hand over power.

Since the elections the SLORC has put pressure on the NLD which climaxed last month in a series of raids in which many of its leaders were arrested and its offices sealed.

"There are only four central committee members still free," said the organiser here for a four day visit to meet with anti-government groups living in Bangkok and on the border in exile.

He added that the report of United Nations Human Rights Commission special envoy Sadako Ogata, who is presently visiting Burma, would be vital in helping the NLD survive.

"It will be very helpful if she exposes the government's human rights violations. It will show the world what we are up against," said the party organiser, a former officer in the army.

He said there were other senior officers in the armed forces who were sympathetic to the NLD.

"But they are scared to show it. They are even afraid to talk to each other, to share their ideas."

Paris (NOV. 8) - British novelist Lawrence Durrell died at his home in Sommieres in the south of France on Wednesday, friends of the family disclosed Thursday. He was 78.

Born in Darjeeling, India, Durrell lived most of his life in Mediterranean countries, and was British press attache in Egypt, Yugoslavia and Cyprus.

His best known work is the ''The Alexandria Quartet'', drawn from his experiences in the Egyptian city during World War Ii.

The quartet, comprising ''Justine'', ''Balthazar'', ''Mountolive'' and ''Clea'', is an elaborate exploration of the nature of love.

Other novels included ''Tunc'' and ''Nunquam''. He also wrote poetry ''Collected Poems'' and humourous sketches ''Esprit de Corps''.

ISLAMABAD (NOV. 8) - The Pakistani opposition led by former premier Benazir Bhutto here Thursday boycotted an address to the parliament by President Ghulam Ishaq Khan to protest his policies.

Ms. Bhutto bitterly attacked Mr. Ishaq Khan during the runup to last month's elections and alleged afterwards that the president had engineered the defeat of her People's Democratic Alliance (PDA) through "massive rigging."

"To be democratic is nothing but to accept and honour the people's verdict," said the 75-year old president, who fired Ms. Bhutto in August on charges of corruption and misrule and called new elections.

The boycott Thursday showed that while Ms. Bhutto and her party had accepted to sit in the opposition, they were not yet ready for a change of heart towards the president, observers said.

On Tuesday, Ms. Bhutto and her party stayed away from a ceremony at the presidency when Mr. Ishaq Khan swore in Nawaz Sharif, leader of the Islamic Democratic Alliance (IJI), as prime minister for a five-year term.

Addressing a joint session of the lower and upper houses of parliament, Mr Ishaq Khan said that the nation had vindicated the action taken by him in August.

Elections were held "freely and fairly," the president said, adding that "even observers from the developed world, who look through the microscope to find fault with the developing nations, came out with open praise."

Pakistan, he said, did not need a foreign certificate for its commitment to democracy but "this must have satisfied those of us who warmly welcome everthing with a foreign label on it."

A 40-member team of international poll watchers from the Washington-based National Democratic Institue and a group of Canadian observers had given a clean bill to the elections. A French observer team had expressed an opposite view.

PARIS (NOV. 8) - The French Arjormari paper group and the British Wiggins Teape Appleton paper company on Thursday announced that they were to link their operations to form the biggest paper group in the European Economic Community (EEC) with sales of about 25 billion francs (about five billion dollars).

Arjormari is to contribute its industrial and commercial assets to the arrangement, and will receive new actions in Wiggins so that it holds 39 per cent of the company which is quoted on the London stock exchange.

Arjormari would then be the biggest shareholder in the new group, a statement by the two companies said.

Nairobi (NOV. 8) - Ivory Coast President Felix Houphouet-Boigny has named 48-year-old economics expert Alassane Ouattara as the country's first prime minister since independence 30 years ago.

Radio reports from the capital Abidjan monitored here Thursday said the president told Ouattara his main task would be to reorganise the highly-indebted country's finances.

The new post was created when the national parliament made changes to the constitution Tuesday.

Ouattara was previously governor of the central bank of West African states. For the last eight months he has been de facto premier as the head of a

ministerial commission set up by Houphouet to draft a programme to rehabilitate the economy.

The 85-year-old president was elected 12 days ago for a further five-year term as head of state. Polling for a new parliament is scheduled for the end of November or beginning of December.

RAGUSA, Sicily (NOV. 8) - Nine people were murdered in mafia-related killings in southern Italy Wednesday, police said Thursday.

Bodies of three men and a woman, found between Gela and Ragusa on the island of Sicily, were riddled with bullets.

Investigators believe that Francesco and Roberto Piscopo, aged 25 and 30, and Emanuele Argento, 30, were killed in the mafia's fight for control over the region.

A fourth victim, Sara De Luca, 25, from Milan, was probably gunned down for being a witness of the murders.

Five other killings were discovered in Calabria and Apulia regions, as well as in Sicily and Sardinia.

In Calabria, Domenico Mezzatesta, 51, owner of a game hall, was killed in the village of Bovalino and Giuseppe Schinizzi, 47, was gunned down in Reggio.

Near the Sicilian city of Catania, police found the charred body of a man whose hands had been tied behind his back. Another man was gunned down in Foggia, Apulia.

A 26-year-old woman, Giuseppina Sanna, was ambushed and killed near Nuoro, Sardinia.

TOKYO (NOV. 8) - Toyo Menka Kaisha Ltd., a leading Japanese trading company, said Thursday it would set up a joint venture to manufacture basic materials for detergents in Vietnam from 1992.

The joint venture will be capitalized at two million dollars with 20 percent each held by Toyo Menka and Teica, a Japanese chemical firm.

Vimex Co., a Tokyo-based trading company specializing in Vietnam, will hold another five per cent, company officials said.

The Vietnamese partners, South Vietnam Detergent Co., Union of Cosmetics Enterprises and Export Foodstuffs and Agricultural Products Co. will hold 15 per cent each while 10 per cent goes to the Bank of Foreign Trade of Vietnam, they said.

The joint venture will produce annually 10,000 tonnes of alkylbenzene sulfonates and 1,000 tonnes of alcoholic surface-active agents, meeting all of Vietnam's domestic needs for these basic materials in detergents.

The project is expected to cost about six million dollars, the officials said.

CANBERRA (NOV. 8) - Foreign investors will be allowed to buy up to 40 percent of Australian Airlines and 35 percent of Qantas when the government sells them Prime Minister Bob Hawke said Thursday.

In a speech to parliament, Mr. Hawke gave no timetable for the sale of the airlines, approved by a special conference of the Labor Party on September 24.

But he hinted that it would not take place during the government's current term of office, which runs until March 1993.

The Labor Party conference approved government plans to sell all of Australian Airlines and 49 percent of Qantas.

Qantas chairman Bill Dix has said the airline's investment programme called for spending of at least one billion dollars (780 million U.S.) a year until the end of the century.

Mr. Hawke said no individual foreign investor would be permitted to buy more than 25 percent of Australian Airlines and total foreign investment would be limited to 40 percent.

The foreign investment limit for Qantas would be set at 35 percent.

Qantas would remain Australia's sole international carrier for the "foreseeable future", Mr. Hawke said, but there was a potential role for a second designated freight airline.

Mr. Hawke said there would be no more major aviation policy changes during the government's fourth term in order to allow induistry deregulation, effective this month, to work.

"It would ... be stupid to attempt to sell the airlines while shifting the goal posts for potential purchasers," he said.

Opposition Leader John Hewson described the announcement as welcome but half-hearted.

There was no reason not to remove the limits immediately and move to full competition, including participation of foreign airlines, he said.

Mr. Hewson said the opposition was "a bit fascinated" by the 49 percent limit on Qantas which would leave it in the public sector.

TOKYO (NOV. 8) - Japanese electronics giant Toshiba Corp. said Thursday it had formed a research laboratory with four other leading firms to develop advanced computer-graphics technology using high-definition television (HDTV).

Toshiba said the joint laboratory -- representing the electronics, construction, textile and media industries -- would carry out a 10-month project costing 500 million yen (four million dollars).

Other partners are Toray Industries Inc., the country's biggest manufacturer of synthetic fibres, Shimizu Corp., a leading construction company, Canon Sales Co. Inc., the sales unit of Japan's biggest cameramaker, and NHK Entreprises Ltd., an affiliate of the national television network Japan Broadcasting Corp.

"Specialists from the member companies, including computer engineers and designers, will jointly develop advanced computer graphics technology that will be widely applicable in the future," a joint statement said.

The statement said the lab would also be working in cooperation with Carnegie Mellon University of the United States which it said currently had the world's leading technology for computer graphics. Research into computer graphics had until now been done by single companies or industries, it added.

The lab will use the HDTV system known as Hi-Vision, which has been developed by NHK as the main rival to another system in Europe. Both systems offer

extremely high quality pictures and are currently locked in a battle to become the world standard for the next generation of televisions.

One of the lab's projects will be to develop a software program called "Albert" explaining Einstein's thoery of relativity, the statement said.

#90312d7350 11/08/1990 ~French/German News Agency

Manama (NOV. 8) - Oil revenues for Gulf states could more than double over the next year, according to a report released here Thursday.

The report, prepared by the Bahrain-based Gulf International Bank, attributed this to high prices and increased production levels that followed the Iraqi invasion of Kuwait on August 2.

Saudi Arabia, the United Arab Emirates (Uae) and other Opec members have boosted their short-term production to make up for oil lost from Kuwait and Iraq following the imposition of the United Nations economic embargo.

''If oil prices prevail above 25 dollars a barrel throughout 1991, with production at full capacity, government revenues could more than double compared to last year,'' the report said.

However, the report advised Gulf states to boost their oil output capacity to keep their prices competitive.

''The oil capacity needs to be boosted to levels enabling them (Gulf states) to pump additional oil when required, to cope with sudden bursts in world demand, or an unforeseen drop in supply, similar to the current situation,'' it said.

TOKYO (NOV. 8) - Mitsubishi Estate Co. Ltd., Japan's second-biggest real-estate concern, said Thursday its net profit grew eight percent to 21.8 billion yen (158 million dollars) in the six months to September.

The company, which stunned the United States last year with its purchase of a majority stake in New York's landmark Rockefeller Center, said revenue jumped 30.1 percent to 167 billion yen (1.2 billion dollars) from the same period last year.

Revenue from leasing land and office buildings rose 9.4 percent to 93 billion yen (674 million dollars) while real-estate revenue doubled to 53 billion yen (385 million yen). Revenue from building design and contract work grew 31 percent to 19 billion yen (138 million dollars).

The company forecast a net profit of 44 billion yen (319 million dollars) for the full year, slightly above its previous estimate, on sales of 330 billion yen (2.4 billion dollars).

Colombo (NOV. 8) - A five-month war against separatist Tamil rebels has left troops in control of less than 20 per cent of Sri Lanka's northern province, Deputy Defence Minister Ranjan Wijeratne said Thursday.

Wijeratne refused to admit that the rest of the province was held by the rebel Liberation Tigers of Tamil Eelam, but independent reports said the Tigers were in control.

The minister said that the government offensive had slowed down due to the ''want of men''. He said the government was in the process of training reinforcements.

''When we capture an area we have to hold on to it. For this we need more troops. We have enough meterial, but not the men so we are now training them'', he added.

The Tigers, part of the Hindu minority that make up 17 per cent of Sri Lanka's 15 million population, are fighting for an independent state in the north and northeast.

Wijeratne claimed that the troops were in ''overall control' of the east. Independent reports have indicated the rebels are holding eastern areas around Trincomalee, Batticaloa and Ampara.

The 21-week war in the north and east has killed more than 1,000 civilians,

1,200 security personnel and 2,000 rebels, according to official figures. dpa ms 081156 nov 90

#90312d7510 11/08/1990 ~French/German News Agency
TOKYO (NOV. 8) - Hitachi Ltd., Japan's biggest manufacturer of electrical equipment, said Thursday it planned to set up a new company in France next year to make computer parts for the European market.

The new company, Hitachi Computer Products (Europe) SA, will be based near Orleans and initially capitalised at 100 million francs (20 million dollars) from February, rising to 174 million francs (35 million dollars) in 1993.

A new plant is due to start operating in April 1992, producing magnetic disc subsystems and related parts and possibly moving into other fields such as work-stations, application programs and research and development activities.

"Hitachi plans for the company to play a pivotal role in the development of its European electronics sector operations in coming years," a statement said. "This type of integration has become a particulary urgent issue in Europe because of the unification of the (European) market secheduled for late 1992."

The company said the move was part of a globalisation program which already included a computer parts unit set up in the United States in 1985 and which now makes semi-conductors as well as subsytems for magnetic discs and tapes.

Hitachi's existing plants in Europe include a British unit set up in 1979 to make televisions, video-cassete recorders and other consumer goods as well as a similar plant in Germany, established in 1980. The company has also produced semi-conductors at a separate German unit since 1980.

#90312d7610 11/08/1990 ~French/German News Agency

PRETORIA (NOV. 8) - The value of South Africa's agricultural exports is expected to dip by more than 600 million rands (234 million dollars) compared with the sector's record foreign exchange earnings last year, latest Agriculture Department estimates show.

The department has put the value of this year's exports at 5.1 billion rands (1.9 billion dollars) against last year's record of 5.7 billion rands (2.23 billion dollars).

Main reason is a 15 percent reduction in the world price of wool and a fall of about 3.5 million tons in this year's maize harvest from 1989's huge crop of 11.5 million tons.

Maize exports are only expected to bring in about 340 million rands (133 million dollars) against 1.4 billion rands (546 million dollars) in 1989.

Sugar earnings are also expected to be down, with the South African Sugar Association estimating that exports will earn 559 million rands (218 million dollars) in the current trading year as opposed to 698 million rands (272 million dollars) in 1989.

But foreign exchange earnings have been boosted by a big increase in the value of fresh deciduous fruit shipped abroad -- up by more than 40 percent from 920 million rands (358 million dollars) in 1989 to an estimated 1.337 billion rands (524 million dollars) this year.

Meanwhile, South Africa is expected to have to import some 800,000 tons of wheat following poor rainfall in the growing area. This year's crop is expected to yield only 1.7 million tons against domestic wheat requirement of 2.5 million tons.

#90312d7720 11/08/1990 ~French/German News Agency

PARIS (NOV. 8) - The French state-owned Renault car company plans to cut its workforce by 4,620 people in 1991 to reduce the number of employees to 63,128 by the end of the year, trades union sources said on Thursday.

Renault management declined to comment, beyond saying that a plan which was explained to employees on Wednesday would be published on November 13.

The union sources said that the company planned to make the cuts because of a fall in profits and a weakening of the European market for cars.

Renault has said that it expects profits in 1990 to fall by 60 per cent from nine billion French francs (about 1.8 billion dollars) in 1989 to four billion francs (800 million dollars).

#90312d7820 11/08/1990 ~French/German News Agency
MANILA (NOV. 8) - The Philippines' current account deficit rose by 50 percent in the first eight months of the year to hit 1.69 billion dollars, the Central Bank (CB) said Thursday.

The balance of payments deficit, however, fell 46 percent to 266 million dollars, compared with the same period last year, after rescheduling of foreign debt, the CB said in a statement.

The trade deficit alone soared 5O percent to 2.56 billion dollars. Exports rose by 3.35 percent to 5.3 billion dollars while imports jumped 15 percent to 7.87 billion dollars, the CB said. The current account measures trade plus some transfers.

The CB attributed the fall in the balance of payments deficit to foreign debt restructuring schemes, adding that without them the deficit would have hit 1.46 billion dollars.

The Philippine peso was devalued 8.7 percent last week and has fallen by 25 percent against the U.S. dollar since January. Inflation on a yearly basis was running at 12 percent in October, up from 11 percent in September.

-30- 1217
#90312d7890 11/08/1990 ~French/German News Agency
LONDON (NOV. 8) - Sugar supply and demand is roughly in balance for the 1990-1991 production season, according to trade house Czarnikow in its latest report here.

Czarnikow forecast September 1990-August 1991 production at 110.69 million tonnes, up from its August forecast of 109.87 million.

Consumption for the calendar year 1991 was forecast at 110.43 million tonnes, down from 110.8 million forecast in August.

Although this leaves the market in slight surplus, the addition of a 600,000 tonne disappearance factor brings the market into deficit to the tune of 340,000 tonnes, the trade house said.

Czarnikow's forecast compares with a one-million-tonne surplus forecast by rival trade house E.D. and F. Man earlier this week, and with an International Sugar Organisation forecast made in September for a 500,000 tonne surplus.

Czarnikow pointed out that its use of calendar year consumption figures instead of season estimates explain most of the discrepancy.

The forecast confirms a trend towards expectations that the sugar market is moving towards equilibrium after five successive years of deficit which have eroded world stocks.

Czarnikow increased its Indian crop estimate for the season by 250,000 tonnes to 12.25 million tonnes, a level at which it said 11.4 million tonnes could be covered and exports resumed.

Trade sources said Thursday morning that India is expected to announce a sale tender for two cargoes of sugar for December shipment later in the day.

#90312d7940 11/08/1990 ~French/German News Agency

BEIJING (NOV. 8) - China has suspended diplomatic relations with Nicaragua in retaliation for the Central American country's decision to set up diplomatic ties with Taiwan, the official New China News Agency (NCNA) said.

The move by Beijing -- which does not maintain diplomatic ties with any nation that recognises Taipei -- was revealed in a brief announcement by NCNA from Managua Wednesday, without any comment from the Chinese media Thursday.

NCNA said China's ambassador to Nicaragua, Huang Zhiliang, had protested Wednesday to Nicaraguan Foreign Minister Enrique Dreyfus at Managua's decision Monday to recognise the Nationalist government in Taipei.

Managua's recognition of Taipei "violated the joint communique issued by China and Nicaragua, when they established diplomatic ties on December 7, 1985," NCNA said.

Mr. Huang had said Managua had at that time recognised China as "the country's only legitimate government and that Taiwan is a territorial and inseparable part of the People's Republic of China," NCNA said.

Beijing's official position is that Taiwan is a Chinese province which will inevitably be reconciled with the mainland one day.

China's Foreign Ministry had not released the news 24 hours after the ties were suspended.

Observers here attributed the silence by the government and the official media to Beijing's embarrassment at Taipei's success in being first to establish links with a country which recently "abandoned the socialist path."

Nicaragua opted for a centre-right government in February, with the election defeat of the Sandinistas and the fall of their chief, Daniel Ortega, a close ally of mainland China.

Since the crushing of the pro-democracy movement here in June 1989, Grenada, Liberia, Belize, Lesotho and Guinea-Bissau have all turned to Taipei, in preference to Beijing.

#90312d8100 11/08/1990 ~French/German News Agency
BRUSSELS (NOV. 8) - A senior official in the Rwandan Patriotic Front denied Thursday that rebel leader Major-General Fred Rwigyema was killed by one of his aides, who was then slain in turn by Rwigyema loyalists.

Mr. 'Tito', a member of the RPF's executive committee, stated here that the claim, made Wednesday in Nairobi by sources close to the rebels, was "lying propaganda".

Last Saturday, Mr. Tito, who asked that his full name not be given for security reasons, said in Brussels that Maj.-Gen. Rwigyema had died in a mine blast in northeastern Rwanda on October 2, one day after leading rebel forces into the east African country from Uganda.

The sources in Nairobi, however, said he was shot on October 3 by his deputy, Major Peter Bayingana, who opposed his plan for a lightning strike on the Rwandan capital Kigali and wanted a slow guerrilla war to wear down the regime in power.

That account was confirmed by Western diplomats in Nairobi, while the Rwandan army said no mines had been laid near the Kagitumba border post whence the invasion was launched.

Maj. Bayingana and another rebel leader, Major Chris Bunyenzeni, were later killed by rebels angered by the death of Maj.-Gen. Rwigyema, according to the sources in Nairobi.

The RPF on Thursday, however, released a letter here which it said was written by the widows of the three men, all killed in action against government forces and "buried on the battlefield", according to Mr. Tito.

"The enemy is doing its best to sow discord among us by disinformation," the three women were presented as writing.

"It has unashamedly spread rumours of rivalry among our husbands which led to their deaths. This is a tactic which is more than absurd and which throws light on the despair of an enemy conscious of its impending defeat."

Mr. Tito had on Saturday said the death of Maj.-Gen. Rwigyema, former deputy commander of the Ugandan army, was hushed up to avoid "demobilizing" the rebel forces, a stance echoed on Wednesday by a source close to the rebels in Nairobi.

Most RPF fighters are Ugandan army deserters of the Tutsi people whose

families fled Rwanda amid horrific massacres in the late 1950s, when the Hutu majority seized power in the prelude to independence from Belgium in 1962.

#90312d8120 11/08/1990 ~French/German News Agency

LONDON (NOV. 8) - Harried British author Salman Rushdie, who has been living in hiding after the late Ayatollah Ruhollah Khomeini's death sentence for allegedly blaspheming Islam, said Thursday he wanted "to find an end to this story".

"I wonder sometimes what a person who wasn't a writer would do in such a situation," Mr. Rushdie said in an interview with a U.S. friend, Gerald Marzorati, last month that was published by The Guardian Thursday.

The Indian-born author has been living under cover since February 15 last year after publication of his book The Satanic Verses drew violent reactions from Moslems in Britain and overseas.

"Now as then, I spend much of each day writing and reading", Mr. Rushdie said in an apartment, not his own and under heavy police protection.

Since the late Iranian leader's "fatwa", or edict to execute the writer, Mr. Rushdie has given up driving his car, and shuns cinemas and shopping.

In the first five months of his forced seclusion ,he reportedly moved 56 times.

Mr. Rushdie now busies himself with reading newspapers, watching "too much" television, making phone calls, and meeting visitors, mostly publishers and writer friends.

"I've simply decided I'm going to let myself smoke" after a seven-year halt. "I have reason for it", he said.

Mr. Rushdie has spoken to Czechoslovak President Vaclav Havel, a writer himself, who, he said, "has proven a staunch supporter, organising a petition to the Iranian government to have the fatwa lifted". So far to no avail.

A meeting in London earlier this year, sought by the president, could not be arranged due to security reasons.

#90312d8130 11/08/1990 ~French/German News Agency

Duesseldorf (NOV. 8) - Dow Jones Inc., publisher of the Wall Street Journal, and the German publishing group Georg von Holtzbrinck announced Thursday a joint venture in the field of international publications.

The venture, ''Handelsblatt-Dow Jones'', will be based in Frankfurt and will work jointly in advertising sales and newspaper sales in Germany and the rest of Europe, the announcement said.

Handelsblatt is Germany's leading daily business newspaper with a circulation of around 140,000 copies. The Wall Street Journal has a circulation of some 2 million, and its European edition about 50,000.

Both Dow Jones and Holtzbrinck are partners in a number of other European ventures, including the French group Expansion, the announcement noted.

Holtzbrinck declined to disclose the equity breakdown in its partnership with Dow Jones in the new venture.

#90312d8190 11/08/1990 ~French/German News Agency

NEW DELHI (NOV. 8) - Former Prime Minister Rajiv Gandhi Thursday declined to form a new Indian government to replace the outgoing administration of Prime Minister Vishwanath Pratap Singh.

''We will not be able to put together a stable government on our own because we do not have a majority'', said Gandhi, whose Congress (I) Party is the largest in the 545-seat lower house of parliament.

President Ramaswamy Venkataraman had asked Gandhi if would be ''able and willing'' to form a cabinet after Singh's 11-month-old minority government resigned Wednesday when the prime minister lost a vote of confidence in parliament.

Gandhi said ''there is no change in the party's stand in extending support from outside'' to a splinter group of Singh's Janata Dal, which triggered the resignation.

The rebels, led by Chandra Shekhar, 63, a long time party official, withdrew their support from the prime minister on Monday and sought Gandhi's help in forming a new government.

BELGRADE (NOV. 8) - Albania, in a radical change of policy, is prepared to let places of worship reopen after a ban of more than 20 years, its leader, Ramiz Alia, said in a speech carried Thursday by the official news agency ATA.

The current constitution, adopted in 1976, "violates freedom of conscience by making atheism a normal state", Mr. Alia told a communist party central committee meeting in Tirana Wednesday, according to the report monitored here.

"The people must decide", he said. "We cannot oppose those who support closing places of worship, but by the same token we can't ignore the opinion of people who want them opened".

Authorities closed down places of worship in 1967. Albania, once a Moslem country, is officially atheistic and all religious activities are illegal.

"Anyone has the right to be an atheist, (but) there can be no question of prohibiting someone from being religious", Mr. Alia added.

In the speech, he called for articles 37 and 55 of the constitution to be amended.

The first says the state "does not recognize any religion" and "supports and develops atheist propaganda" to promote "the concept of scientific materialism". The second article forbids the creation of "fascist, anti-democratic or religious" types of organizations.

Changing the constitution, Mr. Alia added, did not mean "the communists and others are abandoning atheism and the right to make atheistic propaganda", which, he said, was "a right as democratic as believing in a religion".

Albania is governed by Eastern Europe's last hardline Stalinist regime.

However, its constitution and law are to be changed in response to demands by the Conference on Security and Cooperation in Europe (CSCE). Albania obtained CSCE observer in June and has applied for full membership.

In the speech, Mr. Alia also said he favoured making mass organizations -- like trade unions, the youth organization and the party-backed Democratic Front -- independent of the communist party.

LONDON (NOV. 8) - The British Steel company on Thursday announced closure of its seamless tube plant at Clydesdale in Scotland with the loss of 1,200 jobs.

The plant has made losses for six years, and the company, which was privatised in 1988, said it had decided on closing because of excess world capacity.

The Financial Times newspaper had reported on Wednesday that British Steel was discussing a partnership arrangement with Japanese steel companies.

British Steel, which produced 14.6 million tons of steel last year, is the fourth-biggest producer in the world and is the most profitable European producer.

#90312d8300 11/08/1990 ~French/German News Agency

COLOMBO (NOV. 8) - Two senior ministers on Thursday flayed a human rights report prepared by members of the European Parliament in which it was alleged that at least 60,000 people disappeared in Sri Lanka since 1987.

"It is a one-sided report," Ranil Wickremasinghe, minister of industries and leader of the House in Parliament, told reporters. He said the team had not spoken to all parties in making the report.

"The European Parliament has got into the habit of whacking Asian countries," Mr. Wickremasinghe said. First it was China and now Sri Lanka, he said.

"Those who claim to uphold fundamental rights must also practice what they preach," Mr. Wickremasinghe said, alleging that the European group had violated normal procedures by not informing the government of its arrival here.

The report was released Saturday by the human rights team, which included two members of the European Parliament, Christine Oddy and Alex Smith of Britain.

The report said various estimates suggested that "at least 60,000 disappeared in the south since 1987" but that the figure could be higher.

It said the findings were based on interviews with relatives of missing persons, MPs, senior government and military officials.

"People can write reports and reports. Only thing is I hope those who write the reports are not prejudiced," Minister of State for Defence Ranjan Wijeratne said.

"It is easy for people to write about excesses and abuses but why didn't they come when my party people were killed," Mr. Wijeratne said, referring to a violent anti-government campaign by the extremist People's Liberation Front (JVP).

"Why is that they (the human rights workers) are so concerned when we have taken control of the situation?", the minister said. "It was a life and death battle for us then. The whole world was silent."

The JVP insurgency, which was widespread in southern Sri Lanka, was crushed by the military in November 1989.

A large number of cases "linked the alleged involvement either direct or indirect of the police and armed forces" the report said, adding that when the group met Mr. Wijeratne he had admitted to army excesses.

Accusing the "so-called human rights activists" of fighting the cause of criminals, Mr. Wijeratne said excesses occurred in the natural course of justice.

"Do not innocent people die in the crossfire," he said, adding that only when "bombs go under their seats will they (the human rights activists) realise what terrorism is."

BY OLAF VON RANDOW

HAMBURG (NOV. 8) - The flags and banners have been put away, the euphoria has vanished, and now, more distinctly than ever before, it has become clear that the October 3 German unification has brought together two unequal partners whose economies are running in completely opposite directions.

While industry in the eleven states comprising the former West Germany enjoy an unparalleled economic boom, continuing an uninterrupted nine-year period of growth, the five new states in eastern Germany are suffering a collapse.

In western Germany, industrial production in the August-September period, as in the preceding months, rose by six per cent. In eastern Germany, output has collapsed, running in August 51 per cent lower than in the same month a year earlier.

Contributing to this development has been an unprecedented buying spree by East German consumers, who for decades were cut off from western consumer goods. Their demand for West German-produced goods has started to create supply problems in the West.

For example, German carmakers even despite introducing overtime work shifts, cannot keep up with demand and are expecting to set a production record this year of around 5 million vehicles. The market in western German for used cars has been virtually swept clean by East German buyers.

In July and August, the combined purchases by East and West Germans in western Germany were 13 per cent higher than a year earlier. This means that the demand coming from eastern Germany has mainly filled up the order books in western Germany.

In the August-September period, West German industrial orders stood 12.7 per cent higher than a year earlier.

MOSCOW (NOV. 8) - About 40 young men, dressed in pre-revolutionary army uniforms, marched through central Moscow on Thursday to pay tribute to "white guards" who fought against Red Army troops during the civil war, Tass news agency reported.

Flying the pre-revolutionary white-blue-red flag, with a black two-headed eagle in the upper corner, the demonstrators, from the Russian Vityaz (knight) monarchist union, held a commemoration service near Ascension Cathedral.

They then laid a wreath at the former mansion of Prince Gagarin, near where military cadets and revolutionaries clashed in fierce fighting in October 1917 after Lenin's coup d'etat.

The Soviet Union on Wednesday marked the 73th anniversary of the revolution, now commemorated in November because of the change in calendar.

MANILA (NOV. 8) - A two-year-old girl was killed, two people were missing and 193 rescued after a ferry caught fire at sea off the southern Philippine island of Mindanao, the navy said here Thursday.

The coast guard and private boats managed to rescue 145 passengers and 48 crew from the MV Surigao del Sur, which was earlier reported to have sunk, navy reports from the area said.

The vessel, earlier identified as the MV Tandag, was towed to an island after being disabled by the fire, which began in the engine room, the navy said.

#90312d8350 11/08/1990 ~French/German News Agency

PARIS (NOV. 8) - French Foreign Minister Roland Dumas called on Thursday for faster progress towards EEC economic and monetary union (EMU) by strengthening the role of the Ecu in public and private transactions.

"Why wait until 2000 to give the Ecu (European Currency Unit) full rights in public and private transactions?" he asked in a parliamentary debate on the budget.

He said that the Ecu was "becoming a real common currency which could co-exist with national currencies".

The pay of members of parliament and of civil servants could be denominated in Ecus, and he hoped to see companies use the Ecu as a means of billing and for keeping their accounts.

Mr. Dumas raised the possibility of promoting the Ecu in tourism, for hotel bills, travellers' cheques, and transaction between airlines.

#90312d8540 11/08/1990 ~French/German News Agency

Jerusalem (NOV. 8) - Palestinians in the Israeli-occupied territories observed a general strike Thursday to commemorate the Temple Mount incident of October 8 when about 20 Arabs were killed by Israeli security forces.

Most shops and businesses on the West Bank and the Gaza Strip stayed closed. There were no reports of clashes between demonstrators and Israeli police.

Meanwhile at Jenin jail in the north of the West Bank, prisoners stabbed to death a 36-year-old guard, officials said.

In another incident, a Palestinian attacked an Israeli soldier with a knife at the Rafiach refugee camp in the Gaza Strip. The soldier, who was wearing a protective vest, was uninjured.

#90312d8550 11/08/1990 ~French/German News Agency

OSLO (NOV. 8) - The upcoming visit of Soviet President Mikhail Gorbachev, who will receive the Nobel peace prize on December 10, is clouded by diverging interests, and the visit might turn out to be extremely short, conservative morning newspaper Aftenposten wrote on Thursday.

The Nobel peace prize committee and the Soviet embassy in Oslo are unable to agree on a program for President Gorbachev, and neither can say anything as to the date of arrival and the duration of the stay.

With the award ceremony only four weeks off, it is still unclear whether Mr. Gorbachev wants a special program set up for him. Aftenposten said the Soviet embassy is unhappy with the way the Nobel committee is handling the visit.

A sticking point is formalities regarding the arrival ceremony at Oslo airport. Traditionally the award winner is met by the committee chairman, but the embassy demands the presence of government members, preferably the Prime Minister herself.

"President Gorbatchev is no Mother Theresa," the newspaper wrote, quoting an unidentified Soviet embassy official.

The director of the Nobel Institute, Geir Lundestad, said tradition played an important part, and that the committee would stress its independent position by meeting the President alone.

It seems obvious that Mr. Gorbachev will not stay for three whole days, as planned by the Nobel committee. Most likely he will arrive just a few hours before the award ceremony and leave the following day, reducing the visit to an absolute minimum, Aftenposten wrote.

#90312d8600 11/08/1990 ~French/German News Agency

PARIS (NOV. 8) - French Foreign Minister Roland Dumas, warning against unilateral steps in the Gulf crisis, said here Thursday the United Nations Security Council was the only body authorized to outline international action against Iraq.

France demanded strict compliance with U.N. resolutions that could be "altered completed or clarified" only by the Security Council, Mr. Dumas said, addressing parliament in a budget debate.

Legal rights could not be created by force, Mr. Dumas said, referring to "all Middle East conflicts, in Lebanon, and in the seemingly endless war opposing Israelis and Palestinians".

Mr. Dumas also reiterated French calls for creation of a Palestinian state.

"The Israelis cannot deny the Palestinians what they themselves have obtained -- a state, a homeland of which to be proud", he said. France "more than ever calls for an international conference to be held", he added.

MANAMA (NOV. 8) - Iraqi authorities, probing for international understanding, are allowing more hostages to leave Baghad as Arab and Western leaders issue fresh warnings of war in the Gulf.

British Prime Minister Margaret Thather, in some of the bluntest talk yet by a Western leader, declared Wednesday that Iraqi President Saddam Hussein had better get his troops out of Kuwait "soon, or we and our allies will remove him by force."

At the same time the United States, according to reports by two U.S. television networks, has decided to bolster its Gulf deployment by 700 tanks and 100,000 troops.

Egyptian President Hosni Mubarak, also warning that war was inevitable unless Mr. Hussein took his troops out of Kuwait, announced that Egypt too was strengthening its military presence in Saudi Arabia by 400 tanks and 7,000 men.

As war talk gathered pace, Iraq offered fresh concessions on the hostage

question.

At least five delegations of Western figures, in defiance of the United States are now planning to travel to Baghdad to arrange the release of their nationals.

Iraq on Wednesday gave them reason to hope that their missions might bear fruit when it authorized the release of 238 Poles, 100 Germans and 20 citizens of other nationalities.

Earlier in the day 74 Japanese flew out of Baghdad for Tokyo, thanks to the intervention of former Japanese Prime Minister Yasuhiro Nakasone.

President Hussein authorized the departure of the Japanese on Tuesday and on Wednesday, in response to a request from former West German Chancellor Willy Brandt, agreed to set free the Germans and citizens of 20 other nations.

Three MPs from Canada and four from Switzerland, without the backing of their governments, are now preparing to try their luck with Mr. Hussein, who is holding 80 Swiss and 70 Canadian nationals.

BRUSSELS (NOV. 8) - The European Economic Community (EEC) is to make an emergency donation of aid worth 4.6 million dollars to combat famine and the effects of civil war in Ethiopia, the European Commission said here Thursday.

The commission, the executive of the EEC, said the money would be used to improve transport and the distribution of foods, medicines and other necessities in the Asmara region and Eritrea.

It said in a statement that food shortages in Eritrea and Tigre provinces were getting worse, and that the number of people needing emergency medical treatment for malnutrition was growing.

There was also an increased risk of epidemics resulting from a lack of water purification equipment and fuel, the commission said.

Since the closure of the port of Massawa in February, emergency efforts have been made to establish new conduits of aid to the north, notably an airbridge set up by the United Nations.

#90312d8730 11/08/1990 ~French/German News Agency

Frankfurt (NOV. 8) - The sale of the financially troubled giant retailing firm Co op to a rival company, Asko Deutsche Kaufhaus, will be completed

shortly, Co op's majority shareholder said Thursday.

Dg bank, which holds 67.5 percent of Co op, said ''negotiations have reached a very advanced stage'' with Asko, based in Saarbruecken, for the sale. The Frankfurt bank said it expected the transaction to be completed by the coming weekend.

The development comes a year after Co op was on the verge of bankruptcy and could only be rescued through a major reorganisation effort and strong financial backing from Dg bank and another institute, the BfG bank, which holds 22.5 percent of Co op's equity.

Co op had become embroiled in a fraud scandal involving several of its top-level managers, the chief allegation being a coverup of the company's precarious financial situation in the early 1980s while it borrowed increasing amounts of money to stay afloat.

By September 1989, Co op had outstanding debts of some 2.7 billion marks, with 2.3 billion in unsecured loans.

Co op is due to present its next annual business report November 14. Company managers recently hinted that the company may show a 100 million mark (67 million dollar) surplus, on turnover of some 4 billion marks, chiefly resulting from the sale of various holdings.

Before its financial problems, Co op's turnover was in the range of some 12 billion marks annually.

BEIJING (NOV. 8) - Passenger service on a new rail link between northwest China and Soviet Central Asia is to start in June 1992, the official New China News Agency (NCNA) has announced.

Freight service on what is being billed as "the Eurasian continental land bridge" will open three months later, it added.

The dates were set at a meeting of Chinese and Soviet railway delegations on Monday in Urumqi, capital of the mainly Moslem northwest region of Xinjiang, the news agency said.

Under construction for several years, the Chinese leg of the railway is to join a long-existant Soviet line at Druzhba, in Kazakhstan, which in turn connects with the Trans-Siberian Railway.

Officials in Urumqi have said they hope the new line will open their poor but resource-rich region to new markets in Europe.

It is expected to complement Beijing-Moscow rail services which now operate via Mongolia or northeast China.

NCNA also reported that work had begun on an electrified railway from northwestern Shaanxi province, through Gansu province and into Ningxia Autonomous Region.

With a total length of nearly 500 kilometers (310 miles), it is to link up with four national rail trunk lines.

#90312d8760 11/08/1990 ~French/German News Agency

MOGADISHU (NOV. 8) - A Somali military plane has been "missing" since it took off from here for a test flight Wednesday, military authorities said here Thursday.

Two men were aboard the plane, a Gestetner CI 260.

The plane's disappearance follows the defection to neighbouring Djibouti last week of three senior Somali army officers. Djibouti agreed to help them find a country of asylum.

The soldiers were based in northern Somalia, where recent gains have been made by the Somali National Movement, one of three main rebel forces seeking to topple the embattled 21-year-old government of President Mohamed Siad Barre.

Military officials named the plane's two occupants, presumably air force officers, as Ahmed Abdi Shino and Abdiwali Jama Warsame, but did not give their ranks.

They appealed to the public to report any information on the plane's whereabouts to the armed forces.

#90312d8870 11/08/1990 ~French/German News Agency

BEIJING (NOV. 8) - A Sino-Canadian joint venture to bottle alcoholic beverages has formally opened in Shanghai with a total investment of 8.5 million dollars, the official New China News Agency reported.

Shanghai Seagram Ltd., owned jointly by Seagram's and China Winery, has already produced 1.3 million bottles of wine coolers during four months of trial operation, it said.

Seagram's chairman and chief executive officer, Edgar Bronfman, attended Wednesday's inauguration, it said.

-30- 657
#90312d8980 11/08/1990 ~French/German News Agency
TOKYO (NOV. 8) - Japan's Daihatsu Motor Co. said Thursday it would produce small commercial motor vehicles in Italy jointly with that country's Piaggio and C.S.P.A.

For the first year, the two automakers plan to produce 25,000 trucks and vans with exhaust volumes ranging from 800 to 1,000 cubic centimeters, Daihatsu said.

The trucks and vans will be sold in Italy and other European countries, it said, without specifying when and where joint production would start.

-30- 653
#90312d9000 11/08/1990 ~French/German News Agency
ATHENS (NOV. 8) - Environment Minister Stephanos Manos announced an ambitious programme to fight air pollution here Thursday, ranging from tax incentives for people who buy "clean cars" to improved public transportation.

The plan to eliminate air pollution within seven years even affects bakers, who will have to switch from oil to diesel fuel to heat ovens by next April 1.

Automobiles and other vehicles produce 80 percent of the gases that hang over the Greek capital in the form of a nefos, or toxic cloud, making life miserable for four million Athenians.

To combat this, the government plans to set up facilities to fit old cars with catalytic converters and filters, while significant tax breaks will be offered to people who purchase new cars fitted with anti-pollution devices.

From January 1, 1993, cars without such equipment will be banned from downtown Athens.

Meanwhile, the quality of fuels is to be upgraded, with natural gas introduced whenever possible, and the city's bus and trolley systems improved. A mini-bus will go into operation in the city centre and two underground parking lots are to be built.

The government is also considering construction of two subway (underground) lines, whose estimated 1.3 to 1.6 billion dollar cost would be borne by the European Economic Community - 25 percent in the form of an outright grant, and the rest as loans.

-30- 1579

#90312d9120 11/08/1990 ~French/German News Agency
Duesseldorf (NOV. 8) - The energy, chemicals and industrial concern Veba said here Thursday that its surplus fell six percent in the first nine months of 1990 to 609 million marks (407 million dollars) despite a strong rise in turnover.

The company attributed the drop chiefly to weakening earnings in the chemical sector.

Veba said its overall group turnover reached 39.8 billion marks, up a strong 7.8 percent which reflected the first-time inclusion of its new acquisitions, the chemical firm Roehm and Veba-Wohnen, a services company.

The company said that for 1990 as a whole it expected its earnings result would be ''satisfactory''.

#90312d9240 11/08/1990 ~French/German News Agency
BEIJING (NOV. 8) - China on Thursday welcomed Japan's decision to abandon a plan to send non-combattant troops to the Gulf, reiterating its opposition in principle to a revival of Japanese militarism.

"Our position, that China disapproves the dispatch by the Japanese government of self-defense troops to the Gulf region, is a very clear-cut one," Foreign Ministry spokeswoman Li Jinhua told a weekly news conference here.

She was responding to Tokyo's decision Tuesday to scrap its plan to send non-combattant personnel to join multinational forces in the Gulf, in what would have been the first deployment of Japanese troops abroad since World War II.

-30- 834

#90312d9260 11/08/1990 ~French/German News Agency
BRUSSELS (NOV. 8) - The European Economic Community (EEC) took its project for a single insurance market a step further here Thursday by agreeing to drop some border barriers for life and auto assurance throughout the EEC.

EEC ministers agreed at a meeting that people could buy life and auto insurance policies anywhere within the community, thus assuring more competition.

For automobile insurance, companies will be free to market their policies anywhere within the EEC. And tariffs will be fixed by private assurers instead of by national authorities of member countries.

But auto assurers will still come under national control to the extent that

they will have to satisfy authorities that they are sufficiently solvent to meet claims.

A European Commission spokesman said the new measures would come into effect on January 1, 1991. Life insurance brokers will be able to operate throughout the EEC from 1996.

-30- 1094

#90312d9280 11/08/1990 ~French/German News Agency

BRUSSELS (NOV. 8) - The European commander of NATO and the head of the alliance's military committee are to visit the Soviet Union from Sunday to next Thursday, the North Atlantic Treaty Organisation said here Thursday.

The two men, committee chairman General Vigleid Eide of Norway and Supreme Allied Commander Europe General John Galvin of the United States, were invited by Soviet Defence Minister General Dmitri Yazov, NATO said in a statement.

The visit follows the trip of Soviet Deputy Defence Minister and Red Army chief of staff Mikhail Moiseyev to NATO headquarters here October 24-26.

Earlier this year, leaders of NATO countries called for intensified contacts with eastern and central European countries.

Leaders of most of these countries have already visited NATO. Next week, it will be the turn of Bulgarian Foreign Minister Luben Gotsav.

In Moscow, the two NATO leaders will meet Soviet military and political leaders. General Galvin's last stop will be a visit to the Soviet Black Sea fleet at Sevastopol.

LAGOS (NOV. 8) - Nigerian and Benin have agreed to speed up deliveries of import-export authorisations and reciprocally protect their citizens engaged in legal commercial activities, the independent Guardian reported Thursday.

The accord, signed last Monday in Cotonou, also provides for the exchange of information and data on trade as well as for holding joint trade fairs and exibitions, the newspaper said.

The agreement, signed by Benin's Minister of Commerce, Tourism and Crafts Richard Adjaho and Nigerian Trade and Tourism Minister Senas John Ukpanah, is the product of a Benin-Nigeria joint comission.

It is renewable every five years.

-30- 807
#90312d9460 11/08/1990 ~French/German News Agency
BRUSSELS (NOV. 8) - The European Economic Community (EEC) is to protect the designs of semiconductor products made by various countries outside the EEC on the same basis as those made by EEC members, it said here Thursday.

The European Commission said patents of semiconductor products from Australia, Japan, Sweden and Austria would be given protection with no time limits, on the same basis as that extended by those countries to the EEC.

Similar protection would be accorded to semiconductors from the United States and Switzerland on a reciprocal basis, but only until end-1992, it said.

Three countries from the European Free Trade Association (EFTA) - Iceland, Norway and Finland - would be accorded the same reciprocal right if they asked for it, the commission said.

In the case of Japan, Sweden and the United States, a previous accord expired on November 7, prompting the EEC to overhaul the protection system.

-30- 1102
#90312d9540 11/08/1990 ~French/German News Agency
LONDON (NOV. 8) - The British-U.S. SmithKline Beecham pharmaceuticals group on Thursday reported a pre-tax profit of 218 million pounds (about 427 million dollars) in the third quarter, representing an increase of 30 percent on the figure of 168 million pounds a year earlier.

The company said that it expected a strong performance in the last quarter.

The result was slightly above that forecast by analysts, and was achieved on sales down by 15 percent at 1.08 billion pounds (about 2.1 billion dollars) from 1.28 billion. This was due to the sale of assets early in the year and to the dollar's fall.

Earnings per share rose by 21 percent to 9.9 pence from 8.2 pence and a quarterly dividend of 3.4 pence was declared.

During the first nine months of the year pre-tax profits rose by eight per cent to 634 million pounds from 588 million on sales up one percent at 3.59 billion pounds from 3.57 billion.

Debt repayments were reduced from 39 million pounds in 1989 to 13 million pounds.

The company's shares fell by two pence to 577 pence on the news.

-30- 1255
#90312d9820 11/08/1990 ~French/German News Agency
LONDON (NOV 8) - The British inflation rate should fall to 5.5 percent at the end of 1991, Chancellor of the Exchequer John Major said here on Thursday.

The British inflation rate, on the basis of a calculation which includes the effect of interest rates on home loan repayments and local taxes, is currently nearly 11 percent which Mr. Major said was a peak

The forecast for the gross national product was unchanged and showed growth of one percent.

Public expenditure in the fiscal year beginning in April would be 200 billion pounds (about 392 million dollars) up from the figure of 192.3 billion pounds planned initially, he told the House of Commons.

About 7.5 billion pounds more than had been expected will be spent on health services, social security and on local facilities, he said.

In 1990-91 expenditure would total 180.6 billion pounds instead of 179 billion pounds and the budget surplus would be three billion pounds instead of seven billion pounds.

Mr. Major gave the figures in the annual autumn statement which brings up to date figures advanced on publication of the budget in March.

During the next three years defence spending would fall by six percent in real terms.

-30- 1411
#90312d9840 11/08/1990 ~French/German News Agency
Bonn (NOV. 8) - Soviet President Mikhail Gorbachev's visit to Bonn on Friday 9 will also take up, besides political questions, the possibility of German industrial assistance in helping the Soviets resolve their oil production problems, officials said Thursday.

Parallel to Gorbachev's talks with Bonn leaders, Economics Minister Helmut Haussmann will meet Deputy Premier Stepan Sitaryan. The two will then sign an economic cooperation agreement in the presence of Gorbachev and Chancellor Helmut Kohl.

The Economics Ministry ruled out that Haussmann and Sitaryan would negotiate specific oil and gas delivery deals.

But the question of the decline in Soviet oil output would likely come up, and the Bonn side would raise the possibility of German assistance in the

production and transport of Soviet oil.

Haussmann told Saarland Radio that hard currency earnings from oil and gas deliveries were the ''goal'' of the Gorbachev visit, and that an increase in such deliveries would be discussed.

Gorbachev needed the Deutschmark earnings in order to finance imports and provide capital to joint ventures, Haussmann said. But he added that the Kremlin leader had not ''directly expressed (to the Bonn) government any wish for credits'' prior to the visit.

The 20-page Bonn-Moscow economic treaty does not deal directly with oil and hard currency questions, but speaks in general terms about ''comprehensive cooperation'' in the economic, industrial, scientific and technological spheres.

MAPUTO (NOV 8) - Rebels of the Mozambique National Resistance (Renamo) have destroyed a convoy carrying famine relief food aid in the southern province of Inhambane, northeast of here, Radio Mozambique reported Thursday.

The radio said the attack on the convoy took place midday Tuesday on the main road that connects the port of Inhambane to the rest of the province.

The raiders, who struck when the convoy was just 20 kilometres (12 miles) out of the port, killed three people in the raid, and a further five are missing,

it said.

The rebels set the vehicles and the 70 tonnes of food that they were carrying on fire. When radio journalists reached the scene the following day, the trucks were still burning.

The food, consisting of maize, peas, vegetable oil and dried fish, was destined for victims of war and drought in Funhalouro district in the north of the province.

Renamo has stepped up its operations on the road out of Inhambane port in recent weeks, in what is seen as an attempt to isolate the port, which is located at the tip of a narrow peninsula, from the rest of the province.

The loss of the trucks is a severe blow to Mozambique's relief body, the Disasters Control Office, which was already desperately short of vehicles.

Relief officials have repeatedly warned that unless donors provide more trucks it will be impossible to distribute food aid to all those in need.

SAN SEBASTIAN, SPAIN (NOV. 8) EFE - Two Spanish civil guards were wounded Thursday when suspected Basque separatists exploded a bomb on a parked motorcycle as the two officials walked by on their way to work, authorities said.

The five-kg bomb blew up between the Civil Guard headquarters and a customs office in the town of Puerto de Pasajes, 10 km east of the Basque city of San Sebastian.

One civil guard lost a foot and the other suffered leg wounds from the blast, which also shattered windows and damaged nearby parked cars.

No group has claimed responsibility for the bomb, but officials said it bore the hallmarks of ETA, which has planted hundreds of similar devices in its 22-year-old struggle for the right to independence of Spain's northern Basque region.

LIMA (NOV. 8) EFE - More than 40,000 Peruvian state workers Thursday walked off the job, closing down the country's social security system and leaving hospitals with only emergency services as they began an indefinate nation-wide strike in demand of pay hikes.

The strike kicked off a planned campaign of stoppages this month, with the National Coalition of Public Business Unions, which includes workers in the electricity, water, oil, mineral, food, ports, iron and steel sectors due to walk out November 15.

Peru's state sector employs around 600,000 people, with labor leaders saying the majority of state workers earn less than the legal minimum wage of dlrs 57 per month.

Transport and communications workers have already begun strikes, while tax office employees are running a go-slow and blocking the collection of public levys.

The state sector has been severely hit by the drastic economic reform plan of President Alberto Fujimori, which plans to make savings by cutting back public spending.

On Wednesday joint Prime Minister and Economy Minister Juan Carlos Hurtado announced that from January differences in employees' wages within the extensive bureaucracy would be levelled out to a broadly similar figure.

The government has also said that as September and October's inflation rates have been under 10 percent, there would be no wage rises.

In response to this, both state and public employees last week announced a massive campaign of strikes.

Some 8,000 bank workers are already out, while oil workers and court officials are on a go-slow.

Further strikes are also planned by the private sector.

Although inflation fell to 9.6 percent for October, Peruvians have had to cope with the effects of the austerity measures introduced by the government which have caused the price of bread and milk to rocket by 300 percent, and petrol by 3,000 percent.

Of Peru's more than 20 million people, 55 percent live in poverty.

CAIRO (NOV. 8) EFE - Egypt announced Thursday that it was strenghtening its forces confronting Iraq in the Gulf immediately with 600 tanks and 5,000 soldiers.

The government's decision to reinforce its 14,000-man force in northern Saudi Arabia with two armoured divisions was reported by the official Cairo radio.

Egyptian troops already formed the second-largest foreign contingent after the United States in the mulinational force dispatched to the Gulf to persuade Iraq to withdraw from Kuwait which it invaded and annexed in August.

The announcement came two days after Egyptian President Hosni Mubarak and U.S. Secretary of State James Baker met in Cairo to discuss the possibility of military action against Iraq.

But Mubarak was quoted Thursday as saying that an attack against Iraq should be delayed for two or three months to see if a United Nations trade embargo imposed on Baghdad could work and force an Iraqi withdrawal.

In an interview with The New York Times, the Egyptian president said war would be inevitable if Iraqi President Saddam Hussein did not pull out of Kuwait.

Military sources said Cairo's backing for a possible U.S.-led attack against Iraq would be essential and reassert Arab condemnation of Iraq's agression.

Egypt, Saudi Arabia and Syria form the bulk of Arab forces confronting Iraq and have been coordinating operations in preparation for a possible war.

Egypt, a U.S. ally in the Middle East, has benefitted for its strong support of the multinational action against Iraq.

The United States has agreed to forgive a dlrs seven billion debt run up by Cairo to purchase U.S. military supplies and France has indicated that it will forgive dlrs 2.8 billion in military debts.

Another motive for Egypt's strong commitment to the anti-Iraq force derives from the embarrassment at the invasion caused to Mubarak.

A few days before Iraqi forces moved into Kuwait on August 2, Saddam assured Mubarak, an old ally, that there would be no invasion.

Mubarak relayed this information to U.S. Preident George Bush and publicly announced that he had done so.

Diplomats said he lost a lot of face with Egyptians when the invasion occurred.

AMMAN (NOV. 8) EFE - Red Cross societies in the United States and Europe have decided to ship medicines to their Moslem sister organization in Iraq, the Red Cresent, Jordanian press reported Thursday.

The reports quoted Jordan's Red Cresent vice president Mohammad Hadid as

saying that the donations would be arriving soon in the Jordanian capital of Amman.

"The U.S., French, German, Dutch, Japanese, Spanish and British Red Cross societies have informed our organization of their willingness to supply medicine to the Iraqi Red Cresent," Hadid said.

Following Iraq's invasion of Kuwait in August, the United Nations slapped a trade embargo on Baghdad, but food and medicine are allowed through.

The Jordanian Red Cresent has been working as a middleman between the U.S. Red Cross and the Iraqi Red Cresent to deliver mail to U.S. hostages held in Iraq.

BRASILIA (NOV. 8) EFE - The Brazilian government has announced immediate price hikes for fuel and public transportation ranging between 23 and 37 per cent, press reports said Thursday.

Economy Ministry secretary Edgard Pereira explained that the measure was necessary to correct an imbalance in public tariffs, and he predicted that the increases would not push the monthly inflation rate up by more than one per cent.

Under the government increases, which went into effect Thursday, electricity costs rose 23 per cent, city trains 36 per cent, interstate buses 27 per cent and fuel went up an average of almost 30 per cent.

A liter of gasoline now costs Brazilians dlrs 0.59 and diesel fuel dlrs 0.28 a liter. The government said the fuel increases were needed to offset higher imported oil prices resulting from the Gulf crisis.

It was the sixth fuel price adjustment since President Collor de Mello took office March 15. The accumulated increases for that period is 1,117 per cent.

The price of bread also rose Thursday by 20 per cent.

With an October inflation rate of 15.5 per cent, Collor de Mello's economic advisers predict a gradual rise in the monthly inflation rate until the end of the year, when it will settle at about 20 per cent.

The Economy Ministry said that in January 1991 domestic sales will fall and salaries will be largely reduced, forcing the inflation rate down.

#90312e0041 11/08/1990 ~Latin America New Agency

JERUSALEM (NOV. 8) EFE - The Israeli Army Thursday imposed a curfew in the West Bank town of Jenin after a prison guard was stabbed to death there earlier in the day.

The guard, Kamal Fares, was stabbed to death by a Palestinian who came to visit relatives at the Jenin jail. The assailant later fled.

Earlier reports listed Fares as a Jew, but authorities later said that he was a Druze Arab.

Many of Israel's Druze, an esoteric Moslem sect, are members of the security forces unlike other Israeli Arabs.

The guard's death brought to three the number of people killed in political violence Thursday in Israel.

A recent wave of violence in the Occupied Territories was sparked by the police shooting of 17 Palestinians last month and has been given fresh impetus by this week's assassination of extremist Rabbi Meir Kahane in New York.

An Israeli soldier and a Palestinian guerrilla were killed in a shoot-out in the Jordan Valley which separates the Israeli- occupied West Bank from Jordan.

According to Israeli military radio, the dead man was one of five Palestinians who were caught trying to enter the West Bank from Jordan.

The report said the other four were captured.

Meanwhile in the Gaza Strip town of Rafah, Israeli soldiers opened fire and wounded a Palestinian who had tried to stab one of the soldiers at a checkpoint.

#90312e0042 11/08/1990 ~Latin America New Agency

GUATEMALA CITY (NOV 8) EFE - Human rights abuses by Guatemalan security forces are thwarting efforts to establish democratic rule, rights monitors said Thursday, three days before scheduled presidential elections.

Guatemalan Human Rights Prosecutor Ramiro de Leon Carpio reported that 281 people were killed for political motives and 118 disappeared in the first 10 months of this year.

Deputy prosecutor Cesar Alvarez said most of the killings were committed by soldiers, police officers and paramilitary troops.

The victims included 11 politicians and three journalists, as well as students labor leaders and human rights activists, according to the independent Center for the Investigation, Study and Promotion of Human Rights.

Five of the 12 presidential candidates have received death threats.

The killings have created an atmosphere of terror which is scaring Guatemalans away from politics and destroying the impression that the balloting Sunday will be a free vote, the U.S. human rights group Americas Watch said.

The fairness of the elections will also be marred by the fact that the Army controls the political activity of hundreds of thousands of peasants living in so-called model villages, Americas Watch added.

The peasants were resettled in the villages in the early 1980s to prevent them from helping leftist guerrillas in the countryside.

Military officials and armed civilian patrols organized by the Army prevent peasants from leaving the villages and closely watch their activities.

Americas Watch said the Armed Forces and military-linked death squads continue to act with impunity, despite promises from President Vinicio Cerezo to end human rights abuses.

Cerezo, a Christian Democrat, took office in 1986 after more than 30 years of rule by the Armed Forces or military-dominated civilian governments.

Prosecutor de Leon expressed hope that "with a change of government there will be a change in the will to enforce the law" against human rights violators.

But he added, "It will be more difficult to preserve the democratic system" after the elections because all the candidates with a chance of winning "lean to the right."

Interior Minister Gen. Carlos Morales blamed the wave of killings on "a murder cartel," but he denied that they were work of death squads.

"There is a well-organized criminal operation, and the security forces have intensified their actions to control those groups," Morales said.

A further threat to the democratic process comes from former military dictator Efrain Rios Montt, whose presidential candidacy was banned by the Supreme Court last month and who has implicitly threatened to overthrow the government Americas Watch noted.

Rios Montt, who was leading opinion polls, was barred because of a constitutional provision prohibiting former coup leaders from holding office.

He came to power in a 1982 coup and ruled for 18 months during which the Army killed thousands of peasants as part of a counterinsurgency campaign.

#90312e0051 11/08/1990 ~Latin America New Agency

BUENOS AIRES (NOV. 8 EFE - Argentine President Carlos Menem signed a historic accord Thursday handing over title of the newly- privatized telephone company ENTel to its new owners, Spain's Telefonica and the Franco-Italian Stet consortium.

Under the terms of the deal, the two goups are to pay a total of dlrs 224 million cash and retire dlrs 4.94 billion in Argentine debt obligations on whatever terms they can get on the secondary market.

In return, state-owned Telefonica and its partners acquire a 60 per cent stake in the network's southern sector, while Stet-France Cable et Radio and its associates take a similar holding in the northern sector.

The Argentine government is to retain a 5 per cent holding, a further 20 per cent of shares will be offered to the public, 10 per cent distributed among the employees, and 5 per cent set aside for workers' co-operatives.

With the property comes an operating license valid for seven years and renewable for an additional three-year period. The government has guaranteed the buyers a 16 per cent annual return on their investment, making for combined profits of some dlrs 300 million.

Menem, who has made ENTel the flagship of his government's extensive privatization program, said the sell-off +has set an example for other latitudes, not only in Latin America+ of economic transformation that was both +necessary and profound+.

The sell-off, however, was plagued with problems, beginning when the bidding group originally awarded the northern sector, a consortium headed by the U.S. firm Bell Atlantic, backed out of the deal because of financing problems.

After the offer was matched by the Franco-Italian group, the sale survived some 30 different court challenges brought mainly by state-sector supporters, many of whom stand to lose their jobs if Menem's privatization program goes ahead.

Finally, the sale nearly came undone during last month's arduous negotiations over the billing rate the new owners would be allowed to charge Argentine

customers and the ajustments to be allowed for inflation and currency exchange rate variations.

WARSAW (NOV. 7) XINHUA - FEDERAL GERMANY TODAY ABOLISHED A DEBT OF 760 MILLION MARKS (380 MILLION U.S. DOLLARS) OWED BY POLAND SINCE 1975, ACCORDING TO AN AGREEMENT SIGNED BY REPRESENTATIVES FROM THE TWO COUNTRIES HERE TODAY.

UNDER THE AGREEMENT, POLAND IS ALLOWED TO PAY A 560-MILLION-MARK DEBT (280 MILLION DOLLARS) IN ZLOTIES IN THE NEXT TEN YEARS, THE POLISH TELEVISION REPORTED.

THE MOVE IS SEEN AS A FRIENDLY EXPRESSION PRIOR TO A MEETING BETWEEN GERMAN CHANCELLOR HELMUT KOHL AND POLISH PREMIER TADEUSZ MAZOWIECKI ON THE POLISH-GERMAN BORDER ON THURSDAY.

PAP SAID THE MEETING IS TO "MARK THE FIRST ANNIVERSARY OF KOHL'S HISTORIC VISIT TO POLAND," WHICH IS CONSIDERED AS "A SYMBOL OF GOOD-NEIGHBNORLINESS BETWEEN THE TWO COUNTRIES."

POLAND OWES MORE THAN 40 BILLION U.S DOLLARS IN FOREIGN DEBTS. IN THE PAST FEW YEARS, THE POLISH GOVERNMENT URGED CREDITOR NATIONS TO CANCEL PART OF THE DEBTS. SO FAR, FEDERAL GERMANY IS THE FIRST COUNTRY TO MAKE SUCH A DECISION.

LUSAKA (NOV. 8) XINHUA - ZAMBIA HAS INCREASED PRICES OF MILK AND SOME RELATED PRODUCTS BY ALMOST 30 PERCENT, ZAMBIA DAILY MAIL REPORTED TODAY.

THE DECISION WAS MADE BY THE DAIRY PRODUCE BOARD (DPB) IN COPPERBELT CITY OF NDOLA WHICH IS IN CHARGE OF DAIRY PRODUCE.

THE RETAIL PRICE OF ONE LITRE OF MILK HAS NOW SHOT UP TO 24 KWACHA FROM 19 KWACHA (40 KWACHA EQUAL ONE U.S. DOLLAR) WHILE THE HALF LITRE CONTAINER WHICH WAS 9.95 KWACHA HAS BEEN HIKED TO 12 KWACHA.

PRICES OF MILK PRODUCTS SUCH AS BISCUITS AND YOGURT HAVE ALSO BEEN INCREASED.

DPB LAST INCREASED THE PRICES OF MILK TWO MONTHS AGO. INFORMED SOURCES SAID THE INCREASES WERE DUE TO INCREASED OPERATIONAL COSTS.

MANY CONSUMERS COMPLAINED THAT THE INCREASE OF MILK PRICES WAS TOO MUCH BECAUSE IT WAS NEVER AVAILABLE IN SHOPS. AS A RESULT OF THE FRESH PRICE HIKING, VENDORS ARE NOW DEMANDING 40 KWACHA FOR ONE LITRE OF MILK WHICH THEY PREVIOUSLY SOLD AT 30 KWACHA.

TIRANA (NOV. 8) XINHUA - A CHANGE TO OPEN ELECTIONS WAS FORESHADOWED FOR ALBANIA AT THE 12TH PLENARY SESSION OF THE 9TH CONGRESS OF THE PARTY OF LABOR HELD TUESDAY AND WEDNESDAY.

THE PARTY LEADER, RAMIZ ALIA, SAID THE LAW MAKING IT THE SOLE POLITICAL FORCE IN THE COUNTRY WAS SOON TO BE AMENDED BY THE PEOPLE'S ASSEMBLY.

THIS WOULD MAKE THE PARTY OF LABOR, THE DEMOCRATIC FRONT, TRADE UNIONS, YOUTH, WOMENS AND OTHER LEGAL ORGANISATIONS EQUAL COMPETITORS. IN ADDITION,

INDIVIDUAL CITIZENS WOULD BE ABLE TO STAND AS INDEPENDENT CANDIDATES.

THE CONGRESS DISCUSSED WAYS TO PERFECT THE COUNTRY'S POLITICAL SYSTEM. IT ALSO STRESSED TO "CONTINUE THE ROAD OF SOCIALIST DEMOCRACY."

ALIA SAID THE PARTY SHOULD NOT EXERCISE THE POWER OF THE STATE DIRECTLY BY ISSUING ORDERS AND OTHER MEANS. INSTEAD, ITS LEADERSHIP AND STRENGTH SHOULD BE DEMONSTRATED IN WORKING OUT CORRECT POLICIES, PLANS AND PROGRAMS FOR DEVELOPMENT.

ON FOREIGN PRESSURE ON ALBANIA, ALIA SAID: "WE WILL BOLDLY DEFEND THE CAUSE OF THE MOTHERLAND, THE CAUSE OF THE PEOPLE AND THE CAUSE OF SOCIALISM."

SINGAPORE (NOV. 8) XINHUA - INDONESIA'S ECONOMY CONTINUED OVERHEATING WITH CONSUMER PRICES INCREASING BY 1.03 PERCENT IN OCTOBER INSPITE OF THE INDONESIAN GOVERNMENT'S CONCERTED EFFORTS TO CURB INFLATION, INDONESIAN INFORMATION MINISTER HARMOKO HAS SAID.

THE PRICE INCREASE LAST MONTH WAS CAUSED MAINLY BY AN INCREASE OF 1.42 PERCENT IN HOUSING PRICES, 0.89 PERCENT IN FOOD PRICES, 0.53 PERCENT IN CLOTHING PRICES AND 0.99 PERCENT IN THE PRICES OF OTHER GOODS AND SERVICES, HARMOKO TOLD REPORTERS IN JAKARTA ON WEDNESDAY.

ACCORDING TO A REPORT BY "THE JAKARTA POST" TODAY, HARMOKO SAID THAT THE INFLATION RATE DURING THE FIRST 10 MONTHS OF THIS YEAR HAS REACHED 9.14 PERCENT, AND THE GOVERNMENT IS UNLIKELY TO ACHIEVE ITS TARGET OF CURBING THE ANNUAL INFLATION RATE TO A SINGLE DIGIT LEVEL.

MONTHLY INFLATION IN INDONESIA HIT A SEVEN-YEAR RECORD HIGH OF 2.21 PERCENT IN JULY, THE GOVERNMENT LATER DECIDED TO CONTRACT THE MONEY SUPPLY BY PROMOTING THE SALES OF BANK INDONESIA CERTIFICATES TO INDIVIDUALS WITH HIGH INTEREST RATES, HE SAID.

THE MONETARY AUTHORITIES ALSO INSTRUCTED BANKS TO REFRAIN FROM CONSUMER LENDINGS AND TO EMPHASIZE LOANS FOR PRODUCTION OPERATION, HE ADDED.

HOWEVER, ACCORDING TO THE CENTRAL BANK, MONEY SUPPLY IN INDONESIA INCREASED BY 1.77 PERCENT FROM 22,619 BILLION RUPIAH (12.08 BILLION U.S. DOLLARS) AS OF THE END OF JULY TO 23,021 BILLION RUPIAH AS OF THE END OF AUGUST.

#90312h0113 11/08/1990 ~Chinese News Agency

SINGAPORE (NOV. 8) XINHUA - INDONESIA'S FOREIGN EXCHANGE EARNINGS FROM THE TOURISM INDUSTRY THIS YEAR WILL LIKELY REACH 1.8 BILLION U.S. DOLLARS,

ACCORDING TO INDONESIAN MINISTER OF TOURISM, POST AND TELECOMMUNICATIONS SOESILO SOEDARMAN.

"THE JAKARTA POST" TODAY QUOTED SOEDARMAN AS SAYING IN THE INDONESIAN CAPITAL ON NOVEMBER 7 THAT TOURISM WILL BE INDONESIA'S THIRD LARGEST FOREIGN EXCHANGE EARNER AMONG THE NON-OIL SECTORS THIS YEAR, FOLLOWING WOOD AND TEXTILE PRODUCTS.

LAST YEAR, INDONESIA GAINED 3.49 BILLION U.S. DOLLARS IN FOREIGN EXCHANGE FROM WOOD EXPORTS, 1.98 BILLION FROM TEXTILE EXPORTS AND 1.22 BILLION FROM EXPORTS OF RUBBER-BASED PRODUCTS.

SOEDARMAN SAID INDONESIA EXPECTS THE TOURISM INDUSTRY TO BECOME THE SECOND LARGEST FOREIGN EXCHANGE EARNER AFTER OIL AND GAS IN THE LAST YEAR OF THE 5TH FIVE YEAR PLAN ENDING IN 1994.

THE COUNTRY'S EARNINGS FROM OIL AND GAS EXPORTS LAST YEAR WERE RECORDED AT 8.67 BILLION U.S. DOLLARS.

THE NUMBER OF TOURIST ARRIVALS INCREASED BY 36 PERCENT TO 1.3 MILLION DURING THE FIRST EIGHT MONTHS OF THIS YEAR AS COMPARED TO 952,887 IN THE SAME PERIOD OF LAST YEAR.

THE NUMBER OF TOURISTS ARRIVALS THIS YEAR WAS ESTIMATED TO REACH 2.11 MILLION.

#90312h0122 11/08/1990 ~Chinese News Agency

HONG KONG (NOV. 8) XINHUA - THE HONG KONG TELECOMMUNICATIONS LIMITED SAW A PROFIT INCREASE OF 17 PERCENT FOR THE SIX MONTHS ENDING SEPTEMBER 30 THIS YEAR COMPARED WITH THE SAME PERIOD LAST YEAR.

THE COMPANY ATTAINED A PROFIT OF 2,422 MILLION H.K. DOLLARS (311 MILLION U.S. DOLLARS) IN THE SIX MONTHS. THE EARNINGS PER SHARE WAS 21.7 CENTS.

THE COMPANY'S INTERIM DIVIDEND ALSO ROSE BY 17 PERCENT TO 15.2 CENTS PER SHARE.

THIS WAS ANNOUNCED BY MIKE GALE, CHIEF EXECUTIVE OF THE HONG KONG TELECOM, HERE TODAY.

THE LATEST FIGURES SHOW THAT TURNOVER FOR THE INTERNATIONAL TELEPHONE SERVICES INCREASED BY 19 PERCENT TO 4,618 MILLION H.K. DOLLARS (592 MILLION U.S. DOLLARS) FROM APRIL TO SEPTEMBER THIS YEAR AS COMPARED WITH THE SAME PERIOD LAST YEAR.

THE HONG KONG TELECOM NOTED THAT THE RATE OF GROWTH OF OUTGOING CALLS SURPASSED THAT OF INCOMING CALLS, REFLECTING THE LOW INTERNATIONAL CALL

CHARGES FROM HONG KONG.

A SIGNIFICANT PART OF THE GROWTH IN INTERNATIONAL CALLS IS ATTRIBUTABLE TO THE INCREASING USE OF FACSIMILE, IT ADDED.

THERE ARE NOW OVER 100,000 FACSIMILE LINES INSTALLED IN HONG KONG, AN INCREASE OF 28 PERCENT OVER THE SAME PERIOD LAST YEAR.

THE MOBILE TELEPHONE SERVICE CONTINUES TO EXPAND. NOW THERE ARE 39,000 CUSTOMERS USING THIS SERVICE.

GALE SAID: "THE RESULTS ARE SATISFYING AS THEY HAVE BEEN ACHIEVED AGAINST A BACKGROUND OF SLOW ECONOMIC GROWTH WORLDWIDE, AND OF NEGLIGIBLE ECONOMIC GROWTH IN HONG KONG."

TOKYO (NOV. 8) KYODO - NISSHIN STEEL CO. SAID THURSDAY IT WILL BOOST PRODUCTION OF ZINC-COATED STEEL SHEETS AT A U.S. PLANT TO MEET GROWING DEMAND.

CONSTRUCTION TO ADD CAPACITY WILL BEGIN NEXT MONTH AND SHOULD BE FINISHED IN JUNE 1993, THE MAJOR JAPANESE STEELMAKER SAID IN A PRESS RELEASE.

THE PLANT, RUN BY WHEELING-NISSHIN INC., A FOLLANSBEE, WEST VIRGINIA-BASED JOINT VENTURE OF NISSHIN STEEL AND WHEELING-PITTSBURGH STEEL CORP., HAS BEEN IN OPERATION SINCE APRIL 1988.

NISSHIN AND WHEELING-PITTSBURGH STEEL WILL FINANCE THE 120 MILLION DOLLAR PROJECT BY BORROWING 73.75 MILLION DOLLARS AND RAISING 46.25 MILLION DOLLARS IN EQUITY FINANCING, NISSHIN SAID.

NISSHIN WILL RAISE SOME 40 MILLION DOLLARS OF THE EQUITY FINANCING, BRINGING ITS STAKE IN THE JOINT FIRM TO 80 PERCENT FROM THE PRESENT 67 PERCENT, IT ADDED.

#90312k0071 11/08/1990 ~Japanese News Agency

TOKYO (NOV. 8) KYODO - FORMER JAPANESE AMBASSADOR TO THE UNITED STATES NOBUO MATSUNAGA THURSDAY URGED PRIME MINISTER TOSHIKI KAIFU TO PROVIDE MASSIVE ECONOMIC ASSISTANCE TO IRAN TO HELP REHABILITATE THE COUNTRY'S ECONOMY AND FACILITATE ITS RESTORATION.

AFTER MEETING WITH KAIFU TO BRIEF THE PRIME MINISTER ON HIS RECENT TRIP TO

IRAQ, MATSUNAGA TOLD REPORTERS THAT KAIFU SHOWED A POSITIVE POSTURE TOWARD INCREASING ECONOMIC ASSISTANCE.

MATSUNAGA SAID HE CITED IRAN'S POLITICAL STABILITY UNDER THE MODERATE GOVERNMENT OF PRESIDENT ALI AKBAR HASHEMI RAFSANJANI AND TEHRAN'S PARTICIPATION IN AN INTERNATIONAL ECONOMIC EMBARGO AGAINST IRAQ AS REASONS FOR EXTENDING MORE FINANCIAL SUPPORT TO IRAN.

MATSUNAGA SAID HE ASKED KAIFU TO PROVIDE MORE THAN 1 BILLION DOLLARS IN ECONOMIC AID.

HE ALSO SAID HE ADVISED KAIFU TO HELP IRAN AND THE UNITED STATES RESTORE BILATERAL TIES, WHICH WERE SEVERED IN 1980 FOLLOWING THE HOSTAGE INCIDENT AT THE U.S. EMBASSY IN TEHRAN.

SINGAPORE (NOV. 8) KYODO - JAPAN'S NEC CORP. WON TWO CONTRACTS WORTH 210 MILLION SINGAPORE DOLLARS (123.5 MILLION U.S. DOLLARS) IN A PROJECT TO BUILD THE ASEAN OPTICAL FIBER SUBMARINE CABLE NETWORK, SINGAPORE'S TELECOMMUNICATION AUTHORITIES SAID THURSDAY.

SINGAPORE TELECOM SAID THAT, TOGETHER WITH BRUNEIAN TELCOMMUNICATION AUTHORITIES, IT HAS AWARDED A 110 MILLION SINGAPORE DOLLAR CONTRACT FOR THE SUPPLY OF THE OPTICAL FIBER LINK BETWEEN SINGAPORE AND BRUNEI TO NEC.

THE SUBMARINE CABLE SYSTEM BETWEEN SINGAPORE AND BRUNEI IS TARGETED TO CARRY BOTH VOICE AND DATA TRAFFIC BY THE END OF 1991.

MEANWHILE, BRUNEIAN TELECOMMUNICATION AUTHORITIES, KNOWN AS JABATAN TELEKOM BRUNEI, TELEKOM MALAYSIA, AND THE PHILIPPINES LONG DISTANCE TELEPHONE CO. HAVE AWARDED A 100 MILLION SINGAPORE DOLLAR CONTRACT TO NEC TO CONSTRUCT A CABLE BETWEEN THE THREE.

THE ASEAN OPTICAL FIBRE SUBMARINE CABLE NETWORK IS SCHEDULED TO BE COMPLETED

IN 1995.

#90312k0084 11/08/1990 ~Japanese News Agency
TOKYO (NOV. 8) KYODO - NISSHO IWAI CORP. SAID THURSDAY IT HAS BEEN AWARDED A CONTRACT TO SUPPLY 7 BILLION YEN WORTH OF PARTS AND CONSTRUCTION MATERIALS TO RESTORE A WAR-DAMAGED PETROCHEMICAL COMPLEX IN SOUTHWESTERN IRAN.

OFFICIALS SAID THAT UNDER THE CONTRACT, AWARDED BY BANDAR IMAM PETROCHEMICAL (BIPC), NISSHO IWAI WILL PROCURE SUCH RECONSTRUCTION MATERIALS AND MACHINERY PARTS AS BIPC'S AGENT, MAINLY FROM JAPANESE MANUFACTURERS OVER THE NEXT THREE YEARS.

TERMS CALL FOR CASH PAYMENT AT THE TIME OF SHIPMENT, THEY SAID. AFTER THE END OF THE IRAQ-IRAN WAR IN AUGUST 1988, THE MITSUI GROUP REFUSED TO RESTORE THE DAMAGED COMPLEX, AND WITHDREW FROM THE PROJECT IN FEBRUARY 1990 AFTER PAYING 900 MILLION DOLLARS.

THE MITSUI GROUP UNDERTOOK TO BUILD THE COMPLEX IN 1974 AS A JOINT PROJECT WITH IRAN'S STATE-OWNED NATIONAL PETROCHEMICAL COMPANY.

THE COMPLEX WAS 80 PERCENT COMPLETE IN 1980. HOWEVER, CONSTRUCTION WORK WAS SUSPENDED AFTER HEAVY ATTACKS BY IRAQI BOMBERS.

SINCE MANY OF THE COMPLEX'S PRINCIPAL MACHINES AND PARTS HAVE BEEN MADE IN JAPAN, BIPC HAS ASKED THE JAPANESE SIDE FOR COOPERATION IN THE PROCUREMENT OF SUCH MATERIALS AND PARTS. NISSHO IWAI HAS AGREED TO FURNISH SUCH PARTS AND MATERIALS FROM JAPAN, OFFICIALS SAID.

OSAKA (NOV. 8) KYODO - ATC CORP., PREPARING TO BUILD A 90 BILLION YEN IMPORTS WHOLESALE CENTER BUILDING, ANNOUNCED THURSDAY THAT IT WILL TAKE STEPS TO ENCOURAGE FOREIGN FIRMS TO PARTICIPATE IN THE CONSTRUCTION AND SUPPLY EQUIPMENT.

ATC CORP., OWNED BY THE OSAKA MUNICIPAL GOVERNMENT AND A NUMBER OF PRIVATE ENTERPRISES, PLANS TO CONSTRUCT THREE 12-STORY LINKED BUILDINGS ON 70,000-SQUARE METER LOT IN THE NANKO DISTRICT IN WESTERN OSAKA.

CONSTRUCTION WORK IS SCHEDULED TO START IN MARCH 1991 AND IS TO BE COMPLETED AT THE END OF 1993.

THE THREE BUILDINGS COMPRISE THE ASIA-PACIFIC TRADE CENTER. CONSTRUCTION OF THE CENTER IS DESIGNATED AS ONE OF THE MAJOR CONSTRUCTION PROJECTS, IN WHICH THE GOVERNMENT HAS PROMISED TO TAKE MEASURES TO HELP FOREIGN ENTERPRISES PARTICIPATE, UNDER ITS AGREEMENT WITH THE U.S. GOVERNMENT.

-30- 1006

#90312k0093 11/08/1990 ~Japanese News Agency

TOKYO (NOV. 8) KYODO - ZOOLOGISTS, ENVIRONMENTALISTS AND TOURISM AGENTS ON THURSDAY CALLED FOR PROMOTION OF WHALE-WATCHING TOURS IN JAPAN TO HELP PROMOTE THEIR PROTECTION AS WILDWIFE RATHER THAN AS EDIBLE SEA RESOURCES.

PARTICIPANTS IN A SYMPOSIUM SPONSORED BY THE JAPAN BRANCH OF THE GREENPEACE WORLD ENVIRONMENT GROUP SAID IT WOULD BE THE FIRST SUCH CONFERENCE. IN JAPAN, WHALING HAS LONG BEEN A CHERISHED TRADITION.

THE SIGHTSEEING PROMOTERS WERE FROM THE OGASAWARA ISLANDS, SEMITROPICAL ISLES FAR SOUTH OF TOKYO, ZAMAMI ISLAND WEST OF SOUTHERN OKINAWA ISLAND AND THREE TOWNS IN KOCHI PREFECTURE -- OHGATA, MUROTO AND KOCHI.

ONE OF THE PARTICIPANTS, KATSUTOSHI YAMADA OF MUROTO, HAD BEEN A CREW MEMBER ON A WHALE CATCHING CONVOY IN THE ANTARCTIC AND NOW GUIDES WHALE WATCHING BOATS IN MUROTO.

OGASAWARA IN APRIL 1988 KICKED OFF THE TOUR, ALREADY POPULAR IN THE UNITED STATES AND MEXICO. HIS AIM, HE SAYS, WAS TO PROMOTE THE SMALL, REMOTE ISLANDS WITH A HISTORY OF WHALING.

KOCHI PREFECTURE, FACING THE PACIFIC, WAS ALSO HISTORICALLY FAMOUS FOR THE WHALING INDUSTRY, THE COMMERCIAL PART OF WHICH IS IN PRINCIPLE INTERNATIONALLY BANNED NOW.

A NOTED JAPANESE ZOOLOGIST, HIDEO OBARA, TOLD THE AUDIENCE OF 50 THAT THURSDAY'S MEETING WAS SIGNIFICANT AS A STEP FORWARD TO CREATING A ''NEW CULTURE'' AMONG THE JAPANESE, IN WHICH THEY COULD CHANGE THEIR DOMINANT PAST VIEW OF WHALES AS SOMETHING TO KILL AND EAT.

TOUCHING ON THE ANGRY VOICES RAISED IN THE WEST ON THE RECENT MASSIVE DEATHS OF DOLPHINS IN WESTERN JAPAN, OBARA BLAMED TOKYO'S OFFICIAL EXTERNAL PUBLIC RELATIONS EFFORTS, WHICH SAYS WHALE KILLING IS CULTURALLY JUSTIFIABLE, TO COUNTER THE WORLDWIDE ANTIWHALING SENTIMENT.

OBARA, A SENIOR MEMBER OF TRAFFIC (JAPAN), A RESEARCH ARM OF BRITAIN-BASED WORLD WILDLIFE FUND (WWF), NOTED SUCH PAST EFFORTS BY THE GOVERNMENT HELPED TO CREATE THE STEREOTYPE ABROAD THAT ALL JAPANESE ARE CRUEL TO SEA MAMMALS.

HE SAID HE BELIEVES THOSE WHO EXPERIENCED A ''CLOSE TOUCH'' WITH WHALES ON A WATCH TOUR WILL SURELY BEGIN TO FEEL THE MAMMALS ARE THE FELLOW LIVING LIFE, THAT COULD TRIGGER THE CHANGE OF THEIR SENTIMENT TOWARDS WHALING.

BUT AT THE SAME TIME RESEARCHERS POINTED TO THE NEED TO EXERCISE MORALS ON SUCH TOURS. THEY RAISED CONCERN THAT SUCH TOURS, IF ABUSED, MAY THREATEN NATURAL LIVING PATTERNS OF THE WHALES. THEY CITED THE EXAMPLE OF A PART OF HAWAII, WHERE WHALES NO LONGER SWIM IN CERTIAN CYCLES BECAUSE SOME AGENTS LAUNCHED A ''LET'S SWIM WITH THE WHALES'' TOUR, WHICH ALLOWED TOURISTS TO DIVE CLOSE TO THE WHALES.

#90312k0094 11/08/1990 ~Japanese News Agency

SINGAPORE (NOV. 8) KYODO - SINGAPOREAN TRADE AND INDUSTRY MINISTER LEE HSIEN LOONG SAID THURSDAY HE IS CONFIDENT THE SINGAPORE ECONOMY CAN ATTAIN 8 PERCENT GROWTH IN GROSS DOMESTIC PRODUCT (GDP) THIS YEAR, DESPITE THE GULF CRISIS AND HIGHER OIL PRICES, THE STATE-RUN SINGAPORE BROADCASTING CORPORATION REPORTED.

SINGAPORE'S GROWING TIES WITH THE ECONOMIES OF THE EUROPEAN COMMUNITY, JAPAN, AND THE REGION WILL HELP TO CUSHION THE IMPACT OF THE GULF CRISIS, HE SAID.

LEE SAID THAT ECONOMIC GROWTH MODERATED SINCE THE GULF CRISIS ERUPTED MORE THAN THREE MONTHS AGO, BUT OVERALL THE THIRD-QUARTER RESULTS ARE STILL QUITE GOOD AND THE CRISIS HAS NOT YET HIT SINGAPORE TOO HARD.

HE NOTED THAT BEFORE IRAQ'S ANNEXATION OF KUWAIT, THE ECONOMY WAS GROWING SO STRONGLY THAT THE MINISTRY FEARED OVERHEATING RATHER THAN RECESSION.

LEE SAID, HOWEVER, THAT THE GOOD RESULTS OF THE THIRD QUARTER MAY NOT INDICATE THE TREND OF THE NEXT FEW MONTHS AS THE ECONOMY IS LIKELY TO BE ADVERSELY AFFECTED BY THE POTENTIAL WAR ATMOSPHERE IN THE GULF AND THE RECESSION IN THE UNITED STATES, WHICH IS SINGAPORE'S LARGEST EXPORT MARKET.

GROWTH IS EXPECTED TO SLOW DOWN OVER THE NEXT FEW MONTHS BUT NOT TO THE POINT OF ZERO GROWTH.

-30- 1398

#90312k0100 11/08/1990 ~Japanese News Agency

TOKYO (NOV. 8) KYODO - JAPAN'S DEPENDENCE ON NUCLEAR POWER PLANTS IN 2050 WILL LIKELY INCREASE TO MORE THAN 40 PERCENT OF THE TOTAL POWER GENERATED, COMPARED WITH 25.5 PERCENT FOR FISCAL 1989, AN INDUSTRY RESEARCH CENTER PREDICTED THURSDAY.

THE CENTRAL RESEARCH INSTITUTE OF ELECTRIC POWER INDUSTRY FORECAST THAT IF JAPAN GOES AHEAD WITH THE PRESENT POWER SUPPLY PROJECT AND MAINTAINS THE CURRENT POWER SUPPLY SYSTEM, IT WOULD NOT KEEP PACE WITH DEMAND.

THE CENTER THUS SUGGESTED THAT NUCLEAR POWER PLANTS SHOULD BE CONSTRUCTED ON SOFTER GROUND THAN ROCK. IT ALSO RECOMMENDED THE CONSTRUCTION OF OFFSHORE AND UNDERGROUND N-POWER PLANTS.

THE CENTER ALSO PROPOSED A SERIOUS STUDY ON THE POSSIBILITY OF ''GEOTHERMAL HOT DRY ROCK'' POWER GENERATION. UNDER THAT PLAN, WATER WOULD BE POURED ONTO ROCK ABOVE HOT MAGMA, WHERE IT WOULD BE HEATED, THEN BROUGHT TO THE EARTH'S SURFACE TO BE HARNESSED INTO ELECTRIC POWER.

THE RESEARCH CENTER BASED THE PROJECTION ON ITS ESTIMATE THAT THE JAPANESE ECONOMY WILL ACHIEVE AN AVERAGE ANNUAL GROWTH OF 2.5 PERCENT IN REAL TERMS BETWEEN NOW AND 2050. THE NATION'S TOTAL ENERGY CONSUMPTION IN THAT YEAR IS PREDICTED TO BE 550-870 MILLION TONS, IN TERMS OF OIL, AND ITS ELECTRICITY DEMAND IN THAT YEAR AT 1.2-1.8 TRILLION KILOWATTS HOUR, TWICE OR THREE TIMES THE FISCAL 1989 LEVEL.

FALLS CHURCH, VA (NOV. 8) MCS - A SAMPLING OF TODAY'S COMMENTARY COMPILED BY MARKET CONSENSUS SURVEYS, INC. IN TWO SECTIONS (1) STOCKS

(2) MONEY & ECONOMY.

World stock markets are lower: ... The Nikkei loses 530 points. ... The FTSE is off 25 points in afternoon trading. ... No bargain hunting is seen in U.S. stocks overseas where the EXMI is off 75 cents. ... The dollar is up across the board. ... Bond prices are lower with the long yield at 8.70%. ... Crude oil prices ease - Brent North Sea is off 80 cents today at $34.25. ... Yields on 10- year TREASURY notes fall to the lowest level in a year, down to an average of 8.52%. ... The TREASURY DEPARTMENT will complete its refunding today with the sale of $10.75 billion of 30-year bonds. ... GENERAL MOTORS says it has reached agreement with CZECHOSLOVAKIA to build transmissions and assemble one of its Open models at an existing plant. ... CITICORP plans to buy $275 million of its preferred stock rather than continue to pay high dividend rates. ... CS FIRST BOSTON plans to lay off as many as 500 employees by year end. ... INFOTECHNOLOGY INC. confirms that FINANCIAL NEWS NETWORK and UNITED PRESS INTERNATIONAL are up for sale. ... CHRYSLER CHAIRMAN LEE IACOCCA is teaming up with civil rights leaders to attack what they say are racially motivated hiring practices at Japanese U.S. car operations. ... PAN AM CHAIRMAN THOMAS PLASKETT says the airline has received several inquires for its East Coast shuttle. ... SIEMENS AG of Germany and GPT of Britain are negotiating the merger of their public telecommunications into what would be the third-largest supplier of telephone switching equipment in North America, challenging AT&T and NORTHERN TELECOM.

WHAT'S AHEAD:

ENERGY SECRETARY JAMES WATKINS addresses the NATIONAL COAL COUNCIL at 9:15 am. EST. ... A conference on market manipulation begins today. CHICAGO MERC chief economist TODD PETZEL is scheduled to speak at 9:15, CFTC enforcement division director DENNIS KLEJNA and NEW YORK MERC senior V.P. ROBERT DAVIS are speaking at 11 a.m. EST. SEC commissioner EDWARD FLEISCHMAN and AMERICAN STOCK EXCHANGE senior V.P. STEPHEN LISTER are scheduled to speak at 4 p.m. EST. ... Chairman of the COUNCIL OF ECONOMIC ADVISERS, MICHAEL BOSKIN addresses the AMERICAN COUNCIL FOR CAPITAL FORMATION on the subject of U.S. productivity. ... THE INTERNATIONAL ORGANIZATION OF SECURITIES COMMISSIONS (IOSCO) will propose a

set of principles to regulate screen-based trading systems at the body's annual conference next week in Santiago. ... AT&T and NCR are discussing combining their computer businesses.

FROM THE BULLS:

"The long-run economic factors are giving rise to a new bull market in stocks " says CARL FUTIA, technical analyst at CYCLIC FORECAST CORP. "The current level of stock prices has pretty much discounted the worst that is likely to happen in the economy. ... Stock prices typically start rising around the middle of a recession and continue well into the next recovery. ... I think the Dow has a real good shot over the next two years to get to 4000." (CNBC "Market Wrap-Up", 11/7)

FROM THE BEARS:

"I remain resolutely bearish longer term," says MICHAEL JENKINS at "Stock Market Cycles." But Jenkins thinks the short term outlook is more positive with cycles showing tremendous strength in late November, even into mid-January. "It will be more tricky to pick the top to short," says Jenkins who is looking for several wild price swings and mini-crashes as the shorts trade positions. In the end, says Jenkins, "[The] legitimate next down leg will be as vicious as the first 600 points." (CNBC "World Business" 11/8)

"There aren't any brave souls who want to step in and buy" stocks, says WILLIAM SULYA, head of OTC trading at A.G EDWARDS & SONS. Mr. Sulya notes that some traders added to the markets decline yesterday by selling inventory shares to avoid possible further losses on those positions. "It has become so dangerous to keep positions in this kind of market. Traders' positions are more vulnerable on a daily basis, so they try to clear out as much of their positions as they can." (WSJ, 11/8)

STOCK MARKET:

"I don't sense an underlying tone leading me to believe the stock market is starting to accelerate to the downside," says PHILIP ROTH of DEAN WITTER REYNOLDS. "The market is still in a rebuilding process." Roth predicts a "zig zag" rally to about 2625 by January, but says the Dow will then fall to 2250. ("Investor's Daily", 11/8)

Fear and uncertainty in the market appears to be losing strength, according to DAVID KLINEMAN at the "Callard Report." "The lows just above 2350 on the Dow Industrials look like a major bottom," says Klineman who sees the "first concrete suggestion that a major new bull market is about to begin." (CNBC "World Business", 11/8)

"Working off the historical record ... there's an average loss of about 36%" during bear markets, says ALAN SHAW of SMITH BARNEY, HARRIS UPHAM. The

current downturn "would place the Dow at 1900," but Shaw believes that 2000-2100 "may be somewhat an outside number." He thinks the current bear market rally may carry the Dow up by between 100 and 200 points. ("Nightly Business Report", 11/7)

"The overall effect [of the increased pressures in the Middle East] is, people don't want to be long in stocks when the talk is confrontation," says RICHARD MEYER, head of equity trading at LADENBURG, THALMANN & CO. (WSJ, 11/8)

"It was largely an oil-driven decline in stocks [yesterday]," says EDWARD NICOSKI at PIPER JAFFRAY & HOPWOOD. "But the Treasury auction was also a factor to some extent. Although the yields on 10-year notes were regarded as OK, the bids were not as numerous as people thought." ("The Washington Post", 11/8)

"The feeling here is that war could come as soon as this weekend," says ALBERT SORIA of KANSALLIS-OSAKE-PANKKI. He blames war jitters for weakness in the market yesterday. (FNN "Marketwrap", 11/7)

STOCK TIPS:

"Individuals find refuge in religion when times get difficult," says JEAN-MARIE EVEILLARD, manager of SOGEN INTERNATIONAL FUND. "There's a saying when times are good, people play, when times are bad, people pray." For that reason he likes the stock of Bible publisher THOMAS NELSON. (WSJ, 11/8)

"In the old days, you could just throw a dart at any of the [food] stocks, but now you've got to be extremely selective," says JACK MAXWELL at WHEAT FIRST SECURITIES. He recommends GENERAL MILLS. JOHN McMILLIN of PRUDENTIAL-BACHE likes KELLOGG. ("USA Today", 11/8)

Beer consumption rises during a recession, according to CARMINE GRIGOLI, chief investment strategist for FIRST BOSTON. One reason, he says, is "individuals trading down from more expensive drinks." Mr. Grigoli call ANHEUSER-BUSCH a buy. He also likes a pair of can manufacturers, CROWN CORK & SEAL and HEEKIN CAN. "Consumers tend to alter their eating patterns" if income declines. "They eat out less, and they eat less expensive foods at home." (WSJ, 11/8)

"WALMART is going to show a ten percent increase for October - that's better than anybody else," says WALTER LEOB of LEOB ASSOCIATES. He says the retailer should continue growing. "Now they are only in 33 states," says Leob. His other retail pick is HOME DEPOT. (CNBC "World Business", 11/8)

SNL MONTHLY MARKET REPORT lists 13 savings and loan stocks it says have been unfairly driven down to bargain-basement prices. They are: FIRST FEDERAL of East Hartford, Conn.; GERMANTOWN SAVINGS BANK in Philadelphia; MARYLAND FEDERAL BANCORP in Hyattsville, Md.; FRANKLIN FIRST FINANCIAL in Wilkes-Barre, Pa.; LOYOLA CAPITAL CORP. in Baltimore; FIDELITY SAVINGS ASSOCIATION in

Philadelphia; OMNI CAPITAL GROUP in Salisbury, N.C., MASSBANK CORP. in Reading Mass.; PEOPLE'S SAVINGS FINANCIAL CORP. in Bridgeport, Conn.; CARDINAL FINANCIAL GROUP in Owensboro, Ky.; APOLLO SAVINGS AND LOAN in Cincinnati; FIRST FEDERAL SAVINGS BANK in Decatur, Ala.; and AMERIANA BANCORP in New Castle, Ind. ("USA Today", 11/8)

DAVID KLINEMAN at the "Callard Report" recommends THERMO PROCESS SYSTEMS, saying the market for their environmental services should expand geometrically. He also likes REUTERS where he views recent weakness as a buying opportunity. (CNBC "World Business", 11/8)

HUGH JOHNSON, chief investment officer at FIRST ALBANY CORP., did some homework on which industries tended to do well in recessions and then checked those industries for stocks that showed rising earnings through the 1980 and 1981-82 twin recessions. He determined that collection agencies get busier and UNION CORP. is prominent in that field. Pawn shops also do well, so CASH AMERICA INVESTMENTS and U.S. PAWN deserve consideration. PHILIP MORRIS and U.S. TOBACCO tend to do well in recessions. Packaged foods tend to do better in recessions giving another nod to Philip Morris and to food retailers such as ALBERTSON'S, AMERICAN STORES, GIANT, GREAT ATLANTIC & PACIFIC TEA, KROGER, WEIS MARKETS and WINN-DIXIE. In hard times people tend to have more time to paint their homes which is good for SHERWIN- WILLIAMS, STANDARD BRANDS PAINT and VALSPAR. Mr. Johnson also says computer service companies do well in recessions. The computer service company stocks that he thinks deserve a look include: AUTOMATIC DATA PROCESSING, GENERAL MOTORS CLASS E (ELECTRONIC DATA SYSTEMS), NATIONAL DATA, SHARED MEDICAL SYSTEMS and TELECREDIT. (WSJ, 11/8)

While some of the financial stocks have rebounded this week, "the basic trends in the business are still in place," according to DAVID ELLISON of FIDELITY MANAGEMENT & RESEARCH. "It took a number of years to develop these problems. It will take a number of years to get out." ("Investor's Daily", 11/8)

-30- 10092

#90312m0002 11/08/1990 ~Market Consensus Surveys

FALLS CHURCH, VA (NOV. 8) MCS - A SAMPLING OF TODAY'S COMMENTARY COMPILED BY MARKET CONSENSUS SURVEYS, INC. IN TWO SECTIONS (1) STOCKS (2) MONEY & ECONOMY.

MONEY & CREDIT:

According to DAVID MULFORD, U.S. TREASURY UNDERSECRETARY FOR INTERNATIONAL AFFAIRS, the U.S. is concerned about the weak dollar. He says, "Obviously we are concerned about it, but it is not a situation that has reached a point where there are immediate dire consequences of the weakening dollar." (CNN "Moneyline", 11/7)

"Dealers are still strong believers in the dollar as a refuge during times of

uncertainty," says ROBERT HATCHER of BARCLAYS BANK PLC. "The market is still very uncomfortable selling dollars with a heightened possibility of war in the Middle East." ("Investor's Daily", 11/8)

"I don't believe investors who want to get involved in currencies now should expect that the dollar will trend lower [because] these trends are very mature " says MICHAEL SALZBANK, president of RAM ASSET MANAGEMENT. "These foreign currencies ... are overbought. With that, you just can't expect a good risk reward situation for the investor jumping on the train right now. It's been a long road. Many of the currencies have been trending for well over a year, so you have to be very careful because [the currency market] is going to continue to be very erratic." (CNBC "Market Wrap-Up", 11/7)

"Everyone was selling the dollar, but then the Thatcher comment warning Saddam to get out of Kuwait made investors cover those short positions," says PETER WILD, senior vice president at BANK JULIUS BAER & CO. "The dollar's fundamentals are overwhelmingly weak." (Reuters, 11/7)

"There was kind of a knee jerk reaction in the dollar following the Thatcher comments," according to VARICK MARTIN of MANUFACTURERS HANOVER. The British Prime Minister's strong words towards Iraq raised fears of an outbreak of hostilities in the Middle East. (FNN "Marketwrap", 11/7)

"I think that over the long-haul, which is about a year or a year- and-a-half, people are going to look back and say 148 D-marks to the dollar was an incredibly, incredibly cheap price for the dollar," says LEONARD DENDUNNEN of UNION BANK OF SWITZERLAND. "However, between now and a year from now the dollar could drop a very, very long way and I'm certainly not going to buck the trend on the short side." (CNBC "Market Wrap-Up", 11/7)

"By the end of the year we will see Fed funds between 7% and 7 1/2% and by the end of 1991 we will see Fed funds probably around 6%," says CARL FUTIA of CYCLIC FORECAST CORP. (CNBC "Market Wrap-Up", 11/7)

"Even though the [Treasury] auction statistics [from yesterday] look very good the problem is that the market environment in some sense has worsened, so it's a very curious auction to describe," says ROBERT BRUSCA, chief economist at NIKKO SECURITIES. "Taken by itself, the auction looked fine. In the context of the market and other things going on, it doesn't look good at all. Technically, there are some very ugly things going on." He says today's auction may see a more negative reaction to renewed war talk in the Mideast. (CNBC "Market Wrap-Up", 11/7)

"Traders are approaching this [30-year] bond sale very cautiously," says LAWRENCE LEUZZI, a managing director at S.G. WARBURG & CO. "We really need to see yields back up to 8.75%" to attract sufficient investor interest. Despite the bond market's setback, the mood remains positive, says Mr. Leuzzi. "People are still bullish with regard to the long run because economic

fundamentals are so weak. But in the short run, there is some renewed concern about the Middle East." (WSJ, 11/8)

The downside in the credit market may be limited. "The market has been volatile [recently] but I think the risk of any kind of sustained setback after today's losses is fairly slim," says BOB DICLEMENTE of SALOMON BROTHERS. (Reuters, 11/7)

"We really blew these [Treasury] securities right out the door [for the past two days]," says CHARLES LIEBERMAN at MANUFACTURERS HANOVER SECURITIES. "So the first two auctions were excellent." He is more skeptical about the 30-year auction coming up today because he does not think the Japanese will be big buyers. He looks for the Fed funds rate to be at 7 1/4% by the end of the year. (CNBC "Market Wrap-Up", 11/7)

CITICORP is redeeming $275 million of its $950 million in outstanding perpetual preferred stock in response to the 12% to 14% returns demanded by investors recently. Similar stock auctioned yesterday sold at a yield of 7.48%. "This might bolster confidence in Citicorp by dispelling the perception that Citicorp is having terrible funding problems and that it has to sell the preferred stock each week," says COUNTY NATWEST USA analyst STEPHEN BERMAN. ("USA Today", 11/8)

THE ECONOMY:

"I believe the inflation picture is beginning to look much better," says EDWARD HYMAN, vice chairman of C.J. LAWRENCE. He attributes that improved scenario "to lower non-oil commodity prices and the slowdown in wage gains that we have seen." (NYT, 11/8)

With banks and financial markets nervous, venture capital is often the only game in town for fast growing, young companies, says ALAN PATRICOF, chairman of PATRICOF ASSOCIATES. "Money is available ... we have a lot of money in the whole [venture capital] industry." The IPO market has gone downhill since 1983, says Patricof, and venture capitalists are less likely to take new companies public as part of their "exit strategy." "This means many of the companies started during the eighties are going to be acquired, rather than be free standing companies," says Patricof. (CNN "Business Morning", 11/8)

"War represents fear, in terms of the oil traders, that the conflagration would get beyond Kuwait itself and perhaps Saudi facilities would be damaged," says C.J. LAWRENCE's CHARLES MAXWELL. He predicts that the U.S. will have to "initiate hostilities" against Iraq. "My gut feeling is odds [are] two out of three that we will not be able to solve it diplomatically," says Maxwell. (FNN "Marketwrap", 11/7)

"There is a considerable school of thought that the day war breaks out, you've got to sell the market because the worst case scenario has materialized," says

NAUMAN BARAKAT of MERRILL LYNCH. "If the export facilities aren't damaged, then the market has seen the top." (NYT, 11/8)

If war does break out, "clearly the initial reaction will be a major spike in the price of oil," perhaps reaching as high as $100 per barrel, says ROBERT HEISTERBERG of ALLIANCE CAPITAL. "The interesting part is that, depending on what happens on the ground, oil prices may then, in fact, stabilize." He says that the Iran-Iraq War proved that it is difficult to "take out" oil production facilities. (FNN "Marketwrap", 11/7)

IN WASHINGTON:

"For ten years, Republicans have been saying they'd be the party to redraw congressional district lines in 1991," says TIM DICKSON, director of the Democrats' redistricting operation. "Well it won't happen." (WSJ, 11/8)

"The consensus is it's just a matter of when we're going to war," says PETER BEUTEL of THE PEGASUS ECONOMETRIC GROUP. "We've heard it from our own Administration so many times that people on the trading floor were getting tired of it." (NYT, 11/8)

-30- 7594

#90312p4528 11/08/1990 ~PR Newswire

SAN DIEGO (NOV. 8) PR NEWSWIRE - GTI Corp. (AMEX: GTI) today reported a 40 percent year-to-year increase in its third quarter earnings per share, due largely to the successful operations of recently acquired Valor Electronics. Third quarter net income rose 115 percent, but the number of GTI common shares outstanding was up 2.5 million shares from the previous year due to the Valor acquisition.

For the quarter ended Sept. 30, 1990, GTI reported revenues of $15,877,000 and net income of $692,000 or $.07 per share, compared to revenues of $9,755,000 and net income of $321,000 or $.05 per share reported for the same period during 1989.

Order backlog on Sept. 30, 1990 stood at $17,104,000 compared to $7,979,000 on the same date last year.

For the nine month period ended Sept. 30, 1990, revenues were $37,520,000 compared to $32,152,000 for the same period last year. Net income during the nine month period was $1,189,000 or $.15 per share compared to $1,544,000 or $.22 per share for the first nine months of 1989.

Commenting on the third quarter performance, Gary L. Luick, president and chief operating officer said, "The acquisition of Valor Electronics made a significant contribution to GTI's revenue and net income this quarter. Valor is meeting our highest expectations and we believe the acquisition will

greatly benefit GTI in both the short and long term."

Commenting on the company's earnings trend, Luick added, "The improving pattern of our quarter-to-quarter performance for 1990 is tracking as anticipated and we continue to look for an upward earnings trend for the remainder of the year. The deteriorating economy, however, is putting increased pressure on many of our operations as it is on other companies, but so far we are not seeing a great deal of impact on Valor's markets."

The Distribution Group continued to maintain profit margins but still experienced a slow-down in sales. The Circuits Group saw a modest recovery as a result of increasing demand from the automotive industry and from the addition of several new customers. The Electronics Group, both domestically and in Ireland, has remained stable throughout the quarter.

GTI Corp. is a multi-plant distributor and manufacturer of electronic components, circuit boards and electronic component processing equipment for the automotive, instrumentation, industrial, electronics and computer industries.

LOS ANGELES (NOV. 8) PR NEWSWIRE - IDB Communications Group Inc. (NASDAQ: IDBX) today announced profitable third quarter results for the period ended Sept. 30, 1990 as a result of rapid implementation of cost cutting measures and revenue gains primarily due to broadcast service activities in the Middle East.

Revenue for the three months ended Sept. 30 increased 63 percent to $22,446,000 from $13,748,000 in 1989, while revenue for the nine months ended Sept. 30, 1990 increased 52 percent to $63,018,000 from $41,574,000 in 1989. The net income for the third quarter was $44,000, or 1 cent per share, versus net income of $651,000, or 13 cents per share, for the same period in 1989. For the first nine months of 1990, the net loss was ($547,000), or (9 cents) per share, versus net income of $1,496,000, or 30 cents per share, in 1989. Average shares outstanding for the period increased to 6,362,000, as compared to 4,982,000 in 1989.

"All operating divisions experienced revenue growth during the third quarter, with the Broadcast and International Divisions benefiting from increased demand for transmission services from the Middle East during August and September," stated Edward Cheramy, president of IDB Communications. "In addition, the Company's cost of sales and SG&A expenses during the quarter dropped substantially as a percentage of revenue, reflecting the effects of controls put in place during the period. These favorable factors allowed the

company to restore profitability after the disappointing second quarter," concluded Cheramy.

Cash flow also improved dramatically during the third quarter with net cash provided by operating activities increasing to $3,514,000 from approximately $700,000 in the second quarter and $280,000 in the first quarter.

"The momentum initiated in the third quarter has, to date, continued into the fourth quarter," said Cheramy. He noted that the company has been retained to provide broadcast transmission services for several major events scheduled prior to the end of the year and improved operating procedures are generating lower overhead costs.

IDB Communications Group Inc. is a leading supplier of transmission and distribution services for domestic and international radio, television and data/voice communications via satellite and fiber optics.

#90312p4548 11/08/1990 ~PR Newswire

ATLANTA (NOV. 8) PR NEWSWIRE - Even with the current recessionary trend in the economy, Days Inns of America, Inc. third quarter wrapped up with strong results in franchise sales, a steady stream of property openings, and an exceptional number of calls to Days reservations centers.

Franchise sales stayed strong, executing 91 agreements, 45 percent of which will be new construction while 55 percent will be conversions. Over the three months, Days opened 65 properties -- one per business day. This brought the total number of open hotels in the system to 1,093 with 130,431 rooms.

"Despite economic uncertainties, many are continuing to develop smaller properties," says Days President, John Snodgrass. "The fact that they are choosing Days is a testament to the strength of the brand in the marketplace."

In fact, in a recent study performed by accounting firm Arthur Andersen & Co., and published in the November issue of Success magazine, Days was named fourth in "The Success Gold 100" ranking of all franchise companies. In its introduction, the article stated, "In our ranking, strength of management, not speed of growth, is the crucial factor." Other factors considered in the ranking were franchise services, corporate culture, cases of termination and litigation. To insure candor in the study, the target companies were not told that they would be ranked for Success magazine.

Other impressive third quarter figures include: 2,895,737 calls came in to the reservations centers. Bookings resulting from those calls are up 10

percent over the same period of 1989, and roomnights booked are up 9.5 percent.

Recent statistics released by the United States Travel and Tourism Administration (USTTA) show that international arrivals in the United States during the first half of this year have risen 11 percent, and Days is also getting its share of that business. In the third quarter, voucher sales increased 30 percent over the same period in 1989, proving that Days two voucher programs -- Visit USA, Canada and Mexico, and Go As You Please -- offer the international traveler the ease and value they want. And with two European sales offices (London and Frankfurt) now on-line with the U.S. reservations centers, arranging travel to Days U.S. properties has never been easier.

"On every front -- international and domestic, business and leisure -- we are offering travelers what they want," says Snodgrass. "That's good for our existing franchisees, and makes us very attractive to potential new ones."

Days Inns of America, Inc., with its Days brand inns, hotels, suites and Daystops, is the third largest hotel brand in the world and the fastest growing in the moderate price segment of the market. An international lodging operator and franchisor, the chain has more than 1,600 hotels open and under development in 50 states, Canada, Mexico, Europe and India.

TROY, MICH. (NOV. 8) PR NEWSWIRE - The Budd Company, one of the nation's largest suppliers to the automotive industry, is urging its more than 10,000 employees in nine states to invest in themselves and their jobs when shopping for a 1991 model car or truck.

In a six-page, multi-colored buyer's guide distributed this week to employees, the company lists by manufacturer and model name the cars, vans, utility vehicles and trucks for which it produces parts, assemblies or components. The guide is also being distributed to company retirees and suppliers.

"It's designed to help us buy smart in the purchase of 1991 models by supporting those that have demonstrated confidence in our company," explained Siegfried Buschmann, Budd chairman and CEO.

Characterized as "These Budds Are Yours," the guide makes no recommendation regarding manufacturer or model. It includes shopping tips, a buyer's worksheet and photos of 40 of the many different Budd- represented models produced by manufacturers such as Ford, General Motors, Chrysler, Mazda, Isuzu Mercedes-Benz and Daihatsu.

Headquartered in the Detroit suburb of Troy, Budd, the 78-year-old subsidiary of Thyssen AG, of Germany, produces vehicle body and chassis frame components, wheel and brake products, castings, prototypes and a variety of other products for the vehicle manufacturers. Bud's nine manufacturing assembly plants are located in Michigan, Minnesota, Ohio, Pennsylvania, Indiana, Kentucky, Tennessee, Wisconsin and Washington.

SAN DIEGO (NOV. 8) PR NEWSWIRE - Mycogen Corp. (NASDAQ: MYCO) today announced an agreement with Japan Tobacco Inc. (JT) to commercialize Mycogen's fatty acid based pesticide products in Japan. Under the agreement, Mycogen will manufacture and supply products to JT, who will have exclusive distribution rights in Japan.

The agreement includes Mycogen's current fatty acid products, M-Pede(TM), SharpShooter(R), DeMoss(TM) and ForEverGreen(R), as well as new fatty acid pesticides developed by Mycogen. JT will commence the effort to obtain government registrations and is responsible for commercially developing the products in Japan. In addition, JT is providing funding to Mycogen to support a research and development program for fatty acid pesticides.

"Japan Tobacco has been an excellent corporate partner," said Jerry Caulder, chairman of Mycogen. "We are pleased to expand the scope of our relationship and look forward to working with JT to commercialize these products in Japan."

Mr. Akio Niitsu, vice president agribusiness division of JT, said, "The fatty acid products of Mycogen are environmentally acceptable pesticides which should find promising markets in Japan, where the concern over use of chemical pesticides in the environment is growing just as it is in the U.S. Distribution of these products will support the growth of our company's agribusiness."

Mycogen Corp. develops, manufactures and markets biopesticides as alternatives to chemical pesticides to control a variety of insects, weeds and other pests. Mycogen's biopesticide products are based on natural agents such as microorganisms and fatty acid compounds which are compatible with the environment. The company develops its products through the application of genetic engineering technology and innovative formulations.

Japan Tobacco Inc., headquartered in Tokyo, is the dominant supplier of tobacco products in Japan with total annual revenues of $17 billion. In recent years, JT has diversified into foods, beverages, pharmaceuticals, and agribusiness.

LOS ANGELES (NOV. 8) PR NEWSWIRE - Carter Hawley Hale Stores Inc. (NYSE: CHH) today reported sales for the four weeks ended Nov. 3, 1990 were $212.0 million an increase of 1.7 percent from the $208.4 million recorded in the comparable prior year. The company also reported sales for the 39 weeks ended Nov. 3, 1990 were $1,880.2 million, an increase of 0.6 percent from the $1,868.5 million recorded in the same period last year. On a comparative store basis, sales were down 0.1 percent in October and flat for the 39 weeks.

Sales for the first three months of the company's fiscal year ended Nov. 3, 1990 were $669.3 million, an increase of 0.8 percent from the $663.8 million reported in the same period last year. On a comparative store basis, sales were down 0.5 percent for the period.

Carter Hawley Hale operates 114 department stores under the names of The Broadway-Southern California, The Broadway-Southwest, Emporium, Thalhimers and Weinstocks.

#90312p4558 11/08/1990 ~PR Newswire

PHILADELPHIA (NOV. 8) PR NEWSWIRE - SmithKline Beecham (NYSE: SBH) announced today that operating profit (trading profit) from continuing operations increased 31 percent in the third quarter of 1990 to $432 million/231 million pounds sterling.

Pre-tax profit for the quarter increased 30 percent to $408 million/218

million pounds. Earnings per share increased 21 percent to 18.5 cents/9.9 pence per Ordinary Share and 92.5 cents/49.5 pence per Equity Unit.

Sales from continuing operations, showing the effect of exchange rate fluctuations, particularly the weakening U.S. dollar, were $2.021 billion/1.081 billion pounds, a 3 percent decrease from the third quarter of 1989. Due to the fact that a large proportion of the sales are outside the U.K., translation of sales has been affected by exchange rates. On a constant exchange rate basis, third quarter sales increased 4 percent. Exchange rate fluctuations had a marginal impact on operating profits due to the company's hedging program.

For the first nine months of 1990, sales from continuing operations were up 8 percent. Operating profit from continuing operations was up 28 percent, pre-tax profit increased 8 percent and earnings per share rose 1 percent. Figures for the nine months were not significantly impacted by exchange rate fluctuations.

Interest for the quarter, at $24 million/13 million pounds shows a significant reduction against both the $73 million/39 million pounds last year and the $56 million/30 million pounds reported in the second quarter of 1990. This was the result of continued debt reduction from $1.537 billion/822 million pounds at June 30, to $1.219 billion/ 652 million pounds at Sept. 30. The level of debt was affected by cash received from business disposals, lower than expected capital expenditures and the effect of closing exchange rate translation.

Robert P. Bauman, chief executive, stated: "The third quarter was highlighted by continued growth in operating profit and earnings per share. This illustrates the strength of our businesses and the success of our restructuring program which has enabled us to reduce costs and increase operating margins.

#90312p4561 11/08/1990 ~PR Newswire

CHICAGO (NOV. 8) PR NEWSWIRE - Navistar International Corporation (NYSE: NAV) today announced that, effective immediately, John R. Horne, 52, has been elected president, chief operating officer and a director, and Robert C. Lannert, 50, has been elected executive vice president, chief financial officer and a director.

Together with James C. Cotting, chairman and chief executive officer, both men will become members of a newly formed office of the chief executive, which will be responsible for overall results of the corporation and its strategic direction.

Horne, who had been group vice president and general manager, engine and foundry operations, replaces Neil A. Springer, who retired on Oct. 31, 1990. All of Navistar's truck, parts and engine operations will report to Horne.

Lannert, who had been vice president and treasurer, will have responsibility for the treasury, corporate controller, internal audit and investor relations functions. In addition, Navistar Financial Corporation, the company's finance and insurance subsidiary, will report to Lannert.

In a related move, Daniel C. Ustian, 40, was elected group vice president and general manager, engine and foundry operations, replacing Horne.

Horne joined Navistar in 1966 as an engineer in the company's diesel engineering center at Melrose Park, Ill. He was promoted to progressively more responsible positions in engine engineering and became vice president, engineering, in 1980. In April, 1983, Horne was named vice president and general manager of the engine and foundry operations. He was named a group vice president earlier this year. Lannert joined Navistar as a trainee in the treasury department in 1963. He was promoted to Navistar Finance AG in Zurich Switzerland, where he held increasingly more responsible positions in the finance area. In 1976, he was named assistant treasurer with responsibility for overseas financial relations and operations. He became assistant treasurer for North American operations in 1977 and was named vice president and treasurer in 1979. He assumed the additional position of vice president

and treasurer of Navistar's operating subsidiary, Navistar International Transportation Corp., in 1987.

In commenting on Lannert's promotion, Cotting cited his major contribution to Navistar's successful financial restructuring during the 1980s and his demonstrated achievements in financial management, including addressing the company's unfunded pension liability and strengthening its balance sheet. He also said that his wide-ranging knowledge of international finance, foresight, and creativity in evaluating business opportunities will be essential to executing Navistar's growth strategies for the next decade.

Ustian joined Navistar in 1973 as a financial analyst and progressed through various assignments in the company's former agricultural equipment and components groups. In 1985, he was named director of finance, engine and foundry operations. He was named vice president, manufacturing, engine and foundry, in 1987.

Navistar is the leading producer of medium and heavy trucks in North America and the worldwide leader in the production of mid-range diesel engines.

#90312p4564 11/08/1990 ~PR Newswire

PRINCETON, N.J. (NOV. 8) PR NEWSWIRE - The Liposome Company, Inc. (NASDAQ: LIPO) announced today that it has begun Phase II clinical trials with its proprietary drug, TLC G-65, for the treatment of disseminated Mycobacterium avium-intracellulare (MAI), an opportunistic infection that eventually strikes 30 percent to 50 percent of AIDS patients. TLC G-65 received orphan drug designation from the U.S. Food and Drug Administration in July 1990.

In pre-clinical trials, TLC G-65 was highly effective against MAI infection. In Phase I studies, completed last month in healthy volunteers, the drug was well tolerated. The Phase II clinical trials are designed to establish an effective dose for TLC G-65 and then test the drug in expanded, multi-center studies.

There are currently no drugs approved for the treatment of MAI, which can cause high fever, night sweats, abdominal pain, diarrhea and weight loss in AIDS patients. Severe anemia and significant blood transfusion requirements frequently accompany these symptoms. The disease can be fatal.

MAI is an intracellular infection (the infection is inside the affected cells) which initially enters the body through the lungs or gastrointestinal tract of AIDS patients, but can then rapidly spread (disseminate) to organs in the reticuloendothelial system (RES), including the spleen, liver, lymph nodes and

bone marrow. Conventional antibiotics are generally ineffective against MAI because they fail to penetrate into the affected cells in concentrations sufficient to kill the infection.

TLC G-65 is a new drug consisting of an aminoglycoside antibiotic entrapped in liposomes. Liposomes are microscopic vesicles which consist of inner aqueous compartments surrounded by one or more lipid membranes. Loading an antibiotic inside a liposome is somewhat like hiding soldiers inside a trojan horse. Macrophages and other cells of the RES, in which MAI resides, recognize liposomes as foreign particles and phagocytose or "swallow" the liposomes as if they were invading organisms. Once inside the cell, the lipid membranes of the liposomes are degraded by cellular enzymes thereby allowing the antibiotic to be released so it can kill the infection.

The largest company dedicated exclusively to the development of liposome-based pharmaceuticals, the Liposome Company is primarily focused on developing advanced liposomal drugs for the treatment of cancer and serious infectious diseases.

THIRD QUARTER RESULTS OF BUSINESSES

EXPLORATION AND PRODUCTION replacement cost operating profit of $645 million (341 million pounds) compares with $528 million (334 million pounds) earned in the same quarter of 1989. The benefit from the rise in market prices in the quarter has been limited by the time lag before spot price levels are fully reflected in realizations. It has also been partly offset by the effect of lower production. In the U.K., routine maintenance took place at BP's major fields, Forties and Magnus. In Alaska, the successful installation of the first phase of the gas handling expansion program and the maintenance carried out on the BP separation facilities temporarily necessitated lower production.

Total crude oil production averaged 1,227,000 barrels per day (b/d) in the quarter, compared with 1,427,000 b/d in the third quarter of 1989. Crude oil production in the U.S. averaged 696,000 b/d in third quarter 1990, compared with 762,000 b/d in the year-ago third quarter. Sales of natural gas worldwide averaged 1,270 million cubic feet per day (mmcf/d) in the 1990 third quarter, compared with 974 mmcf/d in the third quarter of 1989.

BP has resolved long standing disputes with its Prudhoe Bay partners, thereby enabling further substantial development of the field in Alaska. Investment in additional gas handling facilities will eventually increase liquids production by approximately 100,000 b/d within the overall declining profile. The disputes' resolution between partners has resulted in a reallocation of the future condensate reserves from BP to the partners. However, this reallocation is expected to be fully offset for BP by the additional reserves secured by increased gas handling capacity.

REFINING AND MARKETING replacement cost operating profit for the quarter was $459 million (248 million pounds), compared with $244 million (154 million pounds) in the corresponding quarter of 1989.

The refining segment, benefiting from higher margins, continued to perform strongly, while the marketing segment was substantially affected by the Gulf crisis, with most sectors experiencing difficulty in passing on product cost increases to customers.

CHEMICALS replacement cost operating profit of $41 million (20 million pounds) for the quarter was $134 million (92 million pounds) below the third quarter of 1989. In September, the cost of naphtha feedstock was more than double the July level. Price increases to recover higher costs were initiated, but timing lags create an inevitable squeeze on margins.

NUTRITION replacement cost operating profit of $25 million (14 million pounds) in the quarter compares with $22 million (13 million pounds) in the year-earlier quarter. European animal feed profitability remained strong. However, results in the U.S. were affected by weak hog packing margins, and in the U.K., Consumer Products Division's own label activities suffered from strong competition.

OTHER BUSINESSES AND CORPORATE comprises the results of Chase Brass, which was sold during the quarter, minerals and coal assets retained by the group, interest income, and costs relating to corporate activities worldwide. Last year included compensation payable to BP for the period up to completion of the Minerals sale on June 30, 1989.

CONTACT: John F. Andes, 216-586-5547, or Tom Koch, 216-856-6511, both of BP.

#90312p4573 11/08/1990 ~PR Newswire

DOMINGUEZ, CALIF. (NOV. 8) PR NEWSWIRE - Pic 'N' Save Corp. (NASDAQ: PICN) announced today that its sales for the four weeks ended Oct. 28, 1990 from continuing operations were $36,772,000, up 10.1 percent from $33,401,000 for the same period in the prior year. Sales from continuing operations for the 39 weeks were $323,801,000, up 12.6 percent from the prior year's sales from continuing operations for the same period of $287,604,000. Sales from continuing operations exclude the company's 14 Job Lot Pushcart stores which were sold in August of this year.

Total sales for the four-week period increased 3.5 percent from $35,514,000 for the same period in the prior year. Sales for the 39 weeks were $337,164,000, up 9.3 percent from $308,429,000 for the same period last year. Sales in comparable stores for the month of October and for the year to date increased by approximately 1.0 percent and 2.0 percent, respectively.

During October, the company opened four stores, three in Florida (Tampa, Clearwater, and Miami) and one in Metairie, La., bringing the number of stores in operation at the end of the month to 186. The stores in Florida are operated under the trade name The WOW! Store.

The company also announced that it has accepted the resignation of Arthur Frankel from the position of chairman of the board. Frankel will continue to serve as a director and provide the benefits of his leadership and long experience with the company. Peter S. Willmott was elected by the board to serve as chairman. Willmott currently serves as chairman of the board of Willmott Services, Inc. He was formerly the chairman of the board, president and chief executive officer of Carson Pirie Scott & Company in Chicago. Willmott serves as a director of Federal Express Corporation, International Multifoods Corp., Maytag Corp., Nicolet Instruments Corp., and Zenith Electronics Corp.

#90312p4574 11/08/1990 ~PR Newswire

LOS ANGELES (NOV. 8) PR NEWSWIRE - Fujitsu America Inc. today introduced its new Pocket Commander cellular telephone in Los Angeles, which, with optional slim battery, is the smallest and lightest portable cellular phone in the world.

Weighing in at a mere 10.2 oz., the Fujitsu Pocket Commander was simultaneously announced in the United States, Japan, and Canada. It will be available in the Los Angeles area beginning next week and marketed nationally in the first quarter of 1991.

"Pocket phones are changing the way we think about cellular phones," says C.P. Shankar, vice president of sales and marketing for Fujitsu's cellular mobile telephone division near Dallas. "They're not just for business anymore. Pocket phones are personal accessories, like wristwatches."

Shankar says small portable phones are the fastest growing segment in the cellular telephone market, although not all are truly "pocket size," which is a key distinction.

"If carrying a portable phone means having to put it in a briefcase or a carrying case, it's not really going to be perceived by the consumer as a 'go-anywhere' product," says Shankar. "Size is what will liberate the cellular phone from the car and briefcase," he adds.

Fujitsu achieved the diminutive size with the company's custom LSI chips, according to Shankar, and the result is a phone that easily fits in a shirt pocket. The Pocket Commander offers sleek Euro styling, rugged durability, numerous convenience features, and practical accessories.

The standard "Extra Talk-Time" battery adds less than 2 oz. of weight and increases the Pocket Commander's talk time to 80 minutes of continuous conversation, or 13 hours of standby.

Standard features include alphabetic directory and scroll, 100- number memory, 40 alpha numeric memory, one touch last number redial, silent alert mode, voice and ring volume control, individual call timer, accumulated call timer, battery level monitor, low-charge audible alarm, electronic locking and more.

Options available for the Pocket Commander include vehicle adapter, three-watt

power booster and rapid battery charger. A desk charger is included as standard.

"The Ergonomic design offers a solid, comfortable feel at an extremely light weight, while the sophisticated European-inspired design makes a strong personal style statement," Shankar notes.

ANAHEIM, CALIF. (NOV. 8) PR NEWSWIRE - In keeping with its charter to develop the most complete line of precision timing products available from one company Odetics (AMEX: OA and OB) has purchased the assets of Coordinated Time Link (CTL) of Santa Clara, Calif. This is Odetics' second acquisition of a timing company during the past eight months.

As part of the agreement, CTL's products -- including a recently introduced IBM PC-compatible board that links personal computers to the U.S. atomic-time-standard -- have been added to Odetics Precision Time Division's product line and CTL's employees have become Odetics associates. The CTL operation will remain in Santa Clara until mid- 1991.

The new product, designated the CTS-10, is an easy-to-operate, plug-in precision time standard. Uses for the CTS-10 include PC- based applications that require affordable, precise time within 50 millisecond accuracy. Example applications include the synchronization of traffic light systems, communication networks, data collection, process control, security systems and supervisory control and data acquisition (SCADA).

"With the acquisition of CTL and the addition of the CTS-10, Odetics now offers precision timing for a much broader range of applications," explains Don Greenspan, vice president and general manager of Odetics Precision Time Division. "The CTS-10 is a cost- effective solution for situations that call for accurate time, but do not require a more-precise receiver. For applications like the synchronization of computer networks or traffic lights, the CTS-10 specification of accuracy within 50 milliseconds of Coordinated Universal Time is appropriate, and the board's $295 price tag is very attractive."

Installed inside an IBM-compatible PC, the CTS-10 receives and decodes digital time information encoded on the high-frequency radio signal broadcast by station WWV in Fort Collins, Colo., by the National Institute of Standards and Technology (NIST). The NIST -- formerly known as the National Bureau of Standards (NBS) -- broadcasts time information throughout North America which is synchronized to the United States atomic-time standard.

Odetics, headquartered in Anaheim, is a leading manufacturer of intelligent machines, including information systems, for collecting digital and analog data, as well as robotic and artificial intelligence systems.

HAUPPAGE, N.Y. (NOV. 8) PR NEWSWIRE - The board of directors of Knogo Corporation (NYSE: KNO), a multi-national company now celebrating its 25th anniversary as the standard of the loss prevention industry, today named Arthur J. Minasy chairman of the board.

Minasy, founder of the company (and of the global electronic article surveillance industry), as well as the holder of many patents in loss prevention technologies, will retain his responsibilities as chief executive officer.

In other executive changes, Thomas A. Nicolette will succeed Minasy as president and chief operating officer of Knogo Corporation. Nicolette served as president of Knogo North America for five years.

Willard C. (Bill) Nix Jr. has been appointed president of Knogo North America. Nix joined the company in May as senior vice president.

"These changes have been designed to capitalize on the growth Knogo has already experienced, and to help us reach our strategic long range plan," said Minasy. "The board has given us both a vote of confidence, and a mandate to be even more responsive to customers and shareholders."

Knogo's latest financial statement, issued October 10, reported a 29 percent increase in revenues for the second quarter of fiscal 1991. For the six months ended Aug. 31, 1990, revenues increased to $35,917,000, up from $32,329,000 in the comparable period of the previous year. Backlog, at an all-time high, is expected to be translated into revenues during the balance of this fiscal year.

Since 1966, Knogo Corporation has been the world's technological leader in the design and manufacture of anti-theft systems for retailers. Increasing white collar crime is expanding Knogo's potential marketplace. Its recent thrust is to apply its 25 years of experience to protecting business assets. Knogo has subsidiaries in more than 20 countries, plus manufacturing facilities in New York, Puerto Rico, Belgium and Brazil.

Knogo's radio frequency and micro-magnetic technologies, its Surveillor Closed Circuit Video Systems and its new KnoGlo Dye-Release systems, offer end-users

loss protection products for many new applications. The company's value-added philosophy allows it to solve each problem as it is presented, without being limited to supplying only mass-produced systems.

NEW YORK (NOV. 8) PR NEWSWIRE - Chartwell Associates, L.P., reported today that it has retained Lehman Brothers to advise Chartwell on ways in which Avon can enhance shareholder value. "We have asked Lehman Brothers to recommend a plan designed to build and deliver value for all stockholders, now and over the long term," a Chartwell spokesman stated. "We have long believed Avon requires a fresh perspective. Avon's board and management stonewalled efforts to retain an independent financial advisor for the special committee, and belatedly hired an advisor only after our resignation from that committee. We felt it would be in the best interests of all stockholders to have this additional third-party, objective point of view."

NEW YORK (NOV. 8) PR NEWSWIRE - Woolworth Corporation (NYSE: Z) today reported that total sales for the four weeks ended Nov. 3, 1990, rose 13.1 percent to $715 million from $632 million in the comparable year-earlier period.

Domestic sales for the four-week period increased 4.2 percent to $375 million from $360 million, and foreign sales, expressed in U.S. dollars, rose 24.9 percent. If foreign exchange rates had remained constant, foreign sales would have increased 14.7 percent and total sales would have increased 8.7 percent. Domestic comparable store sales for the four-week period rose 1.0 percent.

For the cumulative thirty-nine weeks ended November 3, total sales rose 12.4 percent to $6,806 million from $6,055 million in the corresponding year-earlier period.

Domestic sales for the thirty-nine-week period increased 7.7 percent to $3,855 million from $3,579 million, and foreign sales, expressed in U.S. dollars, rose 19.2 percent. If foreign exchange rates had remained constant, foreign sales would have increased 11.2 percent and total sales would have increased 9.2 percent. Domestic comparable store sales for the thirty-nine-week period rose 4.2 percent.

Commenting with respect to total sales, Harold E. Sells, chairman and chief executive officer, pointed out that "October's 13.1 percent gain exceeded the company's cumulative thirty-nine-week percentage gain." He noted that "continued strong sales gains generated by our German operations helped bolster weak domestic sales gains in October," adding that Woolworth's "extensive foreign operations, which give it a unique status among major United States-based retailers, help cushion the company against what appears to be a slowdown in consumer spending in the United States."

Commenting on domestic sales during October, Sells stated that "sales in our U.S. Woolworth and apparel divisions were soft, and lower than planned, due in large part to warmer-than-expected weather across most of North America." He added that, "while our Kinney operations in the United States registered total- and comparable-store sales gains, the increases were not as great as we had planned due in large part to a weak retail environment in the northeast."

As of Oct. 27, 1990, Woolworth Corporation operated a total of 8,594 stores, compared to a total of 8,120 stores on the comparable date the year before. The 8,594 stores consisted of some 6,946 specialty stores in more than 40 formats and 1,648 general merchandise stores in the United States, Canada, Germany, Australia, Belgium and the Netherlands.

#90312p4587 11/08/1990 ~PR Newswire
CLEVELAND (NOV. 8) PR NEWSWIRE - The Board of Directors of The British Petroleum Company p.l.c. of London today announced payment of a quarterly dividend which, with the addition of the tax credit and less the withholding tax described below, is worth $1.062 per American Depositary Receipt (ADR) to qualifying U.S. resident ADR holders. The record date for ADR holders is Nov. 30, 1990 with payment to be made on Feb. 7, 1991.

The current double tax convention between the U.K. and the U.S. includes provisions which entitle qualifying U.S. resident ADR holders to a refund of the 25/75 U.K. tax credit attaching to the dividend, less a 15 percent U.K. withholding tax charged on the sum of the dividend and the tax credit. The effect of these arrangements for qualifying U.S. resident ADR holders is that the tax credit raises the value of the dividend announced by the Board from $0.937 to $1.249 but the 15 percent withholding tax reduces it to $1.062 per ADR. Subject to certain limitations, the withholding tax, worth approximately $0.187 per ADR, may be treated as a foreign income tax that is eligible for credit against the ADR holder's federal income taxes.

The rate of exchange of $1.9765 to the pound used to translate BP's ordinary share dividend into U.S. dollars was that in effect at 5 p.m. London time on Nov. 7, 1990.

WALTHAM, MASS. (NOV. 8) PR NEWSWIRE - Thermo Electron Corporation (NYSE: TMO) today reported record net income of $9,510,000 or 46 cents per share on sales of $181,484,000 for the quarter ended Sept. 29, 1990, compared with net income of $7,038,000 or 36 cents per share on sales of $142,293,000 for the third quarter a year ago.

For the nine-month period, net income was $24,012,000 or $1.17 per share on sales of $494,492,000, also records, compared with net income of $17,926,000 or 92 cents per share on sales of $445,074,000 a year ago.

"Strong international sales, particularly in our environmental and analytical instruments business, figured prominently in our quarterly performance," said Dr. George N. Hatsopoulos, chairman and president of Thermo Electron. "With a $408 million backlog and more than $170 million in cash and liquid investments we are continuing to pursue opportunities that will add value to our organization and sustain Thermo Electron's rate of growth."

Thermo Electron Corporation develops, manufactures and markets environmental

and analytical instruments, custom-engineered and pre-packaged cogeneration systems, industrial process equipment, biomedical materials and products, and fabricated biomedical and aerospace components. The company also provides metallurgical heat treating, water quality engineering, and analytical laboratory services.

GOLDEN, COLO. (NOV. 8) PR NEWSWIRE - Adolph Coors Co. (NASDAQ: ACCOB) today announced record third quarter net sales for the 16 weeks ended Oct. 7, 1990. The company also reported higher earnings compared with the like 16-week

period of 1989.

Most major businesses experienced improved sales, resulting in total third quarter net sales of $607,089,000, a 4.1 percent increase, compared with net sales of $583,257,000 for the like period a year ago. Net income increased 12.1 percent to $23,538,000, or 63 cents per share, compared with $20,991,000, or 57 cents per share, a year earlier.

Net sales for the first three quarters of the year were $1,476,776,000, a 10.8 percent increase, compared with $1,332,849,000 for the like period last year. Net income for the first three quarters of 1990 increased 70.1 percent to $56,365,000, or $1.52 per share, compared with $33,057,000, or 90 cents per share, a year ago.

Coors Brewing Co., a business unit of Adolph Coors Co., shipped a record 6,291,000 barrels of beer in the third quarter. This was a 5 percent increase compared with 5,989,000 barrels shipped in the third quarter of 1989, when the Keystone and Keystone Light brands were introduced nationally.

Beer shipments for the first three quarters of 1990 were 15,102,000 barrels, a 13.5 percent increase from 13,304,000 barrels shipped in the like three quarters last year.

In explaining the strong growth in shipments, Bill Coors said, "We are particularly pleased with consumer demand for Coors Light, which is the nation's third-largest-selling beer. This brand continues to enjoy double-digit growth." Keystone and Keystone Light also contributed to increased beer sales for the quarter. "As a result," Coors added, "we have been able to achieve the highest percentage increase in beer shipments of any national brewer so far this year."

On Oct. 18, 1990, at a special meeting of shareholders of Adolph Coors Co., Class A and Class B shareholders approved restructuring the company into a holding company. The restructuring is scheduled to be effective Dec. 31, 1990 the first day of the company's 1991 fiscal year.

Other measures approved by the shareholders at the special meeting include an increase in the number of authorized shares of the company's Class B Common Stock (non-voting) from 46,200,000 shares to 100,000,000 shares and authorization of a new class of 25,000,000 shares of non-voting preferred stock. The company presently has no specific plans involving the issuance of the additional authorized Class B shares or shares of preferred stock.

WHITE HAVEN, PA (NOV. 8) PR NEWSWIRE - Electronics, Missiles & Communications Inc. (NASDAQ: ECIN) today announced the results of its second quarter of fiscal 1991 as follows:

	Fiscal 1991	Fiscal 1990
Second quarter ended	Sept. 30, 1990	Sept. 30, 1989
Net sales	$2,028,619	$1,924,160
Income	40,706	52,861
Earnings per common share:		
Continuing operations	$.01	$.01
Extraordinary item	--	.01
Net income per common share	.01	.02

The variance in income is the result of higher expenditure in research and development, which will result in a new product being introduced later this fiscal year.

At Sept. 30, 1990, the order backlog was $3.5 million, up from $3 million on June 30, 1990. For the period ending Sept. 30, 1989, the backlog was $4.75 million, which included a $1.2 million contract for ITFS (Instructional Television Fixed Service) in South Carolina.

Electronics, Missiles & Communications Inc., located in White Haven, is a leading manufacturer of television transmitting equipment.

COLUMBIA, MD (NOV. 8) PR NEWSWIRE - Mathias J. DeVito, chairman, president, and chief executive officer of The Rouse Company (NASDAQ: ROUS) of Columbia, Md., today announced the elections of Anthony W. Deering and Douglas A. McGregor as executive vice presidents of the company, as part of a reorganization of senior executive responsibilities.

In his new position as executive vice president - finance and administration, Deering will continue as chief financial officer of the company and, in addition, will have responsibility for all of the company's administrative functions.

McGregor will assume responsibility for all real estate development activity in the company in his position as executive vice president - development. He will continue as director of the office and community development division of the company and general manager of Columbia as part of his development responsibilities.

Deering, 45, received a B.S. in finance from Drexel University and holds an M.B.A. from The Wharton School of the University of Pennsylvania. He joined the company in 1972, and was appointed vice president and treasurer in 1975 and senior vice president and chief financial officer in 1978. Deering lives in Baltimore with his wife, Lynn, and their three children.

McGregor, 47, was awarded a B.A. from Rutgers University and a J.D. from Western Reserve University. He joined the company in 1972, and was appointed director of Land Development for Columbia in 1975 and, in 1978, senior vice president of the company and general manager of Columbia. McGregor, his wife, Karen, and their two children live in Owings Mills, Md.

Deering and McGregor join R. Harwood Beville, executive vice president - operations, as the most senior executive officers in the company reporting to DeVito.

DeVito, chief executive officer of the company since 1979 and recently reappointed by the company's board to the additional office of president following the tragic death of Michael D. Spear, indicated that he would continue in his additional position as president, stating, "The elections of Tony Deering and Doug McGregor, joining Woody Beville in the senior executive management of our company, place us in a very strong position in meeting the challenges of the 1990s.

"These three are extremely able, seasoned executives who will provide very effective leadership for our experienced senior management team in carrying out our current business plans."

MINNEAPOLIS (NOV. 8) PR NEWSWIRE - Dayton Hudson Corporation (NYSE: DH) today reported that its net retail sales for the four weeks ended Nov. 3, 1990, increased 16.7 percent to $1.13 billion from $969 million a year ago.

Comparable-store sales were up 4.1 percent on the 1990 accounting calendar. Comparable-store sales on an adjusted exact-week comparison were up 2.4 percent.

Kenneth A. Macke, Dayton Hudson chairman and chief executive officer, said the tone of business continues to show mixed results across the country.

Macke said that because of the weakened economic environment, "we were more promotional and our margins were lower than we had planned. As a result, our third quarter profits will be down from third quarter of last year.

"The most important part of our year is still ahead and our inventories are well-controlled going into the holiday season," Macke said.

October sales by business segment for the four weeks were as follows: -- Target's total sales rose 7 percent while comparable-store sales were up 2 percent. On an exact week comparison, Target's total sales were up 7 percent and comparable-store sales were up 1 percent.

-- Mervyn's total sales increased 11 percent and comparable-store sales increased 8 percent. On an exact week comparison, Mervyn's total sales were up 11 percent and comparable-store sales were up 8 percent.

-- The Department Store Division's total sales increased 62 percent and comparable-store sales were up 5 percent. On an exact week comparison, the Department Store Division's total sales were up 62 percent and comparable store sales were down 1 percent. (The total sales increase for the Department Store Division primarily reflects 4-weeks' sales from Marshall Field's; the comparable-store sales number includes Field's, this year and last.)

During the month, Target opened seven new stores in California, Indiana, Michigan and Washington. Mervyn's opened five new stores in Arizona and California and relocated one store in Texas.

The Corporation's sales for the 39 weeks ended Nov. 3 were $9.70 billion, up 13.8 percent from $8.53 billion in the same period a year ago. Comparable-store sales for the 39-week period were up 4.7 percent compared to the same period last year.

As of Nov. 3, 1990, Dayton Hudson operated 708 stores in 33 states.

DENVER (NOV. 8) PR NEWSWIRE - Generation 5 Technology Inc. (NASDAQ: GFIV), (G5) a pacesetter in the development of Geographic Information Systems (GIS), today announced the selection of the Geo/SQL geographic information software by the Marion County Township Assessors, of Marion County Indiana.

The 320,000 parcel Geo/SQL land base will serve as the property information system for the Indianapolis Mapping and Geographical Infrastructure System (IMAGIS).

The IMAGIS project is one of the largest and most successful multi-participant land/infrastructure information system project in the United States. Initially

the Marion county project calls for each of the nine township assessors to implement the Geo/SQL at their respective locations.

In a related event, DigiTech Systems, of Indianapolis, a member of the G5/Cartotechnical Group, was awarded the contract for management, digital map conversion, and property map digital conversion for the project.

The Marion County project marks the third time a participant of the IMAGIS project has chosen the Geo/SQL software. Indiana Gas is currently developing applications, and Indianapolis Water is well on their way to implementing the Geo/SQL system for their entire 230,000 customer water distribution system. The Generation 5 system was chosen by the Marion County project team over several competitors' GIS systems, including ESRI (Arc/Info), and Ultimap.

"Marion County has made the right choice for the GIS system," said Dan Hinckley, vice president of R&D/Marketing for Generation 5 Technology. "The combination of Geo/SQL's coordinate precision and its seamless topological database is the best system on the market for building a county assessors' GIS."

A publicly held company, Generation 5 Technology is a pacesetter in the emerging fields of Automated Mapping (AM/FM), Geographic Information Systems (GIS), and Facilities Management (FM) software systems.

The company distinguished itself by being the first to develop sophisticated computer mapping and GIS software which takes advantage of the nearly-ubiquitous AutoCAD computer graphics system; the "AutoCAD-Integrated" Geo/SQL and MunMAP GIS software environments allow low-cost desktop 386 PCs, PS/2s, and 32-bit desktop workstations to be linked with complex database applications running on mainframes and minicomputers.

DigiTech Systems is a subsidiary of R.W. Armstrong Corp. DigiTech is a full service GIS consultant providing a broad menu of services including needs analysis, request for information/quotation consultation, and preparation of implementation planning. DigiTech also provides digital map and database conversion and on-going technical support. DigiTech is headquartered in Indianapolis.

Geo/SQL and G5 are trademarks of Generation 5 Technology Inc.; AutoCAD is registered with the U.S. patent and trademark office by Autodesk Inc.; Oracle is a trademark of Oracle Inc.; Arc/Info is a trademark of ESRI.

WASHINGTON (NOV. 8) PR NEWSWIRE - The Pension Benefit Guaranty Corporation

(PBGC) agreed to settle for $5 million a lawsuit for breach of fiduciary responsibility filed against the M&I Marshall & Ilsley Bank (NASDAQ-NMS: MRIS) of Milwaukee (M&I). Upon receipt of cash, PBGC will release M&I from all liability to the Wheeling-Pittsburgh pension plans.

The civil lawsuit stemmed from M&I's actions, as master trustee of the Wheeling-Pittsburgh Corp. (NYSE: QWHX) pension plans, in accepting unmarketable Wheeling-Pittsburgh preferred stock in satisfaction of the company's 1981 pension funding requirements.

PBGC Executive Director James B. Lockhart said, "All pension fund trustees must act in the best interest of the participants in those funds and PBGC will vigorously pursue those who do not."

The transaction's purpose, PBGC contended, was to save cash for Wheeling-Pittsburgh, rather than to benefit its pension plan participants and beneficiaries. The agency further contended that this stock was under the circumstances existing at the time, an imprudent investment of plan assets.

PBGC also contended that acceptance of the stock, valued at $26.4 million in 1982 by Wheeling-Pittsburgh and M&I, was a violation of the prohibited transaction rules of the Employee Retirement Income Security Act (ERISA) because it was not valued correctly by either the named fiduciary or the trustee. Although the plans received $10 million in dividends from the stock, the plans nevertheless lost funds as a result of this transaction because a greater return could have been earned on a prudent investment.

M&I contended that it was not liable for those losses because it was a directed trustee and was following the company's instructions in accepting the stock.

PBGC is a federal agency that guarantees payment of basic retirement benefits earned by American workers participating in private-sector defined benefit pension plans. PBGC administers two insurance programs, which cover nearly 40 million workers in about 100,000 pension plans. PBGC has about $3.2 billion in assets and about $4.2 billion in liabilities.

WARREN, OHIO (NOV. 8) PR NEWSWIRE - CSC Industries, Inc. announced today that its board of directors approved a proposed amendment to its certificate of incorporation to increase its authorized common stock to 50 million from 20 million shares. This action was taken in anticipation of a proposed series of

transactions pursuant to which CSC would sell 11.6 million shares to Daido Steel Co., Ltd., a principal stockholder of CSC, and certain investors introduced to CSC by Daido, for $14.5 million in cash, representing a price of $1.25 per share. It would also issue an additional 2.4 million shares in exchange for $3 million of indebtedness owed by Copperweld Steel Company, a wholly-owned subsidiary of CSC, to Imetal, also a principal stockholder of CSC. The transactions, which were approved by the board, are subject to the execution and delivery of definitive documentation and the approval by the requisite stockholders and filing of the amendment to CSC's certificate of incorporation.

The proposed equity financing described above is in addition to the present $23.8 million capital upgrade to the company's 12 inch bar mill, which includes a new walking beam reheat furnace, new intermediate mills, and finishing stands, as well as a new sizing mill, all of which are located at its Warren, Ohio plant. The company expects to complete its present mill modifications in early December, at which time it will be capable of producing a hot rolled steel bar that will be less than one-quarter AISI standard tolerance, and will have a defect free and near decarburization free surface.

It is anticipated that the additional $14.5 million of equity would be used to finance a capital spending program designed to complement the newly modernized mill by increasing the Melt Shop teeming capacity by 18 percent and providing facilities that improve the surface inspection of billets for the mill, while at the same time inspecting internal quality of billets by the use of ultrasonic non-destructive testing methods.

The spending plan includes improvements to the company's 35 inch rolling mill complex to provide improved surface quality, material handling, and metallurgical cooling of the products of this mill.

A second non-destructive testing facility for finished bar products, as well as finishing material handling improvements for manufacturing cost reductions, are included in the plan. Application of the proceeds from the proposed equity financing would bring the total capital spending for the Warren plant of CSC Industries, Inc. to $38.3 million over an 18 month period and reaffirms Copperweld Steel's commitment to producing excellent quality for its customers.

STAMFORD, CONN. (NOV. 8) PR NEWSWIRE - Citicorp Information Resources Inc. (CIR), announced today that it has signed a facilities management (FM) contract with the Resolution Trust Corporation (RTC). CIR will manage the data processing (DP) operations applicable to the servicing of assets the RTC

retained from the former Gibraltar Savings, Simi Valley, Calif. The one-year contract became effective Oct. 29. A Citicorp FM arrangement typically entails the on-site management of a financial institution's data processing staff, equipment and software.

The RTC assumed control of Gibraltar in March 1989. In 1990, Security Pacific Corp., Los Angeles, acquired Gibraltar's deposit base and some assets.

After performing a thorough analysis of request for proposals from facilities management providers, the RTC, with advice from Gibraltar operations staff, chose CIR to service the assets not sold to Security Pacific.

"Citicorp had all the right combinations." said Michael Harden, CIR regional sales manager. Harden explains that Citicorp has proven expertise in running the IBM mainframe-based software that the thrift had been utilizing. Citicorp will run four different systems: loans, general ledger, accounts payable, and fixed assets.

"Citicorp assured the RTC that it could come in and assume control on short notice." Harden says. In addition, Citicorp was willing to sign a short-term contract, he adds.

Citicorp Information Resources, a wholly owned subsidiary of Citicorp (NYSE: CCI), is a leading provider of a full range of data processing software system; National Service Product, an online service bureau; Facilities Management in which Citicorp operates a bank's own data center; and Resource Manager whereby Citicorp operates a bank's proprietary software at a Citicorp data center.

O'FALLON, MO (NOV. 8) PR NEWSWIRE - Venture Stores, Inc., today reported sales of $106.7 million for the four-week period ending Nov. 3, 1990, up 12.9 percent over last year's sales. Year-to-date sales were $941.2 million, up 7.1 percent. Venture's comparable store sales increased 7.6 percent for the month and 3.3 percent year-to-date.

Venture's 1989 fiscal year included 53 weeks. Therefore, the October 1990 period began one week later than the October 1989 period. Sales for October, on an adjusted calendar basis, were up 9.8 percent with a comparable store increase of 4.7 percent.

Julian Seeherman, Venture's chairman and CEO, stated, "Sales for the month in both hardlines and apparel were strong. October's cooler weather compared to

last year's, especially during the first three weeks of the month, gave an added boost to our business. Sales were particularly strong in shoes, ladies' sportswear, housewares, and domestics."

With the opening of the Dubuque, Iowa, store this month, Venture now operates 79 quality discount retail stores in Missouri, Iowa, Illinois, Arkansas, Oklahoma, Kansas, Indiana, and Kentucky.

EAST MILLSTONE, NJ (NOV. 8) PR NEWSWIRE - Applied Bioscience International Inc. (NASDAQ: APBI) announced today that it had suspended negotiations with PharmaKinetics Laboratories concerning the proposed acquisition by APBI of PharmaKinetics' bioequivalency testing and clinical research business in North America.

Dr. Kenneth H. Harper, president and chief executive officer of APBI, stated that he believed any further negotiations between the parties would have to involve substantially different terms from those contemplated in the previously announced letter of intent between APBI and PharmaKinetics. He further stated that it was unclear at the present time whether any such further negotiations would occur.

APBI is a broadly based scientific research and development company, providing services under contract to the pharmaceutical, agrochemical, general chemical and food industries. Its wholly-owned subsidiary, ENVIRON International, provides chemical risk assessment and environmental risk management services.

DALLAS (NOV. 8) PR NEWSWIRE - Sales of J.C. Penney stores and catalog for the four weeks ended Nov. 3, 1990, amounted to $1,308 million, as against $1,375 million in the 1989 period. The decline amounted to 4.9 percent. On a comparable store basis, that is stores open at least a year, sales decreased 6.3 percent.

William R. Howell, chairman of the board, said that the children's division was the only area to show an overall gain for the month. He noted, however, that there were some strong performers in other merchandise categories, including women's dresses, misses' casual sportswear, and athletic footwear. He said the slide in catalog demand intensified.

Fiscal third quarter 1990 sales of J.C. Penney stores and catalog declined 2.5 percent to $3,728 million from $3,823 million in 1989. For the 39 weeks ended Oct. 27, 1990, sales increased 1.8 percent to $10,312 million from $10,132 million in the prior year. On a comparable store basis, sales were up 0.7 percent.

#90312p4622 11/08/1990 ~PR Newswire

TROY, MICH. (NOV. 8) PR NEWSWIRE - Kmart Corporation (NYSE: KM) today announced that its 1990 holiday marketing program will recognize the diversity of the traditions and values of the people that make up the population surrounding its 2,300 stores.

The program, "Around the Tree, Around the Country -- A Family Tradition," will highlight the traditional values that are returning to the country for the '90s.

The program represents a significant change from Kmart's programs of the last two years, which centered around a coffee table book and a made-for-television special.

"We felt it was time for a program that depicted the beliefs of our customers " said Mike Wellman, vice president of marketing. "Our research shows that there is a return to traditional values and an interest in family. We feel our graphics and slogan capture this growing sentiment."

The Illustration, that will be prominently displayed in all Kmart signage, advertising circulars and magazine ads, will feature three children holding hands around a Christmas tree with the heading "Around the Tree, Around the Country." The graphic captures the whimsical appeal of Christmas and translates the diverse, but uniting traditions that make Christmas in the United States a special experience.

The campaign officially kicks off Nov. 11 when the store signage will be unveiled. A local flavor will be added Nov. 30 when Kmart stores around the country invite groups to the store to demonstrate their talents, skills or

crafts that is representative of a section of the local community on Friday and Saturday nights until Christmas Eve.

The holiday magazine advertising will begin carrying the message on Nov. 11 and the national advertising circular will include it in its Nov. 18 distribution.

Kmart Corporation serves America with over 4,000 retail outlets in all 50 states in the U.S., Puerto Rico and Canada. Kmart, currently operating 2,336 Kmart stores, is also the parent company for Pay Less Drug Stores, Builders Square, Sports Authority, Waldenbooks and PACE Membership Warehouse Clubs.

JACKSONVILLE, FL (NOV. 8) PR NEWSWIRE - Robert L. Kirk, president and chief executive officer of CSX Transportation Inc., today announced the appointment of Donald D. Davis as senior vice president-employee relations.

Davis, who previously served as senior vice president-human resources for CSX Corporation, will assume responsibilities for both labor relations and human resources at the railroad, Kirk said.

"I am pleased to have a man of Don's proven abilities as a leader in labor negotiations and human resources to assist CSX Transportation as we look forward to a challenging decade in managing our most important asset, our people," Kirk said.

Bringing human resources and labor relations together under Davis "will be of enormous value to CSX Transportation as we search for ways to integrate these vital functions in order to better serve all of our employees," Kirk said.

Joel W. Warner, vice president-human resources, and H. Gerry Anderson, vice president-labor relations, will report to Davis as part of the organizational realignment.

In September, the railroad announced that John L. Sweeney, executive vice president and head of labor relations, would be focusing his attention on the completion of the current national round of rail labor negotations. Following completion of these negotiations, Sweeney will continue his association with CSX as a consultant.

Davis, 51, joined CSX Corporation in Richmond, Va., in 1986 as vice president-human resources, after serving for nine years with Wilson Foods as executive vice president. He worked previously in human resources and labor relations with Ryder System and Mobil Oil Corporation.

CSX Transporation Inc., and its 36,000 employees provide customers with rail transportation and distribution services over a 19,200 route-mile network in 20 states, the District of Columbia and Ontario, Canada.

#90312p4632 11/08/1990 ~PR Newswire

ALBUQUERQUE, NM (NOV. 8) PR NEWSWIRE - Diagnostek, Inc. (NYSE: DXK), today announced net earnings of $2.2 million or $.11 per share on revenues of $55.0 million for the quarter ended Sept. 30, 1990. Net earnings for the quarter ended Sept. 30, 1990, increased 41 percent over net earnings for the same period in 1989 of $1.5 million and earnings per share increased 38 percent over that of the same period in 1989 of $.08. Net earnings for the first six months of this fiscal year of $4.2 million have increased 44 percent over the comparable period in 1989 of $2.9 million.

Diagnostek has experienced substantial growth in revenues thus far in 1990 as revenues for the quarter increased $20.7 million or 60 percent over the same period in 1989 from $34.3 million in 1989 to $55.0 million in 1990. Revenues year to date have increased $43.8 million or 78 percent over the same period last year from $56.3 million last year to $100.1 million this year. The growth in revenues for the quarter is largely attributable to the addition of EPIC Health Group, Inc., a mail service prescription drug provider acquired effective July 30, 1990, as well as growth in revenues of Health Care Services Inc., Diagnostek's mail service prescription drug provider. Further, the large year to date increase in revenues is due primarily to the addition of HPI Health Care Services, Inc., in August 1989, resulting in six months of revenue in the current year compared to two months of revenue for the same period last year.

Nunzio DeSantis, chairman of the board and chief executive officer, stated, "We are very happy with our recent acquisitions in the mail service pharmacy business. These additions plus the growth of our existing book of business continues our trends of increasing revenues, profitability and value to our shareholders."

PITTSBURGH (NOV. 8) PR NEWSWIRE - Precision Galvanizing Inc. announced today that it has completed the acquisition of certain land, buildings and equipment at H.H. Robertson's (NYSE: RHH) manufacturing facility in Ambridge, Pa.

The purchase includes steel galvanizing equipment and some 17 acres of land or approximately 53 percent of the total Robertson manufacturing site in Ambridge. The purchase will also include some 290,000 square feet of building space, including the building which contains H.H. Robertson's existing coating operation. H.H. Robertson will lease back the building and continue to operate the coating line. The galvanizing operation, which for a number of years supplied H.H. Robertson's internal needs, discontinued operation in 1989.

"We are pleased that we have finally completed this important acquisition," Howell A. Breedlove, president and chief executive officer noted. "We could not have done it without the full cooperation of H.H. Robertson, United Steelworkers of America, Beaver County and the Commonwealth of Pennsylvania and, of course, our principal lender, Pittsburgh National Bank.

"We expect to begin operations at the facility on Thursday, Nov. 8, with full start-up of the galvanizing line on Tuesday, Nov. 13. The response to our marketing program has been gratifying and we expect to have sufficient customer orders to commence operations next week," Breedlove said.

#90312p4639 11/08/1990 ~PR Newswire

DENVER, COLO. (NOV. 8) PR NEWSWIRE - Presidio Oil Company (AMEX: PRS.A) today reported net earnings of $2,071,000 for the third quarter ended Sept. 30, 1990 compared to a net loss of $4,695,000 for the similar 1989 period, as higher average oil prices and greatly increased production resulted in revenues of $31,991,000 for the current quarter compared to revenues of $16,041,000 for the quarter ended Sept. 30, 1989.

Earnings per share for the 1990 third quarter were $0.07 for the company's Class A common stock and $0.05 for its Class B common stock, while in the third quarter of 1989, the loss attributable to the Class A and B stock was $0.36 and $0.39 per share, respectively, after preferred dividends.

For the nine months ended Sept. 30, 1990, Presidio's revenues increased to $86,266,000 compared to revenues of $53,949,000 for the similar period in 1989. The company's net loss for the period declined to $7,544,000 vis-a-vis a loss of $11,676,000 for the 1989 first nine months. The loss was $0.28 per share of Class A common stock and $0.36 per share of Class B common stock for the first nine months of 1990, as compared to $1.09 per Class A share and $1.17 per Class B share for the similar 1989 periods.

Presidio's net operating cash flow for the 1990 nine month period was $33,305,000, representing the loss of $7,544,000 as adjusted for non-cash charges. For the first nine months of 1989, Presidio's net operating cash

flow was $11,402,000. For the third quarter of 1990, net operating cash flow was $14,722,000 compared to $3,155,000 for the similar 1989 period.

The company's production of oil and condensate was 826,000 barrels during the 1990 third quarter, 157 percent higher than the 1989 third quarter production of 321,000 barrels. Gas production for the comparable periods increased 48 percent to 6.0 billion cubic feet (BCF) from 4.1 BCF last year. The average prices received for the third quarter were $23.15 per barrel and $1.55 per thousand cubic feet (MCF) this year, vis-a-vis $18.18 per barrel and $1.79 per MCF in 1989. For the first nine months of 1990, Presidio produced 2,517,000 barrels of oil and 16.96 BCF of gas, compared to 1,190,000 barrels and 13.53 BCF during the comparable 1989 period.

Presidio Oil Company is an independent oil and gas company engaged in onshore oil and gas exploration, development and production in the continental United States, primarily in Wyoming, North Dakota, Texas, Oklahoma, Louisiana, New Mexico and West Virginia. Presidio also gathers, transports and markets gas through its gathering systems in Wyoming and West Virginia. Presidio's securities are traded on the American Stock Exchange and the London International Exchange under the symbols PRS.A and PRS.B.

#90312p4642 11/08/1990 ~PR Newswire

NEWARK, N.J. (NOV. 8) PR NEWSWIRE - Resolution Trust Corporation (RTC), the federally-created receiver of City Federal Savings Bank, is being sued by property owners in Bedminster (Somerset County, N.J.), claiming RTC overstepped its statutory authority when it ignored leases City Federal had for a bank in their office building and a drive-up bank branch on the same site.

According to the court papers, filed late Wednesday in U.S. District Court, MFD Bedminster Associates, which owns the building at Routes 202 and 206 where City Federal Savings Bank was formerly located, closed on the sale with City Federal Savings in September 1987. The property, including an office building a free-standing banking branch office, and a parking lot, was purchased by MFD for $36 million. At the same time, two leases were executed with City Federal: one for nearly 29,000 square feet in the office building for a bank and the other for the bank branch building.

For nearly two years, City Federal Savings operated at the site and paid rent, as agreed upon: $693,288 annually on the office space for the initial seven-year term and $1 (sic) each year during the initial ten- year term for the drive-up, after which the annual rent for the drive-up would be equal to the "prevailing fair market rental for comparable space in the Bedminster

area."

In December 1989, the U.S. Department of Treasury Office of Thrift Supervision declared City Federal insolvent and ordered the institution closed. OTS named RTC receiver for City Federal and also created a new federal savings association, City Savings, and appointed RTC as its conservator.

RTC was then required by law to either "affirm or disaffirm" the lease transactions which were in effect. In January, RTC advised MFD that it would be cancelling the September 1987 lease. The offices were vacated, but the drive-up has continued operating, according to MFD.

Since March, MFD has been advising RTC that it is in default of the lease both by failing to pay the rent and by abandoning the office premises. MFD said it wasn't until May, however, that counsel for RTC advised MFD that the intention was only to cancel the office lease and not the drive-up.

TROY, MICH. (NOV. 8) PR NEWSWIRE - Kmart Corporation (NYSE: KM) today announced two new promotions for the holiday season.

Kmart customers will be $1 million richer because of a unique promotion taking place in Kmart stores nationally the Saturday after Thanksgiving (Nov. 24) to kick off the holiday season.

Each Kmart store will give away a minimum of $400 in Kmart gift certificates to four lucky Kmart shoppers.

An entry form for the local drawings will be printed in the Kmart circular on Friday, Nov. 23. Entry blanks and contest details and rules will also be available in Kmart stores on Nov. 24.

"It's the biggest promotion of its kind ever at Kmart," said Mike Wellman, vice president marketing.

Kmart customers will also have the opportunity to win one of six expense-paid trips in a "Family Traditions" sweepstakes including: Valentine's Day in San Francisco, Fourth of July in Washington, D.C., and New Year's Day at the Rose Bowl.

Sweepstakes entry forms will be available in Kmart electronics departments Dec. 2 through Dec. 24. Other prizes include stereos, compact disc players, VCRs and compact discs.

ST. PAUL, MINN. (NOV. 8) PR NEWSWIRE - Northwest Airlines will begin daily nonstop service Dec. 15, linking Minneapolis/St. Paul with Steamboat Springs, Colo., and Fort Myers, Fla.

Northwest flights to Steamboat Springs will depart the Twin Cities at 11:40 a.m. and arrive in Colorado at 1:03 p.m. Return service will leave Steamboat's Yampa Valley Regional Airport at 2:05 p.m. and arrive in the Twin Cities at 5:05 p.m. The airline will use 146-seat Boeing 727 aircraft on the flights, which will continue through March 31.

Northwest's nonstop service between Minneapolis/St. Paul and Fort Myers, Fla., begins Dec. 15 and increases to two daily flights Dec. 20. Starting Dec. 15, flights depart the Twin Cities at 8 a.m. and arrive at Fort Myers at 12:17 p.m. Return service leaves Southwest Florida Regional Airport at 4 p.m. and arrives in the Twin Cities at 6:35 p.m.

Starting Dec. 20, a second daily flight leaves the Twin Cities at 1 p.m. and arrives at Fort Myers at 5:15 p.m., with return service departing Fort Myers at 8 a.m. and arriving in Minneapolis/St. Paul at 10:37 a.m. The second daily round trip will run through Jan. 7, then resume Feb. 15. Northwest will provide service on 118- and 146-seat 727s.

With the seasonal buildup, Northwest will operate nonstop service from Minneapolis/St. Paul to 68 destinations.

CINCINNATI (NOV. 8) PR NEWSWIRE - A special preview screening of the Omnimax(R) film "Blue Planet" will be shown on Nov. 9, at 10 a.m. in the Robert D. Lindner Family Omnimax Theater at the Museum Center at Cincinnati Union Terminal.

"Blue Planet," the Omnimax Theater's first film, will open the theater to the public on Nov. 10. The Omnimax Theater is one of a few select theaters to preview "Blue Planet" before its official premiere at the Smithsonian Institution's IMAX(R) Theater in Washington, D.C., on Nov. 16.

Filmgoers will float through space, soar over the Amazon and plunge to unexplored depths when viewing "Blue Planet." The state-of-the-art sight and sound capabilities of the Omnimax Theater will surround the theater with an

experience that, until now, has been shared only by astronauts.

A question and answer period will follow the 42-minute Omnimax film. Several key personnel will be available for information about "Blue Planet" and the Omnimax Theater itself: Astronaut David Walker, commander of a shuttle mission in which "Blue Planet" footage was filmed; Fred Klinkhammer, president and CEO of Imax Systems Corporation, which produced "Blue Planet" and handles its worldwide distribution; David Duszynski, Omnimax theater director; and Jim Kral, chief projectionist.

Seating within the Omnimax Theater is limited, so R.S.V.P. by Nov. 8, to Mary Kaye Kennedy of Sive Associates, (513) 421-3000.

ST. LOUIS (NOV. 8) PR NEWSWIRE - The May Department Stores Company (NYSE: MA) today reported preliminary sales from continuing operations were $708.6 million for the four-week period ended Nov. 3, an increase of 1.1 percent from sales of $700.8 million in the same period last year.

Year-to-date sales for the first nine months of fiscal 1990 were $6.75 billion up 8.2 percent from sales of $6.24 billion reported in the similar year-ago period.

Department store sales for October were $604.3 million, up 0.3 percent or $2 million from last year. Sales for Volume Shoe totaled $104.3 million, an increase of 5.9 percent or $5.8 million.

Sales were as follows:

OCTOBER SALES (Millions)

	1990	1989	Percent Increase	Store-for-Store(A) Percent Decrease
Department stores	$604.3	$602.3	0.3	(4.8)
Volume Shoe	104.3	98.5	5.9	(1.7)
Total	708.6	700.8	1.1	(4.4)

YEAR-TO-DATE SALES (Millions)

	1990	1989	Pct. Increase	Store-for-Store(A) Pct. Increase
Department stores	$5,709.9	$5,309.5	7.5	2.9
Volume Shoe	1,041.5	931.6	11.8	4.5
Total	6,751.4	6,241.1	8.2	3.2

(A) -- Store-for-store sales represent sales of those stores open during both years.

The company's 1989 fiscal year included 53 weeks and, based on the 4-5-4 reporting calendar, the October 1990 period began one week later than the October 1989 period. On an adjusted basis aligning the 1989 calendar to 1990, sales would have been:

WARRINGTON, PA. (NOV. 8) PR NEWSWIRE - American Travellers Corp. (NASDAQ: ATVC) today announced its financial results for the company's third quarter ended Sept. 30, 1990.

During the period, revenues increased 77.1 percent to $20.84 million from $11.77 million in the respective quarter of 1989. For the nine months ending Sept. 30, 1990, total revenues increased 77.4 percent to $57.99 million from $32.69 million for the nine months ending Sept. 30, 1989. Net income during the company's 1990 third quarter increased 81.1 percent to $3.08 million from $1.70 million in the corresponding 1989 period and for the first nine months of 1990, net income increased 92.6 percent to $8.4 million from $4.37 million during the first nine months of 1989. The company's earnings per share increased 43.4 percent to 33 cents for the third quarter of 1990 from 23 cents during the third quarter of 1989, which includes an increase of 28.6 percent n the company's outstanding weighted shares, and for the nine months ending Sept. 30, 1990, earnings per share increased 70 percent to $1.02 from 60 cents in the corresponding Sept. 30, 1989, period.

According to American Travellers' chairman of the board, John A. Powell, "Our third quarter of 1990 was one of the most exciting and gratifying quarters to date. We have been able to continue our growth without sacrificing our bottom line. We are very optimistic about the future growth of the company and we are continually making strides to improve our products and service to enhance our position in the marketplace."

American Travellers Corp. is engaged through its subsidiaries in the underwriting and sale of individual supplemental accident and health insurance policies primarily covering long-term care (skilled, intermediate and custodial nursing home care). The company also offers hospital care and Medicare supplement policies. The company, which has been admitted to 36 states plus the District of Columbia and the U.S. Virgin Islands, has pending license applications in eight additional states.

NEW YORK (NOV. 8) PR NEWSWIRE - Mizlou Communications Company, Inc. (NASDAQ: MZLUL, MZLU), today disclosed that it is negotiating with several cable industry and non-industry entities interested in investing in or forming a joint venture arrangement with Mizlou's Sports News Network (SNN).

Mark Wenzel, chief financial officer, stated, "These entities are discussing various options with us because of the unprecedented growth pattern achieved by SNN. In the past eight months, SNN has signed cable affiliation agreements totalling 18 million homes in 15 of the top 20 major television markets, and attracted over 50 major national advertisers."

Mizlou also announced that SNN production management has streamlined its staff and refocused its manpower at its new state-of-the-art broadcast studio in Edison, N.J. This reflects SNN's goal to create a more responsive sports news organization.

Kevin Roach, senior coordinating producer for SNN, commented, "Simply put, the new facility is less labor intensive. We will continue to deliver live reports each half hour throughout the day and night of the latest sports news, stories and up-to-the-minute scores as they happen." Mizlou's Sports News Network is the nation's only 24-hour, seven-days-a-week sports cable news network.

#90312p4658 11/08/1990 ~PR Newswire

WOBURN, MASS. (NOV. 8) PR NEWSWIRE - Thermedics Inc. (AMEX: TMD) is creating a wholly owned subsidiary that will be responsible for the manufacturing and marketing of Thermedics' explosives- and drug-detection devices and for providing drug-detection services.

The new subsidiary, Thermedetec Inc., will focus on the EGIS(R) and SecurScan(tm) explosives-detection systems and the Sentor(tm) drug-detection device. The EGIS is is a portable device for detecting explosives in luggage vehicles, and other likely places of concealment; the SecurScan is a passenger-screening system; and the Sentor is a portable device for detecting trace amounts of heroin, cocaine, and methamphetamines.

John W. Wood Jr. will be appointed chairman and Louis S. Slaughter president of the new corporation. John Wood is president of Thermedics, a subsidiary of Thermo Electron Corporation (NYSE: TMO), and has headed that company since 1984. Before joining Thermedics, Wood was president of Eberline Instrument Corporation, another Thermo Electron subsidiary. Wood holds a B.S. degree in electrical engineering from Louisiana Polytechnic Institute and an M.S. in electrical engineering from the Massachusetts Institute of Technology.

In accepting this new position, Lou Slaughter is being transferred after recent assignments as president of TPS Technologies Inc. Services Division, and, previously as president of Napco, Inc., both subsidiaries of Thermo Electron. Before joining Thermo Electron, he was with the Dual group of companies, wholly owned by Bechtel Investments Inc., where he was vice president of finance and was in charge of western U.S. and international operations. Slaughter received a B.E. in mechanical engineering from the University of New South Wales and an M.B.A. from the Harvard Business School.

Slaughter, in commenting on his new assignment, said, "I am pleased to join the effort to bring Thermedics' detection technology to the marketplace. These systems address two critical problems of our time: the threat of terrorism and the flow of illegal drugs. There are tremendous opportunities worldwide for Thermedetec's detection devices."

Thermedics develops, manufactures and markets biomaterials, biomedical products, analytical instruments, and explosives- and drug-detection devices, and provides analytical laboratory services. Thermedics is a public subsidiary of Thermo Electron Corporation.

TROY, MICH. (NOV. 8) PR NEWSWIRE - Kmart Corporation (NYSE: KM) today reported a sales increase of 11.2 percent for October 1990 over sales during the same period of last year. Consolidated sales for the four-week period ended Oct. 31, 1990, amounted to $2,342,226,000 vs. sales of $2,106,662,000 for the four weeks ended Nov. 1, 1989.

Sales for the 39 weeks ended Oct. 31, 1990, were $22,322,139,000, up 11.8 percent from the $19,958,435,000 for the first 39 weeks of 1989.

Kmart Chairman of the Board and Chief Executive Officer Joseph E. Antonini said, "Our hardlines business in October was in line with the year-to-date trend, despite a weakening economy. Our apparel business during the month was clearly affected by weather patterns. During much of October, unseasonably warm weather prevailed over much of the country, and this caused weakness in apparel sales. Good comparable store sales gains were achieved by our specialty store businesses."

Kmart Corporation serves America with more than 4,000 retail outlets in all 50 states in the United States and in Puerto Rico and Canada. Kmart, currently operating 2,335 Kmart stores, is also the parent company for Pay Less Drug Stores, Builders Square, Waldenbooks, PACE Membership Warehouse Clubs and The Sports Authority.

Kmart Corporation's stock is listed on the New York, Pacific, Midwest and Tokyo stock exchanges. Its trading symbol is KM.

#90312p4665 11/08/1990 ~PR Newswire

MONTVALE, NJ (NOV. 8) PR NEWSWIRE - North American Ventures, Inc. (NASDAQ: NAVI) announced today its results of operations for the three months and nine months ended Sept. 30, 1990.

Net income and income from continuing operations were $1,014,000, or 4 cents per share, for the three months ended Sept. 30, 1990, compared with income from continuing operations of $174,000, or 1 cent per share, for the three months ended Sept. 30, 1989.

Net income and income from continuing operations for the first nine months of 1990 were $2,826,000, or 11 cents per share, compared with a net loss from continuing operations of $1,715,000, or 7 cents per share, for the nine months ended Sept. 30, 1989.

Net sales of NAVI from the operations of its wholly owned subsidiary, Butler Service Group, Inc., were $72.0 million for the three months ended Sept. 30, 1990 were 7 percent below the $77.1 million sales for the third quarter 1989.

Net sales for the nine months ended Sept. 30, 1990 were $235.5 million, 7 percent higher than the $219.6 million sales for the first nine months of 1989.

Third quarter sales were down principally from a decrease in billable headcount and billable hours as clients in certain industries have been impacted by the weakening economy and uncertainties about defense spending.

At the same time, operating income was substantially maintained through higher billing rates than a year ago and by the favorable completion of certain contracts with higher profit margins.

Net income and income from continuing operations also benefited from significantly lower interest charges as a result of both reduced debt levels and lower interest rates than a year ago.

The 1989 results included both continuing and discontinued operations. The net loss in 1989 for the three and nine months ended Sept. 30, 1989 of $13.9 million and $11.7 million, respectively, was primarily the loss from discontinued operations from the sale of Butler Aviation and Buxton assets.

Edward M. Kopko, chairman of the board and president of NAVI, stated, "We are

pleased to report another profitable quarter with earnings consistent with management's plans. The company has also been actively implementing its strategic plan during the quarter as announced previously."

Butler Service Group, Inc., NAVI's principal operating subsidiary, is a leading domestic and international contract technical services and telecommunications services company.

It is principally engaged in the location, recruitment, and hiring of a wide variety of skilled engineers and technical personnel to provide services, on a temporary basis, to industrial corporations and other organizations throughout the U.S. and abroad.

NEW YORK (NOV. 8) PR NEWSWIRE - Jaclynn Carroll has been appointed senior creative director of Calvin Klein Cosmetics Company, it was announced by Kim Delsing, president and chief executive officer. She will be responsible for all creative design activities worldwide and reports to Carmen Dubroc, senior vice president of marketing.

Carroll will oversee all creative design functions for the company's Obsession Obsession For Men, Eternity and Eternity For Men fragrance brands, as well as for a new fragrance brand scheduled to debut in 1991.

Carroll served most recently as a principle in her own design consulting firm. Before that, she was director of graphic design of Walker Group/CNI, a New York-based international design firm whose clients include FAO Schwarz, Godiva Chocolatiers, Cosmair and Bloomingdale's. Prior to that, Carroll was senior art director at Chillingworth/Radding, Inc., a New York-based advertising firm.

Calvin Klein Cosmetics Company, the New York-based manufacturer of Calvin Klein fragrances, including Calvin, Obsession, Obsession For Men, Eternity and Eternity For Men, is a unit of Unilever United States, Inc., the Anglo-Dutch Unilever Group's holding company for businesses within the United States.

#90312p4672 11/08/1990 ~PR Newswire

MALVERN, PA. (NOV. 8) PR NEWSWIRE - Vishay Intertechnology Inc. (NYSE: VSH) reported a 25 percent increase in net earnings before unusual charge on a 7 percent increase in sales for the third quarter of calendar 1990, Dr. Felix Zandman, chairman and chief executive officer, announced today.

In the three months ended Sept. 30, 1990, sales increased by 7 percent to

$106,023,000 compared to $98,894,000 in the year earlier period. Net earnings were $4,543,000 or $.33 per share compared with $4,770,000 or $.38 per share in the previous year's quarter, a decrease of 5 percent and 13 percent in net earnings and earnings per share, respectively. However, net earnings would have increased by approximately 25 percent and net earnings per share would have increased by approximately 11 percent except for the effect of an unusual charge.

In the nine months ended Sept. 30, 1990, sales increased by 8 percent to $335,405,000 compared with $311,064,000 in the year-earlier period. Net earnings were $17,426,000 or $1.32 per share compared with $13,002,000 or $1.05 per share in the year earlier period while net earnings would have increased by approximately 39 percent and earnings per share would have increased by approximately 31 percent exclusive of unusual charges.

Commenting on the third quarter results, Zandman stated: "Net earnings included the negative effect of the previously announced settlement with the U.S. Government related to our Dale Electronics subsidiary which was somewhat offset by a one time options gain." The effect of this unusual charge reduced earnings per share for the quarter by $.09.

Zandman noted that "without the unusual charge, net earnings for the quarter would have increased by approximately 25 percent from the comparable quarter of the prior year, making it the second year in a row that the company has outperformed its previous third quarter by approximately 25 percent. This continues the profit momentum which started in 1989."

Zandman also noted that "cost reductions in selling and administrative areas from the consolidation of sales operations in Europe contributed to the increase in operating results for the quarter. Furthermore, with the proceeds of our recent successful common stock offering, we decreased long-term debt by approximately $35 million which will reduce interest expense in the future. Our debt to equity ratio has substantially improved and is now at .85 to 1." In addition, the company has cash reserves of approximately $29 million.

Vishay Intertechnology Inc. is a leading U.S. and European producer of a wide range of electronic resistors and resistive sensors. It also is a major producer of other types of passive electronic components. The company's products are used in a broad range of industries.

#90312p4674 11/08/1990 ~PR Newswire

NEWARK, CALIF. (NOV. 8) PR NEWSWIRE - Ross Stores Inc. (NASDAQ: ROST) today reported sales of $52 million for the four-week period ended Nov. 3, 1990, a 2

percent increase above the $51 million in sales for the four weeks ended Nov. 4, 1989. Comparable store sales for the same period were down 9 percent from the prior year.

Third quarter sales for the 13 weeks ended Nov. 3, 1990, were $186 million, a 4 percent increase above $178 million in sales for the 13 weeks ended Nov. 4, 1989. Comparable store sales for the same period were down 7 percent from the prior year.

For the nine months through Nov. 3, 1990, sales were $551 million, a 7 percent increase above the $515 million in sales for the prior year's comparable period ended Nov. 4, 1989. Comparable store sales for the nine month period were down 4 percent on a day-for-day basis from last year.

In commenting on sales for the month of October, Norman A. Ferber, President and Chief Executive Officer, stated, "During 1990, the chain-wide grand opening celebration for our 16 new stores is taking place during the first week of November. Last year, this chain-wide event occurred during the last week of October. This shift contributed in part to our disappointing sales performance this past month."

Ross Stores Inc. operates a national chain of off-price retail stores offering first quality, in-season, branded apparel and apparel-related merchandise for the entire family. The company had 175 stores in operation at Nov. 3, 1990, compared to 147 stores at the end of the same period last year.

#90312p4678 11/08/1990 ~PR Newswire

MILWAUKEE (NOV. 8) PR NEWSWIRE - Universal Foods Corporation (NYSE/PSE: UFC) today announced record performance for fiscal 1990, ended Sept. 30. Net earnings before unusual items were up 21 percent to $48,193,000 from $39,962,000 last year. Earnings per share, at $1.90, were up 19 percent from the $1.60 reported last year. Earnings per share have grown at a compounded rate of 25 percent per year since 1984. Including unusual items -- net gain from the sale of the Cheese Division and the redeployment, disposition and reduction in carrying value of certain assets -- net earnings for fiscal 1990 were $49,415,000 or $1.95 per share.

Revenue of $838,886,000, essentially unchanged from $837,255,000 in 1989, included $115,157,000 from the Cheese Division prior to its divestiture in April. Excluding the revenue contribution from the Cheese Division in both 1989 and 1990 would result in a 13 percent gain in revenue for 1990.

Net earnings in the fourth quarter increased 18 percent to $13,944,000 from $11,794,000 reported last year. Earnings per share were $.55, up 17 percent compared with $.47 per share in the fourth quarter of fiscal 1989. Fourth quarter revenue was $196,938,000, down from the $228,171,000 reported for the same quarter in 1989 as a result of the sale of the Cheese Division.

In making the announcement, Guy A. Osborn, chairman and chief executive officer, said, "Fiscal 1990 was another year of excellent results; credit for that performance goes to our employees. Return on average shareholders' equity improved once again -- above the 20 percent level -- and operating margins were very strong. Our shareholders received the benefit of that performance through a 23 percent increase in the value of Universal Foods stock in fiscal 1990.

"We are confident Universal Foods is in a position to realize additional, noteworthy performance improvements in 1991 based on the investments in product development, plant and people the company has made over the last several years."

Universal Foods is an international manufacturer and marketer of value-added food products. These include food flavors, food colors, the world's most diversified lines of frozen potato and yeast products, and dehydrated vegetables.

NEWARK, NJ (NOV. 8) PR NEWSWIRE - Continental Airlines today unveiled the prototype for its new aircraft interior design at its Newark hub and announced it would be gauging customer and flight crew response to the design.

The aircraft interior, installed in a Boeing 737 which goes into service this week, will visit U.S. and international markets and be seen by thousands of customers. Following a review of the research findings a finalized interior will be installed in all Continental aircraft.

The new interior design of the aircraft was created exclusively for Continental Airlines. The material and color scheme have been custom designed using dark, blue and gray which best reflect classic aviation colors.

According to Lisser, the new interior design reflects a major advance in the airline industry and sets a new standard in relaxation and comfort for passengers.

The unique seat contours are finished with custom upholstery covers of the highest quality. Leather is used for first class seat upholstery and to cover many vertical surfaces.

The prototype was designed by Lippincott & Margulies, under the direction of Frank Spadaro. Many Continental employees contributed to the success of the project.

Continental Airlines is Newark International Airport's largest carrier, moving 10 million passengers annually through the complex on its 303 daily jet and commuter flights. The company employs more than 6,000 workers in New Jersey and 37,000 systemwide. Continental currently flies to 65 destinations from Newark.

#90312p4681 11/08/1990 ~PR Newswire

HARVEY, IL (NOV. 8) PR NEWSWIRE - Bliss & Laughlin Industries Inc. (NASDAQ: BLIS) today reported net income of $292,000, or 7 cents per share, for the fourth fiscal quarter ended Sept. 30, 1990. This was an increase of 48 percent over $197,000, or 8 cents per share, on a lower number of shares outstanding for the 1989 period. Net revenues were $31,585,000, up 32 percent over $23,873,000 for the quarter ended Sept. 30, 1989.

For the fiscal year ended Sept. 30, 1990, the company reported a net loss of $225,000, or 7 cents per share, compared to net income of $1,624,000, or 72 cents per share, a year earlier. Revenues for the year rose 10.6 percent to $116,648,000 from $105,476,000.

Per share results for the 1990 fourth fiscal quarter are based on 3,970,000 average shares outstanding, up 65 percent from 2,410,000 shares a year

earlier. The increased number of shares reflects the sale of 1,559,759 common shares to Stelco Inc. on May 11, 1990, for which Stelco paid $18.7 million in cash, or $12 per share. In turn, Bliss & Laughlin Industries acquired the assets of Stelco's Canadian Drawn Steel business unit for $12.4 million in cash.

Gregory H. Parker, chairman and chief executive officer, said shipments in the 1990 fourth quarter, historically the company's slowest period, were up significantly over the year earlier period.

According to Parker, the results for the 1990 fiscal year were adversely affected by higher than anticipated start-up costs at the company's new Cartersville, Ga., facility and highly competitive pricing.

Bliss & Laughlin Industries experienced lower interest expense in the 1990 fourth fiscal quarter. This was the result of the use of the $6.3 million net proceeds from the Stelco transaction to pay down outstanding debt and its new financing agreement with The Northern Trust Company.

Headquartered in Harvey, Ill., Bliss & Laughlin Industries Inc. is a manufacturer of cold finished steel bars, producing the widest range of grades sizes and shapes in the industry.

ALBUQUERQUE, NM (NOV. 8) PR NEWSWIRE - Lasertechnics, Inc. (NASDAQ: LASX), has entered into an OEM agreement with Coherent Hull Ltd., Hull, England, to distribute certain laser marking products manufactured by Coherent. The agreement strengthens the product offerings of Lasertechnics, and gives Coherent an outlet into the highly specialized U.S. packaging market.

The agreement involves lasers and peripheral devices used in the packaging industry as an alternative to ink and stamp methods of date and batch coding. Lasertechnics has proven its expertise in the packaging industry with its successful Blazer series of high speed batch and date coding lasers and will increase its offering by marketing the Laserbrand XM and Autocode II produced by Coherent Hull Ltd.

The Laserbrand XM is an air cooled, compact (17" x 37" x 18"), portable unit especially suitable when space is at a premium or portability between production lines is desired. The Laserbrand XM is packaged in an attractive, durable stainless steel housing.

Autocode II is an electronically controlled device capable of changing alphanumeric codes at high speed. The compact unit adds programmability and flexibility to laser coding and can be interfaced to a user-supplied PC or host computer. The unit can be configured to print one, two or three lines of code.

According to Louis F. Beick, Jr., Lasertechnics' president and chief executive officer, "Coherent and Lasertechnics have similar high standards of quality, complementary product lines and market strength in different areas of the world. This agreement," he said, "allows us to broaden our product line and share marketing strength while avoiding costly duplicate efforts. Our customers can expect to share in these benefits."

Lasertechnics will provide full technical and service support to the

Laserbrand XM and Autocode II sold by the company.

Coherent Hull Ltd. is a subsidiary of Coherent Inc., the largest independent laser manufacturer in the world. It supports an extensive research and development program and maintains close links with the Department of Applied Physics at Hull University. Coherent develops and markets a broad line of lasers, including those used for scientific and medical purposes as well as packaging and industrial applications.

Lasertechnics, Inc., designs and manufactures laser marking and engraving systems marketed to the electronics, medical and consumer products packaging industries. The company also markets digital imaging systems, the Fizeau wavemeter and other specialty instruments.

MOUNTAIN VIEW, CALIF. (NOV. 8) PR NEWSWIRE - Silicon Graphics Inc. (NYSE: SGI) and Enviromental Systems Research Institute Inc. (ESRI) announced today the port of ESRI's ARC/INFO(R) to the Silicon Graphics IRIS 4D(TM) family of workstations and servers. ARC/INFO Version 5.0.1 will be available in 1991.

ARC/INFO is used to automate, manipulate, analyze and display geographic data. As the leading supplier of Geographical Information Systems (GIS) software, more than 5,000 organizations use ESRI software in applications requiring the management of spatial information. Customers include oil companies, mining companies, federal, state and local government agencies, civil engineering firms, natural resource agencies, forestry companies, Fortune 500 companies and many others.

"Silicon Graphics is a major supplier of workstations to the geoscientific community," said Rob Burgess, vice president, Applications at Silicon Graphics. "With ARC/INFO, users will develop exciting new ways to apply our visualization capabilities to geoscientific data in exploration, mining, environmental science and environmental planning on a single desktop."

Burgess also stated, "The availability of ARC/INFO demonstrates our commitment to provide customers with a wide variety of application software. ARC/INFO will be the 100th application to become available on our systems."

Silicon Graphics Inc. is the leading manufacturer of high performance graphics systems, servers and software for visual processing applications. The company's products, which range from advanced project supercomputers to low-end desktop models and PC graphics subsystems, are used by engineers, scientists and creative professionals in design, analysis, manufacturing and

simulation.

ESRI was founded in 1969 as a research group devoted to improving methods of handling geographic data. Since then, ESRI has become a leading vendor of Geographic Information Systems software with clients located worldwide. ESRI also performs consulting and data automation services related to geographic information management.

BRIDGEPORT, CONN. (NOV. 8) PR NEWSWIRE - The Hydraulic Company (NYSE: THC) through its non-utility Hydrocorp, Inc. subsidiary, has acquired AC Laboratories, Inc. (ACL), an environmental testing laboratory in Miramar, Fla. it was announced today. Terms of the transaction were not disclosed.

THC Senior Vice President and Chief Financial Officer William F. Emswiler, who also is president and chief operating officer of Hydrocorp, said the acquisition is in line with THC's objective of growing its unregulated, water-related segments to complement its core business of public water supply.

Emswiler said ACL, which has annual sales of about $1.5 million, provides analytical services for water and wastewater treatment for community water systems in Dade, Broward and Palm Beach Counties.

ACL, located near Fort Lauderdale, will augment THC's existing multidisciplinary environmental testing capacity on the East Coast provided by Industrial and Environmental Analysts, Inc. (IEA), a Hydrocorp subsidiary, he explained. IEA has laboratory facilities in Research Triangle Park, N.C., near Burlington, Vt., and in the Boston area.

In a separate development, Emswiler announced that THC and SRK Holding, Inc. yesterday signed a letter of intent whereby THC will acquire the outstanding shares of SRK. He noted that in October THC had announced an agreement in principle to purchase the remaining shares of SRK, a Monroe, Conn.-based holding company and the parent of YWC, Inc., an environmental services consulting firm.

Once the transaction is completed, Emswiler observed, Hydrocorp intends to retain YWC's laboratories in Connecticut, New Jersey and Illinois and sell SRK's non-laboratory businesses.

THC provides drinking service through its Bridgeport Hydraulic Company (BHC) and BHC's Stamford Water Company subsidiary. BHC is among the 10 largest investor-owned water suppliers in the U.S.

THC also is engaged, through other subsidiaries, in forest products, electricity cogeneration and real estate businesses.

CONTACT: Larry L. Bingaman, vice president of THC, 203-336-7626 or (home) 203-746-6662; or Frederick A. Iannotti of BHC, 203-336-7628 or (home) 203-334-5142

HARTFORD, CONN. AND BOSTON (NOV. 8) PR NEWSWIRE - Shawmut National Corporation (NYSE: SNC) announced today that it has engaged Goldman Sachs, of the New York investment banking concern, to explore the sale of the corporation's credit card portfolio.

Shawmut National's credit card portfolio consists of approximately 550,000 accounts with outstanding balances of $450 million.

Shawmut National operates credit card facilities in Springfield, East Longmeadow, and Boston, to market cards, process applications, service customers, and collect outstanding balances.

In making the announcement, Shawmut National Chairman and Chief Executive Officer Joel B. Alvord said, "We made a strategic decision to explore the sale of our credit card portfolio because as the industry consolidates to improve operating efficiencies, the credit card business is increasingly dominated by a handful of large players. Given this fact,

the relatively small size of our portfolio, and our decision not to grow the business aggressively, Shawmut National is investigating the sale of its portfolio."

Shawmut National Corporation is a superregional bank holding company with headquarters in Hartford, Conn. and Boston. The corporation has a branch network of nearly 400 offices in New England. Its principal subsidiaries are Connecticut National Bank in Hartford and Shawmut Bank in Boston.

#90312p4695 11/08/1990 ~PR Newswire

VALLEY FORGE, PA (NOV. 8) PR NEWSWIRE - Alco Standard Corp. (NYSE: ASN) completed its 25th year by reporting today that operating revenues and income for its fiscal year ended Sept. 30, 1990, were sharply ahead of last year.

Operating revenues for the year totaled $4,300,859,000, up 11.9 percent from

$3,842,121,000 in fiscal 1989. Operating income increased at an even greater rate during the year to $210,143,000, a 17.9 percent increase over the $178,186,000 reported last year. Income before taxes from continuing operations rose 16.9 percent, to $145,231,000. Taxes on income more than doubled in fiscal 1990 primarily because the benefits of the net operating loss carryforward associated with the 1985 acquisition of Saxon Industries were fully utilized in fiscal 1989. Despite the increase in the effective income tax rate, from 20.5 percent in 1989 to 37.4 percent in 1990, earnings per share from continuing operations reached $2.19.

As previously announced, a provision of $8 million, or $.13 per share, was established in the fourth quarter in connection with a judgment entered in litigation. Although the company believes it has excellent grounds to prevail on appeal, it was appropriate to establish a provision at this time. If this provision for litigation had not been established, earnings per share from continuing operations would have been $2.32, up $.04 over last year's $2.28.

For the three months ended Sept. 30, 1990, operating revenues increased 11.1 percent, from $1,016,550,000 to $1,129,770,000 and operating income was $61,391,000, up 15.5 percent from the $53,173,000 reported in the last three months of fiscal 1989. Similarly, income before taxes and earnings per share from continuing operations were affected by the provision for litigation. Nevertheless, income before taxes from continuing operations was $40,587,000, up 11.6 percent while earnings per share from continuing operations were $.59, compared with the $.67 reported for 1989.

Commenting on the company's performance, Ray B. Mundt, chairman and chief executive officer, said: "We are extremely pleased with our operating performance during fiscal 1990. Despite the sluggish and uncertain economy, each of our operating groups posted significant increases in operating income. Revenue gains, coupled with margin improvement and cost reduction programs, contributed to this performance.

Alco Standard Corp., headquartered in Valley Forge, is a publicly held distribution and services company.

MINNEAPOLIS (NOV. 8) PR NEWSWIRE - Burger King Investors Master L.P. (NYSE: BKP) announced that net income allocable to unitholders for the quarter ended Sept. 30, 1990, was $1,508,628 or $.33 per unit compared with $1,366,313 or $.29 per unit earned during the same period last year. The year-to-year comparison of results is affected by a $212,967 (5 cents per unit) provision for loss on the sale of property that occurred during the third quarter of

1989.

Funds generated from operations (taxable net income plus depreciation and amortization) for the quarter amounted to $.47 per unit, the same as the third quarter last year.

Revenues for the third quarter of 1990 were $2,438,009 down from the $2,510,081 achieved in 1989.

The Partnership previously announced a cash distribution of $.41 per unit payable on Dec. 14, 1990, to unitholders of record on Dec. 7, 1990.

#90312p4709 11/08/1990 ~PR Newswire

WILMINGTON, DEL. (NOV. 8) PR NEWSWIRE - Airgas Inc. (NYSE: ARG) reported today that for its second quarter ended Sept. 30, 1990, earnings from continuing operations increased 48 percent to $1,545,000 or $.24 per share from $1,047,000 or $.16 per share in the second quarter last year.

After-tax cash flow (earnings from continuing operations plus depreciation, amortization and deferred taxes) increased 9 percent to $7,253,000 or $1.02 per share from $6,665,000 or $.95 per share in the second quarter last year. The increase in earnings from continuing operations is primarily due to lower interest costs resulting from the use of proceeds received upon the sale of the company's Jackson Products operations in October 1989 which reduced long-term indebtedness, increased earnings from carbon manufacturing operations due to increased domestic and foreign sales of all carbon products and increased earnings related to a joint venture for the production of calcium carbide. Increased earnings were partially offset by higher insurance costs, higher corporate expenses, an increased effective income tax rate and losses experienced by the company's Seattle-based medical homecare services division.

Additionally, the company's other income increased mainly due to a $400,000 pre-tax gain on the sale of two industrial gas distribution locations during the quarter ended Sept. 30, 1990. The company maintains more than 230 industrial gas distribution stores in 29 states and Canada.

Net earnings for the three months ended Sept. 30, 1990, decreased 28 percent to $1,545,000 or $.24 per share from $2,159,000 or $.32 per share in the second quarter of last year. The decline in net earnings is primarily due to earnings dilution of $.06 per share resulting from the company's sale of Jackson Products in October 1989.

Net sales increased 9 percent to $79,112,000 during the second quarter ended Sept. 30, 1990, over the same period in the prior year due to the acquisition of 23 industrial gas distribution companies since July 1, 1989.

#90312p4710 11/08/1990 ~PR Newswire

HOUSTON (NOV. 8) PR NEWSWIRE - Oceaneering International, Inc. (NASDAQ: OCER) today announced financial results for the second quarter of its 1991 fiscal year which ended Sept. 30, 1990.

On revenues of $44,813,000, Oceaneering reported net income of $6,896,000, or

$0.30 per common share. These figures compare favorably with net income of $4,210,000, or $0.19 per common share, on revenues of $58,061,000 for the second quarter of fiscal 1990. "This is the second consecutive quarter in which Oceaneering has achieved record profits -- the $6,896,000 represents the highest quarterly earnings in Oceaneering's 26-year history," stated John R. Huff, chairman, president, and chief executive officer.

During the first six months of fiscal 1991, Oceaneering reported net income of $11,635,000, or $0.51 per common share, on revenues of $79,080,000. This compares with net income of $6,495,000, or $0.30 per common share, on revenues of $112,701,000 during the first six months of the previous fiscal year.

NEW YORK (NOV. 8) PR NEWSWIRE - Telettra USA, Inc. today announced the signing of a purchasing agreement with AT&T to supply DTV-45 Codec equipment. Codec equipment is used in a television transmission path to convert a signal from the traditional analog to state-of-the-art digital technology.

The DTV-45 Codec equipment is exclusively designed and manufactured by Telettra S.p.A., a major international supplier of telecommunications transmission systems and a world leader in the area of high quality digital television transmission systems including HDTV.

Telettra USA, Inc. is the North America subsidiary of Italy's Telettra S.p.A.

The initial order of 100 Telettra DTV-45 Codec units is scheduled for delivery between December 1990 and March 1991; additional orders for delivery in 1991 and 1992 are foreseen.

The signing of this multimillion dollar agreement is another signal of AT&T's initiatives to transition its current service offerings from an analog network to its new fiber based digital network.

Considered the most advanced DS3 television digital coding system by many industry experts, the DTV-45 Codec is the only system now on the market that utilizes the powerful Discrete Cosine Transform (DCT) algorithm to compress, without distortions, the television signal into a 45 megabit per second digital stream.

This capability also led Bellcore to select the DTV-45 for its nationwide DS3 Digital Television Trial Network, that has been operating since November 1989.

The Trial Network, in which AT&T is a participant, interconnects eight major

U.S. cities, including New York, Washington, Boston, Atlanta, Indianapolis, St. Louis, Minneapolis and Los Angeles.

Telettra S.p.A. is located in Milan, Italy; in 1989, the company's net consolidated revenues reached $1.28 billion, an increase of 47 percent over the previous year. Operating income of $309 million, or 24 percent of revenues, more than doubled the 1988 results; improvements on Telettra's financial results are expected also for 1990 fiscal year.

CHICAGO (NOV. 8) PR NEWSWIRE - Sears Merchandise Group today reported that its gross revenues from continuing operations for the four weeks ended Nov. 3 were 1.2 percent below 1989. Comparable store sales were 0.4 percent below last year, Sears said.

Gross revenues for the period were $2,552,272,344, compared with $2,583,552,894 last year.

"Our results reflect consumers' growing caution about the economy," said Edward A. Brennan, Sears chairman and chief executive officer. "That uncertainty resulted in softening sales of big ticket merchandise including furniture and appliances. We continue to do well in other areas, including women's apparel, hardware and automotive," he said.

"We have very strong holiday season marketing plans in place, including the addition this year of SearsCharge Bonus Club. However, in light of current economic conditions, we continue to fine-tune our efforts to increase store traffic," Brennan said.

Sears Merchandise Group reported gross revenues of $24,381,540,922 for the 39 weeks ended Nov. 3. This was an increase of $601,683,841 or 2.5 percent compared with revenues of $23,779,857,081 in the same period of 1989.

SANTA PAULA, CALIF. (NOV. 8) PR NEWSWIRE - H & H Oil Tool Co. Inc. (NASDAQ: HHOT) today reported sharply improved earnings for the third quarter and nine months ended Sept. 30, 1990. Net income for the third quarter advanced to $429,000, or $.13 per share, from a net loss of $17,000 in the prior year period. Revenues for the third quarter increased 26 percent to $6,289,000 from $4,991,000 for the same period in 1989.

For the nine month period, net income rose to $831,000, or $.26 per share, from a net loss of $548,000, or $.17 per share, in the same period last year. Revenues for the year-to-date period rose 34 percent to $17,100,000 from $12,751,000 a year ago.

Henry H. Rushing, president and chief executive officer, attributed the improved revenues and operating results to higher oilfield activities that were not directly related to recent events in the Middle East. The Rocky Mountain Region experienced a significant upturn in drilling for natural gas which sharply improved operating results for H & H Bi-Co Rental Inc. Rushing also said that much of the revenue increase for the nine-month period reflected contributions from the acquisition of Midway Fishing Tool Company in the second quarter of last year.

H & H Oil Tool, founded in 1953, and its wholly owned subsidiary, H & H Bi-Co Rental Inc., rent a wide range of equipment to oil, gas and geothermal companies throughout the Western United States. The Midway Fishing Tool Company division provides rentals and specialized services and equipment for recovery of downhole tools at drilling and production sites throughout California.

#90312p4721 11/08/1990 ~PR Newswire
HERZLIA, ISRAEL (NOV. 8) PR NEWSWIRE - Scitex Corporation Ltd. (NASDAQ: SCIFX) announced today an unaudited net profit of $20,576,000 or $0.56 per share, for the third quarter of 1990, a 141 percent increase from the net profit of $8,523,000 or $0.24 per share in the third quarter of 1989.

For the nine months ended Sept. 30, 1990, the company's unaudited net profits totalled $53,281,000 or $1.46 per share, a 146 percent increase from the net profit of $21,687,000 or $0.62 per share in the same period last year.

The board of directors declared an interim cash dividend of 7 cents per share

for the third quarter. Shareholders of record as of the close of business on Nov. 15, 1990, will be entitled to the interim dividend. The dividend will be paid on or before Dec. 5, 1990, net of taxes to be withheld at source. In September the American Stock Exchange started trading put and call options on Scitex shares.

Revenues in the third quarter reached $96,130,000, a 52 percent increase from the comparable period last year. For the first nine months of the year, revenues totalled $250,196,000, a 47 percent increase over the first nine months of the 1989. Operating income for the quarter increased 186 percent over third quarter 1989 levels, while operating margins reached 29 percent.

Revenues continued to strong worldwide. Compared with the third quarter of 1989, revenues in America grew 64 percent to reach $39,578,000, revenues in Europe grew 41 percent to reach $39,710,000, while revenues in Japan grew 58 percent to reach $10,190,000.

The Scitex Graphic Arts User Association in America held its annual meeting in August in Orlando, Fla. The successful event drew approximately 400 people representing some 250 member companies, and highlighted once again Scitex's policy of keeping in close touch with its customer base while being responsive to their needs.

During August, at the SIGGRAPH Conference in Dallas, IRIS Graphics, the Bedford, Mass., company acquired by Scitex in March of this year, unveiled a new digital color printer - the SmartJet Series 4012.

This compact printer adds a smaller format to the Iris line of color inkjet printers. It features a high degree of automation, emphasizing minimum operator intervention. The SmartJet, which retails at $39,000, significantly expands market opportunities for Iris.

Nihon Scitex, the company's 50 percent-owned joint venture in Japan, hosted approximately 400 customers and prospects in two gatherings in Tokyo and Osaka. At these events, Scitex products are also used in the cartographic and textile industries, as well as for certain applications in the printed circuit board manufacturing and seismic exploration industries. Scitex operates marketing, sales and service divisions in North America, Europe and Japan.

#90312p4734 11/08/1990 ~PR Newswire

CLEARWATER, FL (NOV. 8) PR NEWSWIRE - C. H. Heist Corporation (NASDAQ: CHHC) reported a first quarter sales increase of 2.9 percent, from $18,448,064 for the same period last year to $18,992,105 for this year's first quarter which ended Sept. 30, 1990. Net earnings for the current three month period were $1,024,430, as opposed to $1,181,477 for the previous year. After adjustment for the Oct. 12, 1990 stock split, per share earnings were $.53 this year vs. last year's first quarter earnings of $.61.

C.H. Heist, president and chairman, cited "a creditable sales performance in the face of major strikes affecting the Canadian steel market. With services to the steel industry curtailed, extra sales efforts were extended in other

areas of operations in the U.S. and Canada, resulting in increased sales in insulation, temporary help and supplemental services."

Heist also commented on painting services, which were off 25.9 percent, pointing out that large Canadian bridge contracts of last year were not available this year because of governmental budget restrictions.

Concerning first quarter earnings, Heist stated, "Our earnings for the first quarter, while not as high as last year's banner performance, are quite substantial. In replacing lost volume in the steel and painting sectors with temporary help and insulation sales, earnings were reduced because these services garner lower margins."

The Heist board approved a change in the corporation's fiscal year, which henceforth will be on a calendar-year basis. This quarter being reported will be one of two which will fill a transitional period prior to starting the first full year in January, 1991.

Working capital increased by $444,856 over last year's same period. Capital expenditures for the quarter were $822,000, 27.9 percent less than the previous year's first quarter expenditures of $1,169,000. A strong balance sheet is reflected in a current ratio of 3.5-to-1 and a quick ratio 3.1-to-1.

IRVING, TEXAS (NOV. 8) PR NEWSWIRE - Gamma International, Ltd. (NASDAQ: GAMM) today reported results for the third quarter and nine months ended Sept. 30, 1990, including its first profitable quarter with over $100,000 net income on record game sales.

For the third quarter of 1990, game sales increased to $3,865,649 from $3,631,812 for the third quarter of 1989, while net income rose to $103,455, or 4 cents per share, versus a loss of ($870,397), or (77 cents) per share, for last year's third quarter.

For the first nine months of 1990, game sales rose 31 percent to $11,039,746 compared to $8,433,127 for the first nine months of 1989. The company sustained a loss of ($52,579), or (4 cents) per share, for the first nine months of 1990, including an extraordinary charge of ($50,000) in the second quarter relating to elimination of debt issue costs in connection with the repayment of bridge loans, compared to a loss of ($3,195,260), or ($2.82) per share, for the first nine months of 1989.

Gamma designs and produces daily high-stakes bingo games which are played simultaneously in independently operated bingo halls located in 14 states.

The games, which offer the highest regularly scheduled prizes in bingo history (ranging up to $1 million per game), are telecast live via a proprietary satellite network which currently links 46 bingo halls from Vermont to California.

Gamma's shares, warrants and units are traded on NASDAQ under the symbols GAMM GAMMW and GAMMU, respectively.

#90312p4737 11/08/1990 ~PR Newswire

MELVILLE, NY (NOV. 8) PR NEWSWIRE - Herbert Lindo, president of Kenilworth Systems Corporation (NASDAQ: KENS), announced today that, after three months of extensive testing with play money, the statutory inspecting authority of the State of Victoria, Australia, has approved and certified the Cashless Wagering System developed and provided by Kenilworth for the world's first cashless casino, which also is the first casino in the State of Victoria, Australia. This casino will open officially on Nov. 27.

In a cashless casino, the gambler establishes a debit card account at the cage by depositing cash or electronically transferring a cash advance from a bank or Visa/MasterCard account. After being issued the debit card, the player inserts it into a slot machine for play, with debits and credits displayed on the screen, or uses it to purchase chips at table games.

Through electronic funds transfer, a casino's labor costs can be reduced by more than 60 percent, and up-front promotion costs by 35 percent, by separating the bystanders from the players with data generated from the system.

According to Peter Redlich, chairman of the Totalizator Agency Board, (TAB), Victoria, Australia, an office equivalent to the chairman of the casino commission in the states of Nevada and New Jersey, "This technology is the most advanced of its type in the world. It features a new generation of slot machines which permit, on each machine, the selection of six different casino slot games and the selection of different wagers -- 10 cents to $25 -- between handle pulls." It was also noted that the revolutionary Australian casino offers self-service terminals for cashless wagering on horse and greyhound racing and for sports book.

On election day, Nov. 6, the voters in New Jersey approved a referendum permitting horse race wagering and simulcasting in Atlantic City casinos. This voter affirmation next goes to the New Jersey state Legislature for approval.

MONTREAL (NOV. 8) PR NEWSWIRE - Dominion Textile (MONTREAL: DTX) announced that at its annual meeting held on Oct. 31, 1990 that, effective today, Nov. 8 shareholders may purchase shares of the corporation for the balance of the 1990 calendar year through optional cash payments under its Dividend Reinvestment and Share Purchase Plan.

The maximum amount of optional cash payments under the plan is $4,000 per calendar quarter. The remaining 1990 investment dates are Nov. 21 and Dec. 21. Shareholders may make one payment of $4,000 or payments each month up to a total of $4,000. Payments received after Dec. 20 will not be accepted and will be returned immediately to shareholders.

For eligible Quebec residents, common shares of Dominion Textile purchased through optional cash payments qualify for inclusion in a Quebec Stock Savings Plan. This entitles shareholders to a deduction in computing taxable income for 1990 Quebec income tax purposes equal to 75 percent of the acquisition cost of the shares.

#90312p4739 11/08/1990 ~PR Newswire

TULSA, OKLA (NOV. 8) PR NEWSWIRE - Parker Drilling Co. (NYSE: PKD) today announced it has been awarded a contract to build "the newest generation of Arctic drilling rigs" for an exploration and development drilling program on

the North Slope of Alaska. Drilling operations are expected to begin in the Kuparuk River Field in mid-1991.

The contract, with ARCO Alaska Inc., calls for manufacturing a rig which features "an innovative moving system which is specifically designed to operate in the environmentally sensitive Arctic conditions," said Robert L. Parker, Jr. president and chief operating officer. The rig will be incorporated into ARCO's long-term drilling program to develop the sizeable reserves in the field.

Parker explained that the design allows for moving the rig on a transport system, similar to units being used to move space shuttle equipment at the Kennedy Space Center. "This system will minimize damage to the existing roads compared to rig move systems now in use," Parker stated. Additionally, other state of the art environmental safeguards have been included in the rig's design, including a closed loop mud system and a zero discharge liquid system.

The new Parker rig also includes the newest existing technology, such as a top drive, high speed shale shakers and advanced centrifuges.

The Parker-patented rig design was developed at the company's research and development center, Parker Technology Inc. or Partech, in Odessa, Texas. The new rig will be built under the supervision of Partech personnel.

Parker is a worldwide drilling contractor with operations in 15 countries. The company is headquartered in Tulsa.

#90312p4740 11/08/1990 ~PR Newswire

LOS ANGELES (NOV. 8) PR NEWSWIRE - Unocal (NYSE: UCL) has appointed Fielding L. Walker vice president of marketing for Unocal's refining and marketing division, effective Nov. 15.

Walker will assume the responsibilities of Thomas W. Matthews, vice president of eastern marketing and national auto/truckstops, who is retiring Dec. 1.

Walker's new duties are in addition to his previous responsibilities as vice president of western marketing, a position he assumed on Oct. 1 with the retirement of Clay R. Warnock.

In his new position, Walker will oversee Unocal's marketing activities nationwide.

"The transfer of Unocal's midwestern marketing assets to The UNO-VEN Company last December reduced the scope of responsibilities for the vice president of

eastern marketing," said Roger C. Beach, president of Unocal's refining and marketing division.

"Having eastern and western marketing report to one person reflects that change, and will increase the efficiency of our marketing organization," Beach added.

Since joining Unocal in 1964, Walker has served in various positions, including general manager of marketing for the eastern United States and general manager of Unocal's nationwide auto/truckstop system. Before assuming his position as vice president of western marketing, Walker was vice president of planning and services.

Walker, a native of Oxford, North Carolina, has a bachelor's degree from Duke University and received a master's degree in management from Northwestern University.

Matthews joined The Pure Oil Company (which later merged with Unocal) as a district sales representative trainee in 1958. Matthews, a graduate of the University of Maryland, subsequently held increasingly responsible positions in eastern marketing, including district and division sales manager, and general manager of marketing distribution and product supply. He was appointed vice president of eastern marketing in 1981.

Warnock began his career with Unocal in 1956 after attending the University of Arizona. Starting as a service station student salesman in western marketing, he undertook a wide variety of marketing assignments. He subsequently advanced to positions as division sales manager, manager of operations and profit planning, and general manager of marketing operations, before being appointed vice president of western marketing in 1981.

#90312p4759 11/08/1990 ~PR Newswire

CHICAGO (NOV. 8) PR NEWSWIRE - Telephone and Data Systems, Inc. (AMEX: TDS) today reported excellent growth in customers served and exceptional increases in revenues, operating income, net income, earnings per share and cash flow. Telephone access lines increased 8 percent to 277,100, consolidated cellular phones soared 60.7 percent to 48,700 and pagers jumped 24.2 percent to 192,400 at Sept. 30, 1990, as compared to Sept. 30, 1989.

Financial results were up sharply. Revenues rose 21.8 percent to $75 million for the third quarter and 24 percent to $214.2 million for the nine months ended Sept. 30, 1990, both as compared to the respective prior periods. Operating income increased 75.1 percent to $13.1 million for the third quarter and 83.2 percent to $36.2 million for the nine months ended Sept. 30, 1990. Net income available to common climbed 138.5 percent to $6.4 million for the third quarter and 191 percent to $17.7 million for the nine months. Earnings per share jumped 110 percent to $0.21 for the third quarter and 163.6 percent to $0.58 for the nine months. Growth in earnings per share was slowed somewhat by increases in common shares outstanding of 8.4 percent for the third quarter and 12.1 percent for the first nine months. Cash flow from operations rose 37.6 percent to $27.8 million for the third quarter and 40.9 percent to $77.1 million for the nine months.

TDS Telecom reported excellent growth in access lines served and strong financial performance. Operating income increased 25.4 percent to $16.3 million on a 14.6 percent increase in revenues for the third quarter of 1990 as compared to the same period in 1989. Cash flow from operations moved up 21.1 percent to $26.1 million for the third quarter.

United States Cellular (AMEX: USM) posted a 51.1 percent gain in revenues to $16.6 million on a 60.7 percent increase in customers for the third quarter of

1990 as compared to 1989. USM's consolidated losses from operations improved 50.9 percent to $1.8 million during the third quarter reflecting the effects of achieving positive operating income, excluding license cost amortization, in 10 of its 26 markets and positive consolidated cash flow overall.

TDS is a Chicago-based communications company with established local telephone operations and developing cellular telephone and radio paging operations. TDS builds value for its shareholders by providing excellent communications services to attractive markets in closely related segments of the telecommunications industry.

#90312p4761 11/08/1990 ~PR Newswire

NEW YORK (NOV. 8) PR NEWSWIRE - British Telecom (NYSE: BTY) announced today the second quarter and half year financial results for the period to Sept. 30, 1990.

A synopsis is:

-- Earnings per ADR increased by 14.5 percent to 0.85 pounds sterling ($1.59) for the second quarter and by 16.4 percent to 1.65 pounds ($3.09) for the half year relative to the same periods in 1989.

-- Income before tax for the second quarter of 791 million pounds ($1,479 million), an increase of 16.7 percent and for the half year of 1,532 million pounds ($2,865 million), again an increase of 16.7 percent.

-- Interim dividend increased by 12.9 percent to 0.70 pounds ($1.31) per ADR.

-- Revenues increased for the half year to 6,475 million pounds ($12,108 million), an increase of 8.8 percent reflecting in large part the economic downturn in the U.K.

-- Call volume growth of 7 percent for domestic calls and 11 percent for international calls on a twelve month moving average.

-- Number of business access lines increased by 7.7 percent and residential access lines increased by 2.3 percent over the year to Sept. 30, 1990.

-- Operating costs for the half year increased by 6.8 percent to 4,723 million pounds ($8,832 million) reflecting the emphasis on cost control.

-- Reduction of 5,600 people employed in the U.K. during the half year.

The reorganization of the group has resulted in a cost of 21 million pounds

($39 million), mainly as severance payments. This has been charged against the restructuring provision of 390 million pounds ($729 million) made at the end of last year.

The interim dividend of 0.70 pounds ($1.31) gross per ADR will be paid on Feb. 18, 1991 to shareholders of record on Jan. 10, 1991. This dividend amounts to 323 million pounds ($604 million).

PHILADELPHIA (NOV. 8) PR NEWSWIRE - Leading energy project developer O'Brien Energy Systems (AMEX: OBS) today announced that its $54 million, 52 megawatt Newark Group Industries cogeneration project in Newark, N.J., is now in commercial production and supplying steam to Newark Boxboard Co. and electricity to Jersey Central Power and Light under a 25-year contract.

"Although we have been operating a similarly sized facility in California since February with better-than-projected results, this is our first large, wholly owned project and therefore will contribute significantly to the company's growth," said O'Brien Energy Vice President Bruce Levy. "We consider this a milestone event in the company's history," Levy added.

The project is expected to produce approximately $30 million in annual gross revenues for the 25-year term of the contract. A second wholly owned O'Brien

plant, a 102 megawatt project at a Du Pont chemical facility in Parlin, N.J., is scheduled for completion early in 1991.

CONTACT: Hal LeVay of Porter, LeVay & Rose, (212) 564-4700, for O'Brien Energy Systems.

WILTON, CT. (NOV. 8) PR NEWSWIRE - Preferred Health Care Ltd. (AMEX: PY), a leading provider of programs that manage the delivery of mental health and substance abuse care, announced today that it has been selected to provide its PsychCare program to the following new clients:

Client	Start Date
Northern States Power Corporation	Dec. 1, 1990
Coca-Cola Enterprises, Inc.	Jan. 1, 1991
Bellcore	Jan. 1, 1991
Trammell-Crow	Jan. 1, 1991
Bethlehem Steel Corp.	Jan. 1, 1991

In addition, Preferred Health Care has been selected to provide its Psychiatric Case Review (PCR) product to MCI Communications Corporation starting Jan. 1, 1991.

The foregoing new clients, which represent over 135,000 lives, are expected to generate 1991 managed care revenues of over $1.5 million.

PsychCare is a comprehensive managed mental health program which integrates patient evaluation, referral to the company's preferred provider networks and concurrent utilization review. PCR is a stand- alone program that delivers the concurrent utilization review and reporting components of PsychCare primarily for inpatient treatment.

GASTONIA, NC (NOV. 8) PR NEWSWIRE - On November 8, 1990, the Board of Directors of Public Service Company of North Carolina, Inc. (NASDAQ-NMS: PSNC) declared a regular quarterly dividend on the Company's Common Stock of 27.5 cents per share, payable on January 1, 1991, to shareholders of record December 10, 1990. This is the 132nd consecutive quarterly dividend on the Company's Common Stock.

The Directors also declared regular quarterly dividends on both series of the Company's Cumulative Preferred Stock, payable January 1, 1991 to shareholders of record December 10, 1990.

Public Service Company distributes natural gas to over 230,000 customers in 87 cities, towns and communities in 26 counties ranging from the Raleigh, Durham and Chapel Hill areas in the northeast; the Concord, Statesville, Gastonia and Forest City areas in the Piedmont; to the Asheville, Hendersonville and Brevard areas in the western part of the state. Public Service Company, through subsidiaries of its wholly-owned subsidiary, PSNC Natural Resources Corporation, also participates in oil and gas exploration and production, and retails propane gas.

CINCINNATI (NOV. 8) PR NEWSWIRE - Cincinnati Milacron Inc. (NYSE: CMZ) announced today that it has completed the sale of its industrial robot business to ABB Robotics Inc., a unit of the ABB Brown Boveri Group. As previously announced, the two companies had signed a letter of intent agreeing to the sale in September.

ABB plans to continue Milacron's robot business, fulfilling current contracts and providing all customer services including training and parts replacement. ABB also intends to retain a substantial number of Milacron employees.

Terms of the transaction were not disclosed. Milacron said that the sale would have no material effect on its 1990 earnings.

"This divestiture is a part of our overall strategy to concentrate on areas of long-term growth and opportunity within our core businesses: namely, products for metalworking and for plastics processing," said Daniel J. Meyer, Milacron's president and chief executive officer.

Cincinnati Milacron, with 1989 sales of $851 million, is leading a producer of machine tools, plastics machinery, measurement and inspection equipment, computer controls, grinding wheels and metalworking fluids.

#90312p4772 11/08/1990 ~PR Newswire

CHICAGO (NOV. 8) PR NEWSWIRE - WMS Industries Inc. (NYSE: WMS) announced today results of operations for the first quarter ended Sept. 30, 1990.

Revenues for the quarter ended Sept. 30, 1990, were $29,408,000 as compared with $23,893,000 in the corresponding quarter of the prior fiscal year. The net loss for the current quarter was $3,102,000, or 36 cents per share, as compared with a net loss of $6,059,000 or 76 cents per share, for the prior year's comparable quarter.

The quarter ended Sept. 30 is the weakest in the company's annual business cycle because of the summer vacation shut-down of the company's amusement game manufacturing facilities and the seasonal rate and occupancy reductions in the company's hotel and casino business in Puerto Rico. The loss from operations of the current quarter was $1,455,000 as compared with $4,297,000 in the prior year's comparable quarter. This 66 percent reduction in loss from operations results from significantly improved operating results at the Condado Plaza Hotel & Casino, reduced corporate office expenses and modestly improved results at the amusement game business.

At the company's hotel and casino operations in Puerto Rico -- the Condado Plaza Hotel & Casino and the El San Juan Hotel & Casino -- revenues increased at each hotel primarily from an increase in average room rate. Casino revenues increased at the Condado Plaza because of a higher win percentage while casino revenues decreased at the El San Juan because of a lower win percentage (which is related to the luck of the players and is a factor in all casino operations). The Condado Plaza achieved an operating profit in the current quarter in comparison to a loss from operations in the prior year's comparable quarter. The El San Juan had a loss from operations of similar amounts in both the current and prior year's comparable quarter. Prior year's

hotel and casino operations suffered at both locations from the effects of the Sept. 18, 1989, hurricane.

Sales at the company's coin-operated amusement game business improved over the prior year's first quarter. The improvement resulted in part from higher pinball unit sales including the sale of finished goods inventory models carried over from the previous year's production. The loss from operations in the amusement game business had only a modest decrease notwithstanding the sizeable sales increase because of lower than normal margins from the sale of prior year models.

WMS Industries Inc. is engaged in the design, manufacture and sale of coin-operated amusement games and the ownership and operation of hotels and casinos.

CONTACT: Harold H. Bach Jr., vice president-finance of WMS Industries, 312-728-2300, or Philip Y. Sardoff or Gordon H. Wolfe of Wolfe Lombard, 212-545-8400, for WMS Industries

OMAHA, NE (NOV. 8) PR NEWSWIRE - It's simple. If you're not registered, you can't vote. And that was the case for some 25.8 percent of Nebraska's voting age population in Tuesday's election.

U S WEST Direct, partnering with the Nebraska state government, is working to increase voter registration by making it as easy and convenient as possible to register. The Yellow Pages publisher has begun including mail-in voter registration forms in each of the 11 directories it publishes in the state of Nebraska.

The first Nebraska directory to include the registration form was Omaha. All subsequent directories in the state will contain the form as well as state-wide voter information.

The idea came from Iowa Secretary of State Elaine Baxter. She recognized that the U S WEST Direct White and Yellow Pages is in almost every home and business and is the first thing to arrive on the front porch when people move into a new community.

The voter registration form allows individuals to register by removing the form from the directory, completing it and mailing it directly to the secretary of state's office.

Voter information appears in the Easy Reference Guide of the directory and includes voter qualifications, how to register, what to do if you move and how to vote an absentee ballot. It also provides telephone numbers for direct

contact to the secretary of state's office and records and elections department.

U S WEST Direct received top industry honors from the Yellow Pages Publishers' Association for outstanding community service as a result of its inclusion of voter registration forms and information in its directories.

"It's wonderful to do something because it's right and it will serve the community," said Jim Logan, U S WEST Direct president. "The decline in citizen participation in the voting process is disturbing. I'm proud that U S WEST Direct can provide important information that facilitates and encourages voter registration."

U S WEST Direct is a wholly owned subsidiary of U S WEST Marketing Resources Group Inc., U S WEST's subsidiary focused on bringing buyers and sellers together. Based in Denver, U S WEST is a diversified telecommunications business that owns companies involved in regional, national, and international markets.

Its businesses include: radio communications, including cellular, paging and personal communications networks; business communications systems sales and service; communications software; cable television; and financial services.

CONTACT: Carolyne Kennedy, (303) 337-8246; or Jon Lentz, (303) 337-8207 both of U S WEST Direct.

DENVER, (NOV. 8) PR NEWSWIRE - Titanium Metals Corp. (TIMET) is now the principal operating unit of Tremont Corp. (NYSE: TRE). Tremont, formerly named Baroid Corp., was renamed on Oct. 29, 1990, when the petroleum services operations of Baroid were spun off in a separate company which has been renamed Bariod. Tremont began trading on the New York Stock Exchange Oct. 30, 1990 under the symbol "TRE". Tremont recently announced third quarter results of $7.2 million consolidated operating income and consolidated operating income for the nine months ended Sept. 30, 1990, of $28.8 million, up 22 percent compared to pro forma consolidated operating income of $23.7 million for the 1989 year-to-date period.

TIMET, headquartered in Denver, is the largest integrated producer of titanium sponge, ingot and mill products outside of the Soviet Union. It has plants in Henderson, Nev.; Toronto, Ohio; and Morristown, Tenn. TIMET has a world wide sales operation including U.S. service centers in East Windsor, Conn.; Milford Ohio; Morristown; O'Fallon, Mo.; Grand Prairie, Texas; and Irvine, Calif. TIMET's three international service centers are located in London; Paris and Dusseldorf, Germany. Construction of the Morristown metal finishing plant and a new technical laboratory in Henderson, Nev, were recently completed.

MIAMI (NOV. 7) PR NEWSWIRE - Burger King Corporation announced today the purchase of 27 Burger King(R) restaurants from Erin Food Systems, Inc. in New Hampshire and Massachusetts. The $48 million purchase represents one of the largest acquisitions in the history of Burger King Corporation. Burger King Corporation assumes ownership of the restaurants and their related real estate and other assets.

"This agreement not only represents one of our largest acquisitions of company restaurants," said Barry J. Gibbons, chief executive officer, Burger King Corporation, "it demonstrates our continuing commitment to develop the Burger King Brand and the opportunities we see in the Northeast region of the United States."

Burger King has recently developed two other restaurants locations in New Hampshire and will continue to assess growth potential in the area.

The acquisition now positions Burger King Corporation as one of the largest employers in New Hampshire with more than 1,200 employees. The former restaurant employees of Erin Food Systems, Inc. will be offered similar positions within Burger King Corporation.

Burger King Corporation was acquired by Grand Metropolitan in January 1989. One of the United Kingdom's largest international companies, Grand Metropolitan is a world leader in the food, drinks, and retailing businesses. U.S. subsidiaries also include The Pillsbury Company, Haagen-Dazs, Alpo Pet Foods, Carillon Importers, Heublein, Inc., The Paddington Corporation, and Pearle, Inc. Burger King Corporation and its franchisees operate more than 6,000 restaurants in 36 countries worldwide. In Fiscal Year 1989, Burger King had systemwide sales of $5.7 billion.

#90312p4784 11/08/1990 ~PR Newswire

GASTONIA, NC (NOV. 8) PR NEWSWIRE - Public Service Company of North Carolina, Inc. (NASDAQ-NMS: PSNC), a natural gas utility, today reported operating results for its fiscal year ended September 30, 1990. Operating revenues for fiscal 1990 were $201,940,000, down $11,772,000 or 6 percent as compared to $213,712,000 for fiscal 1989. This decrease in operating revenues was more than offset by a 12 percent or $15,938,000 decrease in the cost of gas as compared to fiscal 1989. This resulted in gross margin of $88,167,000 for

fiscal 1990, a 5 percent increase over $84,001,000 for the prior fiscal year. Other operating expenses and taxes for fiscal 1990 were $64,927,000, a 6 percent increase over $61,081,000 for fiscal 1989. Net income for fiscal 1990 was $12,305,000 as compared to $13,310,000 for the prior fiscal year. Earnings per average common share, based on 9,668,000 average common shares outstanding, were $1.26, as compared to $1.40 for fiscal 1989, based on 9,399,000 average common shares then outstanding.

The decrease in operating revenues was due mainly to reduced quantities of natural gas sold for heating requirements to its higher-margin residential and commercial customers. Quantities of gas sold to these classes of customers decreased 3 percent and 6 percent, respectively, as compared to fiscal 1989. The decrease in quantities sold was due to weather during fiscal 1990 being 14 percent warmer than fiscal 1989. This decrease in operating revenues was somewhat offset by increases in the Company's residential and commercial customer bases of 6 percent and 10 percent, respectively, as compared to last year. Although quantities of gas sold to industrial customers decreased slightly, quantities of transportation gas increased 7 percent as compared to fiscal 1989. Operating revenues also reflect gas rate increases from the Company's latest general rate case, effective November 1989.

The increasing federal deregulation of the natural gas industry and the Company's interstate pipeline supplier's conversion to an open-access carrier increased the Company's transportation of gas purchased by end-users from other suppliers during fiscal 1990. The commodity value of such transportation gas is not included in operating revenues, whereas it is included if gas is purchased and sold by the Company. Quantities of gas transported represented 20 percent or 9,746,000 DT of the Company's fiscal 1990 total volume throughput of 49,974,000 DT, verses 18 percent or 9,097,000 DT of fiscal 1989's total volume throughput of 50,525,000 DT. Importantly, the Company's rate tariffs enable it to earn an equivalent operating margin selling or transporting a given volume of gas.

Public Service Company distributes natural gas to over 230,000 customers in 87 cities, towns and communities in 26 counties ranging from the Raleigh, Durham and Chapel Hill areas in the northeast; the Concord, Statesville, Gastonia and Forest City areas in the Piedmont; to the Asheville, Hendersonville and Brevard areas in the western part of the state. Public Service Company, through subsidiaries of its wholly-owned subsidiary, PSNC Natural Resources Corporation, also particpates in oil and gas exploration and production, and retails propane gas.

PORTLAND, OR (NOV. 8) PR NEWSWIRE - At a news conference today at the Airport Conference Center, David Zielke, Delta Air Lines' district marketing manager, and Bob Woodell, executive director, Port of Portland, announced Delta's plan for a $6.4 million cargo facility at Portland International Airport.

Zielke stated: "The planned expansion, reflecting a strong demand for Delta's cargo product, will be built on a 10-acre parcel of land located east of the Sheraton Hotel along airport way. Delta will lease the land from the Port. The facility including some 85,000 square feet will be used by both our cargo and cabin service departments. Construction is tentatively set to begin in February 1991 with completion expected in fall 1991."

Woodell said, "The Port of Portland is pleased to be working with another Delta expansion project that is mutually productive with many benefits to the community in the future."

Zielke also announced expansion of Delta's Far East services effective Feb. 7, 1991. On this date, Delta will begin service between Portland, Ore., and Nagoya, Japan, with same plane service to Los Angeles. Delta's new Nagoya service will leave Portland at 1 p.m. and arrive in Nagoya at 4:40 p.m. the next day. The return schedule will depart Nagoya at 6:35 p.m., arriving in Portland, Ore., at 10:05 a.m. the same day. These schedules will be operated with L-1011-500 aircraft with economy and business class as well as sleeper seats in first class.

Delta's new MD-11 aircraft will be introduced into its Asian service in the future. The addition of this new aircraft in Portland service will increase Delta's international cargo capacity. "These new facilities and Delta's continuing expansion of service here, plus introduction of the world's newest international airplane, demonstrate Delta's commitment to Portland as a major international gateway, resulting in added economic impact to the state of Oregon and southwest Washington," said Zielke.

#90312p4790 11/08/1990 ~PR Newswire

MILPITAS, CA (NOV. 8) PR NEWSWIRE - ETEQ Microsystems, Inc., a high performance chipset manufacturer, has introduced the Cougar 386/486 chipset. This is the first chipset available that is fully compatible with all known 386DX and i486 systems.

It is no longer necessary for manufacturers to stock two different chipsets for each machine. As a result, there is less ordering, less money tied up in inventory and more flexibility in the manufacturing process.

In addition, the Cougar 386/486 is the first chipset to break the 33 MHz speed barrier supporting speeds to 40 MHz. While most other chipset manufacturers use 1.2 micron technology, the Cougar was produced using 1.0 micron CMOS technology which contributes to its high speed capability.

Designers have incorporated an industry exclusive hardware turbo switching feature into the Cougar 386/486 chipset. This allows users to mix the type and the order of the DRAMs in the system resulting in more configuration options. Users can get up to four blocks of non-cacheable support, and unlike other chipsets, the Cougar 386/486 fully supports a WEITEK 3167/4167 coprocessor without having to use any external PALS.

The Cougar 386/486 chipset was developed to be one of the most reliable components available in the market today. Production runs for the Cougar chipset have been 100 percent tested to assure 100 percent reliability. Cougar chipsets are subjected to functional burn-in at 45!C for 48 hours while being run at 44 MHz, which is well over its production margin.

ETEQ Microsystems is dedicated to providing innovative VLSI products which perform complex logic control functions in high performance personal computers workstations, and office automation tools. Innovative engineering and a strong commitment to provide high-quality, reliable products are the foundation of their company philosophy.

CONTACT: Tom Chin of ETEQ Microsystems, 408-432-8147; or Matthew Salazar of Wilson & Wilson Marketing Communications, 408-371-8331, for ETEQ Microsystems

FINDLAY, OHIO (NOV. 8) PR NEWSWIRE - William D. Marohn has been elected to the board of directors of Cooper Tire & Rubber Company (NYSE: CTB) effective immediately. Marohn is executive vice president, North American Appliance Group, for Whirlpool Corporation, Benton Harbor, Mich. The announcement was

made today by Cooper's chairman, Ivan W. Gorr.

Marohn joined Whirlpool Corporation in 1964 as an industrial engineer. Over the years Marohn served in a variety of manufacturing and administrative positions throughout Whirlpool and was named to his current post in 1989.

Marohn is vice chairman of the Vitromatic board, a foreign affiliate in Mexico in which Whirlpool holds a significant equity interest. He also serves on the board of directors for Matsushita Floor Care Company, Whirlpool's joint venture partner for floor care.

A native of Toledo, Marohn holds a bachelor of science degree in mechanical engineering from the University of Toledo and in 1983 was honored with the distinguished alumnus award from that institution. He served in the United States Air Force Medical Corps during the Berlin Crisis, and was an officer in both the Ohio and Michigan Air National Guard. He is a member of the board of directors of the Mercy-Memorial Medical Center and the Lake Michigan College Education Fund.

The election of Marohn to the Cooper board increases the number of directors to its authorized limit of twelve. Marohn will serve through the company's annual meeting in 1992 at which time he will be eligible for re-election.

DALLAS (NOV. 8) PR NEWSWIRE - Metro Airlines Inc. (NASDAQ: MAIRC) today announced that the company's October traffic set an all time record for the month. Metro flew 56.6 million revenue passenger miles during the month, a 15.8 percent increase from 48.9 million in October 1989. A revenue passenger mile is the equivalent of flying one paying passenger one mile.

Passenger boardings for the month totaled 289,696, up 14.7 percent from 252,504 in October 1989. Metro had 100.5 million available seat miles in October 1990, compared to 87.7 million in 1989, for a 14.6 percent increase. Load factor, or percentage of seats filled by paying passengers, increased to 56.3 percent from 55.7 percent in October 1989.

For the first ten months of 1990, Metro flew 534 million revenue passenger miles, a 35.7 percent increase from 394 million for the same period a year ago and nearly equaling the 545 million flown during the full year 1989. The airline had 960 million available seat miles for the first ten months of 1990, compared to 748 million a year ago, an increase of 28.4 percent. Load factor for the first ten months of 1990 increased 3.0 percentage points to 55.6 percent from 52.6 percent last year. Passenger boardings for the period were 2.8 million, a 36.4 percent increase from 2.1 million a year ago.

Metro Airlines Inc., one of the nation's largest regional airlines, operates over 100 aircraft serving 75 cities in the southwestern and eastern United States and the Caribbean. Metro operates as American Eagle from its Dallas/Fort Worth hub, as Eastern Metro Express at the Atlanta and San Juan hubs, and as TransWorld Express in the northeast.

WASHINGTON (NOV. 8) PR NEWSWIRE - The Pension Benefit Guaranty Corporation (PBGC) agreed to settle for $5 million a lawsuit for breach of fiduciary responsibility filed against the M&I Marshall & Ilsley Bank (NASDAQ-NMS: MRIS) of Milwaukee (M&I). Upon receipt of cash, PBGC will release M&I from all liability to the Wheeling-Pittsburgh pension plans.

The civil lawsuit stemmed from M&I's actions, as master trustee of the

Wheeling-Pittsburgh Corp. (NYSE: QWHX) pension plans, in accepting unmarketable Wheeling-Pittsburgh preferred stock in satisfaction of the company's 1981 pension funding requirements.

PBGC Executive Director James B. Lockhart said, "All pension fund trustees must act in the best interest of the participants in those funds and PBGC will vigorously pursue those who do not."

The transaction's purpose, PBGC contended, was to save cash for Wheeling-Pittsburgh, rather than to benefit its pension plan participants and beneficiaries. The agency further contended that this stock was under the circumstances existing at the time, an imprudent investment of plan assets.

PBGC also contended that acceptance of the stock, valued at $26.4 million in 1982 by Wheeling-Pittsburgh and M&I, was a violation of the prohibited transaction rules of the Employee Retirement Income Security Act (ERISA) because it was not valued correctly by either the named fiduciary or the trustee. Although the plans received $10 million in dividends from the stock, the plans nevertheless lost funds as a result of this transaction because a greater return could have been earned on a prudent investment.

M&I contended that it was not liable for those losses because it was a directed trustee and was following the company's instructions in accepting the stock.

PBGC is a federal agency that guarantees payment of basic retirement benefits earned by American workers participating in private-sector defined benefit pension plans. PBGC administers two insurance programs, which cover nearly 40 million workers in about 100,000 pension plans. PBGC has about $3.2 billion in assets and about $4.2 billion in liabilities.

SOUTH GATE, CALIF (NOV. 8) PR NEWSWIRE - Ultrox International, the operating subsidiary of On-Site Toxic Control Inc. (OTC), unveiled today the first municipal drinking water well restored to state and federal well drinking water standards using the patented Ultrox UV/Oxidation process. The well -- located in South Gate -- was officially placed in service by California State Health Director Dr. Kenneth W. Kizer, M.D., M.P.H. and David B. Fletcher, president of Ultrox.

The South Gate well renewal project is part of an effort funded by the California Department of Health Services and the City of South Gate to

encourage on-site solutions to water pollution problems. The well will reclaim up to 1.5 million gallons of water contaminated by industrial solvents and other chemicals to drinking water purity daily.

Ultrox International is a wholly owned subsidiary of On-Site Toxic Control Inc., which is traded over-the-counter. Ultrox manufactures and sells advanced oxidation water and air purification equipment. Pesticides, PCBs, industrial cleaning solvents, gasoline components and other toxic organics found in ground water, waste water and drinking water wells are destroyed on-site with a patented technique, relieving customers of the long-term liabilities associated with handling, storing and transporting hazardous wastes. There are currently 12 full-scale UV/oxidation facilities nationwide.

CALGARY, ALBERTA (NOV. 8) PR NEWSWIRE - Chieftain International Inc. (Alberta Toronto, AMEX: CID) expects to achieve strong financial results in 1990. Chieftain International President S.A. Milner told an oil and gas symposium sponsored by the American Stock Exchange today in Calgary that the company's cash flow in 1990 should be approximately C$36 million (US$31 million). The company's cash flow last year was C$10.9 million (US$9.4 million) for the period April 20 to Dec. 31, 1989.

Milner said the company is benefitting from both higher prices and sales of natural gas in the Gulf of Mexico. He said gas sales are expected to average 63 million cubic feet per day (mmcf) during the last three months of 1990 compared with 32.7 mmcf per day during the third quarter.

The company outlined an aggressive exploration program, involving 20 exploration prospects offshore and onshore in the U.S. Gulf of Mexico area scheduled during the balance of 1990 and 1991. Milner said Chieftain International will spend approximately C$35 million (US$30 million) in exploration and development activities this year with similar levels anticipated during 1991.

Chieftain International is an Edmonton-based oil and gas exploration company active offshore and onshore in the Gulf of Mexico region of the United States. The company's common shares, of which 9,487,500 are outstanding, are listed on the American, Toronto and Alberta Stock Exchanges.

BEAVER, PA. (NOV. 8) PR NEWSWIRE - The Pennsylvania Reserve Fund Inc. of Beaver, Pa., announced the purchase of its stock by the individual partners of the Wellington Group Partnership, Wexford, Pa.

The Pennsylvania Reserve Fund Inc. was formed in 1984 by Janice E. Banyasz as an FHA and VA mortgagee. It received direct endorsement underwriter status from the FHA in 1987. From that point onward, Pennsylvania Reserve Fund consistently ranked among the top five FHA mortgagees in western Pennsylvania, and its operation eventually expanded to include 40 percent of total loan volume in conventional loans.

The Wellington Group is a general partnership consisting of six individuals: J. Thomas Churan, Edward L. Shapiro, James D. Moore, Robert P. Churan, Scott Messer and Ralph E. Lovejoy II. The partnership was formed to oversee the group's various operating companies, which include a number of Pennsylvania manufacturing companies and several real estate development companies specializing in residential housing.

Robert P. Churan, of the Wellington Group and former senior vice president of commercial lending for Reeves Bank, was elected chairman of the board and chief executive officer of the Pennsylvania Reserve Fund Inc.

Jerry W. Brown, formerly associated with the First National Bank of Western Pennsylvania, was elected president and chief operating officer. David A. Moore was appointed to the position of executive vice president, and Susan Ranieri was appointed underwriter.

Banyasz remains with the corporation as a consultant and designated endorser for FHA.

CHICAGO (NOV. 8) PR NEWSWIRE - Maytag Corp.'s board of directors decided today that the firm's 1990 total dividend payout would be 95 cents a share, the same as it has been since 1987.

To achieve this, the board declared a regular quarterly dividend of 22.5 cents a share payable Dec. 15, and a traditional year-end supplemental dividend, amounting to 5 cents a share, payable at the same time. The record date for both dividends is Nov. 30.

In announcing the dividends, board Chairman Daniel J. Krumm said, "During

difficult economic times we have always tried to maintain a reasonable degree of stability in our dividends, because we believe that's important to our shareowners, many of whom are employees as well.

"I'm pleased we were able to preserve our dividend level this year, because that's becoming more and more difficult to do in today's challenging business environment. In the months ahead, Maytag's board will continue to evaluate the appropriateness of the dividend in the context of current and anticipated economic conditions."

#90312p4823 11/08/1990 ~PR Newswire

SOMERVILLE, NJ (NOV. 8) PR NEWSWIRE - Hoechst Celanese Corporation today announced third-quarter net earnings of $49 million on net sales of $1.4 billion.

Dr. Ernest H. Drew, Hoechst Celanese president and chief executive officer, said, "We experienced lower earnings this quarter because of the continued slowdown in the economy, which has affected many of the markets we serve."

Hoechst Celanese continues, however, to make acquisitions that strengthen some of its core areas, says Drew. Acquisitions completed in the third quarter include the purchase of Monofilaments Inc. of Waynesboro, Va., and the polypropylene cigarette tow business of Hercules Corporation.

In the Hoechst Celanese Fibers and Film Group, sales were affected by continued weakness in the apparel, home fashions and housing markets. This sales decrease was partially offset by continuing strong worldwide demand for filter products and acetate products.

In the third quarter, capacity increases for cellulose acetate tow and flake were announced for plants in the United States, Belgium, Canada, Mexico, and the People's Republic of China. In Film and Fiber Intermediates, results from majority-owned Cape Industries were affected by lower sales volumes and a

continuing decline in export pricing.

In the chemical group, favorable volumes in vinyl acetate and acetic anhydride partially offset the effects of the continuing softening of ethylene oxide/glycol selling prices.

In specialty chemicals, volumes improved in dyes, surfactants and superabsorbent materials compared to the third quarter last year. A smooth relocation of specialty chemicals sales, marketing and administration personnel from Portsmouth, Va., and Somerville, N.J., to Charlotte, N.C., occurred during the third quarter.

Advanced Materials sales were impacted by weaknesses in the automobile, housing and electronics industries. Hoechst Celanese announced during the third quarter its intention to build a joint- venture plant to produce Fortron(R) polyphenylene sulfide in the United States with Kureha Chemical Industry Company, Ltd., of Japan.

The Hoechst Celanese Advanced Technology Group in the quarter filed a baked goods petition with the Federal Food and Drug Administration for its Sunette(R) sweetener. In addition, the Sunette business unit moved into its new quarters in Somerset, N.J.

In the life sciences group, net sales were lower than those for the same period last year because of strong sales in 1989 of Trental(R) hemorrheologic in anticipation of an early fourth-quarter price increase. However, net sales for Life Sciences in the first nine months of 1990 exceeded those of 1989 because of increased sales for Claforan(R) antibiotic, DiaBeta(R) oral antidiabetic, and Lasix(R) diuretic.

Hoechst Celanese is a wholly owned subsidiary of Hoechst AG of Germany, with leading positions in chemicals, fibers, advanced materials and technologies and life sciences. Its 1989 sales were $6 billion, placing Hoechst Celanese 77th on the Fortune 100 list.

DALLAS (NOV. 8) PR NEWSWIRE - Dallas-based United Medicorp Inc. (NASDAQ: UMCI) announced today the signing of an agreement with Howard University Hospital in Washington D.C. The agreement is for UMC's PROVE-IT! service, in connection with the processing and management of the hospital's insurance claims. Based on UMC's current rate of collections, UMC estimates that the initial phase of the agreement with Howard University should generate between $1 million and $1,500,000 of revenue during the next 90 to 120 days. UMC anticipates the second phase of the agreement could result in additional

revenues of approximately $3 million during 1991. Howard University Hospital is recognized as one of the premier teaching facilities in the United States.

United Medicorp Inc. provides medical insurance claims processing, management, collection and advance funding services to health care providers nationwide. UMC employs internally developed, proprietary electronic computer technologies to address claims management and cash flow needs of its customers who are primarily hospitals, medical clinics and physicians.

#90312p4831 11/08/1990 ~PR Newswire

CHICAGO (NOV. 8) PR NEWSWIRE - United States Cellular Corporation (AMEX: USM) today reported a 56 percent increase in service revenues and a 43 percent decrease in the company's operating loss for the third quarter of 1990.

Service revenues for the first nine months of 1990 increased approximately 73 percent to $39.4 million from $22.8 million last year. The operating loss fell 40 percent to $6.1 million from $10.2 million while the net loss dropped 20 percent to $10.3 million from $12.8 million. The net loss was $0.36 per share for the first nine months of 1990 against a loss of $0.45 per share in the 1989 comparable period.

"During the third quarter we continued to expand all aspects of the business," noted H. Donald Nelson, president and chief executive officer. "Customers and revenues in existing markets, and markets in operation increased during the quarter, and I expect continued expansion during the remainder of 1990."

For the quarter ended Sept. 30, 1990, service revenues increased 56 percent to $14.6 million, vs. $9.4 million in the same quarter of 1989. Nelson attributed the service revenue growth to continued increases in customers served. Customers served in majority owned and managed markets totaled 48,700 at Sept. 30, 1990, a 61 percent increase over a year ago.

The operating loss fell 43 percent to $2 million compared to $3.5 million in 1989. The company's net loss for the period was unchanged at $4.2 million, or $0.15 per share.

"The operating results show continued improvement in the Metropolitan Statistical Areas (MSAs), due to growth of the customer base, partially offset by expenses related to initiation of service in the Rural Service Areas (RSAs) " noted Nelson.

During the quarter, the company initiated service in three RSAs, including two that are included in the consolidated results. The company also initiated service in one RSA owned by a third party which the company is managing. In

total, the company was managing systems serving six RSAs as of Sept. 30, 1990.

NEW YORK (NOV. 8) PR NEWSWIRE - Merrill Lynch & Co., Inc. (NYSE: MER) today announced a realignment of its private client division's domestic management structure, including the appointment of three senior vice presidents, national sales, to further streamline the organization and enhance client focus.

William A. Schreyer, chairman and chief executive officer, and Daniel P. Tully president and chief operating officer, said the action follows a management realignment by Merrill Lynch which established six core business divisions, including private client, and has similar objectives.

"This new structure will eliminate a layer of management and place senior managers closer to the point of contact with our more than 4 million domestic clients, shorten the lines of communication, speed decision-making, and enhance our ability to deliver the highest quality service," said John L. Steffens, executive vice president, private client division.

The new structure replaces the existing one, which included eight regional directors reporting to a senior vice president for national sales.

Under the new structure, Thomas O. Muller III, James F. Shoaf and Winthrop H. Smith Jr. will become senior vice presidents of national sales, working together as a team to manage the nationwide delivery of products and services to clients.

Muller was previously regional director of the north central region, Shoaf was regional director, southeast region and Smith was regional director, mid-Atlantic region.

The remaining regional directors will assume new duties as follows: James A. Billington, regional director, southern California, will assume district management responsibilities in the greater Los Angeles area; W. Kenneth Carlson, regional director, Florida, will assist in the implementation of the new structure throughout Florida until next April, when he plans to retire; Jerome J. Donovan, regional director, northeast, will assume district management responsibilities in the greater New York area; Peter Sansevero, regional director, northern California, will assume district management responsibilities in the greater San Francisco area; and Robert D. Sherman, regional director, Texas, will assume district management responsibilities in that state.

#90312p4838 11/08/1990 ~PR Newswire

PHILADELPHIA (NOV. 8) PR NEWSWIRE - Consolidated Rail Corp. (Conrail) (NYSE: CRR) today announced plans to establish a centralized customer service facility in the Pittsburgh area.

Conrail plans to move initial operations into the new National Customer Service Center in the second half of 1991. When the transfers are completed in 1993, more than 800 Conrail employees are expected to be based at the center. In addition to the more than 100 Customer Service Department employees now based in the Pittsburgh area, Conrail employees at similar facilities in Illinois, Indiana, Michigan, New York, Ohio and Pennsylvania will have the opportunity to transfer to the new facility.

"Centralization will produce significant benefits for Conrail and our customers," said James A. Hagen, Conrail's chairman, president and chief executive officer. "The new center will allow Conrail to become more customer focused, improving the quality of our rail freight service. The centralized National Customer Service Center also will allow us to support our national account teams with increased technology, training and other advantages."

Hagen said the selection followed a careful study and examination of several possible locations. "We appreciate the efforts of all the states and communities working with us through the search process. All of the locations we evaluated had their own unique advantages, but on balance, we found that the Pittsburgh area best satisfied Conrail's needs," Hagen said.

"In addition to meeting all our technical requirements, the Pittsburgh area is centrally situated in relation to our existing locations, so that we will be able to achieve maximum continuity of customer service personnel. The Customer Service Center will be convenient to Greater Pittsburgh International Airport and to our other major area facilities, including Conway Yard in Beaver County and Pittsburgh Division headquarters in Green Tree. Other factors we considered included quality of life, operating costs, real estate options and business resources," Hagen said.

Conrail operates a rail freight transportation network in 14 Northeastern and Midwestern states, the District of Columbia, and the Province of Quebec.

#90312p4839 11/08/1990 ~PR Newswire

STAMFORD, CT. (NOV. 8) PR NEWSWIRE - ABB Robotics Inc. (ABB) said today it

has completed the previously announced acquisition of Cincinnati Milacron Inc.'s (CMI) (NYSE: CMZ) industrial robot business. With the acquisition, ABB said it has become one of the largest American suppliers of industrial robot systems.

Industrial robots are used in a wide range of industrial and automotive applications, including welding, material handling, machine tending, assembly, painting and other industrial processes.

ABB said it plans to continue CMI's robot product line and robotic systems. ABB also will maintain their customer service operation, including field service, rebuild and refurbishment, training and parts replacement.

With the acquisition, ABB Robotics employs about 2,000 people, 300 of them in the U.S. The relocation of key executives and other employees from CMI's offices in Greenwood, S.C., to ABB Robotics headquarters in New Berlin, Wisc., and a facility in Rochester Hills, Mich. is expected to be completed by year-end.

CMI has developed highly regarded robot-based automation, particularly in spotwelding for the automotive industry. ABB has been most successful in providing non-spotwelding flexible automation systems and arc welding. In 1989, ABB also acquired a Toledo-based company to provide a painting robot line, now known as ABB Robotics Finishing Inc.

ABB said the acquisition of the CMI robot line will add to its sales and application expertise. The company said it also will further broaden its extensive customer service operation, which will be consolidated at its Rochester Hills, Mich. facility.

ABB Robotics is a unit of Asea Brown Boveri Inc., which provides products and services for the power, process, industrial automation, environmental control, transportation and other markets. ABB Inc. has sales of approximately $6 billion and some 30,000 employees in the U.S.

#90312p4841 11/08/1990 ~PR Newswire

BOULDER, CO. (NOV. 8) PR NEWSWIRE - Satellite Information Systems Co. (SISCOM) (NASDAQ: SATI), a leading supplier of broadcast newsroom automation systems, today announced improved results for its first quarter ended Sept. 30 1990.

The company reported a 75 percent increase in revenue for the quarter to $763,000 from $437,000 in the like quarter a year ago. This increase enabled

SISCOM to significantly reduce its net loss for the quarter to $20,000, or 1 cent per share, from a net loss of $144,000, or 5 cents per share, in the comparable period last year.

During the quarter, SISCOM completed three sales of its NewsPro(TM) newsroom automation system as compared to one sale in the first quarter last year. In addition to sales to new customers in the broadcast industry, SISCOM provided several existing customers with NewsPro upgrades during the quarter. The quarter-to-quarter product revenue comparison showed NewsPro software revenue of $412,000 versus $61,000, hardware revenue of $267,000 versus $31,000, and standard product revenue of $5,000 vesus $11,000. Software services revenue, formerly a substantial component of the revenue mix, decreased to $78,000 from $334,000. This is due to the recent successful completion of an ongoing software services contract with the Associated Press. However, the NewsPro maintenance portion of software services revenue more than doubled, to $71,000 from $35,000.

Mike Ellis, president of SISCOM, said the increase in NewsPro sales reflects efforts made over the past 12 months to enhance and expand the software's capabilities. "Over the past year SISCOM's software engineers have made substantial improvements to a product that already was the finest in the industry," Ellis said. "We're getting very positive feedback not only from new and existing customers but from sources throughout the industry."

NewsPro automates the editorial and production control aspects of broadcast news operations, and additionally provides information management facilities for use by organizations in the print media, public affairs, press relations and image industries. SISCOM has broadcast customers affiliated with the three major networks -- NBC, ABC, and CBS -- as well as with cable-based television, radio broadcasters and independent broadcast organizations. The company has 24 NewsPro installations in the U.S., Canada, Europe, Japan and Australia.

MINNEAPOLIS (NOV. 8) PR NEWSWIRE - As part of an accelerated effort to expand its business nationally, Norwest Equipment Finance has named James R. Renner to a new position as vice president, corporate development. He was president of FBS Leasing Corporation and executive vice president of FBS Business Finance Corporation, based in Minneapolis.

Dan Leclerc, president of Norwest Equipment Finance, a unit of Norwest Bank Minnesota's corporate banking group, said Renner "will spearhead efforts to expand the company's delivery system and head a nationwide acquisition search

for equipment leasing and financing portfolios."

Norwest Equipment Finance, headquartered in Minneapolis, has offices in Billings, Denver, Des Moines, Fargo, Milwaukee, and Omaha. It specializes in financing equipment for data processing, transportation, telecommunications, agriculture, construction, and other industries.

Renner worked with Irving Trust Company in New York before returning to Minneapolis to join First Bank Systems in 1972. In 1974 he moved to FBS Financial in its real estate division and the following year helped organize the leasing company. He became general manager of FBS Leasing in 1978 and president in 1979.

Renner serves on the board of directors of the American Association of Equipment Lessors Foundation and is a former board member of the American Association of Equipment Lessors.

Norwest Bank Minnesota is the largest banking affiliate of Norwest Corporation (NYSE: NOB), a $26.7 billion diversified financial services organization providing banking, banking-related and specialized financial services through more than 1,300 offices in 47 states and internationally.

CALGARY, ALBERTA (NOV. 8) PR NEWSWIRE - The 1,675 employees of TransCanada PipeLines (Toronto, Vancouver, Montreal, Alberta: TRP) announced that their president and chief executive officer, Gerald J. Maier, is to be presented today with the Canadian Council of Professional Engineers 1990 Gold Medal Award.

The award, to be conferred at the CCPE board of directors meeting in Ottawa, is given in recognition of work-related achievements, service to the profession, to the community, to society at large and to the enhancement of the quality of life. The CCPE is a national professional body which represents more than 140,000 professional engineers in Canada, including many of TransCanada's employees.

Maier was previously honored in 1987 with the University of Alberta Professional Achievement Award. In 1987, he was named a Fellow of the Canadian Academy of Engineering.

In addition to his professional accomplishments, Maier's commitment to the community has been expressed in many volunteer hours spent on boards of directors of charitable and cultural organizations. Of particular note is his personal leadership in TransCanada's corporate donations program.

It seems particularly appropriate to his fellow employees at TransCanada that Maier has been awarded the CCPE Gold Medal as he leads the company into an important era of expansion and service to the North American natural gas market. This expansion is a major work of engineering involving the design and construction of pipeline and compression using the latest in advanced technology.

STOCKHOLM, SWEDEN (NOV. 8) PR NEWSWIRE - Alfa-Laval, the large Swedish-based food, industrial and agricultural equipment company, said income after financial income and expense rose 16 percent in the nine months ended Sept. 30. Operating income after depreciation was up 14 percent and the order backlog at the close of the period was 24 percent higher than a year earlier.

The company said its earlier forecast of a 15 percent increase in sales for the full year 1990, with an increase in earnings of approximately the same size, remains valid.

The group's invoiced sales in the first nine months this year amounted to SEK 11.91 billion, 17 percent higher than sales of SEK 10.20 billion in the comparable period a year earlier. Order bookings rose 15 percent, from SEK 11.71 billion to SEK 13.42 billion.

Alfa-Laval said income after financial income and expense in the first three quarters was SEK 1,048 million, as against SEK 907 million a year earlier. Operating income after depreciation was SEK 953 million, compared with SEK 837 million in the year-earlier period. Income per share for the 12 months ended Sept. 30, 1990, was SEK 17.40, compared with SEK 14.90 in the preceding 12-month period. After extraordinary items, income per share for the most recent 12-month reporting period was SEK 18.30, compared with SEK 14.90 for the 12 months ended Sept. 30, 1989. All per-share results are reported after full conversion of convertible debentures and options.

Alfa-Laval said operating income for the nine-month period in its industry operating sector was up 14 percent on a 14 percent rise in sales. Operating income in the food sector rose 44 percent on a 24 percent gain in sales. In the agri sector, operating income increased 21 percent on 17 percent higher sales.

The group noted that order bookings in the third quarter were 13 percent higher than year earlier but that there were increasing signs of weakening economic conditions in important markets.

SANTA ANA, CA (NOV. 8) PR NEWSWIRE - The directors of Imagineering Technology Ltd. today announced that Ingram Micro D Inc. of Santa Ana, and First Pacific Company Ltd. of Hong Kong propose to make a takeover offer for Imagineering Technology, which, if successful, would see Imagineering Technology, the

largest Australasian distributor of technology products, join forces with Ingram Micro D, the world's largest distributor of microcomputer products.

Ingram Micro D and First Pacific Company will make a joint Part A takeover offer for all the ordinary shares in Imagineering Technology to which First Pacific Company is not presently entitled. The offer price will be 60 cents per fully paid share and will be paid either wholly in cash or by way of a combination of cash and securities.

Further details on the takeover offer are set out in the Australian Stock Exchange announcement. (To follow this release.)

Imagineering Technology's core business is its Computer Products distribution, operating in eight countries throughout Asia as "Imagineering" and in Australia and New Zealand as "Tech Pacific, representing leading industry suppliers such as Sun Microsystems, Western Digital, Ashton-Tate, Lotus Development, 3Com, and exclusively throughout the region Intel PCEO, Plus Development and through its affiliate, Borland Pacific, the Borland range of software.

Imagineering also has other significant distribution businesses in Australia and New Zealand - Ozi Soft, which distributes home entertainment hardware and software and has 70 percent of the Australian market, and Imagineering Telecommunications, which distributes PABX systems as well as car and hand-held cellular phones of which it has a 30 percent market share in Australia.

The company's estimated turnover for the year ending Dec. 31, 1990, is Australian $260 million.

"Imagineering will be Ingram Micro D's exclusive distribution arm in the Pacific Rim," stated Chip Lacy, chief executive officer of Ingram Micro D. "The Imagineering investment is an integral part of the Ingram Micro D mission to build the preeminent worldwide microcomputer distributor."

Graham Pickles, group managing director of Imagineering Technology, said, "Ingram Micro D would be a valuable partner that will add further strength to the Imagineering Group and no doubt consolidate its position as the leading distributor of technology products in the Pacific Rim.

CONTACT: Graham Pickles, group managing director of Imagineering Technology Ltd. Australia, 612-697-8666; Linwood A. (Chip) Lacy Jr., chairman and CEO of Ingram Micro D Inc. USA, 714-540-4781; or Edward A. Tortorici, executive chairman of Imagineering Technology Ltd. and executive director of First Pacific Company Ltd. Hong Kong, 011-852-842-4388.

MALVERN, PA (NOV. 8) PR NEWSWIRE - Centocor Inc. (NASDAQ: CNTO) today reported that third quarter 1990 product sales increased 22 percent over third quarter 1989 levels to $8.7 million.

Net income for the quarter ended Sept. 30, 1990, was approximately $13,000. Results for the quarter included a pre-tax gain of approximately $3.2 million from the sale of the company's holding in Dianon Systems in Stratford, Conn.

During the third quarter, Centocor was pleased to supply Centoxin(R) on pre-approval basis for the U.S. armed forces stationed in the Middle East. Centoxin(R) is a human monoclonal antibody pharmaceutical for the treatment of gram negative sepsis and septic shock, deadly conditions which can occur frequently in battlefield injuries. Applications for approval to market Centoxin(R) are currently under review by the U.S. Food and Drug Administration and European regulatory authorities.

Centocor Inc., based in Malvern, develops, manufactures and markets diagnostic and pharmaceutical products for human health care. The company's products are based on monoclonal antibody technology and are primarily intended for use in the management of patients with infectious, cardiovascular and autoimmune disease and cancer.

SCRANTON, PA (NOV. 8) PR NEWSWIRE - Gov. Robert P. Casey today hailed the decision of Consolidated Rail Corp. (Conrail) (NYSE: CRR) to locate its new national customer service center in the Pittsburgh area.

"This is welcome news for Pennsylvania because it puts the Commonwealth once again in the forefront of job creation and economic development," Casey said. "Conrail carefully studied sites throughout the country. I am very pleased that Conrail concluded Pennsylvania is the right place for this center. This decision is testimony to the fact that Pennsylvania has both a skilled and dedicated workforce, and a business climate that is most attractive.

"Conrail long has had a strong presence in Pennsylvania, as exemplified by its corporate headquarters in Philadelphia and its repair and maintenance shops in Altoona. Locating this consolidated customer service center in southwestern Pennsylvania further enhances that presence and is a real tribute to our state. We stand ready and committed, through the work of the Governor's Response Team, to assist Conrail in achieving this centralization."

Although Conrail has not made a final decision exactly where in the Pittsburgh area it will establish the operation, plans are to move into the new service facility in the second half of 1991. The facility will employ 800 people.

Conrail officials have said that customer service department employees now based at ten regional services in Illinois, Indiana, Michigan, New York, Ohio and Pennsylvania will have the opportunity to transfer to the new center.

#90312p4874 11/08/1990 ~PR Newswire
LYNNFIELD, MASS. (NOV. 8) PR NEWSWIRE - John Dickman, president of Braun Inc. will retire from the company effective Jan. 1, 1991, it was announced today by Robert Wagar, executive director, Group Sales Overseas Operations. Dickman who has served as president of Braun Inc. since its inception in 1984 and been associated with Braun's parent-company, The Gillette Company (NYSE: GS), for over 30 years, will be succeeded by Jorgen Wedel, managing director of Braun UK.

Dickman first joined Braun six years ago when it was a one-man shop with the task of establishing the U.S. distribution affiliate for the West German-based company's line of quality European-designed electric shavers, household, personal care and clock products. Since that time, Braun has grown to more than 100 employees and become on the of the nation's leading small appliance companies. To date, the company has sold more than 10 million products in the

U.S. and increased sales to well over $100 million.

"John has built Braun in the U.S. from the ground-up and has put into place a strong operating team, well-suited for the challenges of the 1990's," said Wagar. "He has also been instrumental in the formation of Braun Inc.'s marketing approach, a successful strategy that combines quality products with a commitment to strong advertising. Braun is now one of the best-distributed, most well-respected small appliance brands in the U.S."

Prior to joining Braun, Dickman, a resident of Manchester, Mass., began his career with Gillette in sales. After numerous management positions, he served as vice president of sales of the Personal Care Division of Gillette until he joined Braun in 1984.

Jorgen Wedel assumes the position as president on Jan. 1, 1991. Wedel, a career-veteran of Braun, first joined the company in 1974 as product manager in his native Denmark and later supervised the shaver business management group at Braun's corporate headquarters in Kronberg, West Germany, before being appointed general manager of Braun Denmark. He has served as managing director of Braun UK for the past four years.

Braun AG, a subsidiary of The Gillette Company, manufactures a high quality, European-designed line of electric shavers, household, personal care and clock products which have worldwide distribution. Braun Inc., an affiliate of the West German-based Braun AG, is headquartered in Lynnfield, Mass.

#90312p4875 11/08/1990 ~PR Newswire

CHICAGO (NOV. 8) PR NEWSWIRE - Foote, Cone & Belding Communications, Inc. (NYSE:FCB) today reported net income increased 22 percent in the third quarter ended Sept. 30, 1990, while consolidated revenues rose 11 percent for the period. For the nine-month period, earnings of $11,912,000, or $1.16 per share in 1990, were slightly ahead of comparable 1989 results of $11,655,000 or $1.15 per share.

Third Quarter Results Net income for the third quarter was $3,097,000, an increase of 22 percent over net income of $2,537,000 for the same period a year ago. Per share earnings for the 1990 third quarter were $.30, compared to $.25 for the 1989 period.

Revenues for the consolidated portion of FCB's operations totaled $86,318,000, up 11 percent from 1989 third quarter revenues of $77,752,000. FCB's proportionate share of European revenues (not consolidated) increased to $42,532,000, compared to $32,539,000 in 1989.

Operating margins for consolidated operations were $7,544,000, compared to $7,631,000 in the prior year's quarter. Improved margins in U.S. operations were offset by lower international margins, particularly in Brazil and Australia.

Equity income, which consists primarily of FCB's share of European operations, was $565,000 in 1990, compared to a loss of $1,223,000 in 1989. The 1990 results are due both to improvement in European operating performance and a reduction in the agency rationalization expenses that were necessary in 1989.

Nine Months Results Net income for the first nine months of 1990 was $11,912,000 or $1.16 per share, compared to $11,655,000 or $1.15 per share in 1989. The improvement was registered in spite of the inclusion in 1989 results of a non-operating gain of $880,000, or $.09 a share, net of transactions that primarily included the sale of Golin/Harris Communications, Inc.

Consolidated revenues of $243,228,000 in 1990, compared to $234,717,000 in 1989, up 6.1 percent after adjusting for the divestiture of Golin/Harris. FCB's proportionate share of European revenues increased from $106,953,000 in 1989 to $133,499,000 in 1990.

Other expense was $3,734,000 in 1990, compared to $1,445,000 in 1989, reflecting the substantial cash payments made in April 1989 to complete the Publicis Alliance, and increased year-to-year borrowings beginning in the second quarter of 1989. At the same time, FCB's short- term investment program, which has since been significantly reduced, showed particularly strong results in the first quarter of 1989.

FCB is the fourth-largest communications agency company in North America, and the seventh-largest worldwide. Its global network includes 153 offices in 40 countries, with 1989 billings (including the Publicis- FCB European network) of $4.6 billion.

#90312p4877 11/08/1990 ~PR Newswire

NEW YORK (NOV. 8) PR NEWSWIRE - Piedmont Management Company Inc. (NASDAQ-NMS: PMAN) today reported a loss of $0.16 per share for the quarter ended Sept. 30, 1990. This compares with earnings of $0.17 per share for the 1989 period. For the nine months, earnings were $0.55 per share compared to $1.42 in the prior year. Details follows:

-- Excluding the effects of realized capital and losses, operating income improved to $1.8 million, $0.34 per share, for the third quarter of 1990 in

comparison to a loss of $1.5 million, $0.29 per share, for the same period a year ago. For the nine months, operating income improved to $5.3 million, $0.99 per share, in comparison to $3.5 million, $0.66 per share, in 1989. Net realized capital losses, net of tax, for the 1990 third quarter and nine months, were $0.50 and $0.44 per share, respectively. This compares to net realized capital gains, net of tax, for the 1989 third quarter and nine months of $0.46 and $0.76 per share, respectively.

-- RECO's combined ratio of 115.2 percent in the third quarter was an improvement over the same period of a year ago when significant record-setting catastrophe losses were incurred. For the nine months, the combined ratio was 119.6 percent, virtually unchanged from a year ago.

-- Pre-tax net investment income for the nine months, $18.6 million, was also unchanged from the same period in 1989, although for the quarter pre-tax net investment income was $5.5 million, a 19.4 percent decrease compared to 1989. The combination of an $800,000 foreign exchange loss in RECO's U.K. portfolio of investments and negative cash flow from underwriting operations were the main reasons for the decline in comparison to a year ago.

-- Investment advisory pre-tax operating income lags the results of the third quarter and nine months of 1989. Although management fee revenues are up 5.5 percent in the quarter and 7.5 percent for the nine months, these increases are behind the 1990 forecast. The shortfall in operating income has been caused by a combined lack of growth in new investment counseling business, a depreciation in mutual fund asset values brought on by the recent turbulence in the capital markets, and an increase in operating costs.

-- Consolidated assets were $427.3 million on Sept. 30, 1990, and stockholders' equity was $104.5 million. Book value per share was $19.70 as of Sept. 30, 1990, down from $21.00 at the end of 1989.

Piedmont Management Company Inc. is a financial services company whose principal subsidiaries include The Reinsurance Corporation of New York (RECO), a property and casualty reinsurer, and Lexington Management Corporation, an investment advisory and mutual fund distribution company.

#90312p4894 11/08/1990 ~PR Newswire
CLIFTON, NJ (NOV. 8) PR NEWSWIRE - Stan Roth, president of Panorama Press, Inc. has announced the acquisition of Beechwood Press, Inc., a 50-year old printing firm in Union City, N.J., owned by Henry and Jules Westphalen.

"The merger of our two sheetfed printing plants will increase overall sales by 25 percent and provide for the addition of an electronic pre-press department to our commercial operation. This should position Panorama for solid future growth," said Roth.

"Beechwood will retain its valued name and clientele, becoming a division of Panorama," he continued. "It will join our three other divisions, FGI Doerfler which services major airlines and cruise lines with a total menu management system; Catalog King, producers of catalogs and catalog sheets; and Panoscent, which prints and packages scented premiums and department store inserts."

Henry Westphalen Jr., president of Beechwood Press, will also hold the title of vice president of Panorama. "We are very pleased to be associated with a

high quality, upscale firm like Panorama. Our clients will benefit from its state-of-the-art technology, its two six-color, four-color and two-color presses, and the fact that it runs two full shifts," he stated.

In addition to its commercial printing business, Beechwood Press has served major league franchises for the past 15 years as producers of sports programs and media guides. Clients include the New Jersey Devils, New York Islanders, New York Jets, New York Mets and the Baseball Writers of America.

Henry (Hank) Westphalen is well-known in the metropolitan area for his involvement in Association work. He was on the board of the Printing Industries of Metropolitan New York (now Association for the Graphic Arts) where he was President of the Master Printers Section. He is a past president and chairman of Print/New Jersey and received the 1990 Leo H. Joachim Award from the New York Printing House Craftsmen's Club for his outstanding contributions to the industry.

Other top members of the Beechwood organization to move to Panorama are Jules Westphalen, vice president of sales; Rolf Schuetz, art director; and Susan Westphalen, systems manager, who represents the third generation of the family. Beechwood was founded by her grandfather, Henry Sr., who was a graphic designer and landscape painter.

Panorama Press, founded 32 years ago, was located in Manhattan until 1988. Stan Roth has taken the company from a one-man shop into a streamlined corporate structure with a new management team and a sophisticated marketing approach to sales development. With a concentration in niche markets, Panorama has increased sales by 30 percent over the past three years.

Among its clients are the Metropolitan Museum of Art, American Airlines, Lippincott & Marqulies, the Prudential Bache Corporation and Mutual of America.

#90312p4895 11/08/1990 ~PR Newswire

TROY, MI (NOV. 8) PR NEWSWIRE - Acustar, Inc. today announced it is expending in excess of $12 million in an expansion at its Rantoul (Ill.) Plant.

The Rantoul Products Plant is a major injection molding facility which produces automotive interior parts including instrument panels and door trim panels, as well as heating, ventilation, and air conditioning assemblies.

The expansion will add 60,000 square feet of new manufacturing space. Four new 3,000-ton injection molding presses and support equipment are a part of the initial expansion plan.

Acustar said new work the Rantoul Plant has received, including components for Chrysler's totally new "ZJ" sports utility vehicle, will help to maintain current hourly employment levels. The plant currently employs about 450 hourly people.

Construction on the new manufacturing space will start immediately, with work scheduled to be completed by the summer of 1991. The Rantoul Plant is a 113,000-square-foot facility built in 1984. The operation was acquired by Chrysler Corporation (NYSE: C) in August 1987.

Acustar operates 25 major manufacturing facilities in North America with more than 25,000 employees. The company consists of six divisions, including Automotive Glass, Chassis and Thermal Products, Electrical Systems, Electronics, Plastic and Modular Products, and Soft Trim. Acustar is one of the world's largest manufacturers of automotive component and integrated systems posting more than $3.5 billion in sales in 1989.

PARIS (NOV. 8) PR NEWSWIRE - The governing committee of InterBold(TM), the automated teller machine (ATM) and self-service banking systems joint venture between Diebold, Incorporated (NYSE: DBD) and International Business Machines Corporation (NYSE: IBM), made several announcements today during its first meeting.

According to InterBold Chief Executive Officer Robert P. Barone, the governing commitee made product announcements that underscore InterBold's commitment to integrating self-service systems with branch automation systems. They announced the first ATMs available from any worldwide vendor that: function in the OS/2 operating system environment; can be fully integrated with an IBM Consumer Transaction- generated branch transaction system that supports DOS and OS/2; and connect via the IBM Token Ring local area network.

InterBold offers a full complement of products, from low-end, cash-dispensing equipment to high-end, full-function ATMs. In the United States, InterBold markets the full product line with assistance from Diebold, which also provides service, and IBM. Outside the United States, IBM markets and services the combined product line.

Members of the InterBold governing committee are Barone; William T. Blair, Diebold vice president and general manager, Diebold North American sales and service; Robert J. Warren, Diebold vice president and treasurer; John P. Cunningham, IBM directeur general des plans and des services techniques, World Trade E/ME/A; and Robert M. Stephenson, IBM vice president and assistant general manager, finance and planning, IBM U.S.

InterBold is the automated teller machine joint venture between Diebold and IBM companies. Headquartered in North Canton, Ohio, InterBold develops and markets ATMs and advanced self-service terminals and systems for the current and future needs of the financial services industry.

MOUNTAIN VIEW, CA (NOV. 8) PR NEWSWIRE - Silicon Graphics Inc. (NYSE: SGI) today announced it has appointed CDB Computadores S.A. as its distrubutor in Brazil. This marks Silicon Graphics' first local presence in the Latin American marketplace. CDB will distribute the company's entire line of IRIS 4D(TM) workstations and servers.

"The CAD/CAM, geosciences and animation markets in Brazil represent a tremendous opportunity for Silicon Graphics," said Robert R. Bishop, president of Silicon Graphics International. "The CDB relationship strengthens our presence in Brazil and reflects the growing opportunity of the Latin American scientific and technical markets. We are pleased to have CDB as our distributor."

Manoel Carmona, president of CDB said, "We are excited by the opportunity to bring the world's leading-edge 3D computer graphics technology to the fast growing Brazilian market. Through Silicon Graphics' Geometry Partners(TM) applications development program and other software vendor relationships, close to 1,000 applications currently run on Silicon Graphics' systems. We look forward to providing customers with such a wide range of high-quality solutions."

The two companies will work jointly on pre-sales and after-sales support, as well as organizing high-quality customer training, maintenance and technical services. The agreement is effective immediately.

Silicon Graphics Inc. is the leading manufacturer of high performance graphics systems, servers and software for visual processing applications. The company's products, which range from advanced project supercomputers to low-end desktop models and PC graphics subsystems, are used by engineers, scientists and creative professionals in design, analysis, manufacturing and simulation.

CDB Computadores S.A. has its principal offices in Sao Paulo and Rio de Janeiro, with additional service centers in Belo Horizonte and Sao Jose do Campos. CDB currently has over 130 personnel consisting primarily of engineers dedicated to sales, technical support and maintenance of workstations, mainframes and microcomputer systems.

CONTACT: Jill Grossman of Silicon Graphics, 415-335-1516; or Jose Adilson de Carvalho of CDB Computadores S.A., 011-55-11-256-1411.

NEW YORK (NOV. 8) PR NEWSWIRE - Designer Bill Ditfort, fashion executive Edward Jones III, and Mitsubishi International Corporation, a general trading company with headquarters in New York, announced today the establishment of two joint ventures.

One is Design Process Inc. (DPI), which will develop image and licensing strategies for manufacturers and retailers worldwide. The company will develop brands and trademarks, including "Desert Designs," for production in a textiles, garments, home furnishings, accessories, etc.

The other joint venture is DPI Marketing Inc. (DPIM), which will manufacture and market men's sportswear through three divisions:

1. "Desert Designs" (under license from DPI)
2. a. "Bill Ditfort" and
   b. "Snoopy and Friends by Bill Ditfort"
3. "Private Product Development"

"Desert Designs" is a fine art concept based on the laws of nature. The inspiration originates from the art of famous Australian aboriginal artist Jimmy Pike and other artists from the "Great Sandy Desert." The Desert Designs Division will manufacture and market men's sportswear for the United States and Canada.

Ditfort, through his 10-year-old company Bill Ditfort Designs Inc., has been marketing men's sportswear collections under the label "Bill Ditfort", and a line of sweaters and knit shirts under the label "Snoopy and Friends by Bill Ditfort". The two labels will now be handled by DPI Marketing Inc.

A private product development division will design and manufacture items for both manufacturers and retailers.

Mitsubishi International Corporation, with 20 offices located throughout the United States, ranks among the 10 largest exporters of American goods to the world marketplace. Handling more than 25,000 items from raw materials to highly sophisticated advanced electronics, the company, a wholly owned subsidiary of the Mitsubishi Corporation of Japan, registers some $14 billion in trade transactions annually.

#90312p4903 11/08/1990 ~PR Newswire

NEW HYDE PARK, NY (NOV. 8) PR NEWSWIRE - Bamberger Polymers, Inc. (AMEX: BPI) announced stronger than anticipated results for the three months and nine months ended September 1990.

Sales figures for the third quarter ended Sept. 30, 1990, and for the first nine months of 1990 were up over the same periods in 1989. The company also noted that its operations returned to profitability in the month of September. Profitable operations continued through the month of October.

The company's increased sales reflect the strong growth Bamberger has experienced in its international and export business. Fred Garcia, the company's president, stated that "our domestic business was adversely effected during this third quarter due to the simultaneous departure of certain sales personnel.

"However, our international and export divisions responded to return the company to profitability in the month of September. Due to our strength in the international marketplace, we feel optimistic about the balance of the year."

Sales for the third quarter ended Sept. 30, 1990, were $52,800,000; compared to $38,305,000 for the third quarter in 1989. The loss from continuing operations for the period ended Sept. 30, 1990, was $125,000, or $.04 per share, compared to a loss of $14,000 for the same period in 1989. Discontinued operations accounted for a loss of $99,000 or $.03 per share in 1990, compared to income of $173,000 or $.05 per share in 1989.

Bamberger's sales for the nine months ended Sept. 30, 1990 totaled $141,377,000, compared to $135,814,000 in 1989. The company had a loss for nine months from continuing operations in 1990 of $352,000, or $.11 per share compared to a loss of $1,254,000, or $.38 per share in 1989.

Discontinued operations during the first nine months of 1990 resulted in a loss of $82,000 or $.03 per share, compared to income from discontinued operations of $562,000 or $.17 per share for the same period in 1989.

Bamberger Polymers is an international plastics merchant involved in compounding, distribution, and sales of thermoplastic resins, the raw materials for a broad range of plastic products.

PORTLAND, ORE (NOV. 8) PR NEWSWIRE - The $4.7 million financing announced by Bioject (NASDAQ: BJCTF) in August closed today in New York City, announced Bioject's president and chief executive officer, Carl E. Wilcox.

The financing involves the purchase of 1,175,000 shares of common stock at $4.00 per share by 11 unaffiliated European institutional investors. Each share is accompanied by one-half of a warrant. Each full warrant grants the holder the right to purchase an additional share at $5.25 per share for two years.

The proceeds of this financing will be used to expand production and launch of the Biojector(R). Bioject intends to have its national sales and distribution network in place and operating by April 1991.

Bioject Inc. is a Portland, Ore.-based company specializing in new drug delivery systems. The company develops, manufactures and markets needleless syringes for widespread use in the healthcare industry.

BURLINGTON, NC (NOV. 8) PR NEWSWIRE - Environmental Diagnostics, Inc. (NASDAQ: EDITD) announced today that it has submitted its recently developed EZ-SCREEN: BARBITURATES test to the U.S. Food and Drug Administration for pre-market clearance.

The Company also announced that the new test for the detection of barbiturates in human urine samples has been launched, on a limited basis, pending FDA pre-market clearance, for forensic use to law enforcement agencies in the United States.

James D. Skinner, EDI President and Chief Executive Officer, said "The availability of the EZ-SCREEN: BARBITURATES test represents another major milestone in our comprehensive product offering for substance abuse detection. This new test complements EZ-SCREEN tests for the urinary metabolites of marijuana, crack/cocaine, and opiates (heroin). The major business opportunity for EZ-SCREEN substance abuse tests is with law enforcement agencies. However following clearance by the FDA, EDI will be marketing the EZ-SCREEN BARBITURATES test to our full range of customers."

Environmental Diagnostics, Inc. develops and manufactures human clinical diagnostics, agricultural diagnostics and substance abuse diagnostic products specifically designed for on-site testing by non-technical personnel. The Company's EZ-SCREEN products provide accuracy comparable to laboratory results easily and rapidly in a matter of a few minutes.

#90312p4912 11/08/1990 ~PR Newswire

NEW YORK, (NOV. 8) PR NEWSWIRE - Bear, Stearns & Co. Inc. announced today that it will shortly commence trading in foreign equities derivative products. These will include such securities as French franc, Swiss franc, Deutsch mark and Australian denominated warrants and convertible bonds. The firm has hired Barry Collins, who managed James Capel's (U.K.) derivative products and convertible securities department for 22 years and four experienced foreign stock traders to provide this capability.

"This new effort is a natural offshoot of our convertible and international equities sales and trading effort," stated Alan C. Greenberg, chairman and chief executive officer of The Bear Stearns Companies. "We believe that global equities will play an important role in our business in the 1990s."

Joining Bear Stearns' Devonshire Square offices in London with Barry Collins are Gary Jones, a senior trader and Louisa Redman, a trader. Joining Bear Stearns' New York equities department are Elizabeth Regan, a senior sales person and Nancy May, a sales person. All were formerly with James Capel and joined the firm on Oct. 24, 1990.

The Foreign Equities Derivative Products effort is a joint undertaking by the International and Convertible Departments of Bear Stearns. David A. Liebowitz and S. William Gersten are the senior managing directors responsible for convertible securities and John H. Slade, James Sheehan and Dennis A. Baum are the senior managing directors responsible for the firm's international equities effort.

Bear, Stearns & Co. Inc., a wholly owned subsidiary of The Bear Stearns Companies Inc. (NYSE: BSC) is a leading investment banking and brokerage firm headquartered in New York City. The company is engaged in corporate finance, mergers and acquisitions, institutional equities, fixed income sales and trading, individual investor services, asset management and corresponding clearing. With total capital, including long-term and subordinated debt, of over $1.4 billion, the company has approximately 5,550 employees located in 13 offices worldwide.

#90312p4918 11/08/1990 ~PR Newswire

WEST LONG BRANCH, NJ (NOV. 8) PR NEWSWIRE - A one-time charge related to a restructuring of its Simulation Computers business, coupled with a doubling of earnings from operations, was announced today by Electronic Associates, Inc. (NYSE: EA). The company also announced authorization by its board of directors to purchase up to 200,000 shares of EAI common stock on the open market in the period ending Dec. 31, 1991, subject to market conditions.

For the three months ended Sept. 30, 1990, EAI reported a net loss of $722,000 after a write-off of assets and other expense resulting from a decision to de-emphasize the simulation products portion of the Simulation Computers business. Without the write-off, EAI would have reported net income of $227,000 or $.08 per share, compared with $108,000 or $.04 per share in the same quarter a year ago. Sales rose slightly and orders climbed 112 percent in the 1990 quarter versus year- earlier figures.

The simulation products portion of the Simulation Computers business does not include the VISIDAQ(TM) line of video strip chart recorders or engineering services. "EAI will continue to provide support for existing simulation products in the field," said Robert G. Finney, president and chief executive officer, "and supply our customer base with existing products, expansions and parts." EAI will also redirect the engineering capability now in Simulation Computers and add technical services to the company's service business offerings to industry and government, he said.

Regarding the authorization to purchase EAI shares on the open market, Finney stated, "The board believes that EAI stock is an attractive investment for the company at current price levels." The board authorized an aggregate price for the stock purchases not to exceed $500,000. Purchases are expected to be paid for out of operating cash flow, said Finney.

Third quarter revenues of EAI amounted to $10,457,000 in 1990 compared with $10,410,000 last year. For the nine months ended Sept. 30, EAI reported net income of $300,000 or $.10 per share on revenues of $29,144,000 in 1990 versus net income of $452,000 or $.16 per share on revenues of $32,381,000 in 1989.

The company's service businesses, contract manufacturing and field service, continued to grow strongly in 1990. Sales, orders and backlogs in both business areas all were substantially greater this year than last, Finney said.

Electronic Associates, Inc. is based in West Long Branch, N.J. In contract manufacturing, EAI provides manufacturing services for products designed and marketed by customers. In field service, the company provides independent maintenance of electronic equipment.

#90312p4920 11/08/1990 ~PR Newswire

DALLAS, (NOV. 8) PR NEWSWIRE - Edisto Resources Corp. (AMEX: EDS) today announced net income of $424,000, or a 3 cents per share loss after preferred dividends, on revenues of $53 million for the third quarter of 1990, versus a net loss of $6.9 million, or a 71 cent per share loss after preferred dividends, on revenues of $13.8 million for the same quarter of the previous year. Revenues for the current quarter include $35.1 million from approximately two months of gas marketing and transportation activities related to the July 1990 acquisition by Edisto of ESCO Energy Inc. After deducting a gain of $7 million attributable to the redermination of Edisto's interest in Hall- Houston Offshore, net cash used by operations was $1 million for the third quarter ended Sept. 30, 1990. For the third quarter of the previous year, net cash used by operations was $7.6 million.

Net income for the nine months ended Sept. 30, 1990 was $0.9 million, or a 16 cent per share loss after preferred dividends, on revenues of $86.2 million, compared with a net loss of $43.7 million, or a $4.03 per share loss after preferred dividends, on revenues of $45.1 million for the nine months ended Sept. 30, 1989. Net loss for the prior year nine-month period includes a $22 million noncash charge to earnings resulting from property sales. Excluding a gain of $21.2 million attributable to the redetermination of interest in Hall-Houston Offshore, net cash provided by operations for the nine months ended Sept. 30, 1990, was $18.6 million. Net cash provided by operations was $0.2 million the same nine-month period in 1989.

Higher oil prices and increased production volumes contributed to the increase in revenues and compensated for lower natural gas prices. General and administrative costs increased over 1989, primarily a reflection of the two-month consolidation of ESCO's operations into Edisto. Depreciation, depletion and abandonment and exploration costs decreased for the three-month period ended Sept. 30, 1990 because of an adjustment in accounting estimates but increased for the nine-month period because of increased drilling activity. Interest expense decreased for the current nine-month period when compared with the same period of the previous year because of a lower effective interest rate on long-term debt.

James R. McNab Jr., Chairman, stated that operating results to date demonstrate that Edisto's fundamental strategies are working. "From the first to the third quarter of 1990, natural gas production rates increased 27 percent," he commented. "We should continue to show production rate increases in the fourth quarter while enjoying higher natural gas prices. Prices contracted to be paid for November spot deliveries increased on an average of 40 cents to 50 cents per Mcf from the previous month and or up 25 cents per

Mcf from November 1989."

McNab also reported that the consolidated operations of ESCO were reflected in Edisto's operating results this quarter. "The continued expansion of the transportation and marketing capabilities of ESCO and its wholly owned subsidiaries has favorably affected Edisto's operations to date and will continue to provide momentum for growth in the 90s."

Edisto Resources Corp.'s consolidated activities include the production, exploration and development of oil and gas reserves and natural gas marketing and transportation activities.

CONTACT: Rhonda L. Wright, 214-880-0243; or Margaret C. Bell, 214-880-9341; both of Edisto Resources Corp.

#90312p4923 11/08/1990 ~PR Newswire

WHEELING, W. VA. (NOV. 8) PR NEWSWIRE - In a joint statement, Wheeling-Pittsburgh Steel Corp. (NYSE: QWHX) and Nisshin Steel Company Ltd. of Japan, announced today that accord was reached with respect to an investment project to construct a second coating line at Wheeling-Nisshin Inc.

The parties are now in the process of finalizing the agreement. The decision to go forward with the project, which contemplates the construction of a new continuous galvanizing line, was spurred by the performance of the existing aluminizing and galvanizing line, which is operating at full capacity, and the projected growth in demand for coated steel sheets.

The new line will enable Wheeling-Nisshin to better respond to such growth through expanded product lines and a more stable supply to customers attributable to a two-line operation.

The new facility will be geared to produce light-gauge quality coated sheets to be supplied primarily to the building and construction industries.

The plant will have an annual rated production capacity of 240,000 net tons and will be capable of coating sheets 0.008 inch through 0.038 inch in thickness and 24 inches through 48 inches in width.

The total estimated cost is $120 million. Start-up is scheduled for the second quarter of 1993.

The project is subject to the approval of bankruptcy court because Wheeling-Pittsburgh Steel is still a debtor-in-possession. According to company sources, Wheeling-Pittsburgh will probably emerge from the Chapter 11 proceedings by the end of 1990.

REDMOND, WASH. (NOV. 8) PR NEWSWIRE - Bio Techniques Laboratories Inc. announced today a joint venture with Liquid Systems Inc. for the manufacture and installation of specialized dispensing equipment for Cobactin(R), a patented microbial feed additive for feedlot cattle manufactured by Bio Techniques Laboratories Inc.

"We're please to be working with Liquid Systems," said William D. St. John, president of Bio Techniques. "Their excellent reputation for equipment, reliability and service will further insure that our customers receive viable and accurate application of Cobactin on a daily basis." Liquid Systems has installed over 300 comparable units in poultry operations over the past four years. "Their experience and high reputation for reliability and service will be invaluable to this effort," said St. John.

Bio Techniques Laboratories Inc., founded in 1983, researches, develops and markets advanced products for the agricultural industry, reports increasing demand for Cobactin. The product is currently in use on over 15 percent of the largest feedlots in the United States.

#90312p4930 11/08/1990 ~PR Newswire

FORT LAUDERDALE, FL (NOV. 8) PR NEWSWIRE - BankAtlantic (NASDAQ-NMS: ASAL) today reported a second consecutive quarter of positive earnings with net income of $148,000, or $0.04 per share, for the three months ended Sept. 30, 1990, compared to a net loss of $898,000; or $0.29 per share, for the same period of 1989. Earnings for the quarter ended June 30, 1990, were $138,000, or $0.04 per share.

For the nine-month period ended Sept. 30, 1990, BankAtlantic posted a net loss of $699,000, or $0.19 per share, vs. a net loss of $728,000, or $0.24 per share, for the comparable period of 1989. Operating results for 1989 included extraordinary gains of $2.3 million, or $0.75 per share.

At Sept. 30, 1990, total assets were $1.85 billion, compared to $1.89 billion at Dec. 31, 1989. Net loans stood at $1.07 billion at Sept. 30, 1990 vs. $1.12 billion at year end 1989; deposits were $1.39 billion at the close of the third quarter of 1990, compared to $1.43 billion at Dec. 31, 1989; and stockholders' equity increased to $59.78 million at Sept. 30, 1990, vs. $57.98 million at year end 1989.

Net interest income after provision for loan losses increased to $10.61 million for the quarter ended Sept. 30, 1990, vs. $9.29 million for the same period of 1989, even though total interest income decreased to $45.22 million for the quarter ended Sept. 30, 1990, compared to $48.59 million for the same quarter a year earlier.

Non-interest income was $3.56 million for the quarter ended Sept. 30, 1990, compared to $3.14 million for the comparable period of 1989. Non-interest expenses for the quarter ended Sept. 30, 1990 decreased to $13.75 million, vs. $14.04 million for the same period of 1989.

"We view the current earnings environment with caution," stated Alan B. Levan, chairman of BankAtlantic. "We have completed two consecutive quarters of positive earnings, and we are pleased with our progress toward increased stability and profitablity.

"However, our outlook is tempered by the possible effects on BankAtlantic of the continued slowing South Florida economy, which is expected to affect banking conditions into the fourth quarter and beyond."

At Sept. 30, 1990, BankAtlantic exceeded all current capital requirements set by the Financial Institutions Reform, Recovery and Enforcement Act (FIRREA). Tangible capital was more than double the 1.5 percent required, and stood at 3.10 percent of assets.

NEW BRITAIN, CONN. (NOV. 8) PR NEWSWIRE - Moore Medical Corp. (AMEX: MMD), a national wholesale distributor of brand name and generic pharmaceuticals and medical and surgical supplies, today reported results for the third quarter of 1990. Sales of $79,309,000 were 16 percent greater than the third quarter of last year. Net income was $196,000 (7 cents per share) for the quarter compared with $330,000 (12 cents per share) in the third quarter a year ago.

Commenting on the quarter, Mark E. Karp, president and chief operating officer noted, "We continue to be pleased with the strong sales growth coming from our geographic expansion program. Operating income was slightly better than during last year's third quarter, although the gross margin percentage on brand name pharmaceuticals has been low. Quarterly results included pre-tax profits of $472,000 (11 cents per share) from latex examination glove proceeds which have been more favorable than were expected when loss provisions were estimated last year. Largely offsetting this was a pre-tax loss at West-ward of $453,000 (10 cents per share) for the quarter. Although no decision has

yet been made, we are considering various alternatives regarding our investment in West-ward, including the sale of the entire business."

MINNEAPOLIS, (NOV. 8) PR NEWSWIRE - Piper Jaffray Incorporated (NASDAQ: PIPR) parent company of the Minneapolis-based investment firm Piper, Jaffray & Hopwood Incorporated, today declared its regular semi-annual dividend of $.10 per share on its common stock, payable Dec. 18, 1990, to shareholders of record on Dec. 4, 1990. Consistent with the company's historical dividend policy, Piper Jaffray also declared a special dividend of $.60 per share, payable Jan. 9, 1991, to shareholders of record on Dec. 26, 1990. The announcement was made following a regular meeting of the firm's board of directors in Minneapolis.

In addition, the board authorized the repurchase of 100,000 shares of common stock on the open market. Shares purchased will be used to satisfy the company's obligations to present and future employee benefit plans. "Given the present market price of Piper Jaffray common stock, a repurchase is a good investment and is in the best interest of the company and its shareholders," stated Addison L. Piper, chairman of the board and chief executive officer. Piper Jaffray has 4.1 million shares of common stock outstanding.

Piper, Jaffray & Hopwood Incorporated is a full-service investment firm with 64 offices in 16 Midwest, Mountain and Pacific Northwest states, with institutional sales offices in Minneapolis, New York, Seattle, Portland, Los

Angeles, Denver, Boston and London. Founded in 1895, the firm is a member of the New York Stock Exchange and other major stock, futures and options exchanges. Affiliates include Piper Capital Management, an asset management company with more than $3 billion under management, and Piper Jaffray Trust Company.

NEW YORK (NOV. 8) PR NEWSWIRE - Chock full o' Nuts Corporation (NYSE: CHF) today announced the appointment of Robert D. San Filippo as vice president-trade relations and Gary Fischer as vice president- commodity group.

San Filippo is a 30-year veteran of the coffee industry, having served as general sales manager and executive vice president for United Instant Coffee and then as vice president of sales for Greenwich Mills Company. After the acquisition of Greenwich Mills by Chock, he was named president of the private label division. He has been active in both coffee and tea trade associations, having served most recently as director of The National Tea Council.

Fischer has been with Greenwich Mills since 1968. After active military service he joined a Brazilian export company (partially owned by Greenwich Mills at the time) as export manager for one year. From 1972 until now he was vice president of purchasing for Greenwich Mills. He is a past president of the New York Coffee Roasters Association and The Green Coffee Association of New York City. He is a past director of the National Coffee Association and is currently a director of The Tea Association of U.S.A.

Chock full o' Nuts Corporation roasts, packs and markets regular, instant and decaffeinated coffees under the Chock full o' Nuts label. Its best known coffee product is its premium, vacuum packed, all-method grind coffee. The company is also one of the largest marketers of food service and private label coffee, tea and beverage products, as well as the number one supplier of in the shell peanuts in the United States.

KANSAS CITY, MO. (NOV. 8) PR NEWSWIRE - SAZTEC International Inc. (NASDAQ: SAZZ), today announced the resignation of its Chairman and Chief Executive Officer Thomas L. Reed. An agreement in principle has been reached whereby Reed will receive certain assets and lines of business from SAZTEC in exchange for 950,000 shares of common stock of SAZTEC, representing 23 percent of

SAZTEC's outstanding shares, owned by Reed. The lines of business to be acquired by Reed include information management services for litigation support, telephone directory and hospital markets in the United States.

In order to carry out the transaction, SAZTEC will transfer the assets and lines of business to a new subsidiary, and all of the shares of the subsidiary will then be exchanged for the SAZTEC shares beneficially-owned by Reed through a family trust. After the transaction, Reed will continue to benefically-own 318,532 shares of SAZTEC.

The transaction was negotiated on behalf of SAZTEC by a committee of outside directors and is subject to certain conditions including obtaining an opinion of independent investment bankers with respect to the fairness of the transaction.

In making the announcement, Gary N. Abernathy, vice chairman and chief international officer of SAZTEC, said, "Tom has done an outstanding job of building SAZTEC for more than 10 years. His strong entrepreneurial ability and experience will serve him well in his new endeavor. We wish him every success and look forward to possible cooperative projects in the future."

Reed said, "I'm looking forward to the challenges of starting a new business again and I have the confidence, funding and experience to make my new venture a success."

The CEO responsibilities of SAZTEC will be assumed by a three-person office of the chief executive comprised of Robert P. Dunne, newly elected chairman of the board; Richard C. Thompson, president and chief operating officer; and Abernathy. Dunne currently is a director and major stockholder of SAZTEC and also has served as executive vice president of corporate development. Abernathy and Thompson continue in their current roles.

SAZTEC International is traded in the over-the-counter market and is quoted on NASDAQ under the symbol SAZZ. For more information, please contact Gary N. Abernathy, vice chairman and chief international officer, SAZTEC International Inc., 6700 Corporate Drive, Kansas City, MO 64120.

MIAMI (NOV. 8) PR NEWSWIRE - Neolens, Inc. (NASDAQ: NEOL), a Miami-based polycarbonate lens manufacturer, today announced that the company was awarded a long-term contract to become the primary supplier of polycarbonate lenses to National Vision Associates (NVA). NVA has been selected as national concessionaire by a giant, general merchandise retailer to open and operate a series of leased optical centers. NVA's first leased optical centers is

expected to open next month with rapid expansion thereafter, throughout the country.

NVA's selection of Neolens signifies the accelerating use of polycarbonate in lenses and represents a marked departure from conventional usage of CR-39(R) material. Polycarbonate offers significant advantages to the consumer, which include a lens which is lighter and thinner, with greater impact resistance. Currently, CR-39 lenses represent approximately 80 percent of the (domestic) market. The ophthalmic lens business is a $12 billion annual consumer market.

In anticipation of this growth, Neolens has pioneered development of a patented injection molding system which has allowed the company to manufacture polycarbonate lenses at a highly competitive price. Previous to the full development of the Neolens manufacturing process, polycarbonate was considered to be an expensive alternative to CR-39, although possessing significant consumer benefits.

Estimated revenues for the fourth quarter, ended Oct. 31, 1990, were $425,000 compared to $140,000 for the same period last year. For the 12 months ended Oct. 31, 1990, estimated revenue increased 188 percent to $1.1 million from sales of $382,000 recorded in fiscal 1989.

LANDOVER, MD. (NOV. 8) PR NEWSWIRE - Herbert H. Haft, chairman of Dart Group Corporation (NASDAQ: DARTA), today announced sales increased 18.8 percent and 17.3 percent for the three months and nine months ended Oct. 31, 1990, respectively.

Sales for the three months and nine months ended Oct. 31, 1990, increased to $261,475,000 from $220,075,000 and to $747 million from $636,829,000, respectively. The increase in Dart's sales resulted primarily from the increase in the number of stores for Shoppers Food Warehouse, Crown Books and Trak Auto (all subsidiaries of Dart Group). Additionally, increases were attributable to 7.5 percent and 7.1 percent increases in sales for the three months and nine months ended Oct. 31, 1990, for stores open more than one year.

Dart owns approximately 54 percent of Crown Books, 69 percent of Trak Auto, 50 percent of Shoppers Warehouse and 100 percent of Dart Group Financial and Cabot-Morgan Real Estate Corp.

Shoppers Food Warehouse operates 23 stores in the Washington metropolitan area. Crown operates 259 book stores in the Washington, D.C. area, California, Houston, Chicago and Seattle. Trak Auto operates 330 stores in the Washington, Baltimore, Richmond, Va., Chicago, Los Angeles and San Diego

metropolitan areas. During the period ended Oct. 31, 1990, Shoppers Food Warehouse, Crown Books and Trak Auto opened a total of 32 net new stores. Cabot-Morgan operates shopping centers in the Washington metropolitan area.

#90312p4947 11/08/1990 ~PR Newswire

SAN RAFAEL, CALIF. (NOV. 8) PR NEWSWIRE - Fair, Isaac and Co. Inc. (NASDAQ: FICI) reported net income of $989,000 (17 cents per share) for the fourth quarter of its fiscal year which ended Sept. 30, a gain of 36 percent over the $729,000 (13 cents per share) earned in the same period a year ago. Operating income for the quarter was up 53 percent over the September 1989 quarter on record revenues of $7.4 million.

Despite the strong fourth quarter, fiscal 1990 net income of $1,566,000 (28 cents per share) declined 20 percent in comparison with 1989 earnings of $1,967,000 (34 cents per share). The decrease was due to operating losses and a write-off of capitalized software development expenses during the first quarter of fiscal 1990. Since then, the company has reported steadily improving quarterly results.

Fiscal 1990 revenues of $25.5 million were up 10 percent compared with year-ago figures. Fourth quarter revenues also rose 10 percent relative to the same period last year.

Net income of $989,000 for the fourth quarter of 1990 compared with earnings of $729,000 in the same period last year and $558,000 in this year's third quarter.

Fair, Isaac President, CEO and Chairman William R. Fair said the improvement in the company's results over the past nine months reflected "increased market acceptance of the company's Adaptive Control credit management technology; growing revenue streams from scoring services delivered through credit bureaus; and improvements in production capacity and efficiency."

Specifically, Fair noted the gradual turnaround in two product groups -- automated credit application processing (ASAP) and analytic products (scorecards) -- that had experienced production problems and sluggish sales in prior periods. In the latter area, production efficiencies have permitted the company to recapture market share it had been slowly losing to lower-priced competitors, according to Fair. The mainframe ASAP group, meanwhile, has been reorganized under new leadership. Fair described its prospects for fiscal 1991 as "very promising." THe company will soon begin marketing two new, PC-based application processing software products, Fair added.

Established in 1956, Fair, Isaac is a pioneer and world leader in the development of rule-based control systems, products, and services for the retail credit industry. It also produces control systems for utilities and insurance underwriters.

BURBANK, CA (NOV. 8) PR NEWSWIRE - The Walt Disney Company (NYSE: DIS) today reported record-level revenues and income for the fiscal year ended Sept. 30, 1990.

For the fourth quarter, revenues rose to $1,712,266,000, a 27 percent increase from $1,345,263,000 for the comparable prior year period. Net income increased 9 percent to $232,662,000 from $212,704,000 in the prior year. Earnings per share increased to $1.72 per share compared to $1.54 per share reported a year ago.

For the fiscal year, revenues climbed to $5,843,689,000, a 27 percent increase from $4,594,316,000 for the prior year period. Net income increased 17 percent to $824,005,000 from $703,306,000 in the prior year. Earnings per share increased to $6.00 per share compared to $5.10 per share reported a year ago.

Operating income climbed 6 percent to $397,005,000 compared to $373,066,000 for the quarter and 16 percent to $1,425,509,000 from $1,228,952,000 for the fiscal year.

Revenues for Theme Parks and Resorts rose 7 percent to $831,788,000 for the quarter compared to $775,780,000 in the prior year. Operating income increased 1 percent for the quarter to $242,294,000 compared to $240,877,000 a year ago. For the fiscal year, revenues rose 16 percent to $3,019,569,000 from $2,595,369,000 and operating income increased 13 percent to $889,306,000 from $785,350,000.

Attendance at theme parks was strong for the fiscal year. Park operations were impacted by weakening tourism in the fourth quarter. Higher per capita spending at all theme parks and benefit from the company's 49 percent investment in Euro Disneyland S.C.A. also positively influenced fourth quarter and fiscal year operating performance.

Revenues for Filmed Entertainment rose 56 percent to $722,020,000 for the quarter compared to $462,174,000 in the prior year. Operating income increased 22 percent for the quarter to $104,646,000 compared to $85,879,000 a year ago. For the fiscal year, revenues rose 42 percent to $2,250,343,000 from $1,587,604,000 and operating income increased 22 percent to $313,000,000 from $256,530,000.

Revenues for consumer products rose 48 percent to $158,458,000 for the quarter compared to $107,309,000 in the prior year. Operating income increased 8 percent for the quarter to $50,065,000 compared to $46,310,000 in the prior year. For the fiscal year, revenues rose 39 percent to $573,777,000 from $411,343,000 and operating income increased 19 percent to $223,203,000 from $187,072,000.

PALO ALTO, CALIF (NOV. 8) PR NEWSWIRE - Coherent Inc. (NASDAQ: COHR) today announced its results for the fourth quarter and year ended Sept. 29, 1990. Sales decreased approximately 3 percent and 5 percent respectively from the corresponding prior year periods primarily due to lower Industrial sales.

Pretax results, while not appreciably different than recent estimates, were considerably below prior periods' results because of lower sales and lower gross profit percentages. Gross profit decreased as a percentage of sales from 42 percent in both the corresponding prior year periods, to 39 percent and 40 percent for the fourth quarter and year ended Sept. 29, 1990, respectively. Other factors affecting pretax income for the current quarter and fiscal year included a $600,000 write down of patents, lower royalties received from the company's joint venture in Japan and the expiration in fiscal 1989 of a licensing agreement with GCA. Additionally, fiscal 1989 included gains of $2.0 million from licensing fees and approximately $1.0

million attributable to the sale of the company's European YAG marker and trimmer business.

Net income for the current quarter and year was also negatively impacted by provisions for taxes of $2.0 million and $4.2 million, respectively, due to taxes on profitable European operations that cannot be offset against losses in the United States and other countries.

PRINCETON, NJ (NOV. 8) PR NEWSWIRE - Curtis R. Carlson and Michael Ettenberg were named division vice presidents in an announcements released today by the David Sarnoff Research Center in Princeton, N.J.

"Ettenberg and Carlson will be strong additions to Sarnoff's senior staff, bringing a record of excellent technical achievement, along with demonstrated business skills," said James E. Carnes, in making the announcement.

Carnes was named president of Sarnoff in an earlier announcement, effective Dec. 1 when James J. Tietjen, Sarnoff's current president, will assume the presidency of SRI International, Menlo Park, Calif., Sarnoff's parent company.

"Sarnoff is a client-oriented research institution, and our new organization reinforces that. Curt Carlson has spearheaded our recent success in information systems, while Mike Ettenberg has been at the forefront of our solid state and optoelectronic technology," said Carnes. They will join Carmen Catanese who continues as a division vice president.

"We feel we have added two strong leaders to join Carmen Catanese in heading our divisions," Carnes said.

Carnes also announced that Jay Brandinger will become vice president of Strategic Alliance Development.

"Jay Brandinger has shown a real ability to lead Sarnoff into unique partnership arrangements, and we want him full time in this area as development of consortia and partnerships become more important," said Carnes.

Carnes indicated that the remaining organizational changes will be announced on Nov. 30.

The Sarnoff Center became a subsidiary of SRI International in April 1987, following RCA Corporation's merger with the General Electric Company, and GE's subsequent transfer of Sarnoff. Sarnoff operates as a contract research company in Princeton, and is noted for its early work in television, including the development of the NTSC standard in use in the United States today, as well as for leadership in optoelectronics, integrated circuits, and video systems.

Carlson joined RCA Laboratories at the David Sarnoff Research Center in 1973 as a member of the technical staff in the Physical Electronics Research Laboratory, where he developed an acousto-optic modulator for laser scanned displays. Out of this research evolved his interest in image processing and image evaluation. Since then his research has centered on processing in both human and machine visual systems, including basic research in psychophysics, signal processing, and imaging analysis with applications to NTSC television, high definition television, and robotic vision. He was named head of the Image Quality and Human Perception Research Group in 1981, and in 1984 was named director, Information Systems Research Laboratory. In addition, in 1990 he became director of the National Information Display Laboratory. The laboratory is a "center of excellence" for the U.S. government in display and information processing technologies at Sarnoff.

Carlson was the recipient of two RCA Laboratories Outstanding Achievement Awards. He has presented or published more than 50 technical publications, including 14 issued U.S. patents, in the field of image quality, image coding, and human perception research. His undergraduate degree, with distinction, is from Worcester Polytechnic Institute, and his M.S. and Ph.D. degrees are from Rutgers University.

Ettenberg joined RCA Laboratories at the David Sarnoff Research Center as a member of the technical staff in 1969. In 1979, he was appointed head of the Optoelectronic Devices and Systems Research Group. He was appointed director, Optoelectronics Research Laboratory in 1987.

Ettenberg has made major contributions in the area of III-V compounds and

devices, and developed passivating mirror coatings for semiconductor lasers allowing the manufacture of reliable high performance devices.

Ettenberg received an RCA Laboratories Outstanding Achievement Award in 1975 and a David Sarnoff Award for Outstanding Technical Achievement (RCA's highest technical honor) in 1984 for leadership in the understanding, development, and manufacture of solid state optoelectronic devices. He has authored or coauthored more than 100 papers and several book chapters and holds 28 U.S. patents.

Ettenberg, a fellow of the Institute of Electrical and Electronics Engineers and the Optical Society of America, holds a B.S. degree in Metallurgy from the Polytechnic Institute of New York and M.S. and Ph.D. degrees from New York University.

Catanese, currently vice president, Solid State Research Division, joined RCA Laboratories at the David Sarnoff Research Center as a member of the technical staff in 1970. He was appointed to his present position in early 1988.

Catanese has conducted research in solid state physics, low- temperature magnetics, advanced displays, electron devices and display systems, including design and modeling of picture tubes for color television. He holds a B.S., summa cum laude, from Xavier University, and M.S. and Ph.D. degrees from Yale. He has been a fellow of both the Woodrow Wilson Foundation and the National Science Foundation, and in 1974 was the recipient of an RCA Laboratories Outstanding Achievement Award. He has been issued 13 U.S. patents in display-related areas and has published numerous technical papers.

Brandinger, who joined RCA Laboratories in 1951 in Riverhead, L.I., as a member of the technical staff, transferred to the David Sarnoff Research Center in 1959 as head of communications systems research. From 1974 to 1979, he served as division vice president, engineering, for RCA's Consumer Electronics division in Indianapolis.

Brandinger received three RCA Laboratories Outstanding Achievement Awards for his research and is a fellow of the IEEE and Society for Information Display. He is vice chairperson of the board of governors of the N.J. Consortium for Surface Processing and a member of the board of directors, president and former treasurer of the EEPA (Electromagnetic Energy Policy Alliance). He holds a B.S. degree in Electrical Engineering from The Cooper Union and M.S. and Ph.D. degrees in Electrical Engineering from Rutgers University.

LONDON (NOV. 8) PR NEWSWIRE - Robert Maxwell today extended his publishing

activities in Eastern Europe by acquiring 40 percent of Esti Hirlap, the major evening paper in Budapest, through Mirror Holdings Limited. The newspaper will be printed on the Maxwell color printing press, which this week had its first trial in Budapest.

In March, Maxwell became publisher of Magyar Hirlap, a leading morning paper in the Hungarian capital.

Ownership of the latest color newspaper press in Budapest gives Maxwell a leading edge over his competitors. Maxwell said today, "I want to help the Hungarian people to foster their democracy by establishing a creative, technologically advanced free press, I also want to strengthen the Hungarian economy by investing money into its free enterprise."

In addition to Maxwell's 40 percent share of Esti Hirlap, of which he is now publisher, 40 percent is owned by Hirlapkiado, a government publishing house, and 20 percent by the Journalists' Foundation.

NEWARK, NJ (NOV. 8) PR NEWSWIRE - Public Service Electric and Gas Co. (NYSE: PEG) (PSE&G) today told the N.J. Department of Environmental Protection (DEP) that installation of cooling towers at Salem Nuclear Generating Station would impose an unnecessary and expensive burden on four million electric ratepayers without producing any meaningful improvement in the ecology of the Delaware River.

PSE&G's comments came during a public hearing on the DEP's draft water discharge permit for Salem station that would mandate backfitting the station with cooling towers.

The Federal Clean Water Act requires that thermal discharge - the temperature of cooling water released into the river - not cause significant harm to aquatic life and that cooling water intake systems reflect the best technology available for minimizing adverse impact on the aquatic ecosystem.

The DEP is responsible for enforcing the Federal Clean Water Act requirements through issuance of water discharge permits. The two-unit Salem station is located in Lower Alloways Creek Township, Salem County.

In testimony today, Lawrence R. Codey, PSE&G senior vice president-electric, said: "PSE&G strongly opposes this draft permit condition which necessitates the backfitting of the station with cooling towers.

We believe the best available information demonstrates, and therefore, the DEP

should conclude, the station operation has not had, is not having, and is not predicted to have significant or appreciable negative harm to the aquatic life of the river."

Also testifying today for PSE&G was Dr. Gerald Lauer of EA Science and Technology. Lauer, a noted aquatic biologist, also concluded that the station's operation has not and will not harm the river. Lauer has assisted PSE&G in its environmental investigation of the Delaware for ten years.

"In light of my review of the more than 22 years of real world river data that has been collected, my interpretation of the results of various scientific models concerning fifth survival, and the data presented in other scientific studies, it is my professional judgment," Lauer said, "that operation of Salem station has not had, is not having and will not have in the future any significant or appreciable harm to the aquatic community in the Delaware River."

Salem station uses the river in two principal ways. First, it withdraws water for cooling, and, second, it discharges this water back to the river at a higher temperature.

SAN DIEGO (NOV. 8) PR NEWSWIRE - U S West Communications and Northern Telecom have announced the industry's first agreement to market a new central office-based automatic call distribution (ACD) system. ACD systems distribute large volumes of incoming calls, and traditionally require costly on-premise equipment.

U S West said the letter of intent is in response to strong customer and market demand for ACD services which might be more economically provided from the regional holding company's central offices, rather than a customer premise-based solution.

The significance of this announcement, according to Cliff Stice, U S West's executive director of Product Marketing, is that ACD services may now be available for small- and medium-sized customers regardless of current central office switch technology. The announcement was made Wednesday, Nov. 7, at the national convention of the Centrex Users Group in San Diego.

"ACD services will now become affordable for a significant portion of our business customers," said Bob Wineinger, U S West product manager. "Before this development, only very large customers could purchase stand-alone or proprietary CO-based ACD services, which cost thousands, if not millions, of dollars. We believe this solution will address customer needs and open a

market opportunity for ubiquitous CO-ACD services."

U S West is currently finalizing its marketing plans which include pricing, branding, packaging, provisioning and deployment of this product - which Northern has named the Meridian ACD Server.

"Resolution of these issues will be complete in the next 90 days, with customer introduction and general availability scheduled for early 1991," said Jim Hilderbrand, U S West director of voice services.

"We are confident this solution will satisfy customer needs," said Wineinger, "but we will only offer it commercially once we are satisfied with its total service quality."

Stice said: "Our customers told us they needed an affordable, ubiquitous, network-based ACD service. We then issued an RFP (request for proposal) to interested vendors. Northern responded with a strong technical solution which can be quickly implemented.

"This agreement illustrates the type of response and business partnership that will become even more critical in meeting complex customer and market needs for competitive service offerings," Stice added.

LEXINGTON, KY (NOV. 8) PR NEWSWIRE - Kentucky Central Life Insurance Company (NASDAQ: KENCA) had net income of $19.4 million for the first nine months of 1990 which was equal to $1.44 per share.

The announcement was made today by W.E. Burnett, Jr., chairman of the board and president of the 88-year-old Lexington-based company.

Net income for the corresponding period in 1989 was $30.5 million, equal to $2.25 per share.

The company's life insurance in force continued to grow at an excellent rate. Life insurance in force as of Sept. 30 was $54.0 billion, compared to $46.3 billion on the same date a year ago, an increase of $7.7 billion, or 17 percent.

Life insurance sales for the first nine months of the year totaled $12.0 billion, with third quarter sales amounting to $3.6 billion.

Per share income for the third quarter of 1990 was 43 cents, equal to the per

share income for the second quarter of 1990.

Total revenue for the first nine months of 1990 increased 11 percent over the same period a year ago, to $353.1 million, as compared to $318.5 million.

Revenue by category was as follows: Insurance premiums, $142.7 million, up 20 percent. Policy charges from Universal Life and other investment contracts, $59.2 million, up 17 percent.

Investments, $71.7 million, up 5 percent. Other, $79.5 million, down 2 percent.

The increase in revenue was offset by an increase in expenses, primarily in benefits paid on life insurance policies and claims paid on property and casualty policies.

Assets stood at $2.1 billion as of September 30, compared to $1.9 billion on the same date in 1989, an increase of 12 percent. Liabilities and minority interest was $1.8 billion, compared to $1.6 billion, an increase of 14 percent. On a per share basis, shareholders' equity rose from $23.18 to $24.28 in the past year, up 5 percent.

In addition to life and property and casualty insurance, Kentucky Central has operations in consumer finance, broadcasting, and citrus production, all of which have been affected by current economic conditions.

All figures are on a consolidated basis of Kentucky Life Insurance Company and its subsidiaries, which are Mid-Central Investment Co., Inc., Kentucky Finance Co., Inc., Bluegrass Broadcasting Co., Inc., Brevard Groves, Inc., Kentucky Central Insurance Company, Kentucky National Insuarance Company, ARIC Investments, Inc., American Resources Insurance Company, and M-C Realty, Inc..

All figures are reported on the basis of generally accepted accounting principles ("GAAP"). Per share computations are based on a weighted average of 13,532,977 shares outstanding for the nine months ended September 30, and 13,517,399 shares outstanding for the corresponding period a year ago.

ROCKVILLE CENTRE, NY (NOV. 8) PR NEWSWIRE - Command Credit Corporation (NASDAQ: CDMD) has signed an agreement with the Fibak Investment Group in Warsaw to introduce bank credit cards in Poland early next year, the company announced here today.

It is the second such agreement signed by Command, a leader in the secured

credit card industry, in the past month. Earlier, Command said it would assist CredoBank, the first authorized international commercial bank in the Russian Republic, to issue bank credit cards to Soviet citizens.

Terms of the financial agreement were not disclosed. Fibak Investment Group, an international business group specializing in real estate, financial services, art and new business development, is headed by the Polish tennis player Wojtek Fibak.

He has agreed to become a spokesman for Command and will appear on Polish television and in newspapers to promote the Command secured bank credit card program in Poland.

Command specializes in helping banks issue credit cards, particularly in countries where there is very little, if any, means of securing credit rating reports on potential cardholders.

"With a population of over 40 million people, Poland is a potentially huge market for bank credit cards," Chairman William Lucas said. "We are delighted to have an opportunity to work with the Fibak Investment Group to help Polish banks market internationally accepted secured Visa Cards and MasterCards to Polish citizens."

Command Credit Corporation is an international financial services company which assists financial institutions in issuing secured and unsecured bank credit cards. The company is a service member of the American Bankers Association, a registered Member Service Provider with MasterCard International and a registered Independent Sales Organization with VISA.

EL SEGUNDO, CA. (NOV. 8) PR NEWSWIRE - Hughes Aircraft Co. has been awarded a $1.5 million contract to produce a real-time interface for F-14 aircraft participating in the U.S. Navy's "Top Gun" Tactical Aircrew Combat Training System (TACTS).

The contract, awarded by Ford Aerospace to the Microwave Division of Hughes' Radar Systems Group, is for a digital computer to link the Hughes-built radar in the F-14 into the TACTS system to improve the realism and value of the training program.

"We are very pleased to have won this type of business, which places us into the latest aircraft instrumentation technology on a very vital training system

for the Navy," said Ron Dawson, program manager for the Group.

TACTS allows pilots to fly air combat training missions against one another without ever firing a shot. Instructors on the ground monitor the moves of trainees, in real time, on large, multicolor computer graphics displays that can reproduce terrain and aircraft as viewed from any desired angle. The instructors can coach or communicate with the trainees while monitoring statistics such as "G" forces, air speed, altitude, attitude, angle of attack and other vital information.

Missions also are recorded on tape and can be replayed for the pilot as soon as the exercise is concluded.

Developed by the Cubic Corporation and first deployed in 1973 as the Air Combat Maneuvering Range, TACTS was featured in the movie "Top Gun." The system also is used by the U.S. Air Force, which calls it Air Combat Maneuvering Instrumentation (ACMI), and by the air forces of several other countries.

DALLAS (NOV. 8) PR NEWSWIRE - To underscore its commitment to air cargo and to make its fast-growing cargo business more responsive to competitive pressures, American Airlines today announced the restructuring of its cargo department into a separate operating division with the airline.

In announcing the reorganization, Executive Vice President Donald J. Carty noted, "This change emphasizes our commitment to the cargo business. It also recognizes that while cargo uses the same aircraft as our passenger operation, in many ways it already operates as a separate business."

This move reflects the success American has had in cargo since implementing a new cargo strategy a few years ago. It also indicates the increasing importance of cargo to American and to its parent company, AMR Corp. "Cargo accounts for less than 10 percent of American's revenues," said Carty, "but

it is a very important part of our corporate effort."

William R. Boesch, vice president-cargo, becomes president of the American Airlines Cargo Division, with full responsibility for all aspects of American's cargo activity. Boesch remains a vice president of American Airlines.

The new cargo unit will report to Carty.

BOISE, IDAHO (NOV. 8) PR NEWSWIRE - Morrison Knudsen Corp. (MK) (NYSE: MRN) announced today that its board of directors has authorized a systematic program for the repurchase of up to 250,000 of its outstanding shares of common stock (par value $3.33-1/3 per share) for cash in the open market on the the New York Stock Exchange and the Pacific Stock Exchange. Currently, the company intends to repurchase up to 140,000 shares which would represent just over one percent of the company's 12,424,667 outstanding shares.

William J. Agee, MK's chairman and chief executive officer, said the directors believe the company's common stock represents a good investment.

The repurchased shares will be accumulated by the company and held in treasury for the purpose of providing available shares for employee benefit plans and for other corporate purposes.

The repurchase will commence Monday, Nov. 12, and will be carried out in accordance with certain volume, timing and price constraints imposed by the Securities and Exchange Commission and will otherwise depend on market conditions and other factors.

HOUSTON (NOV. 8) PR NEWSWIRE - Conquest Exploration Co. (AMEX: CQX) today reported a net loss for the first nine months of 1990 of $8,594,000, compared to net income of $895,000 for the first nine months of 1989. The company's net loss for the third quarter of 1990 totaled $1,677,000 compared to a net loss of $689,000 in the third quarter of 1989. The company's net income for the nine months of 1989 includes an extraordinary item, the utilization of net operating loss carryforwards to reduce the company's provision for federal income taxes, of $534,000. The company's results of operations include the effect of the operations of Canadian Conquest Exploration Inc. from April 17, 1989, the effective date of the acquisition of that company.

After giving effect to dividends on the company's preferred stock, the company reported a net loss attributable to common shares of $10,197,000, 23 cents per share, in the first nine months of 1990 compared to a net loss of $842,000, 2 cents per share, in the first nine months of 1989.

Results for the first nine months and third quarter of 1990 include charges to expense of $6,767,000 and $983,000, respectively, representing reductions, primarily due to price declines, in the carrying value of certain proved oil and gas properties to expected future recoveries. Such charges totaled $3,938,000 and $1,120,000, respectively, in the first nine months and third quarter of 1989.

STOUGHTON, MASS. (NOV. 8) PR NEWSWIRE - Reebok is the exclusive athletic footwear and apparel advertiser on CBS Network broadcasts of the U.S. Open Tennis Championships for the next three years, it was announced today by David Ropes, Reebok vice president of marketing services.

Starting in 1991, this multi-million dollar package grants Reebok substantial advertising units and sponsor identification billboards throughout each of the tournaments. Merchandising and advertising tie- ins include print spreads in Tennis Magazine and a special U.S. Open supplement to the New York Times in addition to box seats and hospitality privileges.

Reebok also recently signed a contract with NBC giving it network advertising exclusively in athletic footwear category for NBC's broadcast of the 1991 Olympics.

"Exclusive rights packages allow us to generate unusual power for our advertising dollar," Ropes said. "But just as importantly, they provide a platform for extensive retail promotions during the critical back-to-school season. The main objective is to take the power created by the exclusivity and merchandise it back through our dealer network."

Reebok International Ltd., headquartered in Stoughton, Mass., is a leading designer and marketer of active lifestyle and performance products, including footwear and apparel. The company's operating units include the AVIA, Boston Whaler, Reebok, Rockport and Apparel Products (including the Ellesse sportswear brand) divisions. Sales for 1989 totaled $1.822 billion.

HACKENSACK, N.J. (NOV. 8) PR NEWSWIRE - IPCO Corporation (NYSE: IHS) today announced that its shareholders have approved a change in the corporation's name from IPCO Corporation to Sterling Optical Corp. The company's common stock will begin trading under the new symbol "EYE" on the New York Stock Exchange on Nov. 12, 1990.

At the annual meeting, Richard Block, chairman and chief executive officer commented on the company's operations, strategy for growth and the outlook for the optical industry. "Having successfully completed a divestiture program to focus the company solely on Sterling Optical, we are a major force in the marketplace and we are becoming a more formidable competitor as we expand our franchising operations and train our associates to provide superior service.

"Sterling Optical is well positioned to take advantage of the many opportunities in the optical industry," Block added. "We are using our growing database of patient and market information to target our marketing efforts. We also continue to provide better value than many of our competitors, at a time when value is utmost in the mind of the consumer."

Block noted a number of factors which auger well for growth and stability in

the optical industry, including:

-- As the median age in the United States rises, so does the demand for eyewear;
-- The frequency of eyewear purchases has increased in recent years as customers become more aware of the benefits of keeping prescriptions current; and
-- Historically, people do not defer spending to correct faulty vision, even in economic downturns.

Block continued, "Sterling Optical's unique strategy for growth is based on expanding franchising operations and improving company-owned store operations, with the goal of establishing an overall business mix at 75 percent franchised and 25 percent company-owned. We are very enthusiastic about the opportunity that exists for converting private optometric practices into Sterling Optical franchisees. We have also undertaken a program to forge and expand our relationships with proven, profitable franchisees. At the same time, we are working hard to improve company-owned store operations, because we believe that if properly equipped and managed, company-owned stores will be as profitable as franchises and provide an important element of balance to our business mix."

Sterling Optical is the fourth largest optical retailer in the United States. Through 247 stores, 72 of which are franchised, Sterling Optical offers a full line of prescription and non-prescription eyeglasses and sunglasses, contact lenses, optical repair services and, where permitted, optometric examinations.

#90312p5049 11/08/1990 ~PR Newswire

MOSCOW, IDAHO (NOV. 8) PR NEWSWIRE - Advanced Hardware Architectures (AHA) today announced a multi-year agreement with Hewlett-Packard Co. (HP) (NYSE: HWP). Under the agreement, AHA will have exclusive sales rights to HP's Data Compression Lempel-Ziv 2 (DCLZ) data compression coprocessor, and HP will use AHA's Reed-Solomon technology to produce integrated circuits (ICs) for HP tape storage products manufactured in its Bristol, England facility.

The product will be available from AHA as the AHA3101. It is the first widely available high-speed IC to feature the DCLZ standard and is currently the fastest single chip data compression product on the market. The DCLZ format is expected to be adopted as a development standard by both the DDS/DAT and QIC(TM) tape drive manufactures associations.

Applications for the 3101/DCLZ include: QIC tape drives, DDS/DAT helical scan tape drives, high performance disc drives, high speed data communications

systems, SCSI bus adapters and embedded controllers.

The DCLZ is a "lossicss" algorithm that ensures that decompressed data output is exactly the same as the uncompressed data input. It offers a 2:1 compression ratio, as well as an average compression rate of 2.5 Mbytes per second. Redundancy is removed from the data by recognition and encoding patterns of input characters. Each time a unique string of characters occurs the string is entered into a "dictionary" stored on an external SRAM and is assigned a numeric value or codeword.

When subsequent dictionary entries occur, they are replaced by their associated code.

Also to be shared in the agreement is AHA's patented on-the-fly Reed-Solomon (RS) Error Correction technology. These codes are used for correcting "burst" error patterns and random noise, as well as providing the most desirable error correction features per overhead byte. One of AHA's fastest error correction ICs defines a symbol as an eight bit byte, with code blocks defined up to 255 bytes. It can correct up to 10 byte errors or 20 byte erasures per code block, and provides real-time correction at a continuous 10 megabyte data rate. Higher correction rates are also possible.

Data storage applications include magnetic tape and disc, along with optical disc and tape. Communications applications include: HDTV, satellite communications, VSAT fiber optics, high performance modems and LANs, as well as microwave radio, tactical and fiberoptics.

In addition to HP's DCLZ IC, AHA will be able to develop and sell IC products that combine both the RS error correction and the data compression technologies. AHA will be the sole supplier for the HP DCLZ product.

A three-year-old, rapidly growing private company, AHA is a spin-off company using technology licensed by the NASA sponsored Microelectronic Research Center located at the University of Idaho. The company recently moved into a new $2 million Business Technology Center in Moscow.

Hewlett-Packard Co. is an international manufacturer of measurement and computation products and systems recognized for excellence in quality and support.

#90312p5053 11/08/1990 ~PR Newswire

TULSA, OK (NOV. 8) PR NEWSWIRE - Vintage Petroleum Inc. (NYSE:VPI) announced today third quarter earnings of $1.6 million or 10 cents per share, compared with earnings of $0.4 million or 3 cents per share in the third quarter of 1989. Per share earnings were more than triple those of a year ago despite a 16 percent increase in the number of shares outstanding.

Total revenues of $13.1 million for the third quarter were approximately 32 percent higher than the $9.9 million in the previous year. Oil prices increased during the third quarter, averaging $23.71 per barrel compared to $18.12 per barrel in the third quarter of last year, and $15.83 in the second quarter of 1990. However, gas prices declined, averaging $1.33 per thousand cubic feet, compared to $1.50 in the third quarter of 1989 and $1.39 in the second quarter of 1990.

Third quarter oil and gas production increased 17 percent and 15 percent, respectively, averaging 3,079 barrels of oil and 25.4 million cubic feet of gas per day compared with 2,610 barrels of oil and 22.0 million cubic feet of gas per day last year.

Expenses in the third quarter were 13 percent higher than the previous year as a result of higher operating expenses resulting from the acquisition of oil and gas properties in August, 1990, higher gathering expenses associated with crude oil purchases due to increased oil prices, and higher depreciation and depletion related to the increases in production.

Vintage expects the significantly higher oil prices resulting from the tensions in the Middle East and seasonally higher gas prices to favorably impact revenues and net income for the fourth quarter.

Vintage Petroleum Inc. is an independent energy company engaged in the acquisition, exploitation and development of oil and gas properties, and the marketing of natural gas and crude oil.

Cellular service revenue increased from $19,368,000 to $28,182,000 in the current quarter primarily because of subscriber growth that increased the current revenue stream. The gross profit from telephone equipment increased in 1990 due to increased revenue from the company's cellular phone rental programs.

Operating expenses increased from $4,391,000 to $5,817,000 in the current quarter, representing 23 percent and 21 percent of service revenues, respectively. The increase in absolute terms reflected the increasing level of subscriber activity.

Selling, general and administrative expenses rose from $11,516,000 to $12,730,000 in the current quarter. The increase was attributable to the increase in the costs of servicing and maintaining the larger subscriber base.

Operating income (income after corporate expenses and before depreciation and amortization) increased from $3,817,000 to $10,529,000 in the current quarter.

On July 25, 1990, as amended and restated as of Oct. 5, 1990, the company's board of directors approved an agreement and plan of merger and joint venture organization with Pacific Telesis Group whereby, among other matters, the company's Ohio cellular telephone interests and PacTel's Michigan and Ohio cellular telephone interests will be combined into a joint venture equally owned by the two companies. This agreement is conditioned upon the approval of the company's shareholders at a meeting currently scheduled from Dec. 28, 1990, as well as various regulatory approvals. Included in other expenses is $3,234,000 of special legal, accounting and financial advisory fees relative to the agreement incurred in 1990 as follows: $279,000 in the first quarter, $694,000 in the second quarter and $2,261,000 in the third quarter.

In March 1990, CCI closed a transaction with McCaw Cellular Communications, Inc. by which CCI exchanged the former CCI subsidiary that owns a 5.56 percent interest in the Dallas non-wireline cellular partnership for 1,601,036 shares of CCI common stock that were owned by McCaw. The stock was valued at $50,633,000 and a gain of $48,118,000 was recognized. As a result of this gain, a provision for income taxes of $939,000 was recorded.

CCI owns cellular systems in Ohio and Puerto Rico. CCI's ownership interests in these systems represent 9.4 million "pops" (the population of a market multiplied by CCI's ownership interest in the system).

CARY, N.C. (NOV. 8) PR NEWSWIRE - In a ceremony here in the heart of the Research Triangle Park region of North Carolina, Industrial & Environmental Analysts, Inc. (IEA) today dedicated a state-of-the-art analytical laboratory facility that will expand the company's capabilities to conduct water, soil and air testing for its customers in the Middle Atlantic states and in the South.

IEA is a wholly owned subsidiary of Bridgeport, Conn.-based Hydrocorp, Inc. Hydrocorp's parent, The Hydraulic Company (NYSE: THC) (THC), is a diversified water services corporation.

On hand to welcome guests to the dedication ceremony, including the mayor of Cary, Koka A. Booth, and other dignitaries, were IEA President Frederick T. Doane and THC Senior Vice President and Chief Financial Officer William F. Emswiler, who also is president of Hydrocorp.

"This new IEA facility anchors a network of multidisciplinary testing laboratories that THC, through Hydrocorp, is assembling to serve industrial, environmental engineering and government clients along the eastern seaboard," Emswiler said at the dedication.

The THC officer noted that IEA also has laboratories in Essex Junction, Vt., and in North Billerica, Mass.

In a separate development, THC announced today that it had acquired AC Laboratories in Miramar, Fla.

Emswiler, who was the keynote speaker at today's dedication ceremony, observed that the 30,000-square-foot structure into which IEA has relocated, is double the size of its former facility and would employ some 130 employees, up from 90 in December.

"This new facility in reality is five separate laboratories, each built to meet the demands of its own discipline," Emswiler explained, "which may range from groundwater analysis to soil contamination testing to emissions stack sampling."

Emswiler noted that IEA's new laboratory will allow IEA to conduct more-sophisticated testing and process a greater number of samples, while, he added, "it will enable us to further enhance our track of quality service and fast turnaround time, which are key attributes in the testing business."

THC's principal subsidiary is Bridgeport Hydraulic Company, an investor-owned utility that provides public water supply to a population of some 500,000 in

18 Connecticut communities. In addition to its nonutility water management businesses, THC is engaged in forest products, electricity cogeneration and real estate enterprises.

#90312p5066 11/08/1990 ~PR Newswire

SACRAMENTO, CALIF (NOV. 8) PR NEWSWIRE - Ironstone Group Inc. (NASDAQ: IRON) today announced revenues of $60.3 million for the quarter ended Sept. 30, 1990 compared to $67.8 million for the same period in 1989. Losses before a special charge for a litigation settlement in its American National Petroleum subsidiary were $640,000 (6 cents per share) for the quarter compared to losses of $1,187,000 (9 cents per share) in 1989. Ironstone's American National Petroleum subsidiary recognized a special litigation settlement charge of $1,225,000 relating to the settlement in the third quarter of a suit where the plaintiffs had originally sought substantially more in recovery and punitive damages. After this special litigation settlement charge, losses for the quarter totaled $1,865,000 (14 cents per share) compared to $1,187,000 (9 cents per share).

Donald B. Bibeault, chairman and executive officer of Ironstone said, "The third quarter operating results for Ironstone reflect improving results in Iron-Oak Supply's core branches in spite of slow-downs in new housing related business; a moderate increase in energy services sales of our Tyler-Dawson Supply Division and stable operating results in American National Petroleum Co. American National Petroleum has chosen to settle its one major piece of negative litigation. In the future, American National Petroleum should benefit from increased energy prices on its basic business. We also expect our Tyler-Dawson Supply subsidiary to have improved operating results due to the pickup in the domestic energy business. Iron-Oak Supply is less dependent on new housing starts than it was in the past but its results will be negatively affected by slowdowns in the new housing market."

Ironstone Group Inc., through its majority owned subsidiaries, Iron-Oak Supply Corp., Tyler-Dawson Supply Division and American National Petroleum Co. (NASDAQ: ANPC) is engaged in the wholesale distribution of plumbing and mechanical supplies and equipment; pipe, valves and fittings, for the energy services business and in oil and gas exploration and production. Its common stock is traded on the NASDAQ National Market System under the symbol IRON.

LOS ANGELES (NOV. 8) PR NEWSWIRE - Kerr Glass Manufacturing Corp. (NYSE: KGM) today reported net earnings increased to $745,000 (prior to preferred stock dividends) for the third quarter of 1990, compared to $25,000 for the third quarter of 1989.

Net earnings applicable to common stockholders (after deduction for preferred stock dividends) increased to $538,000 or 15 cents per common share (primary and fully diluted) for the third quarter of 1990, compared to a net loss of $182,000 or 5 cents per common share (primary and fully diluted) for the 1989 third quarter.

The company said the increase in earnings in the third quarter of 1990, as compared to the same period in 1989, was the result of higher earnings in the plastic products and glass container businesses.

Net sales for the 1990 third quarter increased to $81,339,000 compared to $74,541,000 for the third quarer of the prior year. The increase in sales was attributable to a 15 percent increase in sales of glass containers and a 13 percent increase in sales of plastic products.

Roger W. Norian, chairman, president and chief executive officer, stated that the plastic products business continued to show substantial improvement over 1989 due to productivity improvement and an increase in sales volume. Glass container results improved in the third quarter of 1990 compared to the same period in 1989, due primarily to increased sales. Norian also stated that metal crowns and consumer products results declined in the third quarter of 1990, compared to the same period in 1989.

Net earnings for the first nine months of 1990 (prior to preferred stock dividends) was $442,000 compared to $2,060,000 a year ago. Net loss applicable to common stockholders in the first nine months of 1990 was $179,000 or 5 cents per common share (primary and fully diluted), compared to net earnings applicable to common stockholders of $1,439,000 or 39 cents per common share (primary and fully diluted) in the first nine months of 1989.

The decrease in earnings for the nine month period was primarily attributable to lower earnings in the consumer products business, due to higher costs coupled with lower sales prices and the cost of introducing Kerr pie filling and pickling spices.

MENLO PARK, CALIF. (NOV. 8) PR NEWSWIRE - SRI International announced that the David Sarnoff Research Center, a fully owned subsidiary, has named Curtis R. Carlson and Michael Ettenburg as Division Vice Presidents.

"Drs. Ettenberg and Carlson will be strong additions to Sarnoff's senior staff bringing a record of excellent technical achievement, along with demonstrated business skills," said Dr. James E. Carnes, in making the announcement.

Carnes was named president of Sarnoff in an earlier announcement, effective Dec. 1 when James J. Tietjen, Sarnoff's current president, will assume the presidency of SRI.

"Our new organization reinforces our client-oriented approach. Curt Carlson has spearheaded our recent success in information systems, while Mike Ettenberg has been at the forefront of our solid state and optoelectronic technology," said Carnes. They will join Carmen Catanese who remains a division vice president.

Carnes also announced that Jay Brandinger will become vice president of Strategic Alliance Development.

"Jay Brandinger has shown a real ability to lead Sarnoff into unique partnership arrangements, and we want him full time in this area as development of consortia and partnerships become more important," said Carnes.

Carnes indicated that the remaining organizational changes will be announced on Nov. 30.

The Sarnoff Center became a subsidiary of SRI International in April 1987, following RCA Corp.'s merger with General Electric Company, and GE's subsequent transfer of Sarnoff. Sarnoff operates as a contract research company in Princeton, N.J., and is noted for its early work in television, including the development of the NTSC standard in use in the United States today, as well as for leadership in optoelectronics, integrated circuits and video systems.

IRVINE, CALIF (NOV. 8) PR NEWSWIRE - On Oct. 17, 1990, Fluor Corp. (NYSE: FLR) was dismissed from legal proceedings brought by Lee & Associates regarding the 1985 sale of Fluor's Irvine complex. A Los Angeles Times article today failed to mention the court's decision in favor of Fluor in the suit. In making this ruling, the court determined Fluor had no liability whatsoever for any commissions or damages which may be awarded in the case.

In reaching its decision to dismiss Fluor from the case the court found that: Fluor Corp. had no written, or oral, agreements with Lee & Associates concerning the sale of the facility and Fluor had not conspired with Trammell Crow to interfere with possible commission payments.

SAN DIEGO (NOV. 8) PR NEWSWIRE - The Titan Corp. (NYSE: TTN) today announced revenues and earnings for its quarter ended Sept. 30, 1990. Revenues rose 40 percent to $34.3 million from $24.5 million in the year earlier period. Net income decreased to $250,000 for the third quarter of 1990 compared to $647,000 a year ago. Earnings per share (after preferred dividend requirements) decreased to $.01 per share from $.05 per share a year ago.

For the nine months ended Sept. 30, 1990, revenues rose 24 percent to $87.4 million from $70.4 million in 1989. Net income increased to $1,360,000 for the nine months ended Sept. 30, 1990 compared to $1,258,000 for the same period of 1989. Earnings per share (after preferred dividend requirements) for the first nine months of 1990 was $.09 compared to $.06 for the same period a year ago.

The decreased third quarter earnings were principally the result of delayed orders at SESCO, Titan's manufacturer of military computers. The increased earnings for the first nine months is primarily the result of significantly increased revenues.

"Titan has been experiencing strong revenue growth this year even prior to the acquisition of Titan Linkabit Corporation in July," stated Gene W. Ray, Titan's president and chief executive officer. "Management is also continuing its effort to maintain strong cash flow and improve margins."

The Titan Corporation specializes in providing turnkey hardware and software systems solutions to the high technology needs of U.S., state and local government agencies; and of commercial and industrial clients, both foreign and domestic. Specific areas of expertise include systems development and integration, advanced technology development and electronic manufacturing.

For further information, contact Stephen P. Meyer, chief financial officer, The Titan Corporation, 3033 Science Park Rd., San Diego CA 92121. Telephone 619-457-2340.

CASTEAU (NOV 8) TASS - IN THE RUN-UP TO HIS VISIT TO THE SOVIET UNION, GENERAL JOHN GALVIN, SUPREME ALLIED COMMANDER IN EUROPE, WAS INTERVIEWED BY TASS AT THE SUPREME HEADQUARTERS OF THE ALLIED POWERS IN THE BELGIAN CITY OF CASTEAU.

"I AM VERY MUCH LOOKING FORWARD TO THE VISIT FOR A NUMBER OF REASONS, OF COURSE," GALVIN SAID. "IT WILL BE MY FIRST CHANCE TO SEE A COUNTRY ABOUT WHICH I HAVE HEARD A LOT. I KNOW SUCH RUSSIAN AUTHORS LIKE TOLSTOY AND DOSTOYEVSKY. FROM A MILITARY POINT OF VIEW - BECAUSE I HAVE STUDIED THE SOVIET UNION AS A SOLDIER FOR MOST OF MY CAREER BUT, ABOVE ALL, I AM LOOKING FOR THE OPPORTUNITY TO SPEAK TO EVERYONE I CAN ABOUT MY IDEAS AND TO LISTEN TO OTHER IDEAS FROM PEOPLE THERE."

SPEAKING ABOUT CHANGES IN THE MILITARY AND STRATEGIC SITUATION IN EUROPE, GALVIN EMPHASISED THAT "THE SIGNING OF THE CONVENTIONAL ARMS TREATY IS A MAJOR CONCRETE STEP" IN THIS PROCESS.

"WE WILL SEE A REDUCTION IN SYSTEMS OF MILITARY EQUIPMENT FOR WAR. THIS WILL MEAN ALSO A REDUCTION OF A LEVEL OF CONFRONTATION THAT HAS EXISTED FOR A LONG TIME BETWEEN THE TWO SIDES. THEREFORE, I BELIEVE, WE WILL HAVE TAKEN THE MOST IMPORTANT STEP THAT WE CAN TAKE TOWARD A PROTECTED PEACE IN EUROPE," GALVIN STRESSED.

"IT WAS VERY CLEAR WHEN PRESIDENT GORBACHEV MADE A SPEECH IN THE UNITED NATIONS IN DECEMBER, 1988, THAT IDEOLOGY WILL NO LONGER BE THE BASIS FOR RELATIONS AMONG NATIONS, AND THAT THERE WILL BE A NEW THINKING AND A NEW APPROACH TO SUCH THINGS AS THE SUFFICIENCY OF THE DEFENCE. THE SIGNING OF THE VIENNA TREATY IS A MAJOR CONCRETE STEP IN A DIRECTION WHICH BEGAN, I THINK, WITH PRESIDENT GORBACHEV'S COMMENTS MADE IN THIS SPEECH," GALVIN SAID.

"I BELIEVE THAT FIRST OF ALL WE NEED A MATRIX OF TREATIES, WHICH CLEARLY PROVIDE THE CONCRETE BASIS FOR A RELATIONSHIP IN TERMS OF SECURITY. BY THIS I MEAN INF TREATY, THE CONVENTIONAL TREATY, THE SNF TREATY. I MEAN THE START OF NEGOTIATIONS ABOUT LONG-RANGE NUCLEAR WEAPONS. I MEAN ALSO THE ATTEMPTS THAT WE HAVE BEEN MAKING THAT, I HOPE, WILL BE SUCCESSFUL IN THE FUTURE -- WITH CHEMICAL WEAPONS TREATY.

"AND I WOULD LIKE THE OTHER POSSIBILITIES OF THE FUTURE TO CONTINUE ALONG THESE LINES. THIS PROVIDES THE BASIS, I THINK, FOR A GOOD SECURITY RELATIONSHIP. HOWEVER, TREATIES DEPEND ON ORGANISATIONS, AND I BELIEVE THAT,

FOR EXAMPLE, WE STILL NEED THE CONFERENCE ON SECURITY AND COOPERATION AND WE STILL NEED NATO," GALVIN STRESSED.

ASKED WHAT OPPORTUNITIES WERE OPENED BY CONTACTS BETWEEN REPRESENTATIVES OF THE ARMED FORCES OF NATO AND THE USSR, GALVIN SAID: " I CAME TO THINK SOMETIMES ABOUT PROBLEMS THE WAY WE WOULD THINK OF A LOG-JAM ON A RIVER WHERE MANY LOGS ARE SOMETIMES CUT UP TOGETHER AND THERE IS NO MOVEMENT, AND THEY FORM A BLOCK. BUT SOMETIMES BY THE REMOVAL OF JUST ONE OR TWO SMALL LOGS THE REST BEGIN TO MOVE AGAIN.

"SOMETIMES, WE MILITARY, DISCUSS SOME OF THE QUESTIONS WHICH, PERHAPS, DO NOT REACH THE HIGHEST LEVELS OF POLITICAL CONSIDERATIONS. BUT, IN FACT, THERE MAY BE MORE QUESTIONS OF RATHER LOWER LEVEL, BUT I PICK UP THOSE SMALL LOGS IN THE MESS OF WOOD THAT WON'T MOVE, AND WHEN YOU PULL OUT THESE LOGS - THEN THINGS PROGRESS. MAY BE IN OUR DISCUSSIONS WE CAN FIND SOME OF THESE LOGS," GALVIN SAID.

ISLAMABAD (NOV 8) TASS - PAKISTANI PRIME MINISTER MOHAMMAD NAWAZ SHARIF ANNOUNCED ON WEDNESDAY THAT HE LIFTS THE STATE OF EMERGENCY IN THE COUNTRY, WHICH WAS DECLARED IN THE RUN-UP TO THE ELECTIONS TO THE NATIONAL ASSEMBLY, THE LOWER CHAMBER OF PARLIAMENT, AND THE LEGISLATIVE ASSEMBLIES OF PROVINCES HELD LATE IN OCTOBER.

IN HIS RADIO AND TELEVISION ADDRESS TO THE NATION, SHARIF SET OUT A PROGRAMME OF HIS GOVERNMENT'S ACTIVITY IN FOREIGN AND DOMESTIC POLICIES. HE SAID PAKISTAN INTENDED TO PURSUE THE INDEPENDENT FOREIGN POLICY AND MAINTAIN FRIENDLY RELATIONS WITH NEIGHBOURING STATES, INCLUDING INDIA.

HE DESCRIBED EXTENDING MULTIFARIOUS TIES AND STRENGTHENING FRIENDSHIP WITH THE UNITED STATES, THE USSR AND OTHER COUNTRIES, AND SUPPORT FOR THE STRUGGLE BY KASHMIR'S MOSLEMS FOR SELF-DETERMINATION IN LINE WITH U.N. RESOLUTIONS AMONG THE PRIORITY TASKS OF THE ISLAMABAD ADMINISTRATION.

SHARIF SAID THAT IN THE ECONOMY EMPHASIS WOULD BE PUT ON HANDLING ENERGY PROBLEMS, PURSUING INDUSTRIALISATION AND ACHIEVING SELF-SUFFICIENCY IN THE PRODUCTION OF ESSENTIAL INDUSTRIAL GOODS AND FOOD. TO THIS END, THE GOVERNMENT INTENDS TO DE-NATIONALISE SEVERAL STATE ENTERPRISES, INCLUDING SOME DEFENCE INDUSTRY FACILITIES, AND ISSUE NEW PRIVILEGES FOR FOREIGN INVESTORS.

SHARIF EMPHASISED HIS CABINET'S READINESS TO IMPLEMENT A PROGRAMME OF SOCIAL SAFEGUARDS FOR THE POPULATION AGAINST PRICE HIKES, MEASURES TO COMBAT UNEMPLOYMENT AND ILLITERACY, AND SECURE AN IMPROVEMENT IN THE PUBLIC HEALTH SYSTEM.

#90312t1292 11/08/1990 ~ts

BONN (NOV 8) TASS - GERMAN SOCIAL DEMOCRATIC PARTY DEPUTY CHAIRMAN OSKAR LAFONTAINE, WHOM THE PARTY HAS NOMINATED ITS CANDIDATE FOR CHANCELLOR, SAID IN A STATEMENT, RELEASED HERE ON NOVEMBER 7, THAT HE WELCOMES PRESIDENT MIKHAIL GORBACHEV'S FORTHCOMING VISIT TO GERMANY

LAFONTAINE NOTED THAT THE SOVIET PRESIDENT'S VISIT TO UNITED GERMANY IS TIMED TO COINCIDE WITH THE FIRST ANNIVERSARY OF AN IMPORTANT EVENT IN THE COUNTRY'S HISTORY -- THE FALL OF THE BERLIN WALL.

GORBACHEV'S FOREIGN POLICY FACILITATED THE BREAK-THROUGH IN THE FIELD OF EAST EUROPEAN PEOPLES' RIGHT TO SELF-DETERMINATION AND DEMOCRATIC DEVELOPMENT, THE STATEMENT SAYS.

THE SOVIET PRESIDENT HAS MADE A SUBSTANTIAL CONTRIBUTION TO THE CREATION OF CONDITIONS NEEDED FOR GERMAN UNIFICATION AND FOR BRIDGING THE RIFT IN EUROPE.

AS A RESULT, REAL OPPORTUNITIES HAVE OFFERED THEMSELVES FOR BUILDING A EUROPEAN-SCALE PEACEFUL ORDER, AND THESE OPPORTUNITIES SHOULD BE USED. EQUITABLE COOPERATION IS THE BASIS FOR EUROPEAN INTEGRATION IN THE POLITICAL, ECONOMIC AND HUMAN RIGHTS FIELDS.

THE GERMAN SOCIAL DEMOCRATIC PARTY APPROVES OF THE BILATERAL DOCUMENTS DUE TO BE SIGNED DURING GORBACHEV'S VISIT -- THE TREATY OF GOOD-NEIGHBORLINESS, PARTNERSHIP AND COOPERATION AND THE TREATY ON THE DEVELOPMENT OF WIDE-SCALE COOPERATION IN THE ECONOMIC, INDUSTRIAL, SCIENTIFIC AND TECHNICAL FIELDS.

SOCIAL DEMOCRATS WILL MAKE EVERY EFFORT TO TRANSLATE THESE PLANS INTO LIFE, LAFONTAINE'S STATEMENT SAYS.

THAT THE SOVIET PRESIDENT WILL ARRIVE IN GERMANY TO SIGN THE TREATIES IN PERSON, DESPITE THE COMPLICATED POLITICAL SITUATION AT HOME, TESTIFIES TO THE IMPORTANCE HE ATTACHES TO BILATERAL RELATIONS, BUNDESTAG FREE DEMOCRATIC PARTY DEPUTY OLAF FELDMANN SAID HERE TODAY.

"WE GERMANS," HE SAID, "MUST FEEL SPECIAL INTEREST IN DEEPENING THESE RELATIONS. WITHOUT SUCCESSFUL DEMOCRATIC AND PEACEFUL RESTRUCTURING IN THE SOVIET UNION AND EASTERN EUROPE, A FAIR AND SOLID PEACE IS IMPOSSIBLE IN EUROPE," HE SAID.

GERMAN MINISTER OF ECONOMICS HELMUT HAUSMANN SAID IN AN INTERVIEW WITH THE SAAR RADIO DEVOTED TO THE FORTHCOMING VISIT, THAT THE SOVIET UNION HAS NOT APPROACHED THE FEDERAL GOVERNMENT WITH A DIRECT REQUEST FOR CREDITS.

THE VISIT PURSUES OTHER OBJECTIVES, HE NOTED. IN ORDER TO IMPLEMENT REFORMS AIMED AT TRANSFERRING THE ECONOMY TO MARKET RELATIONS, THE SOVIET UNION NEEDS HARD CURRENCY. THIS IS WHY TALKS ARE UNDER WAY ON EXPANDING SOVIET LONG-TERM

SUPPLIES OF OIL AND GAS TO GERMANY. THIS WOULD GIVE THE USSR CURRENCY RESOURCES TO PAY FOR IMPORTS OF COMMODITIES AND ENSURE FUNDING FOR JOINT PROJECTS. THE MINISTER VOICED CONFIDENCE THAT ECONOMIC RELATIONS BETWEEN GERMANY AND THE SOVIET UNION WILL NOT FALL INTO THE BACKGROUND BECAUSE OF THE NEED TO INVEST INTO THE FIVE NEW FEDERAL STATES.

#90312u0001 11/08/1990 ~United Press International

(NOV. 8) UPI - About 100-thousand additional troops are being sent to the Persian Gulf. The Pentagon will send a minimum of 106-thousand-500 troops from Europe and the United States to the gulf. That number does NOT include support personnel. At least 50-thousand troops will come from Army tank units... another 40-thousand are Marines... and a minimum of 16-and-a- half-thousand sailors are on three aircraft carriers and the battleship U-S-S Missouri, which will go to the gulf.

Drug policy chief William Bennett is giving up his job. He says he will become a fellow at the American Enterprise Institute and is under contract to write a book about education and may likely do one on drugs, too. Bennett says he is satisfied that he accomplished his mission- the implementation of an anti-drug strategy- and obtained ''some results.'' He earlier served as Ronald Reagan's education secretary and director of the National Endowment for the Humanities.

The Department of Energy has suspended indefinitely construction at its Argonne National Laboratory near Chicago... citing inadequate worker health and safety controls. Suspended projects include building additions and other structural upgrades. The Energy Department's decision does NOT affect the lab's high-energy X-ray generator that will be completed in two years.

A Roman Catholic priest once accused of lying to bolster Claus von Bulow's defense in his attempted-murder case was indicted today. The Reverend Philip Magaldi was indicted in Providence, Rhode Island, on charges he stole 200-thousand dollars from his parish. Magaldi now heads a parish in Henrietta, Texas. Von Bulow was acquitted of trying to kill his wife, Sunny.

Three Navy employees have been arraigned on charges connected to a cross-burning on the lawn of a racially mixed couple in Oak Harbor, Washington. Oak Harbor Police Chief Thomas Miller told a news conference that on the night of the cross-burning last month, the three Navy mechanics watched news reports on the trial of a white supremacist in Portland, Oregon. The supremacist was convicted.

The U-S ambassador to the United Nations, Thomas Pickering, says the United States remains committed to overturning a 15-year-old U-N resolution equating Zionism with racism. But Pickering says he does NOT intend to push for a vote to repeal it at the current General Assembly session because he is NOT sure a majority supports the repeal.

Two baseball Hall of Famers will make anti-drug film for Little Leaguers. Hank Aaron and Jim Palmer will make the film at a federal government studio. Health Secretary Louis Sullivan made the studio available because he says when he was young, he would've listened to anything said by his hero... boxing legend Joe Louis. Sullivan says he's thrilled Little Leaguers can have similar anti-drug role models.

#90312u0088 11/08/1990 ~United Press International

NEW DELHI, India (NOV. 8) UPI - Prime Minister V.P. Singh lost a vote of confidence in the lower house of Parliament and resigned, ending his 11-month-old government in the world's largest democracy.

Singh submitted the resignation of his National Front coalition government Wednesday to President R. Venkataraman, who is expected to begin the process of forming a new government Thursday.

''Consequent to the voting ... on the motion of confidence, I and my colleagues in the Council of Ministers hereby tender our resignations so that the process of formation of a new goverment could begin,'' Singh said in the resignation letter.

''I wish to express to you my gratitude and of my council for the consideration and courtesy you have always extended to us.''

Singh began losing key political support last month in a row over relocating a Moslem mosque to make room for a Hindu temple. The collapse of the 11-month-old government came at the end of a day of debate and political rhetoric over the leadership of the world's largest democracy.

Of the 488 legislators, 346 voted against the prime minister and his administration. It was the first Indian government defeated by a Parliament vote.

''We will continue to fight for the principles for which we have sacrificed the government,'' Singh said after his defeat.

Although the future of India's leadership was still in doubt, it appeared that Chandra Shekhar, a dissident leader of Singh's Janata Dal party, might be allowed to form a government with the backing of former Prime Minister Rajiv Gandhi.

Shekhar and Gandhi met Tuesday and agreed to ''work together.'' Later, a Congress (I) spokesman said the party had decided to support the dissident leader in his efforts to form a government.

Former Deputy Prime Minister Devi Lal said he was ''delighted'' with Singh's defeat.

Shekhar emerged as the leading contender for the prime ministership on Monday when he and Lal split Singh's Janata Dal into two more or less equal factions.

Singh's political fortunes went into a nosedive Oct. 23 when the Hindu fundamentalist Bharatiya Janata Party withdrew its crucial support from his coalition government.

That blow came just hours after authorities arrested BJP President L.K. Advani when he failed to heed a government warning to halt a drive to relocate a Moslem mosque and begin construction of a Hindu temple to honor an important Hindu god.

The government feared the campaign would spark violence between Hindus and Moslems. The BJP pressed ahead with its plan, storming the complex surrounding the mosque in the northern Uttar Pradesh town of Ayodhya. Clashes between radical Hindus and police in Ayodhya and between members of both religions in six states left more than 200 people dead.

During a speech in Parliament Wednesday, Singh said he did not regret his decision to stop Advani and the temple construction plan.

Hindu radicals claim that the mosque that occupies the Ayodhya site was built by the Moghul emperor Babbar after he destroyed a temple marking the birthplace of Lord Rama, one of the most important gods in the vast Hindu pantheon.

Moslem leaders refute the claim and contend that no temple ever existed at the disputed place.

The Ayodhya dispute has been smoldering since February 1986, when a court agreed to allow Hindus to worship in the mosque. The move led to widespread communal riots in northern India.

Singh's coalition government ruled with the unlikely support of the Communist Party of India (Marxist), its left-wing allies and the right- wing BJP.

Support of the BJP was necessary for the survival of the coalition government, although the party was not a member of the coalition.

#90312u0099 11/08/1990 ~United Press International

JERUSALEM (NOV. 8) UPI - Followers of assassinated right-wing Rabbi Meir Kahane broke away from the funeral procession for the anti-Arab extremist, and attacked Arabs and journalists, injuring four people.

Kahane was buried Wednesday under heavy police security in Israel, the nation he wanted to ''purify'' by expelling all Arabs.

Despite warnings by authorities that violence would not be tolerated, small groups of Kahane followers broke away from a huge funeral procession to attack Arabs and journalists.

The extremists, chanting ''death to the Arabs,'' wounded two Arabs, stabbing one of them in the stomach, and injured two policemen trying to restore order. One group chased a television crew into the Israel Television building before being dispersed.

Police estimated up to 15,000 people joined the four-hour funeral, which included a 3-mile procession to the cemetery where hundreds of officers were deployed to prevent disturbances.

Kahane's body was flown to Israel from New York, where the extremist leader was shot dead Monday night. The body was first brought to Kahane's Jewish Idea seminary in the poor, working-class Shmuel Hanavi neighborhood where he found many of his supporters.

Several thousand mourners filled the narrow streets to hear eulogies for the extremist rabbi, ostracized by most of Israeli society. The crowd was subdued and responded only occasionally to the fiery speeches by Kahane's family and associates, several of whom called for vengeance.

''We will let our friend the machine gun talk. We will let our friend the knife talk,'' one speaker thundered.

At one point, some mourners chanted, ''Death to the Arabs,'' but the crowd did not join in. Activists from Kahane's Kach movement carried the organization's flags with a black fist and Star of David on a yellow field.

Followers of the American-born rabbi have warned of reprisals against Arabs for the assassination. An Egyptian immigrant to the United States, El-Sayyid Nosair, 34, has been charged with second-degree murder in the killing.

Dozens of police, many armed with Uzi submachine guns, lined the route of the funeral procession. Additional police patrols were deployed in Jerusalem and throughout Israel. Palestinians from the occupied territories were prevented from entering the holy city.

Kach members were warned ''that police intend to respond decisively against any obstructions of public order or violence against Arabs,'' a police spokesman said.

Kahane followers have frequently disrupted the funerals of Israelis killed in

Arab attacks, and been involved in anti-Arab reprisals.

Police provided protection for journalists, who have been assaulted by Kach activists. Many Arab workers stayed home from their jobs in Israel, fearing reprisal attacks.

Science and Technology Minister Yuval Ne'eman, a member of the far right-wing Tehiya Party who was to represent the government at the funeral, was barred from speaking because he supported the legislation that banned Kahane from parliament. However, Ne'eman later told Army Radio that Kahane was a ''proud Jew and a brave warrior.''

Shortly before the funeral, Kahane's anti-Arab views continued to cause controversy in the Israeli parliament, the Knesset. Left-wing members condemned his death, but attacked his views during a special session called to discuss his assassination.

Kahane advocated the expulsion of all Arabs from Israel and the occupied West Bank and Gaza Strip. He was elected to the Knesset in 1984, but was barred from poltics in 1988 by a law outlawing racist parties.

(NOV. 8) UPI - John Ogrodnick says he's still a little rusty but he's starting to get his scoring touch back. Is he ever.

Ogrodnick scored two goals and set up another during the Rangers' four-goal second period Wednesday night, helping New York snap a three- game losing streak with a 6-2 victory over the Buffalo Sabres.

The Rangers scored three goals - two by Ogrodnick - in a 2:59 span of the second period en route to their first victory over the Sabres since Feb. 24, 1987.

Ogrodnick was a late arrival to the Rangers' training camp and his early-season numbers reflected his tardiness. But lately he's been on a tear.

He's scored seven goals in his last five games and attributes his recent scoring prowess to nothing more than hustle.

''Earlier in the year, it was a timing thing, it was a little off,'' said Ogrodnick, who tallied 43 goals with the Rangers, but had difficulty re-signing with the team before the season. ''You've got to move your feet and find the holes. Before, I was standing still.''

Trailing 1-0 in the second period, the Sabres tied it on a goal by Dave Andreychuk. But then the Rangers got busy.

Ogrodnick got it started, breaking in on Buffalo goaltender Daren Puppa. Puppa stopped Ogrodnick's shot but was unable to cover the rebound and James Patrick poked it in at 8:06 for his third goal of the season.

The Rangers then notched their first power-play goal in four games and took a 3-1 lead at 13:35 when Ogrodnick took a feed from Darren Turcotte behind the

net and slid the puck under Puppa's right pad for his 10th goal of the season.

Ogrodnick then put the Rangers up 4-1 just 1:18 later, finishing a 2- on-1 break with Kevin Miller. Miller waited for Sabres defenseman Mike Ramsey to commit before passing to Ogrodnick charging the net.

Troy Mallette completed the Rangers four-goal outburst with his fourth goal of the season at 16:34. Mallette was parked in front of Puppa and banged in a pass from Bernie Nicholls.

The Rangers were flat in their Monday night loss to the Boston Bruins and were 0-for-19 on the power play before Ogrodnick's first tally.

''We weren't scoring, we went into a litle bit of a slump,'' Ogrodnick said. ''You have to look at it as 'Are we executing right?' You just have to work out of it.''

After a very slow start to the season, the Sabres improved. But they looked shabby on defense against the Rangers and Coach Rick Dudley wasn't pleased.

''I'm gonna treat this like a bad game,'' Dudley said. That's all. We've played pretty well lately and until I see a trend, I'm gonna treat ''l lately and un

Brian Mullen, Ray Sheppard and Nicholls collected two assists each for the Rangers and Kevin Miller added a goal and an assist. Mike Richter made 34 saves for New York.

Richter wasn't too concerned about the Rangers' recent slump.

''We had to dig down and pick it up one more notch,'' he said. ''We were playing okay when we lost those three games, but we barely put the puck in the net and we were just coming up short. A little pressure was there, but we know we had to play as well as we can and theings will take care of themselves.''

New York defenseman Randy Moller swffered a dislocated left shoulder late in the second period after colliding with Buffalo's Mike Foligno. He is expected to be sidelined 4 to 5 weeks.

Elsewhere in the NHL, Boston blanked Montreal 2-0 and the New York Islanders defeated New Jersey 6-3.

-- AROUND THE NHL --

Bruins 2, Canadiens 0

At Montreal, Andy Moog turned aside 23 shots to earn his first shutout of the season and Dave Christian scored a power-play goal one minute into the third

period to snap a scoreless tie. The victory kept the Bruins in first place in the Adams Division, two points ahead of the Canadiens, who had a three-game undefeated streak snapped.

Islanders 6, Devils 3

At East Rutherford, N.J., Patrick Flatley scored his second goal of the game during a four-goal third period to pace New York. Flatley's 11th goal of the season gave New York a 4-3 lead at 13:35 of the third. With the Islanders on the power play, Flatley took a drop pass from Brent Sutter and beat goalkeeper Sean Burke with a 10-footer. Pat LaFontaine had two goals and an assist for the Islanders.

#90312u0142 11/08/1990 ~United Press International

TOKYO (NOV. 8) UPI - Former Prime Minister Yasuhiro Nakasone returned Thursday from Iraq with 74 freed Japanese hostages amid questions about what he may have promised Saddam Hussein to win their release.

The number of Japanese hostages freed had been expected to reach 77, but in a capricious twist Iraqi authorities at the last moment withdrew exit permission for three hostages, a senior member of Nakasone's delegation said. It was unclear why permission was withdrawn.

The three were reportedly replacements for men who refused to leave their fellow captives behind.

Nakasone went to Baghdad Saturday to seek the release of the more than 300 Japanese who were trapped in Iraq and Kuwait. In addition, he formally demanded the release of all other hostages, the Foreign Ministry said.

The Nakasone mission, though unofficial, raised questions of whether Japan was cutting a separate deal with Iraq.

In a press conference following his arrival, Nakasone said, ''We didn't make any promises; we didn't leave behind any press release or communique which could obligate the Japanese government.''

The delegation adhered to Japan's official position that Iraq should comply with United Nations resolutions by withdrawing from Kuwait and releasing all hostages unconditionally, said Nakasone, 71.

But he said he also conveyed Japan's desire for a peaceful solution to the Persian Gulf crisis.

The Iraqis reportedly offered to free all their hostages if Japan would promise to oppose any military assault on Iraq.

Despite Nakasone's claim that he gave no promises, speculation abounded in the Japanese press that he had accepted Iraq's position on linkage during his five-day visit to Baghdad.

''It is almost certain that he has agreed that the invasion of Kuwait is linked to the Palestinian problem and that a comprehensive solution to the region's problems must be sought,'' the daily Mainichi Shimbun said in a dispatch from Baghdad.

In addition, Nakasone reportedly appealed in a meeting with Iraqi leaders for the release of all Japanese on the grounds that his country had no troops in the gulf.

While Nakasone was in Iraq, Japan's ruling Liberal Democratic party, of which he is a senior member, abandoned its attempt to pass a bill that would have authorized sending troops to the area as part of a ''United Nations Peace Cooperation Corps.''

On Thursday, a spokesman at Liberal Democratic Party headquarters said a meeting would be held with members of the opposition later in the day to decide on a plan for shelving the bill.

Among the 74 ex-hostages who arrived at Tokyo's Haneda airport in morning sunshine were some who appeared to have suffered in captivity.

One man seemed to be injured and had to be helped down the stairs from the jumbo jet. Another man left in a wheelchair, while several others looked weatherbeaten and worn.

A third of the freed hostages had been held at strategic sites in Iraq or Kuwait, where conditions are reportedly harsh.

The other two-thirds were Japanese businessmen who were trapped in Baghdad but not otherwise restricted, news reports said.

The freed hostages were greeted by tearful relatives in a cordoned- off area of the airport.

(NOV. 8) UPI - Around the world... around the clock... the latest news from U-P-I.

U-S Secretary of State Baker is reminding world leaders that the use of force is still a real possibility to resolve the standoff in the Persian Gulf. Baker arrived in Moscow yesterday for talks today with Soviet President Gorbachev

and the Soviet foreign minister.

The chairman of the Democratic National Committee says ''Reaganomics is dead.'' Ron Brown issued his pronouncement following midterm elections across the nation Tuesday. Brown also believes President Bush will have an uphill battle should he decide to run for relection, describing him as ''clearly vulnerable.''

NASA says an investigation into a series of nine embarrassing mishaps at the Kennedy Space Center did NOT turn up any ''common threads.'' The agency took a look at incidents during the past 13 months. The mishaps included a 70-pound, nine-foot-long beam that fell through a shuttle's engine room.

Another member of Jeffrey Don Lundgren's religious cult was sentenced to life in prison yesterday in Painesville, Ohio. Daniel Kraft pleded guilty in the April 1989 slaying of a family belonging to the cult. Three others have been convicted in the case, and charges are pending against another suspect.

The Egyptian-born boiler repairman accused of killing right-wing Rabbi Meir Kahane was arraigned yesterday at his hospital bedside. The suspect did NOT enter a plea to charges that he fired the bullets that killed Kahane. But police say he gave a written statement late Tuesday denying the shooting.

President Bush will salute William Bennett and accept his resignation in a White House ceremony today. Bush's chief anti- drug enforcer is stepping down after 20 months on the job. The White House says Bennett does NOT have a new job lined up, he simply wants to move up.

A bizzare trial in Oshkosh, Wisconsin, involves a woman who psychiatrists say has 46 personalities. The woman... and three of her personalities... were sworn in yesterday to testify about a sexual encounter one of her personalities had with the defendant in the case, who is charged with rape.

#90312u0187 11/08/1990 ~United Press International

LOS ANGELES (NOV. 8) UPI - Some of the most recognizable movie sets at Universal Studios were reduced to ashes in a spectacular fire, but the reality of the rubble turned out to be a tourist attraction on its own.

The trams were filled with tourists Wednesday and Universal said it appeared to be more than business as usual as the visitors snaked along the streets of the backlot past blackened ash heaps that hours before had been the facades that made moviegoers believe they were on the streets New York or Chicago.

Several of the flimsy wooden structures - which look real only from the front and are held up by struts in the back - went up in a firestorm Tuesday night that police are calling arson.

A newly hired security guard who was on duty at the time was arrested after being questioned by arson investigators. Michael J. Huston, 40, who relatives said is a mentally disabled Vietnam veteran who had not had a regular job in 10 years, was arrested shortly after dawn.

Huston was booked on suspicion of arson and held on $1 million bail. His grandmother, Dorothy Montanari, told KCAL-TV that Huston told her, ''You saw that fire on TV? I did it and I'm going to jail.''

Montanari said her grandson, who lived with his mother, did not say if the fire had been set deliberately. Another relative said, ''All I can say is that if he did it, it was an accident.''

Deputies released little information about the suspect except to say he was on duty when the blaze erupted on a sound stage on the back lot at one of the world's most popular tourist attractions.

Fanned by Santa Ana winds gusting to 50 mph, the flames burned for nearly three hours, racing through sets used in such movies as ''Dick Tracy,'' ''The Sting,'' ''Music Man,'' and ''Back To The Future.''

About 200 studio employees, some tour groups, two nearby restaurants and a large theater complex were evacuated, but the only person injured was a firefighter who suffered minor burns.

At the Universal City Hilton about a half-mile away, roadblocks delayed access to the Republican Party's election-night celebration.

Portions of the back lot destroyed included Courthouse Square, where ''Back to the Future'' was filmed; the Dick Tracy Building; the New York Street and New York Alley; Brownstone Square and the set where portions of ''Ben Hur'' were filmed.

Sylvester Stallone's latest movie, ''Oscar,'' will be delayed because the fire burned down its set and charred several antique cars. The fire also damaged the King Kong exhibit, but sprinklers saved the giant ape and the computers that run it. The vaults containing the studio's priceless collection of original film negatives were saved.

An exact damage figure had not been arrived at, but Dan Slusser, general manager of Univeral Studios, said it would be in the millions.

More than 400 firefighters and several water-dropping helicopters battled the blaze, and the flames and smoke could be seen for miles. Firefighters said chemicals and explosives used in filming and on the tram tour fed the fire.

MCA Inc., the parent company of Universal Studios, said the fire destroyed

about 20 percent of the backlot facades, but spared the sound stages where many TV shows are made. MCA said the damaged sets would be restored within six months.

''MCA believes that the loss is fully covered by fire and business-interruption insurance,'' the entertainment giant said in a statement.

Industry analysts said the fire will probably not have any impact on Matsushita Electric Industrial Co.'s pending buyout of MCA in a deal worth an estimated $8 billion.

''The fire is sort of like having a fire in a closet where you were keeping old things you didn't want to throw away,'' said Dennis McAlpine of Oppenheimer & Co. in New York. ''There can't be much value, for example, in the set for 'The Sting,' since it was made more than 15 years ago.''

#90312u0213 11/08/1990 ~United Press International

(NOV. 8) UPI - Storms dumped snow on New Mexico Thursday, brought heavy rain that caused flooding in Texas and brought high winds to Wyoming, while cold weather covered the East.

A winter storm warning was in effect for the south central mountains of New Mexico and snow and freezing rain hit the southeast and east central plains, while Albuquerque received more than 4 inches of snow and nearly a foot fell on Quemado Lake.

The storm was moving through the south central mountains, bringing accumulations of up to 8 inches, but weather was clearing over much of the state.

Very moist warm air from the Gulf of Mexico confronted colder air moving in from the west in central Texas, bringing steady rain to the region and prompting flood warnings for the Rio Grande plains, Austin, the hill country and much of south central Texas.

Rainfall of 2 to 3 inches was possible throughout the region, parts of which had received an inch of rain in the past day. The storms in New Mexico and Texas were on a collision course, and could bring more heavy rain to Texas.

Strong winds gusting to 45 mph caused blowing and drifting snow near Casper Wyo.

In the Northwest, a small craft advisory remained in effect along parts of the Washington coastline, while high winds eased along the northern front range of the Rockies and in upper Yellowstone Valley in Montana.

Clear skies and cold temperatures covered much of the east, with lows in the 30s in parts of Virginia and Maryland.

#90312u0277 11/08/1990 ~United Press International

(NOV. 8) UPI - President Bush has scheduled a ceremony at the White House today to honor federal drug policy chief William Bennett, who is resigning. White House spokesman Marlin Fitzwater says President Bush feels that Bennett ''has provided extraordinary leadership and service to the country.'' Bennett's job was created under the Anti-Drug Abuse Act of 1988.

A security guard at Universal Studios in California is being held on one-Million dollars bond after being arrested and charged with suspicion of arson in a huge fire at the tourist attraction. Officials released few details about the case against Michael Huston, except to say that he was on duty Tuesday night when the fire broke out on a back lot and quickly spread.

A spokeswoman for Santa Fe railroad says the tracks are expected to be clear by late today after a collision between two freight trains yesterday in Corona California. The crash set off a fire that left four crew memeber dead and four injured. The accident occurred when one of the trains rolled into the path of the other, and burst into flames.

The Food and Drug Administration yesterday banned 223 ingredients in

medications that treat afflictions from acne to dandruff. The F-D-A said it took the action because drug manufacturers did NOT submit proof that the ingredients work. Products affected include Tegrin for Psoriasis Lotion and Cream... Packers Shampoo and Packers Soap... and Donnagel .

A new study reports an increase in the amount of sexual activity among teen-age girls in recent years. The report by the Alan Guttmacher Institute found that the proportion of sexually active females between the ages of 15 and 17 rose from 32 percent in 1982 to 38 percent in 1988. Among teen-age girls between the ages of 15 and 19, the rate of sexual activity rose six percent.

The president of India is expected to begin the process of forming a new government today. After losing a vote of confidence in the lower house of parliament yesterday, Indian Prime Minister V-P Singh submitted his resignation. Singh's demise began last month in a dispute over relocating a Moslem mosque to make room for a Hindu temple.

#90312u0362 11/08/1990 ~United Press International

(NOV. 8) UPI - Iraq may be developing deadly new biological weapons to strike allied troops if war breaks out in the Persian Gulf, Arab sources said Thursday, and Kuwait's exiled defense minister says Iraq collected 650 U.S.-made Hawk missiles in its Aug. 2 invasion of Kuwait.

An Arab government official quoted his country's intelligence reports as saying Iraqi scientists are believed to have developed a more powerful strain of the bacteria bacillus anthracis, which causes anthrax and highly fatal pneumonia and skin diseases.

''The Iraqis have been working on anthrax for quite some time but we understand that they have now developed a deadly strain,'' said the official, who asked that his name and nationality not be used.

The claim came a day after the U.N. Security Council's sanctions committee warned that medicine sent to Iraq could be used in chemical and biological warfare.

Iraqi President Saddam Hussein has not yet used to biological weapons but did use chemical weapons against Iranian troops in the 1980-88 Persian Gulf War and against Iraqi Kurds in Halabja two years ago, killing up to 5,000 Kurds.

Kuwait's exiled defense minister said in remarks published Thursday that Iraqi troops captured 650 U.S.-made Hawk ground-to-air missiles when they invaded oil-rich Kuwait on Aug. 2.

But Sheikh Nawaf al Ahmad al Sabah said he doubted the Iraqis could use them

because ''Kuwaiti army technicians dismantled their launchers after Iraqi troops entered Kuwait.''

Egypt's President Hosni Mubarak made a last appeal Thursday to Saddam to reconsider his occupation of Kuwait and said the alternative would be ''dreadful.''

''Hope (of an Iraq withdrawal) exists until the last minute,'' Mubarak told reporters at Cairo airport while seeing off visiting Zairean President Mobutu Sese Seikou.

''We don't want to see the destruction of Iraq, but this depends on the stance of Iraqi President Saddam Hussein ... the alternative (to withdrawal) would be dreadful,'' Mubarak said.

Also in Egypt, a spokeswoman for the U.S. Embassy denied newspaper reports that the United States stationed B-52 bombers in the country.

''There are no B-52 bombers anywhere in the Arab Republic of Egypt,'' the spokeswoman said.

Mubarak's appeal came as both sides used ''get tough'' rhetoric: British Prime Minister Margaret Thatcher warned that time was running out for Saddam and the Baghdad government accused Thatcher of being unstable.

Thatcher's warning to Saddam was her sternest yet, demanding the Iraqi president withdraw his own troops ''soon'' from Kuwait or the multinational force assembled against him would ''remove him by force.''

''Time is running out for Saddam Hussein,'' she told the opening session of Parliament. ''The implacalble message from this House must be either he gets out of Kuwait soon, or we and our allies will remove him by force and he will go down to defeat with all its consequences.''

Iraqi Information Minister Latif Nsaif Jassim said Thatcher's speech was filled with hatred for the Iraqi people and showed that her mind was unstable.

Secretary of State James Baker was less pointed but said Wednesday the use of force could not be ruled out and that there can be no partial solution to the crisis caused by the Iraqi invasion of Kuwait.

''Obviously we would all like to see a peaceful, diplomatic and political solution to this problem,'' Baker told reporters in Ankara, Turkey, en route from the Middle East to Moscow. ''At the same time ... we cannot rule out the possible use of force.''

Baker has been meeting for several days with U.S. allies, reportedly seeking their support for a possible military strike against Saddam.

Kuwait's exiled premier took the hardest line, calling for an immediate military strike to oust Iraqi troops from his tiny emirate.

Kuwait's exiled Premier Sheikh Saad al Abdullah al Sabah told the Bahraini daily Al Ayam the United States should strike Iraq and rejected any territorial compromise with Baghdad.

''The only option available now is the military one because the Iraqi regime has insisted not only on challenging the will of the international community, but also continues to hold foreign hostages,'' Saad said.

Saad's remarks indicated the exiled Kuwaiti royal family is losing patience with U.N. economic sanctions against Iraq and wants more drastic measures.

Iraq also stepped up its war of words, charging the United States with ''aggressive intentions'' in a letter to the U.N. General Assembly.

Iraq said the item should be included in a debate because the removal of American forces is a ''humanitarian duty'' that complies with ''all the purposes and principles of the charter of the United Nations.''

-30- 4989

#90312u0429 11/08/1990 ~United Press International

TOKYO (NOV. 8) UPI - Seventy-four Japanese hostages arrived in Tokyo from Iraq Thursday as Prime Minister Toshiki Kaifu announced abandoment of a plan to send non-combat troops to the Persian Gulf.

Japanese officials were quick to say that Kaifu's decision not to send troops to the Middle East was unrelated to Iraq's release Wednesday of 74 Japanese men held against their will since Iraq's invasion of Kuwait on Aug. 2.

Kaifu said he wanted to send troops for non-combat duty to assist in the U.S.-led military array against Iraw but his proposal was rebuffed by the Japanese Parliament.

''We have a democratic legislature and despite putting forward what we thought was a good bill, the discussion between opposition and ruling party members has led to this result (the withdrawal of the bill),'' Kaifu said.

''Now we will start discussions with all members to come up with a better bill '' Kaifu said.

Former Prime Minister Yasuhiro Nakasone, who won the release of the hostages after meeting with Iraqi leader Saddam Hussein, denied his mission did anything to disrupt the unity of the nations tryng to force Iraq from Kuwait.

The Japanese media, however, reported that Nakasone appealed for the hostages freedom on the grounds that no Japanese troops were in the gulf.

White House spokesman Marlin Fitwater said in Washington Wednesday that Nakasone, former Chancellor Willy Brandt of West Germany and former British Prime Minister Edward Heath, who also made trips to Baghdad, were ''being used'' by Hussein.

Nakasone denied it in a news conference following his arrival.

''We didn't make any promises. We didn't leave behind any press release or communique that could obligate the Japanese government,'' Nakasone said.

He said he refused to sign a joint communique because the contents were unacceptable.

A senior Foreign Ministry official strongly denied any connection between the release of Japanese hostages and the shelving of the bill that would have given Kaifu the power to send troops to the Gulf.

''There is no linkage between the two,'' said the official, who asked not to be named.

Ichiro Ozawa, the secretary general of the ruling Liberal Democratic Party, met with opposition parties Thursday to convey Kaifu's decision to drop the bill.

Public opposition to sending Japanese troops overseas killed any chance the bill had of passing, analysts said.

Ozawa discussed an alternative bill that would involve a volunteer civilian corps.

The number of Japanese hostages to be freed was announced earlier as 77 but Iraqi authorities at the last moment withdrew exit permission for three hostages, a senior member of Nakasone's delegation said.

The three were reportedly replacements for men who refused to leave their fellow captives behind.

Nakasone, 71, went to Baghdad Saturday to discuss the release of the more than 300 Japanese trapped in Iraq and Kuwait. He also formally demanded the release of all foreign hostages, the Foreign Ministry said.

Despite Nakasone's claim that he gave no promises, speculation abounded in the Japanese press that Nakasone accepted some Iraqi positions during his five-day visit to Baghdad.

''It is almost certain that he has agreed that the invasion of Kuwait is linked to the Palestinian problem and that a comprehensive solution to the region's problems must be sought,'' the daily Mainichi Shimbun reported from Baghdad.

A third of the freed hostages had been held at strategic sites in Iraq or Kuwait, where conditions are reportedly harsh. The others were Japanese businessmen trapped in Baghdad but not otherwise restricted, reports said.

The freed hostages were greeted by tearful relatives in a cordoned- off area of the Tokyo International Airport.

#90312u0490 11/08/1990 ~United Press International

SEOUL (NOV. 8) UPI - North Korea is pushing atomic energy development and could produce nuclear weapons in the late 1990s, the South Korean Defense Ministry said Thursday.

In its ''1990 Defense White Paper,'' the ministry said if war breaks out between South and North Korea, the casualties would reach 2.4 million in a week and increase by more than 5 million in a month.

The white paper said South Korea has an edge in terms of potential capability to carry out a protracted war, but North Korea is superior in terms of standing forces.

North Korea built a large atomic power research complex at Nyongbyon, north of the capital Pyongyang, in 1964 and introduced an atomic reactor from the Soviet Union in the following year, the white paper said.

''With the first reactor as the model, North Korea has built a second reactor and is expected to complete a third one by the end of this year, '' it said.

''North Korea has plants to produce and refine uranium. When nuclear fuel reprocessing facilities are in operation it should be able to extract plutonium in a year or two and it could have its own nuclear weapons after 1995.''

North Korea also produces and has in stock a large amount of chemical and biological weapons and is giving intensive training to its troops for chemical and biological warfare, the white paper charged.

North Korea has 990,000 men on active duty, including 86,500 in the Army, 45,000 in the Navy and 80,000 in the Air Force, the white paper said. In addition there are 6 million on reserve duty, it said.

South Korea has 655,000 on the active list, including 550,000 in the Army,

60,000 in the Navy and 45,000 in the Air Force, and 4.4 million reservists, the white paper noted.

In the area of military hardware, North Korea is far superior to South Korea with 3,600 tanks, 9,400 artillery pieces, 426 warships, 24 submarines, 240 support vessels, 840 warplanes, 480 support aircraft, and 280 helicopters, it said.

South Korea has 1,500 tanks, 4,200 artillery pieces, 150 warships, 40 support vessels, no submarines, 500 warplanes, 190 support aircraft, and 530 helicopters, it said.

In case of war 90 percent of the facilities in the North and the South will be destroyed, the paper said, which points up the need for arms control.

North Korea has not given up its goal to communize South Korea and as a result South Korea, while approaching the question of arms control, must continue to beef up its military capabilities to deter North Korean threats, the white paper said.

Despite the massive firepower in both Koreas, the separated Asian nations have recently instituted cultural exchange programs and their leaders have each paid historic visits to the other's capital.

Their rapprochement was triggered, in part, by the collapse of communism in Eastern Europe and many Korean hope to the reunification of Germany will serve as an example to reunite their nation, divided since the end of World War II.

-30- 3206

#90312u0496 11/08/1990 ~United Press International

(NOV. 8) UPI - Fears of imminent war in the oil-rich Persian Gulf hammered stock prices on major global markets Thursday as a fresh round of saber-rattling snuffed out buying enthusiam.

Worried investors unloaded stocks in Tokyo, Hong Kong, Singapore, Bangkok, Seoul, Manila, Taiwan, and New Zealand as cautious trading prevailed.

Analysts said markets were shaken by reports British Prime Minister Margaret Thatcher had warned time was running out for a peaceful solution to the Gulf crisis.

Reports U.S. Secretary of State James Baker had sent an ultimatum to Iraqi President Saddam Hussein through a Chinese intermediary added to investors' worries, despite a denial from Baker, market watchers said.

Baker said Wednesday the use of force could not be ruled out and there can be no partial solution to the crisis caused by the Iraqi invasion of Kuwait.

''Obviously we would all like to see a peaceful, diplomatic and political solution to this problem,'' Baker told reporters in Ankara, Turkey, en route from the Middle East to Moscow. ''At the same time ... we cannot rule out the possible use of force.''

Baker has been meeting for several days with U.S. allies, reportedly seeking their support for a possible military strike against Saddam.

Reports the U.S. may send thousands of troops and tanks from Europe to the Gulf drove the U.S. dollar higher in early trading on major foreign currency markets in nervous but quiet trading.

In Tokyo, stocks fell below the 23,000 barrier in thin trading on the Tokyo Stock Exchange as the fear of war gripped Japanese investors.

The Nikkei Average of 225 selected issues, which fell 465.50 points Wednesday, tumbled 530.44 points - or 2.3 percent - to 22,969.81. It was the Nikkei's third straight loss and the first time the key index finished below the 23,000 level since Oct. 12.

The broader-based Tokyo Stock Exchange Price Index, which lost 29.30 points Wednesday, sank 30.41 points to 1,721.91.

Declines overpowered advances 823 to 138, while 106 issues remained unchanged.

Trading activity was again light, as only an estimated 360 million shares changed hands, up slightly from the 335 million shares traded Wednesday.

Meanwhile in Hong Kong, stocks prices fell sharply on the Hong Kong Stock Exchange, but a late round of bargain hunting trimmed heavy early losses.

The benchmark Hang Seng Index, which lost 11.52 points Wednesday, fell another 22.75 points to 2,932.44.

Among the narrower indexes, financials shed 12.50, utilities dropped 7.89, industrials lost 29.61 and properties fell 46.04 points.

Volume amounted to around an estimated 779 million shares, compared with 774 million shares changing hands Wednesday.

In Singapore, stocks slid in light trading for the fifth consecutive session on the Singapore Stock Exchange.

The Straits Times Industrial Index, which lost 11.87 points Wednesday, fell another 12.92 points or 1.17 percent to 1,095.55. The broader-based All Singapore Index fell 3.56 points or 1.15 percent to 306.62.

Volume amounted to around an estimated 27.9 million shares, compared with 29.4 million shares Wednesday.

In Bangkok, stocks slid in thin trading on the Thailand Stock Exchange. The Securities Exchange of Thailand Index, which added 0.36 points Wednesday, slipped 1.06 points to 661.19.

In Manila, stocks closed lower on the Manila Stock Exchange. The Manila Composite Stock Index of 25 selected issues lost 12.02 points to 596.35.

In Taipei, stocks were lower on the Taiwan Stock Exchange. The Taiwan Weighted Index tumbled 135.87 points to 3,554.00.

In Seoul, stocks closed sharply lower on the Korean Stock Exchange. The Korean Composite Stock Index fell 13.72 points to 707.24.

In Wellington, stock prices closed lower in nervous trading on the New Zealand Stock Exchange. The Barclays Share-Price Index fell 15.73 points to 1,292.18.

Elsewhere, lower employment figures reinforced hopes of an early cut in interest rates in Australia, sending stock prices higher in light trading on the Sydney Sharemarket.

The All Ordinaries Index, which gained 17.2 points Wednesday, added another 7.3 points to 1,342.3. The All Industrials Index rose 15.5 points to 2,010.7 and the All Resources Index added 1.6 points to 823.1.

Analysts said investors viewed the unemployment rate for October of 7.6 percent - up from 7.4 percent in September - as further evidence that the economy was slowing.

#90312u0521 11/08/1990 ~United Press International
BERLIN (NOV. 8) UPI - When Berliners celebrate the first anniversary of the collapse of their hated Wall Friday there will be little evidence to remind them of the Cold War barrier that divided the city for 28 years.

Berlin's iron curtain is scattered in pieces all over the world - in galleries hotels and on the lawns of the rich.

When the wall came tumbling down Nov. 9, 1989, it was the first step to overcome the 40-year division of East and West Germany and led to German reunification Oct. 3.

Thousands of East Germans stormed the wall that mild November night. Laughing and weeping strangers embraced each other in the streets, champagne corks popped and the entire city turned into one big party.

''The most amazing experience of my life,'' Dirk Rumberg, 27, a publisher's assistant, recalled this week..

''We pushed our way through the crowds to the Invaliden Strasse border crossing,'' he said. ''When I reached the front, the last control gate was opened and a terrific cheer rose up from the crowd.''

''Before we crossed over the border I asked an East German border guard if we would be able to cross back over again,'' Rumberg said. ''He told me: ''I have opened the gate, why the hell should I close it now?''''

For millions of television viewers around the world, coverage of the Berlin street celebrations - with people literally dancing on the wall - was a powerful image heralding the final burial of the cold war.

Friday's celebrations will be far more subdued with most of the wall already sold off and scattered around the world.

A memorial will be unveiled at the Reichstag, the pre-World War II German parliament, to the 77 people shot dead while trying to cross the wall to the West and a bronze plaque commemorating the Nov. 9 opening of the wass will be inaugurated at one of the former border crossings.

The ceremony will also include a re-reading of the Communist Party's declaration on freedom of travel that set off the storming of the wall one year ago.

Over the past year, huge slabs of the wall - each looking like a giant uprooted tooth - have been auctioned off, donated to dignitaries and exhibited in galleries.

Former President Ronald Reagan received a piece in memory of his urging Soviet leader Mikhail Gorbachev in 1987 to ''take down the wall.''

Slabs of the wall - many sprayed with obscene graffiti - also decorate the villas and penthouses of the rich from New York to Tokyo, along the French Riviera and in the German hinterland.

Irvin Dyer, 24, an entrepreneur from Phoenix, bought $165,000 worth of wall and French Cognac queen Ljiljiana Hennessy spent about $30,000 on one slab.

The 90-mile steel and concrete wire wall, which was built on Aug. 13, 1961, has disappeared in downtown Berlin; only 2.5 miles of the wall still remain in the outskirts of the city.

When thousands of East Germans fled to the west in the summer and early fall of 1989 because of border openings in Hungary and then Czechoslovakia, the

Stalinist leadership under Erich Honecker was faced with its toughest and last crisis.

Pressured by the exodus from the country and mass pro-democracy demonstrations within the country, Honecker was forced to resign Oct. 18.

Two weeks of leadership shuffles, resignations and new rules plunged the country into turmoil, culminating in the fall of the wall.

To East Germans, the collapse of the wall meant freedom; to West Germans unity and to the world the end of the cold war.

''When a guard in front of me carrying an armfull of blue East German passports stumbled and spilled them all over the muddy, wet crossing,'' Rumberg said, ''I knew East Germany was finished as a country.''

#90312u0524 11/08/1990 ~United Press International

(NOV. 8) UPI - Police say three men are missing after a U-S military helicopter flying from Italy to the Hellenikon air base in Greece crashed today 40 miles east of Athens, Greece. The three-man crew is believed dead, but search and rescue teams are combing the area. The helicopter earlier reported mechanical trouble and landed on the island of Corfu for repairs. It crashed after taking off again.

The parent company of Universal Studios says the huge fire Tuesday night destroyed about 20 percent of the backlot facades, but spared the sound stages where many T-V shows are made. M-C-A says the damaged sets will be restored within six months. Universal reported an increase in its usual number of tourists yesterday, as the curious came to see the fire damage. .

A newly hired security guard who was on duty at the time of the Universal blaze was arrested after being questioned by arson investigators. Relatives of Michael Huston describe him as a mentally disabled Vietnam veteran who had not had a regular job in 10 years. Huston was booked on suspicion of arson and held on one-Million dollars bail.

Philippine President Corazon Aquino says the Philippines will send a medical team to Saudi Arabia as a gesture of support. In a statement, Aquino hailed Saudi Arabia's efforts- in her words- ''to seek a just and peaceful solution to the present crisis in the Middle East.'' Aquino said an advance team headed by the Phillipine health secretary will leave Sunday to make arrangements with Saudi authorities for the medical mission.

Senior officials from 12 countries started gathering in Indonesia today for a meeting aimed at working out a draft treaty to settle the 12-year-old Cambodian conflict without any of the warring factions present at the talks.

Indonesia's foreign minister said the draft based on a U-N blueprint could be presented to the four rival parties for endorsement in Paris at the end of this month, or early next month.

A group called the Fund for a Feminist Majority says a record number of women candidates ran for office in this week's election. According to Fund figures, more than two-thousand women ran for state legislative office, 80 sought statewide seats and close to 70 took a shot a races for the House and Senate. Women won some big races, but there were NO major gains in the elections.

Officials in Manila say flames engulfed a domestic ship carrying at least 148 people in the southern Philippines, leaving a two-year-old girl dead and two women missing. Officials say the fire broke out in the engine room of the ship last night 520 miles southeast of Manila. 145 people were rescued by a passing salvage ship.

#90312u0533 11/08/1990 ~United Press International
ISLAMABAD, PAKISTAN (NOV. 8) UPI - Pakistan warned the United States Thursday it would maintain its close ties with Washington only as long as ''these relations do not adversely affect our independence.''

''We will not compromise our sovereignty and independence for the sake of obtaining foreign assistance,'' President Ghulam Ishaq Khan told a joint session of the new Parliament. ''We value highly our national pride and self respect.''

The United States on Oct. 1 suspended aid to Pakistan because President Bush was unable to certify to Congress that Islamabad is not trying to manufacture nuclear weapons.

Pakistan is the third largest recipient of U.S. aid, after Israel and Egypt, and was expecting $548 million next year as part of a $4.02 billion aid package. It has denied persistent reports it is attempting to make nuclear weapons.

The United States backs Pakistan-based Afghan guerrillas fighting the pro-Soviet govUrnment in Kabul since 1979. But Pakistan's strategic value to Washington diminished sharply following last year's Soviet pullout from Afghanistan.

''The basis of our friendship with United States has been mutual interest, commonality of values and regional security,'' Ishaq Khan said in his one-hour speech in the Urdu language.

''In recent times bilateral relations have been affected because of some extraneous factors. But we continue to give importance to our relations with the United States on the condition that these relations do not adversely affect our independence,'' he said.

''We hope the United States will not make an error in evaluating its friendship with Pakistan.''

He said ''Pakistan is a Moslem country and therefore we will always feel

closer to the Moslem world.''

The session of Parliament was boycotted by former Prime Minister Benazir Bhutto and legislators from her Pakistan People's Party in an apparent protest against Ishaq Khan.

The president on Aug. 6 dismissed Bhutto's 20-month-old government, accusing it of corruption and nepotism, dissolved the National Assembly and called new elections. Bhutto condemned the president's action as a ''constitutional coup.''

The PPP suffered a crushing defeat to the Islamic Democratic Alliance, a disparate army-backed coalition of parties opposed to Bhutto, in the Oct. 24 elections. IDA leader Nawaz Sharif was sworn in as prime minister on Tuesday.

''I am the happiest man in the world today,'' Ishaq Khan said. He said he had urged voters ''to make the correct decision on election day, and the nation has heeded my advice.''

But he appealed to the government and opposition ''to adopt a bipartisan approach on policies which are in the interests of the nation, to end polarization and join hands in national reconstruction.''

#90312u0554 11/08/1990 ~United Press International

MANILA, PHILIPPINES (NOV. 8) UPI - The Philippines and the United States made significant progress as talks resumed Thursday on the future of key U.S. facilities in the Southeast Asian nation, officials said.

A joint statement issued after all-day discussions at the opening of the second round of talks said ''the progress was so great'' the negotiators decided to work late into the night.

The statement said the discussions centered on security issues and the announcement by special U.S. negotiator Richard Armitage on Wednesday that the United States will pull out all its jet fighters from Clark Air Force Base before the expiration of American basing rights on Sept. 16, 1991.

The panels planned to continue tackling security matters on Friday and move

into other subjects before adjourning the two-day talks later in the afternoon. They hope to reach an agreement by January.

''We're talking about transition, were talking about access, were talking about presence,'' U.S. spokesman Stanley Schrager said. He said Thursday's discussions ''began to define these elements a little more precisely'' and that the process will continue Friday.

The Philippines hosts six U.S. facilities, including the sprawling Clark Air Base and Subic Bay Naval Station. Clark, home of the 13th Air Force, and Subic a repair and logistics center for the 7th Fleet, are the oldest and largest overseas U.S. facilities.

Washington provides Manila $481 million in aid for use of the installations, where some 40,000 troops, Defense Department employees and their dependents are stationed.

Armitage has indicated Washington wanted to phase out the facilities in 10 to 12 years and a limited military presence after that.

The Philippines served notice it would take over Clark and four smaller facilities at the expiration of the 1947 bases pact but is willing to consider a phase down of Subic.

Any extension of the treaty requires approval by the Philippine Senate, many of whose members regard the facilities as an infringement on national sovereignty.

#90312u0558 11/08/1990 ~United Press International

MANILA, PHILIPPINES (NOV. 8) UPI - Government troops captured a regional leader of the communist New People's Army as he readied to board a passenger jeep in the capital, a military official said Thursday.

Army Chief Maj. Gen. Guillermo Flores said Vicente Martinez, guerrilla commander in the Visayan region of the central Philippines, was captured by intelligence agents Wednesday in suburban Quezon City.

Flores said Martinez, who had a $18,000 reward for his capture, was alone and armed with a .357 Magnum revolver but did not resist arrest.

Martinez was also described as an ''alternate member'' of the central committee of the banned Communist Party of the Philippines, which has been fighting the government for 21 years.

The 40-year-old Martinez was the second ranking communist guerrilla leader to be captured in the capital in four days. On Sunday, troops arrested Reynaldo

Bernardo, the deputy chief of the communist hit squad operating in the capital.

Flores told a news confrence more than 1,000 regular guerrillas and officers of the 19,000-strong NPA have been forced to seek refuge in the capital because ''they are losing ground in the countryside.''

He said some of the rebel leaders were in Manila to direct the rebels' involvement in a violence-marred strike last month called by leftist workers to demand pay raises.

The military, meanwhile, reported an unidentified gunman Thursday shot and killed Rufino S. Carlos, 55, a legal officer of the government- owned Development Bank of the Philippines, in front of his house in Lucena City south of Manila.

#90312u0566 11/08/1990 ~United Press International

MANILA (NOV. 8) UPI - President Corazon Aquino's government will drop a civil suit against Imelda Marcos in a California court if the former first lady turns over $200 million the government claims her husband looted and stashed in Hong Kong, officials said Thursday.

David Castro, chairman of a presidential panel formed to recover assets the government thinks the late Ferdinand Marcos stole during 20 years in power, told reporters the return of $200 million could be regarded as a significant amount that could lead to a settlement.

''We have written our lawyers that we consider the amount significant if it is within that range,'' Castro said. He said if the Marcos funds deposited in five Hong Kong banks were within $200 million range, ''then we have committed that we will work for the termination of the U.S. court case,'' Castro said.

But Castro stressed that if the Hong Kong assets were less than dlrs 200 million, there will be no deal.

Castro said earlier that Imelda Marcos offered to turn over to the Philippines 60 percent of the assets deposited in Hong Kong but that the full amount was unknown. He said he will ask the California court to lift a freeze order on the Hong Kong assets to determine their value.

The Aquino government filed the civil suit in a Los Angeles district court in

1986 for the recovery of $5 billion it said the former dictator, who died last year in Hawaii, acquired illegally.

On Monday, attorneys said the Philippines had settled its civil claims against Saudi Arabian businessman Adnan Khashoggi and another Marcos associate, Roberto Benedicto, both named in the Los Angeles lawsuit.

Kashoggi and Marcos were acquitted of fraud and racketeering charges in New York in July.

Khashoggi, as part of the settlement, gave the Philippines real estate in Beverly Hills valued at $5 million and other properties in New York that were the subject of the criminal case. He also turned over artworks valued at $6 million to $8 million.

Benedicto has agreed to surrender assets totalling $43.4 million to settle the lawsuit.

#90312u0595 11/08/1990 ~United Press International

BRUSSELS, BELGIUM (NOV. 8) UPI - NATO's European commander and the head of the alliance's Military Committee will visit the Soviet Union next week for meetings with Soviet leaders, officials said Thursday.

U.S. Army Gen. John R. Galvin, the supreme allied commander for Europe, and Norwegian Gen. Vigleik Eide, chairman of the Military Committee, will visit from Nov. 11 to Nov. 15.

The trip follows the visit last month to NATO headquarters by Soviet Gen. Mikhail Moiseyev, chief of the Soviet military staff.

The NATO generals will participate in a wreath-laying ceremony on Nov. 13 at the Tomb of the Unknown Soldier in Moscow.

Galvin will also visit the Kiev Military Academy and the Soviet Black Sea Fleet at Sevastopol, while Eide is scheduled to meet with regional military authorities in Leningrad.

-30- 981

#90312u0596 11/08/1990 ~United Press International

OVERLAND PARK, KS (NOV. 8) UPI - The University of Missouri basketball program was barred from the 1991 NCAA Tournament and dealt a series of recruiting restrictions Thursday in a two-year probation handed down by the NCAA.

The men's team may not provide any expense-paid recruiting visits during 1991

and only one member of the coaching staff will be allowed for off-campus recruiting. The school was limited to one basketball scholarship during the 1991-92 academic year and two during 1992-93.

The penalty came one day after the University of Illinois basketball team was banned from postseason play for one year and placed on three years' probation for recruiting violations that included providing cars for recruits.

Missouri Coach Norm Stewart and assistants Bob Sundvold and Rich Daly were mentioned in charges of unethical conduct or providing false or misleading information to investigators. Stewart is also charged with a lack of institutional control.

Stewart remains under his usual contract. Sundvold and Daly are working under open-ended contracts that are renewed on a monthly basis.

The NCAA Committee on Infractions found Missouri guilty of giving financial aid to player P.J. Mays even though he was ineligible under the university's admissions policy. The NCAA charged the Missouri basketball staff ignored a letter informing them the player was ineligible.

The NCAA also charged the basketball program had an unmonitored expense fund that was used in violation of university, state and NCAA rules, had set up a ''casino party'' for recurits and was guilty of bringing recruits to campus in the summer before they enrolled.

The case against Missouri was opened when the school reported a possible violation Asistant Coach Bob Sundvold paid for a plane ticket to send Mays home. Mays was to try to straighten out his high school transcript, which had left him a Proposition 48 victim and thus ineligible to play as a freshman.

Other charges include granting Mays scholarship money for which, as a Proposition 48 non-qualifier, he was not eligible.

The Missouri investigation is similar to Illinois' only in the timing and that basketball was involved. Illinois was handed its third probation in six years (the other two were related to football), but Missouri had never before appeared before the Infractions Committee.

On Wednesday, Illinois was docked three basketball scholarships in each of the next two academic years. The NCAA also adopted several penalties that were imposed by the university, including the freezing of salaries of two assistant coaches and the denial of bonuses to the coaching staff for the team's participation in last year's NCAA tournament.

The announcement came following a 17-month investigation by the NCAA.

#90312u0623 11/08/1990 ~United Press International
ATHENS, GREECE (NOV. 8) UPI - The World Food Program is sending emergency food supplies to Cyprus for refugees in the Middle East in case war breaks out the semi-official Athens News Agency reported Thursday.

In a report from Nicosia, ANA quoted Derk G. Dewit, a WFP director, as saying the first shipment of nearly 8,000 tons of emergency food supplies is to arrive Monday in Larnaca, a port in Cyprus.

He said the cargo ship St. John was heading for Larnaca from New Orleans with 5,600 tons of rice, 680 tons of flour and 1,200 cartons of cooking oil.

Another shipment of 6,400 tons of food, including flour, fish, beef and sugar, will head for Larnaca next month.

The WFP, a Rome-based United Nations agency that provides emergency food supplies to developing countries during crisis, has drawn up contingency plans in anticipation of a war in the Persian Gulf over Iraq's invasion of Kuwait Aug. 2.

A multi-nation force of several hundred thousand troops, mostly Americans, is arrayed against Iraq in the gulf area.

Countries such as Egypt, Iran, Jordan and Turkey are expected to be flooded with refugees if war breaks out, he said.

Monday, Iran's official Islamic Republic News Agency said Tehran was bracing for 1 to 3 million refugees in case of war.

The Tehran newspaper Kayhan International said Baghdad, Basra and Kuwait had a combined population of some 6 million people, many of them expected to flee into Iran, the safest place for them in case of war.

Dewit said Cyprus is the most appropriate place to store the food because it is near the crisis zone and has the best storage facilities.

In September, a U.N. official told reporters in New York that relief organizations had contingency plans and six-month supplies of food in the event of war.

Thousands of refugees from Kuwait and Iraq fled to Jordan, Turkey, Iran and Saudi Arabia at the start of the crisis and more are expected if war does break out.

Greek Prime Minister Constantine Mitsotakis said he ordered his officials Wednesday to draw up plans to ration gasoline in case fighting breaks out and disprupts oil shipments, but he said it would take three months to have the

plan in place.

#90312u0624 11/08/1990 ~United Press International
WASHINGTON (NOV. 8) UPI - A light earthquake registering 4.1 on the Richter scale shook central New Mexico early Thursday, the U.S. Geological Survey reported.

There were no reports of damage.

It was the third light quake in the area in less than a year. The quake was centered near Balen, about 40 miles south of Albuquerque and 30 miles north of Socorro in the Rio Grande rift, a geological feature in which tremors are common, the survey said.

Survey scientists said the rift and resulting quakes are caused by western New Mexico moving away from eastern New Mexico at a rate of several inches per century.

-30- 796
#90312u0626 11/08/1990 ~United Press International
(NOV. 8) UPI - Kuwait's exiled defense minister says that Iraqi troops are in possession of 650 U-S-made Hawk ground-to-air missiles, left behind when Iraq invaded Kuwait three months ago. But he said he doubts that the Iraqi army would be able to use the Hawk missiles because he says Kuwaiti army technicians dismantled their launchers after Iraqi troops entered Kuwait. And a Gulf Arab government official says Iraq may be developing new and deadly biological weapons.

As 74 Japanese hostages arrived in Tokyo from Iraq today, Prime Minister Toshiki Kaifu announced that he is abandoning a plan to send NON-combat troops to the Gulf. Japanese officials say Kaifu's decision was in NO way related to the release in Baghdad yesterday of 74 Japanese men who had been held against their will. Former Prime Minister Yasuhiro Nakasone won the release of the Japanese hostages after meeting with Iraqi leader Saddam Hussein.

German Chancellor Helmut Kohl and Polish Prime Minister Tadeusz Mazowiecki arrived today in the border town of Frankfurt an der Oder for one-day talks on relations between the two countries. The two leaders immediately started talks expected to focus on Germany's recognition of its loss of territories to Poland in 1945, as well as the status of ethnic Germans in Poland.

Three crewmembers of a U-S military helicopter that crashed yesterday 40 miles east of Athens, Greece, are believed to be dead. A U-S Embassy statement said the helicopter was on a routine training flight and took off from the U-S Army Sixth Aviation Detachment in Italy. The chopper landed on a small island in

the Ionian sea for repairs, and crashed after taking off again.

Philippine officials say the government of President Corazon Aquino will drop a civil suit against Imelda Marcos if the former Philippine first lady turns over substantial funds allegedly looted and stashed away in Hong Kong. The Aquino government filed the civil suit in Los Angeles district court in 1986 for the recovery of five BILLION dollars that the former dictator allegedly acquired illegally.

The Philippines and the United States reportedly made significant progress at today's resumption of talks on the future of key U-S facilities in the Philippines. A joint statement issued after day-long discussions in Manila said ''the progress was so great,'' the panels decided to work late into the night. The negotiators plan to continue discussing security matters tomorrow and move into other subjects before adjourning the two-day talks later in the afternoon.

Two gunmen shot and killed a Roman Catholic man in front of his two- year-old son in his North Belfast home today. Officials say the man was the 65th victim of political violence in Northern Ireland this year. The man reportedly was watching television with his son when the gunmen entered his home through an UNlocked door and shot him at point blank range in the neck and chest.

WASHINGTON (NOV. 8) UPI - The Food and Drug Administration has approved the first drug to treat panic disorder, a mental illness expected to strike about 3 million Americans during their lives, it was announced Thursday.

The drug, alprazolam or Xanax Tablets, has been on the market for about 10 years for reducing general anxiety. However, until the action by the FDA, it could not be marketed for panic disorder.

Xanax is first and only drug in the United States specifically indicated for treatment of panic disorder, FDA spokeswoman Eva Kemper said. Doctors can prescribe government-approved drugs for any use they want, but insurers often refuse to pay for anything but FDA-sanctioned uses.

An estimated 3 million Americans - between 1 percent and 2 percent of the population - will suffer from panic disorder in their lifetimes, said The Upjohn Co., which makes Xanax. The disorder usually surfaces in early adulthood, and is often associated with intense fear of objects or situations, like being in a crowded room.

''When unrecognized or untreated, panic disorder can profoundly disrupt people's lives,'' Gerald Klerman, a psychiatric researcher of Cornell University Medical College in New York, said in a statement.

Panic disorder is characterized by repeated attacks of intense fear that causes chest pain, shortness of breath, dizziness, trembling, nausea and other signs of physical distress. People suffering an attack say they often feal like they are dying or losing their minds.

About 60 percent of people with panic disorder suffer problems in social and job functioning because they tend to avoid situations they think will trigger panic attacks. They also have a much higher risk of suicide than the general population.

In a study of more than 600 patients, 50 percent of Xanax-treated patients were free of panic attacks after four weeks, compared with 28 percent of patients receiving phony pills. The most common side effects associated with the the drug were fatigue and feeling sedated, Upjohn officials said.

The dose given the patients with panic disorder tends to be higher than patients with general anxiety, the company said.

Despite the apparent benefits of drug treatment, Dr. James Ballenger, chairman of the psychiatry department at Medical University of South Carolina, cautioned that most experts believe panic disorder is best treated with a combination of medication and psychological counseling.

#90312u0637 11/08/1990 ~United Press International

JAKARTA, INDONESIA (NOV. 8) UPI - Without any of the warring factions present at the talks, senior officials from 12 nations met Thursday to begin writing a draft treaty that would settle the 12-year-old Cambodian conflict.

Indonesian Foreign Minister Ali Alatas said he is hopeful the draft based on a U.N. blueprint will be presented to the four rival parties for endorsement in Paris at the end of November or in early in December at the latest.

The meeting is the first in a series before the resumption of the International Conference on Cambodia, which broke down in Paris last year.

Indonesia and France are co-sponsoring the session starting Friday. Those scheduled to attend also include representatives of the U.N. secretary-general and the other four permanent members of the U.N. Security Council: the United States, Soviet Union, China and Britain.

Delegates from Australia, Canada, Japan, Laos, India, Japan and Malaysia are also participating.

Sources said the Phnom Penh government, backed by Vietnam, requested the four rival factions be invited to Jakarta to participate in the drafting of the plan, but it was unlikely the request would be granted.

During the last round of talks held in Jakarta during September, the three-party resistance coalition nominally headed by Prince Norodom Sihanouk and Cambodian Prime Minister Hun Sen agreed on the formation of a Supreme

National Council that would include six members of the resistance and six from Phnom Penh.

Sihanouk's coalition includes his own followers, those of former Prime Minister Son Sann and the Khmer Rouge, blamed for the deaths of 1 million Cambodians during their four-year rule before the Vietnamese invasion in 1978. The United States provides aid to the non-communist factions, while China arms the Khmer Rouge.

The SNC would oversee the running of the country before free elections and is an integral part of a U.N. peace plan the factions have endorsed.

However, the SNC members have been engaged in a bitter squabble over leadership, with the resistance demanding Sihanouk be elected chairman. The Phnom Penh government has insisted Sihanouk can be chairman only if Hun Sen is elected vice chairman.

The resistance has rejected Phnom Penh's stance, arguing it would give legitimacy to the government installed by Hanoi.

Officials said the Cambodians may meet again in Bangkok soon to try to resolve the dispute amid intensifying pressure from the international community. The SNC also is charged with holding Cambodia's seat in the United Nations.

The seat was previously held by the resistance, but the United States in July withdrew diplomatic recognition out of fear the militarily superior Khmer Rouge could return to power.

While members of the U.N. Security Council said they would welcome the election of Sihanouk, the former monarch, as the leader of the SNC, they stressed the chairmanship should be decided by the Cambodians.

China is solidly behind Sihanouk. Premier Ling Peng said recently the election of Sihanouk was the most urgent task facing the council ''in order to make the organization start its work.''

BONN, WEST GERMANY (NOV. 8) UPI - Soviet leader Mikhail Gorbachev is scheduled to arrive Friday on a two-day visit to Germany and his first talks with Chancellor Helmut Kohl since a July meeting in the Soviet Union which cleared the way for German unification.

The talks are expected to focus largely on economic issues, including Gorbachev's ambitious program of economic reform.

Economics Minister Helmut Haussmann said that Gorbachev did not ''express any

direct request for credits to the Bonn government'' in advance of the visit.

But he said that the the two leaders will discuss Soviet sales of natural gas and oil to Germany.

He said Germany did more than any other country to assist the Soviet Union because ''we are the country with the know-how which can help reforms over there.''

Government sources in Bonn said that Kohl will ask his guest to outline his concept of possible German economic cooperation within the Soviet reform program.

Kohl is also likely to ask Gorbachev details of a proposed Economic Commission made up of officials of the central Soviet government and of the various republics.

As in past meetings - the two leaders have met five times before - the German chancellor is expected to raise the question of the estimated 2.5 million ethnic Germans living in the Soviet Union.

Kohl has made it clear in the past that he would like to see an improvement of conditions for the ethnic Germans in the Soviet Union rather than a massive exodus to Germany.

During their meeting in Bonn Friday, the two leaders are due to sign a 20-year friendship treaty designed to create the basis for a new political and economic relationship between the two European powers.

The treaty was initialed by German Foreign Minister Hans Dietrich Genscher and his Soviet counterpart Eduard Shevardnadze, Sept. 13 in Moscow.

''Now we can say with justification that the postwar period is over,'' Genscher said at the time.

The two nations will also sign a treaty on economic and scientific cooperation in Bonn Friday.

The treaties, along with two others dealing with the withdrawal of Soviet troops from eastern Germany were negotiated in conjunction with talks over the reunification of East and West Germany.

Gorbachev had given Germany the green light for unification when he last met with Kohl in the Soviet Union, July 15-16.

At the meeting in the Caucasian town of Schelesnowodsk, Gorbachev dropped his objections to a united Germany becoming a member of NATO, which formed the last hurdle to the merger.

After a day of talks in Bonn, Gorbachev will travel with his wife Raisa for what is being termed ''a private visit'' to Kohl's central German home of Oggersheim and the nearby city of Speyer, where he is scheduled to visit an almost 1,000-year-old cathedral.

#90312u0671 11/08/1990 ~United Press International
DETROIT (NOV. 8) UPI - Nissan Motor Corp. U.S.A. announced Thursday the recall of approximately 33,000 1987- through 1990-model Nissan Vans to replace power steering hoses that could leak and cause an engine compartment fire. The automaker said it is aware of only one minor injury resulting from the problem.

Nissan will make all repairs free of charge at authorized dealers after owners are notified by mail. Nissan discontinued sales of its Van model with the 1990-model year. The Nissan Axxess van is not affected by the recall.

#90312u0674 11/08/1990 ~United Press International
BANGKOK, THAILAND (NOV. 8) UPI - Thai Prime Minister Chatichai Choonhavan, leaving for a visit to Japan and China Thursday, announced he will reshuffle his coalition government on his return, dropping a minister locked in a dispute with the politically powerful military.

''I would like to inform you that when I return to Thailand I will reshuffle my Cabinet very quickly,'' Chatichai told reporters at Bangkok airport.

He said the reshuffled Cabinet will not include Chalerm Yubamrung, the minister in charge of government television stations who has been involved in an acrimonious dispute with senior military commanders.

''This reduces the tension,'' said Gen. Sunthorn Kongsompong, Supreme Commander of the Thai military.

''We are satisfied with the prime minister's announcement at one level and we will be satisfied at an even higher level when it actually takes place,'' Sunthorn said.

Sunthorn and Chalerm have clashed repeatedly over the military's seizure of a sophisticated mobile radio truck used by the state television station under Chalerm's control.

Sunthorn charged that the radio truck has been used to monitor and jam secret military communications and Chalerm has dared the military to charge him in court.

Top military commanders held talks with Chatichai on Wednesday, apparently urging the prime minister to drop Chalerm.

Chalerm, leader of the smallest party in the seven-party coalition, has been involved in a series of disputes with labor unions and other cabinet members.

The military, which has ruled Thailand for most of the 58 years since the end of the absolute monarchy, still retains a powerful voice in the current elected government.

Chatichai, accompanied by Foreign Minister Subin Pinkayan, is scheduled to meet Japanese Prime Minister Toshiki Kaifu on Nov. 11, the day before he attends the coronation of Emperor Akihito.

On the 14th he leaves for a working visit to China where he will meet Prime Minister Li Peng.

In both Japan and China the key topics of discussion will be bilateral economic relations and the conflict in Cambodia, officials said.

Thailand has been a key player in efforts to settle the 12-year-old conflict. Peace talks, however, have become bogged down in disputes over the leadership of an interim Supreme National Council meant to represent the country while a U.N. peace plan is being implemented.

Japan has promised to provide financing for the peace plan and for reconstruction of the war torn country. China is the main supplier of military equipment to the Cambodian resistance.

#90312u0693 11/08/1990 ~United Press International

BOGOTA, COLOMBIA (NOV. 8) UPI - The kidnappings of two more prominent people appear to be the work of the Medellin cocaine cartel that already was holding seven journalists hostage, police said Thursday.

Kidnappers snatched the head of the national movie promotion agency and her assistant Wednesday night from a Bogota street, killing a chauffeur.

The victims were Maruja Pachon de Villamizar, head of the Cinemagraphic Promotion Co. and a former television journalist, along with her assistant, Beatriz Villamizar de Guerrero.

Pachon de Villamizar was the sister-in-law of Sen. Luis Carlos Galan, whose assassination last year while campaigning for the presidency touched off a war between the government and the Medellin cocaine cartel. She also is the wife of Deputy Alberto Villamizar, brother of the other kidnap victim.

The kidnappings appeared to be the work of the Medellin cocaine cartel, said a police official who asked not to be named.

But Rafael Pardo, the adviser to President Cesar Gaviria on security matters, said it was not yet clear who was holding the two.

''We are analyzing each detail in order to have a global report on the situation and try to identify the group responsible for the two kidnappings,'' he told reporters.

The Medellin cartel has admitted responsibility for the previous kidnappings, including the daughter of a former president and the son of the publisher of the nation's largest newspaper.

The cartel is using the kidnappings to try to pressure the government into a political agreement and an amnesty. Gaviria has refused to negotiate with the cartel.

It also has said it wants a constitutional reform assembly that will begin

meeting next year to include a constitutional prohibition against extradition of suspected criminals to other nations.

The cartel, through its hit squad The Extraditables, is holding Diana Turbay de Uribe, daughter of former President Cesar Turbay and owner of a television news program and a magazine. She has been missing since Aug. 30 with five other journalists, including German Hero Buss.

Francisco Santos, news editor of El Tiempo newspaper and son of publisher Hernando Santos, was kidnapped in Bogota Sept. 19 and his bodyguard killed.

JERUSALEM (NOV. 8) UPI - An Israeli soldier and a guerrilla were killed during a clash Thursday between an Israeli patrol and five gunmen who attempted to infiltrate Israeli-held territory from Jordan, an army spokesman said.

In Jerusalem, police arrested seven followers of assassinated right-wing Rabbi Meir Kahane, including a senior member of his anti-Arab Kach party, on suspicion of incitement following riots during Kahane's funeral Wednesday.

In an outbreak of attacks on soldiers Thursday, a Druse guard at West Bank prison was stabbed to death, and soldier at the Gaza Strip checkpoint knifed but not injured, authorities said.

A group of would-be infiltrators and an Israeli patrol clashed at 6 a.m. near the Jordan border about 6 miles north of the West Bank city of Jericho, the army spokesman said. Four gunmen were captured and two wounded.

Israeli Reserve Capt. Yehuda Lipshitz and one gunman were killed. Two of the four gunman captured were wounded.

Army Radio reported that four of the group were Jordanian policemen wearing civilian clothing and the fifth was a member of a terrorist organization. They were armed with pistols and knives.

Senior army officials said the group planned an attack on Jerusalem. The attempted infiltation was sixth major incident on the Jordanian border this year and marked largest number of guerrillas captured since December 1987. This year, one Jordanian soldier and an unidentified man were killed attempting to cross the border.

Defense Minister Moshe Arens visited the scene of the clash and said Jordan had to do more to safeguard the border.

''The Jordanians have told us they are doing their best to prevent infiltrations, but in this case it has proved not enough,'' he told Army Radio. ''The Jordanians are not in 100 percent control of the situation. ... In spite of King Hussein's internal problems we expect Jordanian authorities to improve the situation.''

Army Radio reported that the gunmen were carrying copies of the Koran and had ''God is great'' written on their equipment.

''What concerns us is that religious extremist elements appear to have gained a foothold within the Jordanian security services,'' Chief of Staff Lt. Gen. Dan Shomron said.

At the West Bank prison of Jenin, an assailant stabbed to death Druse guard Kamel Farres, 32, through a fence and escaped, prison authorities said. In Jerusalem, two Arabs tried to snatch a soldier's gun. One Arab was knocked down and the other apprehended by a reserve soldier as he tried to flee, Israel Radio reported.

Police maintained a heavy presence in Jerusalem and northern Israel to prevent further attacks on Arabs following the riots that erupted Wednesday during the funeral of Kahane, who was assassinated Monday in New York.

At the Jewish Idea seminary founded by Kahane, a detective unit arrested seven Kach activists Thursday on suspicion of incitement. Thirteen people were arrested Wednesday during the violence.

Among those arrested Thursday was Yekutial Ben Ya'acov, a Kach party leader,

who told mourners at the funeral, ''Now we will let our friend the knife talk and our friend the machine gun talk.''

Four Arabs and two police were wounded Thursday night as followers of Kahane rampaged through Jerusalem during a massive funeral procession. Before the procession, Kach movement had called for reprisals against Arabs and Israeli leftists.

Prime Minister Yitzhak Shamir condemned the violence and called for restraint.

''Every act of violence or expression of hatred causes additional injury to the people of Israel,'' Shamir said during a memorial for Israel's first president Chaim Weizmann. ''The scenes we saw yesterday help our enemies to attack our sovereignty over Jerusalem.''

Dozens of mourners broke away from the funeral procession to search for Arab victims in shops and on buses. One Arab was stabbed and remained hospitalized in fair condition. The rioters also stoned journalists and attempted to force their way into the Israel Television building.

Security forces also were present at areas where Arab workers gather to go work in Israel.

Arab Knesset member Abdel Wahab Darousha reported that he had received a threatening telephone call. On Wednesday night shots were fired near the house of Ibrahim Nimr Hussein, mayor of the Arab town of Shfaram. No one was injured.

TOKYO (NOV. 8) UPI - Bridgestone Corp. said Thursday it will introduce a new line of vehicle tires next fall for sales in the United States through the Sears, Roebuck and Co. retail distribution network.

The Tokyo-based tiremaker said the new tires will be produced at Bridgestone's plant in La Vergne, Tenn., and sold nationwide through more than 800 auto centers run by the giant Chicago-based U.S. retailer.

The new tire line is part of Sears' continuing program of offering ''an outstanding selection of brand-name and private-label tires,'' Forrest R. Haselton, vice president of Sears automotive operations, said in a statement distributed in Tokyo.

''We plan to work very closely with the Sears people to develop a long-term, successful partnership,'' said Jerry Nunn, Bridgestone Tire vice president.

The new tires to be marketed will be the Bridgestone RoadHandler, a 75-80 series all-season tire, and the Bridgestone RoadHandler GT, an all-season T-

and H-speed rated performance tire in a 60-65-70 series, the company said.

Bridgestone Tire, based in Nashville, Tenn., currently markets a complete line of vehicle tires through 6,000 retail outlets and distributors in the United States.

Bridgestone Corp., the world's leading manufacturer of rubber products acquired Firestone Tire and Rubber Co., of Akron, Ohio, for about $2.6 billion in 1988.

FRANKFURT AN DER ODER, GERMANY (NOV. 8) UPI - Thousands of people gave Chancellor Helmut Kohl a rousing welcome Thursday in the Polish city of Slubice, shortly after the German leader met with the Polish premier a few miles away in eastern Germany.

Polish Prime Minister Tadeusz Mazowiecki won a minor concession during the talks when Kohl agreed that a key border treaty should be signed in November, earlier than Bonn had hoped.

But he seemed to make little progress in obtaining guarantees of German compensation to Polish victims of Nazi crimes.

After their talks in Frankfurt an der Oder, the two leaders crossed the river Oder - the border between Poland and Germany - for coffee, cake, champagne and brandy in Slubice.

Thousands of people chanting ''Helmut, Helmut'' and ''Deutschland, Deutschland'' thronged the streets of the Polish city to greet the officials.

The scene contrasted with the unenthusiastic reception the leaders were given

earlier in Frankfurt an der Oder.

''Of course we are not afraid of the Germans,'' said a 72-year-old toothless Polish World War II veteran in the crowd.

Before leaving Warsaw, Mazowiecki said he would like to accelerate negotiations on compensation for Poland's victims of Hitler's World War II rule of terror.

Compensation is being sought for 30,000 survivors of concentration camps and for 600,000 people used as slave laborers after the Sept. 1, 1939, German invasion of Poland that set off World War II.

Kohl indicated he and Mazowiecki discussed reparations but would need to continue the talks in January.

The two indicated that a key border treaty and another document regulating bilateral relations will be signed soon.

''We hope to have the border treaty signed in November by our foreign ministers,'' said Mazowiecki.

German territories to the east of the Oder and Neisse were ceded to Poland in 1945 after Germany lost World War II, but Germany never formally recognized the border or the loss of the territories.

Kohl, under pressure from arch conservative members of his Christian Democratic Union, had resisted demands that West Germany recognize the border.

But Britain, France, the Soviet Union and the United States made it clear before approving Oct. 3 German unification that they wanted Germany to sign a border treaty with Poland.

The German government had indicated it only wanted to sign a border agreement after the Dec. 2 national elections but the Warsaw authorities insisted that the treaty should be signed before the Polish elections, due Nov. 25.

Mazowiecki said the friendship treaty will be signed in January.

Speaking at a joint news conference after talks with Mazowiecki, Kohl said the question of ethnic Germans living in Poland had also come up during the talks.

''I am certain that we will come to satisfactory solutions,'' he said.

Kohl said he expected visa requirements for Poles traveling to Germany will be lifted before Christmas.

''The significance of Polish-German relations is based on peaceful

developments in Europe,'' Mazowiecki said.

Answering a question, Kohl said he would not object to Poland or other eastern European countries joining the European Community and would ''give particular support to Polish interests within the EC.''

Kohl was to return to Bonn Thursday night for talks with Soviet leader Mikhail Gorbachev Friday and Saturday.

(NOV. 8) UPI - A government-controlled Iraqi newspaper says President Saddam Hussein has sacked his army chief of staff, though NO reason is given for the change. If true, the replacement of the army chief would put at three the number of senior Iraqi officials dismissed since the invasion of Kuwait on August 2nd. The report says the new army chief is Hussein Rashid, a hero of the 1980-88 Iran-Iraq War.

Japan has given up the idea of sending NON-combat troops to the Persian Gulf. Prime Minister Toshiki Kaifu made the announcement official earlier today in Tokyo. But Japanese officials are quick to say the decision is NOT tied to the release of 74 Japanese human shields held by Iraq. They arrived back in Tokyo as the announcement was being made.

Lima, Peru, was rocked overnight by a series of explosions. They apparently were set off in retaliation for a vote by the Peruvian Congress NOT to prosecute ex-President Alan Garcia for the alleged murder of left-wing guerrillas. A 17-year-old student was seriously wounded when one bomb went off in front of the U-S- Peruvian Cultural Institute.

The man led a nation-wide organization to overturn incumbent politicians says the group's work did NOT end on election day. Jack Gargan says Throw the Hypocritical Rascals Out will thank supporters via a full-page newspaper ad... then will look toward the 1992 presidential and congressional races. National media attention led to Gargan raising more than 500-thousand dollars from contributions to fund the anti-incumbent campaign.

Closing arguments are expected today in Oshkosh, Wisconsin, in the extraordinary rape trial of a 27-year-old woman who has 46 personalities. In her first day of testimony yesterday, the woman revealed three of the personalities who told about a sexual encounter one of them had with a man in a car. But the personality involved in the sex act said she didn't know what sex was.

Hollywood, where reality turns into dreams, has managed to convert the Tuesday night fire at Universal Studio's backlot into a tourist attraction of its own. People can now see the charred ruins of what once were stage sets that made

movie viewers think they were looking at the streets of Chicago or New York. A newly hired security guard who relatives say is a mentally disabled Vietnam veteran is held on one- Million-dollar bond, accused in the fire.

WASHINGTON (NOV. 8) UPI - U.S. consumer credit increased $3 billion in September at an annual growth rate of 4.9 percent as consumers rang up more charges on their credit cards, the Federal Reserve said Thursday.

''Revolving credit growth, although less than in August, remained strong,'' the Fed said. ''Auto loans outstanding were about unchanged in September. All other borrowings increased at about half the August pace and mobile home loans declined.''

In August, consumer credit also rose a revised $3 billion at an annual growth rate of 5 percent, and in July consumer borrowing was up about $4.73 billion at a growth rate of 7.8 percent, the Fed said.

The September rate of borrowing, despite the slowdown in the American economy, was higher than expected by private economists. The consensus among analysts was an increase of $2.5 billion for the month.

September auto loans climbed $163 million after falling $1.5 billion in August. Revolving loans stood at $1.9 billion in September vs. $2.4 billion in August. Mobile home loans, meanwhile, were down $219 million after advancing $180 million.

All other types of loans increased more than $1.1 billion in September after gaining $2 billion in August, the report said.

The Fed also said that during September auto finance companies charged an interest rate of 12.34 percent for new car loans and 16.03 percent for used car loans.

Data on interest rates charged by banks were not available.

In August, rates charged by finance companies stood at 12.62 percent for new cars and 15.98 percent for used cars, the Fed said.

FORT LAUDERDALE, FL (NOV. 8) UPI - Trevor Berbick, a former World Boxing Council heavyweight champion, is free on bail and faces charges he tried to kidnap a businesswoman in a dispute with his estranged wife.

Police said Berbick was arrested Tuesday for taking Novelette ''Fay'' Hanse hostage at gunpoint at her office at People's Financial in suburban Miramar. He demanded that she tell him where his wife, Nadine Berbick, had been staying since she left him.

Lt. Chuck Febro said Berbick was then coaxed from the office complex by police and booked into Broward County Jail. He was freed on $7,500 bond Wednesday.

Hanse said he grabbed her and pointed a gun at her neck. A business associate called Hanse during the incident, and when he determined something was wrong, he called police.

Berbick was charged with aggravated assault with a firearm, false imprisonment and possession of a firearm during the commission of a felony. Also charged was Frederick Smith, an alleged accomplice, who was sitting in a car parked outside the office.

Hanse said she met Berbick and his wife several years ago and manages his financial affairs. She said she did not know where Berbick's wife had been living.

Berbick, who is still active as a boxer, lost his WBC title on a second-round knockout to Mike Tyson in 1986. He also ended Muhammad Ali's career with a 10-round decision over Ali in the Bahamas in 1981, and lost a 15-round decision to champion Larry Holmes earlier that year. Berbick finally won the WBC title with a decision over Pinklon Thomas in 1986.

A native of Jamaica, Berbick lived in Canada when he turned pro and won the Canadian and Commonwealth titles.

JOHANNESBURG, SOUTH AFRICA (NOV. 8) UPI - Lesotho's tribal chiefs have named

Prince Mohato Seeisa, eldest son of deposed King Moshoeshoe II, to become the kingdom's new head of state, the South African Broadcasting Corp. reported Thursday.

The tiny former British-ruled kingdom is surrounded entirely by South Africa.

State-run radio, quoting sources close to a college of chiefs in Lesotho's capital of Maseru, said Seeisa's appointment by the 22 principal chiefs must still be approved by the ruling military council of Maj. Gen. Justin Lekhanya.

But the appointment of the 27-year-old Seeisa, a lawyer, is regarded as a formality.

On Tuesday, Lekhanya announced the promulgation of a law to dethrone the exiled Moshoeshoe, forced abroad in March after refusing to back the military leader in a power struggle.

Lekhanya, who seized power in a bloodless coup in 1986, said he had ousted the king because he had ''violated his oath of office'' and broken laws of Lesotho.

The military council forced Moshoeshoe, king since 1960, into exile into Britain on March 9.

The king had refused to endorse Lekhanya's Feb. 19 arrest of three key members of the military council closely linked to the royal family for allegedly trying to undermine the armed forces' authority.

Moshoeshoe has since repeatedly demanded that lekhanya allow him back into the country unconditonally, angering the military council.

Moshoeshoe's exile was his second since 1970. He lived in the Netherlands for nine months during a dispute with then prime minister Leabua Jonathan, who ruled the country from independence in 1966 until being ousted by Lekhanya 20 years later.

#90312u0824 11/08/1990 ~United Press International

PITTSBURGH (NOV. 8) UPI - At least one woman has lost an eye, and several others may be in danger of blindness, from using tainted eyedrops produced by a pharamacy from a drug used to treat arthritis.

The Pittsburgh Press, in a copyright story Thursday, said one woman who used the drug contaminated by the bacteria, pseudomonas, had her eye removed last week at Allegheny General Hospital. Two other patients may have to have eyes removed, and two more have lost sight in an eye.

The patients, mostly women between 55 and 78, all have had cataract surgery

during the past month.

They used Indocin, produced in pill form by Merck, Sharp & Dohme and approved by the Food and Drug Administration for oral use in the treatment of moderate to severe arthritis and osteoarthritis.

The Press said the tainted eye drops came from Hieber's Drug Store. A store manager, Joseph Kilkeary, said somewhere between 20 and 200 people received the medicine, but all have been told to discontinue use.

Kilkeary said the pharmacy has made the drops for years ''without any problems whatsoever'' and is not sure how the drug was contaminated.

''We are not really manufacturing medication, we're just filling prescriptions that the doctors prescribed,'' Kilkeary said. He said the eye drop production was being thoroughly examined.

Many eye specialists prescribe Indocin for topical application, such as in eye drops, and pharmacies produce the drops by mixing powdered Indocin with other solutions.

Gary Bruell, a spokesman for the drug's manufacturer, said, ''The product is not indicated as a topical drug, as an ophthalmic product.''

''The FDA is very clear on how a product should be used,'' he said. ''We certainly wouldn't comment on what a pharmacist or physician may be doing outside of what is indicated in the labeling.''

John Lech, director of the Center for Drug Information at Mercy Hospital, said ''Legally, pharmacists can dispense and a physician can prescribe a commercial product for a use and in a dosage other than what is contained in the FDA's product labeling.''

Eye surgeons at Allegheny General Hospital's ophthalmology department identified the bacteria as pseudomonas, a bacteria often found in wounds, burns and infections of the urinary tract, after growing cultures taken from a small, brown bottle of Indocin eye drops.

''Normally, we don't find any bacteria in medication, but with that specimen we found over 100 colonies,'' said Matthew Rigg, a technician in the bacteriology lab. ''We couldn't believe how strong it was.''

''This is clearly a terrible situation involving a very unrelenting bacteria '' said Dr. Robert Lewen, a retina specialist. ''With an infection of this type, there are limits to what physicians can do to save an eye.''

The pharmacy has recalled the eye drops and county and state Health Department officials were investigating, officials said.

#90312u0826 11/08/1990 ~United Press International
WASHINGTON (NOV. 8) UPI - A poll taken for the nation's Roman Catholic bishops shows abortions are performed more often and for less grave reasons than most Americans realize, the U.S. Catholic Conference said Thursday.

Almost half of those surveyed believe there are fewer than 500,000 abortions each year, according to the poll. They also estimated that more than 20 percent of abortions were performed in response to rape or incest and 15.6 percent were done because the life of the mother was endangered.

Only 12 percent said they believed there were between 1 million and 2 million abortions each year.

Research by the Alan Guttmacher Institute shows that about 1.6 million abortions are performed each year - a figure that grew rapidly in 1970s and then leveled off in the 1980s. At the same time, the rate of abortion - the number of abortions per 1,000 births - has slowly been decreasing.

Other research shows that about 1 percent of women cite rape or incest as a reason for abortion and 7 percent cite ''health problems.''

Women reporting a Roman Catholic religious affiliation have the highest abortion rate - 27 per 1,000, about the national average - among religiously affiliated women while Jewish women have the lowest, 16 per 1,000. Protestant women have an abortion rate of about 20 per 1,000 births.

The poll was released as the nation's Roman Catholic bishops prepare to come to Washington for the annual meeting of the National Conference of Catholic Bishops and its action arm, the U.S. Catholic Conference.

The poll, conducted by the Wirthlin Group, a Republican polling firm, is one of the first public projects of the bishops' new public education campaign against abortion to be conducted by the Hill & Knowlton public relations firm and the Wirthlin Group under a contract reported to be worth some $5 million.

It also comes on the heels of another poll, conducted by the independent Catholics for a Free Choice, that showed Catholics were unhappy with the bishops using the political arena to advance their moral opinions, including their longstanding opposition to abortion.

''While abortion is a major issue for many Americans, most do not realize how deeply institutionalized abortion has become in our culture, '' said Helen Alvare, pro-life information director for the U.S. Catholic Conference.

''As Americans learn how readily abortion is used as a response to economic,

emotional or personal concerns, we believe they will look more willingly to other alternatives and to basic legal protection for the unborn,'' she said.

Other findings of the poll found just 7 percent of those surveyed at the extreme ends of the spectrum, either saying it should be prohibited in all circumstances or should be legal at any time during pregnancy.

Another 34 percent said abortion should be legal for any reason during the first six months of pregancy and 35 percent said it should be legal in cases of rape, incest or to save the life of the mother.

Other poll findings:

-51 percent said they ''strongly agree'' with requiring parental consent for an abortion for minors and 16 percent ''somewhat agree.'' A total of 30 percent said they either strongly or somewhat disagreed.

-67 percent said they strongly agreed that women should be required to receive information about fetal development and alternatives to abortion before having the procedure.

-32 percent said they found ''extremely convincing'' the proposition that ''every unborn child has a basic right to life'' and 31 percent found ''extremely convincing'' the notion that ''all human life, including that of the unborn, should be protected.''

#90312u0832 11/08/1990 ~United Press International

NEW YORK (NOV. 8) UPI - Egyptian President Hosni Mubarak said Thursday the countries allied against Iraq should wait ''two or three more months'' to see if economic sanctions will force Iraq out of Kuwait but said war could be inevitable, The New York Times.

In an interview with the newspaper in Cairo, Mubarak warned President Saddam Hussein that if he did not pull his troops out of Kuwait, war is inevitable with ''the greatest concentration of military forces I have ever seen in this area.''

''There will be no other way out,'' he said. ''I am not bluffing. I don't think the United States is bluffing. How can Saddam Hussein make such a miscalculation of his situation? It is very dangerous for him, very dangerous. I wonder how he cannot realize that.''

In the interview with The Times a day after Mubarak met alone with Secretary of State James Baker, he said the U.N. Security Council should approve a resolution authorizing the use of military force to end Iraq's occupation of Kuwait, if diplomacy failed.

''The problem of Saddam Hussein is that he is one man against the world and even against him self simple because he does not realize the real danger around him,'' Mubarak said. ''And his entourage is not briefing him adequately.''

The Egyptian president said he had tried repeatedly to find a ''face- saving'' way out for Hussein. ''I was trying to help him,'' he said.

He said he would welcome Hussein in Egypt as part of an effort to find a face-saving solution but he said he would not go to Baghdad on such a mission.

He also emphasized that he was not in favor of a call last week by Soviet President Mikhail Gorbachev for an Arab summit meeting.

''Why an Arab summit?'' he asked. ''What would we do there? We won't give a blessing to his occupation. That is what he wants. I'll never give it to him. It's a matter of principle.

''We have done everything we can do,'' Mubarak said. ''The answer from the Iraqi government has been insults and dirty words against me. Either he doesn't realize the tremendous forces being arrayed against him, or his aides are misleading him or not telling him.''

#90312u0864 11/08/1990 ~United Press International

VIENNA (NOV. 8) UPI - Albanian President Ramiz Alia, in a major speech to a communist party plenum, called for changes in the Marxist state's constitution that would guarantee freedom of religion and redefine the party's role as the dominant force in society.

He also said the establishment of normal diplomatic relations await only an announcement from Washinton.

Signaling a further shift away from the country's orthodox communist past, Alia said the ruling Party of Labor of Albania ''should not and cannot exert state power directly'' but should respect rule of law, according to remarks

published Thursday by the official news agency ATA.

''The law stands above all. No instruction, decision, order or authority exists above the law,'' Alia was quoted as saying.

The speech, delivered during a two-day PLA Central Committee plenum that ended Wednesday, outlined a series of proposed reforms expected to be submitted to Albania's rubber-stamp parliament in the coming weeks.

The proposals include changes to the 1976 constitution that if approved would guarantee freedom of religion and provide a legal basis for market-oriented economic reforms adopted by communist decree earlier in the year.

Alia also said the section of constitution that gives the ruling party special powers as the ''only leading political force of the state'' should be ''defined more precisely.'' He did not elaborate.

Foreign observers say Albania's communists, facing mounting political and economic unrest, hope to follow the example of their Bulgarian counterparts by voluntarily surrendering some of their power and granting limited reforms in hopes of avoiding a potentially bloody uprising.

Albania, Europe's last bastion of orthdox communism, embarked on a course of cautious political and economic reform in the spring and has also taken major strides toward ending 45 years of diplomatic isolation. In May, the government eased restrictions on travel and religion and lifted a ban on foreign investment.

In his speech, Alia said talks on establishing normal diplomatic ties with the United States have been successfully concluded, and that Tirana awaits only a formal announcement from Washington. Albania and the Soviet Union resumed normal relations in the spring for the first time in 30 years.

Alia also revealed elections would likely be held in February under new regulations proposed by the communist leadership in October. The new guidelines would allow Albanians to vote in secret for the first time and to choose between multiple candidates - although only communist- approved candidates can appear on the ballots.

The communist leader said the party should encourage greater independence and freedom of expression among social and civic organizations that historically have been rigidly controlled extensions of the communist party.

''To this end we should transform the existing social organizations into complete pluralist subjects, reconstructing their links and relations with the party and state,'' he said.

''... Any practice and mentality aiming at establishing a tutelage on them,

treating them simply as instruments of the party, has a restraining effect. Therefore we should combat resolutetly to uproot them,'' Alia said.

#90312u0874 11/08/1990 ~United Press International

LONDON (NOV. 8) UPI - Prince Charles released a video Thursday in which he stars with comedian John Cleese in a 25-minute tale about how businesses need to respect the environment.

''He knew instinctly how to play comedy,'' a spokesman from Video Arts, which produced the video, said of the performance of the future king of England.

''Grime Goes Green: Your Business and the Environment,'' tells the story of the prince paying an unexpected visit on James Grime, the boss of a company played by Cleese.

Grime does not believe his operations have any effect on the environment, and Charles secretly checks on the company hours before he is scheduled to arrive on a visit.

The prince, who only recently recovered from a broken arm sustained during a polo match, hides behind a newspaper and catches Grime trying to clean up his factory and sacking two environmental advisers.

Surprising Grime in his enviornmental unfriendly antics, the prince advises that ''businesses of all sizes have a critical role to play in achieving a more sustainable economic development.''

''Having thought and a care for the environment must become an integrated part of good business practice, and each of us must do all we can to address one of the greatest challenges facing us today,'' the prince says.

Video Arts said the 25-minute production was the idea of the prince, known for his environmental views, and will be on sale for $672. It was launched through the Business in the Community, a charitable organization, which is presided over by Charles.

#90312u0884 11/08/1990 ~United Press International

WASHINGTON (NOV. 8) UPI - The Reagan administration's motto was always to let the free marketplace of ideas take care of problems. Now the Bush administration is going down the same path concerning health care reform.

Health Secretary Louis Sullivan told health care providers Thursday a ''dynamic economy will find some solutions on its own'' to the nagging problem of soaring health care costs.

Sullivan criticized national health insurance as a possible solution, but he has said he is not ready to offer alternatives until several studies on the matter have been completed. He acknowledged that could take more than a year, even just around re-election time in 1992.

In a speech to the National Committee for Quality Health Care, Sullivan said the public has become ''desensitized'' to the fact that health care spending has risen 30 percent faster than the gross national product since 1970. He also accused the public of expecting the health care system to automatically ''compensate for our bad health habits.''

In addition to cleaning up one's own act, Sullivan said the ''free enterprise system'' could be the cure for uncontrollable health care costs.

''One of the things the president and I want to accomplish in reforming health care financing and access is to take advantage of the natural compassion within the free enterprise system. In this way, more Americans - and this will include the self-employed - will be able to get the kind of health care they want and need,'' the secretary said.

''A dynamic economy will find some solutions on its own. We do not want to rush in with unproven government remedies that may create more problems than they solve,'' he said.

The National Committee for Quality Health Care - which represents hospitals, health maintenance organizations, corporations and other health care providers - released a report, concluding the general public, not health care providers, must make sacrifice and make choices to get a handle on spiraling costs.

''The resolution of this impending health care crisis does not rest in the hands of the health care industry experts, but in the hands of all Americans. We have the finest health care system in the world, and it is everyone's duty to do their part to improve and preserve it.''

Sullivan seconded the group's opinion, saying he opposes a move to ''scrap the system and make a radical change to nationalized medicine. My position is that we need to build on our achievements by getting an even higher percentage of

people covered by insurance.''

#90312u0896 11/08/1990 ~United Press International
TORONTO (NOV. 8) UPI - An 11-month-old girl tossed from a speeding van and run over by a second vehicle was in serious condition Thursday and a 30-year-old man was charged with aggravated assault in the incident.

Shantel Freeman's condition was upgraded to serious from critical Thursday morning.

Doctors say the Tuesday night incident crushed the back of her skull and left bone fragments pressing into the tissues of her brain, which is hemorrhaging.

Her condition was upgraded to serious from critical Thursday. Her first birthday is Nov. 15.

Charged with aggravated assault is Michael Bovay, 30, of Oshawa, a passenger in a vehicle driven by Freeman's mother, Mari Ann, 23. Bovay had offered the Freemans a ride home from a dinner party and Freeman was driving his car when the baby was thrown out.

A truck passed over the girl without hitting her but she was struck by a car driven by Gilles Robichaud.

Robichaud, a father of three, said he is living a nightmare.

''We feel like our guts have been torn out,'' Robichaud said. ''We have three kids of our own - one a little baby. I can't imagine.''

Freeman, a single mother who has a 5-year-old son living with his father, is maintaining a bedside vigil at the hospital.

Bovay was denied bail at a court appearance Wednesday and will appear in court again Friday.

(NOV. 8) UPI - Egypt reportedly has told Saddam Hussein that nations allied against Iraq are ''NOT bluffing'' and if the Iraqi leader doesn't pull his forces out of Kuwait, war is inevitable. The New York Times quotes Egyptian President Hosni Mubarak as saying there's ''NO other way out.''

Western diplomats in the Persian Gulf area say it appears as if Saddam Hussein is getting some opposition within his own government over the occupation of Kuwait. And they say he's managing the crisis by firing those who oppose him.

The latest to go is the Iraqi Army's chief of staff.

Japan says there is NO link between its decision NOT to send NON- combat troops to the Persian Gulf and the arrival in Tokyo of 74 Japanese citizens held as hostages by Iraq. Japan's Parliament rebuffed the proposal by Prime Minister Toshiki Kaifu Toh-SHEE'-kee KIGH'-foo to join other nations in the Persian Gulf.

Officials in Manila say the Philippines and the United States made significant progress as the talks resumed today on the future of U-S military installations in the island nation. A joint statement says that so much progress was made, the negotiators decided to work into the night.

Philippine officials also say the government will drop a civil suit against Imelda Marcos if the former first lady turns over 200-Million dollars the government claims her husband stole during 20 years in power. But officials say it the money stashed in Hong Kong is less than 200-Million, there will be NO deal.

Pakistan is warning the United States that it will maintain its close ties with Washington only as long as- quoting now- ''these relations do NOT adversely affect our independence.'' President Ghulam Ishaq Khan told his parliament that his government will NOT compromise Pakistani sovereignty to obtain foreign assistance.

The South Korean Defense Ministry says North Korea is pushing nuclear arms development. The ministry says in its ''1990 Defense White Paper'' that North Korea could produce nuclear weapons this decade. And it predicts that if war breaks out between the two Koreas, the casualties would reach two-point-four-Million in a week.

Former Prime Minister Rajiv Gandhi today declined an invitation to form a new government in India and threw his support behind dissident leader Chandra Shekhar. Gandhi turned down the job within hours of the resignation of Prime Minister V-P Singh, who failed in a confidence vote in the Indian Parliament yesterday.

ATLANTA (NOV. 8) UPI - Ron Gant, the Atlanta Braves outfielder who hit. 303 with 32 home runs, Thursday was named National League Comeback Player of the Year by United Press International.

Gant rebounded superbly from a 1989 season in which he hit .177 with nine home runs and 25 RBI and was forced to make a difficult adjustment from third base to the outfield.

This year, he knocked in 84 runs and raised his stolen base total from nine to 33, making him the 13th player in major-league history to join the 30-30 (homers-steals) club.

He becomes the second straight Atlanta player to win the comeback award, following outfielder Lonnie Smith.

Gant was expected to be used as a reserve this past season, but after a slow start gradually became the Braves' biggest threat. He is the first Atlanta player since Dale Murphy in 1983 to hit 30 homers and steal 30 bases in a season.

Gant was hitting only .247 with only two homers and six RBI through mid-May, but he hit .311 and had 30 home runs in his last 127 games. He had three games in which he hit two home runs and had six RBI in one of those.

In the National League this season, Gant wound up third in total bases (310) and extra base hits (69), fourth in slugging percentage (.593) and runs (107), and tied for fourth in multi-hit games (55). He also tied for sixth in home runs and tied for eighth in doubles (43).

Gant joined the Braves organization in 1983 as a fourth-round draft choice. He appeared in 21 games with Atlanta in 1987, his first taste of major league baseball.

In 1988 he batted .259 with 19 homers, 60 RBI and 19 stolen bases. In 1989 he began the season as the Braves third baseman, but was sent to the minors after getting off to a bad start.

He spent two weeks at Sumter of the South Atlantic League, where he batted .385 after being converted to an outfielder. He was promoted to Richmond of the International League before being promoted to Atlanta.

SAN SALVADOR, EL SALVADOR (NOV. 8) UPI - Sporadic fighting between government troops and guerrillas in the Salvadoran countryside left a rebel chief and a civilian dead and several others wounded, the army said Thursday.

A military spokesman said one of the leaders of the Farabundo Marti National Liberation Front was killed in combat with the army in the town of Cacaguatique, Morazan province, 80 miles east of the capital.

He said the rebel was identified as Luis Sarabia, known as ''Papanacho,'' the leader of a local guerrilla band.

Three rebels were also wounded Wednesday in fighting in the town of Vueltas,

Chalatenango province, 33 miles north of San Salvador.

The armed forces said civilian Elmer Lopez Lopez, 22, was killed instantly when he set off a mine planted by rebels in the town of Concepcion Quezaltepeque, 30 miles from the capital. Two others were wounded.

Another civilian was wounded in a seperate mine explosion in a neighboring town.

Rebels in San Salvador bombed electrical and telephone lines Wednesday night, wounding two civilians, the armed forces said.

The decade-long civil war between the Farabundo Marti National Liberation Front and successive U.S.-backed governments has cost more than 72,000 lives.

#90312u0921 11/08/1990 ~United Press International

BELGRADE, YUGOSLAVIA (NOV. 8) UPI - The Croatian Assembly approved legislation Thursday giving the republic's president control of its military reserve force in defiance of the Yugoslav Army and the federal government.

The development came hours after Croatian President Franjo Tudjman forced the resignation of a vice premier and replaced all but one of 12 junior ministers in the largest shakeup of his government since it took power seven months ago.

The assembly passed without debate the law transferring control of the Croatian Territorial Defense Units from the regular military to Tudjman.

By adopting the statute, Croatia joined the Slovenian Republic in challenging the military command chain set in the federal constitution, under which the eight-man Yugoslav collective presidency is the commander in chief of the armed forces.

There was no immediate reaction to the Croatian move from the federal presidency or the Yugoslav military.

The Slovenian legislature on Sept. 28 approved a constitutional amendment giving the republic's government peacetime command of all military units on its territory. Slovenian President Milan Kucan named a reserve major to assume daily control of the Slovenian Territorial Defense Units from a regular army general.

In response, the Yugoslav Army sent troops to take control of the headquarters of the reserve force, prompting the Slovenian government to shift the staff to another building.

The standoff is continuing, with no sign of a settlement.

The nationalist governments elected in Slovenia and Croatia in May, in the first multi-party assembly polls held since the 1945 communist takeover, have been seeking more autonomy, advocating transforming Yugoslavia from a loose federation of six republics into a confederation of independent states linked by a common market.

Croatia and Slovenia fear domination by communist-ruled Serbia, the largest republic, which wants to maintain a federal model.

The three houses of the Croatian Assembly, meeting in the morning in a joint session in the capital of Zagreb, 250 miles west of Belgrade, approved replacements for those ousted by Tudjman in the government shakeup, which follows two minor reshuffles earlier this year.

The most significant aspect of the overhaul was the ouster of Mate Babic, a vice premier who oversaw economic policy.

The government publicly announced that Babic had asked to resign, but officials said he was forced to quit by Tudjman in a dispute over the pace of economic reforms, particularly privatization of state-controlled enterprises.

''The major issue is how to solve the status of ownership. Babic insisted on strong-fisted state control and advocated slow reprivatization of companies and factories,'' said one official, who spoke by telephone from Zagreb on condition of anonymity.

Tudjman, a former communist Yugoslav Army general, favors faster reform, although he wants certain categories of enterprise, including power, oil and gas companies, railways, the postal and communications services, to remain under state control.

Last week, his government declared a moratorium on privatization while it identifies those enterprises that should be sold to private owners.

Many experts saw the move as deliberately aimed at undermining the Western-style economic and political reform program of federal Prime Minister Ante Markovic, who is regarded as a threat to the governments of Yugoslavia's six republics.

Babic was replaced by Franjo Gregoric, a trade company executive and political newcomer.

In a related move, Zdravko Mrsic, was elevated from the republic's foreign minister to the post of director of the Agency for Development and Restructuring, a key department involved in implementing ongoing economic reforms.

Mrsic, a former Hong Kong-based sales executive for International Business Machines Inc., will remain a member of Tudjman's cabinet. He was replaced as foreign minister by Vinko F. Golem, a surgeon and former health secretary of Zagreb.

Tudjman also replaced 11 of 12 deputy ministers with people considered more liberal in economic and political policies.

The overhaul was seen as aimed at reducing the influence of conservatives, whose rhetoric and philosophy have strengthened the party's extremist Croatian nationalist image.

The party's nationalist reputation has been emphasized by the communist govenment of the rival Serbian Republic in order to win Serbian nationalist votes in Dec. 9 multi-party parliamentary elections.

#90312u0924 11/08/1990 ~United Press International

WASHINGTON (NOV. 8) UPI - Exports of chemicals, aircraft, scientific equipment and other manufactured goods will provide a source of strength during an economic downturn, a trade group said Thursday.

''U.S. manufactureed exports have experienced a quiet but substantial resurgence in the latter half of the 1980s,'' according to an analysis by the National Association of Manufacturers.

Western Europe, Canada, Japan and other countries in East Asia will provide the primary markets for American exports through 1995, but not Eastern Europe, even though it is emerging from decades of decline, the group said.

''Despite all the talk of lost competitiveness, U.S. exports of manufactured goods were $287 billion in 1989 - more than 70 percent higher than in 1985 and the much-ballyhooed export peak of 1981,'' the group said.

The surge has also been hidden somewhat by the nation's high level of imports, which have kept the merchandise trade deficit bouncing between about $5 billion and about $10 billion a month.

''Since 1986, U.S. exports, primarily manufactured goods, have been one of the keys to maintaining U.S. domestic growth,'' the group said. ''Manufactured exports probably kept the U.S. economy out of recession in early 1990 and will be a key to maintaining or increasing U.S. economic growth in the future.''

Jerry Jasinowski, president of the National Association of Manufacturers, predicted demand for American goods will remain strong even if war erupts in the Middle East.

''The trends are there,'' he said. ''The fundamentals are all in place.''

A number of states are benefiting from this growth in exports, including Ohio, Pennsylvania, Texas, and Washington state, Jasinowski and other members of the group said.

Between 1985 and 1989, the United States experienced a trade surplus of nearly $73 billion through the sale of chemicals, aircraft and scientific instruments alone, the analysis said.

There is also substantial strength in the export of computers and general machinery and parts, such as pumps, valves and forklifts.

''What is true for the U.S. economy as a whole could also be true for individual companies,'' the group said. ''The ability to grow and increase profits may be determined by the ability to increse overseas earnings, or to provide products and services to those companies that are overseas.

''A growing company will increasingly be a company that is international in outlook.''

#90312u0939 11/08/1990 ~United Press International

BUENOS AIRES, ARGENTINA (NOV. 8) UPI - The government completed Thursday a definitive agreement covering the sale of the state-owned telephone company to two European consortiums.

The Argentine business community has been looking to the sale as a test case, of the government's seriousness about privatizing the many money-losing state companies - such as railroads, steel and public works - that control vast sectors of Argentina's economy.

The sale also represents a major step by Argentina in reducing its foreign debt of $67 billion, since the investors have pledged to pay $5 billion debt paper, as well as $600 million in cash, in exchange for the phone company.

One of the consortiums is led by Telefonica of Spain and the other by Stet of Italy and France Cables and Radio.

President Carlos Menem said that he was ''totally satisfied'' with the contract, which he was scheduled to sign Thursday night.

''We have carried out what we planned to do,'' he said.

Menem said that while his administration has privatized other, smaller state companies, including television stations, the sale of the telephone company will have much greater significance.

''All our expectations were based on this telephone privatization, and because of this I have said that, for many, the reform of the state has now just begun '' he said.

The divestiture, in which the buyers are to get a controlling stake, is expected to be a model for the sale of other state companies in exchange for foreign debt paper.

Frederico Basaldo, a spokesman for the Stet-France Cables and Radio group, told United Press International that negotiators for the government and the two European consortiums were putting the final touches on the contract covering the transaction Thursday.

The negotiations were almost disrupted by a disagreement over telephone rates in late October, but the government and the consortiums reached a compromise under which the new owners will be able to raise rates over and above the inflation rate if there is a large devaluation of Argentina's currency.

The Franco-Italian consortium is to take over the northern half of Argentina's phone company, while the Spanish group will run the southern half.

The two consortiums will hold 60 percent of the equity in the phone company. The remainder of the stock is to be held by employees, individual investors and small, independent phone companies.

WASHINGTON (NOV. 8) UPI - Female fancies may drive the evolution of sexually attractive traits in males, a study of fish showed Thursday.

Scientists have long known that in some animals, mating hinges on a female's choice of which male she likes best. Many researchers have theorized that females' preference and the traits males use to attract a mate evolve together.

But new research in fish and frogs have lent support to a relatively new theory - that female preference sometimes exists prior to the appearance of sexually attractive male traits.

In a study published in the journal Science, Alexandra Basolo of the University of California-Santa Barbara examined female preference for swordtails among Xiphophorus, a genus of small, freshwater fish in Central America.

The genus include the platyfish, which are primarily swordless, and swordtails whose males generally have a yellow, sword-like tail that develops at sexual maturity and whose females prefer males with the longest tails. The ancestor

of both fish did not have a swordtail.

In her experiment, Basolo surgically attached yellow plastic swords that mimic a male swordfish's tail to six male platyfish and transparent plastic swords to six other male platyfish of similar size.

After three days of recovery from the surgery, the males were exposed to platyfish females. In all tests, females preferred to mate with males with yellow swordtails over those with the nearly invisible transparent swords.

Next, the researcher reversed the type of sword affixed to the male platyfish, and found the females' sexual preference switched along with the yellow tails.

''These data suggest that the females were basing their choice on (yellow) sword presence and not other traits,'' Basolo said in her study published in the journal Science.

Michael Ryan, a zoologist at the University of Texas at Austin, where Basolo conducted her research, said such findings may surprise many scientists, but they complement his recent work with tropical frogs.

In one type of frog, reseachers found females preferred male frogs who croaked in lower sound frequencies and the females also had ears designed to better pick up those frequencies. In related frogs, males do not croak in lower sound frequencies, but females still have ear structures designed to pick up those sounds - showing the females' bias likely existed long before males developed their seductive deep croaks.

Although scientists have only looked at frogs and fish, Ryan said he thinks further studies will show female choice may play an influential role in shaping male traits in other animals.

#90312u0951 11/08/1990 ~United Press International

WASHINGTON (NOV. 8) UPI - The General Accounting Office recommended Thursday that the two remaining battleships, including the USS Wisconsin now in the Persian Gulf, be retired if Operation Desert Shield does not justify their worth.

The recommendation came at a hearing of an obscure House subcommittee called to rehash the explosion that ripped through the battleship Iowa last year, killing 47 sailors, including a constituent of the subcommittee's chairwoman. The sailor was subsequently blamed for the blast but later tests indicated the huge explosion in the 16-inch gun was an accident.

Congress this year ordered the Navy to retire the Iowa - heavily damaged in the april 19, 1989, explosion - and the New Jersey. The Missouri and Wisconsin the last of the four World War II-vintage ships refitted and returned to duty during the 1980s - are still operating. The Wisconsin is in the Persian Gulf and recently test fired its huge guns.

The battleships, with foot-thick armor plating and guns that can hurl a 2,700-pound shell some 23 miles, are expensive to operate and are very manpower intensive. They require a crew of about 1,500 in contrast to newer warships which, equipped with missiles that allow them to stand back farther off the coast, can run with about 300 crewmen.

The senior official at the GAO responsible for national security matters, Frank Conahan, testified to the Banking Committee's Economic Conversion Subcommittee that the Navy should retire the remaining battleships.

He noted thier cost of operation, crew requirements and the fact that the Navy is now shrinking. They were recommissioned when the Navy was attempting to build up to 600 ships.

''As the world security environment changes, because ships other than

battleships have an excellent strike warfare capability, and because of limits on the battlesips' ability to support a large scale amphibious assault; the Navy's need to maintain the battleships is questionable,'' he said.

''The planned decommissioning of two battleships, including the Iowa, also raises questions about the usefulness and supportability of the other two ships in the active fleet,'' Conahan said.

''The battleships are costly to maintain and difficult to man and, until the ships' unique contributions in the Middle East can be evaluated, mission-related questions concerning their contributions remain.''

''For these reasons, we are recommending that the secretary of defense direct the secretary of the navy to re-evaluate the battleships' utility in the light of known constraints and limitations and, unless current Middle East operations convincingly demonstrate their unique utility, direct that the secretary of the navy decommission the Missouri and the Wisconsin,'' Conahan concluded.

#90312u0966 11/08/1990 ~United Press International

CAIRO (NOV. 8) UPI - Iraqi President Saddam Hussein fired his army chief of staff and replaced him with a hero from the Iran-Iraq war, bringing to three the number of senior Iraqi officials dismissed since Iraq invaded Kuwait three months ago, an official Iraqi daily reported Thursday.

Saddam also said Thursday he would release more than 240 Poles detained in Iraq, most of them engineers and construction workers. Baghdad has set hundreds of foreign hostages free in the past few days in what some diplomats say is an effort to fracture the multinational alliance against him in the Persian Gulf.

The mood in the region has turned to thoughts and preparations for war following a whirlwind visit by Secretary of State James Baker, who told Arab leaders the United States was not ruling out a military strike to force Iraqi troops from Kuwait.

Egyptian President Hosni Mubrarak said in an interview Thursday that war was inevitable if Saddam did not withdraw his troops from the emirate and that he and the United States were ''not bluffing.''

An Arab official, meanwhile, said Thursday that Iraq was creating biological weapons to strike allied troops in the event of war and Kuwait's exiled defense minister said Iraq is in possession of 650 U.S.- made Hawk ground-to-air missiles.

A U.N.-affiliated international aid group has even begun stockpiling food on

Cyprus to feed refugees in case the standoff turns into a fight, the Athens News Agency reported.

Al Qadissiya, the mouthpiece of the Iraqi defense ministry, gave no reason for the ouster of Iraqi army chief of staff Lt. Gen. Nizar al Kazarji's, only saying he would be replaced by Hussein Rashid, a hero of the 1980-88 Iran-Iraq war.

Western diplomats in the region said the reason for the army chief of staff's dismissal was not immediately clear, but that it may indicate trouble in Saddam's inner circle.

''It appears that Saddam is facing opposition to his policy in Kuwait ... . After all, any chief of staff must realize that for Iraq to continue standing up to the multinational force in the gulf is suicidal, '' said one envoy, who asked not to be identified.

Two other high-level aides to Saddam have left since the Aug. 2 invasion.

Communications Minister Saddoun Shaker resigned his post in September, officially for health reasons although sources said he quit in a show of anger over the invasion.

Last month, Saddam sacked Oil Minister Issam Abdulrahim Chalabi and canceled a gasoline rationing program Chalabi had ordered in the wake of the U.N.-imposed trade and oil embargo against Iraq.

The British Broadcasting Corp. said Saddam had ordered the release of the 240 Polish citizens at the request of former German Chancellor Willy Brandt, who went to Baghdad to win the release of as many hostages as possible.

Iraq, which still holds more than 3,000 foreigners in Iraq and Kuwait, has said it would release them all in return for a U.N. guarantee that his troops will not be attacked.

But it appeared Thursday that Iraq was also preparing for war.

A gulf Arab government official quoted his country's intelligence reports as saying Iraqi scientists were believed to have developed a more powerful strain of the bacteria Bacillus Anthracis, which causes anthrax and highly fatal pneumonia and skin diseases.

''The Iraqis have been working on anthrax for quite some time, but we understand that they have now developed a deadly strain,'' said the official, who asked that his name and nationality not be used.

The claim was made a day after the U.N. Security Council's sanctions committee warned that medicine sent to Iraq could be used in chemical and biological

warfare.

Kuwait's exiled defense minister meanwhile said in remarks published Thursday that Iraqi troops were in possession of 650 U.S.-made Hawk ground-to-air missiles, left behind in Kuwait when Iraq invaded three months ago.

The World Food Program, a Rome-based agency of the United Nations, was also preparing for war - by sending 8,000 tons of rice, flour and cooking oil to the Mediterranean island nation of Cyprus, where it will be stored in case fighting erupts in the gulf.

Organizers said U.N. groups hope to stockpile enough goods to feed hundreds of thousands of refugees for six months.

#90312u0986 11/08/1990 ~United Press International

(NOV 8) - The nation's major retailers Thursday reported soft sales in October, continuing a pattern of recent months and foreshadowing a weak Christmas shopping season.

With few exceptions, the retailers reported modest single-digit increases in sales on a comparable-store basis, which is comprised of stores that have been open at least a year.

The lackluster performance again reflected a weak economy, consumer anxiety over the possibility of war in the Middle East and sharply higher prices for gasoline and heating oil, analysts said.

''This was a poor performance but not unexpected in the light of economic and political uncertainties,'' said Kurt Barnard, publisher of Barnard's Retail Marketing Report, an industry newsletter.

He said the October figures are ''a clear signal of where Christmas season is going.''

''We are going to see a very frugal shopping population. They are going to buy fewer things and those are going to be less-expensive items,'' said Barnard. ''There is no doubt in my mind that there will be a strong promotional climate maybe as intense as last year.''

He said his organization is forecasting a Christmas either equal to or 2 percent over last year in sales volume.

Among the biggest three retailers, Bentonville, Ark.-based Wal-Mart reported a 10 percent increase in same-store sales and a 25 percent increase in total sales to $2.73 billion. K mart Corp. of Troy, Mich., reported an 11.2 percent rise in total sales to $2.34 billion, but did not supply same-store figures.

But Sears Merchandise Group of Chicago, formerly the nation's biggest retailer reported a 0.4 percent fall in same-store sales, and a fall of 1.2 percent in total sales to $2.55 billion.

Among the top performers, Gap Inc. of San Francisco reported an increase of 14 percent in same-store sales and a 24 percent increase in total sales to $155 million. Also reporting a double-digit same-store sales increase was Merry-Go-Round Enterprises Inc. of Joppa, Md., with a figure of 19 percent and a 27 percent increase in total sales to $43.4 million.

One of the most prominent decliners was J.C. Penney of Dallas with a 6.3 percent fall in same-store sales and a 4.9 percent drop in total sales to $1.31 billion. The Penney figures cover store and catalog sales.

New York-based Woolworth Corp. edged up 1 percent in domestic same- store sales, and reported a 13.1 percent increase in total sales. Same- store figures for the company's foreign operations were not available.

Woolworth Chief Executive Harold E. Sells said in a statement the company's sales were bolstered by strong gains in its German operation but that domestic sales were soft, largely due to warmer-than-normal weather across most of the country in October, a factor that affected other apparel retailers.

Limited Inc. of Columbus, Ohio, said same-store sales fell 1 percent and total sales rose 13 percent to $380 million.

Among the department stores, May Department Stores Co. of St. Louis reported a 4.4 percent fall in same-store sales and a 1.1 percent increase in total sales to $708.6 million.

Neiman Marcus Group Inc. of Chestnut Hill, Mass., also reported falling same-store sales, (down 1 percent), and a 4.9 percent increase in total sales to $136.1 million.

Hills Department Stores Inc., of Canton, Mass., reported a 6 percent rise in same-store sales and a 10.6 percent increase in total sales to $178. 8 million.

Carter Hawley Hale Stores Inc. of Los Angeles reported same-store sales slipped 0.1 percent and total sales edged up 1.7 percent to $212.0 million.

LIMA, Peru (NOV. 8) UPI - A 17-year-old student was seriously wounded by a bomb that exploded in front of the U.S.-Peruvian Cultural Institute, police said Thursday.

The bombing, part of a wave of blasts that shook the Peruvian capital Wednesday night, was an aparent retaliation for a vote by Congress not to prosecute ex-President Alan Garcia for murder of left-wing guerrillas.

Other explosions damaged the front door of the Bank of Lima, 50 yards from the downtown office of United Press International, while an explosion earlier in the day damaged the Jose Maria Arguedas state school.

Four buses and a food truck were burned in other assaults in the greater Lima area, police said.

The injured student was identified as Florentina Navarro, 17. She was tgaken to Emergency Hospital for treatment, police said.

The violence, attributed to leftist guerrilla groups, began after the Chamber of Deputies, by a vote of 80 to 75 with two abstentions, decided not to prosecute Garcia for political murder.

The Chamber meeting thereby rejected a recommendation of a committee that said Garcia, now a senator, should be stripped of his immunity and prosecuted for the deaths of 247 prisoners during and following jailhouse uprisings in Lima and Callao on June 18-19, 1986.

Almost all of the prisoners who were killed belonged to the ultraleft Shining Path guerrilla movement, which is based in the Andean mountains.

Other bombings Wednesday night that caused little damage exploded near the building of the Labor Ministry, while another went off harmlessly in Fermin Tanguis Park, about 200 yards from the residence of U.S. Ambassador Anthony Quainton.

Army troops surrounded the ambassador's residence after that blast as a security measure.

#90312u1003 11/08/1990 ~United Press International

WASHINGTON (NOV. 8) UPI - Construction unions will expand a local boycott of Toys-R-Us and make it nationwide, the head of the AFL-CIO's Building and Construction Trades Department said Thursday.

"Toys-R-Us should really be called Shoddy-is-Us," said Robert Georgine, announcing that his department in the AFL-CIO will back the boycott initiated by local construction unions in Illinois.

According to union officials, Toys-R-Us is constructing a $22.5 million warehouse in Joliet, Ill., with non-union workers and paying far below the area's prevailing wage scales.

"The company has a shoddy, abysmal record of buying the cheapest possible products overseas, building its facilities with cheap labor and taking advantage of students, women, older workers and minorities as clerks working at the lowest possible wage," Georgine said. The Building and Contruction Trades Department represents 15 national and international unions with more than four million members.

The boycott is being launched as Rochelle Park, N.J.-based Toys-R-Us, one of the nation's largest retailers of toys, is entering one of the busiest sales seasons of the year - Christmas - and the union boycott is aimed at discouraging customers and depressing sales.

#90312u1007 11/08/1990 ~United Press International

WASHINGTON (NOV. 8) UPI - Yields declined on long bonds Thursday to an average of 8.71 percent on the final day of the quarterly refunding, the lowest since 8.50 percent Feb. 8, the Treasury Department said.

The department said it auctioned about $10.75 billion of the 29 3/4- year, 8 3/4 percent interest rate notes at an average price of $100.376. At the last auction Aug. 9, the average yield on comparable 30-year bonds was 8.87 percent.

Bids Thursday totaled about $22 billion.

Earlier in tha day, the Treasury Department also auctioned $12 billion in 161-day cash management bills, as a part of the three-day refunding, at an average discount rate of 7.08 percent.

The average investment rate on the bills, designed to meet the short- term cash needs of the United States, was 7.41 percent and the average price was $96.834.

#90312u1014 11/08/1990 ~United Press International

WASHINGTON (NOV. 8) UPI - The 15 House members and one senator who got beat in Tuesday's election probably won't end up on the streets, but unlike the average citizen they will not be getting unemployment to cushion their fall.

On the ''Tonight'' show recently, comedian Jay Leno said that when members of Congress are defeated, they are entitled to unemployment benefits, and he asked, ''Can't we ever get these deadbeats off the payroll?''

It turns out it was a just a joke. It's a misconception that elected officials can receive such benefits, say officials of the District of Columbia and Virginia unemployment offices.

Other government workers are eligible for the benefits, but most state and federal laws have specific exclusions for elected officials, such as members of state legislatures or Congress.

Even if unemployment were available, it probably would not get much use. ''They're not about to go on unemployment,'' said one congressional aide. ''I can't imagine anybody doing it. ... Most of them are lawyers or other professions with lots of contacts (for new jobs).''

And their pay continues for about two months while they look for work. Even if they were defeated in the election, their status as members of Congress does not end until early January when the new Congress is sworn in.

Meanwhile, they continue to receive regular paychecks at the rate of $96,600 a year for House members and $98,400 for senators.

Many members do not even go back home after they retire or lose an election. Instead, they sign on with various private companies as consultants or government relations officers and use their considerable knowledge of how Washington works for the benefit of their new employers.

If members do return home, the government pays the costs of shipping their files and records to their hometowns.

Older members of Congress also have pension benefits to fall back on.

Under the current system, House members become vested after just five years of service and are eligible for pensions at age 62. Those who entered Congress before 1984 can collect pensions at age 60 after 10 years of service.

At a minimum, without credit for any other government or military service, that would produce an annual pension of about $22,800, according to congressional staffers.

The also can continue their medical insurance coverage, with the costs deducted from their earned annuities.

If they remain in Washington, former members also enjoy a few cost- saving perks on Capitol Hill, including continued use of the House and Senate barber shops, restaurants and stationary stores where prices are lower than at public stores and shops.

#90312u1023 11/08/1990 ~United Press International

(NOV. 8) UPI - Assistant Senate Democratic leader Alan Cranston says he has prostate cancer and probably won't seek re-election. The four-term California

senator says his doctors tell him that the cancer is ''totally curable,'' but immediate treatment is necessary. Cranston said he won't seek re- election to the post of assistant Senate Democratic leader next week or his Senate seat in 1992 because ''I must now concentrate on defeating this thing.''

President Bush today accepted with what he termed ''deep regret'' the resignation of William Bennett as director of the Office of National Drug Policy Control. Bush accepted the resignation at a special White House ceremony called to honor Bennett. The president said Bennett confronted the drug problem head-on and- quoting now- ''his hard work has paid off.''

The semi-official Athens News agency in Greece reports that emergency food stockpiles are being built up on the island of Cyprus to help refugees in case war breaks out in the Middle East. The first shipment of eight-thousand tons of emergency food is to arrive next Monday aboard a cargo ship from New Orleans. The World Food Program is handling the shipments.

There are NO reports of damage or injuries from a light earthquake that shook New Mexico early today. The U-S Geological Survey reports that the quake registered four-point-one on the Richter scale and was centered near Balen, about 40 miles south of Albuquerque. It was the third light quake in the area in less than a year.

Israel reports that a military patrol stopped five gunmen who tried to infiltrate into Israeli-held territory from Jordan today. An Israeli solder and one guerrilla died in shooting that followed. The Israeli Army Radio said four of the five were Jordanian policemen wearing civilian clothing. The fifth was a member of a terrorist organization. All were armed with pistols and knives.

The estimated three-Million Americans who will suffer from panic disorders in their lifetimes have new help, thanks to the Food and Drug Administration. It has approved the first drug to treat the mental illness that will strike between one and two percent of the population. The drug has been on the market for 10 years and has been used to reduce general anxiety. But the F-D-A move now widens that use to cover panic disorder.

The official Soviet news agency Tass reports that the unemployed Leningrad worker who fired two shots in Red Square on Revolution Day was charged today with attempted assassination. The report says Alexander Shmonov told investigators of his plans for an assassination during the Red Square ceremonies. A Soviet newspaper says someone hit Shmonov's hand as he pulled the trigger on a hunting rifle near where President Mikhail Gorbachev and other leaders were standing.

Reports from Seoul say about 10-thousand people staged a massive demonstration today on an island off South Korea to protest a plan to build a nuclear waste storage facility on the site. Media reports say rioters seized government

offices and burned a police substation on Anmyondo Island, 85 miles southwest of the capital. The reports say at least five police officers were hurt.

#90312u1031 11/08/1990 ~United Press International

MONTGOMERY, N.Y. (NOV. 8) UPI - A state trooper on the lookout for speeders on Interstate 84 in southern New York got a big surprise when a light plane was forced to make an emergency landing and taxied by him.

State Police Trooper Hector Fernandez said he was watching for speeders when the small Piper Cherokee malfunctioned Wednesday afternoon and used part of I-84 in the town of Montgomery as a runway.

He said the plane taxied for about a half mile into a rest area.

Fernandez said the plane flew out of Orange County Airport with instructor George Secor, 24, at the helm and his student Ronald Piecarski.

Federal Aviation Administration officials were examining the plane Thursday to determine if it could take off again from the highway or should be taken apart and trucked away.

Secor said it would be easier to just fly it back out again.

The problem was reported to be a broken cotter pin that holds the throttle together, a simple repair once the plane has landed.

#90312u1056 11/08/1990 ~United Press International

WASHINGTON (NOV. 8) UPI - President Bush claimed limited damage to the GOP in the midterm elections but acknowledged Thursday that his own switch on taxes was costly and he now has ''some remedial work'' to do before 1992.

Sizing up the elections at a news conference in which he also refused to say if he would seek re-election in two years time, Bush pointed to anti-tax sentiment as pivotal in a number of races where incumbents, especially governors, bore the wrath of voter discontent.

''I think there is a lesson. I think people feel they are taxed too much,'' he said.

In a candid exchange with reporters, Bush also made clear that he would move to minimize the impact of the issue in the future, promising a flurry of vetoes and ''a whale of a fight'' if Democrats resort to any more tax increases in the future.

''I don't think it was popular what I did, with anybody. But I think it was the right thing to do,'' Bush said. ''So I have some remedial work to do, I think.''

Specifically, he pledged that his going along with tax increases in this year's budget agreement to slash $492 billion over five years was a one-time compromise. And he held out the effective threat of his veto pen, already wielded 16 times, if Democrats try again.

''Can I make the promise that I won't support (tax increases)? Absolutely,'' he told reporters. ''But sometimes you run into some realities, but I'm girding up my loins to go into battle to beat back the tax attempts that I think are coming.

''I had the message long before America went to the polls to say, 'Hey, we don't want any more taxes,''' he said. ''The good news on that ... is I think some of the Democrats got the message, as well as Republicans.''

And though expressing disappointment at the loss of any GOP seat, Bush said several times that at the cost of a single Senate seat and nine House seats, it was an above-average showing for the GOP.

Historically, the party in control of the White House has lost ground in off-year elections.

Indeed, after weeks of bitter partisan attacks, public outrage over the budget mess and predictions of gloom and doom, most analysts agreed that the 1990 elections left the GOP only marginally weakened.

Bush said he regretted ''terribly'' the defeat of Sen. Rudy Boschwitz, R-Minn. who was dislodged by Democrat Paul Wellstone and the sole Senate incumbent to lose his seat. Boschwitz's defeat enabled the Democrats to pick up one Senate seat. They now hold a majority of 56-44.

In the House, Democrats gained eight congressional seats, for a total of 268 and 167 for Republicans. A ninth seat went to socialist Bernard Sanders of Vermont, who ran as an independent.

But Bush acknowledged a higher price was paid by governors, with those who raised taxes, like Florida Gov. Bob Martinez, the most vulnerable. The election of governors was crucial for both parties because the winners will have veto power over congressional redistricting in the coming year based on the 1990 census.

National Democrats were quick to argue that their gains in some Sun Belt gubernatorial races, coupled with network exit polling data, proved they could use pro-middle class pocketbook themes to make a strong 1992 push for the White House and win their second presidential race in seven tries.

Bush, for his part, refused to say whether he would be making his own bid for re-election.

''No decision has been made,'' he said.

But when asked if he wished he hadn't broken his much-balleyhooed campaign promise of no new taxes, made back in 1988, Bush replied, ''Do I wish I'd been able to, yes, very much so.

#90312u1057 11/08/1990 ~United Press International

(NOV. 8) UPI - Third quarter earnings of the Royal Dutch/Shell Group of Companies doubled while those of British Petroleum p.l.c. halved as a result of soaring crude oil prices during the Persian Gulf crisis, the companies reported Thursday.

Shell said its earnings for the three-month period ended Sept. 30 were $2.04 billion on revenues of $32.9 billion, an increase of 95 percent over profits of $1.04 billion on sales of $25.8 billion for the same period in 1989.

Nine-month earnings were $4.3 billion on sales of $89.9 billion, a decline of 6 percent from $4.9 billion on revenues of $77 billion in 1989, the company said.

The Royal Dutch/Shell Group is made up of the Royal Dutch Petroleum Co. and the Shell Transport and Trading Co., each of which is separately traded on the New York Stock Exchange.

The London-based Royal Dutch Petroleum's third-quarter rose to $2.39 a share from $1.23 a share in 1989's third quarter. Earnings for the nine-month period however, fell from last year's $5.80 a share to $5.09 a share in 1990.

Shell Transport, which has its headquarters in the Hague, Holland, said its profits for each American Depositary Receipt in the third quarter climbed to $1.36 from 70 cents in 1989's third quarter. Nine- month earnings fell to $2.89 an ADR in 1990 from $3.29 an ADR last year.

U.S. banks issue ADRs to encourage the trading of foreign currencies by easing their transfer overseas and their conversion to foreign currencies.

Shell said its exploration and production earnings rose from $390 million in last year's third quarter to $780 million this year ''largely due to sharply increased crude prices.''

For the group, the company statement said, there were ''substantial inventory holding gains'' arising from higher crude prices in the third quarter ''in

contrast to the first half of the year, when inventory losses were reported.''

British Petroleum of London reported its third-quarter replacement- cost profits fell 47.7 percent from last year's $415 million, or 95 cents an ADR, on revenues of $7.4 billion to $217 million, or 49 cents an ADR, on sales of $7.9 billion in 1990.

For the nine-month period, earnings declined 23.2 percent from 1989's $1.68 billion, or $3.67 an ADR, on sales of $21.3 billion, to this year's $1.29 billion, or $2.91 an ADR, on revenues of $23.19 billion, BP said.

BP Deputy Chairman David Simon said, ''The most influential element reflected in BP's third quarter results was the impact of the Middle East crisis on petroleum markets ... In BP's case, this resulted in a higher tax charge for the reporting period.''

The company reported that pretax operating profit rose 15 percent in the third quarter to $1.05 billion from $913 million in the third quarter of 1989.

Simon added, ''The extremes in crude oil price seen in spot markets are not recovered in sales realizations by BP Exploration due to time lag.''

#90312u1094 11/08/1990 ~United Press International

MIAMI (NOV. 8) UPI - A dispute weighing the importance of attorney-client privacy rights against freedom of the press was waged Thursday in the federal drug case against deposed Panamanian strongman Manuel Noriega.

At issue are government tapes that Cable News Network acquired of conversations Noriega had with his attorneys. The all-news station began airing excerpts from one of the tapes early Thursday.

At a morning hearing, an obviously angered U.S. District Judge William Hoeveler ordered CNN to refrain from using the tapes until he made a final ruling on a defense request for an injunction to permanently prohibit the network from airing the audio tapes.

''Before I became a judge, as most judges, I became a lawyer and I hope I still am,'' he said. ''I can't conceive of the right of someone else to know what a defense lawyer and his client are talking about.''

A CNN attorney said the network would attempt to have the temporary injunction lifted.

The permanent injunction was requested by lead defense attorney Frank Rubino, who said after the hearing that he planned to file a formal request for a dismissal because Noriega's attorney-client right to confidentiality and his

right to a fair trial had been compromised.

''We are absolutely shocked and horrified that the U.S. government would wiretap General Noriega and his lawyers engaging in the most sensitive of communications whatsoever,'' he said.

''Now at this point we have no idea as to what depths they have stooped to and whether our home phones are tapped, whether our homes are bugged, whether our cars are bugged or what other intrusions the government has entered into in their desparation to convict General Noriega.''

Assistant U.S. Attorney Myles Malman said the government had not heard the tapes and would have no position on the issue, other than to say the FBI was investigating to determine how CNN got the tapes.

President Bush, appearing before reporters to announce the resignation of anti-drug chief William Bennett, was asked about the Noriega tapes during a brief news conference in Washington. He said he was unaware of the reports and therefore, would not respond to questions about them.

CNN attorney Dan Waggoner argued in court that the network should not be placed at the center of the controversy because the network did not make the tapes. He said network officials contacted the government about the tapes after they were acquired Wednesday night and, as in court, the government would not offer any input.

''I think what has happened is that General Noriega's argument with the government has been pinned on CNN and that should not happen,'' he said.

He said CNN has at least seven tape recordings from government wiretaps of Noriega phone conversations. He refused to reveal the content of them or to say exactly how many there were.

After the hearing, Rubino said that the excerpt he heard had a member of his office talking to Noriega about defense investigations into government witnesses. He said they were using a Hispanic secretary to translate their conversation and were ''naming names, naming witnesses.''

As a condition to having telephone privileges at federal prison, Noriega agreed to have the government monitor his conversations. But Rubino said the government was not permitted to record conversations that dealt with Noriega's defense.

Hoeveler asked the bureau of prisons to find out how many tapes of Noriega conversations there were and have them sealed. He also asked that further phone conversations not be monitored.

A 1988 Miami federal indictment against Noriega and 15 defendants charges them

with providing a drug trafficking and money laundering sanctuary for South American drug smugglers. A simultaneous indictment in Tampa accuses him of conspiring with a smuggler to import more than a million pounds of marijuana.

He surrendered in the Dec. 20 U.S. invasion of Panama and was brought to Miami to stand trial, which is scheduled to begin Jan. 28. If convicted in Miami, he faces a maximum penalty of 145 years in prison and a $1.1 million fine.

#90312u1101 11/08/1990 ~United Press International

KUALA LUMPUR, Malaysia (NOV. 8) UPI - Malaysia sides with the United States in the U.S. dispute with the European Community over agricultural subsidies, a key minister said Thursday.

The Asian country also stands to gain handsomely from liberalization of world trade, said Rafidah Aziz, Malaysia's minister of international trade and industry.

She predicted hard bargaining will take place during final negotiations set for Dec. 3-7, culminating the four-year-long Uruguay Round of talks on liberalizing world trade.

In the talks involving delegations from 107 negotiating countries of the General Agreement on Tariffs and Trade, a number of sensitive issues remain outstanding and ''have been left for actual negotiation by ministers in the final meeting in Brussels,'' the minister said.

''Some breakthroughs may be achieved at the ministerial-level meeting.''

Besides the major sticking point on farm subsidies, other GATT objectives include freeing trade in textiles, reducing curbs on international insurance and banking and ending the pirating of intellectual properties, such as copyrights and patents.

The Cairns group of 14 advanced and developing nations recently expressed fear

the early December meeting in Belgium might not last have to be revised unless EC participants immediately presented proposals for cutting agriculture subsidies.

The EC's final proposals for cutting farm subsidies by 30 percent was described by the United States Wednesday as ''disappointing.''

U.S. negotiators, who want a cutback of 90 percent in export subsidies and 75 percent in price supports, felt the EC offer fell far short of what was needed to reach an accord by December.

Rafidah said Malaysia concurred with the U.S. view concerning the EC proposal.''Without a breakthrough in the Uruguay Round of talks, we are heading towards a world market fraught with protectionism,'' she said.

''We want to see if the EC proposal on agriculture can accomodate the interests of all its trading partners and we will be looking at the other offer package in detail as well,'' she added.

As far as Malaysia goes, the minister was upbeat about the country's prospects for becoming more of a force in world trade.

''We are being very realistic. We stand to gain more from liberalization in world trade than anybody else,'' Rafidah said.

#90312u1111 11/08/1990 ~United Press International

CAPE CANAVERAL, FL (NOV. 8) UPI - The shuttle Atlantis's countdown to liftoff next week will begin earlier than usual Sunday, apparently because of a planned Air Force Titan 4 rocket launch Monday that will interrupt shuttle processing, sources said Thursday.

While Atlantis's exact launch time is classified, sources who requested anonymity said the orbiter and its five-man, all-military crew are scheduled to take off at 6:46 p.m. EST next Thursday to kick off a four-day flight to deploy a military satellite that may be used to spy on the Persian Gulf.

If all goes well, Atlantis's countdown will begin at 10:30 p.m. Sunday and the ship's crew will fly to the Kennedy Space Center from Houston Tuesday afternoon to prepare for launch.

Shuttle countdowns typically begin three days before launch but Atlantis's countdown is scheduled to start Sunday evening, nearly four days before takeoff.

Reliable sources said the countdown would begin earlier than usual in part because of Air Force plans to launch a powerful Titan 4 rocket Monday evening

from nearby pad 41 at the Cape Canaveral Air Force Station to boost a secret military satellite into orbit.

Because the two launch pads are so close together, workers will have to evacuate Atlantis's gantry before the Titan's ground-shaking liftoff, interrupting the shuttle's countdown processing, the sources said.

Neither the Air Force nor NASA will discuss details about classified rocket launches and a space agency spokeswoman would not address any differences in Atlantis's countdown and those of past shuttle missions.

''That's the amount of time that we need to prepare for launching Atlantis on the classified flight,'' she said. ''The exact details of the countdown are not discussed on a classified mission.''

At nearby launch pad 39B, meanwhile, engineers continued work Thursday to prepare the shuttle Columbia for blastoff around the end of the month on a long-delayed astronomy mission.

During work at the pad overnight, an access platform extending into Columbia's open payload bay bumped into a fragile star tracker attached to one of the telescopes making up the ship's ''Astro 1'' payload. The star tracker will be used in space to keep the telescope locked onto various targets.

Officials said the platform came in contact with insulation around the star tracker, causing a small tear and a crease measuring one- quarter of an inch by one-eighth of an inch.

Coincidentally, the incident happened Wednesday, the same day top NASA officials briefed reporters on a study into a series of mishaps at the Kennedy Space Center over the past 13 months that have raised questions about quality control.

The study did not identify any generic problems at the spaceport and the latest incident was not considered serious. Nonetheless, engineers likely will test the star tracker's operation prior to takeoff to make sure the device ws not damaged in any way.

The Titan 4, making the rocket program's third flight since June 14, 1989, originally was scheduled for takeoff shortly after midnight Sept. 9, but the flight was canceled at the T-minus five-minute mark because of a last-minute technical glitch.

Aviation Week & Space Technology magazine reported the towering rocket was sidelined by problems with the booster's steering system. Even though the postponement was not related to the Titan's secret payload, the Air Force will not discuss any aspect of a Titan 4 mission.

The Titan 4 was built to give the Air Force independent access to space for high-priority military payloads. It is second only to NASA's manned shuttle in its ability to carry heavy cargos into orbit.

The program's first flight was successfully conducted on June 14, 1989, and the second on June 8 this year. The launch next week will mark the rocket's third.

#90312u1120 11/08/1990 ~United Press International

ATHENS, GREECE (NOV. 8) UPI - An accidental bomb blast Thursday led investigators to major clues that could lead to the break-up of notorious terrorist organizations operating in Athens for several years, the government said.

The announcement came after an accidental bomb explosion blew off the hand of a man suspected of being a member of a terrorist organization, and led to the discovery of an arms cache in a warehouse in central Athens.

Government spokesman Byron Polydoras said: ''Preliminary assessments lead us to conclude that we are dealing with a link (in the chain) of terrorist activities.''

Police arrested Kyriakos Mazokopos, 37, after a bomb he was handling exploded accidently, blowing off his left hand and wounding him in the face and one eye.

The explosion occurred in the Exarcheia district of central Athens, and police later found an arms cache including home-made bombs in a nearby warehouse.

Mazokopos was taken under heavy guard to a Red Cross hospital where he underwent surgery.

Police said they had found evidence that Mazokopos may have belonged to a terrorist organization calling itself the Revolutionary Popular Struggle, or ELA by its Greek initials, and had taken part in several terrorist bombings in Athens.

The Public Order Ministry said later in a statement: ''Men of the Anti-Terrorist Service early this morning uncovered a terrorist hideout ... in the Exarcheia district.''

''A search carried out by the competent police services established that there were materials and means (at the hideout) for carrying out terrorist activities.''

The cache included land mines, hand grenades, explosives, guns, ammunition, detonating devices, keys, masks, and wigs, the ministry said.

''Also found were printed material from well-known terrorist organizations and a stolen motorcycle,'' the statement said.

The statement did not name the organizations.

Police were led to the hideout following the accident that injured Mazokopos, who was ''known to the police from previous illegal activities.'' Officials said earlier Mazokopos was previosly under surveillance on suspicion of belonging to ELA.

''Mazokopos, who is being treated under guard at the Red Cross Hospital was injured as he was attempting to assemble an explosive device in the hideout,'' the ministry statement said. His left hand was amputated and he lost his left eye in the blast, it said.

Preliminary investigations were under way on the items found in the arms cache and ''the competent police authorities are continuing their inquiries,'' the statement said.

ELA, a leftwing organization, claimed responsibility for several terrorist bombings in Athens.

Other terrorist groups which have been active in Athens since 1976, included ''November 1,'' a leftwing organization that claimed responsibilty for several ruthless killings, and a group calling itself ''May 1.''

Several U.S. diplomats, military officers and servicemen were killed or injured in the left-wing terrorist attacks. Greek politicians, industrialists and officials were also killed or injured in the attacks.

Officials said earlier they suspected the leftwing groups were either interlinked or were one organization operating under several names.

Early this year, press reports said police had received a tip that the terrorist groups may have had links with Libya, through an agent operating under cover as an accredited journalist. The suspected agent disappeared about the time the report was published.

There was no official confirmation of the Libyan link, but terrorist bombings in Athens dropped sharply after the suspected agent disappeared.

CHICAGO (NOV. 8) UPI - Grain and soybean futures closed higher Thursday on the Chicago Board of Trade, supported by export business and export rumors.

The volume was light as traders positioned themselves for the November crop report.

Traders expected the Agriculture Department to report a slight reduction in the corn crop and a slight increase in soybean production.

Steady buying throughout the day supported the entire floor. Indications of Soviet interest in soybeans and soybean meal contributed to the gains, along with a modest turnaround in soybean oil futures.

On the export front, Brazil has been offered 300,000 tons of export bonus wheat, and Taiwan bought small quantities of corn, wheat and soybeans.

Commercials dominated the buying across the floor.

Interior and Gulf basis levels were steady to firm.

At the close, corn was up 1 to 2 3/4, soybeans unchanged to up 1 1/4, wheat up 2 1/2 to 3 1/2 and oats up 1/4 to 1/2.

(NOV. 8) UPI - Egyptian President Hosni Mubarak reportedly says war could be inevitable in the Persian Gulf unless Iraq withdraws its forces from Kuwait. Mubarak is quoted in the New York Times as saying that countries allied against Iraq are ''NOT bluffing'' and there ''will be NO other way out.'' But the Egyptian leader says the multi- national forces should wait ''two or three more months'' to see if economic sanctions will force Iraq out of Kuwait.

President Bush said today that he accepted ''with deep regret'' the resignation of his anti-drug chief, William Bennett. During a White House ceremony, Bush praised Bennett for confronting he drug problem ''head on'' and said his work has paid off. But the president told reporters that the administration will remain on the front lines in the anti-drug war until ''this scourge is stopped.'' He vowed- ''Block by block, child by child, we will take back the streets.''

California Democratic Senator Alan Cranston says he will NOT run for a fifth term in 1992 and he will NOT seek re-election to his current job as the assistant Senate Democratic leader. The 72-year-old Cranston says he has prostate cancer. Cranston is a member of the so-called ''Keating Five,'' a group of Republican and Democratic senators tied to the savings and loan crisis. His announcement of seeking ''immediate treatment'' leaves open the possibility he may NOT show up next Thursday when the Senate Ethics Committee opens public hearings into the Keating Five.

Soviet authorities today charged an unemployed Leningrad worker with attempted assassination for firing two shots yesterday in Red Square, where Soviet President Gorbachev led a Revolution Day parade. The official news agency Tass identified the man as Alexander Shmonov and says he told investigators of his plans for an assassination on the national holiday.

German Chancellor Helmut Kohl has agreed to sign a key border treaty with Poland next month, a time frame that comes earlier than originally expected. That word comes as Kohl met with Polish leader Thadeusz Mazowiecki in eastern Germany. Kohl then crossed the border into Poland a few miles away. The early signing is viewed as a minor concession to Poland. But little progress is reported on another issue, guarantees of German compensation to Polish victims of Nazi crimes.

Police in Colombia report that the head of the national movie promotion agency and her assistant were kidnapped last night in Bogota in an incident that led to the death of a chauffeur. Police sources believe that the Medellin drug cartel is behind all of this. It already holds seven journalists hostage in Colombia.

#90312u1185 11/08/1990 ~United Press International

OSHKOSH, WI (NOV. 8) UPI - The case of a man accused of sexually assaulting a woman who claims to have as many as 46 different personalities went to the jury Thursday.

Before the jury received the case, the defendant, Mark A. Peterson, 29, of Oshkosh, admitted he had sexual relations with one of the woman's many personalities, one known as ''Jennifer,'' but said he did not know about her

multiple personality disorder until afterward when he talked with neighbors.

The alleged victim, a 27-year-old Oshkosh woman, was not identified.

In closing arguments, District Attorney John Paulus said Peterson ''intentionally manipulated a person'' and told the jury that in this case it was the guardian of the rights of mentally ill people.

''Who really speaks for the mentally ill in this society?'' Paulus said. ''What he (Peterson) did was to manipulate that mental illness.''

Paulus said Peterson knew of the woman's illness and ''he worked it to his own sexual advantage.''

Paulus told the jury the complex issue of multiple personality was real and a scientifically proven affliction, citing testimony from state psychiatric witnesses.

''It's real and there's no question that it is present in the victim, '' Paulus said.

Defense attorney Edward J. Salzsieder told the jury Peterson was ''not responsible for the victim.''

''Please do not let your sympathy cloud your judgment,'' he admonished the Winnebago County Circuit Court jury.

Salzsieder tried to dispel state psychiatric testimony by citing defense witnesses. He questioned how Peterson could know a person less than four hours and determine she had such a complex psychiatric disorder.

Peterson told the jury as his trial entered its fourth day that he thought the woman's references to other people were about brothers and sisters.

Peterson said he called the woman the next day to apologize, and said,'' I'm sorry I had sex with Jennifer'' - one of the woman's many personalities.

Peterson said another of the woman's personalties, ''Franny'' replied to his apology by saying, ''If you wanted to have sex, why didn't you come to me?''

He said ''Franny'' threatened him, saying, ''I'm going to prosecute you, you bastard.''

The woman testified Wednesday after three of her 46 personalities were sworn in. ''Jennifer,'' the personality involved, said she did not know what sex was.

''I didn't know what he was doing,'' ''Jennifer'' said. Asked if ''Jennifer'' and Peterson had sex, ''Jennifer'' responded, ''I don't know. What's sex?''

A defense psychiatrist, Dr. Donald Treffert, told the jury Wednesday the woman was faking her multiple personalities. Treffert said people with split personalities do not lose touch with reality. He said Peterson should be acquitted, because the woman still had control of her body.

However, prosecution witness Jean Goodwyn, a psychiatry professor at the Medical College of Wisconsin in Milwaukee, testified she hass worked with ''somewhere around 100'' patients with multiple personality disorder.

She said she saw the victim in this case last April and diagnosed her with the problem.

#90312u1196 11/08/1990 ~United Press International

NEW YORK (NOV. 8) UPI - A computer network will take the first nationwide look at cancer patients' treatment and survival - information that should improve cancer therapy, the American Cancer Society announced Thursday.

Currently, there is no comprehensive way of tracking exactly how the 1 million Americans diagnosed with cancer each year are treated, or how that treatment affects their eventual outcome.

The new computer system, set up by the cancer society and the American College of Surgeons' Commission on Cancer, intially will collect data on cancer patients at a network of 600 hopsitals. The aim is to expand the hospital to include about 1,200 hospitals and about 70 percent of all U.S. cancer cases.

The National Cancer Database will provide ''a sort of 'report card' on treatment outcome that will let us know how we are doing on certain cancers,'' said Dr. Gerald Murphy of the cancer society. ''This will allow us to direct our efforts to the areas of cancer care that need attention.''

In addition to providing a look at treatment patterns and survival rates for various types of cancer, the data base will allow doctors to track what is happening in certain sub-populations, like blacks, the elderly and city dwellers.

Murphy said doctors currently rececive a lot of information, but little ''clear-cut guidance'' on ways of treating cancer.

''The American Cancer Society and the Commission on Cancer would like to change that scenario by offering physicians the opportunity to find, in one concise document, how their peers around the country are treating similar patients, and most importantly, to measure the outcomes of those treatments,'' he said.

#90312u1211 11/08/1990 ~United Press International

DETROIT (NOV. 8) UPI - Combined U.S. car and truck production this week will be nearly 26 percent below last week's level, and more than 18 percent below year-ago levels, Ward's Automotive Reports said Thursday.

With many General Motors Corp. and Ford Motor Co. plants temporarily idled, this week's estimated vehicle build is expected to total 170,708 units, compared to 230,103 cars and trucks last week, and 209,208 units in the year-ago week, the weekly statistical service said.

U.S. car production alone through this week was expected to reach only 109,006 units, 22.5 percent below the prior week, and 18.6 percent below the year-ago week, Ward's said.

That would bring domestic car production so far this year to 5,449, 082 units, or 90 percent of last year's same-date output of 6,053,590 cars.

U.S. truck production this week is estimated at 61,702 units, down a sharp 31 percent from the previous week total of 89,454 units, and 18 percent from year-ago's 79,347.

Estimated year-to-date output through the end of this week is 3,400, 388 trucks, or 95.4 percent of 1989's to-date build of 3,564,622 units.

GM was expected to account for 44.4 percent of this week's estimated U.S. car production, Chrysler Corp., 16 percent; Ford, 11.7 percent; Honda of America Mfg. Inc., 8.9 percent; Toyota Motor Mfg. U.S.A. Inc., 4.1 percent; New United Motor Mfg. Inc., 3.9 percent; Mazda Motor Mfg. (USA) Corp., 3.8 percent; Nissan Motor Mfg. Corp., 3.1 percent; Diamond- Star Motors Corp., 3.0 percent; and Subaru-Isuzu Automotive Inc., 1.1 percent.

Chrysler was the only one of the Big Three U.S. carmakers to schedule all of its assembly plants to operate this week.

GM temporarily shuttered 10 U.S. plants this week, with some closures extending beyond this week to trim high inventories.

Second-ranked Ford, citing a lack of dealer orders, closed six U.S. plants this week, including its Taurus/Sable cars plants in Atlanta and Chicago, and

its Tempo/Topaz car plant in Kansas City, Mo.

#90312u1265 11/08/1990 ~United Press International

NEW YORK (NOV. 8) UPI - Deflation of ballooning prices for contemporary art continued Thursday as a week-long series of sales at Manhattan's two major auction houses drew to a close.

Some 28 of 58 paintings and sculptures which went on the block Wednesday evening at Christie's gallery failed to find a buyer willing to pay the reserve price below which the art work remains unsold.

The 30 lots that did sell brought a disappointing total of $36.7 million, against a pre-sale estimate of $47.7 million to $65.4 million.

''Quality sells and that's what sold tonight,'' commented Diane Upright, curator of contemporary art sales at Christie's.

''But I think we will take an overall look at structuring sale in general. In the process of reassessment, perhaps the evneing sales may become more tightly focused.''

Top price in the sale was $8.8 million paid by New York dealer Larry Gagosian for Willem de Kooning's ''July,'' part of his urban landscape series painted in 1856. Christie's had put an evaluation of $5 million to $7 million on the canvas, an abstract composition of summery colors slashed with black.

Swiss dealer Thomas Ammann paid $4.84 million for an untitled 1961 Cy Twombly graffiti painting, and an unidentified European collector paid $3.85 million for Fracis Bacon's 1967 ''Portrit of George Dyer Staring into a Mirror.'' An unidentified dealer bought Mark Rothko's 1958 color field painting, ''Black and Dark Red on Red'' fetched $3.19 million.

Among the paintings that failed to sell were two Andy Warhol self- portraits and his ''12 Jackies,'' a multiple portrait of Jacqueline Kennedy Onassis. A Warhold painting also failed to sell at Sotheby's gallery Tuesday.

The Sotheby sale sent the art world into shock when half the post- World War II artworks offered failed to sell. As a result, the sales total was only

$19.8 million instead of the $39.6 millionto $52 million expected by gallery experts.

Dealers attending the sale voiced the opinion that reserves - the prices agreed on by consignors and gallery experts as a fair market price - were too high to be realistic in an era of deepening economic gloom and the threat of war in the Middle East.

-30- 2398

#90312u1268 11/08/1990 ~United Press International

SAN DIEGO (NOV. 8) UPI - A lawsuit was filed against Southern California Edison Thursday, alleging its San Onofre nuclear power plant has caused environmental damage to the ocean.

The suit by Earth Island Institute, based in San Francisco, seeks unspecified damages for Edison's alleged violations of the permits that allow it to use seawater to cool the three San Onofre reactors and discharge it back into the Pacific.

The suit also seeks to force Edison to take steps to stop the alleged environmental damage, which has included the deaths of fish sucked into the reactors' intake pipes and damage to kelp beds by sediment stirred up by the plant's discharge system.

Earth Island's suit also demands Edison repair the alleged damage.

''Despite Edison's assurances to the contrary, substantial adverse ecological and environmental impacts have been occuring for many years through the operation of the nuclear plant and these adverse impacts continue to occur,'' the suit alleged.

David Barron, a spokesman for Edison, said the suit, which was filed in federal court in San Diego, had not been received by company officials in Rosemead, but denied that Edison was violating any state or federal environmental standards.

Charles S. Crandall, an attorney for the Earth Island Institute, said the suit was filed under a provision of the federal Clean Water Act that gives citizens the right to sue alleged polluters if government agencies fail to act.

Earth Island said its suit was based upon an exhaustive study released Sept. 6 1989, that concluded that San Onofre had dealt a blow to the marine environment.

''What needs to be done is either disconnect the plant from the ocean or find a way of preventing the ongoing damage,'' said Donald May, an Earth Island Institute member from Long Beach and a plaintiff in the suit.

The Marine Review Committee study, financed by Edison on the order of the California Coastal Commission, took 15 years to complete and concluded that 20 tons of fish were killed in the intake pipes a year and sediment stirred up by the discharge pipes hampered the growth of kelp by settling on small plants and reducing the amount of sunlight that reaches the ocean bottom.

The report recommended improvements to the underwater pumping system and construction of artificial reefs to act as barriers to keep fish away from the pipes and serve as rooting sites for kelp plants.

Barron said the study was still being reviewed by the Coastal Commission and Edison had not been ordered to take the mitigating steps.

''The study found only minimal impact upon the environment,'' Barron said. ''You would expect some impact from the operation of a large power plant.''

Crandall, however, said Edison was violating the discharge permits and should be held responsible.

''We recognize it's an expensive process but we feel the utility has been disingenuous in the way it handled this,'' Crandall said. ''They took the risk and they aren't willing to pay the piper.''

#90312u1282 11/08/1990 ~United Press International

NEW YORK (NOV. 8) UPI - State Attorney General Robert Abrams announced a lawsuit Thursday seeking to bar the sale of two ''junk bond'' mutual funds in New York and restitution for investors who were allegedly deceived into purchasing them.

Attorney General Robert Abrams said that the two Manhattan-based funds, First Investors Fund for Income and First Investors High Yield Fund, had assets in June of $971 million and $640 million, respectively, and approximately 90 percent of which were in junk bonds.

The two have over 270,000 investors combined - with New Yorkers comprising about one-quarter of that total - making them among the largest junk funds in the mutual fund industry, Abrams said.

Abrams' suit, filed Thursday in state Supreme Court in Manhattan, accused First Investors of embarking upon a plan to sell junk bond mutual funds to the public starting in 1985 through a calculated series of misrepresentations and comissions.

Investors were told the funds were safe, the bonds were guaranteed, and that they would receive higher rates of return than they would at a bank, the attorney general said.

''These investors didn't realize that they were going into the riskiest sector of the bond market,'' Abrams said.

''These funds were sold primarily in people's homes by aggressive salespeople using a prepared script which greatly misrepresented the risks involved. They preyed upon investors who were unsophisticated in such matters and often didn't even receive prospectuses,'' Abrams said.

He added that the script included misleading words like ''safe,'' ''secure,'' and ''stable'' to characterize the high-risk junk bond investments.

''Many victims were of very modest means and could ill afford their losses,'' he said.

Junk bonds are non-investment grade or corporate debt securities, and First Investors bought junk bonds with the mutual funds using the money from individual investors, the attorney general said.

First Investors purchased some of the most speculative bonds offered and have recently performed in the bottom 10 percent of all such funds in rate of total return, Abrams said.

Also named in the suit were First Investor's brokerage firm, an investment advisory firm and the corporate parent, as well as four individual executives.

Thursday's suit resulted from a 15-month investigation into the sales practices used to market the funds, the attorney general said.

#90312u1286 11/08/1990 ~United Press International

ORLANDO, Fla. (NOV. 8) UPI - Harcourt Brace Jovanovich Inc. Thursday said lower interest expenses, higher revenues and reduced costs helped the company post a third-quarter profit of $57 million, or 73 cents a share.

The gain for the period compares with a net loss of $85.8 million for the period last year. The results for the previous quarter included a $127 million write-off, the company said.

Revenues for the quarter rose slightly to $476.5 million from $470.1 million a year ago, Harcourt said. An increase in publishing revenues was offset in part by a slight decrease in insurance revenues, the company said.

For the nine-month period ended Sept. 30, Harcourt's net loss narrowed to $38 million, or 73 cents a share, compared with $244.4 million, or $4.05 a share, for the same period a year ago.

Revenues rose to $1.1 billion from $1.04 billion a year ago.

The company said higher revenues for the period reflect improved sales in both publishing and insurance. Harcourt said publishing revenues rose by $38 million for the period.

An 11 percent increase in medical books, international sales, college textbooks, test products, and other services offset a decline in elementary and secondary textbook revenues, Harcourt said.

Operating income from publishing was up $5 million, or 5 percent, for the quarter, and $33 million, or 33 percent, for the nine-month period, excluding the 1989 write-off of $95 million, Harcourt said.

Harcourt said its interest expense was signficantly lower for both periods, because of a smaller debt load. The company used proceeds from the $1.1 billion sale of six theme parks to Anheuser-Bush Cos. to pay down debt.

Harcourt said earlier this month it hired Smith Barney Harris Upham & Co. to explore alternatives for dealing with the company's ''highly leveraged financial position.''

#90312u1290 11/08/1990 ~United Press International

MIAMI (NOV. 8) UPI - The government secretly taped telephone conversations between deposed Panamanian Gen. Manuel Noriega and defense attorneys preparing for his drug trial, it was disclosed Thursday.

At least seven of the tapes were acquired by Cable News Network and the station began airing an excerpt from one of the recordings in the morning. Defense lawyer Frank Rubino immediately sought to permanently quash additional broadcasts by seeking a federal injunction against the all-news station.

At a morning hearing, an obviously angered U.S. District Judge William Hoeveler issued a temporary order telling CNN to refrain from using the audio tapes pending another hearing at 5 p.m. on Rubino's injunction request.

''Before I became a judge, as most judges, I became a lawyer and I hope I still am,'' he said. ''I can't conceive of the right of someone else to know what a defense lawyer and his client are talking about.''

A CNN attorney said the network would attempt to have the temporary order lifted.

After requesting the permanent injunction, Rubino said he planned to file a formal request for a dismissal of charges against Noriega because the former strongman's attorney-client right to confidentiality and his right to a fair trial had been compromised.

''We are absolutely shocked and horrified that the U.S. government would wiretap General Noriega and his lawyers engaging in the most sensitive of communications whatsoever,'' he said.

''Now at this point we have no idea as to what depths they have stooped to and whether our home phones are tapped, whether our homes are bugged, whether our cars are bugged or what other intrusions the government has entered into in their desperation to convict General Noriega.''

Assistant U.S. Attorney Myles Malman said the government had not heard the tapes and would have no position on the issue, other than to say the FBI was investigating to determine how CNN got the tapes.

President Bush, appearing before reporters to announce the resignation of anti-drug chief William Bennett, was asked about the Noriega tapes during a brief news conference in Washington. He said he was unaware of the reports and

therefore, would not respond to questions about them.

CNN attorney Dan Waggoner argued in court that the network should not be placed at the center of the controversy because the network did not make the tapes. He said network officials contacted the government about the tapes after they were acquired Wednesday night and, as in court, the government would not offer any input.

''I think what has happened is that General Noriega's argument with the government has been pinned on CNN and that should not happen,'' he said.

After the hearing, Rubino said that the excerpt he heard had a member of his office talking to Noriega about defense investigations into government witnesses. He said they were using a Hispanic secretary to translate their conversation and were ''naming names, naming witnesses.''

As a condition to having telephone privileges at federal prison, Noriega agreed to have the government monitor his conversations. But Rubino said the government was not permitted to record conversations that dealt with Noriega's defense.

Hoeveler asked the bureau of prisons to find out how many tapes of Noriega conversations there were and have them sealed. He also asked that further phone conversations not be monitored.

A 1988 Miami federal indictment against Noriega and 15 defendants charges them with providing a drug trafficking and money laundering sanctuary for South American drug smugglers. A simultaneous indictment in Tampa accuses him of conspiring with a smuggler to import more than a million pounds of marijuana.

He surrendered in the Dec. 20 U.S. invasion of Panama and was brought to Miami to stand trial, which is scheduled to begin Jan. 28. If convicted in Miami, he faces a maximum penalty of 145 years in prison and a $1.1 million fine.

#90312u1292 11/08/1990 ~United Press International

WASHINGTON (NOV. 8) UPI - Assistant Senate Democratic leader Alan Cranston announced Thursday that he is suffering from cancer of the prostate and will not run for re-election in 1992.

Cranston said he would not seek re-election to the post of assistant Senate Democratic leader or his Senate seat in 1992 because ''I must now concentrate on defeating this thing.''

''I look forward to two years in the Senate free of the burdens and perils of campaigning and fund-raising,'' Cranston said in a statement. ''I intend to make them years of great achievement for the people of California and the

United States.''

Cranston, 76, said that the cancer was first discovered during a routine physical examination and confirmed by a biopsy Oct. 15 at Walter Reed Army Medical Medical Center.

The California Democrat said he has consulted specialists in New York and will consult experts at Stanford University and Johns Hopkins Hospital in Baltimore in the next few days before deciding on a course of treatment.

''The physicians tell me that the cancer is apparently totally curable, but immediate treatment is necessary,'' Cranston said. ''A positive factor is my otherwise robust health. Whether I face an operation or radiation therapy will be determined shortly.''

In adddition to announcing he will not seek a fifth term in 1992, Cranston said he will not seek re-election next week as assistant Senate Democratic leader, a post he has held since 1977.

Sen. Wendell Ford, D-Ky., planned to run against Cranston for the Democrats' deputy post.

Ford said in a statement, ''Alan has been a respected colleague for the past 16 years and my thoughts and prayers are with him for a complete and speedy recovery.''

Senate Democratic leader George Mitchell said Cranston's support in the last two years ''meant more to me than I can readily express. Although I am saddened that he will leave the Senate leadership, I understand and support his decision.''

Mitchell added, ''I am glad the Senate and the state of California will have two more years of Alan Cranston's strong and dedicated service.''

A spokesman said that Cranston, whose statement said he needed ''immediate treatment,'' said the senator would be present to face the Senate Ethics Committee next Thursday when it opens public hearings into the case of the Keating Five.

Cranston is one of five senators facing charges that they brought pressure on federal regulators on behalf of Charles Keating not to close his Lincoln S&L thrift. The delay in shutting down the S&L is expected to cost taxpayers $2 billion.

Keating donated about $1.3 million to Cranston's re-election campaigns and to non-partisan get-out-the-vote projects that the California senator launched in his state.

The Senate Ethics Committee is scheduled to begin public hearings next week on the allegations against Cranston and Sens. Dennis DeConcini, D-Ariz., John McCain, R-Ariz., Donald Riegle, D-Mich., and John Glenn, D-Ohio.

Cranston said of the 56 Democrats who will elect an assistant party leader, 19 senators had pledged their support to him and 19 more were uncommitted.

(NOV. 8) UPI - Iraq's Saddam Hussein apparently has a short tigger when it comes to anyone opposing him. The government-controlled media reports that the army chief of staff has been fired, the third senior Iraqi official dismissed since the August invasion of Kuwait .

President Bush's outgoing anti-drug chief used his resignation announcement today to take a parting shot at one of his biggest critics. William Bennett lashed out at New York Representative Charles Rangel, who called the Bush administration's anti-drug battle ''a colossal failure.'' Bennett responded, calling Rangel a ''gas bag.''

The General Accounting Office is recommending that the nation's two remaining battleships be retired unless they are needed in Operation Desert Shield. Congress earlier ordered the Navy to retire two other battleships... the Iowa- heavily damaged in the 1989 explosion that killed 47 sailors- and the New Jersey. The Missouri and Wisconsin are still operating.

The U-S Catholic Conference reports that a poll indicates that abortions are performed almost three times more often than most Americans realize. Almost half of those interviewed said less than 500- thousand abortions happen each year. But the report says the actual number is closer to one-point-six-Million.

The man accused of raping a woman who claims to have 46 personalities testified at his Oshkosh, Wisconsin, trial today. Mark Peterson told the jury that he telephoned the woman the next day to apologize but got into a

conversation with a personality different from the one he is charged with attacking.

A copywritten story says a Pittsburgh woman has lost an eye after using eyedrops produced by a local pharamacy. The medication had been tainted by a drug used to treat arthritis. And the story indicates that several other people are in danger of blindness in Pittsburgh.

#90312u1302 11/08/1990 ~United Press International

OTTAWA (NOV. 8) UPI - The Bank of Canada lowered Thursday its key rate by 12 basis points to 12.49 percent, a move that is expected to prompt chartered banks to lower their prime rates.

Gilles Loiselle, Canada's junior finance minister, told Parliament the government remained committed to restraining inflation, which has resulted in interest rates being pegged far above those in the United States.

''We do want interest rates to come down, but we want them to come down and stay down,'' Loiselle said.

Chartered banks set their prime rates about one percentage point above the central bank's rate. Late Wednesday, the Bank of Montreal surprised financial circles by lowering its prime rate one-quarter of a percentage point to 13.50 percent.

Canada's central bank has deliberately kept interest rates high to fight inflation, but the rates, as well as the federal government's massive debt, helped create an economic recession.

In recent months, corporate profits have plummeted, housing sales have virtually halted and consumer spending has dropped precipitiously.

In other economic matters, Canada's Finance Department reported Thursday the government's budgetary deficit for the first six months of the year was $10.6 billion, $3.0 billion lower than that recorded in the same period last year.

The improvement was attributed to higher budgetary revenues from personal income tax collections and collection of unemployment insurance premiums.

Budgetary expenditures in the first six months rose 8 percent.

However, increases in public debt charges indicated how unrealistic the government was in forecasting interest rates in its last budget.

Interest on the public debt, the largest single component of budgetary spending, soared 12.1 percent, in contrast to the 4.4 percent predicted in the

budget for the entire year.

#90312u1312 11/08/1990 ~United Press International
WASHINGTON (NOV. 8) UPI - The United States and Israel believe Iraq is ''some years away'' from developing a nuclear arsenal, but one expert outlined an accelerated, long-shot scenario in which Saddam Hussein could produce one warhead.

The possibility of such a nightmare, thought to be unlikely but something that cannot be dismissed given Saddam's history of impulsive actions, was raised by Leonard Spector, who is an expert on nuclear proliferation with the Carnegie Endowment for Peace in Washington.

To start, Spector explained that Iraq could seize about 25 pounds of weapons grade uranium supplied several years ago by the French for an nuclear power reactor. That amount is about half of what would be needed to build one nuclear device.

The plant was bombed by Israeli jets in 1981, but with Iraqi permission, the uranium has since been inspected each year by the International Atomic Energy Commission. But with the world allied against Iraq for its aggression in the Middle East, Hussein could deny inspectors access to the uranium and, at the very least, generate concern about his intentions.

This year's international inspection scheduled for Nov. 15.

''If they decide to seize that material, or deny the IAEA inspectors access this year, that could mean they decided to take the gamble. It would be very dramatic,'' said Spector.

U.S. officials suggest that such a high stakes move would be suicidal since a bomb could never be tested because Iraq would only have one.

Also, Israel, the most likely target of a nuclear attack from Iraq, is believed to have at least 100 nuclear weapons and has said it would use them to retaliate.

A more likely scenario, according to Spector and U.S. officials, is that Iraq will continue its apparent project to build a nuclear weapon from scratch.

That means mining uranium, refining it with Iraqi-built centrifuges and manufacturing a warhead for a ballistic missile. The Iraqis are mining uranium in the northern part of the country.

Such a device requires precise electronic switches and capacitors. Iraq tried to buy these, but the shipments were intercepted last year.

Also, a large munitions plant explosion this year may have set back Iraq's attempt to build a sophisticated detonator for a nuclear weapon, said U.S. officials.

Israeli Defense Minister Moshe Arens said this week, ''I believe it will take them a long time to achieve that (nuclear) capability.'' One thing that could accelerate that process would be the illicit transfer of technologies from other countries, he said.

Spector said he finds it disturbing that the Iraqis have been able to procure from other countries about 26 high-speed centrifuges, used to purify uranium into weapons-grade material. He said that if the Iraqis decide to build their own, by copying the imported models, they could then build another 1,000.

Spector said that a general rule of thumb is that 1,000 small centrifuges, working for one year, create enough weapons-grade material for one missile.

Then there remains the problem of creating the casing for the weapon. That requires a special high-temperature furnace of sufficient size. An Iraqi attempt to furnaces from a New Jersey firm was stopped by the U.S. Customs Service in July.

But the persistence and ingenuity of the Iraqi attempt to buy nuclear technology is worrisome to some U.S. officials.

The Iraqis have bought small American firms, using them as a front for purchases that are illegal for foreign governments. Iraq has even bought a share of an Atlanta bank to finance further attempts.

As part of the sanctions and diplomatic retaliation, the United States expelled Iraqi diplomats who were involved in the attempt to buy the technology, but it is known that other Iraqi agents, sometimes of other nationalities, are still shopping around.

#90312u1357 11/08/1990 ~United Press International

UNITED NATIONS (NOV. 8) UPI - The United States remains committed to overturning a 15-year-old U.N. resolution equating Zionism with racism, but

does not intend to push for a vote to repeal it at the current General Assembly session, a U.S. official said Thursday.

Diplomats said the U.S. reluctance to challenge the Arab and non- aligned voting bloc in the 159-nation General Assembly stemmed from the need to keep the coalition against Iraq intact until at least a resolution of the Persian Gulf crisis.

Instead, U.S. ambassador Thomas Pickering said he will not push for a vote until he is assured there is a majority supporting the repeal of the resolution.

Speaking at a conference hosted by the American Jewish Committee, Pickering said Israel agreed with Washington's cautious approach, feeling that ''a lost vote (in the assembly) would be a reconfirmation'' of the resolution.

Resolution 3379 was adopted Nov. 10, 1975, branding ''zionism as a form of racism and racial discrimination.'' The vote was 72-35 with 32 abstensions.

The present coalition against Iraq includes Arab and third-world nations that voted for Resolution 3379, as well as Western nations that vehemently opposed it.

Pickering's comments indicated that the Bush administration will not push for a repeal of the resolution at this year's General Assembly.

U.S. Vice President Dan Quayle had called for a repeal of the resolution when he made his first visit to the U.N. headquarters earlier this year.

But the ambassador said support for a repeal has been growing, especially because of the demise of communism in Eastern Europe. The ambassadors of Czechoslovakia, Hungary, Poland and Bulgaria spoke at the conference, saying their governments voted for the resolution in 1975 but no longer support it.

''Resolution 3379 was a black spot on the record of the United Nations,'' said Czechoslovak Ambassador Eduard Kukan, later adding that his government ''is willing to help repeal it.'' He noted that Czechoslovakia reestablished diplomatic relations with Israel earlier this year.

Sen. Daniel Moynihan, D-N.Y., who was U.S. Ambassador to the United Nations when Resolution 3379 was passed and led an impassioned opposition to it, said the resolution could be repealed now if the United States pushed for it.

He said that even the Soviet Union, which was one of the main supporters of the resolution, might now vote against it. He also said that many third-world countries voted half-heartedly for the measure because of their support for the Soviet Union.

''We could get these votes'' for a repeal, he said, adding, ''I don't know why we don't.''

The U.N. ambassadors of Germany, Italy and Great Britain also spoke to the conference, saying their countries opposed the resolution at the time and still do. East Germany voted in favor of the resolution but no longer has a seat at the United Nations following German reunification.

#90312u1360 11/08/1990 ~United Press International

WASHINGTON (NOV. 8) UPI - As the peak ''plastic season'' approaches, consumers should beware of credit card fraud, a $500 million-a-year heist pulled by increasingly sophisticated thieves, experts said Thursday.

But while the cost of credit card fraud grows annually, many consumers are unaware of new laws to protect them and measures they can take to keep their credit cards secure, according to Elgie Holstein, director of the Bankcard Holders of America consumer group.

The latest figures available from the Federal Trade Commission's Office of Consumer Education shows credit and charge card fraud may cost card holders and card companies as much as $500 million annually.

Stolen credit cards account for much of the loss, but Holstein notes thieves need only the credit card number to commit mail order or false credit card application fraud.

Laws that prohibit merchants from recording credit card numbers on checks used for purchases have been enacted by 10 states, he said, including California, Delaware, Florida, Iowa, Kansas, Maryland, New Jersey, New York, Virginia and Washington. Most of those laws have been passed within the last year, some not taking effect until January 1991.

''The basic point is that compared with a year ago there is a great deal of consumer and merchant sensitivity to the use of credit cards in non-credit card transactions,'' Holstein said.

Many merchants opposed the new laws, claiming the card numbers are used both for identification and to safeguard against bounced checks. But in pushing for the legislation, Bankcard Holders noted that the three biggest credit card comapnies - VISA, MasterCard, and American Express - prohibit charging a consumer's credit card to cover a bounced check, and that in most cases card numbers cannot be used to locate a person.

Holstein said some consumers have little concern about bank card fraud because they are only liable for a maximum of $50 in fraudulent charges and often pay nothing if they report a stolen card promptly.

''But it's also accurate to say that cosumers end up picking up the tab for credit card fraud anyway,'' through higher user fees and other costs, he said.

VISA has reported its credit fraud losses have risen steadily from $53.7 million in 1980 to $133.8 million in 1989. MasterCard losses were at $42 million in 1980, peaking at $74.3 million in 1986 and dropping to $50.8 million in 1989, according to Bankcard Holders figures.

Holstein said much of the fraud could be eliminated if marchants handling credit cards would more closely follow security procedures, such as matching signatures on IDs and credit cards.

The FTC and Bankcard Holders offer consumers these tips to guard against credit card fraud.

- Sign your cards as soon as they arrive and carry them separately from your wallet.

- Keep your card in view when you give it to a sales clerk to prevent him from making an ''extra'' imprint.

- Avoid signing blank receipts and draw a line through all blank spaces above the total when you sign card receipts.

- Offer your credit card for identification, but request merchants not write the number down.

- In addition to reporting stolen credit cards promptly to the issuer, also report them to credit bureaus to prevent thieves from applying for new credit in your name.

MOSCOW (NOV. 8) UPI - Foreign Minister Eduard Shevardnadze said Thursday it may become necessary to use armed force to compel Iraq to leave Kuwait and indicated Kremlin agreement with the U.S. approach to the Persian Gulf crisis.

Secretary of State James Baker, after separate meetings with Shevardnadze and Soviet President Mikhail Gorbachev, also said the two superpowers had agreed

that use of force cannot be ruled out.

After their first two meetings, Baker and Shevardnadze held a joint news conference and then resumed talks Thursday evening, fueling speculation they could be outlining a possible U.N. resolution sanctioning use of force against Iraq.

''We may stay up late tonight continuing our discussion,'' Shevardnadze said before joining Baker and Gorbachev for their talks.

In all, Baker spent 13 hours in talks with Shevardnadze and at the end of the day's discussions, Baker telephoned President Bush from the U.S. Embassy, State Department spokeswoman Margaret Tutwiler said. She said Baker and Shevardnadze had ''agreed to consult further.''

Shevardnadze said that Moscow and Washington still prefer a peaceful solution to the Middle East conflict, but he acknowledged it may take more than political pressure to end the 3-month-old standoff between Iraqi troops in Kuwait and a U.S.-led international force in Saudi Arabia.

''Concerning your question on whether or not the use of force can be excluded, probably it is impossible to exclude this,'' Shevardnadze told a reporter. ''A situation could arise that indeed demands such a decision. But I think all decisions should be made within the framework of the (U.N.) Security Council.''

The foreign minister said the United Nations ''has demonstrated sufficient maturity'' in responding to the Iraqi aggression and that ''this organization is capable of making a wise and reasonable decision.''

Before a 90-minute meeting with Baker at his country house outside Moscow, Gorbachev was asked whether Iraqi President Saddam Hussein should be given a deadline for withdrawing from Kuwait before possible military action.

''Thank you for a good question,'' Gorbachev responded with a smile.

Baker, who arrived in Moscow from Turkey late Wednesday, said that the United States and the Soviet Union had a clear understanding of each other's positions in the gulf crisis.

''We would prefer strongly a peaceful and political solution to this crisis, but we cannot rule out other options,'' he said.

Baker, on a whirlwind tour to assess support for possible military action in the gulf, held talks in Ankara with Turkish President Turgut Ozal on Wednesday after earlier stops in Bahrain, Saudi Arabia and Egypt.

Baker said that he and Shevardnadze had also agreed on the need for continued U.S.-Soviet cooperation in the gulf conflict and for full implementation of

U.N. resolutions imposing an international trade blockade of Iraq.

Shevardnadze was emphatic in affirming the two superpowers' common approach to the crisis spawned by Iraq's Aug. 2 invasion of Kuwait.

''I would advise against looking for some differences in the positions of the United States and the Soviet Union,'' he said.

After his meeting with Baker, Gorbachev made a similar admonition, saying that both sides demand Iraq's unconditional withdrawal from Kuwait.

''Nobody should count on cracks appearing in this common position,'' the official Tass news agency quoted Gorbachev as saying.

Gorbachev expressed appreciation for ''the readiness of the American leadership to consult (with the Soviet Union) regarding the situation and its possible development.''

Before starting more than five hours of talks with Baker, Shevardnadze said that employing force against Iraq would be ''undesirable.''

Baker and Shevardnadze huddled for 4 1/2 hours earlier in the day and then resumed talks in the evening after Baker's afternoon meeting with Gorbachev.

#90312u1429 11/08/1990 ~United Press International

WASHINGTON (NOV. 8) UPI - Health Secretary Louis Sullivan revealed that he would have listened to anything said by his hero, boxing legend Joe Louis.

With that role-model theme in mind, Sullivan made the studios at the Department of Health and Human Services available Thursday for baseball Hall of Famers Jim Palmer and Hank Aaron to film an anti-drug movie for Little League Baseball Inc.

The production is directed at the 2 1/2 million Little League players and their families.

Palmer pitched for the Baltimore Orioles in three World Series and Aaron is baseball's all-time home run king. In the film, the two discuss how to deal with a potential drug or alcohol problem.

''If somebody comes to you with a drug problem,'' Aaron says in the film, ''listen. Be patient. Offer to help. Make sure they know they can turn to you when they have a problem.''

Palmer, interrupting: ''Don't accuse them of being a bad person and don't cover-up or make excuses for them, either.''

Before the filming began, Palmer said he worries all the time about his two daughters, who take after their father and play girls' softball and other sports. ''I constantly worry about whether they'll succumb to peer pressure,'' Palmer said.

Aaron said he wants to let kids know tobacco or drug use will not make them famous. ''It's so important for all of us to make them realize that just because you see someone outside chewing or smoking, it doesn't mean you're going to be a star,'' he said.

Sullivan was thrilled that Little Leaguers would see sports stars in the film.

''Having heroes that they have identified with and looked up to gives (the film) a degree of effectiveness that a government official could never achieve '' Sullivan said.

#90312u1483 11/08/1990 ~United Press International

WASHINGTON (NOV. 8) UPI - The Treasury Department said Thursday sales of U.S. Savings Bonds increased 23 percent in October to $670 million from $544 million in September.

Last month's sales figure was also 14 percent higher than October 1989, when $589 million of the bonds were purchased by the public, and proved the best showing for the autumn month since 1986, the department said.

October redemptions, meanwhile, totaled $631 million, 17.5 percent higher than the $537 million redeemed in September and 15 percent over the $550 million of a year earlier.

The value of savings bonds held by the public increased last month by $651 million to a record $124.56 billion, the Treasury Department said.

The United States offers the bonds to raise cash to help pay its obligations, including interest on the nation's mammoth federal debt. The notes are ''backed by the full faith and credit of the United States.''

U.S. Savings Bonds held five years or longer earn a market-based interest rate which currently stands at 7.19 percent and which is changed Nov. 1 and May 1 each year.

The rate through the end of October was 7.01 percent.

Before Nov. 1, 1982, interest on the bonds was fixed. The interest is exempt from state and municipal taxes.

The government guarantees a minimum market-based rate of 6 percent on the bonds, which are sold through financial institutions as well as a payroll deduction plan in denominations ranging from $50 to $10,000.

The purchase price of a savings bond is equal to half of the bond's face value. For example, a $50 bond costs $25.

Interest on bonds purchased after Dec. 31, 1989, is also exempt from federal income taxes if the bonds are redeemed for paying tuition at a college, university or vocational school.

-30- 1983

#90312u1493 11/08/1990 ~United Press International

WASHINGTON (NOV. 8) UPI - When most Americans attach a face to the death penalty, it's likely to be someone like serial killer Ted Bundy. Accused of dozens of grisly murders, Bundy's case wound through the courts for years before he was finally executed in Florida last year.

But according to two defense lawyers who frequently handle capital punishment cases, a more typical candidate for the ultimate punishment is poor, black and receives only cursory legal representation while being hustled through the courts on his way to death row.

''I am shocked and horrified by what I see in the criminal justice system, and I think that's not generally known,'' says Stephen Bright, director of the Southern Prisoners' Defense Committee in Atlanta since 1982.

He is particularly critical of the so-called Death Belt, the Southern states where most of the executions in the United States take place. Statistics show that a disproportionate number of those who are put to death are black.

''The criminal justice system in the South does not work,'' Bright said. ''It's an absolute joke.''

Bright and Bryan Stevenson, director of the Alabama Capital Punishment Research Center, were in Washington this week to argue a death penalty appeal before the Supreme Court. They took time out Thursday to talk of their frustrations with a criminal justice system they say weighs heavily against poor and minority defendants.

''The death penality is not Ted Bundy. It's part of it, sure. But in the big picture, it's a very small part of it,'' Bright said. ''Of course, most people would be very comfortable with Ted Bundy being executed. But that's not reality. If you look at what's going on in Columbus and the Ocmulgee Circuit (in Georgia), that's the real story of the death penalty. Twenty percent of the people on death row are mentally retarded.''

The lawyers said in many Southern districts discrimination against black defendants is commonplace, which results in a disproportionate number of blacks being sent to the death house.

In addition, the lawyers say some prosecutors and judges try to get political mileage by pursuing death penalty convictions against black defendants, particularly when the victim was white.

Says Stevenson: ''It's a very troubling thing to have to talk to a defendant about the fact that ... their race and their poverty is going to have much more to do with their being in the electric chair than any other thing about their situation.''

The defense lawyers, battle weary after years on the short end of public opinion, have armed themselves with some unsettling statistics:

-Ninety percent of America's executions take place in states that represent only 16 percent of the nation's population.

-In a landmark case before the U.S. Supreme Court challenging the fairness of the death penalty, studies were offered showing defendants were 11 times more likely to get the death penalty if the victim was white than if the victim was black.

-In the same case, statistics were offered showing that the defendant was 22 times more likely to get the death penalty if he was black and the victim was white.

-In Georgia, 71 percent of those executed were black, and 75 percent of those executed in Alabama were black.

-In Columbus, blacks were victims of 65 percent of the homicide cases but 78 percent of the capital punishment cases involved white victims.

''Being pro-death penalty,'' says Stevenson, ''has meant that we have become increasingly indifferent to the problems that are inherent in these statistics.''

Adds Bright: ''You have a process in which white people decide whether it's going to be a capital case. White people decide whether the death penalty is going to be imposed. Members of the African-American community at every level - judge, prosecutor, defense lawyer, whatever - are excluded from that process.''

A fundamental flaw in the Death Belt criminal justice process, the lawyers said, is the system of court-appointed defense attorneys who typically are paid $1,000 to $2,500 for a capital punishment case.

''If you spend the time that it takes, which is something like 800 to 1,000 hours on one of these cases, you will make less than the minimum wage,'' Bright said.

''What you really have is a system in which a lawyer can make more money flipping hamburgers in McDonalds than he can make trying a captial case,'' Bright said. The result, he said, is lawyers with little experience get appointed to handle complex capital punishment cases. In addition, the low pay encourages them to spend as little time on the case as possible.

''It is not unusual in the South to see capital cases that last a day or less '' Bright said. ''Any mistakes that are made by those lawyers, the lawyer doesn't suffer for it; the client suffers for it.''

He cited as an example the following terse closing argument a defense attorney presented in the death penalty phase of a Texas murder trial: ''You are an extremely intelligent jury. You've got that man's life in your hands. You can take it or not. That's all I have to say.''

''These are not a handful of horror stories,'' Bright said. ''This is pervasive. This is the practice.''

Stevenson said sweeping reforms are needed, but Americans are reluctant to tamper with the criminal justice system.

OTTAWA (NOV. 8) UPI - The Persian Gulf crisis has taken the world closer to war than at any time in the last three decades, External Affairs Minister Joe Clark told Parliament Thursday.

''We are closer to war than we have been since Korea,'' said Clark, adding that the government is considering sending additional troops to the gulf.

The Korean war that Clark referred to ended in 1954.

Clark said economic sanctions imposed against Iraq, including a naval blockade in the gulf, so far have had no effect on the behavior of Iraqi President Saddam Hussein.

But, he said, sanctions were being applied to an ''extraordinary degree'' and were restricting supplies into Iraq. ''That indicates we have to maintain the pressure of sanctions,'' he said.

Clark said Hussein was trying to weaken the resolve of nations aligned against him by encouraging Westerners to visit Baghdad to secure the release of hostages.

Although Clark has already turned down an invitation from Hussein to visit Baghdad, other politicians, including some Conservatives, plan to leave for Iraq next week to plead for the release of Canadian hostages.

Svend Robinson, an elected member of the left-wing New Democratic Party, has already spoken with Iraqi officials in Ottawa about the trip. Some politicians who plan to travel to Iraq said they have insisted on being able to see the Canadian hostages and speak to Iraqi officials who could authorize their release.

NEW YORK (NOV. 8) UPI - Assets of the nation's 525 money market mutual funds

rose by $2.94 billion to $418.33 billion in the week ended Wednesday, the Investment Company Institute reported Thursday.

The Washington-based institute said broker-dealer fund assets increased by $608.5 million to $165.33 billion, assets of general purpose funds rose by $1.06 billion to $148.79 billion, and institutional fund assets rose by $1.27 billion to $104.22 billion.

The Investment Company Institute, a national association of the American investment company industry, reports the assets of money market funds to the Federal Reserve Board each week.

The Donoghue Organization, of Holliston, Mass., said average seven- day simple yields were 7.38 percent, down from 7.42 the previous week, and 30-day simple yields were 7.42 percent, down from 7.45 percent.

The average maturity of fund portfolios rose to 49 days from 47.

The Bank Rate Monitor, of North Palm Beach, Fla., gave average rates as follows: money-market deposit accounts, 5.86 percent, unchanged; Super-Now accounts, 4.95 percent, up from 4.94; six-month certificates of deposit, 7.41 percent, down from 7.43; 1-year CDs, 7.50 percent, off from 7.52; 2 1/2-year CDs, 7.60 percent, down from 7.63; and five-year CDs, 7.79 percent, up from 7.78 percent last week.

The average rate for a one-year, adjustable-rate mortgage was 8.16 percent, off from 8.17 percent the previous week.

The average rate on a 15-year, fixed-rate mortgage fell in the latest week to 9.65 percent, compared with 9.67 percent, while the average rate for a 30-year fixed-rate mortgage eased to 9.96 percent from 10.01.

The average rate for a four-year automobile loan rose to 12.22 percent from 12.10 percent last week.

WASHINGTON (NOV. 8) UPI - The Department of Energy Thursday suspended indefintely construction at its Argonne National Laboratory near Chicago, citing inadequate worker health and safety controls.

Suspension of construction at the government's massive research facility followed an intensive review at the site that turned up extensive shortcomings including improper disposal of hazardous waste, failure to draw up emergency plans and other deficiences by subcontractors and Argonne management personnel.

Suspended projects include building additions and other structural upgrades.

The department's decision does not affect the lab's touted high- energy X-ray generator that will be completed in two years. The project is managed by separate contractors and officials at Argonne.

In a statement, Energy Secretary James Watkins said construction activities at the lab ''will simply not be allowed to operate'' due to health and safety violations.

''Advancing the frontiers of science can and will be accomplished without compromising the health and safety of our employees and the public,'' Watkins said.

The department cautioned that problems at the plant, though serious, do not pose any ''immediate risk to public health or the environment.''

The violations ''do fall into the nature of an occupational health and safety hazard,'' said spokesman Robert Griffin.

Argonne spokesman Dave Baurac said, ''We weren't expecting (the suspension) but you recognize that it's always a possibility.''

Griffin said department investigators recorded 157 violations, ranging from a window washer who was not wearing a protective harness to emergency electrical equipment that was improperly locked.

''In this particular instance they encountered so many and such serious violations that the secretary said we've certainly got to close the construction down,'' Griffin said.

Baurac said Argonne officials had begun to implement health and safety reforms to meet DOE standards.

The 1,700-acre Argonne plant that employs 4,000 workers is located 25 miles southwest of Chicago. The complex includes 100 buildings.

The department's order marked the first time that construction at the plant had ever been suspended.

ANCHORAGE, ALASKA (NOV. 8) UPI - Alaska's new marijuana law is likely to go on trial before any pot smoker does, those on both sides of the debate predicted Thursday.

Before it is enforced, the Alaska Supreme Court - which threw out the old marijuana law in 1975 - will have to decide whether the new law passed Tuesday by voters violates the privacy clause of the state constitution.

''The first step is to defend the constitutionality of the law,'' said Laurie Otto, the state's chief prosecutor, adding she will ask the Legislature for $50,000 to defend the measure, which makes possession of marijuana a crime punishable by up to 90 days in jail.

Although the measure passed with 55 percent support, a leader in the recriminalization effort, Alyce Hanley, said, ''I realize it's not done by a long shot.''

Tuesday's election results still must be certified later this month - in fact, some remote Alaska precincts still must have their ballots picked up by bush planes - and the new law will go into effect 90 days after that, probably late February.

Until then, it is still legal for adults to possess up to 4 ounces of marijuana at home. After that, the first person arrested will become a test case for the new law, Otto said.

There were no plans for wide-scale enforcement, Otto said, because anyone arrested would simply have the case consolidated with the test case until the state Supreme Court ruled on the constitutionality of the law. That means it may be many months from now before Alaskans know what the true legal status of marijuana will be in the state.

Last time the law was challenged, it took 2 1/2 years to resolve the issue.

It all began when Irvin Ravin was arrested Dec. 11, 1972 for possession of marijuana.

On May 28, 1975, the five-member Alaska Supreme Court issued a 22- page ruling declaring that Alaskans' right to privacy outweighed society's interest in prohibiting private adult use of relatively harmless marijuana at home. The case legalizing marijuana is known as the Ravin decision. Ravin is a lawyer in Homer, Alaska.

People from around the state have called to volunteer to get arrested to challenge the new law, said Glenda Straube of Alaskans for Privacy, which fought the recriminalization move.

Otto said she will attempt to have the Ravin decision overturned by convincing the court that it was wrong in the first place and that since 1975, marijuana has become stronger and more dangerous and that it is a threat to the public health, safety and welfare, thus warranting police action to prohibit even private possession.

Far from quitting the fight after her election victory outlawing pot, just two days after the vote Hanley said she was already gathering materials, medical reports and preparing lists of possible expert witnesses to help the state defend the law.

Hanley said she always knew that the fight to make marijuana possession a crime in Alaska would be waged first at the ballot box, then in court.

Hanley is a state lawmaker, but was unable to persuade the Legislature to outlaw marijuana. Instead the Legislature set limits on legal possession, making Alaska the only state where pot possession was allowed. But possession by minors and sale of marijuana have always been illegal in the state.

Only one justice on the state Supreme Court in 1975 is still on the court - Jay Rabinowitz, author of the Ravin decision.

Otto said she would mount a full defense of the anti-marijuana law, but she said, ''I'm not predicting what the court's going to do.''

BY JIM ANDERSON

WASHINGTON (NOV. 8) UPI - Saddam Hussein is not a subtle man and he has a record of not reacting to signals he doesn't like and seizing on words that suit him.

Thus, as a blunt instrument of psychological warfare, President Bush announced the sending of additional forces, including elements of three armored divisions and naval units.

President Bush underlined the message to Saddam by an unprecedented statement saying that these new forces are in addition to the existing 230,000 troops who are there and will make it possible to give the United States ''offensive capabilities.''

The straight talk coming from the White House is in sharp contrast to the ambiguous, sometimes misleading messages given to Saddam before the Aug. 2 invasion of Kuwait.

Just before that invasion - and perhaps contributing to Saddam's decision to undertake it - there was a series of limp declarations by U.S. officials that may have misled Saddam.

One of those messages, delivered in late July by U.S. Ambassador April Glaspie to Saddam in a private meeting, said that the United States did not take a position ''on Arab-Arab'' disputes. Saddam understood that to mean that the United States would not react to his invasion of Kuwait.

If he had any doubts about the U.S. vacillating policy, they were probably removed six days later when Glaspie's boss, Assistant Secretary of State John Kelly, was asked by Rep. Lee Hamilton, D-Ind., what the U.S. reaction would be if Saddam ''barged into Kuwait.''

Kelly's answer on July 31 was not the sort of language that would deter a single-minded dictator: ''Suffice it to say,'' Kelly said, ''we would be extremely concerned.''

Meanwhi;e, after 10 United Nations resolutions condemning the invasion and enacting an international blockade of his trade, Saddam still talks in interviews as if he represents the Arab world in a successful confrontation with the west and that he is not willing to talk about withdrawal.

His impression of a de facto victory is reinforced by a totally subservient press in Iraq and a series of fawning foreign visitors, anxious to go back home with as many of their national hostages as possible.

Thus, after three months of mixed signals and ignored U.N. resolutions, the the administration decided to send Saddam a blunt message he couldn't misunderstand: the new troops are coming as part of an invasion force.

Time is no longer on Saddam's side. By the nature of military deployments - given the expense and the morale and survival problems of months in the desert - a clock has begun to tick. If there is no response within several months, the U.S. troops will have to be used.

There are signs - including the replacement of the Iraqi chief of staff - that Saddam's military commanders are getting the message, even if Saddam is not. With some 300,000 troops, with enough aircraft to assure air superiority, the available Desert Shield forces were already sufficient to stop and reverse an Iraqi attack.

The new forces, with hundreds more advanced tanks, were obviously chosen to fight a battle, and not sit and wait for an attack.

State Department officials believe that the United States has sufficient legal power to move on its own in case, for example, a serious terrorist attack that can be traced back to Iraq.

Politically, it would be better to have the backing of the other members of the U.N. Security Council, which is what Secretary of State James Baker has been trying to line up in his trip through the Gulf region and Europe.

Admministration officials believe that the economic embargo against Iraq is beginning to bite, especially in terms of cutting off Iraq's source of hard currency, required for new arms and spare parts.

But they believe that it would be the remaining Kuwaiti population that would suffer first when the pinch begins to hurt generally; after that the Iraqi population; after that the Iraqi government; after that the reserves in the Army, then the elite units. And only then would Saddam and his inner circle begin to suffer. That could take years.

The message sent Thursday by the administration is designed to compress that time-span and fax a message to Saddam that has not reached him by regular mail.

#90312u1567 11/08/1990 ~United Press International

NEW YORK (NOV. 8) UPI - George McDonald, president of the Allied Printing Trades Council, said Thursday that striking union members at the Daily News were willing to make the same sacrifices recently made by New York Post employees to save the newspaper.

"We will match what we gave the Post," McDonald said at a press conference at the New York Central Labor Council headquarters. "Management at the News should stop hiding behind demands for managerial freedom and start meaningful negotiations," he said. "We have asked them to tell us what they need to save the paper, and we have never gotten an answer."

In September, union workers at the Post accepted a four-day-work week equivalent to a 20 percent cut in pay and other concessions to keep the money-losing tabloid publishing. The News, owned by the Tribune Co. of Chicago has been negotiating without success for ten months with its unions, which struck Oct. 26.

Management has demanded freedom to reduce labor costs by $70 million - an amount it says is due to featherbedding and overstaffing. It also has accused the unions of violence, including burning of delivery trucks, tire slashings, and vandalism of News property and newsstands selling the paper.

McDonald denied any union involvement in violence and said the Printing Trades Council was investigating management's use of strike breakers as provocateurs to create violent incidents to embarrass the unions.

"We know it's going on," McDonald said. "Shady elements from outside the state have been brought in. There have been tire slayings and other violence. The violence issue has been distorted far beyond its relevance. The police have said the number of incidents were far less than reported."

The union chief charged that after having hidden for ten months, News publisher James Hoge had "come out of the closet" for a Wednesday television interview in which he "dropped all his old charges against the union and concentrated on just one issue, violence as he calls it."

"It's just an excuse for not getting the News out on the streets," McDonald said. He said the News circulation is down to 200,000, and claimed the unions' campaign to get New Yorkers to stop buying the paper and advertisers to stop buying space has been a success. He said the News had 600 advertisers before the the anti-ad drive began several months ago and now has only 40. We hope by next week that will be down to a dozen," he said.

McDonald said the point of the economic boycott was to force the Tribune Co. to negotiate or sell the News. He said the company was responsible to its stockholders, who may not be willing to lose any more money on the publication.

Labor attorney Theodore Kheel, unpaid adviser to the unions, said negotiations which reopend this week were "perfunctory" and there was no indication of any change in management's stand. Management and negotiators for the editorial workers and mailers met Wednesday in the presence of a federal mediator.

Meanwhile, Police and Fire Department investigators sought links between the firebombing of a Brooklyn grocery store and the Daily News strike, but said the incident may have been the work of neighborhood youths.

"Four or five kids were seen throwing somewthing into the store then running away just before the fire," said Lt. Frank Martinez, a Fire Department spokesman. "So right now we don't think it was a strike-connected incident."

Martinez said the owner of Saleh's Grocery and Deli, Saleh Zamzemi, told investigators a man walked into his store last Friday, complained that the News was being sold there, then walked out onto the street and started a small blaze. Martinez quoted Saleh as saying, "I haven't been selling the News, and I told him that."

Zamzemi was behind the counter when the firebomb was flung into the store at 876 Utica Ave., Flatbush, at 3 a.m. Wednesday. He said he saw four youths running away from the scene. No one inside the store was injured in Wednesday's firebombing, but three firemen were injured, one when he fell off a ladder.

EL MONTE, CA (NOV. 8) UPI - Agricultural officials declared victory Thursday in the 16-month battle against the crop-threatening Medfly but said aerial malathion spraying will resume if the pest resurfaces.

The main message state and federal officials sought to convey in announcing their news is that the public can prevent future pesticide spraying by not illegally bringing infested fruit into the state.

''If the public does not become more aware, then ultimately, someday, we'll have another infestation,'' said Henry Voss, director of the California Department of Food and Agriculture.

The most recent Mediterranean fruit fly infestation began in the Elysian Park area of Los Angeles on July 20, 1989, one month after agricultural officials declared a victory over an infestation in West Los Angeles.

The widespread infestation was the longest in state history and cost more than a record $52 million to fight.

A total of 277 Medflies - only two in the past four months - were trapped over a 536-square-mile area of Los Angeles, Orange, Riverside and San Bernardino counties.

Thousands of gallons of malathion were sprayed by helicopters, angering residents and generating nearly 300 damage claims against the state, none of which have resulted in monetary awards.

The repeated sprayings, which ceased July 23, gave birth to several citizen groups that claimed the pesticide posed a serious health risk to humans.

Voss dismissed critics of the spraying program as ''self-appointed experts'' who ''used scare tactics instead of scientific facts to confuse the public.''

Jack Parnell, deputy secretary of the U.S. Department of Food and Agriculture, cited several studies conducted by government agenices that concluded malathion does not pose a health risk.

But Voss and Parnell conceded that, because of public concern, government officials are accepting suggested alternatives to widespread aerial pesticide spraying.

The state Legislature recently appropriated $750,000 to encourage private research of alternatives to malathion.

But Parnell warned, ''It's going to take time'' to develope an alternative, and said that in the meantime malathion and the release of sterile fruit flies intended to breed the Medfly out of existence will continued to be used.

Isi Siddiqui, the state agriculture official who directed the Medlfy project, said areas infested in the future will not be sprayed as many times because officials have increased the supply of sterile flies, with six times as many now available.

Parnell said the spraying program was necessary to protect California's $16 billion agriculture industry, which supplies 50 percent the fruits and vegetables grown in the nation.

NEW YORK (NOV. 8) UPI - Stocks closed slightly higher in moderate trading Thursday, losing most of the day's gains to a bout of nervousness among investors about the crisis in the Persian Gulf.

The Dow Jones industrial average, which sank 44.31 Wednesday, edged up 2.97 to close at 2443.81.

Among broader market gauges, the New York Stock Exchange composite index gained 0.67 to 168.14. Standard & Poor's 500-stock index added 1.60 to 307.61. The price of an average share rose 12 cents.

Advances led declines, 832-650, among the 1,985 issues crossing the Big Board tape. Volume totaled 155,570,000 shares, up from the 149,130,000 traded Wednesday.

Jitters about the Mideast held sway over the market Thursday and, while prices closed with slight gains, the market was volatile for much of the day. The Dow was up more than 18 points in early afternoon trading after the Treasury reported that the government's quarterly auction of 30-year bonds was well received. Yields declined on the bonds to an average of 8.71 percent on the final day of the refunding, the lowest since 8.50 percent Feb. 8.

"The bond market digested the refunding in very good fashion," said Don Hays, director of investment strategy at Wheat, First Securities Inc. in Richmond, Va. "We spent most of the day waiting on the auction and it looked okay."

But an hour before the close, those gains were wiped out by a wave of rumors about U.S. actions in the Mideast. Fanning the rumor mill was the fact that President Bush twice delayed his afternoon news conference.

Traders, suspicious that perhaps Bush wanted to wait until after the market's close before making an important announcement, took prices down, with the Dow down as much as 18 points. But a late bout of program buying helped prices recover, leaving the Dow down just slightly.

"There were rumors all over the place," Hays said, adding: "In general, there was very little going on, though. It was a nothing day spent waiting on the press conference and the auction."

After the market's close, Bush said he had approved an increase in the number of U.S. troops stationed in the Persian Gulf. He said the new troop deployment to the region - where an estimated 230,000 American soldiers have already been dispatched - is needed to "guarantee an adequate offensive military option should this become necessary."

Bush also said, however, that he wanted to see a peaceful resolution to the crisis, and Hays said he felt the market would focus on that when Friday's opening bell rings. "And with anything like a decent PPI (producer price index) number tomorrow the market has a chance of moving up here," said Hays.

Economists expect the government to report Friday morning that producer prices rose by 0.7 percent in October. Factoring out the volatile food and energy sectors, they foresee a monthly rise of 0.2 percent.

What Hays said traders seem to be looking to is next week's meeting of the Federal Reserve's Federal Open Market Committee, the panel setting interest rate policy. If Friday's report shows price increases under control, the feeling is that interest rates again may be on the way down.

"Everything points to the FOMC meeting next week and the possibility of lower interest rates," said Hays. "That's the magic elixir the market is waiting on."

On the trading floor, SmithKline Beecham was the most active issue, plunging 5 1/4 to 45 7/8 after reporting a drop in third-quarter sales. Alcan Aluminum followed, off 5/8 to 16 5/8. Browning-Ferris was third, up 5/8 to 22 3/8.

Among the blue chips, AT&T lost 1/2 to 33 1/8, but NCR surged 5 7/8 to 53 7/8 after reports that the company was discussing combining its computer business with that of AT&T. One possibility was said to be an acquisition of NCR by AT&T, which could cost more than $6 billion.

Elsewhere, IBM rose one to 107 1/2, Eastman Kodak added 7/8 to 39 7/8, and General Motors rose 3/4 to 36 1/2, while Sears sank one to 25 after reporting that October sales fell 1.2 percent and that sales at stores open at least a year dropped 0.4 percent.

Volume of NYSE-listed issues, including trades in stocks on regional exchanges and in the over-the-counter market, totaled 191,640,090 shares, compared with 181,272,080 shares traded in the previous session.

Prices fell in light trading on the American Stock Exchange. The Amex Market Value index lost 0.67 to close at 289.07. Declines led advances, 277 to 245, among the 770 issues traded. The price of an average share lost two cents. Composite volume totaled 11,071,000 shares vs. 13,200,500 traded Wednesday. Continental Air led the Amex issues, off 3/8 to 2 1/4.

The National Association of Securities Dealers composite index fell 0.43 to 336.37.

WASHINGTON (NOV. 8) UPI - The Food and Drug Administration Thursday warned consumers to stop using a drug promoted as a "legal psychedelic," saying the substance has sickened at least 30 people in California, Florida and Georgia.

Health departments in those states have been working with the FDA to learn more about the drug marketed as GHB - for gamma hydroxybutyric acid - and the illness, which includes symptoms ranging from nausea and vomiting to severe respiratory problems, seizures and coma.

Gamma hydroxybutyric acid, also called sodium oxybate and gamma hydroxybutyrate sodium, is a chemical being promoted for strength training, body building, weight loss and as a replacement for L- tryptophan, a food supplement that the FDA ordered removed from the market last year after it was linked to a rare blood disorder.

GHB has been used in Europe with anesthetics and is being evaluated in government-approved studies for the treatment of the sleeping disorder narcolepsy, the FDA said.

The FDA advised anyone taking GHB outside of those studies to immediately stop. In addition, anyone who has taken GHB and is experiencing seizures, uncontrollable shaking, headache, unexplained drowsiness or other central nervous system disorders, nausea, vomiting or diarrhea should consult a doctor immediately, the agency said.

Doctors treating patients who have those conditions should report the cases to their local poison control center, the FDA said.

GHB, which is marketed as powder or granules, is sold through mail order outlets, health food stores, body building gyms and fitness centers, the FDA said.

WASHINGTON (NOV. 8) UPI - The Agriculture Department is refusing to go along with the Kremlin's declaration that this year's Soviet grain crop was a record 240 million metric tons.

Instead, the department, in a report issued Thursday, stuck to its estimate the crop totaled 235 million tons, or just short of the record 237.4 million tons reaped in 1978. The department did not explain why it selected its figure.

In any event, the Soviet Union was projected to import a huge amount of foreign grain. Imports were pegged at 28 million tons, down 2 million tons from an October estimate.

The import estimate is lower, the department said, because of the small amount of grain the Soviet Union has purchased so far this trade year and the increased amount of grain the Kremlin was able to procure from its own farmers.

Although the procurements of 65.8 million tons were much larger than last year they still constitute only 76 percent of what the state sought. Analysts have said the Kremlin has to import grain when procurements fall short of goals. However, cash shortages have constrained Soviet purchases.

Purchases were expected to favor wheat, which is selling at attractive prices due to record worldwide production. Imports were projectd to include 13 million tons of wheat and 14 million tons of feed grains - both 1 million tons less than estimated last month. The Kremlin bought 14 million tons of foreign wheat last year and 23 million tons of feed grains.

At the start of this week,the government newspaper Izvestia reported the harvest was a record 240 million but said farmers in some case were unwilling to turn over grain to the states. Some farmers reportedly were keeping grain to feed directly to livestock, rather than sell it to the state and face high prices for premixed rations.

Agriculture Department analysts estimated the Soviet crop included 108 million tons of wheat and 114 million tons of feed grains.

During last summer, Soviet officials said this year's crop could be as large as 300 million tons but warned that a sizable part of it might be lost due to shipping and storage problems as well as the perennial shortages of fuel, parts, equipment and labor.

The Agriculture Department estimated last month that waste and dockage would claim 36 million tons, or 15 percent of the crop.

#90312u1693 11/08/1990 ~United Press International

WASHINGTON (NOV. 8) UPI - A study of people who underwent ''near-death experiences'' suggests many of the events are psychological, but the findings also could be used to argue some really have glimpsed an afterlife, researchers said Thursday.

On one hand, the study published in the British medical journal The Lancet found many people who said they had near-death experiences actually were never really in danger of dying.

But the study also found most of those who did almost die reported increased mental power at a time when their brain function would be expected to have been diminished, providing support for those who believe the events may be ''transcendental,'' the researchers said.

While the study neither proves or disproves proposed explanations of such experiences, the findings provide further support for the existence of the events and the need for more study, the researchers said.

''There is something very interesting going on here,'' said Justine Owens, an assistant research professor at the University of Virginia in Charlottesville, who led the analysis.

John Sappington, a psychology professor at Augusta College in Augusta, Ga., said the study is ''a clue to the puzzle'' of such phenomena.

''The public wants to know, 'Is there an afterlife or is there not? Is there a soul or is there not?' I'm afraid there are certain questions science can't answer fully,'' he said.

Near-death experiences have been reported ''at least since the time of Plato'' and have been described increasingly in modern times as medical advances allow more people to survive close encounters with death, the researchers said.

The experiences include a variety of sensations, such as moving down a long tunnel, sensing a strong light, leaving the body, feeling strong emotions, reliving past memories and seeming to think and perceive much more clearly.

''Some commentators have claimed that these reports provide a glimpse of the existence awaiting us after death, whereas others have suggested that the experiences are the result of physiological or pharmacological states accompanying the process of dying,'' Owens and her colleagues wrote.

Regardless, psychologists are especially interested in the phenomenon because the experiences appear to have a powerful beneficial effect on patients, giving most a much better outlook on their lives, Owens said.

To investigate the reports, the researchers studied 58 patients who reported having near-death experiences by examining their medical records, interviewing them and having them complete written questionaires.

Medical records showed only 28 of the patients actually were near death and ''would have died without medical intervention.'' The remaining 30 patients ''were not in danger of dying although most of them thought they were.''

However, patients from both groups reported having ''closely similar experiences,'' bolstering the view that such events stem from psychological, not physical or transcendental factors, the researchers said.

Nearly equal numbers of patients from both groups, for example, said they felt like they had left their bodies and were seeing it from above and relived memories from earlier in their lives.

But many more of the patients who had actually been near death - 88 percent - reported having experienced increased mental powers and perceptions, compared to only 50 percent of the not near-death group.

In addition, 21 of the 28 patients who had been near death - 75 percent - reported experiencing enhanced light, compared to only 12 of the 30 - or 40 percent - who had not been near death, the researchers said.

#90312u1731 11/08/1990 ~United Press International

NEW YORK (NOV. 8) UPI - The head of First Boston Corp.'s merchant-banking division announced plans to resign Thursday, a day after the troubled Wall Street firm laid off 45 traders and other equity branch staff.

''Bill Mayer has announced his resignation as of year-end,'' said a spokesman for First Boston, the U.S. securities unit of CS First Boston Inc.

CS First Boston is 44.5 percent owned by CS Holding, the Swiss parent of the bank Credit Suisse.

The spokesman, who declined to be named, confirmed reports that First Boston had let 45 staff members go from its stock trading branch in what he said was a reassessment of business lines in a tight market.

But he discounted news reports that hundreds of other dismissals were expected at the firm, whose balance sheet has been burdened by bridge loans from leveraged corporate deals First Boston has been unable to dispose of.

''There really isn't a target'' for the staff cuts, he said. ''We're looking at all of our businesses, assessing each one individually and trying to make sure customer demand is in balance with our capacity.''

First Boston's staff was cut by 600 earlier this year to 3,900. Reports said the new round of cuts would reduce that by 10 percent more.

The spokesman said Mayer, who took over First Boston's merchant- banking unit after stepping down in January as the firm's chief executive, considered that he was ''well along'' in resolving the bridge loan situation.

It was announced earlier this week that CS Holding and Metropolitan Life Insurance Co. would buy most of the Wall Street firm's $1.1 billion portfolio of unmarketable corporate bridge loans.

First Boston got stuck with the loans after the market for junk bonds, which were supposed to be issued to repay them, collapsed.

#90312u1742 11/08/1990 ~United Press International

BOSTON (NOV. 8) UPI - Massachusetts filed charges Thursday seeking to force a New York City firm to return $40 million lost over the past three years by more than 20,000 residents who were pressured into buying junk bonds.

The action against First Investors Corp. was announced by Secretary of State Michael Connolly and New York Attorney General Robert Abrams. New York officials believe residents of that state have lost as much as $50 million in the scheme, which may have caused an estimated $500 million in losses nationwide.

The complaint filed by the state Securities Division also seeks to pull the Masssachusetts registration statements for the funds, First Investors Fund for Income and First Investors High Yield Fund, along with the broker-dealer registration of First Investors, Connolly said.

The complaint charges that First Investors' salespeople deliberately misled customers into believing that the mutual funds were as safe as certificates of depostit (CDs) and involved little or no risk, Connolly said. But in reality, the funds were primarily highly speculative junk bonds, he said.

Connolly said First Investors used high-pressure sales pitches, targeting first-time investors.

''The complaint alleges that First Investors' relentless and blatantly fraudulent pushing of junk bonds mutual fund shares on unsophisticated investors did, in fact, defraud tens of thousands of Americans,'' Connolly said.

Connolly, whose office includes the securities division, said First Investors deliberately sought out those who could least survive the risks of junk bond funds, and those for whom the losses proved most devastating. Moreover, he said, the firm employed sales agents with little understanding in investment matters.

The employees were told to use ''boiler room'' sales pitches which they memorized and repeated verbatim, Connolly said. He said salespeople, reciting scripts they did not understand, made unsupportable claims about the high yields of the funds and their supposed safety.

First Investors has 30 days to respond to the charges.

Earlier Thursday in New York, Abrams announced a lawsuit seeking to bar the sale of First Investors' two junk bond mutual funds in New York and restitution for investors who were allegedly deceived into purchasing them.

Abrams said that the First Investors Fund for Income and First Investors High Yield Fund had assets in June of $971 million and $640 million, respectively, and approximately 90 percent of which were in junk bonds.

The two have over 270,000 investors combined - with New Yorkers comprising about one-quarter of that total - making them among the largest junk funds in the mutual fund industry, Abrams said.

Abrams' suit, filed Thursday in state Supreme Court in Manhattan, accused First Investors of embarking upon a plan to sell junk bond mutual funds to the public starting in 1985 through a calculated series of misrepresentations and comissions.

Investors were told the funds were safe, the bonds were guaranteed, and that they would receive higher rates of return than they would at a bank, the attorney general said.

''These investors didn't realize that they were going into the riskiest sector of the bond market,'' Abrams said.

''These funds were sold primarily in people's homes by aggressive salespeople using a prepared script which greatly misrepresented the risks involved. They preyed upon investors who were unsophisticated in such matters and often didn't even receive prospectuses,'' Abrams said.

He added that the script included misleading words like ''safe,'' ''secure,'' and ''stable'' to characterize the high-risk junk bond investments.

''Many victims were of very modest means and could ill afford their losses,'' he said.

Junk bonds are non-investment grade or corporate debt securities, and First Investors bought junk bonds with the mutual funds using the money from individual investors, the attorney general said.

First Investors purchased some of the most speculative bonds offered and have recently performed in the bottom 10 percent of all such funds in rate of total return, Abrams said.

Also named in the suit were First Investor's brokerage firm, an investment advisory firm and the corporate parent, as well as four individual executives.

Thursday's suit resulted from a 15-month investigation into the sales practices used to market the funds, the attorney general said.

#90312u1747 11/08/1990 ~United Press International

NEW YORK (NOV. 8) UPI - The Federal Reserve Board said Thursday the basic U.S. money supply, known as M1, rose $1.6 billion in the latest reporting week. But the broader monetary aggregate M2 dropped $1.2 billion, and the broadest measure of all, M3, decreased $3.0 billion.

M1, including cash, checking accounts and NOW accounts - money available for immediate spending - increased to a seasonally adjusted average of $820.0 billion in the week ended Oct. 29 from a revised $818.4 billion the week before.

Over the past 13 weeks, M1 averaged $819.1 billion, up 5.6 percent from where it stood over the previous 13-week period, the central bank said.

The more broadly defined M2 averaged an estimated $3,316.5 billion in the latest week, off from a revised $3,317.7 billion. M2 includes M1 plus passbook savings, small time deposits such as money-market deposit accounts, consumer money-market mutual funds and other short-term assets.

M3, defined as M2 plus large time deposits, securities repurchase agreements at banks and thrifts lasting longer than one day and institutional money-marketfunds, averaged $4,087.3 billion in the latest week, down from a revised $4,090.3 billion, the Fed said.

#90312u1754 11/08/1990 ~United Press International

(NOV 8) - Snow storms eased over New Mexico Thursday after dumping more than 9 inches while fierce winds whipped Alaska and temperatures plummeted.

A winter storm warning was lifted for the south-central mountains of New Mexico. Nine and a half inches of snow covered the Quemado Lake area.

An advisory for strong winds causing blowing and drifting snow was posted over the southeast mountains of Wyoming. Winds gusted to 50 mph and 60 mph across the southeast mountains of Wyoming.

A high wind warning was posted for Kodiak, Alaska, with winds gusting at nearly 75 mph. Fairbanks had 6 degrees below zero and Delta cooled to 23 degrees below zero with unofficial temperatures dropping to 35 degrees below zero.

Elsewhere, rain and occasional thundershowers reached over much of Texas, Oklahoma, northwest Louisiana, southern Arkansas, the eastern half of Kansas, northwest Missouri and southern Iowa.

Very moist warm air from the Gulf of Mexico confronted colder air moving in from the west in central Texas, bringing steady rain to the region and prompting flood warnings for the Rio Grande plains, Austin, the hill country and much of south-central Texas.

#90312u1780 11/08/1990 ~United Press International

WASHINGTON (NOV. 8) UPI - The Pentagon ordered a major escalation of the U.S. military presence in Saudi Arabia Thursday, deploying more than 100,000 troops aimed at fighting a ground war.

But the massive military buildup suggested any conflict with Iraq might not occur until after the first of the year because it will take at least that long to complete the new deployment.

Defense Secretary Dick Cheney, without specifying the total number of forces being activated, announced that the number of aircraft carriers would be doubled to six, the number of Marines in the region could be doubled, and well over 50,000 Army ground forces - many equipped with the M-1A1 main battle tank were being deployed from both Europe and the United States.

The deployment will boost U.S. forces from the current level of more than 230,000 to perhaps 350,000 when completed. The new U.S. deployment would compliment a force of 200,000 international troops already in the country.

Officials did not rule out additional deployments.

While Cheney declined to reveal the exact size of the deployment, he did say

the entire move would not be finished by the first of next year, a suggestion that a decision to commit the forces to combat would not be made until then.

''After Saddam Hussein invaded Kuwait, we said our deployment would continue as long as necessary, and I am today announcing the next deployments in that flow. We continue to hope that the crisis in the Gulf can be resolved peacefully. But as these new U.S. forces come into place, they will clearly give us additional offensive capablity, should it be needed,'' said Cheney.

Asked if the troops could be in place and combat ready by the first of the year, Cheney said, ''I would think it would be after that.''

''We are continuing the buildup with those sorts of heavy units uniquely qualified, trained and equipped to operate in this type of terrain. ... This additional corps sized element that is going in does provide (U.S. commander Gen. Norman) Schwarzkopf offensive capability in addition to the forces he has now which have some offensive capability.

''Whether it will be adequate in the event we are going to war with Saddam Hussein's army, I'm not going to make a judgment now because we're not planning to go to war with Saddam Hussein's army ... So i'm not going to speculate on what the final correlation of forces might be, '' said Powell.

The newest deployment included a minimum of 50,000 Army personnel, 40,000 Marines and 16,500 Navy personnel for a minimum of 106,500. However, an additional unspecified number of Army support and headquarters units are also being dispatched.

Cheney, a Cold Warrior who was chided for his reluctance to accept the end of tensions in Europe, noted the changed political climate made it possible to pull troops out of Europe. Congress also has ordered troop reductions in Europe, and also has chided the Pentagon for not activating National Guard units.

The latest deployment is believed to bring with it roughly 600 more M-1A1 and M-1 main battle tanks.

Some 600 are enroute from war stocks in Europe, and U.S. forces already deployed to Saudi Arabia are believed to have roughly 600 to 800 tanks in place. Allied forces are believed to have another 1,000 tanks in Saudi Arabia.

Iraq has about 5,500 tanks, but the best are an older Soviet design and armor experts say are not really a match for the more modern Western forces. Only about 2,500 are believed to be in the theater.

Active duty Army forces ordered to Saudi Arabia include the European- based 1st Armored Division, 3rd Armored Division, a brigade-sized unit of the 2nd Armored Divison along with the 2nd Armored Cavalry Regiment. Divisions have

anywhere from about 13,000 to 16,500 personnel. Also dispached were the 1st Infantry Division mechanized from Fort Riley, Kansas, also a tank unit. The Pentagon also said a variety of combat support and combat service support units from both the United States and Europe were being dispatched to the region, along with the 2nd Corps support command and the Vii Corps headquarters.

The Guard units activated included the 48th Infantry Brigade, mechanized, a tank-unit from Georgia designed to fill out the needs of the 24th Infantry Division, the 155th Armored Brigade from Mississippi, assigned to the 1st Cavalry, another tank unit, and the 256th Infantry Brigade, mechanized, assigned to the 5th Infantry Division which has not yet been activated for the Gulf conflict. Brigades usually have as many as 2,000 personnel.

Three additional aircraft carriers, each typically carrying about 5, 000 sailors, plus an undisclosed number of escort ships are being activated, as is the 1,500-man battleship Missouri, which will join the only other active battleship, the Wisconsin. The Wisconsin is in the Persian Gulf and recently test-fired its 16-inch guns. It too will have escort vessels and Amphibious Group Three, a small number of support vessels from San Diego, Calif., also will be dispatched to the region.

Each carrier typically has a force of at least 70 aircraft, including a mix of fighters, bombers and electronic warfare and radar surveillance planes.

Marine units with up to 40,000 personnel assigned to them are being sent, which would more than double the number of Marines available for launching amphibious operations against either Kuwait City or Iraq itself. They include the 2nd Marine Expeditionary Force from Camp Lejeune, N.C., the 5th Marine Expeditionary Brigade from Camp Pendleton, Calif., and Marine Prepositioning Ship Squadron 1 from Norfolk, Va.

Cheney said additional Air Force units might also be sent to Saudi Arabia.

Both Cheney and Gen. Colin Powell, chairman of the Joint Chiefs of Staff, said they wanted the National Guard combat units to train in the desert and be evaluated before a decision is made to send them to Saudi Arabia or keep them in reserve in the United States.

''I want to be absolutely certain that before we send combat units drawn from the guard and reserve, that they have had the opportunity for the additional training and workup that our people think is required, so that they would be prepared to operate in the environment they would be sent into,'' said Cheney in announcing the guard units will go to the National Training Center at Fort Irwin, Calif., a desert outpost.

''We have limited logistical capability. I am not eager to send units that are not ready. I want to make absolutely certain that before I make a decision to

send someone to the gulf that they are part of a unit that is prepared for whatever they may encounter over there,'' he said.

NEW YORK (NOV. 8) UPI - Moody's Investors Service announced Thursday the downgrading of its credit rating on first mortgage bonds for the Trump Plaza casino-hotel in Atlantic City, citing ''deteriorating operating performance.''

The rating agency also said that if there is no improvement in results at the gambling house, one of three owned by troubled developer Donald Trump, it may not produce enough cash to make a $25 million bond payment due in June.

It also concluded that all Trump's casinos will need ''some form of near-term debt restructuring,'' resulting in losses to bondholders.

Another Trump casino bond issue, that of the Taj Mahal Casino opened in April to much fanfare, is also in trouble. There are doubts about Trump's ability to make a $47.3 million interest payment on the bonds due Nov. 15.

The solvency of Trump's debt-laden financial empire was threatened last June when he was forced to obtain a $65 million bailout package from bank creditors to meet payments on bonds for his Trump's Castle casino.

Moody's downgraded the first mortgage bonds of Trump Plaza Funding to B3 from B2. Both ratings are in the speculative, ''junk'' bond range.

Moody's said ''lower-than-expected market growth in Atlantic City, coupled with intense competition between casinos and adverse publicity associated with Donald Trump's financial difficulties'' have badly hurt the casino.

''Despite the property's central location along the Atlantic City Boardwalk, Moody's does not expect Trump Plaza to achieve any significant improvement in earnings and cash flow over the intermediate term,'' it said.

In another development, New York State authorities told Trump he could not sell any more condominium units at his Trump Palace high-rise in Manhattan unless he proved he could meet monthly building costs.

Asian investors complained to the state attorney general's office that Trump was withholding information about his financial circumstances and wanted their contracts to buy units rescinded, the New York Times said.

The attorney general's office told the developer that he could not close any condominium sales unless he proved he had enough cash to pay common charges, real estate taxes and other operating costs of the structure.

PROVIDENCE, R.I. (NOV. 8) UPI - A Roman Catholic priest once accused of lying to bolster the attempted-murder defense of socialite Claus von Bulow was indicted Thursday on charges he stole $200,000 from his parish and used it to support a lavish lifestyle.

The Rev. Philip Magaldi, who served as head of St. Anthony's parish in North Providence from 1976 to May 1988 and now heads a parish in Henrietta, Texas, is charged with 11 counts alleging embezzlement, larceny and forgery. He faces 83 years in prison and $23,000 in fines if convicted.

''Our investigation determined that Father Magaldi regularly skimmed money from the weekly church collections and embezzled funds from several parish accounts, using the money to purchase lottery tickets, to pay for vacations and for other personal expenses,'' said state Attorney General James O'Neil.

Magaldi, 54, is best known in Rhode Island for a sworn statement he gave in support of von Bulow, a Danish jetsetter who was acquitted after a second trial on charges he twice tried to kill his wife, Martha ''Sunny'' von Bulow, in their Newport mansion.

Magaldi was indicted in 1985 on perjury and obstruction charges for allegedly lying in the statement, but the charges were dropped in June 1987 for lack of evidence.

O'Neil also announced that a former part-time employee of the parish, Robert Graham Jr. of North Providence, had been indicted on charges he embezzled about $58,000 in church money.

There was insufficient evidence to indicate Magaldi and Graham conspired together, O'Neil said. The two are to be arraigned on Nov. 28.

The prosecutor said the indictment alleges Magaldi told a church volunteer in charge of Sunday collections at the parish to give him several hundred dollars a week.

Even after Magaldi left the parish to study Spanish in Texas, he allegedly continued to have the woman, Joan Conway, send him money. Conway trusted Magaldi and did not suspect he was stealing money, O'Neil said, adding she will not face any charges and will serve as a witness against the priest.

Magaldi, who began as pastor of St. Anthony's in 1976, is alleged to have embezzled the $200,000 from 1985 to 1988.

He allegedly used the embezzled money to take trips to such places as the Virgin Islands and Montreal, give presents to friends, and buy Massachusetts

and Rhode Island lottery tickets, said Assistant Attorney General Walter Gorman.

He is now pastor of St. Mary's Church in Henrietta, Texas, but is not responsible for the allocation or depositing of funds, Gorman said.

#90312u1807 11/08/1990 ~United Press International

LOS ANGELES (NOV. 8) UPI - Damage caused by the fire at Universal Studios was estimated Thursday at a minimum of $8 million but could reach up to $25 million, but the figures were far lower than initial estimates.

The studio and parent MCA Inc., in the midst of talks on an acquisition by a Japanese suitor, have so far refused to provide any damage estimates from Tuesday night's blaze.

But Sgt. Dale Underwood of the county sheriff's department's arson squad said investigators have estimated the blaze resulted in at least $8 million worth of damage. He cautioned this figure was preliminary.

Meanwhile, Steven Hill, an entertainment industry analyst with Sutro & Co. of San Francisco, said it appeared to him that the damage ''was clearly not as much as had been initially expected.''

''I think $25 million is a good estimate,'' Hill said.

The three-hour fire burned both several movie sets on the sprawling 420-acre back lot and part of the studio tour, but it was contained before damaging the valuable Universal film library vault.

MCA has said that it plans to rebuild the sets and that the damage is covered through insurance policies. Production on ''Oscar,'' a film starring Sylvester Stallone, was halted, but the studio tour continued Wednesday and Thursday with turnout called normal by spokeswoman Joan Bullard.

MCA's stock, which had fallen $1.50 on Wednesday following news of the fire, rebounded sharply Thursday as reports on the amount of damage surfaced to close up $2 a share at $63.50 on the New York Stock Exchange.

Jeffrey Logsdon, entertainment analyst with Crowell Weedon & Co. of Los Angeles, agreed that a $25 million estimate is ''a good number.''

Analysts said the rebound in the price of MCA stock also reflected investors' growing belief that the pending buyout of MCA by Japan's Matsushita Electric Industrial is likely to be completed soon.

''I think there are strong motivations on both sides to complete the

transaction by the end of the year,'' Logsdon said. Analysts have said that the deal is likely to go through at a negotiated price ranging between $75 to $80 a share - about $7 billion in all.

Underwood said investigators spent Thursday combing the charred site for evidence, but he refused to discuss details of what they may have discovered about how and where the fire was started.

But Underwood said there is ''no doubt'' the fire was deliberately set.

In a related development, bail for the Universal Studios security guard arrested for allegedly sparking the fire has been reduced to $300, 000 from $1 million.

Michael J. Huston, 40, of Tujunga, was arrested at Universal Studios shortly after dawn Wednesday. His bail was cut Wednesday following a hearing before a bail commissioner, sheriff's Deputy Rich Erickson said.

A spokesman, Deputy Larry Mead, said Huston was scheduled to be arraigned Friday in Beverly Hills. However, there was no immediate word from the District Attorney's office on what charges Huston faces.

Mead would not say whether additional suspects are being sought but noted that investigators have not ruled out the possibility of an accomplice.

Huston, who was on duty at the time the fire started, was questioned as a matter of routine, Underwood said. He became a suspect after authorities found discrepancies in his answers, said Underwood, who would not elaborate.

Underwood confirmed investigators are looking into the background of Huston, who, according to his half brother, has been mentally disabled since serving in the Army in Vietnam in 1969.

Authorities have not uncovered any previous arson arrests for Huston, and information about any possible criminal record remained incomplete Thursday, Underwood said.

#90312u1838 11/08/1990 ~United Press International

SAN FRANCISCO (NOV. 8) UPI - California's winemakers are breathing a sigh of relief over the defeat of a state ballot measure that would have hiked alcohol taxes by the equivalent of a nickel-a-drink.

State voters Tuesday overwhelmingly rejected Proposition 134, which would have channeled funds to alcohol-related medical and educational programs. Voters also rejected an industry-sponsored alternative, Proposition 126, that would have raised alcohol taxes by just a penny a drink.

Some vintners were glad both measures failed, leaving the state's alcohol excise tax, at one penny a gallon, the lowest in the nation.

''Like most of the wine industry, I'm pleased we weren't hit with a tax increase,'' said Carolyn Wente, vice president of Wente Bros. winery in Livermore, Calif. ''I think quite a few people were celebrating.''

Winemakers remained worried, however, that the specter of a large state tax increase is likely to come up again.

''We are concerned that we will continue to be looked on as a source of revenue,'' said Frank Woods, chairman of the Wine Institute, an industry trade group. ''We can't just bury our heads in the sand and assume that because we won a victory this year we won't have to come back and face this again.''

Winemakers already have contend with the impact on sales of a steep increase in the federal excise tax on alcohol, which was included in the budget compromise approved by Congress earlier this month. That increase, will hike the federal tax on a gallon of wine from 17 cents to $1.07.

''That is a real, major hit for the wine industry and it is going to cause a great deal of impact, including a loss of jobs,'' Woods said. ''It's the type of thing we don't need.''

Despite the fact that it would have raised state taxes, Woods said he was disappointed that Proposition 126 failed because it represented a ''reasonable'' response to the argument that California's alcohol excise tax was not adequate.

''We felt that was a reasonable and proper way for our industry to participate in the generation of revenue in this state,'' he said.

But Wente said with the failure of Prop. 134, it was just as well that 126 failed as well, leaving the wine industry without any added tax burden.

''That (Proposition 126) was offered as an alternative to Prop. 134,'' she said. ''Quite frankly I think it would shooting ourselves in the foot to say we want to have a tax increase. I think that's absolutely absurd.''

#90312u1874 11/08/1990 ~United Press International

WASHINGTON (NOV. 8) UPI - Cotton growers are harvesting a crop of 14.9 million bales, including a record 1.2 million bales in Louisiana, the government said Thursday in raising its estimate of the U.S. crop by 2 percent.

''Beneficial weather prevailed during the month, aiding crop development,''

the Agriculture Department said in its November crop report.

This year's crop was forecast to be 22 percent larger than last year, due mainly to 21 percent increase in acreage to 11.5 million acres. Yields were forecast for 622 pounds an acre, eight pounds more than last year.

The estimate included 14.5 million bales of upland cotton, 500,000 more than last month, and 397,000 bales of American-Pima cotton, 25,000 less than one month ago.

A bale of cotton weighs 500 pounds. The 1989 crop totaled 12.2 million bales.

The Delta states of Arkansas, Louisiana, Mississippi, Missouri and Tennessee - hit by dry weather in September - were projected to grow 4.82 million bales, up 4 percent from the October estimate and 20 percent more than last year.

''The current production level for Louisiana represents a record,'' the department said, raising the estimate to 1.2 million bales, a 100,000 bale increase.

Production in the Southeast - Alabama, Georgia, North Carolina and South Carolina - was upgraded 7 percent from last month, to 1.17 million bales. That would be 11 percent larger than last year. The Southeast had a dry summer and fall.

Western growers were estimated to grow 3.56 million bales, down 10,000 bales from last month but 5 percent more than last year. Yields, pegged at 1,192 pounds an acre, are 28 pounds lower than 1989.

Texas and Oklahoma were projected to grow 4.94 million bales, 3 percent more than in October and 63 percent larger than 1989.

Growers harvested 15.4 million bales in 1988 and 14.8 million bales in 1987. Fields yielded a record 706 pounds an acre in 1987.

The department's estimates, based on Nov. 1 conditions, of upland cotton production, in thousands of bales, for major states, compared with the September estimate and 1989 production:

State	Nov.	Oct.	1989
Ala.	380	380	390
Ariz.	830	900	660
Ark.	1,050	1,050	850
Calif.	2,650	2,600	2,650
Ga.	350	300	350
La.	1,200	1,100	875
Miss.	1,800	1,700	1,560
Mo.	280	280	269

N.M.	80	80	80
N.C.	260	240	140
Okla.	340	300	180
S.C.	145	145	155
Tenn.	490	500	473
Texas	4,600	4,500	2,900

Estimates as of Nov. 1 of extra-long staple American-Pima cotton production in leading states, with 1989 production shown in parantheses, included 210,000 (455,000) bales in Arizona, 30,000 (42,000)bales in New Mexico and 100,000 (128,000) bales in Texas.

#90312u1877 11/08/1990 ~United Press International

WASHINGTON (NOV. 8) UPI - The new orange crop, led by a robust recovery in Florida from last winter's devastating freeze, will fill 231 million boxes, 24 percent more than last season, the government said Thursday.

The Christmas weekend freeze knifed into production in the South and dramatically reduced the U.S. citrus crop. The Agriculture Department says Texas groves were damaged so severely this year's crop was virtually wiped out.

Oranges are the dominant U.S. citrus crop and Florida is the No. 1 orange state, producing about two-thirds of the nation's total. Last season's crop totaled 186 million boxes, 11 percent smaller than the 1988-1989 crop.

The department projected Florida would harvest 165 million boxes of oranges, up 50 percent from last year. Early and mid-season varieties were projected for 95.2 million boxes, up 40 percent. Valencia production was pegged at 70 million boxes, up 66 percent.

''The current fruit crop is in good condition with the early fruit well matured,'' it said with harvest of oranges, tangerines, grapefruit and tangelos under way.

California growers were estimated to harvest 64 million boxes, down 12 percent from last season. The new crop was projected to include 40 million boxes of navel oranges, 9 percent less than last season, and 24 million boxes of Valencias, 4 percent less.

Navel harvesting has begun ''with color and maturity developing slowly,'' the department said.

Frozen concentrated juice yield from Florida oranges was estimated at 1.52 gallons per box, up markedly from last season's 1.23 gallons per box. The low yield is a sign of freeze losses. The record is 1.55 gallons, set in 1987-1988.

In October, the government forecast the U.S. grapefruit crop for 56.6 million boxes, 30 percent more than last season.

Florida's grapefruit harvest was projected for 50.5 million boxes, up 41 percent from last season. California was estimated to harvest 3.9 million boxes of desert grapefruit. Production from other parts of the state will not be estimated until April.

Citrus measurements vary from crop to crop and from state to state. For example, California and Arizona orange boxes are 75 pounds each. Florida orange boxes weigh 90 pounds each.

Value of last season's citrus crop was $2.24 billion, 16 percent less than the preceding season.

Here are Agriculture Department citrus estimates of the 1990-1991 crop, based on Nov. 1 conditions, with the 1989-90 harvest in parentheses:

Oranges: Arizona 1.75 million boxes (1.57 million), including 1.2 million of Valencias (1.19 million); California 64 million boxes (73.1 million), including 24 million of Valencias (29 million); Florida 165 million boxes (110.2 million), including 70 million of Valencias (42.1 million); Texas NA (1.2 million boxes, including 155,000 of Valencias).

Grapefruit: Arizona 2.2 million (2.2 million); California 3.9 million boxes excluding ''other areas'' (8.7 million); Florida 50.5 million boxes (35.7 million); Texas NA (2 million boxes).

Lemons: Arizona 3.1 million boxes (2.9 million); California 17 million boxes (15.7 million).

Tangelos: Florida 3.1 million boxes (2.95 million).

Tangerines: Arizona 650,000 boxes (600,000); California 2 million boxes (1.6 million); Florida 2.1 million boxes (1.7 million).

Temples: Florida 3.1 million boxes (1.4 million).

#90312u1902 11/08/1990 ~United Press International

IRVINE, Calif. (NOV. 8) UPI - Irvine Co., a giant Southern California real estate developer, said Thursday it will cut both its work force and new projects because of worsening economic conditions.

''The savings and loan debacle has led to severe constraints on financing for new construction,'' the company said. ''As we look into the future ... the prospects for a continued strong real estate market are slim.''

The privately held company, which owns about 100 square miles or a sixth of Orange County, plans to lay off about 10 percent of its 370- employee work force.

California, which had been among the best real estate markets in country until last year, has been hit hard by a growing shortage of buyers for homes and what many believe is a severely over-built commercial base.

The California Association of Realtors is forecasting that existing home sales in the state will fall more than 14 percent next year, with much of the decline coming in coastal urban areas.

''We reamin very much in business, although a reduced level,'' the company said. Irvine Co. spokesman Larry Thomas said that the company will not shut down ongoing projects, such as the 2,600-acre Irvine Spectrum industrial and commercial park and four residential communities that will have 30,000 homes when complted.

Irvine Co., which is owned by Chairman Donald Bren, will make the job cuts across the board, although they will be heaviest in the finance and land-planning areas.

''This is a significant belt-tightening for us,'' Thomas said. ''We'll be cutting both overhead and capital expenditures.''

Thomas said the company has now revised its plan for the fiscal year, which began July 1, four times because of worsening economic conditions.

-30- 1968

#90312u1923 11/08/1990 ~United Press International

(NOV. 8) UPI - President Bush announced another escalation of the U-S presence in the Persian Gulf today... a significant new troop deployment that is expected to send the American forces to more than 300-thousand. Bush announced the new troop movement in a news conference in Washington. Earlier, in Moscow, Soviet Foreign Minister Eduard Shevardnadze told a news conference that military force might be necessary to get Iraq out of Kuwait. The Soviet official indicated support for the American policy in the region.

In Atlanta, mail-bombing suspect Walter Moody Junior today refused to enter a plea of innocent or guilty to charges that he made the bombs that killed a federal judge and a lawyer last year. Moody's action forced government prosecutors to enter an innocent plea for him on the 70-count indictment. If convicted on all charges, he could face seven life terms plus 110 years in prison and three-point-seven-Million dollars in fines.

Louisiana authorities have charged two Fort Polk soldiers with the kidnap,

rape and shooting of an 18-year-old woman. 23-year-old Private Andrew Griffin Junior and 20-year-old Private Maurice Hardister were arrested on the Army base yesterday in connection with the Sunday night assault. Authorities say the servicemen allegedly kidnapped the woman at gunpoint from a parking lot, took her to a secluded road, raped her and shot her in the face and left her for dead.

Experts say American consumers should beware of credit-card fraud as the so-called ''plastic season'' approaches. They say increasingly sophisticated thieves steal more each year, with the total now at about 500-Million dollars a year. They say stolen credit cards account for much of the loss but that thieves need only the card number for mail- order or false credit-card application fraud.

Construction unions in Illinois say they plan to expand their local boycott of Toys-R-Us and make it nation-wide. Officials of the A-F-L C- I-O's Building and Construction Trades Department charge Toys-R-Us is building a 22-point-five-Million-dollar warehouse in Joliet with non- union workers and paying far below the area's prevailing wage scales. Toys-R-Us is one of the nation's largest retailers of toys and is entering one of the busiest sales seasons of the year- Christmas.

New York State Police Trooper Hector Fernandez must have thought he was dreaming yesterday when a light plane taxied right by him on Interstate 84 in southern New York. Fernandez was on the lookout for speeders when he got the big surprise. The small Piper Cherokee apparently malfunctioned and had to make an emergency landing in the town of Montgomery.

#90312u2000 11/08/1990 ~United Press International

LOS ANGELES (NOV. 8) UPI - Slugger Darryl Strawberry replaced the burden of New York expectations with hometown ones Thursday when he signed a five- year, $20.3 million contract with the Los Angeles Dodgers.

The Dodgers made Strawberry the second-highest paid player in baseball history and quickly ended the outfielder's tempestuous eight- year relationship with the Mets. Negotiations began Monday and concluded late Wednesday night.

''My baseball life is just starting now,'' the 28-year-old, seven- time National League All-Star said at a Dodger Stadium news conference. ''A lot of the fun was taken away by the expectations in New York. I think you're going to see Darryl Strawberry going at a different level.''

The Mets offered Strawberry $15 million over four seasons, but he was not interested. Oakland Athletics slugger Jose Canseco is the game's highest-paid player with a deal for $23.5 million over five seasons.

''We have studied long and hard the history of five-year contracts in baseball and it is a disastrous list,'' Mets General Manager Frank Cashen said. ''We had to make a business decision - and something of a decision from the heart - and we decided to go to four years and not five.''

The Mets won a World Series during Strawberry's days in New York, but the left-handed-hitting right fielder often was criticized when seasons turned sour.

''We sure accomplished more than we didn't,'' Strawberry, who graduated from Crenshaw High School in Los Angeles, said of his career with the Mets. ''We had players who got hurt and players who didn't produce. I wish we could've won more than one championship, but we didn't. There's no excuse for it.

''Pressure affects everyone's game. If the Mets didn't win, it was because of one particular player. That's what I went through.''

The left-handed Strawberry may play center field for Los Angeles Manager Tom Lasorda. Strawberry would be surrounded by Hubie Brooks in right field and Kal Daniels in left.

The signing adds to the speculation that free agent outfielder Kirk Gibson will not be re-signed.

''He'll play anywhere he wants,'' Lasorda said. ''I think he made it very, very clear when he stated he would play center field for us. He's willing to do anything for the ballclub. That's the type of person Darryl Strawberry is.''

Strawberry had his best season in 1990, hitting .277 with 37 home runs and 108 RBI. He kept the Mets in the pennant race, hitting several key home runs down the stretch, but the offense was not enough as the Mets finished four games behind the Pittsburgh Pirates in the National League East.

The Mets negotiated with Strawberry's agent, Eric Goldschmidt, periodically during the season. One offer in the summer was for $9.1 million over three years.

''If ($9.1 million for three years) is their (Mets) best shot, someone's going to make me the richest player in the game,'' Strawberry said last July.

Strawberry later openly feuded with Cashen after the general manager spoke publicly during mid-summer contract negotiations, saying Strawberry was not worth $5 million a year.

''I was asked whether I though that any ballplayer was worth $5 million and I said no,'' Cashen said. ''Then I was asked about Jose Canseco and I said he was not worth that kind of money. Then I was asked about Strawberry, and I said that based on my previous two statements, no player was worth $5 million,

including Strawberry.''

However, at the end of the season, Strawberry said he might remain with the Mets if certain conditions were met, including ''a better relationship with the front office.'' At the same time, he said he would sign with the Dodgers if they offered him a five-year contract ''within the range of contracts today.''

On Thursday, Strawberry said he intended to become a Dodger if the Los Angeles and New York offers were equal.

''I listened to the Mets, but they didn't talk what I wanted to hear, '' he said.

He said he will not be bothered by playing before his friends and family.

''There couldn't be no more pressure than playing in New York, believe me,'' he said. ''The most important thing is having fun and enjoying the game of baseball. When you can do that, there's no telling what you're capable of doing.''

Strawberry has career totals of 252 homers and 733 runs with a .263 average. He was the Mets' first selection and the No. 1 overall pick in the June 1980 free agent draft. He first came up with the Mets in 1983, winning NL Rookie of the Year honors.

In 1986, he was the top vote collector in the majors for the All-Star Game and became the first player in the National League to be picked as an All-Star starter in each of his first three full seasons in the majors.

Also that year, he hit two homers and had five RBI in the National League Championship Series, helping the Mets beat the Houston Astros. The Mets went on to defeat the Boston Red Sox in the World Series.

#90312u2003 11/08/1990 ~United Press International

GUATEMALA CITY (NOV. 8) UPI - Presidential candidates in Guatemala are deceiving voters by touting magic formulas intended to solve the country's social and economic problems immediately, the government's human rights attorney said Thursday.

''The disappointment is going to be tremendous, because after a few months, the president is not going to be able to make good on his promises and there's going to be a social convulsion, widespread strikes motivated more than anything else by the social and economic situation,'' Ramiro de Leon Carpio told foreign journalists.

Economic measures this year, including a halt to foreign currency subsidies for importers, coupled with devaluations of the quetzal, inflation and rising unemployment have caused discontent among the Guatemalan population.

'The candidates have offered to solve all the country's problems in 100 days, and it's going to create disappointment,'' said De Leon, who was appointed human rights attorney by the national congress last December.

On Sunday, voters will choose a successor to Vinicio Cerezo, who took office in 1986 as Guatemala's first civilian president since 1970.

If no candidate wins an outright majority, the top two contenders will enter a runoff election Jan. 6.

The apparent frontrunners - newspaper publisher Jorge Carpio Nicolle of the National Center Union Party and Alvaro Arzu Irogoyen of the National Party of Advancement - have fought a bitter campaign marked by widespread violence.

A report by the Washington D.C.-based National Democratic Institute for Democratic Affairs predicted the elections would be clean and fair, but said the violence has had a negative effect on the campaign.

At least four local leaders of major political parties have been assassinated since July, and major political figures have reported receiving death threats.

''The verbal violence has been very high, but it is in other countries as well '' De Leon said. ''But the verbal violence is much worse here because it doesn't stop at that. Here, they kill you.''

#90312u2068 11/08/1990 ~United Press International

(NOV. 8) UPI - Defense Secretary Cheney declined to be specific- as officials have in the past- about the new American troop deployment to the Persian Gulf region. But he did say today three more U-S aircraft carriers are being moved to the region for Operation Desert Shield. President Bush announced the major new U-S deployment at a White House news conference. For the first time, the United States will have an offensive military capacity in the region, apparently involving more than 100-thousand additional troops.

President Bush told reporters in a frank talk this morning that he has what he termed ''some remedial work'' to do because of the reaction to his position change on the tax-hike issue. He acknowledged to the White House reporters that his flip-flop on taxes was costly. But he said the Republican Party suffered only limited damage in Tuesday's off- year elections. Bush refused to say whether he would seek re-election.

Police in New York City say the Egyptian-born boiler repairman accused of

killing militant Israeli Rabbi Meir Kahane was suffering from depression over a dead-end career. They say the gunman also may have been taking drugs prescribed by a psychiatrist. A spokesman says the 34-year-old was a well-educated man with an engineering degree who apparently was upset by his blue-collar job.

The Federal Reserve says U-S consumer credit remains strong, as consumers ring up more charges on their credit cards. The Fed says consumer credit increased three-BILLION dollars in September at an annual growth rate of four-point-nine percent. The month's rate of borrowing, despite the slowdown in the U-S economy, was higher than expected by private economists.

A jury in Ithaca, New York, today convicted a 23-year-old mother for killing her infant daughter in a case that drew national attention when she staged the child's abduction. Christian Lane sobbed as the guilty verdicts were read. Prosecutors charge Lane killed her 23-month-old daughter, Aliza Bush, in February, faked her abduction and reported her as missing. The incident sparked a search by hundreds of volunteers. To throw police off, presecutors say Lane mailed one of her daughter's mittens to herself.

Agricultural officials in California are declaring victory in their 16-month battle against the crop-threatening Medfly. The widespread infestation was the longest in California history and cost more than a record 52-Million dollars to fight. But officials say they'll resume aerial malathion spraying if the pest resurfaces. And they're urging the public to help prevent future pesticide spraying by NOT illegally bringing infested fruit into California.

#90312u2193 11/08/1990 ~United Press International
(NOV. 8) UPI - More G-I's are going to the Persian Gulf. President Bush ordered a major buildup in the region so he will have what he considers adequate offensive military power to attack Iraq's Saddam Hussein. 230-thousand American troops already are in the gulf. The buildup appears to involve more than 100-thousand soldiers, perhaps as many as 150-thousand. Asked if the move means he is preparing for war, Bush repeated his hope that Saddam will comply with United Nations resolutions and withdraw unconditionally from Kuwait.

Oil markets were propelled upward today by UNconfirmed rumors that the United States will try to resupply its besieged embassy in Kuwait, using military force if necessary. The rumors drove crude oil prices up about one and one-half dollars a barrel on the New York Mercantile Exchange. The benchmark West Texas Intermediate closed at 35 dollars and 53 cents a barrel.

The Agriculture Department gave new crop production estimates today. The U-S-D-A forecasts grain production will total 309-Million 900- thousand metric tons, slightly less than the 312-Million 300-thousand tons projected one month

ago. If the estimate holds up, U-S production will be nine percent larger than last year's.

The U-S Agriculture Department refuses to go along with the Kremlin's declaration that this year's Soviet grain crop is a record 240-Million metric tons. The U-S-D-A today stuck to its estimate the Soviet crop totaled 235-Million tons, or just short of a 1978 record. NO matter what production is the Soviet Union is expected to import a huge amount of foreign grain.

Pakistan gave a warning to the United States today. Pakistan's president said Islamabad will maintain its close ties with Washington only as long as the relations do NOT adversely affect Pakistan's independence. The United States suspended aid to Pakistan last month because President Bush could NOT certify to Congress that Islamabad is NOT trying to build nuclear weapons.

The Food and Drug Administration warns people to stop using a drug promoted as a ''legal psychedelic.'' The F-D-A says the drug has sickened at least 30 people in California, Florida and Georgia. The drug called G-H-B causes nausea respiratory problems, seizures and comas. It is being promoted for strength training, body building and dieting.

A University of Utah chemist who claims he produced nuclear fusion at room temperature returned from a mysterious absence today. Stanley Pons defended his disputed research before a state oversight panel. Pons told the Utah Energy-Fusion Advisory Council he remains committed to fusion research. He stood up the panel last month and could NOT be found.

People both for and against Alaska's new marijuana law say it's likely to go to court before any pot smoker does. Before the law is enforced, the Alaska Supreme Court- which threw out the old marijuana law in 1975- will have to decide whether the new law voters passed Tuesday violates the privacy clause of the state constitution.

#90312u2356 11/08/1990 ~United Press International

(NOV. 8) UPI - The United States is sending about 100-thousand additional troops to the Persian Gulf. President Bush and Pentagon officials announced the deployment today. The additional troops WON'T all arrive in the Middle East until the new year... indicating any possible war against Iraq WON'T begin before then.

It has taken about three months to get more than 230-thousand U-S personnel into Saudi Arabia and in the waters and countries surrounding Iraq. About 200-thousand allied troops also are in the area... facing more than 400-thousand Iraqi troops.

A jury has convicted a man of charges he sexually assaulted a woman who claims

to have 46 personalities. Mark Peterson of Oshkosh, Wisconsin, claimed the woman was willing to have sex with him. He claimed he did NOT know about her mental condition.

The 27-year-old woman testified Wednesday after three of her 46 personalities were sworn in. ''Jennifer,'' the personality involved, said she did not know what sex was and did NOT know what Peterson did to her.

C-N-N disclosed today that the government taped phone conversations between deposed Panamanian General Manuel Noriega and defense attorneys getting ready for his drug trial. Federal officials deny that the monitoring was illegal.

C-N-N obtained several audio tapes of the conversations and began airing an excerpt from one. U-S District Judge William Hoeveler in Miami ordered C-N-N to refrain from using the tapes. C-N-N has appealed the order.

The mountains of New Mexico and Wyoming received enough snow to make travel difficult today. More than nine inches of snow fell in New Mexico. Strong winds caused near-blizzard conditions in Wyoming.

The temperatures plummeted in Alaska. It was six below zero in Fairbanks and 23 below in Delta. Winds up to nearly 75 miles an hour in Kodiak made the wind-chill far worse than the actual temperature.

The Los Angeles fire department estimates damage caused by a blaze at Universal Studios at between eight-Million and 25-Million dollars. The figures are far lower than initial estimates of the damage from Tuesday night's arson.

Manhattan's two major auction houses report a bursting balloon for the prices being paid for contemporary art. A week-long series of sales is drawing to a close... with some paintings and sculptures NOT even finding takers.

The tribal chiefs in Lesotho have named a new head of state... the eldest son of the deposed king. A military council runs Lesotho, a tiny former British-ruled kingdom surrounded by South Africa.

The Croatian Assembly challenged the Yugoslav government again today. Croatia approved legislation giving the republic's president control of its military reserve force in defiance of the Yugoslav Army and the federal government.

Albania's president issued a call today for changes in the Marxist constitution that would guarantee freedom of religion and re-define the party's role as the dominant force in society. He also said diplomatic relations with the United States are on the horizon.

Thailand's prime minister says he will realign his cabinet to satisfy the country's powerful military officers. He plans to drop a minister involved in a dispute with the military. The Thai military commander says that will reduce

tension.

President Reagan plans to visit Westminster College in Fulton, Missouri, tomorrow. Reagan will dedicate a monument sculpted by Winston Churchill's granddaughter in observance of the first anniversary of the fall of the Berlin Wall.

Churchill made his famous ''Sinews of Peace'' address at the college in 1946. He coined the phrase ''Iron Curtain'' in the speech.

#90312u2444 11/08/1990 ~United Press International

(NOV. 8) UPI - The Pentagon gave an indication today that it will NOT attack Iraqi troops before the new year- if then. Another 100-thousand or so G-I's are being sent to the Persian Gulf. But they probably WON'T be in the Mideast or ready for combat before the new year. A review of the units being sent indicate a minimum of 106-thousand-500 troops are included in the latest orders.

A man has been convicted of raping a mentally ill woman by preying on what psychiatrists say was one of her 46 personalities- that of an impressionable young woman who did NOT know anything about sex. A jury in Oshkosh, Wisconsin, convicted the man today. He testified he did NOT know about the woman's mental illness when they had sex.

A judge has ordered C-N-N to quit broadcasting tape recordings of former Panamanian General Manuel Noriega and his lawyers. C-N-N says the government made the tapes of phone conversations between Noriega and attorneys preparing for his drug trial in Miami. A lawyer says he will ask for dismissal of the charges because Noriega's right to a fair trial has been compromised.

A federal immigration judge in San Diego granted bail to a defecting Cuban intelligence officer today. The officer wants political asylum but faces deportation. The judge says he's satisfied the Cuban is NOT a national security risk. If he is sent back to Cuba, he's almost certain to face the death penalty.

Illinois health officials have cleared a coal gas plant of being a cancer-causer. Officials say unusually large numbers of cancer cases in the Tayorville area are due to heredity and the work and personal habits of the residents. The state also cleared the long-closed plant of involvement in the rare form of cancer contracted by three area children in the last two years.

A federal prosecutor says tests for hazardous substances and pollutants on samples from all over the United States may have been compromised by falsifications at a plant owned by the T-R-C Company. T- R-C and a former executive pleaded guilty in St. Louis to filing false reports on tests done on

samples for the Environmental Protection Agency.

Rowdy football fans forced a Northwest Airlines plane to make an UNscheduled landing in Las Vegas today. The jet was taking New York Giants fans to California for the weekend Los Angeles Rams game. About 40 passengers got rowdy because flight attendants cut off their drink supply. The pilot brought the excited football fans down to earth after one man threatened to punch a crew member.

California's winemakers are toasting the defeat of a state ballot measure that would have increased alcohol taxes by a nickel a drink. Voters overwhelmingly rejected Proposition 134, which would have channeled funds to alcohol-related medical and educational programs. Voters also rejected an industry-sponsored alternative that would have raised alcohol taxes by a penny a drink. California's alcohol excise tax remains a penny a gallon, the lowest in the nation.

BY JACK E. WILKINSON - UPI

(NOV. 8) UPI - MOVIES ''Back To The Future III'' _ Marty McFly and Doc Brown find themselves in the Wild West, and making it a whole lot wilder, in the rollicking windup of their time-tripping odyssey. Marty (Michael J. Fox) saddles up the DeLorean one more time to zoom back to 1885 to rescue Doc (Christopher Lloyd), trapped in the past with very little future since he's ticketed for a bullet in the back in a few days. Doc is now the town blacksmith and has incurred the wrath, as does Marty, of the snarling outlaw ancestor of time-tested nemesis Biff (Thomas F. Wilson). To make Marty's rescue mission more difficult, Doc has fallen for the new schoolmarm (Mary Steenburgen). It's an entertaining, fast-paced romp that not only revives the Western, but finishes a very successful series on a high note. Overall, it's a lot of fun. 1990. 118 minutes. MCA/Universal Home Video. Rated PG. No suggested retail price.

''The Rocky Horror Picture Show'' _ This kinkily outrageous farce, a cult legend usually shown at midnight and inspiring considerable and often wild audience participation, celebrates its 15th birthday with a debut on home video. The horror movie spoof tells of a young couple (Susan Sarandon and Barry Bostwick) trapped in a spooky old house loaded with a bunch of transexuals from Transylvania, including lead wierdo Tim Curry. Richard O'Brien composed the rock score. A prologue explains the merits of seeing the film in a theater with an audience. Presumably the usual practice of throwing bathroom tissue, food and other objects at the screen would have certain ramifications at home. 1975. 100 minutes. CBS/Fox Video. Rated R. $89.98.

''Prancer'' is a warm, captivating holiday family fable about a little girl

and a deer and the meaning of Christmas. Jessica (Rebecca Harrell) is an imaginative nine-year-old who one day finds an injured animal she believes to be Prancer, one of Santa's reindeer. Times are tough and folks are touchy as Christmas approaches and Jessica's bubbly approach is often rebuffed, even at home where her widowed father John (Sam Elliott) is trying desperately to save his failing apple crop and may have to break up the family. But, when Jessica finds the deer and secretly nurses it back to health "to return him to Santa," things begin changing dramatically for the better. 1990. 103 minutes. Nelson Entertainment. Rated G. $89.98.

''Hail The Conquering Hero'' _ Eddie Bracken plays an Army reject who is mistaken for a war hero by his home town in this 1944 Preston Sturges gem glistening with satire and rippling dialogue. The top-notch supporting cast features William Demarest, Franklin Pangborn and Ella Raines. In its video debut. 101 minutes. MCA/Universal Home Video. $29.95.

''Rising Son'' _ Father and son clash over the future in this well done made-for-cable drama about a tough blue collar worker (Brian Dennehy) who must do battle on two fronts, to save his job and keep his family together. Dennehy is, as usual, quite good, supported by Piper Laurie and Matt Damon. 1990. 92 minutes. Turner Home Entertainment. Rated M by the Film Advisory Board. $79.98.

''Deceptions'' _ Harry Hamlin plays a detective who falls in love with a murder suspect (Nicollette Sheridan) despite mounting evidence that she killed her wealthy husband in this engagingly steamy, made-for-cable suspense drama. 1990. 105 minutes. Republic Pictures Home Video. Rated R. $89.98.

''Frankenhooker'' _ A bereaved scientist ''recreates'' his dead fiancee using body parts of prostitutes in this comic horror spoof. 1990. 85 minutes. Shapiro Glickenhaus Home Video. In both R-rated and unrated versions. $89.98.

#90312x1338 11/08/1990 ~Comtex

NEW YORK (NOV. 8) UPI - Deflation of ballooning prices for contemporary art continued Thursday as a week-long series of sales at Manhattan's two major auction houses drew to a close.

Some 28 of 58 paintings and sculptures that went on the block Wednesday evening at Christie's gallery failed to find a buyer willing to pay the reserve price below which the art work remains unsold.

The 30 lots that did sell brought a disappointing total of $36.7 million, against a pre-sale estimate of $47.7 million to $65.4 million.

''Quality sells and that's what sold tonight,'' commented Diane Upright, curator of contemporary art sales at Christie's.

''But I think we will take an overall look at structuring sale in general. In the process of reassessment, perhaps the evneing sales may become more tightly focused.''

Top price in the sale was $8.8 million paid by New York dealer Larry Gagosian for Willem de Kooning's ''July,'' part of his urban landscape series painted in 1856. Christie's had put an evaluation of $5 million to $7 million on the canvas, an abstract composition of summery colors slashed with black.

Swiss dealer Thomas Ammann paid $4.84 million for an untitled 1961 Cy Twombly graffiti painting, and an unidentified European collector paid $3.85 million for Fracis Bacon's 1967 ''Portrit of George Dyer Staring into a Mirror.'' An unidentified dealer bought Mark Rothko's 1958 color field painting, ''Black

and Dark Red on Red,'' for $3.19 million.

Among the paintings that failed to sell were two Andy Warhol self- portraits and his ''12 Jackies,'' a multiple portrait of Jacqueline Kennedy Onassis. A Warhold painting also failed to sell at Sotheby's gallery Tuesday.

The Sotheby sale sent the art world into shock when half the post- World War II artworks offered failed to sell. As a result, the sales total was only $19.8 million instead of the $39.6 million to $52 million expected by gallery experts.

Dealers attending the sale voiced the opinion that reserves _ the prices agreed on by consignors and gallery experts as a fair market price _ were too high to be realistic in an era of deepening economic gloom and the threat of war in the Middle East.

#90312x1482 11/08/1990 ~Comtex

BOSTON (UPI) _ Thousands of ''Cheers'' fans crammed onto Boston's City Hall Plaza Thursday for a glimpse of their favorite stars as the NBC show about the bar ''where everybody knows your name'' celebrated its 200th episode.

The longest-running comedy currently on television, ''Cheers'' centers around a Boston bar modeled after the Bull & Finch Pub at the foot of Beacon Hill. Cast members came to Boston to mark the event, riding through the city streets in a motorcade, than taking part in a rally as the mayor's office proclaimed ''Cheers Appreciation Day'' in Boston.

''Thank you, Boston. We love you!'' series star Ted Danson shouted to the crowd.

Danson, who plays womanizing bartender Sam Malone, was joined by fellow cast members Kirstie Alley, George Wendt, Rhea Perlman, John Ratzenberger, Kelsey Grammer, Bebe Neuwirth, and Roger Rees. Woody Harrelson, who portrays the naive bartender Woody, was absent, but Danson assured the crowd, ''Woody sends his love.''

Mayor Raymond Flynn's office said as many as 30,000 people packed onto City Hall Plaza to see the stars, while thousands more lined the parade route from Copley Square to City Hall. Police estimated the plaza throng at 25,000.

''It's one of my favorite television shows,'' gushed a female fan as she waited for a glimpse of Danson and Co.

Male fans seemed more interested in Alley, who replaced Shelley Long as Sam Malone's love interest-nemesis.

''This is great, this is awesome,'' said fan John Murray, who said the dark-haired actress was the main reason he braved the biting wind and chilly temperatures. ''I love Kirstie Alley.''

Perhaps he felt rewarded when Alley called to the crowd, ''You have a lot better-looking men in Boston than we have in L.A.!''

The city presented the cast members with gifts, specially designed to suit the characters they portray, to mark the occasion. Danson was given a baseball bat _ his character is a former member of the Boston Red Sox _ while Perlman received a Boston Bruins jersey. Her character, caustic waitress Carla LeBec, is the widow of a former Bruins player.

One Boston police officer who was directing traffic during the parade was hit by a car, but his injuries were not serious, said police spokeswoman Jill Reilly. The officer's name was not immediately available, but Reilly said he was assigned to the motorcycle unit. The officer was being treated at Massachusetts General Hospital for a possible broken leg, she said.

''Cheers'' first aired on Sept. 30, 1982, and has accumulated 22 Emmy Awards during its long tenure. The show, whose theme song describes a bar so friendly that ''everybody knows your name,'' has gained in popularity over the years and last year it was the top-rated series.

#90313b0010 11/09/1990 ~Business Wire

PALO ALTO, CALIF. (NOV. 9) BUSINESS WIRE - Tab Products Co. (ASE:TBP) announced Friday that its board of directors has approved a doubling in its quarterly cash dividend from 5 cents per share to 10 cents per share, establishing an annual dividend rate of 40 cents per share.

This quarterly dividend is payable Dec. 14, 1990, to shareholders of record at the close of business Nov. 26, 1990.

Harry Le Claire, chairman and chief executive officer of Tab, commented that the higher dividend reflects the increased cash position of the company, as well as management's confidence in the company's business.

Headquartered in Palo Alto, Tab manufactures and markets office filing and furniture systems which are sold worldwide. There are 6,737,284 shares of Tab Products Co. common stock outstanding.

FRAMINGHAM, MA (NOV. 9) BUSINESS WIRE - Perini Investment Properties Inc., (AMEX:PNV) reports a net cash flow loss of $956,000, or 24 cents per share, for the quarter ended Sept. 30, 1990 versus positive net cash flow of $925,000 or 24 cents per share, for the same period in 1989.

This is the first quarterly loss reported by PIP since its shares began publicly trading in 1984.

The company said the loss was due among other things to increased vacancies at certain properties, increased interest payments and operating costs, and a reduction in partnership distributions due primarily to the wind-up of the Alcoa Building partnership in 1989.

As stated previously, the company expects these conditions to affect operating cash flow for the remainder of the year, although certain planned transactions could significantly improve anticipated results. Recent conditions in the marketplace, however, are lengthening the time required to accomplish such transactions.

CUPERTINO, CA (NOV. 9) BUSINESS WIRE - Apple Computer, Inc. Friday announced that Michael H. Spindler, the company's chief operating officer, and Bernard Goldstein, partner of Broadview Associates, have been nominated to become members of Apple's board of directors.

Broadview Associates is a highly regarded global investment banking firm specializing exclusively in the information technology industry.

Additionally, John Sculley, the company's chairman and chief executive officer announced that, effective today, Spindler has been elected president, Apple Computer, Inc.

Also effective today, Joseph A. Graziano, the company's chief financial officer, and Albert Eisenstat, Apple's Secretary, have been elected executive vice presidents. Spindler, Graziano and Eisenstat continue to report directly to Sculley. The scope of their responsibilities has not been changed.

Previously, Sculley had held the position of president in addition to his role as chairman and CEO. The board membership nominations will be submitted to a shareholder vote at the Annual Shareholders meeting on January 30, 1991.

SAN MATEO, CALIF. (NOV. 9) BUSINESS WIRE - Bay View Federal Bank, the wholly-owned subsidiary of Bay View Capital Corp., (NASDAQ:BVFS), announced Friday that it expects to increase its reserves for real estate-related assets in the fourth quarter ended Dec. 31, 1990.

These assets include two joint venture housing developments of the bank's subsidiary, Bay View Financial Corp., and non-residential loans made by the bank.

Robert E. Barnes, Bay View's chief executive officer, said: ''Due to the weakening real estate market in Northern California and the belief that the economy may be entering a recessionary period, Bay View expects that new appraisals on certain assets will result in significant additional reserves. While the amount will be determined by the end of the quarter when all of the appraisals are complete, we expect to add between $8 million and $13 million to reserves.''

A portion of the above additions to reserves are a result of suggestions made by the Federal Deposit Insurance Corporation in connection with their recent examination of the bank and its real estate investment subsidiary.

At Sept. 30, 1990, the bank substantially exceeded its fully phased-in regulatory capital requirements. The bank expects its regulatory capital to continue to exceed such requirements.

SAN FRANCISCO (NOV. 9) BUSINESS WIRE - Bank of America has begun a joint project with Tandem Computers Incorporated for the installation of an advanced Securities Settlement System that will increase efficiencies, accommodate increased volumes, increase product and accounting flexibility, and provide increased operational controls.

The system was developed by Phase3 of Waltham, Mass., and licensed to Bank of America. Implementation begins this month and will be phased in over the next year.

The new on-line, real-time system will accommodate a variety of securities

settlement functions across a wide range of securities products and reduce the number of support systems. Bank of America has transacted securities business with institutional and retail clients nationwide for almost 40 years. Said Executive Vice

The system will enable the bank to dramatically increase its securities processing capabilities, a particular benefit in California, where investor growth continues to be strong.

The system will also give the bank greater flexibility to add new capital markets products, and it will improve risk management and management information systems.

SAN JOSE, CALIF (NOV. 9) BUSINESS WIRE - Frame Technology Corp. Friday announced the promotions of Pat House to vice president of marketing and David Orfao to vice president of North American sales.

''These promotions augment our strong management team and ensure the continuity we need to successfully market and sell new products, gain market share and increase our profitability even more,'' said Paul Robichaux, president of Frame Technology.

House and Orfao will share the marketing and sales responsibilities previously managed by Steve Klann, who is resigning as vice president of sales and marketing to pursue other career interests.

''Steve was instrumental in building Frame into a successful high growth company. We have full confidence that Pat and David will follow in his footsteps and continue our successful product and distribution strategies,'' continued Robichaux.

House, 36, formerly Frame's director of marketing, has responsibility for the overall marketing strategy of Frame. She will oversee all product marketing, training, strategic partner, and corporate communication departments, and will report directly to Robichaux. House, who joined Frame as director of channel marketing, has held positions at Oracle Corp., Ansa Software and Verbatim Corp.

She has a BA from Western Michigan University.

Orfao, 32, formerly director of U.S. sales, will be responsible for all direct reseller and OEM sales in the United States and Canada. He will report directly to Robichaux. Orfao has held various sales and marketing management

positions with Ashton-Tate Corp. and Migent Inc. He holds a BA degree in business administration and accounting from Norwich University.

Frame is the supplier of FrameMaker, the leading workstation publishing software available for multiple graphical user interfaces on more than 25 different computers including Apple, Altos, Apollo, Hewlett-Packard, NeXT, MIPS, Pyramid, Matsushita, Sun and Silicon Graphics.

Frame markets its products worldwide through distributors, VARs, OEMs and directly to end-users. The privately held company is located at 1010 Rincon Circle, San Jose, Calif. 95131.

#90313b0074 11/09/1990 ~Business Wire

SAN DIEGO (NOV. 9) BUSINESS WIRE - Kaypro Corp. Friday announced it will introduce three new product lines at the 1990 Comdex trade show in Las Vegas next week.

This will be the first time in two years that the computer manufacturer has been present at the huge annual computer industry show.

According to Geoffrey W. Soule', president and chief executive officer, Kaypro views Comdex as the perfect opportunity to initiate the ongoing revitalization of its retail dealer network. ''Kaypro has begun a positive trend of generating encouraging sales figures,'' he said.

''The dealer network will continue to play an important role in the company's return to profitability. Our main reason for being present at Comdex is to show that Kaypro is still a major force in the PC industry.''

The new Kaypro product lines include the full-function KC Series; the small-sized, high-powered Micro Desktop (MD) Series; and the affordable, portable LC Series of laptops. All the lines feature the high-value, low-cost reliable machines for which Kaypro is best known.

Kaypro will be exhibiting its high-performance machines in Booth 2802, located in the South Hall directly across from the main rotunda in the Las Vegas Convention Center.

With nearly four decades of experience in the high-tech/electronics industry, Kaypro is an internationally recognized brand name. Currently, Kaypro Corp. enjoys a user base of more than a half-million computer systems worldwide and markets a full line of microcomputers for businesses and individuals.

#90313b0107 11/09/1990 ~Business Wire

SAN FRANCISCO (NOV. 9) BUSINESS WIRE - Renewable energy resources can become the "backbone" of tomorrow's electric power supply and play a key role in this country's national energy strategy, Pacific Gas and Electric Co. Research and Development Manager Carl J. Weinberg told an energy forum at the National Academy of Sciences in Washington Friday.

"Ever since Iraq invaded the oil fields of Kuwait, we've all recognized the need to examine domestic energy production," said Weinberg. "Any policies regarding enhancement of that production must give serious consideration to renewables. New technologies and production techniques will continue to reduce costs and raise the efficiency of these clean energy options."

Weinberg was the only representative from a utility company to speak at the two-day forum called "America's Energy Future." The panel of speakers, which also included educators and researchers, addressed an audience of leaders from fields including industry, banking, law, education and foreign policy.

PG&E has one of the cleanest energy mixes in the country, employing renewables such as hydroelectric generation (3,800 megawatts); geothermal (1,300 megawatts); and power purchases from wind, solar, biomass, and cogeneration (2,000 megawatts).

Still, Weinberg sees the utility of the future as both cleaner and leaner. "The emergence of small clean technologies could substantially change the structure and operation of electric utilities," said Weinberg. "The days of large central station power plants doing all the work could change dramatically with the increased implementation of renewable resources." One vision of the utility of tomorrow presented by Weinberg includes:

- Using more solar, wind and geothermal energy where possible;
- Replacing steam boilers in aging power plants with clean, more efficient gas-fired turbines or fuel cell technologies;
- Expanding the utility generation base by constructing small, environmentally preferred generating and storage systems on the distribution system closer to the customer. These could include advanced fuel cells and small wind and solar installations.

"We're at various stages of research and implementation in all of these areas " Weinberg said. "The bottom line is that renewable resources are already working for us, and now is the time to turn the country's attention to the need for further development of our cleanest options."

PG&E was recently named "Utility of the Year" by the American Wind Energy Association, and the company operates the country's largest solar cell energy test facility in Davis, Calif.

TORONTO (NOV. 9) BUSINESS WIRE - Paul D. Campbell, president of Campeau Canada, has been appointed president and chief executive officer of Trilea Centres Inc., one of Canada's largest shopping centre organizations, it was announced Friday.

Campbell has more than 20 years experience in shopping centre development, leasing and operations as well as in other aspects of real estate development. He officially assumes his new position on Jan. 7, 1991.

In making the announcement, Marvin Marshall, president and chief executive officer of Bramalea Limited (the parent of Trilea), said: ''Despite the current malaise in retailing, we see tremendous long-term opportunities in the Canadian shopping centre industry for new property developments and new retailing approaches. Paul Campbell has the depth of knowledge and corporate leadership to take Trilea into a new era of creating retail environments that will preserve Trilea's hard-earned reputation as one of the country's preeminant shopping centre organizations.''

Trilea Centres Inc. was formed five years ago from the consolidation of shopping centres owned by Trizec Corporation Ltd. and Bramalea Limited. The company is responsible for managing 14 million square feet of retail space in 28 shopping centres across Canada. Trilea is also responsible for the development of land sites in British Columbia, Alberta, Ontario and Quebec that could support new regional shopping centres.

Born in Ottawa and educated in Toronto, Campbell graduated from Pennsylvania State University in 1966. The following year he joined a shopping centre development company operating in the Maritimes and Quebec. In 1977, Campbell joined Campeau Corp. and, apart from three years with the Oxford Development Group in Calgary, has been with the company for the past 13 years. He was a senior vice-president at Campeau prior to being appointed president of Campeau Canada in May 1989 with responsibility for the development and management of shopping centres and office buildings in Canada.

Campbell replaces Iain Rankin who announced his resignation last month to emigrate to Scotland to pursue personal interests.

MORGAN HILL, CALIF (NOV. 9) BUSINESS WIRE - Redlake Corp., a Morgan Hill-based manufacturer of high speed instrumentation film camera equipment and videographic imaging products, announced Friday the unaudited results of its second quarter and six months ended Sept. 30, 1990 of its fiscal year 1991 as follows:

For the second quarter ended Sept. 30, 1990, of fiscal year 1991, net revenues increased and there was a net loss compared to the second quarter of fiscal year 1990. Net revenues increased $33,368 or 4 percent, from $807,101 in the second quarter of fiscal year 1990 to $840,469 in the second quarter of fiscal year 1991.

Net revenues increased as a result of higher shipments in the graphics imaging products.

There was a net loss of $59,772 in the second quarter of fiscal year 1991 compared to a net income of $9,055 in the second quarter of fiscal year 1990. The net loss is a result of increased expenses associated with the start up of the imaging products distribution channel and increased new product software expenditures.

For the six months ended Sept. 30, 1990, net revenues increased $438,569 or 32 percent from $1,378,536 in the six months ended Sept. 30, 1989, to $1,817,105 in the six months ended Sept. 30, 1990.

There was a net loss of $49,151 in the six months ended Sept. 30, 1990, compared to a net loss of $53,430 in the six months ended Sept. 30, 1989. The net loss in the six months ended Sept. 30, 1990, was the result of increased selling, marketing and general administration expenses.

The backlog at Sept. 30, 1990, was $875,675 compared to $808,401 at Sept. 30, 1989.

#90313b0135 11/09/1990 ~Business Wire

RICHLAND, WA (NOV. 9) BUSINESS WIRE - The Fast Flux Test Facility at Hanford is achieving world record performance by two advanced fuel assemblies while it continues its eighth year of successful reactor operation.

The FFTF is a multipurpose test reactor which Westinghouse Hanford Co.

operates for the U.S. Department of Energy. The sodium-cooled reactor plant has been operating since 1982 with a wide range of fuels and materials experiments benefitting advanced energy technologies.

Two advanced mixed-oxide fuel assemblies in FFTF have now achieved a level of burnup more than four times greater than commercial nuclear power plants, said Plant Manager Dan Swaim of Westinghouse Hanford Co.

"This means we're demonstrating a fuel design that's ideal for the future, one that can extract far more useful energy from a given amount of fuel," he added. The latest achievements also surpass previous fuel records established at FFTF as well as performance at other liquid-metal-cooled nuclear power plants in the world.

"In straightforward terms, each pound of this nuclear fuel - about one cubic inch - has produced the energy equivalent of 1,450 barrels of crude oil," Swaim reported. The performance records are being chalked up by two fuels test assemblies which have been undergoing FFTF irradiation since 1985.

The full-size assemblies have produced a peak of approximately 210 megawatt days of energy for each kilogram of fuel material, a level comparable to nearly four years of steady full-power operation. Most commercial nuclear fuel must be replaced after producing 40-50 megawatt days of energy per kilogram of fuel.

Westinghouse Hanford's manager of Technology Support, Frank Bard, credits the lengthy fuel performance success to HT-9, the advanced alloy developed by Westinghouse Hanford for fabrication of fuel pin cladding and ducts.

"This advanced steel alloy exhibits almost no dimensional swelling and it provides good strength behavior in the reactor core," Bard said. "This permits fuel assemblies constructed with HT-9 fuel pin cladding and structural ducts to remain in the reactor longer and therefore more total energy is extracted from the nuclear fuel."

HT-9 is a ferritic steel, developed and proof-tested in Hanford laboratory programs during the 1970s and 1980s. The aim was to produce metals for future reactor components that would offer longer irradiation lifetimes and less swelling or other distortion than conventional stainless steels.

#90313b0142 11/09/1990 ~Business Wire

WINTERSBURG, AZ (NOV. 9) BUSINESS WIRE - The operators of Palo Verde Nuclear Generating Station have selected the Lynchburg, Va., firm of Babcock & Wilcox Nuclear Services (BWNS) to perform major refueling outage work at Palo Verde under a three-year contract. The agreement also includes two contract extension options.

Under the partnership agreement, BWNS will provide integrated outage services, which may possibly include reactor refueling work as well as steam generator inspections and maintenance. The full scope of the contractor's duties are

still being negotiated.

According to David Mauldin, Palo Verde's manager of Outage Planning & Management, BWNS will establish a permanent staff at the plant and will supplement that staff with additional personnel during refueling outages. The first refueling outage expected to benefit from the new partnership arrangement is in Unit 3, scheduled to begin in March 1991.

"We expect to see members of the BWNS outage management team at Palo Verde within the next month," Mauldin stated. "They will assist in the outage planning, schedule development and review currently in progress for the upcoming Unit 3 refueling outage."

"Babcock & Wilcox is highly respected throughout the nuclear industry," Mauldin said. "They bring to Palo Verde a strong work ethic and a wealth of knowledge and experience.

"They've also committed to becoming an integral part of our team effort to reduce outage duration and cost, working in conjunction with APS employees in the maintenance, technical support, and engineering organizations, among others."

"We anticipate a successful partnership with BWNS and look forward to their contribution to the Palo Verde team, with resultant successful outage completions in 1991 and beyond," Mauldin concluded.

The Palo Verde Nuclear Generating Station is a standardized triple-unit commercial nuclear power facility located 55 miles west of Phoenix. It is operated by the Arizona Public Service Co., which owns 29.1 percent of the plant.

The other co-owners are Salt River Project, Southern California Edison, Public Service Co. of New Mexico, El Paso Electric Co., Los Angeles Dept. of Water & Power, and the Southern California Public Power Authority. Palo Verde generates electricity to serve approximately four million people. All three units are currently in operation, each at full power.

#90313b0165 11/09/1990 ~Business Wire

IRVINE, CALIF (NOV. 9) BUSINESS WIRE - National Health Care Systems Inc. (NASDAQ:NHCS) announced Friday that the company will report a loss of approximately $372,000 for the three months ended Sept. 30, 1990, on approximately $3.6 million in revenues.

The cumulative loss of approximately $57,000 for the nine months ended Sept. 30, 1990, compares with earnings of $229,000 for the prior comparable period.

NHCS cited two unrelated events which are primarily responsible for the loss during the third quarter. First, the company's wholly owned subsidiary, DentiCare of California Inc., was required by California regulators to terminate its indemnity product lines due to disputed legal interpretations, effective Sept. 1, 1990.

The indemnity business represented less than 4 percent of total enrollment at the time of the order.

The second event contributing to the third-quarter loss was related to specialist dental claims. As a result of the rapid growth in sales of products which include a specialist reimbursement benefit, management considered it appropriate to significantly increase its reserve against such costs in the amount of $207,000.

Enrollment in the company's plans currently exceeds 241,000 members, compared with 188,000 at the same time last year. This represents an increase of 28 percent and is reflected in the growth in revenues to $9.96 million for the nine months ended Sept. 30, 1990, compared with revenues of $6,678,000 for the prior comparable period.

National Health Care Systems owns and operates a capitated prepaid dental plan in the state of California which operates under the name of DentiCare and has approximately 241,000 members throughout the state. The company offers its prepaid dental benefit packages to employer groups as well as to families and individuals as an alternative to dental indemnity insurance.

#90313b0170 11/09/1990 ~Business Wire

WESTLAKE VILLAGE, CALIF. (NOV. 9) BUSINESS WIRE - Consolidated Energy Systems Inc. Friday announced an additional extension of the expiration date for its outstanding B warrants to the close of business on May 13, 1991.

The new closing date extends the previously announced Nov. 12, 1990, expiration date.

The B warrants can raise up to $2.5 million in working and project capital for Consolidated. A successful warrant exercise would substantially augment the company's capital and allow it to further accelerate its growth. Earlier extensions of the expiration date have already occurred both to address the company's capitalization planning objectives and because the company seeks to

perfect technical warrant registration issues.

As the company has previously announced, the extension remains one of the consequences of the ongoing problems stemming from the deficient work of Consolidated's previous securities attorneys.

While the company has managed to correct and rectify many of the discrepancies that were discovered, there has been an unavoidable delay in the filing with the Securities and Exchange Commission of a Post Effective Amendment to Consolidated's registration statement. The Post Effective Amendment is necessary for the warrants to become exercisible. The company will continue to announce its progress and events relative to its B warrants as such occur.

Consolidated Energy Systems, founded in 1984, is a publicly traded company with emphasis on developing cogeneration and energy conservation projects. Consolidated has been a public company since 1987 with common shares and warrants (to purchase common shares) presently traded over the counter.

#90313b0173 11/09/1990 ~Business Wire

LOS ANGELES (NOV. 9) BUSINESS WIRE - Mercury Air Group Inc. (ASE:MAX) Friday reported revenues of $16.92 million and net income of $142,000, or 7 cents per share, for the first quarter of fiscal year 1991, ended Sept. 30, 1990.

The company reported revenues of $16.71 million and net income of $405,000, or 20 cents per share, for the first quarter of the previous fiscal year.

''Mercury Air is weathering quite well the storm caused by rising fuel costs '' noted Seymour Kahn, chairman of the aviation services company.

''Operating income was stable compared to the first quarter of the previous fiscal year, and continuing gains in our air cargo business have helped to offset decreases in our fueling operations, higher interest costs, and increased expenses in our fixed-base operations,'' Kahn explained.

''Our strategic mix of aviation service businesses has positioned the company to continue operating profitably in this period of irrationally high oil prices,'' Kahn concluded.

Mercury Air Group is the largest independent fuel supplier at Los Angeles International Airport (LAX), as well as one of the largest domestic contractors providing aviation fueling services to the U.S. military.

The company provides fueling, cargo handling, and ground support for

commercial, military and general aviation aircraft. These services are offered through Mercury Air's main operations at LAX, five fixed-base operations in California and Nevada, and 15 U.S. military bases, including one in Bermuda.

SAN DIMAS, CALIF. (NOV. 9) BUSINESS WIRE - Southern California Water Co. (NASDAQ:SWTR) reported third-quarter earnings of 98 cents per common share, substantially unchanged from the $1 per common share for the same period in 1989.

Earnings for the 12 months ended Sept. 30, 1990, were $3.06 compared with $2.03 last year. This sharp increase in 12-month earnings is reflective of a 9 percent increase in utility operating income due to a 7 percent increase in revenues, coupled with a lesser increase in supply costs.

As well, the 1990 12 months included 42 cents per share recorded in December 1989 from the sale of an operating system.

Operating revenue for the quarter increased to $25,796,000 compared with $24,636,000 for the same period in 1989, due largely to the effects of rate increases effective in early 1990.

A dividend of 55 cents per share payable Dec. 1, 1990, to shareholders of record on Nov. 12, 1990, was declared at the latest meeting of the board of directors.

SEATTLE (NOV. 9) BUSINESS WIRE - Third quarter results for Nordstrom Inc.

Sales for the nine-month period ended Oct. 31, 1990, increased 10 percent to $1,991,703,000 from $1,813,631,000. For the third quarter, sales were $634,895,000 compared with $572,383,000 for the same quarter last year, an 11 percent increase.

Net earnings for the nine-month period ended Oct. 31, 1990, were $69,519,000 compared with $83,487,000, a 17 percent decrease. On a per share basis, net

earnings were $.85 compared with $1.02. For the quarter, net earnings were $20,426,000 compared with $21,968,000 a 7 percent decrease. On a per share basis, net earnings were $.25 compared with $.27.

Sales during the quarter reflected more cautious consumer spending patterns in all regions of the company's operations. Sales in stores opened more than one year decreased 2 percent during the quarter. ''We are not immune from effects of the softening sales trends in the entire retail industry,'' said John Goesling, senior vice president. ''We are encouraged, however, that our efforts to control inventories and expenses have reduced the impact on earnings.''

The company opened several new specialty stores in the third quarter. New stores were opened in Santa Barbara, Calif., and Paramus, N.J., both of which were new markets for the company. The company also opened a new and larger store in the Lloyd Center in Portland, Ore. In addition, the company opened new clearance stores in San Leandro, Calif., and Dale City, Va. These openings bring the total number of stores in operation at the end of the quarter to 63.

MARKHAM, ONTARIO (NOV. 9) BUSINESS WIRE - On April 27, 1990, International Semi-Tech Microelectronics Inc. (''Semi-Tech'') announced it had terminated the share purchase agreement entered into with Provigo Inc. and Loeb Inc. (the ''Vendors'') relating to the purchase of the shares of Consumers Distributing Company Limited (''Consumers'') as a result of non-fulfilment by the Vendors of certain material conditions set out in the share purchase agreement.

In addition, Semi-Tech commenced an action seeking damages resulting from breaches and other actionable conduct relating to the share purchase agreement including failure of the Vendors to meet conditions relating to representatives and warranties.

Subsequently, the Vendors filed a motion to have the suit stayed and to require Semi-Tech to close the share purchase agreement and arbitrate the purchase price.

Yesterday the Ontario Court (General Division) dismissed the Vendors' motion in its entirety. As a result of this ruling, Semi-Tech now intends to actively pursue its lawsuit against the Vendors seeking damages totalling $87 million.

International Semi-Tech Microelectronics Inc. is a Canadian public company

headquartered in Markham, Ontario, whose shares are listed on The Toronto Stock Exchange, trading under the stock symbol -- ISE.

#90313b0203 11/09/1990 ~Business Wire

WALKERSVILLE, MD (NOV. 9) BUSINESS WIRE - Whittaker Bioproducts Inc. of Walkersville, Maryland, has purchased substantially all of the business and assets of LipoGen Inc. of Knoxville, Tenn.

As part of the purchase, Whittaker receives exclusive rights to the patented recombinant antigen technology used in LipoGen's RheumELISA(TM) and RheumaStrip(TM) autoimmune diagnostic kits. This technology allows RheumELISA and RheumaStrip to exhibit exceptional sensitivity and specificity not found in other autoimmune diagnostic assays.

The RheumELISA and RheumaStrip assays are performed to determine the presence of antibodies in the human immune system which have lost the ability to recognize the patient's own cellular components. As the immune system attacks these cells, great damage is done to tissues and organs throughout the body. The presence of these ''autoantibodies'' is a useful tool in the diagnosis of such autoimmune disorders as Systemic Lupus Erythematosus, Scleroderma and Mixed Connective Tissue Disease.

RheumELISA is a 96-well microplate assay designed for the hospital and clinical lab setting. Currently, tests are available for Ro, La, Sm, RNP and dsDNA autoimmune disease markers. The RheumaStrip Profile kit uses an innovative test strip format well-suited for the physician's office lab to simultaneously generate results for the markers mentioned above. Both products have been reviewed by the U.S. Food and Drug Administration and are available for in vitro diagnostic use.

Andrew J. O'Beirne, Dr. P.H., general manager of Whittaker Bioproducts' Diagnostic division, says, ''We view these significant product additions as a major step in bringing us closer to our goal of providing the most comprehensive line of autoimmune diagnostic products in the industry.''

#90313b0208 11/09/1990 ~Business Wire

SAN FRANCISCO (NOV. 9) BUSINESS WIRE - TIS Mortgage Investment Co. (NYSE:TIS) Friday reported net income of $1,972,000, or 24 cents per share, and

$5,776,000, or 71 cents per share, for the quarter and nine months ended Sept. 30, 1990, respectively.

This compares to net income of $1,845,000, or 23 cents per share, and $5,722,000, or 71 cents per share, for the quarter and nine months ended Sept. 30, 1989, respectively.

The increase in net income in the third quarter of 1990 over the third quarter of 1989 was primarily due to lower short-term interest rates in the third quarter of 1990. The total benefit of lower short-term rates was partially offset due to the fact that the company has been accumulating cash to purchase additional Residual Interests.

In August 1990 the company purchased for approximately $47,000 the remaining 2 percent of a Residual Interest of which 98 percent ownership was already held by the company. The company also committed to acquire a fixed-rate Residual Interest in the fourth quarter of 1990 at a cost of approximately $2,589,000.

The company is continually reviewing Residual Interests available for purchase in its effort to invest in Residual Interests that complement the current portfolio.

As a real estate investment trust (''REIT''), TIS Mortgage Investment Company's dividends are based on taxable income calculated under the internal revenue code and not on book income which is computed in accordance with generally accepted accounting principles. Taxable income in each quarter of 1989 and for the first three quarters of 1990 exceeded the amount of dividends declared and paid.

TIS Mortgage Investment Company is a San Francisco-based REIT which invests in various mortgage assets, including Residual Interests in Collateralized Mortgage Obligation (CMO) Bonds. The company commenced operations on Aug. 26, 1988.

SAN FRANCISCO (NOV. 9) BUSINESS WIRE - Bank of America has announced the appointments of two new senior vice presidents in its World Banking Group, Alan Paul Chappell and Arun Duggal.

Chappell, 37, manages its London Foreign Exchange Trading Centre. With Bank of America since 1985, he began his career in 1970, with Hambros Bank as a London-based foreign exchange trader.

Chappell moved to Merrill Lynch International-London in 1977, and joined Chemical Bank a year later as chief foreign exchange dealer in London. In 1983, he was named manager of Chemical Bank's Frankfurt operations, the position he held prior to joining Bank of America.

Duggal, 44, directs the International Private Banking Division's sales and investment management activities in Hong Kong. He joined the bank in San Francisco in 1974, and served for four years in a variety of branch and regional credit and marketing positions in India.

Duggal was assigned to Asia Division Strategic and Operations Planning in Singapore in 1979, and, in 1981, moved to the New York Corporate Office Energy Section, where he progressed to section head, the position he held prior to assuming his current responsibilities in September.

GOLDEN, Colo. (NOV. 9) BUSINESS WIRE - Horizon Gold Corp. (NASDAQ:HRIZ), formerly Horizon Gold Shares Inc., Friday announced sales of precious metals of $1,943,601 and a net loss of $722,058, or 3 cents per share, for the three months ended Sept. 30, 1990.

The net loss included foreign exchange losses of $467,160, principally an unrealized foreign exchange loss related to Horizon's subordinated convertible debentures payable in Swiss francs, and a gain on early extinguishment of debt of $240,484 related to the subordinated debentures. The net loss also included noncash depreciation and depletion expense of $603,543.

John E. Watson, chairman of the Golden-based precious metals producing company said that the net loss is the result of Horizon winding up its current projects at Buffalo Valley Mine and Tuscarora Gold Mines, and beginning work on several larger scale projects with more significant long-range potential.

He noted that Horizon's net loss for the current quarter included exploration expenses of $251,116 on the new properties.

Horizon is currently involved in development activities at its new Dixie Comstock Mine, located in Churchill County, Nev., exploration activities at the Hope Butte property, located in Malheur County, Ore., and in preliminary studies at its Mt. Chase base and precious metals deposit, located in Penobscot, Maine.

Assuming that all permits can be obtained on a timely basis, Horizon expects gold production to commence at the Dixie Comstock property in early 1991. Based on preliminary analysis, Horizon expects gold production of approximately 25,000 ounces per year at Dixie Comstock.

Watson also noted that in August 1990, Horizon's stockholders voted to change its name from Horizon Gold Shares Inc. to Horizon Gold Corp. to better reflect the activities of the company.

HOUSTON (NOV. 9) BUSINESS WIRE - Transco Energy Co. reported a net loss for the quarter ended Sept. 30 of $6.7 million, or 23 cents per common share, compared with net income of $34.4 million, or $1.20 per common share, for the third quarter of 1989.

The 1990 results include a charge to earnings of $10.5 million, or 36 cents per common share, for Transcontinental Gas Pipe Line Corp.'s (TGPL) share of additional producer settlement costs that are not recoverable from its customers. Excluding this charge, net income for the quarter was $3.8 million or 13 cents per share.

Last year's results included a gain of $69.4 million, or $2.42 per common share, on the initial liquidating distribution by Transco Exploration Partners

Ltd., partially offset by charges of $25.9 million, or 90 cents per common share, related to the effects and timing of the approval of a TGPL customer settlement.

Excluding these items, Transco's net loss was $9.1 million, or 32 cents per share for the third quarter of 1989. Revenues for the third quarter of 1990 were $651 million, compared with $632 million for the like time a year ago.

Transco's consolidated net income for the nine months ended Sept. 30, 1990, was $27.0 million, or 93 cents per common share, which includes the charge mentioned above and a $10.6 million, or 37 cents per share, gain related to the approval of a Texas Gas rate case settlement.

These results compare with net income of $71.0 million, or $2.48 per common share, for the like period in 1989, which includes the gain and charges mentioned above, as well as a $13.7 million, or 48 cents per share, gain from the sale of 50 percent of Transco Energy Ventures Co.'s interests in certain power generation projects.

Revenues for the first nine months of 1990 were $2.3 billion, compared with $2.1 billion a year ago.

CARLSBAD, CA (NOV. 9) BUSINESS WIRE - GASCARD Inc. of Carlsbad on Friday announced that Lindsay B. Holland, who has been chairman of the board of GASCARD since May 1988, has accepted the position of chief executive officer effective Dec. 1, 1990.

Holland is currently vice president of Barney Holland Oil Co., a Texaco petroleum marketer and major GASCARD franchisee located in Fort Worth, Texas. Holland graduated from Princeton University and holds a master of business administration degree from the University of Texas at Arlington.

He was instrumental in the development of Barney Holland Oil's GASCARD franchise from its inception in 1985 to a $7 million business. He and his family will relocate to the San Diego area early next year.

Although Moore will concentrate on the management of GASCARD's largest franchisee, West Texas Gas, the company will retain the benefit of his wisdom and experience as a member of GASCARD's board of directors.

Thomas L. Jewell will continue to serve as the company's president and chief operating officer. Jewell added: ''I know that all of GASCARD's employees and franchisees will be as pleased as I am by the selection of Mr. Holland and

welcome the opportunity to work with him.''

GASCARD provides fuel management services to tens of thousands of commercial fleets that transact over 12 million gallons of fuel per month through more than 2,000 locations operating in 39 states.

GASCARD has developed and markets nationally a comprehensive card-activated fuel management system designed to reduce commercial and governmental fleet fueling costs.

The GASCARD system can prevent unauthorized purchases, lower accounting, administrative and other costs of fleet fueling, and eliminate or lessen the environmental risks of underground fuel storage tank ownership or operation.

Each billing cycle, the GASCARD system reports complete fleet fueling transaction data -- date, time, site, vehicle, driver, odometer, miles per gallon, cents per mile, product, volume, price, extension and excise tax details -- that fleet managers can use to maximize fleet efficiency.

Through the company's franchisees, which are typically independent petroleum marketers, the GASCARD system is marketed primarily for use by local and regional delivery, sales and service fleets, such as fuel and beverage distributors, overnight package delivery services, taxis, public utilities and governmental agencies.

The company was originally organized in May 1981 and went public through an offering of its common stock in March 1987. In January 1990, the U.S. Patent Office issued Patent No. 4,891,503 to GASCARD for its Distributed Authorization System.

This sophisticated database management program automatically maintains individualized subsets of the company's national database in local point-of-sale terminals, which enables them to authorize and process transactions almost instantaneously without recourse to GASCARD's central computer and thus at a greatly reduced telecommunications cost.

GASCARD's common stock is traded on the over-the-counter market.

IRVINE, CALIF (NOV. 9) BUSINESS WIRE - AST Research (Far East) Ltd. has received an industry quality award for electronics and electrical products from the Hong Kong government's industry department.

The commendation, called the ''Governor's Award for Industry: Quality,'' was established in 1989 to promote appreciation for the importance of quality among Hong Kong's manufacturers. The award, which recognizes effective quality management, was granted following a competition among companies doing business in Hong Kong. It is one of the most prestigious honors presented to a Hong Kong business.

AST Far East is a wholly owned subsidiary of AST Research Inc. (NASDAQ:ASTA).

''AST is committed to providing customers with the best products and services by continuing to apply strict rules and regulations in design, manufacturing, marketing and support,'' said Billie Lui, director of AST Research's Hong Kong manufacturing facility. ''Backed by a dedicated quality-assurance department, the company's products are enhanced through a stringent quality-management system.''

Entries are evaluated on product excellence and how a company's quality-management system eliminates delays and rejections during the manufacturing process and consumer complaints. Judges review product testing, performance, value, safety, manufacturing and materials sourcing.

''The basis for AST's success has been its commitment to producing exceptional products for its customers,'' said Tom Yuen, AST's chief operating officer. ''The award will assist AST's ongoing efforts to meet the computer industry's highest standards of quality.''

AST Research Inc. is a leading manufacturer of high-performance personal and notebook computers, enhancement and data communication products. AST's dual-brand product line, which features the Premium and Bravo families, allows users to choose from a full range of price and performance options.

AST is represented in 89 countries and operates 27 subsidiaries and sales offices worldwide. According to InfoCorp, an industry research firm, AST ranks third in U.S. dealer channel sales of 386SX-based systems and fourth in worldwide sales of 486-based systems.

AST Research corporate headquarters are located at 16215 Alton Parkway, P.O. Box 19658, Irvine, Calif. 92713-9658. Telephone: 714/727-4141; fax: 714/727-9355.

EL PASO, TEXAS (NOV. 9) BUSINESS WIRE - Texscan Corp. (NASDAQ:TXCND) Friday announced it has received two major fiber optic contracts in Europe totaling $2.1 million.

The systems will be installed on separate projects in the United Kingdom and in France.

The two contracts are for an extension of the Docklands Light Railway fiber optic transmission and monitoring system in London and for high-performance CATV FM Fiber Links in Lille, France. The FM Fiber Link order placed through the company's French subsidiary, Texscan S.A., is the largest of its kind received by the company.

These new contracts come six weeks after the announcement of $2.3 million in fiber optic system integration contracts in the United Kingdom.

John Aston, director of technology for Texscan's European businesses, noted: ''Receipt of these contracts of diverse fiber optic applications demonstrates the breadth of fiber optic technology that Texscan is able to deliver. This customer affirmation of both our fiber optic system integration capabilities for transport, and for CATV, is a satisfying reward to our commitment to fiber optics.''

Texscan said its European order input through October 1990 is substantially ahead of last year's results and expects its European operations to pace Texscan's future growth.

With headquarters in El Paso, Texscan Corp. is a leading designer and manufacturer of a broad line of distribution and commercial insertion products for the cable television industry, and a large-scale fiber optic systems integrator.

#90313b0618 11/09/1990 ~Business Wire

AVENEL, NJ (NOV. 9) BUSINESS WIRE - Concord Camera Corp. (NASDAQ/NMS Symbol: LENS) Friday announced record revenues and net income for the first quarter ended Sept. 30.

Net sales for the first quarter increased 68 percent to $15,524,179 from $9,265,235 reported for the comparable quarter last year.

Net income increased 117 percent to $1,790,328, or 42 cents per share, for the first quarter ended Sept. 30, compared to net income of $825,405, or 20 cents per share, for the first quarter last year.

The company attributed its strong first quarter results to increased sales volume in the United States as a result of orders received from retailers for the upcoming holiday season.

In addition, sales were favorably impacted by the performance of the company's German, Canadian and Illinois subsidiaries which commenced operations after Sept. 30, 1989.

The company's revenues also benefited from sales under its previously announced agreement to manufacture computer peripherals on an Original Equipment Manufacturer (OEM) basis as well as the first operating profit from its Hungarian joint venture established in May 1989.

Commenting on the results, Jack C. Benun, chairman, CEO and president of

Concord Camera Corp. said, ''We are extremely pleased with our first quarter results, especially given the continued weakness in the retail market. Historically, Concord has always performed well in the first quarter of its new fiscal year. The company anticipates that profitability will continue through its second fiscal quarter and we are encouraged that year to year comparative results for fiscal 1991 versus fiscal 1990 will evidence continued improvement for Concord Camera Corp.''

Concord Camera Corp., is principally engaged in the manufacture and sale of inexpensive 35 millimeter and 110 cartridge cameras which it manufactures and assembles in the People's Republic of China under the CONCORD and ARGUS trademarks as well as under private label.

#90313b0621 11/09/1990 ~Business Wire

NEW YORK (NOV. 9) BUSINESS WIRE - In-Store Advertising, Inc. (NASDAQ:ISAN) Friday reported results for the third quarter and nine months ended September 30, 1990.

For the third quarter of 1990, advertising revenues increased 59% to $3.4 million from $2.1 million in the same quarter of 1989. The net loss for the quarter was $3.2 million or $0.43 per share, compared to a net loss of $1.1 million or $0.17 per share in the same period of 1989. Weighted average shares in the 1990 third quarter increased 15% to 7,395,623 due to the Company's initial public offering.

For the nine months ended September 30, 1990, advertising revenues increased 272% to $13.8 million compared to $3.7 million reported for the same period of 1989. The net loss for the first nine months of 1990 was $3.6 million or $0.53 per share, compared to a net loss of $3.3 million or $0.52 per share for the same period of 1989. Weighted average shares in the first nine months of 1990 increased 5% to 6,752,338 due to the initial public offering.

As expected, while advertising revenues continued to increase during the third quarter compared to the same period of 1989, the rate of growth did not match the increase achieved in the first half of the year.

Nonetheless, the Company continued to make progress in third quarter store installations which reached 3,133 at the end of the 1990 third quarter compared to 2,662 at the end of the 1990 second quarter and 1,133 at the end of the 1989 third quarter. The Company has 6,124 stores under contract and expects to have a total of 3,600 stores installed by the end of 1990. New supermarket chains that have enrolled in the Company's program since August 1, 1990 include Kroger stores in Louisville and Indiana; Giant Eagle; Waldbaum's;

Stop & Shop; as well as Canada's largest supermarket chain, the A&P and Dominion stores.

This brings the total number of chains under contract to more than 50, further enhancing In-Store Advertising's leadership in the rapidly growing in-store electronic advertising segment.

The aggressive capital expansion program has contributed to the loss the Company incurred in the third quarter and nine months due to increases in depreciation expense, revenue sharing reimbursements, installation expense, and interest expense for financing equipment costs, all of which were not sufficiently offset by increased revenues.

In-Store Advertising, Inc. delivers advertising and promotional messages from national consumer product companies to shoppers at the point of purchase through its network of in-store electronic signs.

MOUNTAIN VIEW, CA (NOV. 9) BUSINESS WIRE - ASK Computer Systems Inc. (ASKI) reaffirmed Friday that its common stock is eligible to be margined under Federal Reserve Board rules.

On Oct. 23, ASK moved its common stock from trading on the NASDAQ National Market System to NASDAQ's regular over-the-counter market. Prior to that move, ASK had received confirmation from the Federal Reserve Board that ASK shares would continue to be marginable after becoming a NASDAQ regular OTC stock.

The announcement came as a result of a report that Prudential Bache had inadvertently indicated that the stock was not marginable.

ASK Computer Systems is a leading supplier of management information systems, relational databases and application development tools. It recently completed its tender offer for Ingres Corp. of Alameda, Calif.

ASK also completed a $60 million equity investment in the company by EDS Corp. of Dallas and Hewlett-Packard Company of Palo Alto, Calif., representing 30 percent of ASK's outstanding shares.

LOS ANGELES (NOV. 9) BUSINESS WIRE - Nov. 9, 1990, YES Clothing Co. (YSCO/NASDAQ) today announced financial results for its fiscal second quarter and six months ended September 30.

The net loss for the second quarter was $360,000, or $0.09 per share compared with net income of $576,000, or $0.18 per share for the corresponding quarter a year ago.

Weighted average shares outstanding for the 1990 second fiscal quarter were 3.82 million, or 20 percent greater than the 3.18 million in the comparable period last year. Sales for the second quarter were $7,676,000 as compared to $10,634,000 in the comparable 1989 period.

For the six months ended September 30, 1990, net income was $407,000 or $0.11 per share, compared to $1,342,000 or $0.42 per share in the same period a year ago. Sales for the 1990 six months were $17,979,000 versus $21,488,000 in the corresponding 1989 period. George Randall, chairman of the board, commented, ''Sluggish demand at retail caused our sales results in the quarter to be softer than expected. Given our ability to remain flexible, our gross margins for the six months remained stable, but were offset by an increase in planned expenses which are intended to better position the company going forward.

''During these six months we incurred costs relating to the start-up of our men's and children's lines, the opening of four new showrooms and an increased advertising program. We are encouraged by the initial results from our new lines, and the further strengthening of the YES brand name, and believe these expenses are important investments for our future growth.''

YES Clothing Co. designs, contract manufactures and distributes women's, men's and children's apparel to department and specialty stores in the United States, Canada, Europe and Japan.

#90313b0632 11/09/1990 ~Business Wire
DENVER (NOV. 9) BUSINESS WIRE - Tele-Communications Inc. Friday disclosed that the U.S. Tax Court has found in favor of TCI and its historic practice of amortizing franchise costs for tax purposes.

The decision establishes the principle that cable television franchises are amortizable under Section 1253 of the Internal Revenue Code over the remaining life of the franchise not to exceed 10 years.

Also the case establishes the valuation principle that non-deductible goodwill does not exist and should not reduce the amortizable tax basis of a cable television franchise.

Although the amount at issue in this specific case is relatively small, the principles established for TCI and others in the industry are material, the company said. TCI will, as a result, have no material change in its tax filings, historical or prospective, for systems purchased in the past.

The Internal Revenue Service is entitled to appeal the decision, but the company is unaware of its intentions to do so at this time.

Tele-Communications Inc. is traded over-the-counter with Class A common stock and Class B common stock trading separately under symbols TCOMA and TCOMB, respectively. The company's 11-1/8 percent senior subordinated debentures, 7 percent convertible subordinated debentures, and TCI Rights are traded in the over-the-counter markets, the latter two under the symbols of TCOMH and TCOMR, respectively.

LOS ANGELES (NOV. 9) BUSINESS WIRE - HSC Software Friday announced that Merisel Inc. (NASDAQ:MSEL) has exclusive national U.S. distribution rights to HSC Software's family of multimedia products starting with the workstation version and LAN version of SantaFe Media Manager, a multimedia database package that allows users to store and retrieve still images, video, audio and text.

The SantaFe Media Manager, first in a series of products to be introduced under the SantaFe Interface, uses Borland's Paradox as an underlying engine, creating a powerful multimedia database. The product can be used as a front end to all leading database products and is fully compatible with Paradox 3.5.

In addition to exclusive U.S. distribution of HSC's multimedia products, Merisel has agreed to distribute the SantaFe Media Manager and the SantaFe Media Manager LAN through its international subsidiaries.

Other international distributors of both products include: HAL Peripherals, located in the United Kingdom; Megavision in Australia; Samsung Information

Systems in Korea; Computergraphix in Switzerland and Germany; and Ross Hill International Inc. in Scandanavia.

The SantaFe Media Manager LAN version sells for $895 with each node selling for $150. The workstation version sells for $595.

Merisel, formerly Softsel/Microamerica, is one of the largest distributors of microcomputer hardware and software products to computer resellers worldwide. The company presently stocks over 7,000 products from more than 400 hardware and software manufacturers for sale to 50,000 computer resellers worldwide.

HSC Software is a privately held publisher of industry leading PC graphics software including the Graphics Link Plus+ and HSC Image Tools. Based in Santa Monica, Calif., HSC's mission is to bring the highest level of PC audio and visual information, graphics and multimedia management capabilities to the desktop.

ALAMEDA, CA (NOV. 9) BUSINESS WIRE - Aquanautics Corp. (NASDAQ:AQNT) Friday reported a net loss of $398,000, or 2 cents per share, on revenues of $399,000 for the quarter ended Sept. 30.

This compares with net income of $8,000, or 0 cents per share, on revenues of $677,000 for the like period a year ago.

''Our $2.5 million, 18-month joint development project with ZapatA Industries, which has resulted in the introduction of the SmartCap oxygen-absorbing bottle cap liner, has ended, as have several Small Business Innovative Research Grants from various military funding sources,'' said N. Ross Buckenham, president and chief executive officer.

''The quarterly loss reflects the resulting lower revenues, as well as higher development expenses associated with the brewery testing of SmartCap closures and related general and administrative costs.''

Aquanautics is a development stage separations and specialty chemical company producing new oxygen control technologies for food, medical, industrial and defense markets.

LOS ANGELES (NOV. 9) BUSINESS WIRE - HSC Software Friday announced the LAN version of its multimedia software program, the SantaFe Media Manager.

The SantaFe Media Manager LAN, the second product released under the SantaFe Interface, allows users to store and retrieve still images, video, audio and text. The product supports all major LANs, including Netware, Vines and LAN Manager and will be distributed by Merisel (NASDAQ:MSEL) in an exclusive agreement and internationally in a non-exclusive agreement.

SantaFe Media Manager LAN capabilities can be used in a variety of applications, including business presentations, education and training environments, desktop communications, presentation graphics, video and film studios, casting departments, audio applications and security environments.

The product allows users to present still image and/or video clips in a selected sequence accompanied by audio and display and/or append them on several networked terminals. Two types of nodes are available, one allowing individual users to append and view databases and another that allows viewing and playback only.

The SantaFe Media Manager's ability to store photo-realistic still images and video in industry standard files (PCX, GIF, TGA and FLI) allows users to store previous work in a powerful, organized, easily accessable way to multiple users at one time.

The ability to record, store and playback from databases that can be created or appended for sound effects, music or voice is also provided.

The product uses Borland's Paradox as an underlying engine, creating a fully relational database. The product can be used as a front end to all leading database products and is fully compatible with Paradox 3.5.

HSC Software is a privately held publisher of industry leading PC graphics software including the Graphics Link Plus+ and HSC Image Tools. Based in Santa Monica, Calif., HSC's mission is to bring the highest level of PC audio and visual information, graphics and multimedia management capabilities to the desktop.

CAMBRIDGE, MASS. (NOV. 9) BUSINESS WIRE - Lotus Development Corp. Friday announced that Carol R. Goldberg has resigned from the company's board of directors.

Goldberg, who joined the board in March 1989, said earlier this year she would resign when Lotus merged with Novell Inc. and the two companies' boards were consolidated. When the proposed merger did not occur, Goldberg agreed to continue to serve on the board to complete several projects. Those projects have been completed.

''Carol's knowledge of the retail business has been especially valuable to the board,'' said Jim Manzi, Lotus' president, chief executive officer and chairman of the board. ''We appreciate her efforts on Lotus' behalf and wish her well in future endeavors.''

Goldberg is president of The AVCAR Group Ltd., a consulting firm specializing in retailing. Until November 1989, she had been president and chief operating officer of The Stop & Shop Companies Inc. of Boston.

Goldberg continues to serve on the boards of directors of The Gillette Co. and the Putnam Fund Group, of which she is trustee/director.

Lotus' board of directors now comprises Manzi; Chester Siuda, general partner, Crown Associates; Aldo Papone, president and chief operating officer of the American Express Travel Related Services Company Inc.; and Lawrence Graev, partner in the New York law firm of O'Sullivan Graev & Karabell.

Lotus Development Corp. (NASDAQ:LOTS), founded in 1982, develops, markets and supports business software and CD-ROM databases that help users access, analyze, communicate and share information.

The company's first product, Lotus 1-2-3, is the most popular personal computer software program in the world with more than 14 million users. Lotus markets its broad range of products in more than 65 countries and offers users comprehensive support options, including 24-hour-a-day, seven-day-a-week support in the U.S. for PC versions of its 1-2-3 spreadsheet.

SAN FRANCISCO (NOV. 9) BUSINESS WIRE - Grubb & Ellis Co. (NYSE:GBE) Friday announced it has taken a series of action steps resulting in a restructuring charge of $15.3 million in the third quarter which will reduce the company's operating expenses by over $25 million in 1991.

The company reported a total net loss for the third quarter of $23,093,000, or $1.40 per share, including a $3.8 million operating loss resulting from continued revenue weakness in eastern commercial brokerage and appraisal and consulting operations and the California residential market.

Revenue for the third quarter was $81,550,000. This compares to revenue of $95,142,000 and net income of $1,569,000, or 9 cents per share, for the like period in 1989.

For the first nine months of 1990, the company posted a net loss of $27,795,000, or $1.70 per share, from revenue of $243,074,000. This compares to net income of $163,000, or 1 cent per share, from revenue of $263,857,000 for the first nine months of 1989.

The $15.3 million charge includes a charge to goodwill as well as reserves for severance and closing costs for 15 offices which will be closed or franchised. The company also said it would reduce its workforce of 5,300 by 400 employees and salespersons in various operations nationwide.

The charge also includes additional reserves for joint ventures and partnerships in the company's Texas operations.

The company said the charges and write-downs reflect its efforts to restructure the company's operations in response to a difficult real estate environment.

In another matter, the company announced that The Prudential Insurance Company of America, Grubb & Ellis' sole lender, has recently agreed to provide an additional $5 million, two-year unsecured revolving credit facility to support the company's future liquidity requirements. Final documentation for this facility is expected to be completed by year-end.

#90313b0654 11/09/1990 ~Business Wire

EINDHOVEN, NETHERLANDS (NOV. 9) BUSINESS WIRE - Philips intends to establish a new product division for its semiconductor activities, which are now part of the Components Product Division, so that it can react better to the rapid changes in this competitive market.

The new division, to be called the Semiconductors Product Division, will be established as from January 1, 1991.

H.W. Hagmeister, who is currently responsible for worldwide IC activities

within the Components Division, will be entrusted with the management of this new division. He will report to H. Bodt, who will be a member of Philips' group management committee as from December 1.

At present, the Components Product Division consists of the following business units: Integrated Circuits (ICS), Discrete Semiconductors, Display Components, Passive Components, Magnetic Products and Liquid Crystal Displays (LCDs). As from January 1, the Integrated Circuits and Discrete Semiconductors business units will form the new Semiconductors Division.

The Components Product Division will then consist of the following business units: Display Components, Passive Components, Magnetic Products and LCDs.

W. de Kleuver, chairman of the Components Division and member of Philips' group management committee, will remain responsible for this division.

The present Philips Components Division has about 75,000 employees worldwide, of which about two-thirds will work in that division. The rest will be employed in the semiconductors division. The industrial activities are already set up per business unit so that the consequences of the intended organizational change will be minimal. However, it cannot be ruled out that there may be consequences for the central support and staff departments of the division, which employ approximately 800 people in the Netherlands.

NEW YORK (NOV. 9) BUSINESS WIRE - American International Group Inc. (AIG), and Kokusai Securities, one of the largest securities firms in Japan, have announced they have successfully completed the offering of a new retail mutual fund, the High Life Fund. Forty million dollars was raised to capitalize the fund.

The High Life Fund seeks to achieve capital growth by investing in equity and equity-linked securities of companies engaged in the provision of luxury goods and services. It is expected that the bulk of the funds will be invested in European firms.

The fund manager is AIG Fund Management Ltd., in Dublin, a majority owned subsidiary of AIG. The investment advisor for the Fund is AIG Investment Corp. (AIGIC), a wholly-owned subsidiary of AIG which advises on most of AIG's invested assets outside the United States.

The subadvisors for the fund are Kokusai Investments (Luxembourg), and three

AIG affiliates: Law, Dempsey & Co. (London), Eurinvest Finance (France), and AIG Investment Corp. (Japan).

The High Life Fund was offered to retail Japanese investors through Kokusai Securities, as well as being marketed in the European Community under the UCITS Directive. This is the third mutual fund sponsored by AIG affiliates to be marketed in Japan.

AIG is the leading U.S.-based international insurance organization and the largest underwriter of commercial and industrial insurance in the United States. Its member companies write property, casualty, marine, life and financial services insurance in more than 130 countries and jurisdictions, and are also engaged in a range of other financial services businesses. American International Group Inc.'s common stock is listed on the New York Stock Exchange, as well as the stock exchanges in London, Paris, and Tokyo.

CLEVELAND (NOV. 9) BUSINESS WIRE - JRM Holdings Inc. (NASDAQ:JRMX) announced Friday that it has entered into a definitive agreement with NCO Investors, L.P. (''NCOI'') and DJS Industries Inc. (''DJS'') pursuant to which NCOI and DJS have agreed, subject to certain conditions, to assign to JRM Holdings, their rights to purchase the business and assets of the LeRoi Princeton division of Munsingwear Inc., under an agreement dated Oct. 24.

The LeRoi Princeton division of Munsingwear manufactures and markets children's hosiery, sleepwear and playwear. The division has production facilities in Princeton, Ky.

Also, NCOI and DJS have agreed to purchase approximately 33.4 percent of the outstanding common stock of JRM Holdings from three shareholders of JRM Holdings or their affiliates at approximately $2.44 per share. JRM will exchange certain of its long-term notes receivable for appoximately 18.6 percent of its outstanding common stock owned by shareholders or their affiliates.

These transactions are subject to certain conditions precedent, including obtaining sufficient financing for the acquisition. NCOI is a Delaware limited partnership formed by principals of Nagelvoort & Co. Inc., New York, N.Y., and certain investors.

CHARLESTON, S.C. (NOV. 9) BUSINESS WIRE - John M. Settle, president of Home Federal Savings Bank (NASDAQ:HFSB), Friday announced that the board of directors increased the savings bank's cash dividend by 40 percent to 7 cents per share.

The cash dividend will be payable on Jan. 2, 1991 to stockholders of record as of Dec. 10, 1990.

''The increase in our cash dividend highlights our record results for fiscal 1990,'' stated Settle. ''It follows the payment of our first cash dividend in June of this year. For fiscal 1990, we reported the highest levels of earnings, stockholders' equity, loans and deposits in our history.

''We are pleased with these excellent results and attribute them to our sound loan underwriting standards, our policy of originating adjustable-rate loans, control of general and administrative expenses, and our customer loyalty.''

Home Federal is a federally chartered and insured savings bank operating three full-service offices in Charleston.

BROOKLYN, N.Y. (NOV. 9) BUSINESS WIRE - A Brooklyn Union Gas Co. subsidiary has joined with a subsidiary of Public Service Enterprise Group Inc. in an equal partnership to build, own and operate a cogeneration plant to provide electric power and thermal energy to New York's John F. Kennedy International Airport.

Public Service Enterprise Group is the parent company of Public Service Electric and Gas of New Jersey.

The partnership formed to develop the airport facility is known as KIAC (Kennedy International Airport Cogeneration Partners). It will operate and maintain the plant for an initial period of up to 25 years, providing electricity for the entire airport and heating and cooling for the central terminal area. KIAC will also upgrade and operate the airport's existing heating-and-cooling distribution system.

The new facility, part of the multibillion-dollar JFK redevelopment program being planned by the Port Authority of New York and New Jersey, will efficiently produce electricity and thermal energy for heating and cooling

from the same fuel source. Since its primary fuel will be natural gas, the plant will be environmentally clean and will displace an estimated one million barrels of imported oil annually.

The Kennedy plant is the third major cogeneration project in which Brooklyn Union affiliates have been involved. Gas Energy Cogeneration Inc. is the largest equity owner in a 50-megawatt plant, now in its second successful year of operations, that supplies heat and power to Long Island's Grumman Corp., as well as excess power to the Long Island Lighting Co.

Other Brooklyn Union affiliates provide fuel-management services to the Grumman facility and another 50-megawatt cogeneration plant now under construction in Uniondale, Long Island, which will supply power to LILCO, and heat and cool Nassau Veterans Memorial Coliseum, Nassau Community College and other locations.

DAYTON, OH (NOV. 9) BUSINESS WIRE - Automated Teller Machines are going on the road with the First Citizens Bank and Trust Co. in South Carolina. Equipped with an NCR 5084 through-the-wall cash dispenser terminal, the blue Mobile ATM truck travels throughout South Carolina and provides quick and convenient access to cash.

"We are taking banking to the people through this ATM on wheels," said R.W. Braswell, CEO and executive vice president, First Citizens Bank and Trust Co. The First Citizens Bank ATM was first used on Sept. 14, at the Anderson County Fair in South Carolina where "the acceptance and exposure to the Mobile ATM was great," according to Braswell.

The Mobile ATM will now travel to the South Carolina State Fair, as well as horse races, auctions and football games, including the South Carolina/Clemson and Florida State games.

The Mobile ATM is housed in the two-ton truck with a step-up platform for easy access, and a canopy for weather protection. The unit is equipped with dial-up telephone services and a satellite service enabling the Mobile ATM to operate anywhere in the state.

The Mobile ATM has Federal Deposit Insurance Corp. (FDIC), state approval and operates as a branch of First Citizens Bank. In each location, the Mobile ATM is staffed by a delegate from the local office of First Citizens Bank.

"The NCR 5084 through-the-wall cash dispensing unit used on the Mobile ATM is

ideal for this environment because of its small footprint, durability, and high level of security," said Raymond Miolla, vice president of NCR's Financial Systems Divison. The NCR 5084 is also equipped with a receipt and journal printer, along with a card reader. For security, it has a UL-291/TL-15 security enclosure.

First Citizens Bank and Trust Company of South Carolina provides a broad range of services throughout its 89 offices in 51 communities. First Citizens Bank and Trust Co. is a subsidiary of First Citizens Bankcorporation of South Carolina Inc., a one-bank holding company headquartered in Columbia, S.C., with assets of $1.3 billion as of June 30, 1990.

NCR is the worldwide leader in ATM installations. NCR, based in Dayton, develops, manufactures, markets, installs and services business information processing systems for worldwide markets.

CORAL GABLES, FL (NOV. 9) BUSINESS WIRE - Cruise America, the largest company in North America principally involved in the sale and rental of recreational vehicles, has initiated a program that could potentially refund up to $2 million in gasoline costs to customers.

The offer, which includes refunds of up to $1,500 in gasoline costs per vehicle, is good on any of over 1,500 Cruise America or Cruise Canada late model motorhomes, purchased at retail from any of Cruise America's 25 sales centers throughout the United States and Canada. The offer expires Dec. 31.

"The concept is simple," says Robert Smalley Jr., vice president. "Retail purchasers need to save their gasoline charge and cash receipts as proofs of purchase, and return them to Cruise America, along with a short transmittal form when they've reached the $1,500 mark." "At that point Cruise America will send out a refund check for up to that amount," he adds.

"To further simplify things," says Austin Ross, national director of sales, "we've developed a special form with a pouch to store gasoline credit card and cash receipts."

"In light of rising gasoline prices, we feel this promotion will be very well received."

DECATUR, AL (NOV. 9) BUSINESS WIRE - William D. Powell, president and chief executive officer of First Federal Savings Bank (NASDAQ/NMS: FFSD), Decatur, Friday announced that First Federal's board of directors has declared a quarterly cash dividend of 15 cents per share on the savings bank's common stock. The cash dividend will be payable on Dec. 14, 1990, to stockholders of record as of Nov. 30, 1990.

"Last quarter, our Board of Directors authorized a 50 percent increase in our cash dividend to 15 cents per share in recognition of our excellent financial performance in fiscal year 1990," stated Powell. "We believe the continued improvement in our earnings at year-end underscore the strength and stability of First Federal."

#90313b0726 11/09/1990 ~Business Wire
CHICAGO (NOV. 9) BUSINESS WIRE - The top managers of two of the world's largest communications companies, Chicago-based Ameritech and Paris-based France Telecom, today electronically ''signed'' documents and closed a deal committing their companies to work together to bring customers the full benefits of new communications technologies and services.

In what could become a common form of business meeting in the next decade, Ameritech Chairman and CEO William L. Weiss and France Telecom General Director Marcel Roulet met and discussed, reviewed, exchanged and signed documents. But they encountered no airport delays. There was no mind-fogging and energy-sapping jet lag and they returned to their daily business routines minutes after the meeting was completed.

Also missing was a congratulatory handshake. The reason: the two executives were 4,100 miles and seven time zones apart.

Ameritech and France Telecom are world leaders in the application of ISDN technology to solving communications needs. Illinois Bell, an Ameritech unit, pioneered the U.S. application of ISDN in 1986 at the world headquarters of McDonald's Corporation and was the first U.S. telephone company to make ISDN service widely available. France Telecom, the national telephone company of France, has deployed ISDN capability countrywide. The company anticipates

offering the service to as many as 100,000 customers in 1992 and aggressively is pursuing international ISDN connectivity.

Chicago-based Ameritech is the parent of the Bell companies serving Illinois, Indiana, Michigan, Ohio and Wisconsin, and of several other companies providing mobile communications, directory publishing, lease financing and audiotex services. Ameritech had 1989 revenues of more than $10 billion.

With annual revenues exceeding $16 billion, France Telecom provides advanced telecommunications services within France and from France to the rest of the world. The organization has 158,000 employees worldwide, with overseas offices in New York, San Francisco, Chicago, Tokyo, Caracas, Djkarta, Singapore, Beijin, London, Brussels, Bonn and soon in Moscow.

ST. LOUIS (NOV. 9) BUSINESS WIRE - Late Thursday the Texas Public Utility Commission received a recommendation from two administrative law judges to reject an agreement that would have resolved an investigation into Southwestern Bell Telephone Co.'s earnings.

The law judges said, instead, that the case should go to full hearings because said a PUC release announcing the recommendation, ''Southwestern Bell has failed to present evidence...that the revenue reduction that would be produced by the settlement would be reasonable.''

The release also said the PUC will consider the recommendation at an open meeting scheduled on Nov. 28, at which time it could either adopt the recommendation, approve the settlement and enter a final order, or modify the settlement if the signing parties agree to the changes.

Thursday's announcement follows months of public hearings on Southwestern Bell Telephone's Texas First plan and an agreement that was reached in February between the company and more than 30 interested parties, including the PUC staff.

Texas First calls for customer benefits totaling $1.2 billion over four years, including modernization of 196 central offices, a freeze on basic rates for the next four years and various reductions in rates. It also would provide rate flexibility and changes in how much Southwestern Bell Telephone can earn in Texas.

NEW YORK (NOV. 9) BUSINESS WIRE - American International Petroleum Corp. (NASDAQ:AIPN) announced Friday that it has begun the first shipments of crude oil produced from its Toqui-Toqui oil field in Colombia.

The field started regular production in September 1990 and shipment of the accumulated inventory of approximately 25,000 barrels has begun on Nov. 1, 1990, at the rate of 800 barrels per day to the Baracabermeja Refinery owned by Ecopetrol, the Colombian National Oil Co.

The sales contract with Ecopetrol provides for the purchase of all crude oil produced from the field. The price of crude at any given month is based on the average spot prices of a basket of world market crudes sold during the previous month. The company's share (net after royalties) of the crude oil inventory of about 13,000 barrels is currently being sold for $31/barrel.

American International Petroleum Corp. is engaged in refining, oil and natural gas exploration, production and transportation and marketing activities in Louisiana and Kentucky as well as Colombia, South America.

#90313b0750 11/09/1990 ~Business Wire
ASHLAND, KY (NOV. 9) BUSINESS WIRE - Addington Resources Inc. (NASDAQ/NMS:ADDR) Friday reported higher coal sales for the third quarter but lower overall revenues and net income.

Net coal sales for the Ashland-based coal producer and marketer increased 9 percent to $66.5 million for the three months ended Sept. 30, 1990, compared with $61.1 million for the same period in 1989. The company sold approximately 2 million tons of coal during the quarter, up from 1.86 million tons the prior period.

Net income for the quarter was $2.2 million, or 15 cents per share, compared with $2.8 million, or 23 cents per share, for the comparable quarter of 1989. Average shares outstanding in 1990 and 1989 were 15.2 million and 12.3 million shares, respectively. Revenues declined to $67.3 million during the third quarter from $72.6 million in 1989.

President Larry Addington said two subsidiaries shared primary responsibility for declines in third quarter overall revenue and net income.

The company's gold mining subsidiary was sold in January 1990 and did not contribute to revenues and net income during the third quarter of 1990. Mr. Addington said company revenues and net income during the quarter would have remained flat if that subsidiary's results were excluded from prior year figures for comparative purposes.

Addington Resources mines and markets coal and is engaged in developing and operating integrated solid waste disposal systems. Its stock is traded on the NASDAQ National Market System under the symbol ADDR.

LOUISVILLE, KY (NOV. 9) BUSINESS WIRE - SKOLNIKS Inc. (NASDAQ:SKNS, Warrants:SKNWS) Friday reported earnings results for the fiscal year and fourth quarter ended July 28, 1990.

Revenues for fiscal 1990 increased 37 percent to $13,980,256, compared to $10,179,526 last year. System-wide sales were up 51 percent at $15,658,828 vs. $10,332,049. Net income for the year tripled to $242,802, or 11 cents per share, compared to a loss of $142,023, or (6 cents) per share for fiscal 1989.

Fourth quarter sales increased 7.5 percent to $2,546,160 from $2,369,919, while net income for the quarter improved to ($196,300) or (9 cents) per share compared with ($248,741), or (11 cents) per share last year.

SKOLNIKS chairman Joe R. Love said the company was profitable for the year despite taking some write-offs in the fourth quarter. ''We are anticipating another profitable year as we continue our expansion program in 1991. Our concept is gaining acceptance across the country as we take bagels into the mainstream of American society.''

SKOLNIKS operates and franchises 45 bakery/restaurants under the name ''SKOLNIKS BAGEL BAKERY RESTAURANTS'' in Ohio, Pennsylvania, Illinois, New Jersey, Wisconsin, Maryland, Virginia, Kentucky, Iowa, Colorado and Tennessee.

INDIANAPOLIS (NOV. 9) BUSINESS WIRE - MSA Realty Corp. announced Friday the completion and funding of first mortgage loans totaling $195,000,000 for 14 of its 15 community shopping centers.

Metropolitan Life Insurance Co. provided the funds for these 10-year fixed rate mortgages.

The shopping centers receiving the financing include: in Illionis, Bloomingdale Court, Bloomingdale; Buffalo Grove Towne Center, Buffalo Grove; Forest Plaza, Rockford; Fox River Plaza, Elgin; Lake Plaza, Waukegan; Lake View Plaza, Orland Park; Lincoln Crossing, O'Fallon; Matteson Plaza, Matteson;

North Ridge Plaza, Joliet; and White Oaks Plaza, Springfield. Other centers include: Northland Plaza, Columbus, Ohio; Regency Plaza, St. Charles, Mo.; St. Charles Towne Plaza, Waldorf, Md.; and Westridge Plaza, Topeka, Kan.

This financing package is one of the largest ever assembled by the Midwest Territory of Metropolitan Life Insurance Co.

Jay Rosenfeld, president of MSA Realty Corp., said the completion of this fixed rate financing eliminates the potential future risk of rising interest rates and will help to stabilize the company's participation in the cash flow of these 14 centers.

The refinancing of the balance of the company's portfolio is proceeding, with completion estimated before the end of the year.

MSA Realty Corp.'s shares are traded on the American Stock Exchange under the symbol SSS.

SAN FRANCISCO (NOV. 9) BUSINESS WIRE - Pacific Bell announced Friday plans for a package of custom-calling services that can turn a home or business phone into a ''personal secretary,'' showing you who's calling, automatically redialing busy numbers and preventing unwanted calls.

''We plan to introduce seven services next year that will provide considerably greater convenience, control and security in the way customers use the telephone,'' said Ethan Thorman, Pacific Bell product manager for COMMSTARsm services.

''For example, you will be able to see the number of a caller before answering call the last person who tried to call you, and have the phone system automatically redial a busy number and connect you when the line is clear.''

''We're excited about the potential of these services because they make it easier for customers to perform a wide variety of tasks,'' said Bob Lee, Pacific Bell executive vice president for marketing. ''Even better, the benefits aren't limited to any specific segment of customers, but will have value for virtually everyone.''

Pacific Bell is a subsidiary of Pacific Telesis Group, a diversified worldwide telecommunications corporation based in San Francisco.

OAKLAND, NJ (NOV. 9) BUSINESS WIRE - Russ Berrie and Co. Inc. (NYSE:RUS), Friday announced net sales for the three months ended Sept. 30, 1990, totalled $79,141,000 compared to $77,361,000 for the same period in 1989, an increase of 2 percent.

The company reported net income for the quarter of $12,466,000 or 83 cents per share compared to net income of $11,960,000 or 79 cents per share for the third quarter of 1989, an increase of 4 percent.

For the nine months ended Sept. 30, 1990, net sales totalled $186,211,000 compared to $189,752,000 for the nine months ended Sept. 30, 1989. Net income for the first nine months was $14,261,000 or 95 cents per share, vs. net income of $6,804,000 or 45 cents per share in 1989. Last year's results included a restructuring charge of $9.5 million before taxes (6.2 million after taxes or 41 cents per share).

Russell Berrie, chairman of the board, stated that ''these results are encouraging despite the soft retail market.''

Russ Berrie and Co., Inc. designs and markets an extensive variety of everyday and seasonal impulse gifts to retail stores. Products include stuffed animals ceramic mugs, porcelain gifts, picture frames, greeting cards, figurines, keyrings, magnets, stationery, National Football League and Major League Baseball merchandise and collectible dolls. The company has a direct salesforce of more than 750 men and women. World-wide distribution centers throughout the United States, Canada and England provide strategically located regional facilities to serve customers.

PURCHASE, NY (NOV. 9) BUSINESS WIRE - IBM United States Friday announced the appointment of IBM Vice President Robert J. Corrigan as president of the IBM Entry Systems Division (ESD).

Corrigan was president of the IBM Systems Technology Division, Technology Products line of business. In his new position, he will report to James A. Cannavino, IBM vice president and general manager, Personal Systems line of business. Until today's announcement, Cannavino was president of ESD.

In a related announcement, IBM Vice President Lutz F. Hahne was named president of the IBM Systems Technology Division, succeeding Corrigan. Hahne was assistant general manager, financial analysis, IBM United States. He will report to Paul R. Low, IBM vice president and general manager, Technology

Products line of business. Both appointments are effective immediately.

Corrigan joined IBM in 1962 as an engineer in East Fishkill, N.Y. and held a variety of technical and management posts. In 1978 he joined the IBM Eurocoordination staff in Paris, returning to the U.S. in 1981 as manager of manufacturing planning, General Technology Division (GTD).

In 1982 he was named director of manufacturing planning, GTD, and later joined the IBM Endicott staff as manager of site support. In 1983 he was named STD director of manufacturing, director of development in 1984 and STD vice president of development in 1985. He assumed the position of STD vice president and site general manager, Endicott, the same year. He was named president of STD in 1988 and elected an IBM vice president in 1989.

Corrigan holds a bachelor of science degree in electrical engineering from Manhattan College, Riverdale, N.Y. and a master of science degree in industrial administration from Union College, Schenectady, N.Y.

Hahne joined IBM in 1967 in a field engineering management development program. He subsequently held a number of field management jobs, including branch manager in Chicago and later assistant to the president of the Field Engineering Division. In 1974, Hahne joined the Data Processing Product Group as a financial analyst and later became a manager of business evaluation.

In 1977, Hahne went on an international assignment to IBM Europe as director of financial analysis and director of financial planning. After an assignment in corporate budgets he became director of financial planning, and later director of financial analysis, in the Information Systems and Communications Group.

He returned to Paris as controller of IBM Europe and later became IBM Europe assistant general manager for IBM United Kingdom and IBM France. In 1985, he was named vice president of display products, Communication Products Division (CPD). In 1986 he was named vice president of hardware development, CPD, and in 1987 assistant group executive of plans and controls, Information Systems and Storage Group.

Hahne is a graduate of the University of Toledo where he studied physics under a NASA Fellowship. He also holds a master of business administration degree from the University of Chicago.

BOSTON (NOV. 9) BUSINESS WIRE - AT&T Friday announced that it has been chosen

by John Hancock Financial Services for a $30 million, three-year contract to provide voice and data communications services to 660 John Hancock locations around the country. The custom network will encompass inbound and outbound voice and data communications services.

"The contract with AT&T will help to stabilize and lower our communications costs over the next three years," said Stephen F. Kelly, Hancock's director of telecommunications. "That, in addition to the high quality and service associated with AT&T, should benefit our staff as well as our customers throughout the country."

John Hancock Financial Services, founded in 1862 and headquartered in Boston, is a major diversified organization. John Hancock Financial Services includes John Hancock Mutual Life Insurance Co., the ninth largest U.S. life insurer, and 21 subsidiaries involved in a broad range of financial services, including mutual funds, securities brokerage, consumer banking, real estate and venture capital.

NEW YORK (NOV. 9) BUSINESS WIRE - The new KLM ''Europe by Design'' leisure travel program for winter offers skiers and non-skiers alike the opportunity to enjoy several of Europe's most famous ski resorts -- at affordable prices, plus a special $50 discount if you book by Nov. 30.

Travel is valid now through March 31, 1991.

Discounted seven-night ski vacations are available to Chamonix, France; Interlaken, Switzerland and Kitzbuhel or Innsbruck, Austria. Seven nights in Chamonix or Kitzbuhel begin at $749 per person (New York or Baltimore/Washington departures), Interlaken begins at $729, Innsbruck begins at $679.

Departures are available from all other KLM gateways including: Chicago (add $50), Atlanta (add $90), Houston (add $120), Orlando (add $100), Los Angeles (add $180) and Anchorage (add $230).

Prices include roundtrip transatlantic and intra-European air transportation; choice of top value, first-class or deluxe accommodations; hotel service charges and taxes; buffet breakfast or breakfast and dinner, at selected hotels, for length of stay. Visits to any of 10 European cities for three days or more each can be added to the ski vacations at equally affordable prices.

An illustrated, 112-page magazine called the ''Europe by Design'' Vacation Planner includes information on ski trips and other vacations. To book your ski vacation or obtain a free copy of the Vacation Planner, call 1-800-777-1668 or visit your travel agent.

DAYTON, OH (NOV. 9) BUSINESS WIRE - DPL Chairman and Chief Executive Officer, Peter H. Forster, announced that the board of directors elected Jeanne S. Holihan as treasurer of The Dayton Power and Light Co., effective immediately.

Forster said, ''Mrs. Holihan's contributions and experience in the financial areas of the company have significantly impacted the financial performance of the company and has paved the way for this promotion.''

In her new position, Holihan will be responsible for the treasury functions of the company which include financial planning, investor relations, energy forecasting and financial reporting. In addition, she will continue to oversee the company's insurance program including the operations of Miami Valley Insurance Co., a wholly-owned subsidiary of DPL Inc.

Prior to this election to treasurer, Holihan has held numerous positions in the financial areas of the company including her most recent assignment as director of financial planning and administration.

Holihan, age 34, joined DP&L in 1981 as a financial analyst. She received a B.S. in Business Administration from Tusculum College in 1978 and an M.B.A. in Finance from the University of Connecticut in 1980. She is an active member of the local and National Investor Relations Institute.

She and her husband, Leo, reside in Vandalia with their two children, Paul and Amy.

NEW YORK (NOV. 9) BUSINESS WIRE - Grey Advertising Inc. (OTC) Friday reported third quarter gross billings of $771,406,000 compared with $647,971,000 for the same period in 1989, representing a 19 percent increase.

Income from commissions and fees also increased 19 percent, from $97,147,000 to $115,653,000. Third quarter net income rose by 10 percent to $2,648,000 compared with $2,406,000.

Primary earnings per common share were $1.95 vs. $1.95, for the same period in 1989. The earnings per common share did not increase primarily due to a one-time capital account adjustment affecting Grey's preferred stock.

On a fully diluted basis, third quarter earnings per common share were $1.90, same as last year.

For the first nine months of 1990, gross billings rose by 13 percent to $2,251,092,000 from $1,987,080,000 for the same period in 1989. Income from commissions and fees increased by a like percentage to $337,495,000 from $297,913,000; net income was $10,616,000 vs. $9,853,000, up eight percent.

Primary earnings per common share for the nine months of 1990 was $7.99 compared with $7.45 for an increase of seven percent. Earnings per common share, on a fully diluted basis, was up eight percent to $7.74 from $7.18 in 1989.

LONDON (NOV. 9) BUSINESS WIRE - British Gas International Finance BV, an indirect wholly owned subsidiary of British Gas plc (NYSE:BRG), has Friday increased the Euroyen issue originally launched on November 1, 1990 by Yen 5 billion to Euroyen 25 billion Bonds due 1992 under the lead management of Daiwa Europe Limited.

The Bonds will be guaranteed By British Gas plc and will carry on an 8 percent coupon.

The Bonds have a final maturity of November 26, 1992 and this second tranche of Yen 5 billion has been issued at a price of 101.275 percent.

British Gas, headquartered in London, is the largest integrated gas company in the Western world and is primarily involved in the purchase, transmission, and sale of natural gas to domestic, industrial and commercial customers in Great Britain. Important support activities to its marketing efforts include appliance trading and customer service to domestic gas customers.

British Gas is also active in the exploration for and production of hydrocarbons both offshore and onshore. Expertise developed in the gas

business is offered for sale overseas through the British Gas International Consultancy Service. American Depositary Receipts are traded on the New York Stock Exchange. One ADR is equivalent to ten ordinary shares.

#90313b0795 11/09/1990 ~Business Wire

ABITA SPRINGS, LA (NOV. 9) BUSINESS WIRE - Sales for the quarter ended Sept. 30. 1990, were 17.6 percent higher than the comparable quarter of the previous year.

The sales increase is attributable, in part, to the acquisition of the company's manufacturing subsidiary, Walnut Pharmaceuticals Inc. (''Walnut'') effective Sept. 1, 1989. The results of Walnut's operations are not included in consolidated operating results for periods prior to the acquisition date.

Sales also increased substantially in the company's base business sectors. In addition, sales related to the asset purchase of Optometric Pharmaceuticals Inc. (''Opto-Pharm'') were included since the acquisition date of July 1, 1990, but did not have a significant impact on consolidated net sales.

Net income declined 27.7 percent in the quarter ended Sept. 30, 1990, compared to the same period in 1989 primarily due to a decline in interest income of $71,000, as available funds in fiscal 1990 were used to purchase treasury stock and property, plant and equipment, and to pay out short-term debt associated with the Walnut acqusition.

Also, sales growth attributable to the Walnut and Opto-Pharm acquisitions did not fully offset the additional acquisition and operating costs incurred in the quarter ended Sept. 30, 1990.

At a board of director's meeting held on Oct. 27, 1990, the company declared a dividend of $.017 cents per share payable on Dec. 3, 1990 to its shareholders of record as of Nov. 22, 1990.

OPELIKA, ALA. (NOV. 9) BUSINESS WIRE - James B. Hurst, president and chief executive officer of Eagle Bank, announced Friday that the Superintendent of Banks for the State of Alabama has awarded to Eagle Bank of Alabama the first ever state banking charter to a former federal savings bank.

Eagle proudly accepted the new charter effective Oct. 30.

Eagle's plan of conversion was initially approved in May of 1990 by way of a new law passed in this year's regular session of the Alabama Legislature. John Adams, legislative consultant in Montgomery, Ala., who was instrumental in passage of the new law, stated ''it is encouraging to see a hometown bank better serve its citizens because of this new idea.

''Very few institutions in the entire nation have the foresight to work with the legislative process in the manner that Eagle Bank has. Eagle's employees, board of directors, shareholders and customers have to be very pleased with the new services which can now be offered in the traditional bank areas.''

According to Hurst, ''The board of directors requested the change in the charter in order to more effectively serve the very prosperous East Alabama area. Eagle can operate more efficiently and profitably under the supervision of a state banking regulator and Eagle can now serve an expanded base of accounts including commercial and institutional, as well as individual customers.''

All of Eagle Bank's executive officers are former commercial bankers in the Auburn-Opelika area and believe that their experience will better serve their customers under the new plan.

Herbert J. Lorch, founder of Lorch Diamond Centers and Eagle board chairman, responded, ''the value of Eagle to the community is greatly enhanced by the change in the charter of this progressive company. The small hometown bank is still a great asset to any community and we will now offer more services under the new charter.

#90313b0800 11/09/1990 ~Business Wire

ST. CHARLES, MD (NOV. 9) BUSINESS WIRE - Interstate General Company L.P. (ASE:IGC) Friday reported revenues for the three months ended September 30, 1990, of $14,651,000 and a net income of $83,000, equal to $.01 per unit.

This compares to revenues of $13,903,000 and net income of $2,578,000, equal to $.26 per unit, for the like period in 1989.

The company's revenues for the 1990 nine months were $51,992,000, compared to $42,471,000 for the corresponding period in 1989, and net income was $6,212,000, or $.61 per unit, compared to $9,357,000, equal to $.94 per unit, for the 1989 nine months.

James J. Wilson, President and Chief Executive Officer of IGC, said the increase in revenues resulted from the addition over the past 12 months of American Family Homes and the real estate income generated by the lease of the El Comandante Race Track in Puerto Rico. Net income, however, was adversely affected, he said, by significantly lower lot and home sales, as well as reduced profit margins for the company's operations in the sluggish metropolitan Washington, D.C. market.

In addition, earnings were reduced by sharply higher depreciation/amortization and interest expenses relating to the acquisitions.

Wilson reiterated that these acquisitions position IGC for long term earnings, and once again pointed out that the company's operating results should be evaluated over an extended period of time, not on a quarterly basis, due to the cyclical nature of its business.

While a weak residential market and a difficult economic and financial environment restrained company operating results in the 1990 periods, the impact was lessened by the company's diversification, Wilson commented.

As expected through previous announcement, the Board of Directors of IGC's managing general partner has voted to make no cash distribution to unitholders for the three months ended September 30, 1990. IGC has already distributed $.40 per unit in 1990. The company expects this to be in excess of the amount required to meet its partnership obligation to distribute 55 percent of annual taxable income.

Founded in 1957, IGC is a diversified real estate organization specializing in community development, homebuilding, investment properties and management services. Listed on the American and Pacific stock exchanges, the company is a master limited partnership that first issued units to the public in February 1987.

CAMBRIDGE, MA (NOV. 9) BUSINESS WIRE - American Science and Engineering Inc. announced a net loss of $158,000 or $0.04 per share for the second quarter of fiscal 1991 which ended Sept. 26, 1990, compared to a net profit of $64,000 or $0.02 per share for the second quarter last year.

Sales for the quarter were $3,613,000 compared to sales of $5,366,000 for the correspondindg period last year. Negotiated backlog was $6,700,000 at the end of the quarter. Notwithstanding the reduced sales in all segments during the quarter, gross margins have improved substantially over the previous quarter due to reductions in costs and streamlining of manufacturing procedures. Sales and gross margins are expected to improve during the next quarter.

The net loss for the six months ended Sept. 26, 1990 was $226,000 or $0.06 per share compared to a loss of $153,000 or $0.04 per share for the corresponding period last year. Sales for the first six months of fiscal 1991 were $7,411,000 including net sales and license fee of $825,000 from Toshiba Corp. compared to sales of $9,458,000 for the corresponding period last year.

#90313b0838 11/09/1990 ~Business Wire

MEDFORD, MA (NOV. 9) BUSINESS WIRE - Thomas F. O'Connor, president and chief executive officer of Regional Bancorp Inc., announced Friday that Regional's wholly-owned subsidiary, Medford Savings Bank, will be selling a major portion of its holding of equity securities by the end of 1990.

Regional expects to incur pre-tax losses of approximately $3.5 million in connection with such sales. Cash proceeds from these sales will be invested in higher yielding assets. The losses incurred from these sales will be partially offset by tax benefits of approximately $1.3 million derived from available capital loss carrybacks.

If these losses are not taken, this tax benefit will expire on Dec. 31, 1990 and Regional's capital position and book value would be adversely affected. As a result of these non-recurring stock losses, Regional expects to report losses in the fourth quarter of 1990, and for the year ended Dec. 31, 1990.

These sales will not further affect Regional's capital position or book value as the unrealized loss on marketable equity securities has been consistently reported as a reduction in capital in prior quarters.

Regional Bancorp Inc. is the holding company for Medford Savings Bank, which services Eastern Massachusetts from eight banking offices in Medford, Arlington and Belmont.

#90313b0840 11/09/1990 ~Business Wire
NEW YORK (NOV. 9) BUSINESS WIRE - Bernard Chaus Inc. (NYSE:CHS), Friday reported results for its first fiscal quarter ended Sept. 30.

Benard Chaus, chairman and chief executive officer stated, ''For the first fiscal quarter ended September 30, 1990 the Company reported a profit of $0.02 per share compared with a profit of $0.16 per share for the same quarter last year.

''Net sales for the current quarter decreased 20 percent from the comparable period last year. The sales decrease was, in part, a result of our strategy to produce less merchandise in order to minimize excess inventories and maximize gross profit.

''We believe that our strategy to sell more merchandise at regular price points can be accomplished only by controlling the distribution of our product.''

''During the first quarter we reduced our inventories and as a result, built strong cash balances when compared with the same quarter last year. In view of our bookings and improved holiday retail performances, we believe the company will have a profitable performance for fiscal year 1991.''

Bernard Chaus Inc. is one of the largest producers of updated, moderately priced women's sportswear, sold in major department and specialty stores throughout the United States. Its common stock is listed on the New York Stock Exchange under the symbol CHS.

LONG ISLAND CITY, N.Y. (NOV. 9) BUSINESS WIRE - Yves F.M. Hentic, president of Deals Are American Inc., a public Nevada corporation and Ralph Woythaler, chairman and CEO of American Visual Appliances Inc. (''American Visual''), a private New York corporation, jointly announced Friday their intention to merge the two corporations, subject to stockholder approval.

American Visual operates through two wholly owned subsidiaries: Eye Glasses Inc. (''Eye-Glasses'') and Optical Technologies Corp. (''Technologies''). Eye-Glasses is a 23-year-old opthalmic laboratory providing custom

prescription lenses to the optical profession, serving over 1,000 independent practitioners and retail optical chains. Eye-Glasses recently signed an exclusive contract to create a nationwide prescription sunglasses program for Carrera brand eyewear.

Technologies specializes in surface coatings of glass and plastics. Its latest proprietary technology which has emerged from R&D will permit the recycling and remanufacturing of laser printer cartridges. Technologies also produces scratch resistant coatings with high impact strength retention for use on plastic parts for farm and mining equipment. Technologies supplies similar coatings for marine instruments, depth finders and fish finders. In the sports field, Technologies applies anti-scratch and permanent anti-fog coatings on hockey face shields and ski masks. Technologies also coats jet fighter pilot visors and laser protective eye and face devices for the military.

Speaking for Deals Are American, Hentic stated that the merger will benefit stockholders by increasing the company's asset base and broadening stockholder awareness of the company.

Deals Are American will hold its special stockholder meeting at 210 East 68th St., Suite 17C, New York, N.Y., 10021 at 10 a.m. on Monday, Nov. 19.

#90313b0853 11/09/1990 ~Business Wire

ROCKVILLE, MD (NOV. 9) BUSINESS WIRE - The board of directors of Scandinavian PC Systems Inc. announced Friday that Mark W. McBride has been named president of the software company.

McBride, 36, had been marketing manager of the firm. He succeeds Steven Frankel, who no longer is affiliated with the company.

Scandinavian PC Systems Inc. is the publisher of ''John C. Dvorak's PC Crash Course and Survival Guide,'' one of the best-selling beginners' guides to computing in the United States this year, and ''Corporate Voice,'' the world's first writing style replicator.

A former journalist and financial analyst, McBride said he was extremely happy with the news.

''This is a great company with some excellent products and an unlimited

potential. I have never been more enthusiastic and more positive about anything in my life as I am in the future of this company and its products,'' McBride said. ''We've got an experienced, enthusiastic, supportive staff, and the best is yet to come.

''I know of only one other software product that has received more positive press attention this year than 'Dvorak's Crash Course' and 'Corporate Voice.' That says a lot about the quality of our products and the unsatiated marketplace needs they fulfill,'' he added.

''Young companies don't have big marketing budgets available at their disposal. They must wisely use the resources available to them for the greatest possible success. And, during their infancy, they must be supported by those who are stronger than they are -- those who believe in them as much as they believe in themselves.

''We have received this support, not only from our distributors and resellers, but most of all, our customers and the press, and for that I am most grateful.

''In addition, we are successful in the marketplace because we are able to effectively employ guerilla warfare tactics in a business situation,'' added the Vietnam-era veteran.

''Some of this country's greatest business leaders and entrepreneurs started out and continue to be guerilla fighters -- people like H. Ross Perot, Al Neuharth, Warren Buffett, Ted Turner, Sam Walton and Rupert Murdoch -- visionaries with the courage to believe and the strength of conviction to follow through on those beliefs.

''We at Scandinavian PC Systems need to fine tune some things in our methods, but to our competition, I can only say 'Watch out!' for more of the same.''

SCHEDULE 13D

SEC - AMENDMENT NUMBER: 3

G.F. LACEY OWNS 1,259,738 SHARES (16.03%) OF NYCAL CORP (TICKER: NYCL) OF WASHINGTON, D.C.

ANNOUNCEMENT:

The AHL Group agreed with Nycal Corp. to cancel unpaid interest of over $1,365,000 accrued on the Cook Note through Jan. 1, 1990, and exchanged the principal portion of the Cook Note for 829,347 shares on April 21, 1990. AHL received these shares on behalf of the AHL Group and immediately assigned them

to their respective beneficial owners. AHL received 143,749 shares on its own behalf in exchange for its interest in the Cook Note and as a result held 1,344,711 shares, representing 29.53 percent of the outstanding shares, on April 21, 1990. Mr. Lacey disclaims having beneficially owned 685,598 shares acquired throught he exchange of the Cook Note. Mr. Lacey beneficially owned 659,113 shares, or 14.47 percent, on Ap[ril 21, 1990 and, of those shares, 155,000 represented options to purchase shares. An option, granted AHL by Nycal Corp.'s board on May 7, 1990, to acquire 250,000 shares at a price of $2.75 per share and exercisable at any time after issuance until May 6, 1995, increased Mr. Lacey's beneficial ownership of shares to 909,113, or 18.80 percent; 405,000 shares represented options to purchase shares. On June 30, 1990, AHL exercised AHL options coveriong 80,000 shares which transaction had no effect on Mr. Lacey's beneficial ownership of shares. On July 27, 1990, the Nycal Corp. and Mr. Lacey entered into an exchange agreement under which the Nycal Corp., on August 31, 1990, acquired 550,000 shares of common stock of Shephard held by Mr. Lacey in exchange for the issuance of 350,625 shares to Mr. Lacey. This transaction increased Lacey's beneficial ownership to 1,259,738, or 16.03 percent, including options to purchase 325,000 shares.

STAMFORD (NOV. 9) COMTEX - A Oct. 29 story concerning Phoenix Technologies Inc., which is a private company and is based in Valley Forge, was incorrectly routed as though it concerned Phoenix Technologies Ltd. (NASDAQ: PTEC) of Norwood. We regret any confusion the error may have caused. The clarified headline and original press release follow:

TRW TO SELL CUSTOMER SERVICE DIVISION TO PHOENIX TECHNOLOGIES INC.

CLEVELAND (OCT. 29) BUSINESS WIRE - Phoenix Technologies Inc. and TRW Inc. have signed an agreement for Phoenix Technologies to acquire TRW's Customer Service Division.

The sale is expected to close Nov. 30, pending regulatory approval.

The customer service division of TRW (CSD) provides nationwide on-site maintenance and repair of computer systems and peripheral equipment with a particular emphasis on microelectronics. It also provides computer facility management and training. It currently employs 1,250 people in offices across the United States. Phoenix Technologies intends to retain the management and employees of CSD. Sales in 1989 totaled about $120 million.

Phoenix Technologies (PTI) consists of three integrated companies providing custom electronic product manufacturing and distribution services, repair and refurbishment services, site planning and installation services, as well as nationwide on-site maintenance and support.

Phoenix Service Technologies Inc., PTI's existing field service operation, will with this acquisition become the largest third-party maintenance provider focusing on servicing microprocessor-based equipment in the United States. Phoenix Technologies views CSD as an important strategic complement to its

existing operations.

Financial terms were not disclosed.

TRW provides advanced technology products and services for the automotive, space and defense and information markets. The company's 1989 sales totaled $7.34 billion.

CONTACT: Phoenix Technologies Inc., Philadelphia

#90313c0568 11/09/1990 ~Comtex

WASHINGTON (NOV. 9) COMTEX - Electronic Clearing House Inc.(TICKER: ECHO) filed a registration statement with the SEC in which it proposes to offer 750,000 units.

Each unit consists of three shares of common stock and two warrants, exerciseable at $0.75 per share.

The price per unit is $2.25.

J.W. Gant & Associates is underwriting the offering.

The company's common stock is traded on the NASDAQ system under the symbol ECHO.

Electronic Clearing House provides merchants, banks and other customers with services which enables them to accept credit cards and checks in commercial transactions quickly and with relative safety.

#90313c0570 11/09/1990 ~Comtex

WASHINGTON (NOV. 9) COMTEX - CCF Inc. filed an amended registration statement with the SEC in which it proposes to offer 1,166,167 shares of its common stock at an initial public offering price of $6.00 per share.

Asset Securities Corp. is underwriting the offering.

The company intends to both i) acquire, service, collect and reinvest in certain receivables -- "money lien certificates" and also ii) to purchase, exploit and expand the business of Administrative Insurance Technologies Inc., a California business which collects insurance company subrogation claims.

In an earlier filing, CCF reported it was offering 500,000 shares at $10.00 per share.

The company's executive executive is located 15643 Sherman Way, Suite 330, Van Nuys, CA 91406 and its telephone number is (818) 780-5550.

WASHINGTON (NOV. 9) COMTEX - The 8-K report filed at the SEC shows on Nov. 1, 1990, the Enstar Group Inc.(TICKER: ENST) appointed Deloitte & Touche as its independent accountants, replacing KPMG Peat Marwick.

KPMG Peat Marwick's audit report on Enstar Group for the fiscal year ended Dec. 31, 1989 reflected an unqualified opinion.

In connection with the audits of the two most recent fiscal years and the subsequent interim period, there were no disagreements with the former accountant on any matter of accounting principles or practices, financial statement disclosures, or auditing scope or procedure.

#90313d2460 11/09/1990 ~French/German News Agency

SYDNEY (NOV. 9) - Qantas Airways, Australia's government-owned international airline, said Friday it will cut its workforce by 500 and sell five aircraft earlier than expected to cut costs from the Gulf crisis.

Qantas chief executive John Ward said 500 of the airline's workforce of 17,000 would be laid off by February.

Five Boeing 747s would be sold earlier than planned and flying hours cut back to offset extra fuel costs of 318 million Australian dollars (247 million U.S.).

The measures were "essential if we are to survive," he said.

Qantas, 49 per cent of which is to be sold, has already axed 60 management jobs and 21 staff in Europe. Staff recruiting has also been frozen and services withdrawn from Amsterdam, Athens, Bombay and Bahrain.

The airline is restructuring to ensure it can continue to compete on international routes and take full advantage of tourism opportunities in the Asia-Pacific region, Mr. Ward said.

He warned that more job losses were "inevitable, although the number depended on the state of the world economies and the impact on travel demand."

"We're in a critical period. Small downturns in traffic and small increases in costs play havoc with profitability," he said.

BEIJING (NOV. 9) - Eight miners died and 10 were missing after a gas explosion in a southern Chinese coal mine, a local report said.

The methane blast occurred Wednesday in a dilapidated private mine in Furen, Guangdong province, the Guangzhou Evening News reported.

Eight miners were found dead and rescue workers were not hopeful of finding the 10 who were missing, the newspaper said.

The authorities launched an investigation Thursday into safety infractions at the mine. Its owner had been warned in June after a first explosion killed

three miners, the newspaper said.

JOHANNESBURG (NOV. 9) - Sales of new cars in October declined by 1.3 percent to 17,640 units, compared to September's sales figure of 17,872, the National Association of Automobile Manufacturers (NAAMSA) said.

Compared to the corresponding month in 1989, October's sales show a modest decline of 2.6 per cent or 482 units.

In a statement, NAAMSA said sales had held up well in spite of the prevailing cost of finance and the further deterioration in business confidence.

However the association predicted that sales would continue to decline until next July.

-30- 759

#90313d2620 11/09/1990 ~French/German News Agency

TOKYO (NOV. 9) - Taisei Corp. has joined competition with other major Japanese construction firms to build a super skyscraper, unveiling plans for a futuristic 800-storey, 4,000-meter (13,200-foot) structure, 224 meters (730 feet) taller than Japan's highest Mountain Fuji.

The plans made public Thursday called for the construction of a floating foundation with a diameter of six kilometers (3.75 miles) covering 3,000 hectares (7,500 acres) on either sea or lake.

Taisei's main rivals, Takenaka Corp. and Obayash Corp., have already announced that they can build 196 storey 1,000 meter (3,300-foot) and 500-storey 2,000-meter (6,600 feet) skyscrapers, respectively.

The tallest building in the world at present is the Sears Tower in Chicago, Illinois, which measures 440 metres (1,454 feet) and 110 stories.

Tisei's "X-SEED 4000" is a pyramidal structure in which from 500,000 to 700,000 people would be able to live with a floor space of between 5,000 and 7,000 hectares (12,500 and 17,500 acres), according to the company.

If built, it would take 30 years to complete and cost about 150 trillion yen (1.15 trillion dollars), the company estimated.

Living quarters will be below the 2,000-meter (6,600 feet) level. Above that would be facilities including a nature and space observation center, an energy-generation plant and a "sky resort" area, according to the company concept.

The floating foundation is being considered on Tokyo Bay or on Lake Kagumigaura, northeast of Tokyo, Taisei officials said.

AUCKLAND, NEW ZEALAND (NOV. 9) - Construction work on one of the South Pacific's biggest planned hotels, the Sheraton in Rarotonga, Cook Islands, has stopped after its Italian contractor hit financial woes, the Cook Islands News reported Friday.

The 200-room four star hotel was being built for ECIL, a wholly owned subsidary of the Cook Island's government using a 50 million German marks loan.

An Italian company, Sicel Construction, which is in "controlled administration" in its homeland, had begun construction in May on the 38 hectare (93 acre) site.

The newspaper said ECIL had served a default notice on Sicel which expires Saturday (Friday Cooks time).

It said Sicel had drawn down 30 million marks of the 50 million marks loan via an Italian bank.

Currently the construction site consists of a 50,000 cubic metre (1,750,000 cubic feet) hole filled with rocks for a foundation base. There are also cranes and concrete mixers, but Sicel last week fired 20 Cook Island labourers working there and sent home several Italian supervisors.

The Cook Islands News said it was not clear where all the money had been spent or how much would be lost on the project.

ECIL manager and pro-government member of parliament Vincent Ingram was not available Friday to say what will happen next.

The office of Prime Minister Geoffrey Henry was referring inquiries to Mr. Ingram.

Rarotonga, a 67 square kilometre (26 square miles) island, is 3,000 kilometres (1,860 miles) northeast of here.

#90313d2840 11/09/1990 ~French/German News Agency

SINGAPORE (NOV. 9) - Singapore might record eight percent economic growth this year, despite higher oil prices and the uncertainties caused by the Gulf crisis, Trade and Industry Minister Lee Hsien Loong has said.

Brigadier-General Lee, Premier Lee Kuan Yew's elder son, said that up till August 2, when Iraq invaded Kuwait, the economy was growing so strongly that the Ministry's worry was over-heating rather than recession.

The economic growth for the first quarter was 10 percent but slowed to 6.8 percent for the second.

Growth has moderated since then, the minister noted.

Brig.-Gen. Lee, who was speaking at the Singapore Contractors' Association annual dinner here Thursday, said that the overall results showed that the Gulf crisis had not hit the republic too hard.

But he cautioned that this good result "may not reflect the trend of the next few months".

Since the Gulf conflict broke out several economists had revised downwards their growth projections for the republic's economy.

The United States Embassy, which predicted 8.5 to nine percent annual growth for the economy, later revised it to "eight percent or thereabouts".

The minister noted two possible developments that could affect the city state seriously -- a possible war in the Gulf and an imminent recession in the United States, Singapore's largest export market.

Fortunately, the impact will be cushioned by growing ties with the European Economic Community and Japanese economies, and also with the region, especially with Malaysia and Indonesia, he said.

"We will have to assess our own economy carefully over the next few months to see how it responds to these external events," Brig.Gen. Lee sid.

He said he expected growth to slow down over the next few months but not to zero as in the last recession.

During the 1985 recession the republic's economy shrank for the first time in two decades, to minus 1.7 percent growth.

Brig. Gen. Lee said the next one or two years will not be as rosy as the last few and probably bonuses will be "lower than we have become accustomed to."

"We are still competitive and well placed to come out of any downturn trimmer and stronger," he added.

#90313d2950 11/09/1990 ~French/German News Agency
TOKYO (NOV. 9) - The Japanese government said Friday it had approved fare hikes by the country's airlines of five to seven percent for international flights departing from or arriving in Japan.

Fares of flights departing Japan will be raised five percent, while those arriving in Japan will be increased seven percent, both effective December 1, the Transport Ministry said.

Other major industrialized nations have already raised international flight fares by five to eight percent from last month to reflect the rise in fuel prices following the Iraqi invasion and subsequent annexation of Kuwait.

With the introduction of the new air fares, a round trip between Tokyo and Hong Kong will be 156,600 yen (1,200 dollars) on business class, against 627,900 yen (4,830 dollars) for Tokyo-London and 418,400 yen (3,220 dollars) for Tokyo-New York.

-30- 1021

#90313d3460 11/09/1990 ~French/German News Agency
LONDON (NOV. 9) - The general outlines of regulations for a future EEC central bank have been accepted by central banks and governments in the 12 EEC countries, German central Bundesbank president Karl Otto Poehl said here late on Thursday.

The committee of central bank governors would soon get to work on on a statute for the bank, Mr. Poehl said at a dinner organised by American Express.

The priority for such a bank in the European Economic Community was to achieve price stability, to win total independence from political authorities, and complete responsibility for EEC monetary policy.

But he again warned against unduly fast moves towards monetary integration because it would be undermined by big differences between the economies of EEC countries.

The future EEC currency would be different from the existing Ecu which was composed of a basket of currencies, since it would have to be a real currency, he said.

#90313d3470 11/09/1990 ~French/German News Agency
ROTTERDAM, NETHERLANDS (NOV. 9) - The Unilever food and chemicals multinational on Friday reported that in the third quarter its net profits were seven percent higher than in the same period a year earlier at 967 million guilder from 903 million guilder.

In dollars, net profits rose by 29 percent to 540 million dollars from 419 million dollars.

Operating profits rose by 12 percent to 1.97 billion guilder on sales of 20 billion guilder, representing an increase of nine percent.

During the first nine months of the year Unilever made a net profit of 2.67 billion guilder, up five percent on the same period of 1989.

Operating profits rose by 14 percent to 5.4 billion guilder on sales up 12 percent at 57.87 billion guilder.

SYDNEY (NOV. 9) - Netherland's VRG-Groep N.V. will sell Tomasetti Paper to Australia's diversified resources and paper group North Broken Hill Peko (NBH) for an undisclosed price, the Australian company said Friday.

Bill Paisley, NBH's forestry paper director, said: "Tomasetti has a high reputation within the Australian paper industry and with sales turnover of more than 100 million dollars (78 million U.S.) a year is renowned throughout the printing industry."

Johannesburg (NOV. 9) - Sixteen people were killed Thursday when supporters of the African National Congress (Anc) and the Zulu party Inkatha clashed at the black township of Bruntville, police said here Friday.

A further five black South Africans were injured and a hostel for workers was partly burned down during the violence at the township on the Mooi River, 500 kilometres south of here.

Many women and children had earlier fled the township in fear of clashes following the murder of a black railway worker at Bruntville.

Bruntville lies in the eastern province of Natal where the power struggle between the Anc and Inkatha had claimed at least 4,000 lives in the past four years.

Inkatha leader Mangosuthu Buthelezi is demanding the organisation be given the same status as the Anc at negotiations with Pretoria on dismantling the country's apartheid racial segregation system.

A total of 800 people died last August and September alone when the conflict

sparked a bloodbath in the townships around Johannesburg.

Meanwhile, Anc deputy president Nelson Mandela returned Friday form his fifth world trip since his release from prison, where he was serving a life sentence last February.

He said governments in India, Indonesia, Malaysia and Australia had promised the Anc donations amounting to almost 40 million dollars.

GATUNA, Rwanda (NOV. 9) - Rwandan rebels pillaged the strategic Gatuna post on the border with Uganda in what seemed to be a new strategy of sabotage raids before it was recaptured by Rwandan government troops.

Rwandan Patriotic Front (RPF) guerrillas, who held the checkpoint between Saturday and Tuesday, laid waste to the customs offices and set fire to eight trucks that had arrived with food from Uganda and Kenya.

Fresh food has been short in the curfew-bound Rwandan capital Kigali, where this correspondent saw troops out in strength Thursday, almost six weeks after the rebel invasion in the northeast of the country.

The closing of the Rwandan-Ugandan border has caused long queues of trucks to build up on the Ugandan side.

Rebels pried open the Gatuna customs safe, smashed furniture and windows and looted Ugandan trucks. The parking lot was littered with Chinese-made 60mm shells, AK-47 cartridges and packaging for radios stolen from the trucks.

The local Rwandan army commander, Major Emmanuel Kanyandekwe, told Agence France-Presse on Friday that up to 400 rebels attacked the Gatuna post, which was manned by reservists.

The guerrillas launched their offensive from inside Rwanda after walking the border for several kilometres (miles), instead of directly taking the asphalt road from Uganda.

Maj. Kanyandekwe was unable to give full casualty figures from Saturday's attack, but he said that the bodies of two civilians had been found near Gatuna.

Sugar cane fields were set on fire further south on the road to Kigali during patrols by government troops, but no damage was reported from tea plantations that stretch to the Ugandan border.

Teheran (NOV. 9) - Iranian President Akhbar Hashemi Rafsanjani has voiced ''grave concern'' over the possible outbreak of war in the Gulf region, the official Irna news agency reported here Friday.

Speaking to a crowd of Moslem worshipers at Friday prayers here, Rafsanjani spoke of the ''great destruction in the region'' which such a war would cause.

''Despite the statements made regarding a peaceful solution to the issue we have so far seen no sign to this effect,'' said the president.

Iraq would have to be content with the territory it had before invading Kuwait last August 2, said Rafsanjani, adding: ''in our opinion there exists no other solution than this ....''

The Iranian President also attacked the multinational force stationed in Saudi Arabia, saying: ''The presence of foreign forces in the region is apparently aimed at checking an Iraqi advance but it is not so. If their real intention is to counter opression they should have come to halt Israel's crimes in the first place.''

#90313d3800 11/09/1990 ~French/German News Agency
MOSCOW (NOV. 9) - Fighting will probably break out in the Gulf given Iraq's refusal to retreat from Kuwait, a senior U.S. State Department official said here Friday.

He said one result of U.S. Secretary of State James Baker's current international tour to get backing for possible U.S. military intervention against Iraq was that there was "absolutely no doubt ... that Saudi forces will be committed," in case of battle against Iraqi troops.

"Nor is there any doubt in my mind with respect to the other forces...with the possible exception of the Syrians and the French," he said.

"I really don't know what those forces would do. I rather suspect that the Syrians might be leading the charge but I don't know."

The official who spoke on condition of anonymity at the end of a visit to Moscow by Mr. Baker said he did not "know where the French would be. We'll know more tomorrow."

Mr. Baker is to meet President Francois Mitterrand and French Foreign Minister Roland Dumas in France on Saturday.

Syria, which has sent thousands of soldiers to Saudi Arabia is publicly

opposed to the destruction of Iraqi military power. Syrian President Hafez al Assad, however, is known to intensely dislike his Iraqi counterpart Saddam Hussein.

France sent 4,000 men to Saudi Arabia after Iraqi troops in Kuwait forced their way into the French embassy.

The U.S. official was not optimistic that the Gulf crisis could Now be resolved peacefully. "I don't think the Soviets are any more optimistic than we are about the willingness of Saddam Hussein to leave Kuwait," he said.

"We know he's unpredicatble. Everybody says he has the capability to do a 180 (degree turn) on short notice if he comes to realise that it's in his interest to do so."

#90313d4040 11/09/1990 ~French/German News Agency

TOKYO (NOV. 9) - Five of Japan's six biggest steelmakers, including world leader Nippon Steel Corp., announced Friday reduced earnings for the six months to September due to higher raw material costs and lower export prices.

Four of the companies - Nippon Steel, NKK Corp., Kawasaki Steel Steel Corp. and Nisshin Steel Co. Ltd. - suffered sharp declines in net profit ranging from 16 percent to 38 percent from a year earlier.

But Kobe Steel Ltd. incurred a modest fall of less than one per cent while Sumitomo Metal Industries Ltd. posted a 28 percent increase.

Nippon Steel, the world's biggest steelmaker accounting for about a third of Japanese output, said its net profit plunged 30.4 percent from a year earlier to 40.3 billion yen (292 million dollars). Sales were unchanged at 1,238 billion yen (nine billion dollars), the company said.

Sales of steel products, pig iron and chemical products rose but sales by the company's engineering division fell. Exports also declined, by 18.5 per- cent to 257 billion yen (two billion dollars).

Crude steel output rose from 14.20 million tons to 14.30 million tons while pig iron production climbed from 14.66 million tons to 14.70 million. Output of steel products advanced from 13.40 million tons to 13.58 million.

NKK, the country's second-biggest steelmaker and one of the world's top five, said its net profit dived 38.3 percent to 14.7 billion yen (107 million dollars). Sales edged up 2.3 percent to 586 billion yen (4.2 billion dollars).

The modest increase in turnover reflected a jump in sales of industrial plants which helped to offset lower sales of steel products and steel structures

including ocean-related equipment. Exports also fell, by 4.9 per- cent to 113 billion yen (819 million dollars).

The company's output of crude steel fell from 6.20 million tonnes to 6.01 millon tonnes while pig iron production slumped from 6.72 million tons to 6.22 million. Output of steel products was unchanged at 6.01 million tons.

But Sumitomo Metal, ranking equal third with Kawasaki, said its net profit rose 28.4 percent to 31.7 billion yen (230 million dollars). Sales also rose - by 1.6 percent to 553 billion yen (four billion dollars).

METZINGEN, GERMANY (NOV. 9) - The Hugo Boss men's clothing group has not been informed of any sale of its shares by its majority shareholder, the Japanese company Akira Akagi, Boss founder Jochen Holy said Friday.

The Japanese firm holds 62.88 percent of the equity.

He said the "rumour was launched by the French publication Journal du Textile at the end of October."

Mr. Holy said that he had tried unsuccessfully to contact Mr. Akira who was somewhere in Europe. But the supervisory board knew nothing of such a move, he said.

Hugo Boss, a leading German clothing firm with a high growth rate, came under Japanese control at the end of 1989.

#90313d4080 11/09/1990 ~French/German News Agency

JOHANNESBURG (NOV. 9) - South African Energy Affairs Minister Dawie de Villiers on Friday announced a 15 cents (6 U.S. cents) a liter cut in the price of petrol effective from Monday -- just three weeks after the fuel price rocketed by 32 cents (12.5 U.S. cents) a liter.

In a statement, Mr. De Villiers said that lower crude oil prices had resulted in an over-recovery on petrol and diesel and the government had decided to pass on the lower fuel costs to consumers.

He warned, however, that the price decreases could be temporary as it was impossible to forecast the future price of crude oil due to uncertainty in the Gulf.

With the cuts, petrol will now cost on average 1.45 rands (56 U.S. cents) a liter at the pumps.

#90313d4340 11/09/1990 ~French/German News Agency
NICOSIA (NOV. 9) - Iraq on Friday rejected suspicions raised at the United Nations that the large quantities of medicine recently sent to Baghdad could be used to make biological or chemical weapons.

Such reports aim to "justify the adoption of new restraints on the export of medicine to Iraq, an issue on which certain intermediaries are showing good will at present", an Iraqi foreign ministry spokesman said.

The spokesman, quoted by the Iraqi News Agency monitored here, dismissed the statement issued Wednesday in New York by U.N. official Marjatta Rasi as "tendentious and mistaken."

Iraq was facing difficulties in importing medicine, he said, adding that some of the orders had been paid for before the Iraqi invasion of Kuwait on August 2.

The United States called Thursday for a mechanism to monitor medical shipments to Iraq, following the statement by Mrs. Rasi, a U.N. official who heads a committee overseeing U.N.-imposed trade sanctions against Iraq.

She said Iraq had received "tonnes and tonnes of medicine", as much as it could use in 10 years. But the official did not refer to the possibility that Iraq could be storing medicine in case of war.

According to military experts, components in some of the drugs could be used for chemical and biological weapons, she said.

The U.N. embargo exempts medicine. France, Britain, Brazil, Germany and the United States are among countries that have been sending medicine, normally after an inspection of goods bound for Baghdad.

#90313d4370 11/09/1990 ~French/German News Agency
SOFIA (NOV. 9) - Bulgaria's government, headed by reformed communist Prime Minister Andrei Lukanov, is facing breakup after a decision by 16 lawmakers of the ruling party to form an independent parliament group, analysts said here Friday.

Mavericks from the Bulgarian Socialist Party (BSP) which had an absolute majority of 210 seats in the 400-member parliament said they were considering cooperating with the main opposition movement, Union of Democratic Forces (UDF).

Party leaders were to meet with President Zhelio Zhelev later Friday to try to defuse the crisis.

The UDF has said since the country's first free election last June that it would form a government if the party occupied the post of prime minister and the main portfolios.

The resignation of the 16 BSP deputies led a former BSP member to say, "The conservative mass within the organization is so strong and so determined to hold onto its privileges that it keeps back any progress. This party will only reform when it is forced into opposition."

But many Bulgarians have also soured on the Union of Democratic Forces, which is fraught with internal bickering.

Bulgarian trade unions and students have called for Mr. Lukanov's resignation and the adoption of a programme of drastic reforms for months to end the country's persistent economic and social crisis.

Former communist leader Todor Zhivkov meanwhile threatened to make compromising revelations about the country's current leaders.

"Time will come when we will be able to judge what Zhivkov and his supporters did, and those who succeeded them," Mr. Zhivkov said in an interview to the trade union paper Trud to be published Saturday, one year to the day after he was sacked.

Mr. Zhivkov, 79, said Bulgaria had no foreign debts before 1983-84 "when we were really in charge".

He has been under house arrest since his downfall last November after 36 years in power and is facing trial. Only he and four of his closet associates were expelled from the party.

"There is no law that could justify my condemnation", he said, adding that

plans for a "trial are a frame-up and a blow against my family and democracy".

No former communist official has to date been brought before the courts, and many, using former contacts and influence, have recently started up private companies, leading many Bulgarians to despair that anything like a new, just social order will rise from the ashes of communism.

In another development, BTA news agency said that Mr. Zhelev was considering cancelling a trip to Japan to attend the enthronement of Emperor Akihito next week.

BANGKOK (NOV. 9) - Two Thai soldiers were slightly wounded in a grenade attack at a camp controlled by Khmer Rouge guerrillas near Thailand's border with Cambodia, relief officials said here Friday.

The explosion occurred Thursday when the grenade was thrown at a dormitory of the paramilitary Displaced Persons Protection Unit (DPPU) on the perimeter of the O'Trao settlement, said the officials, who requested anonymity.

The camp at O'Trao, some 10 kilometers (six miles) from the border of northern Cambodia, serves as a staging ground for infiltrations by Khmer Rouge units under the command of Ta Mok, considered among the most radical of the faction's military leaders.

The Khmer Rouge, an extreme Marxist group ousted from power in Cambodia when Vietnam invaded the country 12 years ago, is the military backbone of a guerrilla coalition fighting Phnom Penh's Hanoi-installed government. It receives massive military assistance from China.

The faction controls three United Nations-assisted camps along the Thai border: O'Trao, with a population of 14,000 to the northeast; Site 8, which houses 36,000 people in the central part of the border area; and Site K, which houses 9,000 to the southwest.

There has been chronic tension at O'Trao in the last few months, according to sources familiar with Cambodian refugee problems.

Several grenade attacks occurred in August, apparently without causing any casualties, they said.

The August explosions may have resulted from Khmer Rouge irritation following a headcount by the United Nations Border Relief Operations that resulted in substantially reduced U.N. food rations at the camp, the sources said.

The camp population was found to be 12,000, against nearly 23,000 in January,

after Khmer Rouge commanders brought inmates back to Cambodia either to populate their own "liberated zones" or to help build roads, the sources said.

#90313d4560 11/09/1990 ~French/German News Agency

DURBAN, SOUTH AFRICA (NOV. 9) - Trade unionist Billy Nair, wanted by police over the alleged "Operation Vula" insurrectionary plot, made a surprise appearance at a press conference here Friday, correspondents said.

Denying media reports that he had fled the country or evaded arrest, Mr. Nair said he had been recuperating from two operations, "one to my leg, the other to my heart".

The press conference was addressed by senior South African Communist Party (SACP) politburo member Mac Maharaj and seven colleagues who were Thursday released on total bail of 300,000 rands (117,000 dollars) by a magistrate in this eastern port city.

Police allege that they infiltrated arms and cadres into the country in order to train a "revolutionary army" that would seize power should talks between the Pretoria government and its black opponents break down.

Police also allege that SACP leader Joe Slovo had conspired in the plot, known as "Operation Vula", though he has not been charged.

Mr. Nair was arrested in July along with the other eight accused, all of them members of Nelson Mandela's African National Congress (ANC), but was transferred to hospital after falling ill.

After undergoing a heart bypass operation in October, he "disappeared" and

failed to show when the trial began last week.

But at Friday's press conference, Mr. Nair said he had every intention of joining his eight co-accused when and if the trial resumed.

#90313d4590 11/09/1990 ~French/German News Agency

JERUSALEM (NOV. 9) - Curfews were imposed Friday in several cities and refugee camps in the Israeli-occupied Gaza Strip and West Bank.

Police in Jerusalem only allowed elderly Moslems to attend traditional Friday prayers on the Temple Mount, the scene of a bloody clash between security forces and Arabs a month ago.

Although nearly 4,000 Moslems visited the mosques there, no incidents were reported.

According to radio reports, Israeli officials had information that activists in the Palestinian uprising (intifada) planned to provoke violence in Jerusalem.

A general strike called Friday by Palestinian activists to mark the 36th month of the intifada was largely followed.

On Thursday evening, the Israeli army had prohibited Arabs from the occupied territories from entering Israel and Jerusalem to forestall violence in the tension-charged atmosphere following the murder of right-wing Rabbi Meir Kahane in New York City on Monday.

Israeli officials arrested three members of Kahane's extremist Kach Party on Friday in connection with a the murder of a 65-year-old man and a 60-year-old woman in the Arab village of Luban Sharkia in the West Bank.

On Tuesday morning, an unknown gunman shot the two to death from a passing automobile. Police summoned several dozen Kach supporters for interrogation and confiscated weapons belonging to some.

#90313d4640 11/09/1990 ~French/German News Agency

BAGHDAD (NOV. 9) - Iraq Friday assailed a U.S.-Saudi agreement on control and command of U.S. forces stationed in Saudi Arabia to deter a possible Iraqi attack.

Taha Yassin Ramadan, Iraq's first deputy premier, said the agreement reached between U.S. Secretary of State James Baker and Saudi Arabia's King Fahd in the Red Sea port of Jeddah on Monday was a ''conspiracy'' against the Arabs and Moslems.

The accord envisages a joint command for the more than 200,000 U.S. and nearly 100,000 Saudi troops in Saudi Arabia in the event of an attack by Iraq.

But U.S. commanders would be free to direct their own forces without Saudi interference in the event of an offensive against Iraqi troops in Kuwait, or against Iraq, that is launched from Saudi territory.

Ramadan charged that the ''Fahd-Baker agreement'' had placed Islam's holiest shrine in Mecca under the control of Americans and their allies.

Ramadan, a member of the Iraqi Revolutionary Command Council, the country's highest policy-making authority, called on Arabs and Moslems to wage a ''Jihad'' (holy war) to defend their dignity and holy shrines.

''The Fahd-Baker agreement has completely unveiled the conspiracy against the Arabs and Moslems which the servant of the two holy shrines (King Fahd) and his masters and allies has tried to hide,'' Ramadan said in a statement to the official Iraqi News Agency (Ina). His remarks were also carried by Baghdad Radio.

#90313d4730 11/09/1990 ~French/German News Agency
NEW DELHI (NOV. 9) - Pakistan and India exchanged calls Friday for efforts to improve their often stormy relations and pledged their determination to maintain bilateral peace.

Pakistan's new ambassador to India, Abdul Sattar, said Islamabad wanted to join New Delhi in "earnest endeavours for the repair and reinforcement of the foundations of good neighbourly relations."

"This aim is by no means beyond reach," he said after presenting his credentials to Indian President Ramaswamy Venkataraman at a ceremony in the presidential palace.

"There are no differences that cannot be bridged through purposeful dialogue, no disputes that cannot be resolved by resort to peaceful means," the 59-year-old veteran diplomat said.

"Pakistan and India are capable of chartering a course of policies and actions that can banish mistrust and fear and foster confidence and goodwill and ensure peace and harmony," he said.

Mr. Venkataraman responded saying India respected Pakistan's sovereignty and security and was committed to "cooperation and good-neighbourly relations" with Islamabad.

He urged Pakistan to "take the ongoing process of bilateral dialogue to reduce the present tensions to its logical conclusion."

The exchange of calls for better relations came three days after a new government under Prime Minister Mian Nawaz Sharif assumed office in Islamabad and a day before a new government under veteran politician Chandra Shekhar was to be installed in New Delhi.

Bilateral relations have hit an all-time low this year over a bloody Moslem separatist campaign in the Indian side of Kashmir, the two countries' chief bone of contention since independence and partition of the subcontinent in 1947.

#90313d4850 11/09/1990 ~French/German News Agency

SINGAPORE (NOV. 9) - French Prime Minister Michel Rocard arrived here Friday to a ceremonial welcome by his Singapore counterpart, Lee Kuan Yew, with whom he was to have discussions on a wide range of issues.

Mr. Rocard, here for a two-day official visit, was earlier received at Changi airport by Senior Minister of State for Education and Minister-in-Attendance, Tay Eng Soon.

They were greeted by Mr. Lee at the Istana presidential palace and inspected a guard of honour mounted by an elite commando unit of the army.

The French leader later called on Mr. Lee, at whose invitation he was here, for talks which sources said would include the Cambodia situation, the multilateral trade negotiations, the Gulf crisis and bilateral relations.

While Mr. Rocard is in Singapore, senior officials from 13 countries were scheduled to meet in Jakarta Friday on the Cambodia conflict pitting a Hanoi-backed government in Phnom Penh against a resistance coalition.

Another round of talks, broadened to include the rival Cambodian factions, is scheduled in Paris later this month as a prelude to a full-scale gathering at the end of the year or early in 1991.

On Saturday, Mr. Rocard is scheduled to address a luncheon organised by the French Business Association and the Singapore Chambers of Commerce and Industry and will attend a dinner hosted by Mr. Lee at the Istana.

Also on Saturday, he will visit Samaero Co., a Singapore-French plant that manufactures helicopter parts, and later call on President Wee Kim Wee.

#90313d4890 11/09/1990 ~French/German News Agency

BELGRADE (NOV. 9) - Yugoslavian archaeologists found 99 gold coins dating back to the fourth century last week, Belgrade television reported Friday.

The coins, all minted in Constantinople, were probably buried with a family member of Roman Emperor Galerius (who died in 311). He had a house at Gamizigrad (Romuliana) some 250 kilometres (155 miles) south-east of here.

The coins bear the effigies of Roman emperors Valentinian I (364-375), Theodosis I (379-395) and Arcadius (395-408).

Archaeologist Dragljub Srejovic said the coins were probably buried by a senior imperial court official when the Visigoths attacked the Balkans and Italy.

#90313d4910 11/09/1990 ~French/German News Agency

LAGOS (NOV. 9) - The commander of Liberia's presidential guard, General David Nimley, this week fled Monrovia and has taken refuge in Nigeria, according to regional diplomatic sources.

But a Nigerian government source on Friday refused to comment on the reports. "That rumour has been running for three days, nothing to say about it," the source said.

Diplomatic sources have cited reports that Gen. Nimley, who became one of Liberia's self-appointed heads of state after president Samuel Doe was killed by a rebel faction in September, escaped Monday to Freetown, Sierra Leone.

He was last seen in Freetown aboard a Nigerian military helicopter, the reports said. A Nigerian contingent forms a large part of a West African peacekeeping force sent to Liberia in August.

"We have helicos in support of our services, going to Freetown with light planes, but not taking part in the military operations," was all the government source would say here Friday.

The chief of staff of the intervention force this week said that an interim government set up under the auspices of the Economic Community of West African

States (ECOWAS) would be installed in Liberia next week.

#90313d4960 11/09/1990 ~French/German News Agency
HANOI, Nov 9 (AFP) - Vietnam's economy will face tremendous difficulties in 1991, due mainly to the ending of Soviet economic facilities, Communist Party Secretary General Nguyen Van Linh warns.

Next year "will be the year when our economy faces tremendous trials. From next year imports of commodities, raw materials and fuel must be paid in hard currency according to international prices," the Nhan Dan newspaper Friday reported Mr. Linh as saying during a tour of the southern part of the country.

Mr. Linh has been the main advocate of moves to liberalise Vietnam's economy in recent years.

The Soviet Union, Vietnam's main economic partner since the late 1960s, recently announced that trade between member countries of COMECON would be conducted from next year on the basis of international prices with settlement in convertible currency.

This, Mr. Linh said, would mean that Vietnam's industry, still very much geared towards COMECON, would face "many difficulties and trials," which he said were more important than ever to overcome.

Deputy Premier Tran Duc Luong recently visited Moscow seeking modifications to the new rules, apparently without result, according to Western diplomats.

"Our country currently still owes the Soviet Union 15 billion rubles (8.4 billion dollars at current market rates)," Mr. Linh said in a report Thursday by Vietnam radio.

Moscow provided Hanoi with considerable economic aid and based trade on a barter system favouring Vietnam.

Soviet officials said bilateral trade this year totalled some 2.5 billion rubles (1.4 billion dollars).

SOFIA (NOV. 9) - The cost of living in Bulgaria rose by 4.1 percent in October compared with September, and was 30 percent higher than in May, official figures showed here Friday.

But output during the first 10 months of the year was 10.4 percent below the level in the same period of last year.

Output had ceased falling and was at the same level as in May which had been the best month of the year.

The report, by the central statistical bureau, said that output in November was expected to be similar to the level in October.

The amount of food supplied to the domestic market was at about the same level as last year.

Shortages had been caused by a general panic ahead of price increases and fears of not being able to find products, analysts said.

#90313d5220 11/09/1990 ~French/German News Agency

PARIS (NOV. 9) - Thousands of French high-school students, keeping up pressure on the government for better education, staged fresh demonstrations in the French provinces on Friday for the fifth straight day, witnesses said.

A total 5,000 pupils marched through central Clermont-Ferrand, while demonstrations also took place in towns of eastern France such as Vesoul and Gray.

About 200 pupils also demanded to be "full partners in the education process" in a protest in Ajaccio, the main southern town on the French Mediterranean island of Corsica.

The students have warned that they plan to stage a mass rally in Paris next Monday, one week after more than 100,000 marched throughout France to press their demands.

MUNICH, GERMANY (NOV. 9) - A gigantic white spot can currently be seen in the atmosphere of the planet Saturn, the European Southern Observatory (Eso) said Friday in Munich.

The Eso said the spot, probably a storm, was spotted by its telescope at La Silla, Chile. Initially confined to the northern hemisphere of the planet, the spot now covers the equatorial regions.

Astronomers observed similar white spots in 1876, 1903, 1933 and 1966. The present spot is said to be the largest of all, however.

Saturn is the sixth planet from the Sun and the outermost planet known before the invention of the telescope.

Damascus (NOV. 9) - Egyptian Foreign Minister Esmat Abdel-Meguid arrived in Damascus Friday for a meeting with his counterparts from Syria and Saudi Arabia on the Gulf crisis.

In an arrival statement, Abdel-Meguid said the three countries would be discussing the ''current situation in the Gulf and other affairs of common interest''.

''This meeting will serve the interest of the three Arab countries and the Arab nation'', Abdel-Meguid said after his welcome by Syrian Foreign Minister Farouk al-Sharaa.

Saudi Foreign Minister Prince Saud al-Faisal was due to arrive later Friday for the talks, which wee scheduled to begin Friday evening.

Egypt, Saudi Arabia and Syria are among the countries that have condemned Iraq's August 2 invasion of Kuwait. Egypt and Syria have sent troops to Saudi Arabia to help deter a further Iraqi attack.

BERLIN (NOV. 9) - Berlin press group Axel Springer announced Friday that Guenther Wille will become group chairman next July.

He will succeed current chairman Peter Tamm, who has headed the group since the end of the 1960s.

The anouncement follows a restructuring of various group activities announced last month.

The publishing group, which includes popular daily Bild (circulation of six million) and conservative daily Die Welt, is now extending its empire into the former East Germany.

STUTTGART, GERMANY (NOV. 9) - Swiss translator Ursula Rothen and German author and publisher Martin Kaempchen jointly received the Rabindranath Tagore Prize for Literature here Friday.

The prize, amounting to 10,000 Deutschmarks (6,750 dollars), was awarded by the Indo-German Society for their ''contributions to India''.

Rothen has made a name for herself as a translator of Urdu literature. Kaempchen is regarded as an authority on Bengali literature and its best-known figure, Rabindranath Tagore.

Tagore, an Indian poet, philosopher and teacher, won the Nobel Prize for Literature in 1913. He died in 1941.

MAPUTO (NOV. 9) - Rebels of the Mozambique National Resistance (RENAMO) have killed 23 people in a raid against a village in northern Mozambique, according to a report Friday in the daily Diario de Mocambique.

The massacre took place on October 31 in the communal village of Imboze, in the northern province of Nampula. Communications in much of rural Mozambique are so poor that it took more than a week for news of the killings reached Maputo.

The paper said that the rebels wounded a further ten people, burnt down houses in the village, and stole the villagers' livestock. There were no further details immediately available.

Communal villages have frequently been a target of RENAMO, which has declared itself opposed to the government's village policies. The government claims that it is much more efficient to provide education and health services, as well as agricultural extension and marketing services, to villages rather than to scattered homesteads.

Despite their name, there is very little collective about communal villages, and most peasants, even if they are members of agricultural cooperatives, continue to farm their own family plots as well.

OTTAWA (NOV. 9) - Canada's unemployment rate climbed to 8.8 percent in October, up 0.4 percent from September's figure, Statistics Canada announced Friday.

It is the highest unemployment rate registered in Canada since July 1987 and the fifth monthly increase in the last six months, the federal government's statistical bureau said.

Last April, the jobless rate stood at 7.2 percent.

KINSHASA (NOV. 9) - Eleven million people in Zaire are exposed to the threat of sleeping sickness, which is endemic in almost the entire country, medical officials said Friday.

Some 30,000 people have been registered as infected with the disease over the past three years.

Seventy-one cases of the malady -- scientific name trypanosomiasis -- were recently detected in the suburbs north of Kinshasa, and only the mountainous regions of the country are free from the tsetse fly which carries the disease, according to the central trypanosomiasis office here.

While only 5,000 cases have been recorded in Zaire since the beginning of 1990 the office indicated that the figures did not reflect the true situation.

The bureau said that detection activities were suspended following the cutoff of 35 million Belgian francs (1.1 million dollars) in aid because of a dispute between Belgium and Zaire over the bloody repression by Zairean security forces of student demonstrations at the University of Lubumbashi in May.

Following the crackdown, Brussels demanded that an international commission be appointed to conduct an investigation, a proposal which was refused by Kinshasa.

Belgium then froze state loans to its former colony, leading Zaire to expel all Belgian volunteer workers from its territory.

#90313d5790 11/09/1990 ~French/German News Agency
TOKYO (NOV. 9) - Japanese Minister of International Trade and Industry (MITI) Kabun Muto said Friday the government may end its voluntary limits on car

exports to the United States.

Asked about Japan's future attitude to the voluntary ceiling on car exports to the United States, Mr. Muto said if the General Agreement on Tarrifs and Trade condemns these kinds of arrangements, "We may have to reconsider the system."

"Nothing is decided yet for next year," Mr. Muto added.

Since 1981, Japan has limited car exports to the United States to 2.3 million vehicles annually to allow American car-makers to regain competitiveness. The agreement expires in March.

The European Economic Community (EEC) is seeking a similar agreement with Tokyo to limit Japanese exports to Europe after creation of a single European market with the 1993 abolition of internal trade barriers.

#90313d5800 11/09/1990 ~French/German News Agency

LONDON (NOV. 9) - Rates firmed on most tanker routes this week, and trade was brisk out of the important Gulf States area despite a growing perception among market operators that war in the area is inevitable and imminent.

Shipbroker E.A. Gibson said in its weekly report here Friday that some 37 vessels are still looking for employment in the area, but that their prospects for obtaining lucrative cargoes are good.

Charterers were also active in the West African sector, although rates were only a little firmer.

Mediterranean loaders had a more difficult time than most, with insufficient business available to provoke a significant rates improvement.

Employment was also hard to come by for shipowners in ther Caribbean area. Rates for crude carriers making upcoast trips were improved but smaller product carriers were accepting lower rates. Business was also slow for North Sea loaders.

#90313d5850 11/09/1990 ~French/German News Agency

FRANKFURT (NOV. 9) - Profits earned by the German central Bundesbank could be reduced by four billion Deutschemarks (about 2.6 billion dollars) because of the fall in the value of the dollar, Bundesbank vice president Helmut Schlesigner said here late on Thursday.

If the dollar remained at its current level until the end of the year, the bank would have to make big provisions for losses.

Last year the bank made a profit of more than 10 billion marks (6.6 billion dollars), most of which was transferred to the finance ministry.

The German government is counting this year on recepits of seven billion marks (4.6 billion dollars) from the Bundesbank to help finance a huge 1991 budget deficit caused by unification of the two German states.

Mr. Schlesinger said that seven billion marks was too much in view of the exchange rate between the dollar and mark.

But he did not express concern at the fall of the dollar, noting that a strong mark reduced the risk of high inflation.

Neither did he express support for a meeting of the G7 grouping of leading industrialised countries to discuss the fall of the dollar as suggested by French Finance Minister Pierre Beregovoy.

PARIS (NOV. 9) - Austrian Airlines (AUA) signed a contract with the European Airbus consortium on Friday to buy 26 A-320 and A-321 Airbuses, 13 as firm orders and 13 options, Airbus announced three weeks after the Austrian airline's decision to buy the European aircraft.

The firm order is for seven A-320s (a twin-engine 144-seat plane) and six A-321s (the stretched 184-seat version of the A-320), delivery of which will begin in 1995. The engines have not yet been chosen.

AUA chairman Anton Heschgl said at the signature ceremony that the order is "the biggest one in the company's history", representing a potential investment of about 2.3 billion dollars.

In another development, Airbus said on Friday that Malaysia Airlines had converted two options on Airbus A-330s into firm orders, making a total of 10 firm orders Airbus has received from that airline for the aircraft, which will be commercialized starting in 1993.

The two planes ordered Friday will be delivered in 1996 and have Pratt and Whitney PW4000 engines.

Last Monday, Malaysia Airlines ordered 10 Boeing 737-400s and took options on 10 more.

#90313d5960 11/09/1990 ~French/German News Agency

AMRITSAR, INDIA (NOV. 9) - Suspected Sikh militants boarded a bus in troubled Punjab state Friday and opened fire, killing seven passengers and seriously injuring 14 others, police here said.

The bus, with 25 people aboard, had been travelling from the industrial township of Batala some 40 kilometers (25 miles) from the Sikh holy city of Amritsar to Jalandhar, when it was boarded by the gunmen, police said.

The gunmen stopped it at a roadside near Balpurian village and opened fire killing five Hindus, one Sikh and one Christian passenger, and seriously wounding 14 others before the remainder of the passengers managed to flee.

In other incidents in the state Friday, Punjab police killed six militants in Gurdaspur and Amritsar districts, while militants raided a house in Ferozepur district where they killed a Sikh man and abducted three members of his family the Press Trust of India said.

Three other militants were killed in scattered encounters, while a fourth committed suicide by taking cyanide when surrounded by troopers in Majitha distirct, the agency said.

At least 2,260 people have been killed so far this year in violence connected with the Sikh militant campaign for a separate homeland called Khalistan.

#90313d5990 11/09/1990 ~French/German News Agency

ISLAMABAD (NOV 9) - A dusk-to-dawn curfew has been imposed on the Afghan capital Kabul, state-run Radio Kabul reported Friday in a broadcast monitored here.

Quoting a government statement, the radio warned Kabul residents to remain in their homes between 10:00 p.m. and 4:00 a.m.

The government ended the restrictions earlier this year after lifting the state of emergency enforced when Soviet troops started withdrawing from Afghanistan in 1988, Afghan sources said.

The pullout of 115,000 Soviet troops was completed in February 1989.

The radio, which stopped broadcasting curfew times in recent months, gave no reason for the new curfew restrictions.

Afghan resistance sources said the decision indicated that President Najibullah's Soviet-backed government may sense trouble following reports that mujahedeen guerrillas are to step up attacks on Kabul.

#90313d6040 11/09/1990 ~French/German News Agency
ACCRA (NOV. 9) - Interim Liberian president Amos Sawyer on Friday held talks with Ghana's head of state Jerry Rawlings over the situation in war-torn Liberia, foreign ministry sources here said.

Mr. Sawyer, an academic, was chosen by Liberian politicians in August to lead a provisional government set up under the auspices of the 16-nation Economic Community of West African States (ECOWAS), of which Ghana is a member.

He has so far been unable to install his government in Monrovia because of continuing fighting there, but is now said to be expected to do so next week.

The foreign ministry sources said that Mr. Sawyer briefed Flight-Lieutenant Rawlings on diplomatic efforts to end the bloody 10-month-old civil war.

The main rebel movement, the National Patriotic Front of Liberia (NPFL) led by Charles Taylor, has refused to accept the interim goverment and continued to resist a five-nation peacekeeping force sent to Monrovia in August by ECOWAS to impose a ceasefire.

The ceasefire has been accepted by a breakaway rebel faction led by Prince Johnson and by forces loyal to the late President Samuel Doe.

The ECOWAS force comprises troops from Ghana, Nigeria, Sierra Leone, Guinea and Gambia.

LONDON (NOV. 9) - Prices dipped early on towards the International Natural Rubber Organisation (INRO) 'may buy' support level, but later recovered to end the week higher.

The price of Ribbed Smoked Sheet No. 1 was 515 pounds per tonne for December delivery against 512.50 the previous week.

Uncertainty over supplies caused by Gulf jitters and by continuing reports that heavy rain is hampering tapping in Malaysia in what is usually a peak production period was cited as the cause of the recovery.

But traders said that despite the firmer trend, background factors remain depressing, with tyre manufacturers cutting back rubber buying programmes and laying off workers.

BONN (NOV 9) - Soviet President Mikhail Gorbachev and German Chancellor Helmut Kohl signed a historic 20-year friendship pact Friday to normalize bilateral political and economic relations.

Gorbachev, the first foreign head of state to visit Germany since it was united on October 3, said the ''epoch of confrontation'' was finally over and ''a new world vision'' had arisen.

The 1990 Nobel peace prize laureate, who arrived earlier Friday for a two-day visit, hailed the treaty as ''strong and healthy child'' of recent changes in Europe and the entire world.

Kohl said at the signing ceremony in Bonn's Palais Schaumburg that the pact ''draws a line under the sorrowful chapters of the past'' and ''paves the way for a fresh start''.

In the Pact on Good Neighbourly Relations, Partnership and Cooperation, both nations vow to maintain peace and avoid war.

The treaty ''is also an appeal to our respective citizens to contribute to the reconciliation between our peoples'', Kohl said.

Under the pact, both nations renounced all territorial claims on any other nation as well as the threat or use of force, vowed to solve all conflicts peacefully, pledged to work for disarmament and to hold regular annual summit consultations, Kohl said.

#90313d6280 11/09/1990 ~French/German News Agency

LOS ANGELES (NOV. 9) - The leadership of the U.S. Roman Catholic Church called on the government to weigh carefully the moral consequences of military action in the Gulf before launching any offensive action.

"Is the damage to be inflicted and the costs incurred by war proportionate to the objectives to be achieved by taking up arms?" asked Archbishop Roger Mahony in a letter to Secretary of State James Baker.

Archbishop Mahoney, chairman of the International Policy Committee of the U.S. Catholic Conference, urged the administration of President George Bush, "in continued cooperation with the United Nations, the Soviet Union, Arab states and other nations, (to) stay the course of persistent, peaceful and determined pressure against Iraq."

The letter, which was made public Thursday, said the Church understood that "a strong military presence can give credibility to a vigorous pursuit of non-violent solutions to the crisis."

But it added that the bishops were concerned the pressure to use military force could grow as non-violent measures "become difficult, complex and slow."

"As Catholic bishops, we are deeply concerned about the human consequences of the crisis -- the lives already lost or those that could be lost in a war, the freedom denied to hostages, the victims of aggression and the many families divided by the demands of military service," Archbishop Mahony said.

His letter was released the same day Mr. Bush announced Washington was sending significant reinforcements to the Gulf, where the current U.S. troop deployment of 230,000 troops could climb as high as 430,000.

AMMAN (NOV. 9) - China's Foreign Minister Qian Qichen arrived here Friday for talks with Jordan's King Hussein on ways to reach a peaceful settlement in the Gulf amid an apparent escalation of tension in the region.

Speaking to reporters upon his arrival at Amman airport, Qian Qichen said he was not carrying any peace initiative to resolve the crisis, rather he hoped to ''explore the possibility of achieving a peaceful solution through talks with leaders in the region''.

The Chinese foreign minister, who arrived from Saudi Arabia, would not respond to a question on Beijing's position on a possible U.S. request of a United Nations Security Council resolution sanctioning the use of force to drive Iraqi troops from Kuwait.

''The aim of my tour in the region is to exchange views about the possibility of reaching a peaceful settlement,'' Qian Qichen told reporters. ''I am visiting Jordan upon the invitation of Foreign Minister Marwan Qasem to exchange views on the very dangerous situation in the Gulf.''

There had been conflicting statements from Beijing on whether China would endorse or veto a resolution sanctioning the use of force in the Gulf.

China, along with the United States, the Soviet Union, Britain and France, is a permanent member of the Security Council whose states have the right to veto resolutions.

The Chinese minister is scheduled to hold talks with King Hussein and his Jordanian counterpart Marwan Qasem Saturday. He will fly to Baghdad Sunday for talks with Iraqi President Saddam Hussein on the last leg of his four-nation tour which included Egypt and Saudi Arabia.

#90313d6760 11/09/1990 ~French/German News Agency
THE HAGUE (NOV 9) - A Soviet official lambasted his country's agriculture here on Friday as "incomparable on the world level - it is both the least efficient and the most harmful to the environment".

Identified as A. Krikov, a Soviet deputy minister and head of the Soviet delegation here, he told the United Nations Conference on the Habitat and the Environment that Soviet intensive farming "threatens the country's major ecosystems" due to massive use of chemicals.

"The destruction in the past of small farm villages replaced by bigger units destroyed all rural life", he charged.

He said that the Soviet industrial system "generates ecological disasters", mentioning two examples: Kazakhstan, and nickel mining, which he said destroys ecosystems within a radius of 100 kms (62 miles).

He also criticized Soviet centralization, which he said has not decreased much.

He said he hoped that the U.N. conference on the environment and development tio be held in Rio de Janeiro in 1992 would stress the issue of ecological disasters.

#90313d6870 11/09/1990 ~French/German News Agency
BRASILIA (NOV 9) - Brazil, casting aside reservations about foreign involvement in protecting its endangered jungles, announced Friday it would ask UNESCO to fund and run two "biosphere reserves" in its Atlantic Forest.

Tania Munhoz, director of the Brazilian Environment Institute (IBAMA), said she would propose the creation of the reserves at the 11th session of the Man

and Biosphere (MAB) program to be held November 12-16 in Paris.

The program is administered by the United Nations Educational, Scientific and Cultural Organization (UNESCO)

It would be the first time since the MAB program was set up in 1972 that Brazil agreed to the creation of a U.N.-controlled ecological reserve. In the past the government has rejected such an outside role in protecting the country's vast forests as an infringement on national sovereignty.

Ms. Munhoz said protection of the Atlantic forest zones -- with their unique wildlife, plants and micro-climate -- would have "a better chance" under UNESCO patronage.

When it was discovered in Brazil in 1500, the Atlantic Forest (Mata Atlantica) covered 10 per cent of Brazil's territory, some 850,000 square kilometers (340,000 square miles). Current IBAMA data set the land area now covered by the forest at scarcely three percent.

Under UNESCO guidelines, zones selected for biosphere reserves should include areas of special natural interest and damaged or endangered ecosystems which can be restored to their natural condition.

#90313d6920 11/09/1990 ~French/German News Agency

BRUSSELS (NOV 9) - A secret western network to counter an invasion by Warsaw Pact countries existed in several NATO countries and was currently headed by a Belgian general, Foreign Minister Guy Coeme said here Friday.

He told a press conference that the intelligence network, called Glaive (blade) in French, was currently headed by a Belgian intelligence general and met as recently as two weeks ago to decide on its future.

The defence minister was accompanied by premier Wilfried Martens, who has been in power for over 10 years. Both men denied knowing anything about the network's activities in Belgium before this week.

The existence of the shadowy group, codenamed Gladio (blade) in Italy, was disclosed last month by Italian Prime Minister Giulio Andreotti.

On Thursday, Mr. Coeme confirmed that the group, established in the mid-1950's at the height of the Cold War, was still active in Belgium.

Evidence of the network has also been traced to Greece under another code name. Italian sources have said it was also operational in Britain, France, the Netherlands, and perhaps also in Denmark and Norway.

The Belgian defence minister said that he did not think it was a structure of the North Atlantic Treaty Organisation (NATO), and had been told "firmly" that it had not been financed by the U.S. Central Intelligence Agency (CIA).

#90313d6990 11/09/1990 ~French/German News Agency
BONN (NOV. 9) - The Soviet Union is negotiating with Germans on possible aid in breathing new life into the Soviet oil and natural gas industry with Germany's financial help, industrial sources said on Friday in conjunction with Soviet President Mikhail Gorbachev's current visit here.

As official discussions were taking place, contacts were established between German firms specializing in oil extraction and Soviet authorities for drilling at four new places, the sources said.

Boosting the Soviet output of oil and natural gas is particularly important as it is one of the few ways in which the Soviet Union can get foreign exchange on world markets.

The Soviet Union is Germany's third-ranking oil supplier, far behind Britain and Libya, but ahead of Saudi Arabia. In the first nine months of the year, Germany imported 4.5 million tons of Soviet oil. The Soviet Union is Germany's leading gas supplier, ahead of Scandinavia and The Netherlands.

Cooperation between the two countries is also a priority for Germany, the Soviet Union's leading trade partner in Europe. Bilateral trade last year amounted to about 13 billion dollars.

LIMA (NOV. 9) - Guerrilla-related violence left 45 dead in the past two days in Peru, prompting a concerned Congress Friday to ask Interior Minister Adolfo Alvarado to report on the situation.

General Alvarado will appear before lawmakers next week, officials said.

A police officer Thursday was shot twice in the head by gunmen, while a suspected terrorist in another part of the city was killed during a shootout with police.

Also Thursday two leaders of a farming community were dragged from their homes and shot to death by suspected guerrillas in the northeastern region of Alto Huallaga.

Five soldiers, 30 guerrillas and two civilians died Wednesday when a military convoy was ambushed by Shining Path guerrillas on a road leading to Tingo

Maria, 400 kilometers (250 kilometers) northeast of here, an army sergeant said.

The rebels set off a land mine which blew up a military vehicle killing one lieutenant, two corporals and two soldiers, he added.

The civilians were reportedly killed for refusing to let the guerrillas enter their home during the fighting.

Initial reports on the clash Thursday said only five soldiers and six guerrillas had died in the clash.

Also Wednesday, in the province of Ancash in the Andes north of Lima, Shining Path rebels seized a police post in the village of Yautan and killed two soldiers, a lawyer and his driver, the police said.

PANAMA CITY (NOV. 9) - Panamanians voiced outrage Friday at the prospect of the United States dropping charges against jailed former dictator Manuel Noriega because of possible government eavesdropping on talks between him and his lawyers.

"Attempt made to free Noriega," screamed the headline of one Panama City newspaper. "Charges against Noriega could be dropped" and "Noriega free, return to Panama not ruled out," two others proclaimed.

Panamanian President Guillermo Endara said that if the drug trafficking charges Mr. Noriega faces were in fact dropped, Panama would seek to extradite him and try him at home.

"In case the United States cannot do it, Noriega will be tried here under Panamanian law because he committed many crimes," Mr. Endara said.

Mr. Noriega has been accused here of looting Panamanian government coffers and involvement in the torture and murder of political opponents while serving as de facto ruler until last year. Officially, he was the commander of the now-defunct Panama Defense Forces.

Mr. Noriega has been jailed awaiting trial in the United States since shortly after the December 20 U.S. invasion that crushed his regime and installed Mr. Endara in power.

Cable News Network Thursday announced it had obtained recordings of telephone conversations between Mr. Noriega and his lawyers, and broadcast excerpts of the tapes.

Mr. Noriega is being held in a federal detention center near Miami.

The head of Mr. Noriega's defense team, Frank Rubino, said the recordings had violated the attorney-client privilege protecting the confidentiality of conversations between lawyers and clients. He said he would file a motion for dismissal of all charges against Mr. Noriega.

Panamana's ambassador to the United States, Eduardo Vallarino, said the incident was a publicity stunt by the Noriega defense team.

#90313d7350 11/09/1990 ~French/German News Agency

KATHMANDU (NOV. 9) - Nepalese police late Friday fired tear gas at about

2,000 communists who denounced the monarchy for promulgating what they called a reactionary constitution.

As they marched through the main market areas of the capital here, Nepal Communist Party members shouted "Down with King Birendra", "Long live the Nepal Communist Party" and "We do not accept a reactionary constitution."

To disperse the protestors, police fired tear gas at them and charged with batons.

Responding to a call from the Nepal Communist Party, businesses and homes switched off their lights to protest the new constitution which was proclaimed Friday.

The constitution establishes a constitutional monarchy and guarantees a multiparty political system, consolidating gains made earlier this year by a popular movement against almost 30 years of partyless politics.

Meanwhile over 15,000 pro-democratic Nepali Congress activists and the Nepal Student's Union, including thousands of women, gathered together in a Kathmandu township to celebrate the victory of their movement.

The head of the National Democratic Party and former Panchayat prime minister, Surya Bahadur Thapa, also welcomed what he described as the dawning of a new political era in the country.

DETROIT, MICHIGAN (NOV. 9) - The nation's three largest automakers plan to cut production and lay off a total of about 50,000 workers because of a drop in orders, the firms said Friday.

General Motors Co. will temporarily shut down 10 factories next week, Ford Motor Co. will shut down four plants either partially or completely and Chrysler will suspend production in three plants.

Spurred by the arrival of new models, sales were stronger in October. But the three firms reported sharply lower orders since the beginning of the year.

General Motors reported a net loss of two billion dollars in the third quarter of 1990, largely because of a 2.1 billion dollar restructuring plan that included the closure of nine plants.

Ford Motor Co. saw its earnings plummet 78.7 per cent in the third quarter, while Chrysler reported a 214 million dollar loss for the same period.

TEHERAN (NOV. 9) - Iranian President Akbar Hashemi Rafsanjani expressed grave concern Friday over the possibility of war breaking out in the Gulf and said he feared ''great destruction in the region'' as a result of a military confrontation.

''Regarding a peaceful solution to the issue, we have so far seen no sign to this effect,'' the Iranian Islamic Republic News Agency (Irna) quoted Rafsanjani as telling Muslim worshippers at the Friday prayers.

The president also reiterated Iran's stance on an unconditional Iraqi troops withdrawal from Kuwait, saying there was no solution other than this and other than Iraq's ''being content with what it (formerly) had''.

Irna quoted Rafsanjani as saying: ''We have seen no indication of goodwill from the two belligerent parties, neither from the aggressor nor from those who have come here apparently in defence of Kuwait.

''The presence of foreign forces in the region is apparently aimed at checking an Iraqi advance but in fact it is not so. If their real intention is to counter oppression they should have come to halt Israel's crimes in the first place.''

Rafsanjani said a long-term presence of foreign forces near the ''House of Allah'' (in Saudi Arabia) could be even more dangerous.

''Like others, we participate in the economic sanctions against Iraq because if we breach the blockade that would mean that Iraq could stay in Kuwait but this is neither in the interest of the region nor in the interest of Iran,'' Rafsanjani emphasised.

TOKYO, (NOV 9) - A prominent real estate broker has quit the troubled subsidiary of Japan's scandal-ridden Sumitomo group, amid growing criticism of his role in the company's excessive property-related business, the firm said.

Suemitsu Ito resigned voluntarily as managing director in charge of real estate at Itoman Co. Thursday, Itoman President Yoshihiko Kawamura announced Friday.

"Mr. Ito expressed his wish to resign as he said he has completed his duty," he added.

Mr. Ito, a real estate broker known for his aggressive land acquisitions,

joined Itoman in February at Mr. Kawamura's request, but his managament has boosted Itoman's debts in real estate, press reports said.

Moody's Investors Services said Friday it had downgraded the credit rating of Sumitomo Bank from "Aaa" to "Aa1" due to concern about the bank's profitability and the quality of its real estate loans.

The U.S. credit rating agency said it was particularly concerned about the financial impact of its efforts to restructure Itoman, which has been extensively exposed to Japanese real estate.

The bank, the nucleus of the Sumitomo group, is the world's second biggest with assets of 64,200 billion yen (407 billion dollars).

Itoman's financial failure was attributed to its excessive investment and loans related to real estate.

Sumitomo Bank has been embroiled in a widening loan scandal after a former manager of its local branch was arrested in October for allegedly arranging 22.8 billion yen (165 million dollars) in loans to a stock speculators group.

The bank's chairman, Ichiro Isoda, and vice president Teizaburo Nishi resigned to take responsibility for the loan scandal.

PARIS, (NOV 9) - U.S. Secretary of State James Baker arrived Friday in Paris for talks with the French government Saturday on the Gulf crisis.

In a meeting with President Francois Mitterrand and Foreign Minister Roland Dumas, Baker is expected to seek French approval for a possible military offensive in the Gulf.

In the past France has been strictly opposed to any military operation without prior consent from the United Nations Security Council.

In Paris, Baker will also meet Manfred Woerner, secretary general of the North Atlantic Treaty Organisation.

BANGKOK, (NOV 9) - A Thai was arrested Friday on charges of possessing 16 kilograms (35.2 pounds) of pure white heroin powder bound for the United States, police said.

The haul was valued at at least 6.4 million dollars on the U.S. market, police

said.

The heroin, pressed into in 40, 400-gram bars, was concealed in a cardboard crate that was to be loaded aboard a U.S.-bound Northwest flight, police said.

Chanwit Sermsongsawat, 45, confessed to having been hired to deliver the crate to the office of an export company adjacent to a prominent night club in downtown Bangkok, police said.

Police said they had received a report from undercover agents that a suspiciously heavy crate was being handled in front of the office.

Three employees of the export company were also arrested but were later released for lack of evidence, police said, adding that they were searching for another Thai man who had fled the scene.

JOHANNESBURG (NOV 9) - The earnings of the mining group Anglovaal, boosted by interest on the company's cash resources of one billion rands (400 million dollars), will be better this year than in the financial year ended June 30, group chairman Basil Hersov predicted here Friday.

Mr. Hersov told shareholders at the annual general meeting the September quarter performance was an improvement on the same period last year, despite a fall in the profitability of the company's four gold mines.

Meanwhile Gold Fields of South Africa warned that a strike by more than 6,000 miners that has crippled production since last Sunday at the Libanon gold mine near Westonaria, west of here, could lead to lay-offs.

Miners downed tools to press claims for greater safety underground and to demand the dismissal of three white officials they hold responsible for the disappearance underground of a black miner on May 15.

NEW YORK (NOV. 9) - The United Nations Security Council renewed Friday its call for a negotiated settlement of the Cyprus conflict and expressed regret that a draft peace treaty has still not been submitted.

A statement issued by the president of the council said the 15 members were calling on the Greek and Turkish national groups in Cyprus to facilitate the process of negotiations by showing readiness for political action.

The two groups were urged to support the efforts of the Secretary General in

seeking a solution and to refrain from all acts and public statements which could imperil his efforts.

The Secretary General was asked to submit a report on his Cyprus efforts to the council by February 15, 1991.

SASKATOON, CANADA (NOV. 9) - The president of Canada's National Farmers Union complained Friday that the 12-nation European Econpomic Community (EEC) was more concerned with the needs of its farmers than was the Canadian Government.

Wayne Easter said: "We're opposed to the European Community's use of export subsidies. But at least they have a policy of supporting their farmers."

Mr. Easter complained that Ottawa was planning to halve domestic supports for Canadian farmers over a 10-year period.

He said Ottawa had taken its position of opposing farm subsidies in the current round of trade liberalization negotiations, which are being conducted under the auspices of the General Agreement on Tariffs and Trade (GATT), just to appease the United States.

"Our only hope," he maintained, "is Europe will continue to support its farmers and we'll have to protect ours."

SEOUL (NOV 9) - France and the United States are competing heavily to supply South Korea with eight anti-submarine patrol aircraft, local press reports said Friday.

The bidding war has caused Seoul to delay its purchase of the aircraft and lose several million dollars because the Korean won has in the meantime been devalued, the reports said. The deal is estimated at 800 million dollars.

The South Korean Defense Ministry initially picked French-made ATL2's over Lockheed's P3C's in an international bid last December, after the U.S. firm failed to satisfy aircraft maintenance conditions, the reports said.

The South Korean Navy had pushed for the U.S. aircraft because they were better suited for operations with U.S. forces, but the South Korean Defense Industry Research Institute said the P3C's were too costly to maintain.

U.S. defense officials two months ago offered the latest model of P3C's instead of the older one that the U.S. originally tried to supply, the reports

added.

France hopes to sell its ATL2's, made by the Dassault company, especially as South Korean Defense Minister Lee Sang-Hoon went to Paris last July to sign an agreement on military co-operation and weapons supplies.

General Lee was dismissed from the post last month following a military intelligence scandal.

DAR ES SALAAM, (NOV 10) - Tanzanian President Ali Hassan Mwinyi on Friday night named a 26-member cabinet in which he brought in new faces and created 10 new ministries but retained 17 previous ministers.

He announced the new cabinet seven hours after swearing in his new 56-year-old Prime Minister, John Malecela, who succeeded Joseph Warioba, now demoted to head the new ministry of regional administration and local government.

The new ministers were Edward Lowassa, minister of state in the prime minister's office; Horace Kolimba, minister without portfolio; Philemon Sarungi health, and Abubakar Yusuf Mgumia, tourism, natural resources and environment.

Others were Dr. William Shija (science, technology and higher education) and Augustine Mrema (home affairs).

Among the old faces retained in the new cabinet were former information and broadcasting minister Hassan Diriya, who now moves to become minister for foreign affairs and international relations, replacing Ben Mkapa, who takes over from Mr. Diriya.

Mr. Mwinyi also retained his former state minister for planning, Kighoma Malima and the minister of state for the civil service, Fatuma Said Ali.

Mr. Mwinyi, who now retains the defence portfolio, also appointed former education minister Amrani Mayagila to become minister of state for defence and national service in the president's office.

He also named six deputy ministers to assist ministers with larger portfolios, noting that he would bring in more when the need arose.

#90313d8220 11/09/1990 ~French/German News Agency

LOS ANGELES, (NOV 9) - A U.S. judge Friday scheduled a hearing for next month on whether there is an out-of-court settlement in the Philippine Government's racketeering lawsuit against Imelda Marcos.

Attorneys for the former Philippine first lady say Manila has agreed to drop the suit in exchange for 60 per cent of the money Mrs. Marcos controls in Hong Kong bank accounts. The balance of the accounts has not been disclosed.

The Manila government had sued Mrs. Marcos in a bid to recover billions of dollars it alleges were stolen from government coffers during two decades of rule by the late Ferdinand Marcos. Manila says the groundwork for an agreement has been laid, but that there is no final settlement.

U.S. District Judge Mariana Pfaelzer set an evidentiary hearing for December 10. She said this was necessary because documents submitted by the two sides did not prove there an agreement.

Mrs. Marcos, who came to court but did not testify, complained she was tired of her legal travails -- she was acquitted in a federal fraud and racketeering trial earlier this year in New York -- and wanted to return home with her husband's body.

She told reporters there was in fact an agreement for Manila to drop its civil suit and that she did not know how much money was in the Hong Kong accounts.

Mr. Marcos died last year in Hawaii, where he and his wife fled after the 1986 popular revolt that ushed Corazon Aquino into power.

#90313e0022 11/09/1990 ~Latin America New Agency

GUATEMALA CITY (NOV. 9) EFE - As violence-weary Guatemala prepares to go to the polls Sunday, the race for president looks to be a contest of two leading right-wing candidates with a run-off between them expected in January.

The ruling Christian Democrats, already hampered by the hospitalization of their candidate, appear out of the running after trying to bring order to a country racked by 30 years of civil war that has claimed some 150,000 lives.

Faced with taking charge of a powerful Army, that is frequently accused by human rights activists of carrying out many of the killings in its attempts to wipe out left-wing guerrillas, the successor to President Vinicio Cerezo also faces a tottering economy with 50 percent inflation.

The current front-runner to get the job is Jorge Carpio Nicolle of the National Center Union who heads the opinion polls with 21 percent, four points ahead of the National Progressive Party's Alvaro Arzu.

But with some 29 percent of the country's 3.2 million voters still undecided on which way to vote, political analysts believe that a January 6 run-off will be needed in which Arzu is expected to pick up more of the transfer votes from other candidates.

Third-placed Jorge Serrano Elias of the Solidarity Action Movement could even be an outsider, having jumped six points to 15 percent in the latest survey, putting him ahead of the Christian Democrats' Alfonso Cabrera at nine percent.

Arzu, 44, a businessman and coffee grower, is a hard-liner who has promised to clamp down on leftist guerrillas, corruption and drug trafficking.

He has been vying with the other leading candidates for the votes that would have gone to former favorite Efrain Rios Montt, a retired general who led the country for 16 months after seizing power in 1982.

With Rios Montt ruled out under a constitutional clause which bans those who have taken part in coups from taking office, there have even been rumors of another military coup.

Political analyst Hector Rosadas believes Arzu is well placed to pick up the general's votes, with a similar manifesto "only more polished and better presented".

But a major stumbling block could be the former Guatamela City mayor's anti-guerrilla attitudes. Arzu says that he "will not talk with subversion if

they do not stop their acts of sabotage against the country's infrastructure."

He claims human rights violations are "not exclusive to the Army", although he acknowledges the military has been responsible for some and that he will clamp down on them.

He also says he will not share power with anybody, including the Army.

His answer to the country's problems is to wipe out poverty and misery "that are the source of violence in many parts of the country".

While Carpio, 58, is seen as less extremist, he has made similar promises to the population, 72 percent of whom live in extreme poverty.

He agrees that the civil war "must be stopped" while saying that he also plans to tackle inflation, and to generate investment and production to overcome the 40 per unemployment rate.

"We are going to make Guatemala an emporium of riches," said Carpio, brother of the country's current vice-president.

To cut the country's political violence, which has seen 13 leading politicians die in the run up to the elections, he is presenting his "Rainbow Plan" which promises 40 emergency measures to be introduced the day of his election.

Carpio, who is proposing Manuel Ayau, former candidate of the extreme right-wing National Liberation Movement, as his deputy, also says he will invite more people from different parties to join him in a government of "common direction".

The ruling Christian Democrats (DCG) blame "internal pressures" for their predicament in the polls.

Party leader Catalina Soberanis said "the deterioration of the government" began in 1988 when businessmen launched a campaign against the government's planned fiscal reforms.

She also blamed comments from U.S. Ambassador Thomas Stroock who recently described Guatemala as "a bridge in the trafficking of cocaine" from South America to the United States, as well as U.S. criticism of human rights violations in the country.

But political observers point to the worsening economy and increasing insecurity in the face of guerrilla attacks and crime for their demise.

Despite worsening social conditions, where one in 10 children die before the age of five, and 53 percent of women are illiterate, the DCG is still pushing itself as "men of the people" against the "rich men" of the other parties.

If, as expected, they lose, Soberanis has hinted at giving the party's backing to Arzu, who she describes as a "progressive neoliberal".

FRANKFURT (NOV. 9) EFE - Former West German chancellor Willy Brandt Friday flew home with some 200 Western hostages whose release from Iraq and Kuwait he negotiated with Iraqi President Saddam Hussein.

The Lufthansa Airbus carrying Brandt and the hostages home was scheduled to land in Frankfurt at 2000 GMT, airline officials said.

Brandt flew to Baghdad Monday and met with Saddam twice this week.

The hostages included some 140 Germans, and citizens from Italy, Britain, the Netherlands, the United States, France, Canada and Australia.

They also included at least 42 hostages who had been held at strategic installations as "human shields" against a possible attack from U.S.-led multinational forces deployed in the Gulf since Iraq invaded and annexed Kuwait three months ago.

Meanwhile Friday, ex-Danish prime minister Anker Joergensen and former New Zealand premier David Lange flew to Baghdad to push for the release of more hostages.

Iraqi officials will receive several Western delegations over the next few days. All of them are looking for Baghdad to allow some of the several thousand remaining Western hostages to leave.

#90313e0037 11/09/1990 ~Latin America New Agency

CAIRO (NOV. 9) EFE - The family home of the Egyptian-born alleged killer of extreme right-wing Israeli Rabbi Meir Kahane has become a Mecca for admiring Egyptians, Egyptian press reported Friday.

Fellow countrymen of Kahane's alleged killer, Sayed Aziz Nosayer, have flocked in droves to his widower father Abdel's home in the northeastern town of Port Fuad to extol the virtues of Egypt's most recent hero.

For most Egyptians, Kahane, who had called for the expulsion of all Arabs from Israel and the Occupied Territories, died in the fire of his own hate.

"Sayed did a great service to all Arabs and Moslems because Kahane was a criminal who wanted to expel our brothers, the Palestinians, from their

country and kill those who refused to abandon their lands," Abdo, a taxi driver from Cairo, told EFE.

"This man (Kahane) got his just reward," Abdo added, in response to the grief of Kahane's admirers in his radical Zionist Kach party.

Nayat Samir, a philosophy student from Cairo, reminded Israelis that the 1979 Camp David peace treaty between Egypt and Israel did not mean Egyptians have stopped supporting the Palestinian cause.

"The Israelis are mistaken if they think that because we signed the Camp David peace accord, we are going to forget about the inalienable rights of the Palestinian people," Nayat said.

For Nayat, in killing Kahane, Sayed scourged the world of one of the fiercest spokesman of "extremist Zionist anger" directed against "defenseless" Palestinians.

Sayed's father, Abdel, regards his son's act as an "honor" but laments the fact that his wife is not alive to share it with him.

Abdel, 60, told press Thursday that his son was "affected by extreme Zionism, and this perhaps was the motive that pushed him to kill Kahane".

But apart from his immediate concern for Sayed, who was wounded by a policeman in Monday's attack on Kahane in New York, Aziz's pride is also mixed with fear for the safety of his other four sons, the Egyptian daily Al Wafd reported Friday.

Kahane's murder has sparked at least two revenge killings in Israel.

Security force officials said Thursday that Egyptian Interior Minister Abdel Halim Musa is drawing up plans to keep tabs on Jews and Israelis in Egypt to prevent possible revenge attacks by Kahane's followers.

Abdel has said the Egyptian government should "protect his sons, especially Sayed, because he carried out a task that honors Egypt".

-30- 2651

#90313e0043 11/09/1990 ~Latin America New Agency

UNITED NATIONS (NOV. 9) EFE - United Nations Secretary General Javier Perez de Cuellar said Friday that the use of force against Iraq in the Gulf crisis would be justified under an article of the U.N. Charter.

He was responding to reporters who asked for his reaction to the United States' decision to send at least 100,000 more troops to the Gulf where a multinational force is massed to persuade Iraq to withdraw from Kuwait which

it invaded and annexed in August.

Perez de Cuellar, quoting Article 42 of the U.N. Charter, said the the use of force would be "legitimate".

Article 42 states that the U.N. Security Council "may take such action by air, sea or land forces as may be necessary to maintain or restore international peace and security".

The statement came as U.S. Secretary of State James Baker concluded a Middle East and European tour aimed at coordinating strategy of the U.S.-led forces in the Gulf and obtaining broad international consensus for military action against Iraq if economic sanctions fail to force it out of Kuwait.

The United States, Britain, the Soviet Union, France and China form the five permanent members of the Security Council. In his tour Baker has discussed with leaders of the other four the possbility of a Council resolution authorizing the multinational force to attack Iraq if it refuses to withdraw from Kuwait.

Any permanent member can veto a Security Council resolution.

Both the Soviet Union and China, which have not contributed to the multinational force, are believed to have told Baker they would not oppose a resolution sanctioning force to oust Iraq from Kuwait.

Military observers said the increased U.S. military presence in the Gulf would give the multinational force enough muscle to launch a successful offensive against Iraq.

"They must think that they should be prepared for military action, but I hope that all those involved give peace a chance," de Cuellar said of the U.S. build-up.

The secretary general said he was aware of a peace initiative by four non-permanent members of the Security Council which have proposed sending an Arab contingent to the Gulf and suggested that Perez de Cuellar mediate Iraq's territorial claims in Kuwait once Iraqi forces pull back to their pre-invasion borders.

"I am ready to do anything to find a peaceful solution," de Cuellar said of the initiative drawn up by Colombia, Yemen, Cuba and Malaysia.

#90313e0047 11/09/1990 ~Latin America New Agency

BRUSSELS (NOV. 9) EFE - Belgium Friday said a clandestine anti-communist network set up during the Cold War and allegedly linked to the secret services

of several NATO member countries still existed in Europe and asked for it to be dissolved.

Belgian Prime Minister Wilfried Martens and Defense Minister Guy Coeme told a press conference that officials of the secret network, Operation Gladio, held a meeting in Brussels two weeks ago.

Coeme said that until news of the Brussels meeting, the government did not know that the group, uncovered in Italy last month, had existed.

The defense minister said that a Belgian general currently holds the rotating presidency of Operation Gladio.

Coeme has called for an immediate investigation to determine if the network was involved in several right-wing terrorist attacks in Belgium during the 1980s involving robberies in which dozens of people were killed.

A recent report by the Italian government claimed that the clandestine committee which led the group was linked to the Supreme Headquarters Allied Powers Europe, NATO's European command.

At least seven NATO nations, Britain, France, the United States, Belgium, Luxembourg, the Netherlands and West Germany reportedly had ties to the network, set up in the 1950s to organize a resistance force in Western Europe in preparation for a possible Warsaw Pact attack.

When the network first became public, NATO military sources said there was no link between Operation Gladio and the military alliance.

BANGKOK (NOV. 9) XINHUA - THAILAND HAS DECIDED TO FOCUS ITS EXPORT DRIVE TO JAPAN NEXT YEAR AS PART OF ITS EFFORTS TO NARROW THE TRADE GAP BETWEEN THE TWO COUNTRIES.

THE DECISION WAS MADE RECENTLY FOLLOWING A MEETING BETWEEN THAI PRIVATE AND GOVERNMENT SECTORS TO REVISE THE COUNTRY'S EXPORT PROMOTION ACTIVITIES AFTER IRAQ INVADED KUWAIT ON AUGUST 2.

DEPARTMENT OF EXPORT PROMOTION DIRECTOR GENERAL CHALOR FUENGAROM WAS QUOTED AS SAYING BY LOCAL PRESS THAT JAPAN HAS THE HIGHEST POTENTIAL FOR THAI GOODS, AND AS SUCH THAILAND SHOULD PAY MORE ATTENTION TO JAPAN.

JAPAN IS THAILAND SECOND LARGEST MARKET AFTER THE UNITED STATES, WHICH IMPORTED WORTH 98,615 MILLION BAHT (3,944 MILLION U.S. DOLLARS) OF THAI PRODUCTS LAST YEAR, AN INCREASE OF 38 PERCENT OVER 1988.

#90313h0030 11/09/1990 ~Chinese News Agency

HONG KONG (NOV. 9) XINHUA - THE HONG KONG TRADE DEVELOPMENT COUNCIL HAS SET UP A CONSULTANT OFFICE IN BANGKOK TO BOOST TRADE WITH THAILAND, ACCORDING TO THE COUNCIL'S SPOKESMAN.

WITH THIS LATEST ADDITION, THE COUNCIL'S GLOBAL NETWORK NOW COVERS 32 OFFICES AND CONSULTANTS IN 23 COUNTRIES AND REGIONS IN THE WORLD.

THE SPOKESMAN SAID IN A PRESS RELEASE THURSDAY THAT IT IS THE SECOND TIME THIS YEAR THE TDC HAS APPOINTED A NEW CONSULTANT IN ASIA. THE COUNCIL APPOINTED ITS KOREAN CONSULTANT IN JANUARY.

THE APPOINTMENT REFLECTS THE TDC'S EMPHASIS ON THE ASIAN MARKET, WHICH NOW ACCOUNTS FOR 60 PERCENT OF HONG KONG'S TOTAL TRADE, HE SAID.

THE SPOKESMAN NOTED THAT THE MOVE IN BANGKOK UNDERLINES THE ROBUST GROWTH OF BILATERAL TRADE BETWEEN THAILAND AND HONG KONG IN RECENT YEARS.

THAILAND IS HONG KONG'S 14TH LARGEST TRADING PARTNER. THEIR TRADE TOTALLED 13.1 BILLION H.K. DOLLARS (1.68 BILLION U.S. DOLLARS) LAST YEAR AFTER A VIGOROUS GROWTH OF 36 PERCENT AND 27 PERCENT IN 1988 AND 1989 RESPECTIVELY, HE SAID.

THIS YEAR, HE SAID, HONG KONG HAS SURPASSED TAIWAN AND THE U.S. TO BECOME THE SECOND-LARGEST FOREIGN INVESTOR IN THAILAND. WITH A TOTAL OF 4.4 BILLION H.K. DOLLAR (564 MILLION U.S. DOLLAR) INVESTMENT, HONG KONG RANKS ONLY AFTER JAPAN.

ALTHOUGH THERE STILL EXIST IMPORT BARRIERS IN THE FORM OF THAILAND'S IMPORT LICENSING, HIGH TARIFFS AND TAXES, THE THAI GOVERNMENT'S PRESENT PRO-BUSINESS STANCE IS LIKELY TO LEAD TO A GRADUAL REDUCTION OF THESE BARRIERS IN THE FUTURE, THE SPOKESMAN SAID.

DHAKA (NOV. 9) XINHUA - AN AGREEMENT WAS SIGNED TODAY BETWEEN BANGLADESH MONGLA PORT AUTHORITY AND CHINA HARBOR ENGINEERING COMPANY FOR CAPITAL DREDGING OF MONGLA PORT TO INCREASE NAVIGABILITY AND FACILITATE SHIPS TO AND FROM THE PORT.

ACCORDING TO REPORTS REACHING HERE, THE WORK IS EXPECTED TO BE COMPLETED WITHIN 60 WEEKS AFTER THE START OF THE DREDGING WORK IN FEBRUARY 1991.

ON COMPLETION OF THE CAPITAL DREDGING OF THE BANGLADESH'S SECOND BIGGEST SEA PORT IN THE SOUTH AFTER CHITTAGONG, NAVIGABILITY WOULD BE EASIER AND SHIPS HAVING A DRAFT OF EIGHT METERS WOULD BE CONVENIENTLY BE CALLED AT THE PORT. EXPORT AND IMPORT OF CARGO THROUGH THIS PORT WOULD ALSO SUBSTANTIALLY INCREASE.

IT WOULD ALSO LINK THE PORT MORE FAVORABLY WITH THE NORTHERN REGION OF THE COUNTRY.

THE MONGLA PORT HAS EARNED A NET PROFIT OF 13 MILLION U.S. DOLLARS DURING THE 1989-90 FINANCIAL YEAR ENDING JUNE 30.

#90313h0035 11/09/1990 ~Chinese News Agency
BEIJING (NOV. 9) XINHUA - CHINA HAS DECIDED TO SUSPEND ITS DIPLOMATIC RELATIONS WITH NICARAGUA AS OF TODAY, ANNOUNCED THE CHINESE FOREIGN MINISTRY SPOKESMAN IN A STATEMENT HERE THIS AFTERNOON.

THE FOLLOWING IS THE FULL TEXT OF THE STATEMENT BY THE SPOKESMAN: ON NOVEMBER 1990, THE NICARAGUAN GOVERNMENT ANNOUNCED THE RESTORATION OF ITS SO-CALLED "DIPLOMATIC RELATIONS" WITH THE TAIWAN AUTHORITIES. THIS DECISION MADE BY THE NICARAGUAN GOVERNMENT NOT ONLY VIOLATES THE PRINCIPLES SET FORTH IN THE JOINT COMMUNIQUE ON THE ESTABLISHMENT OF DIPLOMATIC RELATIONS BETWEEN CHINA AND NICARAGUA, 1985 AND ITS COMMITMENT ON THE QUESTION OF TAIWAN, BUT ALSO RUNS COUNTER TO THE GOODWILL OF THE NICARAGUAN PEOPLE TOWARD THE CHINESE PEOPLE. THE GOVERNMENT OF THE PEOPLE'S REPUBLIC OF CHINA HAS DECIDED TO SUSPEND ITS DIPLOMATIC RELATIONS WITH NICARAGUA AS OF THIS DATE.

IT IS KNOWN TO ALL THAT THE GOVERNMENT OF THE PEOPLE'S REPUBLIC OF CHINA IS THE SOLE LEGAL GOVERNMENT OF CHINA AND THAT TAIWAN IS AN INALIENABLE PART OF THE CHINESE TERRITORY. WE ARE RESOLUTELY OPPOSED TO THE ESTABLISHMENT OF OFFICIAL RELATIONS AND EXCHANGES OF AN OFFICIAL NATURE WITH TAIWAN BY THOSE COUNTRIES HAVING DIPLOMATIC RELATIONS WITH CHINA. IN RECENT YEARS, THE TAIWAN AUTHORITIES HAVE, IN DISREGARD OF THE OVERALL INTERESTS OF THE CHINESE NATION, PURSUED THE SO-CALLED "ELASTIC DIPLOMACY" BY BUYING OVER OR USING OTHER FOUL MEANS AND INDUCED INDIVIDUAL COUNTRIES TO "ESTABLISH" OR "RESTORE DIPLOMATIC RELATIONS" WITH THEM IN AN ATTEMPT TO BRING ABOUT "DUAL RECOGNITION" AND TO

CREATE "TWO CHINAS" OR "ONE CHINA, ONE TAIWAN." SUCH ATTEMPT GOES AGAINST THE TAIWAN AUTHORITIES' OWN POSITION, NAMELY, "THERE IS ONLY ONE CHINA," AND WILL NEVER SUCCEED. THE CHINESE PEOPLE WILL EVENTUALLY REALIZE THEIR GREAT CAUSE OF NATIONAL REUNIFICATION.

THE CHINESE GOVERNMENT AND PEOPLE HIGHLY CHERISH THEIR FRIENDLY RELATIONS AND COOPERATION WITH NICARAGUA. IT IS OUR HOPE THAT THE NICARAGUAN GOVERNMENT WILL TAKE INTO CONSIDERATION THE LONG-TERM INTERESTS OF SINO-NICARAGUAN RELATIONS, CORRECT ITS ERRONEOUS DECISION OF "RESTORING DIPLOMATIC RELATIONS" WITH TAIWAN AND RETURN TO THE PRINCIPLED POSITION AS SET FORTH IN THE COMMUNIQUE ON THE ESTABLISHMENT OF DIPLOMATIC RELATIONS BETWEEN CHINA AND NICARAGUA.

HONG KONG (NOV. 9) XINHUA - THE 340 MILLION H.K. DOLLAR (44 MILLION U.S. DOLLAR) NEW HONG KONG SCIENCE MUSEUM WHICH WAS INAUGURATED THURSDAY WILL OPEN TO THE PUBLIC NEXT APRIL.

SITUATED IN TSIM SHA TSUI EAST, KOWLOON, THE MUSEUM OCCUPIES A SITE AREA OF 27,000 SQUARE METERS. THE FOUR-STOREY MUSEUM BUILDING HAS A TOTAL FLOOR AREA OF 13,500 SQUARE METERS, OF WHICH 7,250 SQUARE METRES ARE EXHIBITION GALLERIES.

EXHIBITS IN THE MUSEUM, OF WHICH SOME 60 PERCENT WILL BE "HANDS-ON" EXHIBITS, COVER FIVE MAJOR AREAS: ORIENTATION, SCIENCE, LIFE SCIENCE, TECHNOLOGY AND A KID ZONE SPECIALLY DESIGNED FOR THOSE AGED BETWEEN 3 AND 7.

EXHIBITS IN THE TECHNOLOGY AREA ARE FURTHER SUBDIVIDED INTO SECTIONS COVERING COMPUTERS AND ROBOTICS, ENERGY, COMMUNICATION, CONSTRUCTION, TRANSPORTATION, FOOD SCIENCE AND HOME TECHNOLOGY.

NEARLY HALF OF THE EXHIBITS HAVE BEEN SELECTED FROM THE BEST AROUND THE WORLD, THE OTHER HALF BEING ORIGINAL DESIGNS CREATED JOINTLY BY LOCAL AND OVERSEAS EXPERTS. EMPHASIS HAS BEEN PLACED ON EXHIBITS DESIGNED WITH SPECIAL RELEVANCE TO HONG KONG AND THE CHINESE MAINLAND.

ABOUT ONE-THIRD OF THE 340 MILLION H.K. DOLLAR BUDGET FOR THE MUSEUM IS FOR EXHIBIT FABRICATION AND INSTALLATIONS.

LUSAKA (NOV. 9) XINHUA - ZAMBIA HAS BEEN SELECTED BY THE INTERNATIONAL LABOR ORGANIZATION (ILO) AND OTHER INTERNATIONAL BODIES TO HOST A THREE-DAY REGIONAL "THINK TANK" MEETING FOR HEADS OF THE NATIONAL DRUG CONTROL AGENCIES, ZAMBIA DAILY MAIL REPORTED TODAY.

THE THREE-DAY ANTI-DRUG MEETING OF THE SOUTHERN AFRICAN REGION IS SCHEDULED TO

OPEN ON DECEMBER 3 IN LIVINGSTONE AND WILL FOCUS ON THE IMPORTANCE OF ESTABLISHING A COMPREHENSIVE AND COHERENT NATIONAL STRATEGY AND POLICY FOR THE PREVENTION AND REDUCTION OF DRUG AND ALCOLHOL PROBLEMS.

THE PAPER SAID THAT THE WAR ON DRUG ABUSE IS PICKING UP AS DRUG ABUSE HAS BECOME VERY SERIOUS IN THE REGION.

EARLY LAST MONTH, ZAMBIAN MINISTER OF HOME AFFAIRS GENERAL KINGSLEY CHINKULI LED A GROUP OF LAW ENFORCEMENT OFFICERS TO DESTROY 394,000 MANDRAX TABLETS AND 5.5 KILOGRAMS OF HEROIN WORTH 74 MILLION KWACHA (40 KWACHA EQUAL ONE U.S. DOLLAR).

IN LATE OCTOBER, HEROIN WEIGHING 65 GRAMS WITH A STREET VALUE OF 328,500 KWACH WAS FOUND IN A ZAMBIA AIRWAYS AIRCRAFT TOILET.

THE DRUG ENFORCEMENT COMMISSION ANNOUNCED RECENTLY THAT IT IS INVESTIGATING THE ACTIVITIES OF A HIGHLY SOPHISTICATED DRUG SYNDICATE BELIEVED TO BE OPERATING BETWEEN ZAMBIA AND NEIGHBORING COUNTRIES AND THAT SOME PEOPLE HAVE BEEN PICKED UP FOR QUESTIONING.

BETWEEN JANUARY AND OCTOBER THIS YEAR, MORE THAN ONE MILLION TABLETS OF MANDRAX WORTH 180 MILLION KWACHA WERE SEIZED ALONG WITH 535 KILOGRAMS OF GANNABIS AND 690 TABLETS OF DIAZEPEM.

MOREOVER, DRUG PEDDLING HAS REPORTEDLY ENGULFED SOME MEDICAL INSTITUTIONS IN THE SOUTHERN AFRICAN COUNTRY INCLUDING THE UNIVERSITY TEACHING HOSPITAL.

ANKARA (NOV. 9) XINHUA - THE U.S. TEXTILE IMPORT QUOTAS FROM TURKEY WILL INCREASE BY 50 PERCENT, "A DECISIVE STEP IN TURCO-AMERICAN TRADE," THE "TURKISH DAILY NEWS" REPORTED TODAY.

THIS WAS DECIDED FOLLOWING THE MEETING LAST WEDNESDAY BETWEEN U.S. SECRETARY OF STATE JAMES BAKER AND TURKISH PRESIDENT TURGUT OZAL IN ANKARA, STATE MINISTER MEHMET YAZAR WAS QUOTED AS SAYING.

THE U.S. TEXTILE QUOTAS INCREASE IS CONSIDERED AS A MEASURE FOR COMPENSATION FOR TURKEY'S LOSSES DUE TO THE GULF CRISIS.

IN THE FIRST EIGHT MONTHS OF THIS YEAR, TURKEY EXPORTED 234.9 MILLION DOLLARS WORTH OF TEXTILES AND READY-TO-WEAR PRODUCTS TO THE U.S. THE TOTAL TEXTILE EXPORTS TO THE U.S. AMOUNTED TO 368 MILLION DOLLARS IN 1989.

WITH THE PROPOSED INCREASE IN QUOTAS, TURKISH TEXTILE EXPORTS TO THE U.S. ARE EXPECTED TO REACH 550 TO 600 MILLION DOLLARS IN 1991.

BEIJING (NOV. 9) XINHUA - TIANJIN HAS COMMENCED REPAYMENT OF DEBTS OWED TO OVERSEAS FINANCIAL ORGANIZATIONS ON SCHEDULE, PEOPLE'S DAILY REPORTED TODAY.

ACCORDING TO THE TIANJIN ADMINISTRATION OF EXCHANGE CONTROL, 94 PERCENT OF THE CITY'S LOANS ARE MEDIUM AND LONG-TERM LOANS, WHILE THE REMAINDER ARE SHORT-TERM.

THE OVERSEAS EDITION OF THE PAPER SAID THAT THE TIANJIN MUNICIPAL GOVERNMENT HAS PAID CLOSE ATTENTION TO THE USE AND MANAGEMENT OF LOANS FROM THE TIME IT STARTED TO BORROW.

THE CITY GOVERNMENT INITIATED A UNIFIED PLAN AND HAS JOINTLY APPROVED THE USE OF FOREIGN FUNDS WITH CONCERNED DEPARTMENTS, WHILE STRICTLY LIMITING THE NUMBER OF GUARANTORS.

IN ADDITION, THE MUNICIPALITY HAS TRACED THE PACE, CHANGE AND TRENDS IN DEBT REPAYMENT IN A BID TO ENSURE THAT PAYMENTS ARE ON SCHEDULE AND TO MAINTAIN THE COUNTRY'S REPUTATION.

#90313h0068 11/09/1990 ~Chinese News Agency
BEIJING (NOV. 9) XINHUA - CHINA'S SPECIAL ECONOMIC ZONES SAW A STEADY INCREASE IN BOTH EXPORTS AND IMPORTS IN THE FIRST NINE MONTHS OF THIS YEAR. THEIR TOTAL TRADE VOLUME HIT 10.637 BILLION U.S. DOLLARS-WORTH, 11 PERCENT MORE THAN IN THE SAME PERIOD LAST YEAR AND ACCOUNTING FOR 13.7 PERCENT OF CHINA'S TOTAL IMPORT AND EXPORT VOLUMES IN THAT PERIOD.

ACCORDING TO THE GENERAL ADMINISTRATION OF CUSTOMS, THE FOUR ECONOMIC ZONES EXPORTED 5.551 BILLION U.S. DOLLARS-WORTH OF GOODS, UP 21.4 PERCENT OVER THE SAME PERIOD LAST YEAR, AND IMPORTED 5.086 BILLION U.S. DOLLARS-WORTH, UP 14.7 PERCENT -- ACCOUNTING FOR 14.7 PERCENT AND 13.9 PERCENT OF CHINA'S TOTAL EXPORT AND IMPORT VOLUMES, RESPECTIVELY.

OF ALL THE SPECIAL ECONOMIC ZONES, SHENZHEN CONTINUES ITS LEAD IN BOTH EXPORTS AND IMPORTS. IN THE FIRST NINE MONTHS OF THE YEAR IT EXPORTED 3.667 BILLION U.S. DOLLARS-WORTH AND IMPORTED 3.271 BILLION U.S. DOLLARS-WORTH, UP 15.9 PERCENT AND 7.5 PERCENT, RESPECTIVELY. ITS EXPORTS AND IMPORTS ACCOUNTED FOR 66.1 PERCENT AND 64.3 PERCENT OF THE TOTAL TRADE VOLUME OF THE FOUR SPECIAL ECONOMIC ZONES.

#90313h0122 11/09/1990 ~Chinese News Agency

RIO DE JANEIRO (NOV. 9) XINHUA - BRAZIL'S AUTO MANUFACTURERS ARE EXPECTED TO SEE A FALL OF 9 TO 10 PERCENT IN PRODUCTION THIS YEAR IN COMPARISON WITH 1989, ACCORDING TO INDUSTRY SOURCES.

THE PRESIDENT OF THE NATIONAL ASSOCIATION OF AUTOMOTIVE VEHICLE MANUFACTURERS (ANFAVEA), JACY MENDOCA, TOLD REPORTERS TODAY THAT AT THE CURRENT PRODUCTION RATE, THE NUMBER OF CARS ASSEMBLED THROUGHOUT THE COUNTRY IN DECEMBER WOULD ONLY ADD UP TO 927,000 VEHICLES.

MENDOCA ESTIMATES THAT SALES THIS YEAR WILL BE ABOUT 3 PERCENT LESS THAN LAST, OR 738,000 VEHICLES.

THE FIRST 10 MONTHS OF THE YEAR, HE SAID, SAW A 13.11 PERCENT FALL IN PRODUCTION AND A 10.02 REDUCTION IN DOMESTIC CAR SALES.

THE FALL IN PRODUCTION HAS BEEN MAINLY ATTRIBUTED TO A LACK OF RAW MATERIALS AND PERSISTANT WORKER STRIKES.

-30- 965

#90313h0152 11/09/1990 ~Chinese News Agency

BEIRUT (NOV. 9) XINHUA - WORKERS AT ONE OF LEBANON'S MAIN POWER PLANTS WENT ON STRIKE TODAY TO SUPPORT STRIKERS AT ANOTHER ELECTRICITY STATION IN A WORK STOPPAGE THAT IS THREATENING TO BLACK OUT MOST OF THE COUNTRY.

THE STATE-RUN LEBANESE TELEVISION REPORTED THAT WORKERS AT THE COUNTRY'S LARGEST ELECTRICITY STATION, THE ZOUQ THERMO-FACTORY, SOME 15 KILOMETERS NORTH OF THE CAPITAL OF BEIRUT, STAGED AN OPEN STRIKE TODAY IN SOLIDARITY WITH THEIR COLLEAGUES AT THE JIYEH POWER PLANT SOUTH OF BEIRUT, WHO WENT ON STRIKE THURSDAY.

THE STRIKES, TOGETHER WITH A SIX-DAY-OLD ELECTRICITY CRISIS CAUSED BY A DEPLETION OF FUEL TO FEED STATE-RUN ELECTRICITY STATIONS, ARE SERIOUSLY THREATENING TO BLACK OUT THE CAPITAL CITY AS WELL AS OTHER PARTS OF THE COUNTRY IN THE COMING WEEK, LOCAL PRESS SAID.

ELECTRICITY SUPPLIES IN BEIRUT AND NEARBY SUBURBS HAVE BEEN CUT SINCE LAST SATURDAY WHEN THE ZOUQ PLANT, THE MAJOR POWER SUPPLIER FOR THE CAPITAL AREA, RAN OUT OF FUEL AND IMPORTED DIESEL FAILED TO ARRIVE IN TIME.

RUNNING WATER SUPPLIES HAVE ALSO BEEN STOPPED BECAUSE THERE IS NO POWER FOR PUMPS.

THE TELEVISION REPORT SAID THE STRIKERS WERE DEMANDING IMPROVED WORKING CONDITIONS AND BETTER PAY. THE JIYEH PLANT SUPPLIES CITIES, TOWNS AND VILLAGES IN SOUTHERN AND EASTERN LEBANON, WHILE THE ZOUQ PLANT PROVIDES POWER FOR THE CAPITAL AREA AND THE NORTHERN REGION.

EARLIER REPORTS SAID A 15,000-TON SHIPMENT OF FUEL HAD BEEN DELAY- ED BUT A BIGGER SHIPMENT OF 60,000 TONS WAS DUE IN BEIRUT ON SATURDAY.

NORMALLY, BEIRUT IS KEPT ALIVE BY PART TIME SUPPLIES BY STATE-RUN POWER STATIONS AS WELL AS AN ESTIMATED 200,000 PRIVATE PETROL-POWERED ELECTRICAL GENERATORS.

DURING THE PAST FEW YEARS, WATER AND ELECTRICITY SUPPLIES HAVE BEEN FREQUENTLY DISRUPTED BY FIERCE BATTLES OF THE 15-YEAR CIVIL WAR WHICH HAS DAMAGED OR DESTROYED MUCH OF THE COUNTRY'S INFRASTRUCTURE.

Nightline (ABC) November 8, 1990 (Transcript #2469)

More Troops, More War Speculation: Former Secretary of State Henry Kissinger and Former Secretary of the Navy James Webb discuss President Bush's announcement of the deployment of more U.S. forces to the Persian Gulf ''to ensure... an adequate offensive military option'' for the coalition against Iraq. Why such a dangerous move? Bush has put Saddam Hussein and the U.S. at loggerheads with his insistence on unconditional withdrawal; if Hussein does not withdraw, will we go to war to force him out?

Crossfire (CNN) November 8, 1990 (Transcript #178)

The War Option: Former CIA Director William Colby and military strategist Edward Luttwak discuss war as a possible option for the U.S. in the Persian Gulf.

Good Morning America (ABC) November 8, 1990 (Transcript #1149)

Jordan's refugees; conservatism at Dartmouth; Kevin Costner interview (Part 1); reversing heart disease; Ronald Reagan interview (Part 4 -- efforts toward peace with USSR); air bags; Queen Ida's jambalaya; history in comics; taxless child care and medical bills; Dom DeLuise interview.

Larry King Live (CNN) November 8, 1990 (Transcript #166)

''The Noriega Tapes'' (Manuel Noriega's attorney Frank Rubino and former federal prosecutor Mark Schnapp discuss CNN's claim to have tapes made of Noriega's telephone conversations with legal counsel); ''Penn and Teller'' (the magicians discuss their current nationwide tour and perform amazing feats).

Primetime Live (ABC) November 8, 1990 (Transcript #166)

''Detroit's Agony'' (Detroit's poverty, crime and reverse apartheid may represent the future of American cities); ''At What Cost?'' (what will happen if the U.S. goes to war in the Persian Gulf?); ''Murphy Brown'' (the anatomy of a successful TV sitcom); ''Business as Usual -- Follow-Up'' (an update on Congressional junkets).

Sally Jessy Raphael November 8, 1990 (Transcript #569)

Rock Groupies: Rock star groupies talk about their lifestyle; former groupies Angela Bowie, Pamela Des Barres and Lori Mattix discuss their experiences. Musician Greg Giuffria shares his views on groupies.

Oprah Winfrey Show November 8, 1990 (Transcript #1084)

Soap Casanovas: Drake Hogestyn of Days of Our Lives, Joe Lando of One Life to Live, Brad Lockerman of General Hospital, Ronn Moss of The Bold and the Beautiful, Nathan Purdee of The Young and the Restless and Walt Willey of All My Children -- America's favorite leading men from daytime soap operas -- share their inside stories.

Geraldo November 8, 1990 (Transcript #821)

Sex, Secrets and Society Scandals: Journalists and reporters from various entertainment shows and newspapers discuss the latest gossip involving people like the Count and Countess de La Moussaye, Madonna, Cher, Keenen Ivory Wayans and more.

Friday's Line-Up: (To be summarized in tomorrow's Daily Report) Donahue: Bo Jackson Sally Jessy Raphael: Mother & Daughter Strippers Geraldo: Brief Report Oprah Winfrey: The Secret Life of Patty Duke Adam Smith's Money World: The

Housing Bust 20/20: Challenger (program for family crises); Autistic Savant (Henrietta Giangini); Bugs (roach spray manufacturers). 60 Minutes: If Push Comes to Shove (ADATS missile launcher); I Thought I Was Covered (medical insurance); Traficant (Rep. Jim Traficant (D-OH)).

#90313k0015 11/09/1990 ~Japanese News Agency

TOKYO (NOV. 9) KYODO - NIIGATA ENGINEERING CO. SAID FRIDAY IT WILL BUY A TAIWANESE CASTING AND STEELING MAKER IN TAOYUAN, SOUTHWEST OF TAIPEI, FOR 28 MILLION TAIWAN DOLLARS (ABOUT 130 MILLION YEN).

THE PURCHASE OF YOUTH SUN STEEL INDUSTRIAL CO. WILL BE COMPLETED SHORTLY AND NIIGATA ENGINEERING WILL SET UP A NEW FIRM TO BE NAMED NIIGATA CAST STEEL (TAIWAN) LTD. IN TAIWAN WITHIN THIS MONTH.

THE FIRM WILL BE CAPITALIZED AT 40 MILLION TAIWAN DOLLARS (SOME 188 MILLION YEN), OFFICIALS OF THE COMPANY SAID.

WITH AN EXPECTED PRODUCTION OF 40 TONS PER MONTH, THE FIRM WILL START INDUSTRIAL MACHINE PARTS PRODUCTION IN DECEMBER, THEY ADDED.

-30- 797

#90313k0022 11/09/1990 ~Japanese News Agency

TOKYO (NOV. 9) KYODO - ECONOMIC EXPERTS FROM JAPAN AND CHINA WILL MEET IN BEIJING ON NOVEMBER 27 FOR THE FIRST TIME SINCE LAST YEAR'S TIANANMEN SQUARE INCIDENT TO DISCUSS BILATERAL ECONOMIC AFFAIRS, OFFICIALS AT THE ECONOMIC PLANNING AGENCY SAID FRIDAY.

THE BILATERAL ECONOMIC MEETING HAD BEEN HELD YEARLY SINCE 1980 BUT WAS CANCELED LAST YEAR DUE TO BEIJING'S BLOODY JUNE 4 CRACKDOWN ON PRODEMOCRACY DEMONSTRATORS.

THE JAPANESE REPRESENTATIVES WILL INCLUDE SHINYASU HOSHINO, DEPUTY DIRECTOR GENERAL OF THE ECONOMIC PLANNING AGENCY (EPA), WHO IS SCHEDULED TO MEET HIGH-RANKING OFFICIALS SUCH AS ZOU JIAHUA, MINISTER OF THE STATE PLANNING COMMISSION, TO DISCUSS CHINA'S EIGHTH FIVE-YEAR ECONOMIC PLAN AND OTHER

MATTERS, THE OFFICIALS SAID.

-30- 911

#90313k0051 11/09/1990 ~Japanese News Agency

TOKYO (NOV. 9) KYODO - CHIYODA CORP., A MAJOR JAPANESE PLANT ENGINEERING FIRM SAID FRIDAY IT IS NEGOTIATING TO BUY A STAKE IN A CZECH GENERAL ENGINEERING COMPANY.

CHIYODA IS SEEKING A 10 TO 20 PERCENT CAPITAL STAKE IN THE CHEPOS GROUP AND HOPES TO SEND EXECUTIVES TO TAKE PART IN MANAGEMENT AS WELL.

A CHIYODA OFFICIAL SAID THE TWO COMPANIES WILL SIGN A CONTRACT AROUND JANUARY.

THE MOVE IS PART OF CHIYODA'S PLAN TO EXPAND INTO EASTERN EUROPE, HE SAID. THIS WOULD BE THE FIRST TIME THAT A JAPANESE FIRM TAKES PART IN MANAGEMENT OF AN EAST EUROPEAN COMPANY SINCE THE RECENT DEMOCRATIZATION OF THE REGION, HE ADDED.

ACCORDING TO THE OFFICIAL, THE CHEPOS GROUP CONSISTS OF NINE COMPANIES IN FIELDS RANGING FROM HEAVY INDUSTRIAL MACHINERY TO ENGINEERING AND CONSTRUCTION.

IT WAS PRIVATIZED IN APRIL WITH CAPITAL OF 20 MILLION KORUNAS (ABOUT 100 MILLION YEN). ITS PRIMARY BUSINESS NOW IS MACHINERY TRADING.

CHIYODA WAS INVOLVED IN JOINT PLANT PROJECTS WITH THE CZECH GROUP IN SUCH COUNTRIES AS THE SOVIET UNION AND IRAQ EVEN BEFORE CHEPOS' PRIVATIZATION, HE SAID.

-30- 1248

#90313k0054 11/09/1990 ~Japanese News Agency

TOKYO (NOV. 9) KYODO - THE FINANCE MINISTRY IS CONSIDERING LOWERING RATES FOR AUTOMOBILE LIABILITY INSURANCE NEXT APRIL BECAUSE OF A SURPLUS IN ITS INSURANCE ACCOUNT, MINISTRY SOURCES SAID FRIDAY.

THE RATE REDUCTION, THE FIRST SINCE THE INSURANCE SYSTEM WAS INAUGURATED IN 1955, WILL BE RECOMMENDED NEXT WEEK AT A MEETING OF AN ADVISORY PANEL TO THE FINANCE MINISTER, WHICH IS EXPECTED TO DECIDE THE SCALE OF THE RATE CUT AND OTHER DETAILS BEFORE THE END OF THE YEAR.

LIABILITY INSURANCE IS AN OBLIGATORY POLICY COVERING CAR OWNERS FOR DAMAGE CAUSED TO OTHER CARS OR THEIR OCCUPANTS IN ACCIDENTS. THE OWNER OF A PASSENGER CAR NOW PAYS 41,850 YEN FOR TWO YEARS' COVERAGE.

THE MINISTRY'S INSURANCE ACCOUNT HAS BEEN IN THE BLACK SINCE FISCAL 1985, MIRRORING THE BOOMING SALES OF AUTOMOBILES IN RECENT YEARS.

THE SOURCES SAID MOST MINISTRY OFFICIALS WANT A RATE CUT OF ABOUT 5 PERCENT, WHILE SOME FAVOR RAISING THE CEILING FOR COMPENSATION, THUS BRINGING DOWN THE RATES IN REAL TERMS.

-30- 1173

#90313k0078 11/09/1990 ~Japanese News Agency

TOKYO (NOV. 9) KYODO - HONDA MOTOR CO. ANNOUNCED FRIDAY THAT IT IS RECALLING 56 CARS FITTED WITH DEFECTIVE AIR BAGS.

THE AIR BAGS HAVE DEFECTIVE INFLATORS PRODUCED BY THOMPSON RAMO WOOLDRIDGE OF CLEVELAND, OHIO, HONDA OFFICIALS SAID.

THE DEFECTIVE AIR BAGS WERE FOUND IN LEGEND, ACCORD INSPIRE, AND VIGOR MODELS MANUFACTURED BETWEEN OCTOBER 1988 AND JUNE 1990, THE OFFICIALS SAID.

OF THE 56 CARS, 12 WERE SOLD IN JAPAN AND THE REMAINING 44 EXPORTED TO THE U.S.

FORD MOTOR CO., WHICH HAS ALSO USED AIR BAGS WITH DEFECTIVE INFLATORS FROM THE SAME U.S. COMPANY, IS RECALLING ABOUT 3,000 CARS.

-30- 758

#90313m0001 11/09/1990 ~Market Consensus Surveys

FALLS CHURCH, VA (NOV. 9) MCS - A SAMPLING OF TODAY'S COMMENTARY COMPILED BY MARKET CONSENSUS SURVEYS, INC. IN TWO SECTIONS (1) STOCKS (2) MONEY & ECONOMY.

The LABOR DEPARTMENT says the producer price index rose 1.1% in October.

The Nikkei loses 38 points. ... The FTSE is up 6 points in afternoon trading. ... The long bond is yielding 8.70% ... The dollar is mixed. ... North Sea crude is down 70 cents to $34.10. ... Major retailers report soft sales in October. J.C. PENNEY was off 6.3% from same- store sales a year earlier, MAY was down 4.4%, THE LIMITED was down 1% and SEARS was down 0.4%. WAL-MART posted a 10% gain. ... The FEDERAL RESERVE says consumer debt rose $3 billion in September, compared to $3.1 billion in August. ... DISNEY reports a 9% increase in fourth-quarter net. ... RJR NABISCO sells its 20% stake in ESPN to HEARST for an undisclosed amount. ... Yields on 30-year TREASURY bonds fall to the lowest level in nine months, an average of 8.71% compared to 8.87% in the August 9 auction. ... FIRST INVESTORS CORP. says it is halting sales of its two junk bond funds.

WHAT'S AHEAD:

EASTERN AIRLINES is asking its bankruptcy for $30 million from an escrow fund to keep operating, maintaining that bookings are up with a new first-class marketing strategy.

FROM THE BULLS:

"The stock market is in the midst of setting an important bottom before the economy hits its trough next year," says ROBERT BRINGER, editor of "Marketimer" newsletter. "We think the Dow Jones industrial average's close of 2365 on Oct. 11 was a major bottom. We could test that again and get a new closing low. But if that happens, we're not concerned. It will just be an opportunity get stocks at cheaper prices." ("USA Today", 11/9)

"The stock market has been showing good resilience," says MICHAEL METZ, an analyst at OPPENHEIMER & CO. "I think the stock market has paid for most of the war scare. If anything, I think we are in the last phase of the impact of the Middle East crisis. I don't expect a big crack in the market. My feeling is the Dow is in a trading range between 2400 and 2500. I look for it to move considerably higher from that range, perhaps in a matter of weeks." ("Investor's Daily", 11/9)

FROM THE BEARS:

STEVE KROLL, head of SHEARSON LEHMAN ADVISORS, says he is "very bearish" on the market "because we're in a severe recession - worse than people think. Corporate earnings will be terrible." He says he is not "looking for anything apocalyptic, just lower and lower stock prices." He sees the Dow at 2200 between now and the first quarter. ("USA Today", 11/9)

STOCK MARKET:

"Historically, crisis periods have led to very good opportunities for the market," says EUGENE PERONI at JANNEY MONTGOMERY SCOTT. "I'm not sure we're at a decisive bottom just yet, but I think it's time to be shopping for stocks to be accumulating positions and dollar-cost averaging here from these levels." (CNBC "Market Wrap-Up", 11/8)

"Traders should enjoy a strong rally from the long side," says ARCH CRAWFORD of the "Crawford Perspectives." Stock patterns suggest a bottom in its final stages, according to Crawford. "Downside momentum has been broken but the only uptrend is in the utilities," he says. A weak rally would take the Dow back to 2607 while a strong one would test 2757. Crawford, who considers astrological factors in his market analysis, says Dec. 2 will see the most powerful moon since the Great Crash, indicating both danger and opportunity for traders. (CNBC "World Business", 11/9)

"The stock market acted fairly well for most of the day," says DENNIS JARRETT at KIDDER, PEABODY. "It was primarily that flurry of sell programs around 3 o'clock that knocked the wind out of the bulls." ("The Washington Post", 11/9)

"The delayed press conference [by PRESIDENT BUSH] made the market nervous

beyond anything that Bush announced," says SID DORR at CHARLES SCHWAB in San Francisco. ("USA Today", 11/9)

"I didn't hear anything new" in the Bush press conference, says BRIAN TAGLER at SHEARSON LEHMAN BROTHERS. He said the market pushed higher on expectation than it would have "on what we know now" that came from the press conference. (NYT, 11/9)

"This whole month of November will be focusing on what's happening militarily in the Middle East and around the world and on the oil price," says ROBERT STOVALL of STOVALL/TWENTY-FIRST ADVISERS. "I think building cash at this time makes a lot of sense." (CNBC "Market Wrap- Up", 11/8)

"These abrupt changes in direction mean investors are confused," says STEVEN EINHORN at GOLDMAN SACHS. "They are marching to moment-to-moment things, rather than focusing on fundamentals. That's bothersome." (WSJ, 11/9)

"There's a gradual turn in earnings, not with all companies, but in the aggregate," says DAVID BOSTIAN at JESUP, JOSEPHTHAL. "Companies have been getting more lean and mean, due to global competition and in preparation for a recessionary climate, for the past year - long before the economy woke up to it." He says that could bode well for an earnings-driven stock market that has already discounted most economic bad news. ("USA Today", 11/9)

STOCK TIPS:

HEALTHCARE COMPARE CORP., a health-cost management service, is "Stock of the Week" in "Investor's Daily." The stock has more than doubled this year and has outperformed 99% of all other issues during the past 12 months. "It's more a question of their earnings momentum being exceptionally strong in an environment where very few companies can say that," says SALOMON BROTHERS INC. analyst MARGO VIGNOLA. She describes this stock as being "right for the times." ("Investor's Daily", 11/9)

Last week, 83% of insider transactions were purchases, says K. C. GRAINGER, portfolio strategist at JESUP, JOSEPHTHAL. But Grainger says almost all the buying was concentrated in American Stock Exchange and OTC issues, not in Blue Chips. Insider purchases run contrary to a lack of broader market interest in secondary stocks, says Grainger who notes that a seat on the AMEX sold for $87,000 recently after going for $500,000 three years earlier. "Secondary stocks are a great opportunity for the individual investor if you're patient," says Grainger. Some of Grainger's favorites: LAMSON & SESSIONS, DEL WEBB, and shipper OMI. (CNBC "World Business", 11/9)

"For AT&T, [a merger] would be positive if they spin off the computer operation to NCR," says FRANK GOVERNALI at FIRST BOSTON. "It's a troubled operation and it's not perfectly clear that it's a necessary thrust for AT&T. They're doing great in long-distance." NCR stock jumped 5 7/8 to 53 7/8

yesterday on a report the two were discussing combining their computer business. AT&T was off 1/2 to 33 1/8. ("USA Today", 11/9)

The "Heard on the Street" column in "The Wall Street Journal" this morning says: "Speculators say there may be light at the end of EAGLE-PICHER INDUSTRIES' tunnel of asbestos litigation - and this time, they could be right." The stock shot up to 3 1/4 this week on news that a federal judge apparently is on the verge of consolidating all claims against the company into a single class action. "The problem is, no one has been able to quantify the risk to shareholders," says ELIZABETH PEARCE at ANDERSON CAPITAL MANAGEMENT, which has purchased more than 100,000 shares of the stock. (WSJ, 11/9)

STEVE KROLL, head of SHEARSON LEHMAN ADVISORS, is very bearish on the market, but still holds RALSTON PURINA, COCA-COLA, AMERICAN BRANDS, COLGATE-PALMOLIVE and DUKE POWER for his investors. He also likes GILLETTE, UPJOHN, JOHNSON & JOHNSON and SYNTEX. Besides Duke Power, he also likes SOUTHERN CO. DETROIT EDISON, SOUTHERN CALIFORNIA EDISON and DELMARVA POWER & LIGHT among the utilities. ("USA Today", 11/9)

#90313m0003 11/09/1990 ~Market Consensus Surveys

FALLS CHURCH, VA (NOV. 9) MCS - A SAMPLING OF TODAY'S COMMENTARY COMPILED BY MARKET CONSENSUS SURVEYS, INC. IN TWO SECTIONS (1) STOCKS (2) MONEY & ECONOMY.

MONEY & CREDIT:

The dollar got help yesterday from a disclosure by PIERRE BEREGOVOY, the French economics minister, that he has asked TREASURY SECRETARY NICHOLAS BRADY for help in seeking coordinated action to prop up the dollar. "I don't think that the United States has an interest in the sustained and accentuated decline of the dollar," says Beregovoy. "The [currency] market is very nervous and is looking for any kind of intervention by the central banks," says BOB MORRISSEY at the BANK OF BOSTON's New York office. (NYT, 11/9)

"If someone had said two weeks ago that this auction would go smoothly, and that yields would come in at these levels, you would have thought they were crazy," says MICHAEL MARTINO at BACK BAY ADVISORS. "Each auction was well received - on paper the three-year was the best," says PATRICK ROTHSTEIN at MERRILL LYNCH. (WSJ, 11/9)

"The long-bond auction provides a pulse," says JAMES SOLLOWAY, economist at ARGUS RESEARCH. "If the auction goes badly, it can set the tone for the [bond] market for the next several weeks." ("USA Today", 11/9)

With foreign demand for new Treasury bonds light, one government bond dealer

says, "The Street owns this issue, but at least it was able to beat the market down before it bought the bonds." KRISTEN FOSTER at CITICORP INVESTMENT BANK says that "given the light foreign demand and the continued uncertainties about the Middle East, there seemed to be a reasonable amount of demand for the bonds." (NYT, 11/9)

It looks good for bonds, says DAVID JONES, economist for AUBREY G. LANSTON, who thinks rates at the Treasury refunding could be the highest investors see for some time. "Investors are interested because we have a recession. ... Investors want high quality, low risk securities, and they may even be moving out of bank CD's with all these jitters in the banking system." (CNN "Business Morning", 11/9)

THE ECONOMY:

While avoiding the word "recession," MICHAEL BOSKIN, chief economic adviser to PRESIDENT BUSH, says the economy "at best ... is in a lull" that is likely to last until after mid-1991. He says a new administration forecast due out next week envisions the possibility of the economy "slipping into negative territory" in the current quarter. Boskin says the "lull" will "be brief and relatively mild" and that the economy "will rebound from the temporary hit" is taking as a result of the Persian Gulf crisis. He says his "best guess" is that a pickup will come in the second half of 1991. ("The Washington Post", 11/9)

Economic growth could be down 2%-2.5% in the fourth quarter, says DAVID JONES at AUBREY G. LANSTON. "It will last longer but not be quite as deep as the 1981-82 [recession]." Unlike 1981-82 when tight money and high interest rates shocked consumers into the recession, Jones says consumers are "psychologically prepared" for this recession. "The psychology of recession becomes self-fulfilling - if people think we are in one, they begin to behave as if we are and that pushes us deeper," says Jones who looks for a "grim Christmas." (CNN "Business Morning", 11/9)

"Getting through the next six or seven months" will be tough, says WILLIAM STERLING, manager of the international economics department at MERRILL LYNCH CAPITAL MARKETS in New York. "It's not clear that the dollar's decline is going to come through as the man with the white hat to rescue the maiden" and keep the U.S. out of recession. ("Investor's Daily", 11/9)

"We are in a consumer recession," says WALTER LOEB at LOEB ASSOCIATES. "October really showed for the first time the consumer is strongly pulling back." ("USA Today", 11/9)

KURT BERNARD, publisher of "Barnard's Retail Marketing Report," says yesterday's retail sales figures represented "a poor performance, but [were] not unexpected in the light of economic and political uncertainties. We are going to see a very frugal shopping population." ("The Washington Post", 11/9)

"We're seeing a steady decrease in consumer credit, which is logical considering the circumstances that people are facing, including fears about losing their jobs," says JEAN SUNDRIA, an economist with EVANS ECONOMICS INC. in Washington. "Now is the time for people to be paying off their credit-card balances rather than increasing them." ("Investor's Daily", 11/9)

"I'm expecting a very frosty Christmas [for retailers]," says JANET MANGANO, retail analyst at JESUP, JOSEPHTHAL. "The overwhelming reason for that is the economy, which is very weak, and I think the consumer has turned extremely cautious." (CNBC "Market Wrap-Up", 11/8)

THOMAS TASHJIAN of SEIDLER AMDEC SECURITIES says Christmas shoppers probably will "be going in and buying the same number of items, but they're not going to pay as much. They're not going to buy $100 electronic toys for their kids." (NYT, 11/9)

"The best opportunities for American companies and the American economy are going to be outside U.S. borders between now and 1995," says JERRY JASINOWSKI, president of the NATIONAL ASSOCIATION OF MANUFACTURERS. In a report released yesterday, the association said a survey of 120 of its members showed that two-thirds believe the lower exchange rate will help them increase their exports. Many expect exports to increase by 8% this year and double from 10% of sales to 20% by the end of 1993. ("Investor's Daily", 11/9)

IN WASHINGTON:

"One has to say that the probability of using force [in the Middle East] has risen," says BILL WOLMAN, chief economist at "BusinessWeek" and "CNBC." "The 5 determination of the United States and the Saudis to move militarily seems to have increased. ... If it hasn't increased, they are really pulling a kind of hoax on the world that politicians can't afford to pull. ... If Bush wishy-washes on Iraq, he can do anything he wants between now and the next election and he will lose. I know politicians change often and public opinion changes often, but this one is real serious and he can't fool around on this one. It's either going to be unconditional withdrawal and restoration of the Kuwaiti government or it's war." (CNBC "Market Wrap- Up", 11/8)

#90313p5096 11/09/1990 ~PR Newswire

WEST ALLIS, WIS. (NOV. 9) PR NEWSWIRE - Fans who know Jose Canseco and Robin Yount now have a chance to learn about Forrest Wood and Cliff Craft -- emerging stars in a different sport.

HM Graphics Inc, a West Allis-based printer, today said it is offering fishing enthusiasts a chance to collect something new with the premiere printing of "Big League Bass Cards," a set of 60 baseball- type cards depicting America's

star bass fishermen and their catches.

Kevin Sandstrom, executive vice-president of HM Graphics Inc, said each package contains 10 cards showing top bass fishermen from around the country. Their "stats" are printed on the back of the card, including information such as recent bass fishing tournament performances, career highlights and personal data, he said.

"This is the third type of collector card we've printed," Sandstrom said. "We hit a home run with senior league baseball and umpire cards, and now we're fortunate to be involved with 'Big League Bass Cards.'

"We're well-known for our ability to take on complex printing assignments, including multi-color advertising pieces and other custom design projects. Printing the collector cards is just one of the many things we do at HM Graphics."

Sandstrom said some of the following fishermen are featured in the 1990 set:

-- Shaw E. Grigsby, Jr., a Gainesville, Fla., angler who won the 1990 Texas Invitational Tournament. His card says he's a sight fishing/tube jig master, and his wife Polly's wedding ring is inscribed "C.A.B.O." (Catch A Big One)!

-- O.T. Fears III, from Sallisaw, Okla. His stats indicate he's earned more than $200,000 in career fishing tournament winnings, and he enjoys training bird dogs.

-- Guy Eaker, Sr., who makes his home in Cherryville, N.C. He's been on the professional bass fishing circuit for 10 years and is now competing against his son, Guy Eaker, Jr.

Sandstrom noted that while outdoor enthusiasts might purchase a pack or two to look for a favorite star, "true collectors will want the full set of 60." The 1990 Collector's Edition includes six sets of 10 packages for the suggested retail price of $13.99.

Sandstrom said HM Graphics Inc already has printed well over a million bass cards, and the future looks bright for many more.

"The idea for the cards came from Michael Jones, a California fisherman," he said. "Another set showing bass fishermen -- and women -- is planned for next year."

"Big League Bass Cards" are available through mail order and sporting good outlets throughout the country, he said. They are distributed by the Kalin Company of Brawley, Calif.

"The cards have appeared in USA Today, Outdoor Magazine, and on 'The CBS

Morning News,'" said Sandstrom. "The number of bass fishermen out there is amazing, and the cards are becoming quite popular."

#90313p5104 11/09/1990 ~PR Newswire

MELBOURNE, FLA. (NOV. 9) PR NEWSWIRE - The Goldfield Corporation (AMEX: GV) announced today net income of $1,238,990 ($.04 per share) for the nine month period ended Sept. 30, 1990, compared to net income of $1,946,352 ($.07 per share) for the like period in 1989. Total revenue for the nine month period ended Sept. 30, 1990 was $12,342,537, compared to $13,608,159 for the like period in 1989. Net income of $253,305 ($.01 per share) was reported for the three month period ended Sept. 30, 1990, compared to $565,993 ($.02 per share) for the like period in 1989. Total revenue for the three-month period ended Sept. 30, 1990 was $3,518,431, compared to $4,251,543 for the like period in 1989.

Goldfield's mining operations had higher operating profits during the nine and three month periods ended Sept. 30, 1990 than the like 1989 period, as income from the Getchell gold and Harlan coal royalties and deliveries of concentrates from St. Cloud Mining Company's Midnight mine more than offset the reduced income resulting from the conclusion of St. Cloud's joint venture with Cyprus Metals Company.

In the nine month period ended Sept. 30, 1990, the mining operations had revenue of $4,284,236 and an operating profit of $2,106,613, compared to $5,799,352 and $1,739,199 respectively, for the like period in 1989. For the three month period ended Sept. 30, 1990 mining revenue was $1,017,085 and an operating profit of $445,603, compared to $1,300,033 and $226,224 respectively for the like three month period in 1989. Operating profits included mining royalties of $1,296,488 and $399,231 for the nine and three month periods ended Sept. 30, 1990 respectively. No royalty income was recognized during the 1989 periods as these royalties were repurchased in December 1989.

Southeast Power Corporation, the company's electrical construction subsidiary, in the nine month period ended Sept. 30, 1990 had contract revenue of $6,565,339 and an operating profit of $457,463, compared to $7,690,745 and $1,275,917 respectively, for the like period in 1989. For the three month period ended Sept. 30, 1990, contract revenue was $2,045,634 and operating profit was $218,305, compared to $2,904,875 and $673,572 respectively, for the like three month period in 1989. The 1990 operating profit was lower due primarily to decreased sales, lower gross margins and increased expenses primarily attributable to workers' compensation and group health insurance.

Goldfield is engaged in the business of mining base and precious metals and

electrical construction. It also owns royalty interests in gold and coal properties.

#90313p5122 11/09/1990 ~PR Newswire

BOSTON (NOV. 9) PR NEWSWIRE - Zoom Telephonics, Inc. (NASDAQ: ZOOM) today announced sharply higher sales and income for the third quarter and first nine months of 1990.

Zoom Telephonics, Inc.

Quarter 3 to Sept. 30 (U.S. $)	1990	1989
Sales	$3,667,744	$1,974,248
Operating Income	715,634	327,945
Net Income	430,630	273,409
Share Earnings	.08	.05

Nine months to Sept. 30	1990	1989
Sales	$8,965,779	5,691,051
Operating Income	1,608,264	941,574
Net Income	1,016,829	779,763
Share Earnings	.19	.15

The sales rise was due primarily to expansion of the company's modem product line and distribution, and to increased advertising.

Zoom specializes in modems for personal computers, the fastest growing portion of the modem market. The company is the largest manufacturer of Sendfax modems, which are data modems that can also send a fax from a personal computer directly to a fax machine, and is the largest manufacturer of modems for the Macintosh.

In August Zoom began shipping a modem with the new V.42bis and V.42 international standards for hardware data compression and error- correction, to provide error-free data transmission at up to four times the speed of a normal 2400 baud modem. The modem provides approximately 50 percent higher throughput than modems using the currently popular Microcom Networking Protocol level 5 (MNP5), which Zoom's modem also supports. At $300 retail, this modem provides a significant price/ performance advantage over currently available products.

In the first quarter of 1991 Zoom expects to begin shipping modems that can receive faxes as well as send them, and can store and synthesize voice for voice mail and voice information delivery. The company also expects to begin shipping V.32 9600 baud modems with V.42bis compression in March 1991, for

computer users requiring very high data throughput. Zoom's goal is to be the leader in modems with fax, and to provide a product with high performance per dollar for every high-volume segment of the modem market. Zoom expects to realize this goal in 1991.

During the third quarter Zoom began shipping Sendfax modems to Egghead, a large national computer products retailer. Zoom also received Canadian telecommunications and safety approvals for its five highest volume modems, and began generating substantial revenues from Canadian sales.

Zoom is on target in 1990 for its fourth consecutive year of sales growth over 50 percent, and anticipates comparable growth in 1991. Zoom's ratio of current assets to current liabilities is 3.5, and it has no debt.

Zoom's headquarters and operations have been located in Boston since its incorporation in 1977. NASDAQ trading commenced on Sept. 27, 1990.

DAYTON, OHIO (NOV. 9) PR NEWSWIRE - Nord Resources Corporation (NYSE: NRD) anticipates that its results of operations for the quarter ended Sept. 30, 1990, expected to be released on Nov. 13, will reflect sales of approximately $26 million and a net loss per common share in the range of $(.05) to $(.10), as compared to sales of approximately $22 million and net earnings per common share of $.23 in the same period of 1989. Dr. Edgar F. Cruft, president and chairman of Nord, stated, "The loss for the third quarter results primarily from the costs of developing, testing and marketing Nord's new product,

Norplex(TM), which continues to significantly impact Nord's earnings. Also, the rutile operation realized lower earnings for the quarter due to higher production costs."

DENVILLE, NJ (NOV. 9) PR NEWSWIRE - Reflecting continued growth in its business, Encore! Productions and Entertainment has relocated its offices to a larger facility.

The business media firm is now located in Suite No. 214 at 3155 Route 10 East, Denville, N.J., 07834-9723. The phone number remains 201-428-1188.

"Our new offices, in addition to providing us with more space, also includes state-of-the-art projection and viewing rooms," said Executive Vice President Mark D. Antonacci in announcing the move.

Established in 1986, Encore! Productions specializes in the creation of audio-visual, video and multi-media presentations for corporate meetings as well as the design, production and execution of training programs and corporate image events.

Encore! Productions has produced meetings or events for clients such as Bristol-Meyers/Squibb, Sony of America, Pfizer Pharmaceuticals, AT&T, Volvo Cars of North America and Guardian Life Insurance Co.

Earlier this year, the firm launched its new entertainment division, which offers a full spectrum of entertainment services to corporations and individuals for business or social affairs, ranging from live music for small gatherings to complete theme decor events.

The latter includes the design and execution of three-dimensional, larger-than-life theme decor tied together with music and live entertainment.

Recently the firm began offering public relations services to its clients as an outgrowth of its expertise in corporate image events.

#90313p5138 11/09/1990 ~PR Newswire

VANCOUVER, B.C. (NOV. 9) PR NEWSWIRE - Granges Inc. (AMEX: GXL) today reported net earnings for the third quarter ended Sept. 30, 1990, of $1,750,000 or $0.05 per share compared to a loss of $7,868,000 or $0.23 per share in the third quarter of 1989 (all amounts are in Canadian dollars). Net earnings for the nine months ended Sept. 30, 1990, were $2,482,000 or $0.07 per share compared to a loss in the same period of 1989 of $8,289,000 or $0.30 per share.

Periods ended	Three Months		Nine Months	
Sept. 30	1990	1989	1990	1989
Consolidated production:				
Gold production (ounces)	28,285	29,013	73,428	76,364
Copper production (000's lbs)	1,515	2,135	5,159	5,914

Zinc production (000's lbs)	5,830	4,036	16,787	13,488

Consolidated production includes all production from the Crofoot/Lewis mine and the company's proportionate share of production from joint venture mines.

Settlement was reached in September on the action commenced by the company's co-venturer Abermin Corporation in relation to the Tartan mine joint venture and related litigation costs have ceased.

During a rally in gold prices in September, the company undertook a forward sales program and at Sept. 30, 1990, had 80,000 ounces of gold forward sold through the period to December 1992 at an average price of US$425 per ounce.

Three Months Ended Sept. 30, 1990 and 1989 Sales for the three months ended Sept. 30, 1990, were $17,349,000 compared to $18,416,000 in the third quarter of 1989. The decrease was largely due to the reduction in gold production following the Tartan mine suspension in November 1989, and lower copper production at the Trout Lake mine. These factors were offset in part by increased gold production from the Crofoot/Lewis mine and increased zinc production from the Trout Lake mine.

Earnings from mining operations were $3,324,000 in the third quarter of 1990 compared to $2,519,000 in the same period in 1989. In addition to the sales factors discussed above, the reduced cost of sales from the suspension of the Tartan mine in 1989 was a major contributor to the increased earnings from mining operations.

Granges Inc. is active in exploring, acquiring, developing and operating mineral properties in North America. Its shares are listed on the Toronto, American and London stock exchanges.

ATLANTA (NOV. 9) PR NEWSWIRE - Bank South Corp. (NASDAQ: BKSO) announced today that regulatory approval has been finalized and definitive agreements signed to merge the name, business and operations of Lex Jolley & Co. Inc. into a wholly owned subsidiary, BSM Securities Co.

The acquisition, terms of which were not disclosed, will provide a major presence for Bank South in the underwriting of municipal bond issues and other investment banking activities in the Southeast. Over the past six-and-a-half years, Lex Jolley & Co. Inc. has been the leading provider of investment banking services to Georgia cities and counties and has participated in more than 200 public finance transactions totaling $6.3 billion.

"Lex Jolley & Co. is an outstanding company with proven expertise that will dramatically expand our capabilities in the non-interest income producing field of municipal and corporate finance," said Robert P. Guyton, chairman and chief executive officer of Bank South. "We look forward to building a reputation through BSM Securities Co. as the premier investment banking firm in the Southeast."

Guyton added that strengthening Bank South's public and corporate finance activities would also benefit other lines of business, such as trust, corporate and government banking. Additionally, he noted the potential for further expansion of underwriting activities through BSM Securities Co. if government deregulation of banking continues as anticipated.

Said Gordon K. Mortin, former president of Lex Jolley & Co. and new president of BSM Securities Co.: "We are very pleased and excited to have this transaction completed and to be part of the high-quality Bank South organization. The resources Bank South can provide in the form of capital, banking franchise, municipal sales and trading staff will allow us to expand more aggressively throughout Georgia, Florida and the Southeast."

Following a lengthy career in public finance, Lex Jolley formed Lex Jolley & Co. Inc. in 1964. Mr. Jolley served as chairman of Lex Jolley & Co. Inc. and is the new chairman of BSM Securities Co. Other officers and staff formerly with Lex Jolley and now with BSM Securities Co. include Malinda J. Mortin, Ed Wall, Steve Morris, Darlene Roberts, Carol Sweckard and Kathy Mills.

Atlanta-based Bank South is a $5.3 billion, multi-bank holding company with 140 offices throughout Georgia and the Florida panhandle. Bank South stock is traded on the NASDAQ exchange under the symbol BKSO.

#90313p5141 11/09/1990 ~PR Newswire

PHILADELPHIA (NOV. 9) PR NEWSWIRE - Comcast Corp. (NASDAQ-NMS: CMCSA, CMCSK) today reported results for the three and nine months ended Sept. 30, 1990. The company announced that revenues and operating cash flow for the period continued to grow at a strong pace.

Revenues for the three months ended Sept. 30, 1990, were $165,820,000, an increase of 18 percent over the revenues of $141,083,000 for the same period in 1989. The company reported operating cash flow of $68,214,000 as compared to $55,555,000 for the prior year, representing an increase of 23 percent. Comcast recorded a net loss of $45,138,000 or $.40 per share, as compared to a net loss of $26,496,000 for the prior year, or $.24 per share.

Revenues for the nine months ended Sept. 30, 1990, were $484,820,000, an increase of 20 percent over the revenues of $404,760,000 for the same period in 1989. The company reported operating cash flow of $201,467,000 as compared to $159,868,000 for the prior year, representing an increase of 26 percent. Comcast recorded a net loss of $132,874,000, or $1.18 per share, as compared to a net loss of $98,245,000 for the prior year, or $.93 per share.

These previously anticipated losses are due primarily to financing costs and non-cash charges for depreciation and amortization associated with the company's prior acquisitions. Also included is the company's proportionate share of losses associated with its ownership of 50 percent of Storer Communications Inc.

Brian L. Roberts, president of Comcast, stated: "We are pleased with our record third quarter results, which continue to demonstrate the vitality of our internal operations. In addition, we remain confident and optimistic about the long term prospects for the cable television and cellular telephone industries."

Comcast Corp. is principally engaged in the development and operation of cable communications systems. The company's consolidated and affiliated operations served more than 2,406,000 subscribers at Sept. 30, 1990. This included 787,000 subscribers representing 50 percent of the total subscribers served by Storer Communications Inc.

Neither the results of operations or financial condition of the Storer systems are included in the company's consolidated financial statements. In addition, the company provides cellular telephone communications services, installs commercial sound systems and owns the largest independent network of background music systems operating under the Muzak name.

The Class A and Class A Special common stock are traded in the Over-the-Counter market and are reported in the National Market List under the NASDAQ symbols CMCSA and CMCSK, respectively.

CHANTILLY, VA. (NOV. 9) PR NEWSWIRE - Banner Industries, Inc. (NYSE: BNR), announced today that it plans to make an offer to repurchase its junior subordinated debentures, due 2007, and that the board of directors has authorized the repurchase of 1,000,000 shares of its common stock.

The debentures, which bear interest at a rate of 13 percent, have an outstanding balance of approximately $59,500,000. Banner plans to offer debenture holders $700 for each $1,000 principal amount of the issue, payable one-third in cash and the balance in a new secured note. Banner has executed an agreement with a holder of $29,750,000, or approximately 50.01 percent, of the outstanding debentures, whereby such holder will sell its debentures to Banner under the proposed terms. The offer will be conditioned on the holders of the debentures agreeing to delete certain restrictive covenants of the

debentures relating to, among other things, dividend payments and stock repurchases. Banner said it expects to file materials shortly with the Securities and Exchange Commission regarding the proposed offer.

Additionally, Banner's board of directors has authorized the repurchase of 1,000,000 shares, or 8.9 percent, of its outstanding Class A common stock. The repurchases will be made from time to time, subject to corporate objectives and at the discretion of management, on the open market.

"We believe that Banner's stock represents an attractive investment, especially at current market prices. Additionally, buybacks tend to have the effect of increasing earnings per share and book value per share, which is consistent with our commitment to enhance shareholder value," said Jeffrey J. Steiner, chairman and chief executive officer.

Banner Industries, Inc., is a leading supplier of aerospace and industrial products and communications services.

ROCHESTER, NY (NOV. 9) PR NEWSWIRE - JAM, Inc. (NASDAQ: JAMY), a Rochester-based training and multi-media communications company, has announced its unaudited operating results for the third quarter of 1990.

Net earnings for the third quarter were $20,811 as compared to a net loss of $167,762 for the corresponding quarter in 1989. Sales for the third quarter of 1990 totaled $494,654, an increase of $119,281, or 32 percent, over sales of $375,373 for the corresponding quarter a year ago.

Net earnings for the first nine months of 1990 amounted to $24,025 as compared to a net loss of $494,211 for the same nine-month period of 1989. Sales for the first nine months of 1990 totaled $1,628,504, an increase of $337,481, or 26 percent, over sales of $1,291,023 for the same 1989 period.

Company performance continued to improve in the third quarter of 1990 due to the 32 percent increase in revenues over the respective period of 1989. Operating expenses continued to decline in the third quarter as a result of expense reductions begun in the fourth quarter of 1989.

JAM designs and produces a diverse range of training and multi-media communications services for business, government, and educational clients. These services include instructional design and training program development, software design and programming for computer-based instruction and interactive simulations and video production and post production. The company also

integrates and markets computer and video hardware systems for turnkey interactive CBT and videodisc instructional delivery.

The company recently introduced a new Direct Video Marketing service for businesses wishing to advertise or distribute information to targeted audiences. JAM designs, produces, packages and distributes these videotaped programs as a single contract source. Corporate offices and video studios are located at 300 Main St., East Rochester, N.Y.

ATLANTA (NOV. 9) PR NEWSWIRE - MCI Communications Corp. (NASDAQ: MCIC) will help some Atlanta area families celebrate Veteran's Day by offering free phone calls to loved ones serving in Dharan, Saudi Arabia, with the U.S. Army's 433rd Chemical Detachment.

Families with soldiers in the Chamblee-based military unit are getting together this weekend at Stone Mountain Park for a special holiday picnic. "Many of these families haven't talked to their loved ones in Saudi Arabia since the 433rd was dispatched back in September," said Major Judy Pruitt. "This will be one Veteran's Day they won't forget."

The calls will be made at 11 a.m., Saturday, Nov. 10, in the Lee Room at the Stone Mountain Inn.

"The stand-off with Iraq has put long distances between soldiers and their families," said Douglas L. Maine, president of MCI Southeast. "We're glad we can help bring a few of them together via telephone during this difficult and dangerous time in the Persian Gulf."

ARUBA, DUTCH CARIBBEAN (NOV. 9) PR NEWSWIRE - Divi Hotels N.V. (AMEX: DVH) announced today that its exchange offer on its two outstanding issues of debt securities will be extended until midnight, EST, on Dec. 7, 1990.

The exchange offer was initiated on April 27, 1990, and is being made to security holders qualified to participate in a private placement regarding Divi's $60 million of 14-1/2 percent senior debentures due 1998 and $50 million of 12-3/4 percent subordinated notes due 1996. It was originally scheduled to expire at midnight, EDT, on May 24, 1990, and was periodically

extended until midnight, EST, on Nov. 9, 1990.

The terms and conditions of the exchange offer otherwise remain unchanged.

Through Nov. 9, 1990, only a nominal amount of the outstanding debt securities covered by the exchange offer had been validly tendered. The company is continuing negotiations with a committee of the holders of the two issues of debt securities to reach agreement with the committee as to revised terms for the exchange offer.

OAK FOREST, IL (NOV. 9) PR NEWSWIRE - Interlake Packaging Corporation plans to combine its two plastics groups into one. The new organization will be called InterPower Packaging Corporation. Robert Pedersen, Interlake Packaging president, said InterPower would result from combining the U.S. plastics portion of Interlake Packaging Corporation and Power Strap, Inc. of Cleveland, Ohio. Interlake purchased an 80 percent share of Power Strap in 1989. Completion of the proposed integration is subject to satisfaction of various conditions.

The new InterPower Packaging Corporation would continue to emphasize high quality plastic strapping equipment for the general packaging market and engineered systems for the newspaper, graphics, corrugated, fiber, can, brick and lumber industries. Systems and equipment would be marketed directly to customers and through the existing distributor network. The technological strengths of each group would be expanded to support new products for their respective markets.

Peter Power, founder of Power Strap, would become president and CEO of InterPower Packaging Corporation. Alan Gerrard would continue as president of the Power Strap Systems Group, which would remain in Cleveland. Tom Gould, an Interlake veteran with over 20 years experience, would be vice president of sales and marketing. Frank ten Brink would serve as vice president of finance and administration.

"With Peter Power running both organizations under one common direction, the combined groups would realize economies of scale," Pedersen said. "We'll be better equipped to give our plastic machine and strap customers the highest quality equipment, strap and service available in North America."

NEW YORK (NOV. 9) PR NEWSWIRE - Banco Comercial Portugues, Portugal's leading private commercial bank and the country's largest quoted company, yesterday announced that its public bid offer for control of CISF, the country's second largest merchant banking group, has been successful.

Through this offer, which was formally announced on Sept. 26 and was achieved yesterday in the Oporto Stock Exchange, BCP increased its stake in CISF to 51.1 percent, paying Esc 2,350 per share.

BCP's offer was subject to acceptances on behalf of 4,349 million shares of CISF. In the event, the number of shares offered for sale reached 6,349 million, and consequently BCP will accept 68.5 percent of these under proportional allotments. In the first major bid offer in the Portuguese capital markets, the bank will pay Esc 10.22 billion ($77 million).

Commenting on the share offer, Jardim Goncalves, chairman and CEO of the bank, said, "The integration of CISF within the BCP Group will allow us to gain two or three years in developing merchant banking expertise and market share. CISF is a particularly sound and innovative company and we look forward to expanding its activities by exploiting synergies accruing from our complementary businesses. The market's favorable response to our offer was a result of our strategy and performance, and our views of further expansion."

NEW YORK (NOV. 9) PR NEWSWIRE - The Strober Organization, Inc. (NASDAQ: STRB) announced today the settlement of its litigation under insurance policies on the life of the company's former chairman, Eric D. Strober.

The settlement will result in the payment to the company of $11,264,000, of which $2,816,000 is to be retained by the company and used for corporate purposes, and the balance used to repurchase, as required by a pre-existing agreement, 983,635 shares of the company's common stock from Mr. Strober's estate, with the consequence that the company's outstanding common stock has been reduced from 6,076,000 to 5,092,000 shares.

Insurance proceeds collected by executives and former executives of the company have been used to purchase additional shares from the estate, so that management of the company now holds an aggregate of 2,408,000 shares (or 47 percent) of the company's currently outstanding stock.

The company also reported agreement in principle to extend the company's $5 million of subordinated indebtedness owing to the sellers in respect of the company's 1988 acquisition of The General Building Supply Company.

Under such extension, the maturity date of the company's subordinated debt will be extended from January 1991 to January 1994, with an initial principal payment in the amount of $1,425,000 and additional amortization of principal to the extent of one-third of the company's positive cash flow during 1991 and 1992.

The interest rate on such indebtedness will be increased to 10 percent per annum, of which 8 percent will be paid in cash and 2 percent accrued. The extension is conditioned upon, among other things, bank approval and negotiation of definitive agreements.

In addition, the company announced that it had been recently granted summary judgment dismissing the litigation brought by Jay Kranitz, a former officer and director of the company, with respect to agreements entered into by Kranitz under which he made restitution payments to the company in connection with violations by him of company policies at one of its building supply centers. The 30 day period to appeal this decision has not yet expired.

The company also reported results of the third quarter and nine month period ended Sept. 30, 1990. For the third quarter, the company reported a net loss of $355,000 or 6 cents per share on net sales of $27,880,000 compared to net income of $144,000 or 2 cents per share on net sales of $34,425,000 for the same period last year.

Net loss for the nine months was $1,911,000 or 32 cents per share on net sales of $82,395,000 compared to net income of $497,000 or 8 cents per share on

sales of $97,974,000 for the first nine months of 1989.

The sales decrease of 19 percent in the third quarter and 16 percent in the first nine months of 1990 was primarily due to a continuing decline in construction activity in the company's marketing area and also reduced sales volume due to the closing of the West Haven, Conn. center.

Reduced expenses resulting from the closing of the West Haven center and reductions in employee costs resulted in a decrease of selling, general and administrative expenses of $748,000 in the third quarter and $1,615,000 in the nine months ended Sept. 30, 1990 as compared to the same periods of 1989.

Litigation expenses relating to insurance claims totaled $72,000 in the third quarter and $477,000 for the first nine months of 1990 as compared to $171,000 and $313,000 in the same periods of 1989.

Interest expense decreased $106,000 and $244,000 respectively for the third quarter and nine month period ended Sept. 30, 1990 as compared to the same periods in 1989. The decrease is primarily attributable to lower bank loan balances during the 1990 periods.

THE STROBER ORGANIZATION, INC.

#90313p5156 11/09/1990 ~PR Newswire

CLEVELAND (NOV. 9) PR NEWSWIRE - The Cleveland Electric Illuminating Company (NYSE: CVX) is expanding the leaf recycling center located at its Lake Shore Power Plant, 6800 S. Marginal Rd., Cleveland, to accommodate leaves from the city of Cleveland.

CEI provided nearly seven acres of land for the leaf recycling center in 1989 to help Northeast Ohio battle the growing waste disposal problem. To handle the increased volume from Cleveland, the company now is providing an additional 1.5 acres. The Greater Cleveland Ecology Association (GCEC) manages the site and composts the leaves for a 24-month period before selling them as garden mulch and soil conditioner.

The city of Cleveland plans on depositing leaves from about 35,000 households at the site this year. That amounts to approximately 30,000 cubic yards. The first truckload arrived late in October.

Gary Greben, CEI vice president of transmission and distribution engineering and services, says this leaf recycling center will help many Northeast Ohio communities meet stringent new waste disposal laws.

"America faces a serious problem as existing landfills across the nation near capacity," Greben says. "To reduce the volume of waste sent to these sites, municipalities will be required to recycle all grass clippings, tree trimmings and leaves by 1993. We're pleased the city of Cleveland has joined other communities in fighting the waste disposal problem and improving the quality of our environment."

Northeast Ohio communities, which are members of GCEA, can dispose of leaves at the Lake Shore recycling center free of charge, but they must provide heavy equipment needed to aerate the leaves periodically and maintain the site. Cleveland Heights was the first community to participate in this recycling program, disposing of some 15,000 cubic yards of leaves at the center in 1989. Other communities are expected to use the center in the future.

The recycling center also benefits CEI customers. "CEI must dispose of about 200 tons of woodchips annually from our tree trimming activities," Greben says. "We plan on mixing these woodchips with the leaves at the recycling center. By doing so, we will save about $12,000 annually. We're also investigating the possibility of recycling our wooden cable spools, pallets and even utility poles in the future, which would mean further savings for CEI customers."

The Greater Cleveland Ecology Association operates four other leaf recycling centers in the Cleveland area. The first center, located in Warrensville, opened in 1981.

#90313p5158 11/09/1990 ~PR Newswire

SARASOTA, FL (NOV. 9) PR NEWSWIRE - Salvatori Ophthalmics (NASDAQ: EYES) today announced its second consecutive quarterly profit for 1990 with net income of $35,146 on sales of $1,576,877 for the three months ended Sept. 30, 1990. This compares to net income of $107,999 on sales of $1,578,332 for the three months ended Sept. 30, 1989.

Net income for the nine month periods ended Sept. 30, 1990 and 1989 were $41,357 and $46,762, respectively. Net income for the 1990 nine month period includes the effect of a $38,000 inventory write-down that the company charged to operations during the second quarter. Sales for the first nine months of 1990 and 1989 were $4,430,282 and $3,810,493, respectively.

Sales of RGP (rigid gas permeable) lenses for the third quarter of 1990 increased 3 percent to $982,000 compared to sales of $954,000 for the same period in 1989. The increase in sales was attributed to the third quarter launch of a new RGP lens, the Boston(R) Envision(R) contact lens. The Boston(R) Envision(R) lens is manufactured under a license with Polymer Technology Corporation, a division of Bausch & Lomb.

Sales of soft lenses and solutions for the third quarter of 1990 declined 5 percent to $595,000 compared to sales of $624,000 for the same period in 1989. Management believes that the moderate decline in soft contact lens sales

experienced by the company has been less severe than the decline experienced by the industry as a whole in the United States.

Industry information available to the company indicates that sales of soft contact lenses declined by 8 percent to 10 percent for the first six months of 1990 compared to 1989.

Sales of RGP lenses for the first nine months of 1990 as compared to 1989 increased by 18 percent to $2,772,000 from $2,353,000. The increase resulted primarily from the acquisition in March 1989 of Salvatori's RGP manufacturing and sales division in Lincoln, Neb. The acquisition of the Lincoln division more than doubled Salvatori's manufacturing capacity and sales of RGP lenses.

Sales of soft lenses and solutions for the first nine months of 1990 as compared to 1989 increased by 14 percent to $1,658,000 from $1,457,000. The increase came entirely from sales of the Sof-form(R) 55 Toric lens during the first and second quarters of 1990 as compared to 1989.

Salvatori Ophthalmics is manufacturer of specialty contact lenses sold to eye care professionals. The company has manufacturing facilities located at Sarasota, Fla. and Lincoln, Neb.

The company also owns a 51 percent interest in Wolcon Laboratories, Inc., a Detroit based manufacturer of contact lenses. Salvatori, headquartered in Sarasota, manufactures and markets RGP and soft contact lenses for daily and extended wear. It is a publicy owned company whose common stock trades on the NASDAQ system.

#90313p5162 11/09/1990 ~PR Newswire

ATLANTA (NOV. 9) PR NEWSWIRE - Del Taco Restaurants, Inc. (NASDAQ: DETA, BSE: DET) today reported a net loss of $153,000, or two cents per share, for the third quarter ended Sept. 26, 1990, versus net income of $8,000, or zero cents per share, for the third quarter of 1989. Sales and revenues for the 1990 quarter decreased to $12,454,000 from $12,996,000 in the 1989 period.

For the first nine months of 1990, Del Taco Restaurants, Inc. reported a net loss of $540,000, or six cents per share, versus a net loss of $399,000, or five cents per share, in the comparable 1989 period. Sales and revenues for the first nine months of 1990 decreased to $37,822,000 from $38,620,000 for the comparable 1989 period.

George Baker, president and chief executive of Del Taco, stated, "During the third quarter of 1990, sales and revenues were adversely affected by growing consumer uncertainty regarding the economy. Our new management team, which assumed operating responsibility in mid-August, 1990, is focusing on building sales and introducing product and operating efficiencies, aimed at improving results in the future."

CORAL GABLES, FL (NOV. 9) PR NEWSWIRE - BankAtlantic Financial Corporation (AMEX: BFC) today reported a net loss of $1,586,000, or $0.97 per share, for the quarter ended Sept. 30, 1990, vs. a net loss of $1,188,000, or $0.74 per share for the comparable period of 1989.

For the nine month period ended Sept. 30, 1990, BankAtlantic Financial posted a net loss of $6,702,000, or $3.97 per share, compared to a net loss of $1,781,000, or $1.10 per share for the same period of 1989.

Losses for the year to date were impacted by the long-term debt obligations of BankAtlantic Financial relating to the exchange transaction concluded in early 1989 with three real estate limited partnerships.

BankAtlantic Financial is the savings bank holding company for BankAtlantic (NASDAQ-NMS: ASAL), a $1.85 billion federal savings bank based in Fort Lauderdale, Fla. BankAtlantic Financial controls BankAtlantic through its ownership of approximately 70.1 percent of the outstanding common stock of BankAtlantic. BankAtlantic is BankAtlantic Financial's primary asset and principal source of revenue.

BankAtlantic reported net income of $148,000, or $0.04 per share, for the three months ended Sept. 30, 1990, compared to a net loss of $898,000, or $0.29 per share, for the same period of 1989. This marked BankAtlantic's second consecutive quarter of positive earnings this year. BankAtlantic earnings for the quarter ended June 30, 1990, were $138,000, or $0.04 per share.

As of Sept. 30, 1990, BankAtlantic exceeded all current capital requirements set by the Financial Institutions Reform, Recovery and Enforcement Act (FIRREA). Tangible capital was more than double the 1.5 percent required, and

stood at 3.10 percent assets. Core capital, at 3.15 percent of assets, also exceeded regulatory requirements, as did risk-based capital which was 6.55 percent of assets at Sept. 30, 1990.

BankAtlantic Financial is a savings bank holding company whose stock is listed on the American Stock Exchange under the ticker symbol BFC. Its principal subsidiary is BankAtlantic, which operates 46 banking offices in Broward, Palm Beach and Dade counties.

PONTIAC, MI (NOV. 9) PR NEWSWIRE - The appointment of William C. Brooks as group director of personnel, GM Truck & Bus Group, has been announced by Clifford J. Vaughan, GM vice president and executive in charge of the Group. The appointment is effective Dec. 1, 1990.

Brooks, 57, succeeds H. Eugene Brown who is retiring from GM after 40 years of service effective Jan. 1, 1991.

Brooks returns to GM after leaving in 1989 to serve as assistant secretary of labor for the Employment Standards Administration, the largest agency within the U.S. Department of Labor.

He began his GM career in 1973 and held numerous positions including: -- Executive Director, Personnel Administration, GM Personnel Administration and Development (PAD) Staff

-- Executive Director of the Personnel Analysis Group, PAD Staff -- General Director, Personnel Administration, PAD Staff -- General Director, Personnel and Public Relations, Delco Moraine Division

-- Director of Personnel, Fisher Body Division's Engineering Center -- Director of Personnel Planning, Industrial Relations Staff -- Director of Education Systems and Program Services, PAD Staff -- Manager of Executive Recruiting, PAD Staff Prior to joining GM, Brooks held federal government positions in the Office of Management and Budget in the Executive Office of the President, the Department of Defense, the Department of Labor and the Department of the Air Force.

A native of St. Genevieve, Mo., Brooks holds a bachelor's degree from Long Island University and a master's degree in business administration from the University of Oklahoma. He also completed the Harvard Business School's Advanced Management Program in 1985 and was awarded the honorary Doctor of Humane Letters degree from Florida A&M University in 1977.

Brooks has served numerous community and civic organizations including the Detroit Urban League, the Detroit Area Council of the Boy Scouts of America, the Employment/Economic Action Committee of New Detroit, Inc., and the National Black MBA Association.

Brown, 62, began his GM career in 1951 at Delco Products Division in Dayton, Ohio, following graduation from Ohio State University. He held several positions with the GM Personnel Staff and served as personnel director at the United Delco, Rochester Products, Harrison Radiator and Fisher Body divisions. Brown joined the GM Truck & Bus Group in 1984.

MIDDLEBURY, CONN. (NOV. 9) PR NEWSWIRE - General DataComm Industries, Inc. (NYSE: GDC), and Alcatel Network Systems today announced an agreement that will extend the benefits of the Synchronous Optical Network (SONET) standards to their customers in the United States and Canada for customer premises applications. Under the agreement, Alcatel will provide SONET-compliant equipment for use with GDC's MEGAMUX TMSR multiplexers, allowing them to support 51 Mb/s (megabit per second) to 622 Mb/s transmission.

SONET is a series of internationally approved standards for the high-speed transmission of enormous amounts of information over digital, fiber optic lines. Initially, SONET's deployment in the public network will be transparent to most private network users, who typically would connect into the public network with high-speed interfaces (T1 and T3), and who would be unaware that their signals may be carried over interoffice SONET trunks.

With the SONET-compliant MEGAMUX TMS, users can take advantage of the huge

traffic handling capabilities of SONET to support a new generation of applications that require large amounts of bandwidth. SONET also makes possible total end-to-end control and maintenance of the network. With SONET, networks will become self-healing, allowing users to run high-speed applications without interruption.

As an international standard, SONET permits global networking. SONET's frame structure lets signals pass with equal ease through both public and private networks, and supports all types of local area network (LAN) and metropolitan area network (MAN) traffic, including FDDI and IEEE 802.6/DQDB, an industry standard for MAN access.

General DataComm is a leading provider of systems, solutions, equipment and services for information networks worldwide. Based in Middlebury, GDC services a broad base of corporate customers and telephone operating companies throughout the Americas, Europe, Australia, the Far East and the Pacific Rim. In its fiscal year ended Sept. 30, 1990, the company reported revenues of $202 million.

Alcatel is the largest manufacturer of communications equipment worldwide. Alcatel's chief operating units in North America are Alcatel Network Systems, headquartered in Raleigh, N.C., and Alcatel Cable Systems, headquartered in Claremont, N.C. Together they provide communications equipment and services to Bell operating and independent telephone companies, interexchange carriers, private networks, and to government and export markets.

WEST NEW YORK, N.J. (NOV. 9) PR NEWSWIRE - Jaclyn, Inc. (AMEX: JLN) today reported financial results for the first quarter ended Sept. 30,1990.

Revenues for the first quarter were $18,717,000 as compared to last year's first quarter revenues of $21,207,000. Net earnings for this period were $594,000 or $.21 per share. This compares with $1,026,000 or $.37 per share a year ago.

Allan Ginsburg, chairman of the board stated that revenues and earnings were lower than last year due to the depressed retail market. In addition, the company's largest apparel customer decided to discontinue its retail apparel line. This is likely to have an adverse effect on sales for the remainder of the year.

Jaclyn, Inc. is a leading designer, manufacturer and marketer of ladies' handbags and related products.

COLUMBUS, IN (NOV. 9) PR NEWSWIRE - L.K. Evans, Arvin Industries, Inc. (NYSE: ARV) president and chief operating officer, announced today that V. William Hunt and Byron O. Pond were elected executive vice presidents by the Arvin board. Pond was also elected to the board of directors.

In his new position, Hunt has responsibilities for the company's industrial and governmental divisions: Arvinyl -- fabricator of vinyl metal laminates and formed metal components; Roll Coater -- producer of precoated coils of steel; Calspan -- provider of research, development and testing evaluation activities; and Schrader -- manufacturer of air valves. Hunt will continue his duties as a director,
vice president-administration and corporate secretary.

Pond assumes responsiblity for the automotive divisions: Maremont Exhaust Systems -- manufacturer and distributor to the replacement market in North America; Gabriel Ride Control Products -- producer of shock absorbers, MacPherson struts and active ride control products as original equipment and replacement parts; North American Automotive -- manufacturer of original equipment exhaust products; Cheswick International -- supplier of original equipment, exhaust and emission control products to the European market; Bainbridge Silencers -- European maker and marketer of replacement exhaust products; A.P. Amortiguadores, S.A. -- manufacturer of shock absorbers and MacPherson struts as original equipment for European car companies; and AVM, whose products are gas springs and vacuum actuators.

Also Evans announced the naming of two new division presidents. James W. Thomas was promoted to president, Maremont Exhaust Systems Products Division, and E. Leon Viars to president, Gabriel Ride Control Products Division. Thomas and Viars were elected Arvin vice presidents. Thomas will have

responsibility for North American aftermarket exhaust system business, and Viars assumes responbility for the company's ride control business.

Evans stated further that this realignment brings increased management attention and focus to each business and is essential to the company's continued growth.

Hunt joined Arvin in 1976 as counsel. He was named vice president-administration in 1980, secretary in 1982 and a member of the board of directors in 1983. As vice president-administration, Hunt has responsibility for the company's legal and personnel relations. He holds a bachelor of arts degree and a doctor of jurisprudence degree from Indiana University.

Pond is a graduate of Wayne State University with a B.S. degree in business administration, and has received its Distinguished Alumni Award. He has served as chairman of the governmental affairs committee of the Automotive Parts and Accessories Association and as a director of the Chicago Chamber of Commerce and Industry.

Thomas joined Maremont in 1969 as merchandise control director of the distribution group. Since that time has has held positions of increasing responsibility, including vice president-sales and marketing, domestic automotive, and vice president and general manager, exhaust system products. Thomas received his bachelor of science degree in finance from Ohio State University.

Viars joined Maremont in 1969 as general accounting supervisor at the Loudon, Tenn., exhaust plant. Since that time, he has held positions of increasing responsibility including division controller, vice president-operations and vice president and general manager, ride control products. Viars received his bachelor of science degree in accounting from Tennessee Wesleyan University.

Arvin Industries, Inc., an Indiana corporation, is a global company whose products are sold in more than 100 countries in North and South America, the European Common Market, the Pacific Rim and the Third World.

STOCKHOLM, SWEDEN (NOV. 9) PR NEWSWIRE - Electronic Data Systems (EDS) and Saab Automobile AB are entering into a major systems management agreement under which EDS will handle all systems information work and future applications development for Saab. The agreement also includes the transfer of approximately 250 Saab Data Processing employees to EDS.

Estimated at more than 300 million U.S. dollars, the ten-year Saab Automobile agreement is a first for EDS in Sweden and will form a base for EDS' expansion into the Swedish market. The agreement will see EDS, the world leader in Information Technology (IT) services, handling the first major Systems Management contract of this scale in Sweden, and in fact, one of Europe's largest in the manufacturing industry.

"We see this as a long-term strategic partnership which will help us handle our IT needs more efficiently and more cost-effectively," said David J. Herman president of Saab Automobile AB.

"EDS is able to offer highly competitive Systems Management services," continued Herman, "and its international expertise, particularly in the automotive industry, will provide us with exciting new opportunities in the '90s."

The Swedish market for IT services is growing, and the market research company Input forecasts that the current market value of U.S. $1.9 billion is set to grow by 18 percent annually over the next four years.

"The agreement with Saab Automobile is a natural progression for our business in Europe and further enforces our push into the important Swedish market," said Juergen Berg, EDS managing director for Europe. "It represents not only a gain in business, but a tremendous skills enhancement for EDS with the

addition of some 250 highly experienced Saab personnel."

Saab Automobile AB designs, produces and sells some 100,000 premium Swedish cars a year, employs approximately 15,000 people worldwide and reported turnover of $2.5 billion in 1989. Saab's IT facilities to be covered by EDS include its Trollhattan manufacturing and administration headquarters, its Malmo assembly plant and its Nykoping operations. Current hardware platforms include Unisys and DEC VAX.

EDS has been tasked with not only managing current systems, but also developing future DP strategies for Saab. Of particular interest to Saab is the potential of integrating its global operations into EDS' own network, the largest private digital network in the world.

A world leader in information technology-based services, EDS has more than 60,000 employees in 27 countries. EDS offers expertise in a number of business sectors, including the automobile industry. In 1989, EDS' turnover reached $5.47 billion for a net profit of $435.3 million.

CONTACT: Tony Good of EDS/U.S., (214) 661-2139; Liliane Vervloesem of EDS/Belgium 32 (0)3 - 540.6230; or Goran Ekstedt of Saab/Sweden, 46 (0)520 - 851 10.

DETROIT (NOV. 9) PR NEWSWIRE - A miniature Little Caesar finger puppet is now available throughout the country - just in time to be stuffed into children's Christmas stockings. The puppet is Little Caesars Pizza's first special item to be introduced through a national television sales promotion.

The 5-1/2-inch, cuddly finger puppet features Little Caesar in his trademark toga outfit. The puppet also comes complete with a slice of pizza. Customers can purchase the Little Caesar puppet for 99 cents from Nov. 12-Dec. 10 while supplies last, at all local participating Little Caesars restaurants. No purchase is necessary to buy the puppet.

"We are excited to offer our customers this special puppet," said Denise Ilitch Lites, senior executive vice president at Little Caesars. "With the holidays right around the corner, our miniature Little Caesar will make a perfect stocking stuffer or Christmas tree ornament."

Little Caesars Pizza, based in Detroit, is the world's largest carry-out pizza chain, with approximately 3,000 restaurants in all 50 states, Canada, and England. By the end of 1990, the pizza chain projects to have 3,300 restaurants open with $1.5 billion in systemwide sales.

HOUSTON (NOV. 9) PR NEWSWIRE - SYSCO Corporation (NYSE: SYY) announced today that its board of directors approved raising the quarterly cash dividend from $0.05 per share to $0.07 per share. This new dividend rate, which represents the 18th increase to occur during the past 15 years will be paid Feb. 15, 1991 to stockholders of record at the close of business on Jan. 25.

Speaking at the company's annual meeting of stockholders, John F. Woodhouse, chairman and chief executive officer of SYSCO, commented, "The company's strong performance during the recently completed fiscal year, coupled with the growth goals we anticipate achieving in the next several years, provides a firm basis for the board's decision to share SYSCO's progress with its stockholders."

Woodhouse said that shareholders also re-elected four directors to serve three-year terms of office. They include John W. Anderson, Bill M. Lindig, Richard G. Merrill and Donald H. Pegler, Jr.

In addition, shareholders approved the adoption of an amendment to the company's restated certificate of incorporation which will increase to 500,000,000 the number of shares the company is authorized to issue. Likewise, shareholders approved the reservation of 1,000,000 additional shares each for issuance under the company's management incentive plan and employee incentive stock option plan.

SYSCO is the nation's largest foodservice marketing and distribution organization. The company provides is products and services to approximately 230,000 customers located across the United States and western Canada. The SYSCO distribution network currently covers virtually the entire continental United States including all of its 150 largest cities. For the fiscal year ended June 30, 1990, the company reported sales of $7.6 billion and net earnings of $132.5 million.

NEWTON, MASS. (NOV. 9) PR NEWSWIRE - Health and Rehabilitation Properties Trust (NYSE: HRP) today announced that it has entered an agreement to acquire a total of 17 nursing facilities containing 2,411 beds and to mortgage finance four additional nursing facilities with 754 beds. The 17 facilities to be leased are being purchased for $23.5 million in cash plus issuance of 3 million shares of HRP common stock. The four facility mortgage financing is for $15 million which will be advanced in cash. Two million of the 3 million shares being issued will be simultaneously offered for public sale by the seller of the nursing homes through Donaldson, Lufkin & Jenrette Securities Corp., 140 Broadway, New York, N.Y. 10005.

The proceeds of this purchase leaseback, mortgage financing and stock sale will be used to fund, directly or indirectly and in part, the acquisition by a newly formed affiliate of HostMasters, Inc., Pasadena, Calif., (HMI) of 100 percent of the stock of American Medical Services, Inc. (AMS), an indirect subsidiary of TW Holdings, Inc. (NASDAQ: TWFS) of Spartanburg, S.C. AMS is headquartered in Milwaukee, Wis., and currently operates 31 health care facilities and three institutional pharmacies. HMI currently operates eight health care facilities in California and Arizona. At the conclusion of the stock acquisition of AMS, HMI and its affiliates combined will operate 39 nursing home facilities with an aggregate of 5,376 beds and three

institutional pharmacies, and will have aggregate annual revenues of approximately $135 million, based upon results for September 1990.

The 17 nursing homes to be purchased by HRP are located in Wisconsin (six facilities with 718 beds), California (eight facilities with 1,018 beds), Colorado (two facilities with 445 beds) and Illinois (one facility with 230 beds). The four nursing homes to be mortgage financed are located in Wisconsin (three facilities with 674 beds), and Oregon (one facility with 80 beds).

Minimum rent and minimum interest will be established at Closing by a formula based upon the yield of U.S. Treasury obligations and are expected to be an aggregate of $9.4 million during the first year of the lease and mortgage.

PITTSBURGH (NOV. 9) PR NEWSWIRE - Allegheny Ludlum Corp. (NYSE: ALS) today announced that its board of directors has increased the number of shares of its common stock that may be repurchased by the company.

The company has repurchased 991,400 shares under the original program which authorized the purchase of 1,500,000 shares (adjusted for the 3-for-2 stock split). The expanded program approved today authorizes the repurchase of up to 1,000,000 additional shares of its common stock from time to time in the open market or through privately negotiated transactions. After the board's action today, the total stock repurchase authorization remaining is 1,508,600 shares.

"At current price levels, we believe the repurchase of Allegheny Ludlum stock is very attractive," a spokesman said. He noted that the timing and number of shares purchased in the future will depend on market conditions. Shares acquired will be held as treasury stock, according to the spokesman. Goldman Sachs is the exclusive agent for the stock repurchase program.

Allegheny Ludlum stock is listed on the New York Stock Exchange (ALS) and closed at 21-1/4 Thursday. There are 32,882,276 common shares outstanding.

WILMINGTON, DE (NOV. 9) PR NEWSWIRE - Du Pont (NYSE: DD) recognized employees for outstanding environmental achievements at the company's first Environmental Respect Awards ceremony here last night.

The company has allocated nearly $100,000 for contributions to external environmental organizations designated by the award recipients. Last night's presentations included two Chairman's Awards of $10,000 each and 13 Special Recognition and two Corporate Merit awards of $5,000 each.

"The honorees represent a wide range of environmental accomplishments and reflect the company's business and global diversity," said Du Pont Chairman Edgar S. Woolard, Jr.

"I'm convinced that Du Pont must reach new levels of environmental stewardship as a matter of ethical responsibility and business competitiveness," Woolard said. "This program reinforces our belief that respect for the environment should be at the heart of everything we do."

Chairman's Awards were given to the "Kevlar" business unit at the Spruance plant in Richmond, Va., for reducing hazardous waste by 80 percent, and to Pryo Hutomo, a Conoco engineer who set public standards for environmental impact, analysis and management in Indonesia.

Special Recognition Awards were given in such categories as waste management, community outreach, habitat enhancement, product stewardship and innovative technology.

Corporate Merit Awards were given to the "Freon" Products global team for taking the industry lead in international agreements to reduce and ultimately phase out chlorofluorocarbon (CFC) production, and to the Plastic Recycling Alliance, a joint venture of Du Pont and Waste Management, for integrating plastic recycling from collection through recycle processing to market access.

The honorees received trophies of Du Pont "Corian" that depict the company's environmental symbol rising from a rock formation.

PARIS (NOV. 9) PR NEWSWIRE - Four drivers will campaign two Peugeot 905 race cars in the 1991 World Sports Car Championship series, Peugeot announced here Thursday (Nov. 8).

Former Formula 1 World Champion Keke Rosberg will be paired with Formula 1 driver Yannick Dalmas. Mauro Baldi, who won the driver's crown in the 1990 World Sports-Prototype Championship, will team up with Formula 1 driver Philippe Alliot.

Rosberg, 41, helped pilot the Peugeot 905 in its debut races in Montreal and

Mexico City earlier this year.

Baldi, 36, joins Peugeot from the Sauber-Mercedes team, which recently captured the 1990 World Sports-Prototype Championship title. (Next year, the competition will be renamed the World Sports Car Championship series.) In three seasons with Sauber-Mercedes, Baldi had 11 wins, six second-place and three third-place finishes.

Dalmas, 29, and Alliot, 36, once Formula 3 champions of France, have been competing on the Formula 1 circuit in recent years.

Peugeot development driver Jean-Pierre Jabouille, who co-piloted the 905 in Montreal and Mexico, will be a technical consultant to the team in 1991. Jabouille, who finished fifth in the "24 Hours of Le Mans" in 1989, also has been slated to drive the Peugeot 905 at Le Mans next year.

Peugeot's newest race car is equipped with a light-alloy, 3.5-liter atmospheric V10 engine. Four overhead camshafts, two per cylinder bank, activate four valves per cylinder.

For optimum performance, the Peugeot 905 has a honeycomb, carbon- fiber body built by Dassault, the French aeronautic company best known for Falcon and Mirage military jets.

The 1991 World Sports Car Championship series is tentatively scheduled to begin March 31 in Australia.

#90313p5215 11/09/1990 ~PR Newswire

ROCHESTER, N.Y. (NOV. 9) PR NEWSWIRE - Eastman Kodak Company's (NYSE: EK) Board of Directors today voted a wage dividend for 1990 for approximately 73,000 eligible company employees in the United States. The wage dividend will be paid on March 15, 1991.

The 1990 wage dividend will be the first based on a formula announced last January which closely linked to the company's financial performance for the year. Because of this, the exact amount of the wage dividend will be announced when assets and earnings figures for 1990 are reported next February.

The Board also voted to exclude from the calculation of the wage dividend the effects of any charge against Kodak's earnings as a result of the recent judgment in the Polaroid patent litigation. Kodak last week reported a $909.5 million charge in the third quarter associated with the Polaroid litigation, reducing net earnings for the quarter by $564 million.

Kay Whitmore, Kodak chairman, president and chief executive officer, said the Board decided that the Polaroid judgment was a "highly unusual event which resulted in the effects of 14 years of litigation being charged to a single quarter in accordance with conventional accounting practices."

For eligible employees, this year's wage dividend will be based on Kodak's return on assets (ROA) and will be expressed as a percentage of the employee's earnings for 1990. (Employees must have five years of service to receive a full wage dividend. For those with fewer than five years' service, the amount of the wage dividend is pro-rated.)

The wage dividend was established by company founder George Eastman in 1912 and has been paid annually for 78 years, with the exception of 1934. The formula has changed a number of times.

RESTON, VA (NOV. 9) PR NEWSWIRE - The Royal Netherlands Air Force (RNLAF) has awarded a contract to Lucas Western Inc., Flight Structures Division (FSD), Jamestown, N.D., for a newly developed Multiple Practice Bomb Adapter (MPBA) to be carried on the F-16 aircraft. The MPBA, developed and manufactured by FSD, was selected based on successful flight testing, system reliability and low maintenance costs. The value of the contract was not disclosed.

FSD will provide 72 MPBAs along with spares and technical orders as part of the RNLAF contract. The MPBA is a low drag common practice bomb carriage and release unit which is compatible with numerous aircraft. The MPBA carries two 25-pound practice bombs in tandem and releases them without the use of a pyrotechnic cartridge.

A subsidiary of Lucas Aerospace, Lucas Western, Inc., Flight Structures Division manufactures cargo handling systems, aircraft structures and weapons launching systems. The company's range of customers includes Boeing, McDonnell Douglas, General Dynamics, Grumman, Honeywell, Hughes, Lockheed, Rockwell, and the U.S. Navy.

With operations in the United Kingdom, North America and France, and an extensive network of customer support and marketing facilities worldwide, Lucas Aerospace employs 12,000 people and generates annual revenues approaching $1.3 billion. Primary business units include: Engine Systems, Flight Control and Actuation Systems, Aircraft Systems, Communications and Electronics, and Customer Support.

DENVER (NOV. 9) PR NEWSWIRE - Generation 5 Technology Inc. (G5) (NASDAQ: GFIV), a pacesetter in the development of Geographic Information Systems (GIS) and Image Systems Technology Inc. (IST) today announced their agreement to jointly develop and market a series of interactive raster/vector software tools for the geographic information systems (GIS) industry.

Dubbed GeoIMAGE(TM) and the GeoIMAGE Libraries(TM), the new line of software tools are designed to allow the users of Generation 5 Technology's Geo/SQL software to integrate aerial photographs and satellite images into their overall GIS system.

Users work within Geo/SQL's AutoCAD graphics environment, and overlay vector images on a photographic background displayed on their computer screen. A municipal user, for example, might bring up an aerial photograph of a section of the city and then use the photograph as a base to draw new subdivisions, streets and other construction.

"The uses for the GeoIMAGE technology are endless," said Dan Hinckley, vice president R&D/Marketing for Generation 5 Technology. "The cooperative effort between G5 and Image Systems yields a new dimension in geographic information systems applications. Now you can sit at a low-cost 386 workstation and get the power of Geo/SQL, the accuracy of AutoCAD, and the flexibility of working with digital photographic images."

"Our association with Generation 5 Technology," said Bob Godgart, president of Image Systems, "takes advantage of both our leadership in the manipulation and display of raster data within the CAD environment, and of Generation 5's expertise in the GIS marketplace."

A publicly held company, Generation 5 Technology is a pacesetter in the emerging fields of Automated Mapping (AM/FM), Geographic Information Systems (GIS), and Facilities Management (FM) software systems.

The company has distinguished itself by being the first to develop sophisticated computer mapping and GIS software which takes advantage of the standard AutoCAD graphics system; the "AutoCAD-Integrated" Geo/SQL software environments allow low-cost desktop 386/486 PCs and 32-bit UNIX workstations to be linked with complex database applications running on mainframes and minicomputers.

Image Systems Technology (IST) is the developer of the CAD/Overlay ESP software for integrating scanned maps and drawings with the AutoCAD graphics

environment.

Founded in 1987 the Troy, N.Y.-based company has the largest installed base of raster/document technology in the world. In cooperation with Generation 5 Technology, IST is now venturing into the world of hybrid raster/vector based geographic information systems.

For more information contact Dan Hinckley, VP Marketing, Generation 5 Technology Inc. 303-427-0055; or Bob Godgart, Image Systems Technology Inc. 518-283-8783.

Geo/SQL and G5 are trademarks of Generation 5 Technology Inc.; AutoCAD is registered with the U.S. patent and trademark office by Autodesk Inc.; CAD Overlay and CAD Overlay ESP are trademarks of Image Systems Technology Inc.

#90313p5222 11/09/1990 ~PR Newswire

WASHINGTON (NOV. 9) PR NEWSWIRE - The National Association of Beverage Importers (NABI) today applauded the Food & Drug Administration (FDA) for taking action that will ensure wine consumers of Beaujolais nouveau availability on Nov. 15.

According to Robert J. Maxwell, NABI president, FDA put into place a system that will hold Beaujolais nouveau shipments for no more than 24 hours. FDA will randomly check shipments for trace levels of procymidone, a widely used fungicide not registered for use in the United States.

"I know how difficult it can be to make the wheels of government move quickly, which makes me all the more appreciative of FDA's exceptional effort. FDA recognized the uniqueness of the situation and worked tirelessly with French wine producers and U.S. wine importers to come up with a solution. Consumers will find Beaujolais nouveau on store shelves next Thursday," Maxwell stated.

Beaujolais nouveau is different from other wines. Beaujolais nouveau is meant to be consumed "young." Each year, the new wine is made available to consumers on the third Thursday of November -- this year, Nov. 15. Last year more than $15 million worth of Beaujolais nouveau was sold by French vintners in the United States.

Maxwell stated that the testing of Beaujolais nouveau by FDA is the latest chapter in the ongoing debate involving trace levels of procymidone in some European wines. Procymidone is used in 26 countries in Europe and around the world, but has never been registered for use in the United States. Because procymidone is not registered with the Environmental Protection Agency (EPA), no tolerance level for procymidone residue has been established -- making any

level unacceptable and any product containing procymidone illegal.

No problems are expected with Beaujolais nouveau since procymidone was not used on this year's Beaujolais grape crop. Recently, French wine producers supplied FDA with results of a survey demonstrating that Beaujolais nouveau is procymidone-free.

Citing EPA's own statements that trace levels of procymidone in wine do not pose a health threat to wine consumers, NABI continues to urge EPA to immediately establish an enforcement tolerance level for procymidone. NABI estimates that beverage importers have lost more than $60 million since the European wine embargo was established earlier this year.

#90313p5225 11/09/1990 ~PR Newswire

LONDON (NOV. 9) PR NEWSWIRE - Robert Maxwell, chairman of Scitex Corporation, Ltd. (NASDAQ: SCIXF), announced today an unaudited net profit of $20,576,000, or 56 cents per share, for the third quarter of 1990, a 141 percent increase from the net profit of $8,523,000, or 24 cents per share, in the third quarter of 1989. For the nine months ended Sept. 30, 1990, the company's unaudited net profits totaled $53,281,000, or $1.46 per share, a 146 percent increase from the net profit of $21,687,000, or 62 cents per share, in the same period last year.

The board of directors declared an interim cash dividend of 7 cents per share for the third quarter. Shareholders of record as of the close of business on Nov. 15, 1990, will be entitled to the interim dividend. The dividend will be paid on or before Dec. 5, 1990, net of taxes to be withheld at source.

In September, the American Stock Exchange started trading put and call options on Scitex shares.

Revenues in the third quarter reached $96,130,000, a 52 percent increase from the comparable period last year. For the first nine months of the year, revenues totalled $250,196,000, a 47 percent increase over the first nine months of 1989. Operating income for the quarter increased 186 percent over third quarter 1989 levels, while operating margins reached 29 percent.

Revenues continue to be strong worldwide. Compared with the third quarter of 1989, revenues in America grew 64 percent to reach $39,578,000; revenues in Europe grew 41 percent to reach $39,710,000, while revenues to Japan grew 58 percent to reach $10,190,000.

The Scitex Graphic Arts User Association in America held its annual meeting in

August in Orlando, Fla. The successful event drew approximately 400 people representing some 250 member companies, and highlighted once again Scitex's policy of keeping in close touch with its customer base while being responsive to their needs.

During August, at the SIGGRAPH Conference in Dallas, Iris Graphics, the Bedford, Mass., company, acquired by Scitex in March of this year, unveiled a new digital color printer -- the SmartJet Series 4012. The compact printer adds a smaller format to the Iris line of color inkjet printers. It features a high degree of automation, emphasizing minimum operator interventions. The SmartJet, which retails at $39,000, significantly expands market opportunities for Iris.

Nihon Scitex, the company's 50 percent-owned joint venture in Japan, hosted approximately 400 customers and prospects in two gatherings in Tokyo and Osaka. At these events, Scitex, along with several other vendors of peripheral equipment and services, first exhibited some of its newest products to the Japanese market.

Scitex Corporation Ltd. designs, develops, manufactures, markets and services interactive computer imaging systems used primarily in the printing and publishing industries. Scitex products are also used in the cartographic and textile industries, as well as for certain applications in the printed circuit board manufacturing and seismic exploration industries. Scitex operates marketing, sales and service divisions in North America, Europe and Japan.

#90313p5230 11/09/1990 ~PR Newswire

ANN ARBOR, MI (NOV. 9) PR NEWSWIRE - The National Aeronautics and Space Administration (NASA) has awarded Daedalus Enterprises, Inc. of Ann Arbor a Phase II Small Business Innovation Research (SBIR) contract.

The contract, titled "Interferometer Imaging and Frequency Estimation of Surface Vibration Patterns," is valued at $500,000. This contract was awarded based on work performed during the successful completion of the Phase I SBIR feasibility study last year.

The objective of the research is to develop an instrument to demonstrate a novel concept to optically image the vibration patterns of remote surfaces. The principal investigator for the Vibration Imager (VIM) is Karl G. Wesolowicz. The work will be performed for NASA/Ames Research Center, Dryden Flight Research Facility.

The immediate application for this instrument is to evaluate the performance of new materials and structural designs proposed for the National Aerospace

Plane (NASP) program. This aircraft could accelerate up to 25 times the speed of sound, and travel from Washington, D.C., to Tokyo in two hours.

The NASA test facility will investigate the characteristics of the new materials needed to withstand the extreme heat and vibrations expected during flight. The Daedalus instrument will provide NASA with the means to measure vibration patterns of the wing and fuselage surfaces while under test at surface temperatures up to 2000 F.

Daedalus expects that this instrument will have applications in both the commercial and military marketplace. The program commenced in October 1990 and will have an 18-month duration.

The federal SBIR goals are to stimulate technological innovation, increase the use of small business in meeting federal research and development needs, and increase private sector commercialization of results of federally funded research.

Phase I project objectives are to determine feasibility of research innovations meeting agency needs. Phase II continues development of the most promising Phase I projects. This contract was one of 84 awards made from 203 proposals submitted by SBIR contractors completing Phase I projects.

Daedalus is a small business engaged in the development of remote sensing instrumentation. The company has been active in the SBIR program since 1983. Daedalus has received seven Phase I contracts and five Phase II contracts in this time.

The NASA SBIR award program has brought the company more than $2.8 million in R&D funds. Daedalus was recently presented an award at the MERRA SBIR winners conference in recognition of "special contribution to technology development in Michigan."

The primary application of the company's products are in the field of environmental remote sensing. The company's stock is traded in the over-the-counter market under the symbol "DDEI," and is quoted in the automated quotation system of the National Association of Securities Dealers. The signing of this contract at this time was anticipated, and is not expected to change projections of fiscal 1991 revenue.

MIAMI (NOV. 9) PR NEWSWIRE - Orexana Corporation (NASDAQ: XXAU) today announced that the consulting firm of Pincock, Allen & Holt, Inc. (PAH) has been retained by Orexana Mining Limited (Orexana) a wholly owned subsidiary to

conduct a review of Orexana's Bolivian Properties (the properties).

The Orexana Properties are located near the village of Soledad, approximately 100 miles south-southeast of La Paz and 30 miles northwest of Oruro. The properties consist of 12 concessions covering approximately 14,300 acres.

The main block of concessions covering approximately 10,000 acres, is located immediately to the east of the Inti Raymi deposit, being presently mined by a subsidiary of Battle Mountain Gold Company which is engaged in a heap leach gold operation. PAH's report states that such operation has current annual production of approximately 40,000 ounces of gold and 240,000 ounces of silver.

PAH collected samples from two pits in the area of the properties and re-sampled rejects from 16 samples. The highest gold assay from these samples was .36 grams per ton. All but three of the samples contained less than .1 gram of gold per ton. PAH concluded that gold is present in the area of the properties, but systematic sampling and analysis will be needed to determine the extent and grade of the gold content.

There has been very little exploration to date on the properties. Orexana believes that because of the presence of economic gold deposits on the adjacent concession at Inti Raymi, and the presence of gold in the area, there may be a potential for the discovery of economic gold deposits on the properties. In order to evaluate the economic potential of the properties, a detailed exploration program will be required. It is anticipated that such program will cost at least $100,000. Orexana will seek a major mining company as a joint venture partner to embark on such a program.

LOS ANGELES (NOV. 9) PR NEWSWIRE - CF Income Partners L.P. (NYSE: CFI), formerly Cal Fed Income Partners L.P., a Los Angeles- based master limited partnership, today reported a net loss of $2.1 million, or $.16 per unit, for the three months ended Sept. 30, 1990, compared to a net loss of $1.7 million or $.13 per unit, for the three months ended Sept. 30, 1989. The partnership reported a net loss of $4.1 million, or $.31 per unit, for the first nine months of 1990 compared to a net loss of $5.1 million, or $.39 per unit, for the first nine months of 1989.

The increased net loss in the third quarter of 1990 was primarily attributable to the Resale Portfolio. Gains on sales were not sufficient to offset the increased general and administrative expenses and interest expense resulting from the partnership's investment in the Resale Portfolio.

The decreased net loss for the first nine months of 1990 resulted from the profitable sales activity recognized on the Resale Portfolio.

Operating results from the partnership's investment properties for the third quarter of 1990 produced a loss of $200,000 compared to a loss of $22,000 for the same period in 1989. This increase in loss is primarily attributable to an increase in operating expenses due to higher property tax expense and an increase in interest expense.

Non-cash expenses consisting primarily of depreciation and deferred interest, which do not affect Available Cash Flow, totaled $3.6 million in the third quarter of 1990, in comparison to $3.7 million for the same 1989 period.

The third quarter of activity for the Partnership's Resale Portfolio generated $485,000 in income before financing costs and and costs to administer the Resale Portfolio. Sales activity from the real estate held for sale generated $219,000 in income for the Partnership during the third quarter of 1990. The investments in real estate partnerships, which are accounted for using the equity method, produced income of $226,000 for the Partnership.

CF Income Partners L.P. is a publicly traded master limited partnership which has invested in income-producing multi-family residential, commercial and industrial properties.

WINTER HAVEN, FLA. (NOV. 9) PR NEWSWIRE - The vice chairman and the president and chief executive officer of Scotty's, Inc., today expressed their "deepest regret" at the death Nov. 5, 1990, of Baron Francois Vaxelaire, 69, a member of the Scotty's board of directors.

John B. Ellis, vice chairman, and Daryl L. Lansdale, president and CEO of Scotty's, issued the following statement: "It is with deepest regret that we acknowledge the unexpected death of Baron Vaxelaire. He was a man of the highest character and integrity, and provided Scotty's with wise counsel and sound judgment for many years. We appreciate his excellent leadership and recognize the significant contribution he made to the success of Scotty's."

Baron Vaxelaire served as a member of the Scotty's board of directors since 1979. In addition, he was chairman of the board of directors, managing director and president of the executive committee of GIB, a Belgian corporation of which Scotty's is a wholly owned subsidiary.

Scott Linder, chairman of the Scotty's board, is in failing health and was not able to comment on Baron Vaxelaire's passing, according to Scotty's.

SEATTLE (NOV. 9) PR NEWSWIRE - Balkan Bulgarian Airlines, the national carrier of Bulgaria, received its first of three new Boeing 737-500 jetliners

this week, Boeing Commercial Airplane Group confirmed today. The airline will take delivery of its second -500 in December and its third in 1991. All three aircraft were obtained from Ansett Worldwide Aviation Services of Australia under a lease agreement.

The airline, in operation since 1947, is the first Eastern European carrier to choose the -500, newest member of Boeing Commercial Airplane Group's most popular jetliner family. The airliner consumes up to 20 percent less fuel per seat than a comparably configured 737-200. It can seat from 108 to 132 passengers in a variety of configurations.

Balkan's new aircraft are equipped with CFM56-3C1 engines, an engine series noted for its exceptional fuel efficiency, low noise and high reliability. The engines are produced by CFM International, a company jointly owned by General Electric of the United States and SNECMA of France.

Balkan currently operates scheduled passenger and cargo services to 55 points within Europe, Asia and Africa. In addition, it operates a large charter program.

To date, more than 60 customers worldwide have ordered more than 1,700 of the new generation Boeing 737s. Total orders for the entire 737 program amount to 2,852, making it the most popular commercial airplane in history.

SEATTLE (NOV. 9) PR NEWSWIRE - IMRE Corp. (NASDAQ: IMRE) today announced at its annual shareholders' meeting that the company has entered into a distribution agreement with Green Cross Medical Corp., Korea, to distribute the FDA marketing-approved PROSORBA(R) column. The product will be launched in 1991 in Korea.

"We are pleased that we have accomplished another step in the company's ongoing program to increase worldwide distribution of the PROSORBA column," said Frank R. Jones, Ph.D., chief executive officer of IMRE Corp.

IMRE Corp. is a Seattle-based medical products company that is considered a pioneer and the leader in the field of immunoadsorption, a process of treating a diseased patient's blood outside the body.

HUDSON, N.H. (NOV. 9) PR NEWSWIRE - Howtek, Inc. (AMEX: HTK), is introducing its new Colorscan LCC, a low cost addition to its Colorscan family of turnkey, color electronic prepress systems. It is now available to the low-to-medium volume production user who previously could not afford a fully intergrated professional system. The system is priced at $98,900, and is available for immediate delivery.

Colorscan LCC has been designed as a turnkey solution to newspapers and commercial users who require professional quality and functionality of Colorscan's page composition and color separation capabilities, yet at a cost that is within a budget of low-to-medium size color production volume users.

"This is a fully calibrated system that provides a professional alternative to the 'do-it yourself, shrinkwrap' efforts of customers who try to put together their own systems using non-integrated, off-the- shelf hardware and software," said Dave Bothwell, Howtek's president. "It is a fully functional system, offering high quality scanning, color correction, page assembly, stripping, and four color separated film output," he added.

The new Colorscan LCC is supplied with a Hewlett Packard 386 PC platform and control monitor; high resolution SONY color monitor; Scanmaster 3 flatbed scanner; Colorscan Rip screening and assembly Tower; full Colorscan color correction, assembly and stripping software; and the AGFA 9400 laser recorder with 1200 dpi broadsheet output. The Colorscan LCC pricing includes installation and two weeks of training.

Howtek, Inc. designs, engineers, and develops computer peripherals and systems for the color graphics market.

#90313p5282 11/09/1990 ~PR Newswire

PORTAGE, WIS. (NOV. 9) PR NEWSWIRE - Portage Industries Corporation (AMEX: PTG) today announced a $135,000, or a 6-cent per share loss for the quarter

ended Sept. 30, 1990. One year earlier, the third-quarter loss amounted to $80,000, or 4 cents per share. Third-quarter revenues rose 10 percent to $7,323,000 vs. $6,618,000 for the same quarter last year.

Earnings for the nine months ended Sept. 30, 1990, amounted to $85,000 or 4 cents per share, compared with a loss of $290,000, or $.13 a share in 1989. Revenues for the nine months rose 16 percent to $21,451,000, from $18,534,000 last year.

Commenting on the loss, Portage Vice President-Finance Bert Figi indicated that capacity utilization was down more than 10 percent from second quarter. Lower than expected sales coupled with higher material costs and manufacturing overhead were principal causes for the third- quarter results.

"The combination of leveling industrial growth and higher resin prices will make the next few quarters very challenging," said Figi. "Competition continues strong, while our material costs are rising due to the world oil situation. Meanwhile, our customers are becoming more cautious due to their sales outlooks."

Figi said the company's five-year goal -- to improve its market position in two major plastics categories and continue its double-digit revenue growth while improving profitability -- will be both helped and challenged by current macro-economic trends. "Current economic conditions are causing short-term earnings pressure in our industry which may weed out the weakest competitors," Figi explained. "We plan to take advantage of our industry-leading reputation for quality by targeting new clients who are dependent upon our level of capability. These clients are typically found in the anti-recessionary food packaging industries."

Portage Industries manufactures and markets a broad range of extruded plastic material, which includes a variety of monolithic (single layer) sheet and rollstock, as well as coextruded and barrier coextruded (multi-layer) materials used primarily to form special packaging, automotive parts and industrial components. The company has an outstanding reputation for quality products and working with new resins. Its coextrusion operation can manufacture products from the broadest array of resin combinations in the industry.

#90313p5285 11/09/1990 ~PR Newswire

MIAMI (NOV. 9) PR NEWSWIRE - Citizens Savings Financial Corporation (NASDAQ-NMS: CSFCB), a parent company of Citizens Federal Bank, a five-state federal savings bank, has reported net earnings of $10,122,000 ($3.27 per share) on total income of $98,380,000 for the three months ended Sept. 30, 1990, compared to net earnings of $3,820,000 ($1.23 per share) on total income of $110,550,000 for the same quarter of 1989.

For the nine months ended Sept. 30, 1990, Citizens Savings reported net earnings of $16,209,000 ($5.08 per share) on total income of $301,895,000, compared to net earnings of $9,459,000 ($3.06 per share) on total income of $321,087,000 for the same period of 1989.

The 1990 third quarter earnings include an after-tax extraordinary gain of $11.2 million resulting from the bank's exchange of a large portion of its subordinated debt for preferred stock, and a $7.6 million addition to reserves of which $5.1 million was for potential loan losses against performing assets.

Charles B. Stuzin, chairman and president of Citizens Savings, addressed the additional loan reserves by stating, "Some people may accuse us of being overly conservative, and if we are, so be it. But this is the time to look to the future. Citizens Federal has only a minimal amount of loans covering commerical real estate and is virtually unaffected by the severe problems in this sector of the economy.

"Our portfolio of residential first mortgage loans is no more delinquent than it was six months ago. But considering the overall economy, this is the prudent step to take at this time.

"Our management always has been extremely conservative and we plan to continue

this policy, especially in times which are so filled with economic uncertainty."

Stockholders equity per common share climbed to $33.11 on Sept. 30, 1990, a gain of 26 percent over the $26.31 per share a year ago.

In conformity with a 1987 S.E.C. staff accounting bulletin, the company also reported on a supplemental basis that its earnings per common share would have been $3.00 for the quarter ended Sept. 30, 1990, $4.30 for the nine months ended Sept. 30, 1990, $.87 for the quarter ended Sept. 30, 1989, and $2.00 for the nine months ended Sept. 30, 1989, if the earnings per common share were adjusted for dividends not actually paid or accrued but imputed on its Series A Preferred Stock which was sold to the Federal Savings and Loan Insurance Corportion (now the FSLIC Resolution Fund) in connection with the company's 1986 acquisition of an Ohio savings bank. The imputed dividends are calculated as if the dividends payable on the Series A Preferred Stock were based upon a market rate dividend of 5.3 percent in both years. The company's actual earnings of $3.27 per share for the quarter ended Sept. 30, 1990, $5.08 per share for the nine months ended Sept. 30, 1990, $1.23 per share for the quarter ended Sept. 30, 1989, and $3.06 per share for the nine months ended Sept. 30, 1989, are based upon the actual dividends paid or accrued to the FSLIC Resolution Fund on this stock, which increased in 1990 over 1989.

Citizens Federal Bank operates 84 banking offices in five states. It operates as Citizens Federal Bank in its Florida, California and Virginia divisions; as Equitable Savings in its Ohio division; and as American Savings in its Illinois division.

Net income, if Series A Preferred Stock dividends were imputed	$ 3.00	$ 0.87	$ 4.30	$ 2.00

(unaudited, dollars in thousands, except per share amounts)

	At Sept. 30, 1990	1989
Total assets	$4,091,048	$4,435,048
Loans receivable -- net	$3,634,350	$3,917,902
Cash and investments	$ 268,733	$ 283,632
Deposits	$2,976,904	$2,877,773
Stockholders' equity	$ 232,460	$ 162,005
Stockholders' equity per common share	$ 33.11	$ 26.31
Yield on loans	9.79 pct.	10.16 pct.
Yield on investments (D)	9.26 pct.	9.81 pct.
Total yield on interest-earning assets	9.76 pct.	10.14 pct.
Cost of deposits	7.61 pct.	7.97 pct.
Cost of borrowings	8.52 pct.	9.01 pct.
Total cost of interest-bearing liabilities	7.81 pct.	8.31 pct.
Yield on loans less cost of deposits	2.18 pct.	2.19 pct.
Total yield on interest-earning assets less total cost of interest-bearing liabilities (interest rate spread)	1.95 pct.	1.83 pct.

(A) -- The net extraordinary gain of $14,263,000 (net of taxes) in the three months and nine months ended Sept. 30, 1990 represents (1) an $11,207,000 gain (net of taxes and the write-off of unamortized capitalized issuance costs pertaining to the subordinated notes exchanged) on the exchange of shares of Citizens Federal Bank, a Federal Savings Bank's (the "bank") Non-Cumulative Preferred Stock and specified cash payments for $76,205,000 of its subordinated

notes; (2) the $3,302,000 tax benefit from utilization of net operating loss carryforwards; and (3) the $246,000 net loss on the prepayment of Federal Home Loan Bank ("FHLB") advances assumed by the bank in the American Savings Bank acquisition. The extraordinary gain of $801,000 (net of taxes) in the nine months ended Sept. 30, 1989 represents the gain on the assumption of $20.0 million of below market rate FHLB advances of the bank by an independent third party in the second quarter of 1989.

(B) -- Earnings per common share were reduced by dividends paid or accrued on Citizens Savings Financial Corporation's (the "company") Adjustable Rate Cumulative Preferred Stock, Series A (the "Series A Preferred Stock") and Cumulative Convertible Preferred Stock, Series C in the amount of approximately $300,000 and $35,000 for the three months ended Sept. 30, 1990 and 1989, respectively, and approximately $901,000 and $107,000 for the nine months ended Sept. 30, 1990 and 1989, respectively. (C) -- The supplemental presentation of earnings per common share reflects the effect of the imputation of a market rate dividend on the company's Series A Preferred Stock which carries a below-market contractual dividend rate until 1992. The imputed dividend represents the difference between the dividends actually paid on the Series A Preferred Stock and the dividends that would be payable if dividends were based on an assumed market dividend rate. Dividends actually paid were $300,000 and $25,000 for the three months ended Sept. 30, 1990 and 1989, respectively, and $900,000 and $75,000 for the nine months ended Sept. 30, 1990 and 1989, respectively. Dividends that would be payable if dividends were based on assumed rates were approximately $1,097,000 and $1,123,000, for the three months ended Sept. 30, 1990 and 1989, respectively, and $3,262,000 and $3,327,000 for the nine months ended Sept. 30, 1990 and 1989, respectively. The market dividend rate assumed for the three and nine months ended Sept. 30, 1990 and 1989 was 5.3 percent.

(D) -- The yield on investments is provided on a taxable-equivalent basis. Adjustments have been made for the tax-exempt nature of the income from investments in state and local government securities and the tax advantaged nature of the income from investments in certain equity securities.

(E) -- The following presents the bank's compliance with the three capital standards that currently apply to savings institutions.

Tangible Capital Requirement. Savings institutions are required to maintain tangible capital of at least 1.5 percent of tangible assets. At Sept. 30, 1990 the bank had tangible capital of $167,942,000, which equaled 4.20 percent of tangible assets, exceeding the minimum requirement of $59,914,000 as of that date by $108,028,000.

Leverage Ratio Requirement. Savings institutions are also required to maintain "core capital" of at least 3.0 percent of adjusted tangible assets. At Sept. 30, 1990 the bank had core capital of $252,990,000, which equaled 6.29 percent of adjusted tangible assets, exceeding the minimum requirement of

$120,582,000 as of that date by $132,408,000.

Risk-based Capital Requirement. Savings institutions are required to maintain risk-based capital equal to 6.4 percent of risk-weighted assets. At Sept. 30, 1990 the bank had risk-based capital (total core and supplementary capital) of $296,111,000, which equaled 12.97 percent of risk-weighted assets, exceeding the minimum requirement of $146,148,000 as of that date by $149,963,000.

FORT LAUDERDALE, FLA (NOV. 9) PR NEWSWIRE - Guinness Management Limited, a Cayman Islands company whose chairman is The Hon. Jonathon B. Guinness, has entered into a 50 year development agreement with the Government of the Commonwealth of Dominica.

The agreement calls for the development of a luxury tourist resort, a residential community, a business and commerce center and an industrial park within 800+ lush and tropical acres of oceanfront land which Guinness Management has had under option since December of 1989.

The resort will be designed for several hotels, a golf course, swimming center tennis tournament facilities, marina and equestrian center. The private and secluded residential community will contain both vacation residences and condotel investment units. The Business Center will offer the first modern office center on Dominca drawing non-resident companies to the project. The Industrial Park will incorporate a tax free Export/Import Zone which will concentrate on labor intensive industry.

The entire 50-year project has been designated a Capital Intensive Enterprise under the Dominican Fiscal Incentive Act which means that Guinness Management and their investing and developing partners were granted a minimum of 15 years tax holiday for the entire project. Further, Guinness Management has been granted extensive duty free entry into Dominica for materials, supplies, equipment, tools and vehicles. The agreement also includes special work permit concessions which will guarantee companies who join in the development, work permits for the life of their Fiscal Incentives.

The agreement, dated Oct. 31, 1990, was signed by The Hon. M. Eugenia Charles as Prime Minister and by Byron G. Ellison as managing director of the company. Guinness Management maintains offices in London, Fort Lauderdale, Fla., Grand Cayman and Dominica.

ST. PAUL, MINN. (NOV. 9) PR NEWSWIRE - Northwest Airlines today named John H. Dasburg president and chief executive officer.

Dasburg, previously executive vice president-finance and administration, succeeds Frederick B. Rentschler, who will remain as a director on the NWA Inc. board.

Rentschler resigned because of changing personal priorities and for family reasons.

"While I am sorry Fred is leaving our team, I understand the need to focus on overriding family and personal priorities. I respect his decision," Al Checchi, Northwest chairman, said.

"John Dasburg has impeccable business experience, he knows the importance of customer service in the travel industry, and he shares the vision of making Northwest the airline of preference for our customers and the best place to work for our employees," Checchi said.

Fred Malek, vice chairman, said: "John repeatedly has earned the respect and confidence of colleagues through the years. His expertise in all facets of the hospitality business will serve him well as president and CEO of Northwest."

Dasburg, who immediately assumes his new duties, joined Northwest in November 1989 after nine years at the Marriott Corporation. He held several positions with Marriott, including president of its Lodging Group, a $3.5 billion business with more than 100,000 employees. He was responsible for the full range of that corporation's lodging products, including Marriott's full-service hotels and resorts. Prior to that, he was Marriott's chief financial officer, and also was responsible for real estate development and architecture and construction programs.

Dasburg, 47, earned a master's degree in business administration, a law degree and an engineering degree from the University of Florida. He is married with two children and resides in Edina, Minn.

Rentschler said, "There are personal and family situations that require my time and energy. I leave Northwest with genuine regret. The people have been terrific, and the industry is exciting and gratifying.

"There is no doubt in my mind that John will be a leader in the travel industry. I wish the entire team well as Northwest becomes the airline preferred by travelers everywhere. I have no doubt they will be successful."

Northwest is the nation's fourth-largest airline, serving Asia, Europe, Mexico the Caribbean and 40 U.S. states.

SAN BRUNO, CA (NOV. 9) PR NEWSWIRE - The following was released today by North Lily Mining Co. (NASDAQ: NLMC):

The proposal for the amalgamation of the company's three Canadian subsidiaries on the following basis was overwhelmingly approved by shareholders of each subsidiary at Extraordinary General Meetings held Nov. 1, 1990:

Company	Old Shares	New Shares in surviving company
International Mahogany Corp.	1 Class A	1.0 Class A
International Mahogany Corp.	1 Class B	1.0 Class B
Goldsil Resources Ltd.	1 Common	0.22 Class B
Magellan Resources Corp.	1 Common	0.22 Class B

The companies expect to submit the proposed amalgamation to the Supreme Court of British Columbia for approval on Nov. 9, 1990. The effective date of the amalgamation is anticipated to be Dec. 1, 1990. On completion of the amalgamation, North Lily will control 59.29 percent of the new International Mahogany Corp.

The proposed amalgamation greatly simplifies the otherwise complex corporate structure of the North Lily Group. It will also result in a corporation with a larger asset base and capitalization, which will provide a broader market for its shares. Management's time and efforts may now be focused on one subsidiary which should assist operating activities and decrease administrative costs.

#90313p5296 11/09/1990 ~PR Newswire

HEBRON, KY (NOV. 9) PR NEWSWIRE - Today, Delta Air Lines' (NYSE: DAL) officials were joined by local dignitaries and guests in ceremonies opening a new $20 million maintenance hangar at the Greater Cincinnati International Airport.

The $20 million hangar will house up to four Delta jet aircraft simultaneously and allow Delta's technical operations staff to maintain or modify aircraft day or night in all weather conditions.

In remarks at the dedication ceremonies, Delta's Julian May, senior vice president-technical operations, said: "This facility is part of a continuing planned expansion at Greater Cincinnati International Airport. You may know, Delta recently announced plans for a new Cincinnati flight center. Plans will double the number of gates, add to the baggage claim area, expand refueling operations, add a high-speed, tracked people-mover system to transport passengers underground along a 2,000 linear foot tunnel connecting the new Terminal D with the existing Concourse D and the new Concourse E, with a basic construction cost estimated at $315 million.

"All of the facilities that we've built and the improvements that we undertake obviously are important to Delta," May continued. "At the same time, this work -- and the flights and services that it supports -- is important to Cincinnati and northern Kentucky as you move your economy forward to become one of the world's major air transportation centers."

Dorsey Jones, Delta's district director of marketing for Cincinnati, explained why Delta's hub operations -- which will be strengthened by the maintenance facility and other expansion -- will have important economic benefits for the community.

"Extensive air service is a major selling point for any community seeking to expand its economic base. Delta currently has 145 daily flights here and effective February 1, 1991, Delta will add another 8 daily flights -- bringing our operation to 153 daily flights. Service will be inaugurated between Cincinnati and two new destinations -- Rochester and Syracuse, New York, plus

additional flights to existing markets."

Airport Board Chairman Paul Michels commenting on today's dedication of the maintenance hangar and the announcement of added services at Cincinnati, said: "Delta's continuing development of their Cincinnati operation is a further indication of their level of support of the tri-state area. Delta is truly positioning the Cincinnati and Northern Kentucky area into the global arena for business and tourism."

The new hangar -- 260 feet wide, 175 feet deep, and 66 feet high -- will include support shops, offices, spare parts storage, aircraft aprons, and access taxiways. It will house various mixes of Delta jets, including up to four narrow-body jets or one wide-body jet and two smaller jets.

Delta's hub at Cincinnati has evolved into a major world air transportation center in that persons traveling through Cincinnati have convenient access to the more than 175 cities Delta serves in 14 countries worldwide. With 145 daily flights (153 effective Feb. 1, 1991) Delta provides nonstop service to 55 destinations (57 effective Feb. 1, 1991), including nonstop service to three international destinations -- London, Frankfurt and Paris.

ATLANTA (NOV. 9) PR NEWSWIRE - Delta Air Lines (NYSE: DAL) has announced an expansion of domestic service from its Cincinnati and Orlando hubs on Feb. 1, 1991.

From Delta's Cincinnati hub, where the airline recently announced a $315 million airport expansion, Delta will add new nonstop service to Rochester and Syracuse. The new schedule will feature two daily round-trips to both cities and increases the airline's daily departures from Cincinnati to 153. Delta already serves Rochester and Syracuse from its Atlanta hub with two flights daily. In addition, at Cincinnati on Feb. 1, Delta will add additional flights to both Jacksonville and Fort Myers.

From its Orlando hub, where Delta recently opened a new 24-gate flight center, the airline will add nonstop service to Providence, bringing to 77 the number of daily flights Delta operates out of the Florida city. Delta already features service to Providence from its Atlanta hub.

At Orlando five days later, on Feb. 6, Delta introduces Orlando's first-ever service to Tokyo when Delta's new MD-11 aircraft begins one-stop service via Los Angeles.

WASHINGTON (NOV. 9) PR NEWSWIRE - Robert J. Hammarley, a USAir DC-9 first officer and chairman of the USAir pilots Master Executive Council, has been selected to serve as executive administrator of the Air Line Pilots Association.

Hammarley's appointment was announced by ALPA's President-Elect, Capt. Randy Babbitt. Babbitt, who is the current executive administrator of ALPA, will take office as president on Jan. 1, 1991, along with Hammarley.

"Bob will bring to this office a tremendous range of experience in airline labor," said Babbitt. "He has sat on both sides of the bargaining table, he is chairman of ALPA's third-largest pilot group, and he is firmly committed both to the standards of our profession, and to the values of organized labor, including elimination of the B-Scale," Babbitt said. (Hammarley himself still is paid under the airline's lower paying "B-Scale.")

Hammarley, age 48, joined USAir in 1986 and took office in January 1990 as chairman of the USAir pilots Master Executive Council. Earlier USAir positions included membership on the pilots Negotiating Committee and the "No B-Scale" Committee. Shortly after he assumed the Master Executive Council chairmanship, USAir's pilots negotiated a new contract that improved the USAir pilots' B-Scale by paying what at the time were the highest end pay rates in the industry for newly hired pilots.

Previously he had worked 13 years at Frontier Airlines, including three years as director of flight operations, planning and control, as well as 10 years as a line pilot. At Frontier he was chairman of the pilots alcohol assistance committee, chairman of the accident investigation committee, and he played an instrumental role in the attempted employee buy-out of Frontier.

His military experience includes five years in the Air Force where he was a C-141 aircraft commander. He holds a bachelor's degree in psychology from John Carroll University in Cleveland.

Hammarley is a native of Decatur, Ala. He and his wife, Gail, reside in the Pittsburgh area.

#90313p5302 11/09/1990 ~PR Newswire
ALLENTOWN, PA (NOV. 9) PR NEWSWIRE - Penn Treaty American Corp. (NASDAQ: PTAC) reported today that net income for the three months ended Sept. 30, 1990

totalled $771,305 or 24 cents per share, compared to $1,366,612 or 55 cents per share for the same three-month period the previous year.

Revenues for the quarter totalled $11,014,600, a 35 percent increase over the previous year's three-month period. For the nine months ended Sept. 30, 1990, net income totalled $3,573,549 or $1.11 per share, compared to $3,423,747 or $1.37 per share for the comparable period in the previous year. The company's prior year three- and nine-month periods included a one-time gain of 9 cents per share due to the sale of the company's former headquarters building. Total revenues for the nine months ended Sept. 30, 1990, were $31,831,036, a 44 percent increase over the previous nine-month period revenues of $22,111,587.

Irving Levit, president and chief executive officer, stated "The third quarter results continued to reflect the impact of inadequate rates on Medicare supplement products sold in late 1989 and early 1990 primarily in Florida and Pennsylvania. We believe we have taken the steps necessary to reduce the amount of business written in this product line and to increase rates for existing and new business. We believe the rate increases now being implemented combined with a decrease in Medicare supplement products as a percent of our overall business should allow improved results in the future. Most importantly our primary product, long-term care insurance, remains highly profitable and we remain optimistic about the company's continued growth." Long-term care insurance products currently account for approximately 80 percent of the company's revenues, while Medicare supplement and other insurance products account for the remaining 20 percent.

Penn Treaty American Corp., through its wholly owned direct and indirect subsidiaries, Penn Treaty Life Insurance Co., Network America Life Insurance Co. and Cher-Britt Service Co., is primarily engaged in the underwriting, marketing and sale of individual, fixed, defined benefit accident and health insurance products principally covering long-term nursing home care and home health care products. The company is licensed to conduct business in 43 states and the District of Columbia.

COLUMBUS, OHIO (NOV. 9) PR NEWSWIRE - Danninger Medical Technology, Inc. (NASDAQ: DANN) announced today that net income for the three months ended Sept. 30, 1990, was $110,373, compared to $79,539 for the same period last year. This represents earnings per share of 2 cents versus 2 cents a year ago. Total sales for the third quarter of 1990 were $2.2 million, an increase of 95 percent.

Year-to-date results reflect solid growth during 1990. Thus far, total sales are $5.6 million versus $3.1 million a year ago, an increase of 80 percent. Net income for the first nine months of 1990 is $397,327, versus a loss of $17,777 for the same period last year.

Dr. Edward R. Funk, chairman, commented, "We are pleased with the company's continued progress. During this period of substantial growth, our attention is focused on strengthening management and systems so that Danninger can successfully achieve its long-term objectives."

Third quarter performance was favorably influenced by several key factors. First, the Danniflex 900(TM), a continuous passive motion device for the hand, completed its first full quarter of sales, which provided significant new revenues. Second, the company's products continue to benefit from broader channels of distribution in both domestic and international markets. Third, Cross Medical Products' Puno/Winter/Byrd Pedicle Screw System, which is subject to an FDA Investigational Device Exemption, has now been implanted in more than 100 patients.

Danninger Medical Technology, Inc., headquartered in Columbus, Ohio, designs, manufactures, and markets electromechanical medical devices for patient recovery following surgery or trauma as well as instrumentation and implants for surgery of the spine.

NEWPORT NEWS, VA (NOV. 9) PR NEWSWIRE - The Flight International Group, Inc. (NASDAQ-NMS: FLTI) announced today that it has now reached final agreements with the lenders who last year sued the company as a result of its default on

an aggregate of approximately $63 million in outstanding loans and who had not previously settled such lawsuits.

The company's announcement today relates to the remaining $34.1 million in previously defaulted debt owing to five lenders. The company reached agreements in principle with such lenders on Oct. 30, 1990, and final documents have now been executed. The final agreements waived the defaults, extended the payment terms of the loans and included agreements to settle the related lawsuits.

The company also announced that in connection with such agreements, the company has agreed to issue to each of two of the five lenders approximately 196,000 authorized but previously unissued shares of common stock equal to 4.9 percent of its currently outstanding common stock. With the execution of these documents, Flight International has restructured, brought current or paid off all of its defaulted debt.

The company also said that it had mailed its 1990 proxy statement to stockholders and expects to hold the annual meeting of stockholders on Nov. 30.

The Flight International Group, Inc. is a leader in aviation services with interests in government and military contracts as well as commercial flight operations.

#90313p5310 11/09/1990 ~PR Newswire

SOUTHFIELD, MICH (NOV. 9) PR NEWSWIRE - Franklin Savings Bank (NASDAQ-NMS: FSVB) today announced the addition of $3 million to its allowance for possible loan losses. This increase is the result of a recently completed examination by the Office of Thrift Supervision ("OTS").

Franklin will file an appeal with the OTS regulators challenging the amount of the allowance increase. Management attributes the OTS action primarily to national regulatory hysteria over deteriorating real estate lending and industry abuses.

Franklin's allowance for possible loan losses will approximate $4.6 million after the addition, or 1.24 percent of total loans at Sept. 30, 1990. Relative to total loans, this is similar to reserves maintained by commercial banks. However, it is much higher than reserves typically maintained by most savings and loans.

"The added reserves substantially improve Franklin's ability to absorb future losses," said President and CEO Read P. Dunn. "However, in our opinion, this

increase does not accurately reflect the condition of Franklin's loan portfolio."

Losses charged to Franklin's loan loss allowance for the past three years averaged less than $230,000 per year. Dunn indicated that Franklin's non-performing assets have increased during the past year due to the softening Michigan economy, although not to an alarming degree. Total non-performing assets, net of loan loss allowances of $1.7 million at Sept. 30, 1990, were 1.78 percent.

In arriving at the addition to Franklin's allowance, the OTS criticized many fully performing loans. Among the loans classified, approximately 70 percent were not past due 30 or more days at the time of the exam. Ironically, the largest category represented, or approximately 35 percent of the total loans classified, are apartment projects in southeastern Michigan. Dunn noted that apartments continue to be one of the healthiest elements in the local real estate market.

Despite continued profitability from traditional banking activities, this one-time allowance increase will result in Franklin reporting a substantial earnings loss for the current quarter as well as the fiscal year to end June 30, 1991.

Effective Dec. 31, 1990, total stockholders' equity is projected to be approximately $11 million, or $11.60 per share. In addition, this action will have the effect of reducing Franklin's core capital below core capital requirements. As a result, Franklin will file a revised Capital Plan with the OTS. Risk-based capital, which includes reserves and subordinated debt, is unaffected by this action and remains at approximately $21.8 million.

Franklin Savings Bank, with $406 million in assets, has administrative offices and one regional branch in Southfield. Additional regional offices are in Grosse Pointe Woods and Birmingham. Wholly owned subsidiaries Franklin Commercial Mortgage Group and Franklin Home Lending Group are in the Southfield administrative offices.

#90313p5313 11/09/1990 ~PR Newswire

LOWELL, MA (NOV. 9) PR NEWSWIRE - COMFED BANCORP, INC. (AMEX: CFK) announced today a loss of $59.3 million, or $7.10 per share, for its fiscal 1991 second quarter ended Sept. 30, 1990. For the comparable quarter ended Sept. 30, 1989, COMFED reported net income of $11,000.

For the six-month period ended Sept. 30, 1990, COMFED posted a loss of $65.3 million, or $7.81 per share, compared to a loss of $3.6 million, or 44 cents per share for the first six months of the previous fiscal year.

Reflecting a continuing decline in the New England real estate market, a weakened regional economy and the ongoing quality assessment of certain loan portfolio segments, COMFED made additional provisions for estimated losses on loans and foreclosed real estate of $52.3 million during the quarter. Additionally, results for the quarter were adversely affected by loss of interest income, workout expenses, and foreclosure costs associated with COMFED's non-performing assets. At Sept. 30, 1990, non-performing assets totaled $203.7 million, including loans on non-accrual status of $148.7 million and real estate owned or substantively repossessed of $55.0 million. At June 30, 1990, non-performing assets amounted to $194 million.

Total reserves for loan losses at Sept. 30, 1990, were $74 million, compared to $42.4 million at June 30, 1990.

As a result of its second quarter loss, COMFED's tangible capital at Sept. 30, 1990 declined to a negative $77.5 million. Stockholders' equity at Sept. 30, 1990 was a negative $28.2 million, compared to a positive $31.1 million at June 30, 1990.

COMFED BANCORP, INC. is a $1.3 billion asset holding company headquartered in Lowell, Mass.

HOUSTON (NOV. 9) PR NEWSWIRE - American Oil and Gas Corp. (AMEX: AOG) today announced the following results for the quarter and nine months ended Sept. 30 1990:

	(In thousands, except per share amounts)			
	Three Months Ended Sept. 30,		Nine Months Ended Sept. 30,	
	1990	1989 (Restated)	1990	1989 (Restated)
Revenues	$88,283	$27,901	$328,756	$ 81,083
Operating income (loss)	8,140	(145)	16,834	529
Equity in loss of WellTech, Inc.	(500)	(7,103)	(2,560)	(13,514)
Other income (expenses)	(1,328)	(2)	(4,544)	513
Net income (loss)	6,312	(7,250)	9,730	(12,472)
Net income (loss) applicable to common stock	5,325	(7,676)	6,481	(13,750)
Net income (loss) per common share	0.32	(0.91)	0.39	(1.63)

American Oil and Gas Corp. reported significant increases in its revenues and operating income as compared to the same periods in 1989. The increase is primarily a result of AOG's acquisition of the natural gas pipeline business of Cabot Corp., which was effective Nov. 1, 1989, and measures implemented to improve the operations of the acquired business.

Third quarter results also reflect the favorable impact of (1) continued hot and dry weather conditions in the company's primary service area which extended the period of heavy demand from agricultural and electric utility customers; (2) improved coordination and matching of purchases and sales transactions; (3) renegotiation of transportation arrangements; (4) higher sales prices for natural gas liquids; and (5) improved efficiencies in field operations.

The company's ownership of WellTech Inc. was reduced to 51 percent from 100 percent effective Sept. 30, 1989. The company's investment in WellTech is presented using the equity method of accounting, and the 1989 operating results have been restated. WellTech's operating results have improved during 1990 compared to 1989 because of better rig utilization, higher rates per rig hour and lower operating/administrative expenses.

Currently, the company and WellTech's other shareholders are negotiating with third parties the terms of a recapitalization plan for WellTech. Under proposed terms of the agreement, the third parties would retire certain of

WellTech's indebtedness and make a substantial equity contribution in exchange for a majority of WellTech's common stock. This recapitalization would have the effect of reducing the company's ownership interest from 51 percent to below 20 percent. The company anticipates this recapitalization will be completed prior to Dec. 31, 1990.

As previously announced, the company executed an agreement subsequent to Sept. 30, 1990 pertaining to the sale of a 17 mile pipeline system (Big Three System) and the release from all contractual obligations to supply or transport gas to the facilities serviced by this system. Under the terms of the sale, the company will receive 513,310 shares of its common stock. This transaction is expected to close prior to Dec. 31, 1990.

American Oil and Gas Corp. is engaged primarily in the natural gas gathering, transportation and marketing business.

#90313p5316 11/09/1990 ~PR Newswire

CHARLOTTE, N.C. (NOV. 9) PR NEWSWIRE - First Union Corporation (NYSE: FTU FTUpr) today announced that it expects to report 1990 net income of approximately $270 million to $280 million, or $2.50 to $2.60 per common share. These results would represent an increase of approximately 4 to 8 percent over 1989 earnings of $256 million, or $2.40 per share.

The expected 1990 results are somewhat lower than the company earlier indicated and reflect the continued softening of the economic environment. Expected fourth quarter earnings of approximately $45 to $55 million, or 40 to 50 cents per common share, would reflect an increase over $39.6 million, or 37 cents per share, reported for the fourth quarter 1989.

Using the midpoint of the earnings estimate, this outlook assumes a fourth quarter provision for loan losses of approximately $80 million compared to the third quarter provision of $35 million.

It further assumes fourth quarter net charge-offs of approximately $50 million or .74 percent of average net loans, compared to $37 million, or .56 of average net loans, in the third quarter. Net charge-offs for the year are expected to be approximately $150 million, or .58 percent of average net loans.

The allowance for loan losses is expected to increase $30 million from the $425 million reported at Sept. 30, 1990, to $455 million.

The year-end allowance for loan losses is expected to be approximately 75 percent of nonperforming loans. Nonperforming assets at year end are expected to increase approximately 15 percent form the Sept. 30 level of $684 million

and should not exceed 3 percent of total loans.

First Union Corporation officials expect that expense growth for 1990 will be minimal after adjusting for the acquisition of Florida National Banks of Florida, Inc. The net interest margin will remain above 4 percent and the corporation's capital ratios will remain well above required levels.

First Union Corporation reported assets of $39.1 billion as of Sept. 30, 1990 and operated 764 statewide banking offices in North Carolina, South Carolina, Gerogia and Florida, one banking office in Tennessee and 277 nonbanking offices in 36 states.

JACKSON, MI (NOV. 9) PR NEWSWIRE - Consumers Power Company's new economic development video promoting business opportunity in the state, "Michigan: State of the Future," has won a national award for excellence.

The 11-minute video received the 1990 Economic Development Excellence Award from the Washington, D.C.-based Edison Electric Institute, the 179-member national utility organization. Consumers Power's video was judged the most outstanding of 20 entries submitted by utilities located throughout the United States.

"Our efforts are directed at providing companies, both in the United States and around the world, with a better understanding of the unique opportunities for growth in Michigan which so many other companies have discovered," said Paul A. Elbert, the utility's vice president of marketing, rates and wholesale power transactions.

Consumers Power has also produced award-winning economic development videos promoting Oakland County, Kalamazoo County, Jackson County, Muskegon County and the Traverse City area.

Consumers Power Company, the principal subsidiary of CMS Energy Corporation (NYSE: CMS), is Michigan's largest utility serving almost 6 million of the state's 9 million residents in 67 of the 68 Lower Peninsula counties.

CHICAGO, (NOV. 9) PR NEWSWIRE - The board of directors of First Chicago Corp. (NYSE: FNB) today declared a regular quarterly common stock dividend of 50 cents per share, which is unchanged from the previous dividend, and is payable on Jan. 1, 1991, to stockholders of record on Dec. 14, 1990.

First Chicago also said it will reinstate its Dividend Reinvestment and Stock Purchase Plan, effective with the Jan. 1, 1991 dividend.

Chairman Barry F. Sullivan said, "This program offers our stockholders an easy and convenient method of increasing their ownership in First Chicago. At the same time, the capital base of the corporation is strengthened with the issuance of new stock through the Plan."

The Dividend Reinvestment and Stock Purchase Plan provides holders of First Chicago's common stock the ability to invest cash dividends in additional shares of the stock. Key features of the plan include a 4 percent discount in the purchase price of new stock with reinvested dividends, and no brokerage commissions or service charges. In addition, stockholders participating in the plan may make optional cash purchases of First Chicago's common stock up to $5,000 per month, without the discount.

Stockholders will be receiving enrollment information and other details about the plan around Dec. 1.

ANNVILLE, PA. (NOV. 9) PR NEWSWIRE - Mineral Fiber Specialists (MFS), a Bethlehem, Pa.-based firm, and American Energy Products (AEP), of Covina, Calif., today announced the acquisition of 50 percent of the stock in AEP by MFS.

MFS manufactures and markets glass-like fibers that are derived from iron making blast furnace slag which are then used as raw materials in the production of ceiling tiles, building board, and other structural and insulating materials.

AEP develops, manufactures and markets proprietary Underwriters Laboratories-approved and asbestos-free fireproofing, insulating and acoustical products for application to internal beams, girders, columns, decks and walls of buildings. The products prevent damage to these steel-supporting elements in the event of fire. AEP will use a portion of the MFS output as a raw material.

The association of the two companies will be known as Structural Coatings Inc.

and will be headed up by David Noyes, president, with offices in Anaheim, Calif.

At the same, R.M. Funk, managing partner of MFS and chief financial officer for Structural Coatings, announced that beginning January 1991, products for Structural Coatings will be produced in a newly completed facility in Bethlehem. Other manufacturing locations are planned for 1991 to serve the entire U.S. market and the Canadian market. The new Bethlehem facility began to produce industrial insulating cement products Nov. 1, 1990, for Insulco, a recently acquired company of MFS and known previously as Insulation Industries of New Jersey. Funk also confirmed that MFS is negotiating the expansion of its Bethlehem fiber production capacity as well as the construction of a new West Coast facility.

#90313p5336 11/09/1990 ~PR Newswire

GREENSBORO, NC (NOV. 9) PR NEWSWIRE - Vanguard Cellular Systems, Inc. (NASDAQ: VCELA) reported today that revenues increased to $16,854,000 for the third quarter ended September 30, 1990, a 38 percent increase from 1989 third quarter revenues of $12,242,000. Revenues for the nine months ended September 30, 1990 were $47,441,000, a 52 percent increase over revenues of $31,284,000 for the same period last year. Increases in revenues during both the quarter and the nine months ended September 30, 1990 were primarily due to growth in service revenues which increased 46 percent and 66 percent from the 1989 third quarter and nine months ended September 30, 1989, respectively.

Loss from operations before depreciation and amortization decreased 37 percent from $4,705,000 during the 1989 third quarter to $2,951,000 during the 1990 third quarter and decreased 46 percent from $16,001,000 to $8,592,000 during the nine months ended September 30, 1989 and 1990, respectively.

The number of customers in markets controlled by the Company continued to grow increasing to 55,300 or a 70 percent increase from September 30, 1989. Commenting on the results, Haynes G. Griffin, Vanguard's President and Chief Executive Officer, said, "We are encouraged by the strong growth in both service revenues and the number of customers served, especially during a period of recessionary concerns. We are also pleased with the declines in operating losses from last year and believe that the Company is continuing as planned towards positive operating cash flow in 1991. We believe our capital base and $325 million credit facility have positioned us well during this period of economic uncertainty."

For the third quarter, the Company reported a net loss of $11,065,000 or $0.54 per share, compared to a net loss of $10,243,000 or $0.50 per share during the 1989 third quarter. The increase in the net loss was primarily attributable

to increased interest expense related to outstanding borrowings under the line of credit.

The Company also announced today the completion of an acquisition of the majority interest in the Williamsport, Pennsylvania cellular market. "The acquisition of Williamsport brings the total number of cellular markets served in our Pennsylvania supersystem to nine. This addition will allow us to expand the wide area and seamless services we provide to our customers through one of the largest telecommunication networks in this part of the country," said Stephen R. Leeolou, Vanguard's Executive Vice President and Chief Operating Officer.

Vanguard Cellular Systems, Inc. headquartered in Greensboro, North Carolina, directly and indirectly owns interests in and operates cellular telephone systems primarily in the Eastern United States.

#90313p5340 11/09/1990 ~PR Newswire

RYE, NY (NOV. 9) PR NEWSWIRE - Supradur Companies, Inc. (NASDAQ: SUPD), today reported the results of its operations for the third quarter and the first nine months of 1990.

Sales for the third quarter were $6,721,000 as compared to $6,313,000 for the same period in 1989. The company incurred a net loss during the period of $819,000 or 91 cents per common share compared to net income of $124,000 or 13 cents per share in 1989. For the nine months, sales were $20,099,000 compared to $19,334,000 in the same period last year. Net loss for the nine months was $2,746,000 or $3.03 per share compared to net income of $913,000 or 97 cents per share in 1989. Included in the 1990 year-to-date amount is a foreign currency loss of $26,000 compared to an $8,000 loss in 1989.

K. Fred Netter, president, reported that the loss for the quarter was in part attributable to losses incurred at the new Montreal facility. This business' sales volume has not reached the level required for profitability even though sales for the quarter increased 16 percent over the second quarter. He said that the domestic building material business in Wind Gap, Pa., operated profitably for the quarter and should continue to do so for the balance of the year.

Sales in the high-tech machining and sheet metal business declined 21 percent over the second quarter causing an operating loss. Many of the items sold were new bookings to the facilities which are not as profitable as "repeat" business, which had been the historical norm.

Netter also stated, "even though the company has incurred large losses in 1990 we have tremendous progress with our effort to produce asbestos-free products. The company still remains financially strong as indicated by the $13.71 per common share book value."

Supradur Companies, Inc. is a diversified company with operating subsidiaries throughout the United States, Canada and Europe.

ST. LOUIS (NOV. 9) PR NEWSWIRE - Y&A Group, Inc. (NASDAQ: YGRP) announced today it has secured its tenth acquisition since 1988 with the addition of Dryden & LaRue to its team of engineering consulting firms. Dryden & LaRue, a professional engineering consulting firm, located in Anchorage, Alaska, specializes in the design of T&D systems for electric utilities thoughout the state.

Dryden & LaRue, with more than 20 years of T&D experience in Alaska, has had an established working relationship with the principals of Y&A for over a decade and has completed several joint venture projects with the company. In addition to performing professional T&D services for substantially all electric utilities in Alaska including Alaska Power Authority, the company has been directly involved in providing the required engineering support to the oil industry and is poised to respond to this industry's increasing opportunities in Alaska.

Malcolm Cheek, president, Y&A Group, stated, "Dryden & LaRue is an excellent addition to our core business as it strengthens our internal T&D expertise and

adds immediately to our earnings capability. During the balance of 1990 and 1991 we will continue to expand our geographic presence to a national level, taking full advantage of the favorable industry conditions which exist today in our electric utility niche market."

Y&A Group, Inc. through its principal operating subsidiaries, provides professional engineering services in essentially all disciplines related to the electric utility industry, as well as segments of the residential, commercial and industrial industries. Y&A maintains offices in Missouri, Florida, North Carolina, Wisconsin and Alaska, as well as international offices in Thailand and Malaysia.

IRVINE, CALIF. (NOV. 9) PR NEWSWIRE - With its popularity among consumers and the automotive media showing no signs of abating, the Mazda MX-5 Miata has garnered its most recent prestigious automotive award -- being named as one of Road & Track magazine's "Ten Best Cars in the World." In addition, the magazine also selected the Miata as the "Best Sports/GT" in the $13,000 - $21,000 class.

The list of award winners, which appears in the magazine's December 1990 issue, also includes such automobiles as the Ferrari 348; Porsche Carrera 4; Mercedes-Benz 300E and 500SL, and BMW M5. The $14,200 Miata was the only vehicle in this illustrious group with a base price under $35,000.

In naming the Miata to their list of the "Ten Best Cars in the World," Road & Track stated, "The Miata manages to combine all the honesty, spirit and image of the classic sports car with the reliability and durability we've come to expect. The Miata is a driver's car of the first order, with communicative steering, a responsive throttle ... and a gear lever that could have coined the work 'snick.' Think of the Miata as a terrific automotive pal."

Clark J. Vitulli, chief operating officer of Mazda Motor of America Inc., said of the award, "We are proud of the accolades which the Miata has received from both consumers and the automotive media. This recognition from one of the leading automotive publications is proof positive that Mazda has created a true sports car of enduring value."

Other significant awards won by the Miata since it was introduced include Automobile magazine's first ever "Automobile of the Year" award; being named one of the five "World's Best Cars" by Road & Track; selection as the "Best Sports Car" by the Motorweek television automotive magazine; inclusion on Car and Driver magazine's list of the "10 Best" cars for 1990, and being ranked as

the most "trouble- free" sports car in the 1990 J.D. Power and Associates New Car Initial Quality Study (IQS)(sm).

MORRISTOWN, NJ (NOV. 9) PR NEWSWIRE - AT&T's (NYSE: T) UNIX System Laboratories Inc. (USL), today announced that it has established a liaison agreement with the 88open Consortium, an independent organization of software and systems suppliers supporting Motorola's 88000 family of RISC microprocessors.

Under this agreement, the two organizations will coordinate activities in the areas of UNIX System(R) V Release 4 compatibility, independent software vendor (ISV) programs, and support for industry standards.

"By creating a formal association with 88open, and by continuing to work closely with SPARC International, MIPS and Intel processor groups, we can ensure close cooperation in our mutual efforts to increase the number of shrinkwrapped applications for UNIX System V Release 4," said Larry Dooling, president of USL.

Mace said that USL's association with 88open will result in increased coordination in ISV programs. The two organizations are already cooperating in a wide range of activities, including a strong program to bring DOS ISVs into the UNIX System market.

88open is an independent member organization of software and systems suppliers supporting Motorola's 88000 family of RISC microprocessors. With more than 50 members worldwide, 88open focuses on the certification of software applications across a variety of 88000 based platforms, including servers, workstations, personal computers, portables, fault tolerant systems, and real time systems. The consortium employs 25 people in the San Jose office, and maintains 88open International Centres at member company facilities in Maidenhead, U.K.; Oslo, Norway; and Frankfurt, Germany.

UNIX System Laboratories Inc. (USL), a subsidiary of AT&T, develops and markets UNIX System V and related system software in source code form to computer hardware and systems software vendors worldwide. Headqurtered in Summit, N.J., USL was formerly known as AT&T's UNIX Software Operation.

ERIE, PA. (NOV. 9) PR NEWSWIRE - Military personnel stationed in the Persian Gulf will get a taste of home this holiday season through a unique program introduced Thursday by Marine Bank, a PNC Financial Corp (NYSE: PNC) affiliate headquartered in Erie, Pa.

According to Marine Bank President David Zuern, the program, named "Operation Mail Call," has been created to help boost the morale of U.S. military personnel who will be away from home during the upcoming holidays. As part of the program, Marine will be shipping letter mail and cards to soldiers, sailors and Marines free of charge.

"Marine Bank is very proud to sponsor Operation Mail Call," said Zuern. "In this small way, we can share one of our most treasured blessings -- our freedom -- with those who are hard at work protecting it."

To participate in Operation Mail Call, residents in Marine Bank's service area have been asked to write a letter or holiday greeting addressed to "Any Service Member." Individuals may then take the mail to any of the bank's 46 community offices, and the bank will pick up the tab on the postage.

The letters are to be distributed to land- and sea-based units stationed throughout the gulf. Letters personally addressed to specific personnel are not accepted in "Operation Mail Call."

As part of the program, each person who brings a piece of mail into one of Marine's community offices will receive a yellow ribbon with the slogan, "Operation Mail Call" printed on it. The ribbons commemorate each person's support and serve as a reminder of those who are defending freedom, a spokesman for the bank said.

Operation Mail Call is expected to run through Friday, Dec. 14. Veterans groups, schools and social organizations in the northwestern Pennsylvania region have been encouraged to participate in the program.

Individuals who want to learn more about Operation Mail Call should contact the marketing department at Marine Bank in Erie, Pa., at 814-871-9361.

PITTSBURGH (NOV. 9) PR NEWSWIRE - David H. Weis, president, Thermal Industries Inc. (NASDAQ: THMP), today reported first quarter results.

THERMAL INDUSTRIES INC.

Quarter Ended Sept. 30	1990	1989
Net sales	$8,271,000	$7,706,000
Net income	734,000	200,000
Net income per share	$.38	$.10

Comments: Seven percent first quarter sales increase resulted from higher unit sales, selective price increases and improved product mix. Continued productivity improvements and cost controls contributed to the substantially higher net income. Strong billings have continued through October, but present economic conditions make it impossible to predict full-year results.

#90313p5362 11/09/1990 ~PR Newswire

NEWARK, N.J. (NOV. 9) PR NEWSWIRE - One year after the beginning of a democratic government in Czechoslovakia, Continental Airlines and its employees are joining in an international effort to provide western literature to the people of Czechoslovakia.

The airline, along with the Prague Spring Foundation (PSF), will fly more than 20,000 books to Czechoslovakia during the next few months. Project Booklift will begin its inaugural flight from Newark International Airport, today.

According to Michael Holmes, vice president of human resources of Continental Airlines, the response from employees to the program has been "outstanding."

"Our employees have embraced the concept that reading plays an important role in helping the Czech people transform their nation from communism to democracy " he said. "This grassroots effort, started by Los Angeles-based flight attendant Terri New, has become so popular that it has attracted a major international following."

According to Richard Lisser, Continental's city vice president who oversees operations at Newark, the program has touched the "hearts and minds of our local employees."

"The response extends from the lunch room to the departure gates. Our local staff has truly rallied around this cause," he said. "As a company, we were glad to assist our employees in this worthy project."

In addition to Newark, Continental employees from Los Angeles, Denver and Houston play a major role in the campaign. Accompanying the first batch of books to be delivered are: Terri New, a Los Angeles flight attendant; Carrie Correa, an airport ticket agent in Los Angeles; Tami Busby, a Denver flight attendant; Cynthia Dorsett, a Houston flight attendant; Colleen Horan, manager of human resources: in Houston and Ray Skippa, manager of employee

communications.

Continental Airlines is Newark International Airport's largest carrier, moving 10 million passengers annually through the complex on its 303 daily jet and commuter flights. The company employs more than 6,000 workers in New Jersey and 37,000 systemwide. Continental currently flies to 65 destinations from Newark.

FARMINGTON HILLS, MICH (NOV. 9) PR NEWSWIRE - Douglas & Lomason Company (NASDAQ-NMS: DOUG), a major automotive parts manufacturer headquartered in Farmington Hills, reported sales and earnings for the third quarter and the first nine months of 1990 which represent improved operating results when compared to the same period of 1989. The earnings improvement is directly attributable to the elimination of the 1989 start-up costs of new plants.

Sales of $97.4 million for the three months ended Sept. 30, 1990, compared to $93.7 million for the same period of 1989 or an increase of 3.9 percent. Net earnings of $1.1 million or $.50 per share for the third quarter of 1990 compared to a net loss of $2.2 million or $1.10 per share for the same period of 1989. Nine-months sales of $319.4 million compared to $317.8 million for the same period of 1989 or an increase of less than 1 percent. Nine-months

earnings of $4.5 million or $2.17 per share compared to a net loss of $1.9 million or $.98 per share in 1989.

EAST HARTFORD, CT (NOV. 9) PR NEWSWIRE - Barry Baskind, president of Motts Holdings, Inc. (AMEX: MSM), today reported the results of the company's operations for the third quarter and first nine months ended Sept. 29, 1990. In announcing results, Baskind pointed out that the losses sustained from operations of the three remaining supermarkets, which were sold in a transaction effective Sept. 29, 1990, have been included as part of discontinued operations.

The company's income from continuing operations before discontinued operations amounted to $143,290, or $.05 per share, for the 1990 third quarter, versus $126,006, or $.05 per share, for the same 1989 period. Losses from discontinued operations net of tax provision amounted to $1,125,500 (which includes a net loss of $200,420 on disposal of discontinued operations) as compared to $313,013 a year earlier. After providing for such losses from discontinued operations, the net loss amounted to $982,210, or $.38 per share, in the 1990 quarter versus a net loss of $187,007, or $.07 per share, sustained in the corresponding 1989 period.

For the first nine months of 1990 income from continuing operations before discontinued operations amounted to $378,687, or $.15 per share, versus $349,443, or $.13 per share, for the same 1989 period. After losses from discontinued operations net of tax provision of $1,919,857 (which includes a net loss of $200,420 on disposal of discontinued operations) and $991,243 in fiscal 1990 and fiscal 1989, respectively, the net loss amounted to $1,541,170 or $.59 per share, for the latest nine months versus a net loss of $641,800, or $.25 per share, sustained in the same year-earlier period.

The foregoing per share calculations are based on 2,610,454 shares outstanding

at Sept. 29, 1990, and Sept. 30, 1989.

#90313p5374 11/09/1990 ~PR Newswire

DENVER, (NOV. 9) PR NEWSWIRE - M.D.C. Holdings Inc. (NYSE: MDC), national home builder and mortgage banking company, today announced that its net income for the three months ended Sept. 30, 1990 was $.8 million, or 4 cents per share, including a $9.4 million extraordinary after-tax gain from the company's repurchase of $31 million principal amount of its senior subordinated and subordinated notes. For the third quarter of 1989, the company had net income of $1 million, or 6 cents per share, including a $19 million extraordinary after-tax gain from the company's repurchase of $53 million principal amount of its notes.

During the first nine months of 1990, MDC's net income was $6.5 million, or 34 cents per share, including a $16.1 million extraordinary after-tax gain from the company's repurchase of $47.4 million of its notes, as compared to net income of $.7 million, or 4 cents per share, including $36.5 million of extraordinary after-tax gains from the company's repurchase of $125.7 million principal amount of its notes, during the first nine months of 1989.

During the three and nine months ended Sept. 30, 1990, MDC closed 484 and 1,549 homes, as compared to 707 and 2,394 closings, respectively, during the like periods a year ago. At Sept. 30, 1990, the company's backlog of residential units sold but not closed was 598 units having an approximate sales value of $113.9 million and a backlog of 1,037 units having an approximate sales value of $188.7 million at Sept. 30, 1989.

Revenues for the three and nine months ended Sept. 30, 1990 were $123.7 million and $403.6 million, respectively, as compared to $214.3 million and $563.3 million, respectively, for the comparable periods in 1989.

Spencer I. Browne, president and chief operating officer of MDC, said, "The improvement in the company's performance in 1990 as compared to 1989 continues to be due principally to (i) lower interest expense as a result of the repurchase and restructuring of the company's notes; (ii) reductions in selling, general and administrative expenses; (iii) increases in earnings from collateralized mortgage obligations (CMO) issuances due to a decline in short-term interest rates; and (iv) higher gross profit margins on its home closings." The decline in short-term interest rates also increased the company's fees from its management agreement with Asset Investors Corp., a New York Stock Exchange-listed real estate investment trust.

Despite these improvements, MDC had operating losses (before income taxes,

minority interest and extraordinary gains) of $12.7 million and $11.8 million during the three and nine months ended Sept. 30, 1990, respectively. These losses primarily resulted from a $12 million provision recorded at Sept. 30, 1990 to reduce the carrying value of the company's inventories to their net realizable value. The $12 million provision relates principally to one large property in southern California and properties in Arizona. During the three and nine months ended Sept. 30, 1989, provisions to reduce the carrying value of the company's home building inventories and for restructuring charges totalled $29.6 million and $30.3 million, respectively.

The decline in home closings and backlog in 1990 as compared to 1989 is due primarily to (i) major declines in Virginia and Maryland home building markets markets that have slowed substantially in the past nine months; (ii) declines in home closings in southern California principally resulting from the sale of a large portion of the company's land inventories during the third quarter of 1989 which reduced the number of sites available for future construction; and (iii) the closing of the company's Dallas home building operations in the second quarter of 1989.

Browne said, "MDC's operations during 1990 have been adversely affected by continuing weakness in the company's Denver and Phoenix home building markets as well as softness in the Virginia, Maryland and California markets. Our revenues, backlog and sales continue to decline from the comparable periods in 1989 and 1988, reflecting a general downturn in the real estate industry." The downturn is exacerbated by, among other things, low consumer confidence brought about by a weakening in the economy nationwide and uncertainties concerning the Middle East. The downturn has been accelerated by a "credit crunch" across the country which has made it more difficult for home builders to acquire, develop and profitably build out properties. If these trends continue, the company's future home closings and operating results could be affected adversely.

The company's net income per share for both the three and nine months ended Sept. 30, 1990 was based on 19.1 weighted average shares outstanding as compared to 15.9 million weighted average shares outstanding for both the like periods in 1989.

#90313p5379 11/09/1990 ~PR Newswire

DENVER (NOV. 9) PR NEWSWIRE - First Interstate Bank of Denver today announced it will offer a package of services specifically designed to meet the banking needs of low-income individuals.

The new package includes a checking account with no minimum balance required,

overdraft protection, and a savings account that can be opened with as little as $25.

First Interstate Bank developed this new package of services -- Banking as Easy as 1-2-3 -- in response to extensive research into the banking needs of low-income individuals in the Denver area. Research with participants with annual household incomes less than $20,000 indicated a strong preference for a package of services that would help consumers maintain a checking account, establish a savings account and build -- or rebuild -- a credit history.

First Interstate Bank's new package of services includes basic checking for only $3 a month. Customers may write up to 10 checks per month and make unlimited deposits. Automatic payments and transfers are made at no charge. Additional checks are only 50 cents each. A red First Interstate Bancard for automated teller machines is available for $8 a year.

"Our research showed that many people depend on costly check cashing services and manage their money out of their purses and wallets," said Frances Draper, senior vice president of Retail Banking. "This is not only unsafe and ruinously expensive, but never enables these consumers the chance to build a bank relationship that results in the confidence and creditworthiness to successfully obtain a bank loan."

A $100 overdraft protection plan is a special feature of this checking account. It is designed to eliminate the worry of overdrawing the account, and allows the customer to establish a credit history. As the customer pays back any amount borrowed, the line of credit is rebuilt.

Having a sufficient overdraft line of credit to cover occasional small, but costly overdrafts means that many people will be able to keep their accounts open and won't be forced to cash their checks at check cashing shops or purchase money orders to pay their bills," explains Draper.

First Interstate's market research also indicated that low-income consumers want to build financial security through a savings account, but cannot afford to open one with the customary opening deposit, and pay fees generally assessed on low-balance accounts.

NEPTUNE BEACH, FLA. (NOV. 9) PR NEWSWIRE - Family Steak Houses of Florida, Inc. (NASDAQ: RYFL) today reported earnings and revenues for the third quarter of 1990.

Third quarter sales rose 4.7 percent to $11,786,500 from $11,258,400 for the

same period in 1989. Earnings from operations were $831,200 for the third quarter, compared to $1,018,300 for the third period of 1989, a decrease of 18.4 percent. Net earnings for the quarter were $73,400, compared to $223,900 in 1989, a decrease of 67.2 percent. Earnings per share for the quarter were 1 cent on 10,562,000 shares, compared to 2 cents on 10,792,000 shares for the same period in 1989.

For the nine months ended Oct. 3, 1990, sales climbed 7.6 percent, to $37,026,900 from $34,400,700 for the comparable period in 1989. Earnings from operations for the nine month period were $3,093,100, compared to $3,305,900 for the first nine months of 1989, a decrease of 6.4 percent. Net earnings for the nine months were $644,600 as compared to $940,700 for the same period a year earlier, a 31.5 percent decrease. Earnings per share decreased 33.3 percent to 6 cents on 10,684,000 shares, from 9 cents on 10,766,000 shares for the comparable period in 1989.

James W. Osborn, president of the company, said, "The sales in the traditionally slow period of late summer and early fall were further softened by the slowed economy, which also resulted in an icreased loss from the Rustic Inn Joint Venture. While food cost as a percentage of sales has shown improvement, labor and other operating expenses have increased as a percentage of sales, a result of the lower sales levels."

The company's share of the losses of the Rustic Inn Joint Venture was a loss of $93,000 for the third quarter of 1990, compared to a net loss of $11,500 for the same quarter of 1989. The Rustic Inn Joint Venture owns two seafood restaurants in Orlando and Margate, Fla. The company is a 50 percent partner in the Joint Venture.

"The company," Osborn said, "is on schedule with its plan to improve sales and profits by upgrading management, including a new vice president of operations, implementing systems to improve quality and cost control standards, and increasing the marketing of Ryan's. While these moves have increased costs in the short run, we believe that they will result in improved operational results in the near future."

Family Steak Houses of Florida, Inc. now owns 26 Ryan's restaurants in Florida. The company owns and operates Ryan's Family Steak House restaurants under a franchise agreement with Ryan's Family Steak Houses, Inc. of Greer, S.C. The agreement grants the company the right to construct and operate Ryan's Family Steak House restaurants as the exclusive franchisee throughout the state of Florida.

HOUSTON (NOV. 9) PR NEWSWIRE - Houston Lighting & Power today filed a request with the cities it serves and the Public Utility Commission of Texas to implement the final two steps of a three-step rate moderation plan. HL&P

initiated the rate moderation plan in November, 1988, when the company requested the first step increase to begin recovering its investment in recently completed lignite and nuclear power plants. In June of this year, the Public Utility Commission issued a ruling on the first step and approved the three-step concept.

HL&P is proposing that the final two steps of the rate moderation plan be implemented about a year apart. The company is requesting a step 2 increase of $397 million, which would raise system-wide electric rates by 11.6 percent. The step 3 rate increase of approximately $155 million would raise electric rates by an additional 4.1 percent.

Regulatory review of the final two steps of the rate moderation plan is expected to be completed during spring next year. Step 2 would be implemented at that time, with step 3 following about a year later. Houston Lighting & Power company is a subsidiary of Houston Industries Inc. and provides electric in a 5,000 square mile area which includes Houston, Galveston and other Texas cities.

#90313p5385 11/09/1990 ~PR Newswire

GREENWICH, CT. (NOV. 9) PR NEWSWIRE - Finevest Foods, Inc. (NYSE: FVF) today reported a net loss of $1,909,000 or $.18 per share for the quarter ended Sept. 30, 1990. This compares to a net loss of $8,419,000 or $.79 per share for the quarter ended Sept. 30, 1989, which included a pretax provision for restructuring its dairy operations of $10,675,000 ($.63 per share after tax). For the nine months of 1990, the company reported a net loss of $3,418,000 or $.32 per share, compared with a net loss of $9,873,000 or $.93 per share for the same period last year.

The 1990 third quarter loss resulted primarily from continued unprofitable operations in the company's Florida dairy region, where lower volume, ongoing price competition and higher raw milk and other related costs offset the profitable results in its other dairy regions. The company reported that excluding the results of its Florida dairy region, it would have been profitable for the third quarter and nine months of 1990, Overall, the company's dairy operations recorded a lower operating loss in the third quarter of 1990 than in the comparable period last year, resulting from higher margins and efficiency improvements. The company's frozen food distribution operations continued to record outstanding results, benefiting from its expansion into the Texas market during the second quarter of 1990 with a distribution facility in Houston. The company expects frozen food operations to continue their strong performance for the remainder of 1990, and is reviewing its options for the dairy operations in light of the significant losses in the Florida region.

Net sales for the quarter ended Sept. 30, 1990, were $181,194,000 compared to $175,041,000 in the 1989 period, as dairy sales declined 4.3 percent and frozen food distribution sales increased 14.4 percent. The decrease in dairy sales resulted essentially from a loss of customers in the Florida dairy region due to ongoing price competition. The increase in frozen food distribution sales resulted primarily from the startup of the new Houston distribution facility in the second quarter, and from increased volume from new and existing customers.

Net sales for the nine months ended Sept. 30, 1990, were $536,185,000, an increase of 2.1 percent from $525,016,000 in the 1989 period. The increase resulted from a 9.1 percent increase in frozen food distribution sales, offset by a decline of 2.8 percent in dairy sales for the reasons previously mentioned.

Finevest Foods, Inc. is a leading wholesale distributor of frozen foods and dairy products in the southeastern United States and is one of that region's largest processors of fluid milk, ice cream and other related dairy products.

ANN ARBOR, MICH (NOV. 9) PR NEWSWIRE - Great Lakes Bancorp (NASDAQ-NMS: GLBC) announced it has commenced an exchange offer for its 7 1/4 percent convertible subordinated debentures due in 2011. Great Lakes is offering $50,000 in principal amount of 18 percent senior subordinated debentures due in 2006 in exchange for each $100,000 principal amount of the convertible subordinated debentures.

Great Lakes will accept any and all of the $26.6 million of convertible subordinated debentures currently outstanding. There is no minimum-tender condition. Accrued interest on the convertible subordinated debentures up to the exchange date will be paid in cash promptly after the expiration of the exchange offer.

Through the exchange, Great Lakes will reduce its total indebtedness and realize a gain resulting from the current market conditions for the convertible subordinated debentures. In addition, Great Lakes will reduce its amount of fully diluted shares outstanding, thereby reducing earnings dilution.

Copies of the offering circular and related documents may be obtained through the exchange agent (IBJ Schroder, One State Street, New York, NY 10004; telephone 212-858-2000) or from Great Lakes Bancorp by calling 313-930-6106 (collect).

Great Lakes has been implementing a series of strategies to strengthen its capital base in response to a changing regulatory environment. At Sept. 30, stockholders' equity in Great Lakes had increased 26 percent from a year ago to $181 million, due in part to the success of Great Lakes' public offering in the second quarter of 1990 of preferred stock, which raised $27 million of capital for the Bank. Great Lakes' tangible capital ratio at Sept. 30 was 2.65 percent and its core capital ratio was 4.23 percent, both in excess of the current regulatory requirements of 1.5 percent and 3.0 percent, respectively. The tangible book value per share of common stock increased 39 percent from a year ago to $17.89.

Great Lakes Bancorp has 52 branches in Michigan and operates Dollar Federal Savings Bank, a subsidiary with five branches in the north- Cincinnati area. Great Lakes also operates Great Lakes Mortgage Co., a mortgage banking subsidiary. With $3.7 billion in assets, Great Lakes Bancorp is Michigan's second largest savings bank.

NEW YORK (NOV. 9) PR NEWSWIRE - "Tic Tac Microchip Toe," "Pluto Tiddly Winks" and "Signal the Satellite" are among the games children will play to test their knowledge of space-age communications at the AT&T InfoQuest Center's FunFair on Sunday, Nov. 18.

The event, free and recommended for children age 6 and older, will be held from 10 a.m. to 5 p.m. at the AT&T InfoQuest Center, 550 Madison Ave. at 56th Street.

"The purpose of FunFair -- like that of the AT&T InfoQuest Center itself -- is to make technology entertaining and understandable," said the center's director, Marilyn Reznick. "FunFair will enable youngsters to interactively explore the fascinating dynamics of the Information Age technologies featured throughout the AT&T InfoQuest Center."

Many of the FunFair games, created for this event, are variations of old favorites. Scheduled attractions include:

-- Tic Tax Microchip Toe: Instead of "X's" and "O's," children will place large magnetic squares marked "1" or "O" on a tic tax toe board. The squares represent binary digits, or the "on/off" signals that send messages through a computer -- and through the AT&T long-distance network. Players also will learn about microchips, the microscopic "brains" of a computer.

-- Pluto Tiddly Winks and Earthly Tiddly Winks: By flipping a chip onto a space-like game board, young would-be astronauts can "conquer" Pluto and the earth, respectively.

-- The Geosynchronous Satellite: Inspired by "Pin the Tail on the Donkey," this game might be called "Pin the Satellite in Orbit." Blindfolded children will compete to place a model of the Telstar communications satellite closest to its orbital position -- always the same distance from the earth.

-- The Wheel of Knowledge: Participants will spin a huge red, yellow and green wheel and learn about the three leading communications technologies: photonics microelectronics and computer software.

-- Signal The Satellite: Children will vie to see how far they can "send a message from an earth station" to a satellite. The farther the message travels, the higher the score.

#90313p5395 11/09/1990 ~PR Newswire

DETROIT (NOV. 9) PR NEWSWIRE - UAW members at the Navistar International Transportation Corporation voted on Thursday to ratify a new three-year labor agreement. The agreement was approved by an 86-percent majority of the UAW production, clerical and technical members voting at local unions in six states.

UAW Secretary-Treasurer Bill Casstevens, who led the UAW-Navistar bargaining team, expressed satisfaction with the ratification, saying, "The substantial approval margin of this agreement by the UAW-Navistar membership attests to the many gains that were won in the face of highly unfavorable economic conditions."

Referring to a weekend work stoppage which occurred when agreement could not be reached by the deadline on midnight, Nov. 2, Casstevens said, "The Navistar members showed that they were willing to fight to achieve their goals."

"As a result of their action, and the determination of the bargaining team, we attained an agreement which significantly expands job security, provides solid economic gains for current workers and improves the income of our Navistar retirees," Casstevens continued.

The agreement provides a three-percent pay increase in the first year and lump-sum increases in the second and third years. Quarterly cost of living (COLA) increases will be paid during the term of the agreement, with $1.67 of the current COLA being added to base wages.

The 100-percent job security program negotiated at Navistar in 1987 has been strengthened to limit layoffs of nearly all currently employed workers to no more than seven weeks per contract year, even in cases of extreme volume declines.

Retired UAW-Navistar members will receive six payments of $150 over the life of the agreement, with additional increases to cover the higher cost of Medicare B payments. The monthly benefit for those who retire during this contract has also been increased in a number of key areas.

Major improvements in health and insurance benefits were made for active workers and their dependents. The proposed contract also provides 47 paid holidays and includes notable gains in health and safety, profit sharing, apprentice programs, and recall rights.

PARIS (NOV. 9) PR NEWSWIRE - The French automotive group Peugeot S.A. (PSA) announced Thursday (Nov. 8) that third-quarter consolidated revenues rose 8.7 percent over the same period last year to $6.8 billion (a). For the first nine months of this year, PSA's consolidated revenues increased 6.6 percent over the same period in 1989 to $23.2 billion.

Automobiles Peugeot had consolidated revenues of $13.5 billion, up 6.5 percent over the first nine months of last year. Consolidated revenues for Automobiles Citroen increased six percent to $8.6 billion. PSA's mechanical and service subsidiaries showed consolidated revenues of $1.1 billion, an increase of 9.7 percent over the first nine months of 1989.

The group's consolidated revenues in France increased 9.5 percent to $10.6 billion for the first nine months. Outside of France, PSA's revenues rose 4.3 percent to $12.6 billion. PSA's total export sales from France amounted to $10.4 billion, up 19.5 percent over the first nine months on 1989.

PSA, Europe's third-largest automaker and France's No. 1 exporter, had 12.8

percent of European market share at the end of September. PSA Chairman Jacques Calvet recently reported that he expects the group's European market share to exceed 13 percent this year.

(a) - Converted from French Francs at the Sept. 30, 1990, exchange rate of $1 equals FF 5.22. Percentages refer to comparisons in French Francs.

PHILADELPHIA (NOV. 9) PR NEWSWIRE - CIGNA Foundation won the Better Business Bureau of Eastern Pennsylvania's 1990 Crystal Award, the top honor presented to the single best entry in the bureau's annual community service program award competition, it was announced today.

CIGNA Foundation won for its Neighborhood School Partnership program, which provides ongoing funds and services to assist five public schools in one Philadelphia neighborhood.

In addition to winning the bureau's top award, the Neighborhood School Partnership program earned the award for Best Community Service by a for-profit organization.

"It's satisfying to be recognized for a program we believe is producing results in the classroom and community," said Arnold W. "Woodie" Wright Jr., vice president and executive director of the CIGNA Foundation.

"A strong partnership between the business community and the American education system is the only way we can be sure that students master the basic learning and social skills they need in order to be equipped to learn the advanced skills employers need now and in the future."

The CIGNA Neighborhood School Partnership, now in its second year, includes Audenried High School, Barratt Middle School, Greenfield School, Childs Elementary School and Durham Child Development Center.

The five schools are part of a "feeder" pattern, where students move up from one school to another through the partnership's comprehensive, ongoing program that aids more than 3,000 students from pre-school through high school.

Some partnership highlights include professional training for teachers, student recognition programs, employee volunteerism and a continuous recruitment effort to encourage community, business, cultural and educational organizations to join the partnership.

The Better Business Bureau of Eastern Pennsylvania's Crystal Award is presented to the single best entry in the bureau's annual community service program competition, which includes entries from both non-profit and profit organizations.

CIGNA Foundation made more than $3 million in grants nationwide in 1990 that support education. The CIGNA companies are leading providers of insurance, health care, employee benefits and related financial services to business and individuals worldwide.

IRVINE, CALIF (NOV. 9) PR NEWSWIRE - In ceremonies today, Allergan Medical Optics will be awarded the highest honor given by Philip B. Crosby: The Quality Fanatics Award. The award will be presented by Crosby, founder chairman of the world's largest educational and consulting firm dealing specifically with quality management, Philip Crosby Associates, Inc. (PCA).

Allergan Medical Optics is a subsidiary of Allergan, Inc. (NYSE: AGN), one of the world's leading eye care companies. Allergan, Inc., based in Irvine, Calif., is comprised of six business units: Allergan Pharmaceuticals -- prescription and nonprescription eye care products; Allergan Optical -- contact lenses and lens care products; Allergan Medical Optics -- intraocular lenses (IOLs) and surgical ophthalmic products and services; Allergan Humphrey -- microprocessor based ophthalmic diagnostic instruments; Herbert Laboratories -- prescription and nonprescription skin care products; and Allergan International, which markets Allergan's products around the world.

The Quality Fanatics Award honors select companies who have made a total corporate commitment to the quality process. To be so honored, a company must demonstrate over a period of time the following: First, decide you want a Zero Defects strategy and; announce a clear, specific quality policy; next, display management commitment through action and; assure that everyone is educated so they can perform; then eliminate opportunites to compromise performance and; Insist that every supplier do the same; convince everyone that they are dependent on each other and; satisfy the customer first, last and always.

Crosby is the sole judge as to who may become a Quality Fanatic Award winner. The awards are given on a very selective basis.

WASHINGTON (NOV. 9) PR NEWSWIRE - At 3 p.m. today, Judith A. Walter, senior deputy comptroller for administration, Office of the Comptroller of the Currency (OCC), declared Freedom National Bank of New York, New York, N.Y., insolvent and appointed the Federal Deposit Insurance Corporation (FDIC) as receiver.

The bank experienced significant deterioration in 1988 due to weak loan underwriting by former management and weak supervision by the board of directors and management. New management, hired in 1988, attempted to resolve the problems, and the OCC obtained commitments from the board of directors addressing the bank's problems.

Despite the efforts of the directors and new management, the bank's deterioration continued and was exacerbated by the local economic downturn. The bank was unsuccessful in obtaining additional capital and losses mounted, exhausting the bank's capital and resulting in insolvency.

Freedom National Bank of New York was chartered in 1964. On Sept. 30, 1990, the bank had total assets of approximately $110 million. The bank was a

minority institution with its main office in New York and two branches in Brooklyn. The FDIC is expected to release additional information later today.

SAN FRANCISCO (NOV. 9) PR NEWSWIRE - TIS Mortgage Investment Co. (NYSE: TIS), today reported net income of $1,972,000, or 24 cents per share, and $5,776,000 or 71 cents per share, for the quarter and nine months ended Sept. 30, 1990, respectively. This compares to net income of $1,845,000 or 23 cents per share and $5,722,000, or 71 cents per share, for the quarter and nine months ended Sept. 30, 1989, respectively.

The increase in net income in the third quarter of 1990 over the third quarter of 1989 was primarily due to lower short-term interest rates in the third quarter of 1990. The total benefit of lower short-term rates was partially offset due to the fact that the company has been accumulating cash to purchase additional Residual Interests. In August 1990, the company purchased for approximately $47,000 the remaining 2 percent of a Residual Interest of which 98 percent ownership was already held by the company. The company also committed to acquire a fixed-rate Residual Interest in the fourth quarter of 1990 at a cost of approximately $2,589,000. The company is continually reviewing Residual Interests available for purchase in its effort to invest in Residual Interests that complement the current portfolio.

As a real estate investment trust (REIT), TIS Mortgage Investment Co.'s dividends are based on taxable income calculated under the internal revenue code and not on book income which is computed in accordance with generally accepted accounting principles. Taxable income in each quarter of 1989 and for the first three quarters of 1990 exceeded the amount of dividends declared and paid.

TIS Mortgage Investment Co. is a San Francisco-based REIT which invests in various mortgage assets, including Residual Interests in Collateralized Mortgage Obligation (CMO) Bonds. The company commenced operations on Aug. 26, 1988.

CONTACT: John E. Castello of TIS Mortgage Investment Co., 415-393-8000; or Maury Healy of Healy & Co., 415-546-6166, for TIS Mortgage Investment Co.

#90313p5439 11/09/1990 ~PR Newswire

JEFFERSON, LA (NOV. 6) PR NEWSWIRE - Al Copeland Enterprises Inc. announced that it has retained The First Boston Corp. to work on a restructuring plan

for the company with respect to the indebtedness incurred by the company in connection with its acquisition of Church's Fried Chicken Inc. The company intends to promptly present a restructuring plan to its bank lender, Canadian Imperial Bank of Commerce ($249 million of senior debt) and its bridge lender, Merrill Lynch & Co. Inc. ($142 million of subordinated debt).

The company also announced that extensions granted by Merrill Lynch with respect to a $3.3 million interest payment due Sept. 28, 1990, and by CIBC with respect to a $4.2 million term loan payment due Sept. 21, 1990 have expired, and the company is in default under both loan documents. Under the terms of the loan documents, each of the lenders has the right to accelerate the indebtedness thereunder; however, neither lender has exercised that right.

The company believes that on an operational level its business will continue to generate positive cash flow and has had, and will continue to have sufficient cash flow to pay its trade creditors, but that the debt service required on the acquisition indebtedness cannot be sustained on a long-term basis without a restructuring. "This is the best time to implement a plan of restructuring," said Bucky Kilbourne, chief financial officer. "The sales and restaurant operations are doing very well. Our debt structure has to be changed so that the company will be well capitalized for the future." The company's decisions to seek extensions and not to make payments on its loans are intended to insure that sufficient working capital is available while the company restructures that indebtedness.

The restructuring plan under development by the company and First Boston is intended to modify the company's capital structure to a level supportable by the company's operations on a long-term basis. The company may not have an alternative but to seek protection under Chapter 11 of the U.S. Bankruptcy Code, if either lender should choose to accelerate its indebtedness or if the company is unable to develop a restructuring plan satisfactory to its lenders. Management believes, based on its discussions with its lenders, that it can reach an agreement with them.

NEW YORK (NOV. 9) PR NEWSWIRE - RJR Nabisco Holdings Corp. today announced that its exchange agent has completed the final count of debentures tendered in connection with its exchange offers commenced on Oct. 3 and completed on Nov. 1.

The exchange agent, First Chicago Trust Company of New York, advised that the final count showed that $2,038,531,652 of the sum of principal of plus accrued and unpaid interest on the senior converting debentures due 2009 of RJR Nabisco Holdings Corp. had been validly tendered and not withdrawn.

The exchange agent also said that $1,533,998,525 of the sum of principal of plus accrued and unpaid interest on the subordinated exchange debentures due 2007 of RJR Nabisco Holdings Group Inc. had been validly tendered and not withdrawn.

In accordance with the terms of the exchange offers, there was no accrued and unpaid interest on the subordinated exchange debentures as of the expiration of the exchange offers.

Based on the final count, approximately 91.1931 percent of the validly tendered amount of principal of plus accrued and unpaid interest on senior converting debentures has been exchanged on a pro rata basis (calculated in units of $25 principal amounts) from each tendering holder of senior converting debentures.

Approximately 35.2673 percent of the validly tendered amount of principal of plus accrued and unpaid interest on subordinated exchange debentures has been exchanged on a pro rata basis (calculated in units of $25 principal amounts) from each tendering holder of subordinated exchange debentures.

RJR Nabisco Holdings Corp. expects that checks representing the cash component of the exchange offer consideration will be mailed the week of Nov. 12.

Certificates representing the shares of cumulative convertible preferred stock issued in connection with the exchange offers, and certificates representing debentures that were not purchased or tendered, will be mailed the following week with checks for fractional amounts.

RJR Nabisco Holdings Corp. is the indirect parent of RJR Nabisco Inc., an international consumer products company. RJR Nabisco's major operating subsidiaries are R.J. Reynolds Tobacco Co., R.J. Reynolds Tobacco International Inc., Nabisco Brands Inc., and Planters LifeSavers Co.

IRVINE, CALIF. (NOV. 9) PR NEWSWIRE - Mazda today announced a voluntary recall, commencing on Nov. 16, 1990, of 1990 model RX-7 Convertible sports cars produced between Nov. 1, 1989, and July 2, 1990. The 2,708 vehicles affected by the action are being recalled because it is believed that three of the vehicles may have received possibly defective airbag inflator modules.

The defective inflator modules, which are a part of the driver's side airbag supplementary restraint system, were produced for Mazda by an outside supplier and may not inflate the airbag properly.

Owners are being asked by mail to bring their vehicles to an authorized Mazda dealer for the inspection and, if necessary, replacement of the airbag module. There will be no charge to the customer for either the inspection or replacement of the unit. Replacement should take about one-half hour.

The airbag unit in the RX-7 Convertible models is intended as a supplemental restraint, and should always be used in conjunction with the three-point seat belts provided as standard equipment on the vehicle.

Mazda is conducting this campaign to ensure its customers' continued satisfaction with, and confidence in, their vehicles.

#90313p5464 11/09/1990 ~PR Newswire

MIAMI (NOV. 9) PR NEWSWIRE - Airbus Industrie, through its North American training company, Airbus Service Company (ASCO), today announced plans to double the size of its aircraft training operation at Miami International Airport to meet anticipated demand for Airbus aircraft training facilities during the 1990s and beyond.

The ASCO training facility presently employs a staff of 60 who instruct and support airline flight crews, cabin attendants and aircraft maintenance engineers on the Airbus A300, A310 and A320, operated by a wide range of airlines in North America and around the world. Planning is underway for support of Airbus Industrie's new A340 and A330 aircraft due to enter airline service in 1992 and 1993.

More than 3,500 airline and support personnel pass through the ASCO training facility each year, with each person spending approximately one month in training. During the next ten years, Airbus projects its staff of 60 to grow to 100, with the capacity to train 6,000 airline personnel yearly. Simulators and training equipment valued at up to $200 million will be in use 24 hours a day in the new facility over the next decade.

Airbus projects more than 600 new Airbus aircraft will be operating in North America, and up to 250 aircraft in the Caribbean and Latin America during the next ten years.

After a prolonged period of financial and operational analysis, and influenced by the positive attitude of the Greater Miami Chamber of Commerce, the Beacon Council and Dade County Aviation Department, ASCO announced its intent to remain in its present facility for an extended period of time and to take such expansion actions as determined by market requirements.

Dade County Aviation director, Frederick A. Elder, A.A.E., said that the Airbus Industrie expansion program represents a sound investment in international aviation business in Dade County, establishing Miami International Airport as one of the leading airline training centers in the world.

ST. LOUIS (NOV. 9) PR NEWSWIRE - CPC-Rexcel Inc. (NASDAQ: CPST) today reported a decline in sales and net earnings for the third quarter 1990, which ended on Sept. 30.

Net loss for the period was $43,966, down from a profit of $5,078 in the third quarter of 1989. Net loss per share for the third quarter was 1 cent,

compared with 0 cents per share for the like 1989 period. Net sales for the third quarter were $13,892,273, down 11 percent compared with $15,581,109 in the third quarter of 1989.

For the nine months ended Sept. 30, 1990 net earnings were $254,611, up from $16,276 in 1989. Net earnings per share were 6 cents, up from 0 cents in 1989. Net sales for the nine-month period were $42,308,094, down 4 percent from $44,158,697 for the like period in 1989.

Gerald G. Burnett, president of CPC-Rexcel, cited lower sales as the cause for the earnings decline.

"Our third-quarter loss was unanticipated due to the continuing impact of high milk prices, which resulted in a soft market for dairy products generally," Burnett said. "We foresee improvements in the market as the price of milk stabilizes, and we anticipate this will have a positive impact on our sales of dairy-related products in the fourth quarter."

"We're optimistic that other factors also will have a favorable effect on fourth-quarter and year-end performance. Among them are an improving market for cultured dairy products, and expected new business in the areas of cold drink cups and food service. We also expect to continue to see the positive influence of recent and ongoing improvements in our manufacturing and fixed costs," he said.

CPC-Rexcel, designs, manufactures and markets plastic containers for cultured dairy, yogurt and other food products.

SCOTTS VALLEY, CALIF. (NOV. 9) PR NEWSWIRE - Macintosh Corp. today gave an update on its financial performance. The company had announced on Sept. 26, 1990 that its unaudited revenues for the eight months ended Aug. 31, 1990 totalled approximately $224,000 on which it had a net loss. All of the revenues resulted from the sales of its wholly-owned subsidiary, Sixty-Eight Thousand Inc., a supplier of computer workstations compatible with Apple Computer's Macintosh software. In the September news release, the company noted that it had recently begun to ship its new Dash 30fx workstation.

Stanton R. Creasey, vice president, finance, said that the company shipped approximately $117,000 in the month of September 1990, on which it had a net loss, and that the company shipped approximately $300,000 in the month of October 1990, on which it had a pre-tax profit of approximately $2,000. Macintosh Corp. has approximately 23,500,000 shares outstanding. He further

stated that he believed, based upon preliminary information, that Macintosh Corp. had its first profitable month in its history, on an operating basis, in the month of October 1990.

Macintosh Corp., founded in 1984, trades Over the Counter and was an inactive public company until the acquisition of Sixty-Eight Thousand Inc. in November of 1989. Sixty-Eight Thousand Inc., its only operating subsidiary, was formed as a California corporation in September 1987 and is located in Scotts Valley.

SANTA ANA, CALIF. (NOV. 9) PR NEWSWIRE - Metropolitan Circuits of California, a subsidiary of Metropolitan Circuits Inc. (AMEX: MPB), today announced it has filed for reorganization in the Bankruptcy Court for the Central District of California. The American Stock Exchange has halted trading in the parent company's shares.

The printed circuit board company is attempting to work with major creditors to ensure the continuity of business operations and to provide working capital.

Richard Sandberg, Metropolitan's chief executive officer, said, "The company's financial condition made it impossible to get the financing necessary to meet the company's cash needs. Hopefully, the company will now be able to restructure its indebtedness and obtain the necessary financing. Given the strength of our customer base, the quality of our products, and the loyalty of our employees, a successful reorganization should be possible."

Metropolitan has approximately 165 secured and unsecured creditors, which include no banks or bondholders. Total debt equaled approximately $10.0 million at the time of filing.

On Oct. 26, 1990, Metropolitan announced that turnaround specialist Kenneth C. Cleveland has been retained to assist the company in its restructuring efforts. Cleveland, president of Kenneth Cleveland Associates Inc., most recently was responsible for returning Tylan Corporation, a publicly held Torrance, Calif., semiconductor equipment manufacturer, to profitability and securing a buyout of the company for its shareholders. Prior to that, he directed the successful turnaround of Mica Corporation, a maker of cooper clad laminate for the printed circuit industry.

Paul G. McNamara, a former Metropolitan consultant and former president of Aeroscientific, an Anaheim, Calif.-based printed circuit board manufacturer, has become president of Metropolitan Circuits Inc.

Metropolitan Circuits of California designs, manufactures and markets sophisticated printed circuit boards. Its parent, Metropolitan Circuits Inc. has approximately 1,500 shareholders and 2.5 million shares outstanding.

COLTON, CA (NOV. 9) PR NEWSWIRE - Stater Bros. Markets, the no. 1 supermarket chain in the Greater Inland Empire, has announced the grand opening of their 103rd supermarket location. The new supermarket will be the 40th supermarket in San Bernardino County. It is located in the Cooley Plaza at the northeast corner of the Barton Road and Washington Street intersection in the City of Colton.

Jack H. Brown, chairman, president, and chief executive officer, stated: "Stater Bros. Markets is well known for being the hometown and neighborhood place to shop for groceries. I am pleased to say that we are continuing the tradition by opening this supermarket serving the City of Colton. The City of Colton is Stater Bros. corporate headquarters and distribution center hometown. We are very proud to serve our valued customers in the beautiful hub city of Colton with this new 35,232-square-foot supermarket. Stater Bros. has served Colton families since 1938."

This new Stater Bros. "hometown" supermarket will feature Stater Bros.' "famous" service meat department as well as a fresh on-premise service bakery, a service delicatessen and take-out food department, plus an expanded produce department. The store will carry over 25,000 items featured at Stater Bros. famous low prices.

Stater Bros. Markets serves the valued customers of 103 supermarket locations in each of the five counties of San Bernardino, Riverside, Orange, Los Angeles and Kern. There are over 9,000 members of the Stater Bros. family of employees.

#90313p5497 11/09/1990 ~PR Newswire

DENVER (NOV. 9) PR NEWSWIRE - Western Capital Investment Corp. (NASDAQ: WECA) parent company of Bank Western, a Federal Savings Bank, reported a loss of $40.9 million, or $4.37 per share, during the third quarter of 1990. During the like quarter of 1989, the company recorded a $38.9 million loss (net of

$11.2 million of tax benefits), or $4.16 per share.

"Despite some positive economic indicators within the state, we have yet to translate that improvement into a substantial reducton of our non-performing assets. Due to the persisting weakness in the Colorado real estate climate, our attempts to dispose of problem assets have not met with the desired results," said WCIC chairman Bob Malone. However, Malone noted, recent progress was made when the company's largest foreclosure was sold for $17.5 million in late October.

The major cause of the quarter's loss was the continuing need to provide reserves against non-performing loans, against property acquired as a result of either foreclosure or repossession, and to further strengthen the overall level loss reserves of Bank Western. Provisions for losses totaled $36.5 million for the third quarter 1990 compared to $46.7 million for the like period in 1989.

Net interest income for the third quarter this year was $13.6 million, compared with $14.2 million for the like period one year ago. Net interest income for the first nine months of 1990 was $42.1 million versus $44.9 million reported on Sept. 30, 1989.

Stockholder's equity at Sept. 30, 1990 totaled $119.3 million. "Bank Western remains in compliance with all current regulatory capital requirements. Further, we've just completed our first joint OTS/FDIC examination and all items have been successfully resolved," Malone noted. "To ensure that we continue to meet our regulatory capital requirements, we have launched strategies of restructuring and downsizing -- with over $500 million of assets targeted for sale during the fourth quarter."

Western Capital Investment had total assets of $3.2 billion at Sept. 30, down from $3.3 billion at the end of the third quarter 1989.

SPRINGFIELD, Va. (NOV. 9) PR NEWSWIRE - Versar, Inc. (AMEX: VSR) today reported financial results for the fiscal 1991 first quarter period ended Sept. 30, 1990. Revenues for the quarter were $14,149,000, a 7 percent decrease from the $15,186,000 sales volume for the same period a year ago. Net loss for the first quarter was $313,000 compared to a net income of $400,000 in the first quarter of last year. Net loss per share was $0.08 per share on 3,898,000 weighted average shares outstanding, compared to a net income of $0.11 per share on 3,768,000 weighted average shares outstanding at the end of the first quarter of fiscal 1990.

Revenues and profits were below expectations due to the slowdown in the real estate industry and continued delays in receipt of funded work assignments on government contracts.

Dr. Michael Markels Jr., president and chairman of Versar, said: "In spite of first quarter results below our expectations, we are looking forward to good progress this fiscal year for Versar. The market for environmental services is strong, and we are committed to reducing our costs while increasing our sales activities."

Versar provides a wide range of scientific and technical services to solve environmental and health and safety problems caused by pollutants, hazardous materials, and toxic substances.

#90313p5504 11/09/1990 ~PR Newswire

OLYMPIA, WASH (NOV. 9) PR NEWSWIRE - The Washington Utilities and Transportation Commission has approved a proposed settlement agreement regarding an application from Pacific Northwest Bell (PNB) to approve its proposed merger with Mountain States Telephone and Telegraph Co. and Northwestern Bell Telephone Co. The approval, in effect, will consolidate the operations of all three companies under their parent company's banner of U.S. WEST Communications Co. (U.S. WEST). Commissioner A.J. "Bud" Pardini issued a separate dissenting opinion.

In July 1988, the companies began doing business as U.S. WEST Communications,

but they continued to exist as separate entities for legal and regulatory purposes. The companies have requested the merger citing financial and operational advantages, such as improved financing capabilities, enhanced credit strength and the ability to deploy assets more efficiently.

On Aug. 24, commission staff and PNB filed a proposed settlement agreement. The proposed settlement agreement directs the company to provide financial reports and data so the commission can effectively monitor the company's Washington operations. The commission, in approving the settlement, mandated that U.S. WEST impute advertising revenues from its "yellow pages" telephone directories, as a condition of approval.

In his dissent, Commissioner A.J. "Bud" Pardini questioned U.S. WEST statements that the merger would result in a number of benefits. He characterized the company's pleadings as "trust-me" arguments. "When the customer has little if any resource to an alternative service, as is the case in this franchised monopoly service, this commission should be firm in a 'show-me' philosophy and should reject the 'trust-me' approach presented in this case." Commissioner Pardini continued, "The evidence presented in this case does not convince me that the proposed merger is in the public interest, as the company shows no tangible benefits to accrue to the citizens of the state of Washington. Accordingly, the proposed settlement agreement should be rejected and the petition to merge should be denied."

#90313p5507 11/09/1990 ~PR Newswire

LA JOLLA, Calif. (NOV. 9) PR NEWSWIRE - Intermark Inc. (AMEX: IMI) today reported that for the six months ended Sept. 30, 1990 it sustained a loss of $16 million, or $1.52 per share, compared to income of $10.1 million, or $1.09 per share, in the prior year. Revenues for the six months increased 26 percent to $580 million from $462 million in the prior year.

Intermark also announced that it today entered into a new credit facility with its major banks which will continue the current level of the company's borrowing capacity through April, 1992.

For the second quarter ended Sept. 30, 1990 a net loss of $9.9 million, or $.85 per share was sustained, compared to a loss of $5.9 million, or $.65 per share, in the second quarter of the prior year. Revenues for the quarter were $290 million, up 31 percent from $221 million in the same period a year earlier. The company noted that although it received the full cash benefit from the sale of its shares of Sunbelt Nursery Group Inc. (AMEX: SBN), its gain on the transaction of $16.8 million had to be deferred under applicable accounting rules.

Intermark said that the losses sustained in the current year were attributable primarily to three of its Partner Companies: Liquor Barn, a recent acquisition, which although achieving significant sales growth over the prior year has not yet reached breakeven levels on a sustained basis; Dynamark, a manufacturer of styled automotive wheels which has experienced sharply reduced demand in the aftermarket sector; and Ridgewood Properties, an Atlanta based real estate developer which has incurred substantial costs in completing the development and marketing of several new projects. The company also noted that operating profits of its flagship unit Pier 1 Imports (NYSE: PIR) were down 20 percent for the six months, reflecting a softening of sales during the latest quarter.

Commenting on the results, Charles R. Scott, Intermark's chairman and chief executive officer, stated, "It is clear that our Partner Companies are feeling the effects of recessionary economic conditions as customers have cautiously postponed or cancelled planned purchases. We are 'hunkered down' and prepared to ride out the storm."

"The new eighteen month credit agreement we signed today with our line banks, First Interstate and Security Pacific, represents a vote of confidence which is most gratifying and much appreciated."

Intermark is an operating/holding company whose business is to own control of, operate through and add value to well established mid-sized American growth companies operating in broadly diverse industries.

RICHARDSON, TEXAS (NOV. 9) PR NEWSWIRE - SPI Holding Inc. reports a net loss of $15.5 million for the three months ended Sept. 30, 1990 compared to a net loss of $18.1 million for the same quarter of 1989. For the nine months ended

September 30, 1990, SPI reports a net loss of $52.7 million as compared to a net loss of $54.6 million for the same period of 1989. A $4 million extraordinary loss due to the early extinguishment of debt within the nine month period ended Sept. 30, 1989 was offset by higher interest expense and depreciation expense for the comparable periods of 1990.

Revenues for the three month period ended Sept. 30, 1990 increased 29 percent to $43.5 million from $33.7 million for the comparable three months of 1989. Revenues for the nine months ended Sept. 30, 1990 increased 19 percent to $115.7 million from $96.8 million for the nine months ended Sept. 30, 1989. The increase in revenues for the three months and the nine months ended Sept. 30, 1990 is primarily due to a larger base of pay-per-view rooms and the effect of a price per movie increase in 1990.

SUNNYVALE, Calif. (NOV. 9) PR NEWSWIRE - Nanometrics Inc. (NASDAQ: NANO) and Optical Specialties Inc. announced that an Agreement and Plan of Reorganization was signed by the chief executive officers of both companies on Nov. 9, 1990. The boards of directors of both companies approved the acquisition and merger, subject to certain conditions, on Nov. 8, 1990. The acquisition and merger is subject to the approval of the stockholders of OSI, customary regulatory approvals, renegotiation of certain liabilities and contractual agreements and other normal conditions of closing.

Vincent J. Coates, chairman of the board and chief executive officer of Nanometrics, was also elected chief financial officer by the board. Gary L. Larson resigned as president, chief operating officer, and chief financial officer to pursue other interests. He had previously resigned as a director. It is expected that Jack Harris, chairman of the board and chief executive officer of OSI, will become president, chief executive officer, and chief financial officer of Nanometrics upon completion of the merger in late December 1990 or January 1991. Coates will retain his position as chairman of the board.

Nanometrics and OSI both develop and manufacture metrology and inspection systems for semiconductor process control and their product lines are highly complementary.

WORCESTER, MASS (NOV. 9) PR NEWSWIRE - BankWorcester Corporation (NASDAQ: BNKW) announced that at 6 p.m. today, its subsidiary, Worcester County Institution for Savings (WCiS), assumed the insured Worcester deposits and Worcester banking operations of Home Federal Savings Bank, Worcester, Mass. WCiS paid a premium of $1.2 million for the right to receive the transferred deposits.

Home Federal Worcester offices will reopen for business as offices of WCiS, on Tuesday, Nov. 13, 1990. BankWorcester President Harold Cabot stated, "For Home Federal's Worcester customers, the transfer of deposits to WCiS should be a very positive development. For BankWorcester the transfer represents a very attractive body of core deposits of approximately $110 million acquired at a premium of only about 1.1 percent. We intend to use these deposits to repay some $90 million of borrowings from the Federal Home Loan Bank, which will result in improved liquidity and lower costs for us. We will be able to serve Home Federal's Worcester customers with very little additional operations costs. Home Federal locations in Yarmouth, Marshfield and Brockton are not part of the transaction," he said.

Worcester County Institution for Savings and BankWorcester are headquartered in Worcester, the second largest city in New England. Assets as of Sept. 30, 1990, were approximately $1.1 billion.

#90313p5525 11/09/1990 ~PR Newswire

SOUTHPORT, Conn. (NOV. 9) PR NEWSWIRE - Hunter Environmental Services Inc. (NASDAQ: HESI) announced the results for the first six months and second quarter of fiscal 1991 - the periods ended Sept. 30, 1990. Results of

continuing operations for the six months ended Sept. 30, 1990 aggregated a net loss of $523,000 comprised of $430,000 from Hunter Industrial Facilities Inc. (HIFI), a majority owned subsidiary of HESI and $93,000 from HESI. Results for the second quarter ended September 30, 1990 were a net loss of $280,000 comprised of $216,000 from HIFI and $64,000 from HESI.

HESI Interest, general and administrative expenses were substantially offset by dividend and interest income on the proceeds received in consideration for the discontinued operations. During fiscal 1990, HESI discontinued its operational businesses in order to reduce debt and provide working capital for HIFI. As of Sept. 30, 1990, the disposition of all of these businesses is complete except for an insurance company which is in the process of being liquidated. HESI's current year expenses are down substantially from $3.2 million for the six months ended Sept. 30, 1989 and $2.2 million for the quarter ended Sept. 30, 1989. The decreases are primarily due to significant personnel reductions made after the disposition transactions in the fourth quarter of fiscal 1990--the three months ended March 31, 1990.

HIFI HIFI is in the permitting process for the development of facilities in Liberty County, Texas, which will utilize underground salt dome caverns for the disposal of hazardous waste. HIFI is also planning to apply for permits concerning adjacent industrial park development and the development of projects for the storage of natural gas and a wide range of other petrochemical products in underground salt dome caverns.

HIFI's loss has increased from the comparable periods a year ago primarily due to an increase in permit related activity as described below.

HIFI received the required draft permit for salt dome hazardous waste storage and began the related public hearing before the Texas Water Commission (TWC) on August 14, 1990. This initial portion of the hearing established the participants for the remainder of the hearing which will be devoted to the technical merits of the application request for final permitting. As is customary, the opposition requested several lengthy continuances in order to prepare for the evidentiary portion of the public hearings. The hearings examiner has granted a continuance until Feb. 11, 1991 and has stated he will not look favorably on any additional requests for delay. HIFI continues to believe that it will receive the necessary permits for the salt dome project in the middle of calendar 1991.

HIFI Warrants Hunter has also recently announced that the termination date for the Class A Redeemable Common Stock Purchase Warrants of HIFI (Class A Warrants) has been extended to Dec. 17, 1990. Existing warrant certificates will not be amended or replaced as a result of this extension. The other terms of the Class A Warrants remain unchanged. In that regard, 12.28334 Class A Warrants and $2.09 are required to purchase one share of HIFI Common Stock. Warrants may be exercised by contacting Continental Stock Transfer & Trust Co.

Hunter Environmental Services, Inc. is an environmental service company devoted to developing and providing environmentally safe solutions to the fundamental problems surrounding disposal of hazardous waste.

SUNNYVALE, CA. (NOV. 10) PR NEWSWIRE - Atari Corp. (AMEX: ATC) today reported operating results for the third quarter ended September 30, 1990 -- Sales $89.1 million, Net Income $3 million.

Sales for the third quarter 1990 increased 9.5 percent to $89.1 million as compared to $81.4 million for the like quarter last year. Sales for the first nine months were $259.6 million as compared to $253 million for 1989. Net income for the third quarter 1990 was $3 million as compared to a net loss of $5.4 million for 1989. Net income for the nine months ended 1990 was $6.1 million as compared to a net loss of $1.8 million for 1989.

During the quarter, the company repurchased a portion of its 5 1/4 percent subordinated convertible debentures which resulted in an extraordinary credit of $6.9 million. There was no tax effect associated with this transaction. In addition, during the third quarter 1990 the company made additional inventory reserves and accordingly has charged earnings.

Atari president, Sam Tramiel said, "The Atari TT030, based on the Motorola 68030 microprocessor, which started shipping during the third quarter, has been well received. In addition, the company is shipping an additional nine software titles for Lynx, its handheld color video game system." For the Christmas selling season a total of 17 titles for Lynx will be available at retail level.

Atari Corp. is one of the largest companies in the world manufacturing and marketing personal computers and video games for the home, office and educational marketplaces. Atari headquarters is located at 1196 Borregas Ave., Sunnyvale, CA 94089. Telephone: 408-745-2000 FAX: 408-745-5179.

NEW YORK (NOV 9) TASS - THE 45TH U.N. GENERAL ASSEMBLY SESSION BEGAN TO DISCUSS INTERNATIONAL COOPERATION IN OVERCOMING CONSEQUENCES OF THE CHERNOBYL NUCLEAR PLANT ACCIDENT. THE SECOND COMMITTEE OF THE SESSION (ECONOMIC AND FINANCIAL MATTERS) DISCUSSED ON THURSDAY THE REPORT OF THE U.N. ECONOMIC AND

SOCIAL COUNCIL (ECOSOC). IT WAS PREPARED ON THE BASIS OF THE INFORMATION, SUPPLIED BY A U.N. MISSION, THAT VISITED LAST SEPTEMBER THE AREAS OF RUSSIA, THE UKRAINE AND BYELORUSSIA, AFFECTED BY THE CHERNOBYL ACCIDENT.

THE OVERCOMING OF CONSEQUENCES OF THIS ACCIDENT, UNPRECEDENTED BY ITS SCOPE, REQUIRES COORDINATED ACTIONS OF THE WORLD COMMUNITY AND CANNOT BE REGARDED AS A PROBLEM OF A SINGLE COUNTRY, GERALD HINTEREGGER, EXECUTIVE SECRETARY OF THE ECONOMIC COUNCIL FOR EUROPE, WHO LED THE MISSION, SAID AT THE SESSION OF THE COMMITTEE.

"WE ARE FULLY AWARE OF THE FACT THAT THE VOLUME OF THE WORK TO BE DONE IS SO GREAT THAT IT WOULD BE BOTH CONCEITED AND ANTI-HUMANE WITH REGARD TO CHERNOBYL VICTIMS TO COUNT ONLY ON OUR OWN RESOURCES," SAID GENNADY UDOVENKO, PERMANENT REPRESENTATIVE OF THE UKRAINE AT THE UNITED NATIONS ORGANISATION.

ANDREY KOZYREV, RUSSIAN MINISTER OF FOREIGN AFFAIRS AND MEMBER OF THE SOVIET DELEGATION AT THE SESSION, SAID THAT THE OVERCOMING OF CONSEQUENCES OF THE CHERNOBYL AICCIDENT IS A PRIORITY TASK OF THE RUSSIAN GOVERNMENT, WHICH IS NOW IMPLEMENTING AN AMBITIOUS PROGRAMME OF MEASURES, AIMED AT STABILISING THE SITUATION IN THE DISTRESS AREAS.

THE REPORT, WHICH WILL BE SUBMITTED TO THE GENERAL ASSEMBLY, CONTAINS RECOMMENDATIONS TO WORK OUT A PROGRAMME OF INTERNATIONAL COOPERATION WITHIN THE U.N. FRAMEWORK, WHOSE PURPOSE WILL BE TO ALLEVIATE THE CONSEQUENCES OF THE CHERNOBYL ACCIDENT, AND TO CREATE A SPECIAL FUND OF VOLUNTARY DONATIONS FOR THE IMPLEMENTATION OF THE PROGRAMME.

BONN (NOV 9) TASS -- "I AM CONFIDENT THAT WE HAVE MADE THE ONLY CORRECT CHOICE. WE HAVE MADE A DEEPLY THOUGHT-OUT LONG-TERM DECISION, MEETING THE VITAL INTERESTS AND THE TIME-HONOURED TRADITION OF BOTH NATIONS AND STATES," PRESIDENT MIKHAIL GORBACHEV SAID ABOUT THE SIGNIFICANCE OF THE TREATY OF GOOD-NEIGHBOURLINESS, PARTNERSHIP AND COOPERATION BETWEEN THE SOVIET UNION AND THE FEDERAL REPUBLIC OF GERMANY AND THE TREATY ON THE FINAL SETTLEMENT AROUND GERMANY SIGNED IN MOSCOW TWO MONTHS AGO.

SPEAKING TODAY DURING THE CEREMONY OF SIGNING THE SOVIET- GERMAN TREATY, GORBACHEV EXPRESSED CONFIDENCE THAT THE SOVIET- GERMAN TREATY "WILL NOT REMAIN AN ISOLATED EPISODE BUT A CONSTANT COMPONENT OF A NEW PEACEFUL ORDER WHICH IS BEING CREATED BY THE EFFORTS OF ALL PARTICIPANTS IN THE ALL-EUROPEAN PROCESS."

STRESSING IN PARTICULAR THAT THIS DOCUMENT IS "NOT DIRECTED AGAINST ANYONE", GORBACHEV SAID "OUR ACCORD AND COOPERATION ARE PART OF THE LOAD-CARRYING STRUCTURES OF THE COMMON EUROPEAN HOME, IN WHICH SECURITY FOR EACH WILL BE SECURITY FOR ALL AND IN WHICH UNIVERSAL HUMAN VALUES AND THE SPIRIT OF RESPECT SOLIDARITY AND GOOD-NEIGHBOURLINESS WILL TRIUMPH".

MIKHAIL GORBACHEV SINGLED OUT THE FACT THAT THE SOVIET-GERMAN TREATY "DOES NOT STAND IN ISOLATION", THAT THE SOVIET UNION HAS RECENTLY SIGNED A TREATY OF CONCORD AND COOPERATION WITH FRANCE_ AND A POLITICAL DECLARATION OF COOPERATION WITH SPAIN, AS WELL AS, EARLIER, WITH FINLAND AND ITALY.

THE SOVIET PRESIDENT NOTED THAT AN AGREEMENT HAD BEEN REACHED TO SIGN A TREATY OF FRIENDSHIP AND COOPERATION WITH ITALY AND EXPRESSED HOPE THAT AN AGREEMENT ON SIGNING A SOVIET-BRITISH DECLARATION WAS NOT FAR AWAY.

ALL THESE ACTS, AS WELL AS OTHER POTENTIAL BILATERAL AGREEMENTS, GORBACHEV NOTED, "ORGANICALLY FIT INTO THE BUILDING OF COMMON EUROPEAN STRUCTURES, WHICH AWAIT APPROVAL AT THE FORTHCOMING PARIS SUMMIT, A TRULY EPOCH-MAKING EVENT".

ADDRESSING CITIZENS OF THE UNITED GERMANY, PRESIDENT GORBACHEV SAID, "OUR TREATY IS REMARKABLE FOR THE CLARITY OF POSITIONS AND INTENTIONS, ITS ORIENTATION TOWARDS THE FUTURE AND OPENNESS TO ALL WHO WANTS TO TAKE PART IN BUILDING A NEW EUROPE ON A NEW BASIS. LET US, WITHOUT DELAY AND DOUBT, MAKE GOOD-NEIGHBOURLINESS, PARTNERSHIP AND COOPERATION DAILY, HABITUAL THINGS IN THE COMMUNICATION BETWEEN OUR GREAT NATIONS. MAY THE SOVIET-GERMAN TREATY CONCLUDED FOR TWENTY YEARS TURN INTO A TREATISE ON "ETERNAL PEACE".

WASHINGTON (NOV. 9) UPI - A bipartisian coalition of congressmen announced Friday they will nominate African National Congress Deputy President Nelson Mandela for the 1991 Nobel Peace Prize.

Sixty-six congressmen, led by Rep. John Conyers Jr., D-Mich., signed a letter of nomination praising Mandela as a ''man who has sacrificed much of his life in uncompromising opposition to repression and a commitment to democratic ideals and self-determination.''

Mandela, a pre-eminent leader in the fight against apartheid, was releaed from prison by the South African government Feb. 11 after serving 27 years of a life term for sabotage and trying to overthrow the government.

National legislators are among a select group authorized by the Nobel Peace Prize Committee to make award nominations. The nomination was to be sent to the Committee in Oslo, Norway, later Friday, Conyers said.

''For over a quarter of a century, from the confines of his jail cell, Nelson Mandela provided spiritual and moral leadership for the anti-apartheid movement. His dignity and sheer fortitude inspired lovers of freedom and justice throughout the world and helped generate a national and international movement for the liberation of his people,'' the nomination letter said.

Those signing the nomination letter included House Speaker Thomas Foley, D-Wash.; Majority Leader Richard Gephardt, D-Mo.; and Whip William Gray, D-Pa.

#90313u0235 11/09/1990 ~United Press International

(NOV. 9) UPI - If free throws are any indication, the Houston Rockets should be in for a better season in 1990-91.

Sleepy Floyd sank four free throws in the final 13 seconds and Houston scored its final 10 points from the line Thursday night, holding on for a 103-99 victory over the winless Orlando Magic.

The victory marked the second straight game in which the Rockets won a game based on their free throw proficiency down the stretch. On Tuesday night, Kenny Smith shot six free throws in the final 1:09 to help Houston hang on for a 145-135 victory over Denver.

''All in all, our free throws have improved,'' Houston Coach Don Chaney said. ''We lost a lot of games last year that we would have won if we had made our free throws.''

Akeem Olajuwon, who grabbed 19 rebounds, scored 13 of his 25 points in the fourth quarter, including seven free throws at the end. Overall, Houston scored 12 of its final 14 points at the free-throw line.

''It was ugly, but it was one we needed to win,'' said Vernon Maxwell, who had 16 points. ''We lost a lot of games like this last year.''

Smith added 17 points and 10 assists for the Rockets, while Otis Thorpe scored 16 points.

Orlando, which trailed by 16 points in the first half, led 78-77 entering the fourth quarter and still led 92-91 on a 3-point jumper by Scott Skiles wih 4:50 left.

Olajuwon then scored five of Houston's next six points over the next 3:36, while the Rockets held Orlando scoreless in the same span, for a 97-92 lead.

The Magic trimmed the deficit to three twice, and were within 99-98 with 14 seconds left after free throws by Sam Vincent and Dennis Scott. Floyd hit two free throws for Houston, Scott sank one for Orlando, then Floyd sealed the victory with two free throws with eight seconds left.

''We've had sluggish starts in every one of our four games so far,'' Orlando Coach Matt Guokas said. ''Consequently, we have to play to the other team's tempo.''

Scott, the fourth player taken in the draft, paced Orlando with 28 points.

In other NBA action Thursday night, New Jersey beat Miami 114-103, New York dumped Washington 114-103, Milwaukee blasted Philadelphia 141- 111, and Utah pounded San Antonio 103-94.

-- AROUND THE NBA --

Nets 114, Heat 103

At East Rutherford, N.J., Mookie Blaylock scored 11 of his 22 points in the fourth quarter to lead the Nets. Reggie Theus scored 24 points for the Nets,

who won their home opener after dropping their first three games on the road. Sherman Douglas led Miami with 24 points.

Knicks 114, Bullets 103

At New York, Patrick Ewing scored 32 points, pulled down 15 rebounds and blockled 7 shots to lead the Knicks. New York posted its seventh straight victory over Washington, including all five games last year. Bernard King led the Bullets with 30 points.

Bucks 141, Sixers 111

At Milwaukee, Ricky Pierce scored 28 points and Jay Humphries added 13 of his 25 points in the third quarter to lift the Bucks. Frank Brickowski added 18 points for Milwaukee, which outscored the Sixers 41- 19 in the third quarter. Charles Barkley paced Philadelphia with 27 points.

Jazz 103, Spurs 94

At Salt Lake City, John Stockton recorded 24 points and 17 assists and Jeff Malone scored 17 of his 19 points in the second half to lead the Jazz. The loss was the 13th straight for the Spurs at Utah, dating back to February 1986. Terry Cummings led San Antonio with 25 points.

#90313u0240 11/09/1990 ~United Press International

(NOV. 9) UPI - The St. Louis Blues have found out the three most important factors in winning games - location, location, location.

Gino Cavallini's power-play goal at 4:31 of the third period Thursday night lifted the Blues to a 3-2 victory over the Pittsburgh Penguins. The victory was the third straight for the Blues and gave St. Louis a 9- 1-1 mark in its last 11 games. The loss snapped Pittsburgh's four-game winning streak.

''We scored three goals by putting the puck on the net,'' said St. Louis Coach Brian Sutter, noting how deflections help the Blues. ''You don't score if you don't have people going to the net and standing in front of the net.''

Positioned in the right faceoff circle, Cavallini tipped a shot from the right point by Jeff Brown past goaltender Tom Barrasso at 4:31 of the third period to give St. Louis the victory.

''I passed to Brown on the point, and I had just finished telling him, 'Just keep it down around my waist,' if he's going to shoot it,'' Cavallini said. ''He just took a wrister in, and it hit the shaft of my stick.''

The Blues tied the score 2-2 at 1:51 of the third period with Tony Tanti

serving a major penalty for high-sticking Geoff Courtnall. Paul Cavallini passed across the slot to Michel Mongeau, who put the puck by Barrasso from the right edge of the crease for his first goal of the season.

The Penguins took a 1-0 lead at 5:23 of the first period on a goal by John Cullen, who entered the game as the NHL's leading scorer with six goals and 26 assists. Mark Recchi intercepted a pass from behind the net by Ron Wilson at the right edge of the crease, passed to Cullen at the left side of the crease, and he put the puck underneath goaltender Curtis Joseph.

''I've got to give credit to Joseph,'' Pittsburgh Coach Bob Johnson said. ''We had a lot of quality opportunities. They picked two (goals) out of the air. What are you going to do?

''St. Louis is a close-checking team, a good road team. They try to get you frustrated, and they did a pretty good job of it. We had some great chances.''

Pittsburgh increased its lead to 2-0 on Kevin Stevens' 10th goal at 16:42. Cullen carried the puck over the blue line into the left faceoff circle and dropped it to Stevens, who scored over Joseph's right shoulder.

''They're right up there at the top of the league,'' Stevens said of the Blues. ''They're a tough team with a great defense. That's how they win hockey games.We had some chances, but their goalie came up big.''

The Blues cut the lead to 2-1 at 8:46 of the second period on a goal by Paul MacLean. Scott Stevens fired a slap shot from the left point, and MacLean, positioned in the left faceoff circle, tipped the puck by Barrasso.

Elsewhere in the NHL on Thursday night, Calgary crushed Philadelphia 8-2, Vancouver topped Toronto 5-3, Chicago beat Edmonton 5-3, Minnesota stymied Quebec 3-2 and Los Angeles beat Detroit 5-1.

-- AROUND THE NHL --

Flames 8, Flyers 2

At Philadelphia, Sergei Makarov and Joe Nieuwendyk each scored one goal and three assists for Calgary. The Flames outshot Philadelphia 44- 27 and dominated play for most of the game, scoring four goals in the first 6:31 of the third period and hand the Flyers their fourth loss in their last five home games.

Canucks 5, Maple Leafs 3

At Toronto, Brian Bradley and Steve Bozek each scored a goal and an assist for Vancouver. Gary Valk closed out the scoring at 8:16 of the third period with his first NHL goal.

Blackhawks 5, Oilers 3

At Chicago, Chris Chelios, Steve Thomas and Mike Hudson each had a goal and an assist to help the Blackhawks hand Edmonton its eighth straight loss. The Oilers are 1-8 since Mark Messier went out of the lineup Oct. 16 with a knee injury. The previous franchise record for consecutive losses was six.

North Stars 3, Nordiques 2

In Bloomington, Minn., Jon Casey stopped 24 shots, helping Minnesota hand Quebec its eighth straight loss. Casey had shut out the Nordiques 2-0 last week in Quebec. The North Stars extend their unbeaten streak to three games at 2-0-1.

Kings 5, Red Wings 1

At Los Angeles, Jay Miller and Todd Elik scored first-period goals and Kelly Hrudey made 28 saves to lead the Kings. Wayne Gretzky added his 11th goal of the season and Tomas Sandstrom scored his ninth and added an assist for Los Angeles.

TOKYO (NOV. 9) UPI - Nearly two years after the death of Emperor Hirohito, the Japanese are ready to formally pass the crown to his son, Akihito, in a religious ceremony that has roots reaching back 2,600 years.

The 56-year-old son of Hirohito will proclaim his accession to the throne in a palace ceremony Monday following a lifetime of preparation in his father's shadow. The rites will be held under intense security.

The enthronement ceremony will be attended by representatives from 157 nations the United Nations and European Community, slightly fewer than the 163 representatives who attended Hirohito's funeral in February 1989.

The enthronement and related religious rites on Nov. 22 and 23 in which the emperor offers rice to a Shinto goddess have stirred considerable controversy in Japan.

Christian and citizens groups have protested the government's funding of the Shinto ceremony as a violation of Japan's constitutional guarantee of separation of church and state.

Shinto is Japan's indigenous religion based on the worship of nature and ancestors and the divinity of the emperor. It was Japan's state religion prior to 1945 and was used during World War II as a tool of militarists.

More than 1,500 people joined in a lawsuit in an attempt to block government funding of the enthronement ceremonies, which will cost taxpayers an equivalent of $81 million. The suit is pending.

Akihito, who married a commoner he met on a tennis court at a mountain resort, is considered a liberal emperor who is breaking with many of the traditions of the 2,600-year-old Chrysanthemum Throne.

Akihito took over the duties of emperor Jan. 7, 1989, after Hirohito died of cancer.

He has dispensed with the formal language his father used in favor of simple Japanese in his proclamations and speeches.

He is the first emperor to raise his own children rather than send them away to be cared for by servants.

His own education included tutoring by an American Quaker woman after Japan's defeat in World War II.

Radical leftists who want to abolish the emperor system have vowed to march on the palace Monday and disrupt the ceremony, a threat police are taking seriously.

Police blamed the leftist for setting two time bombs at a police dormitory that exploded Nov. 1, killing one officer and injuring six people.

An army of 37,000 police, including several thousand who were bused in from surrounding cities, have blanketed Tokyo in an effort to frustrate the leftists.

The police have sealed manhole covers, sent frogmen into the palace moat to search for bombs and covered the subways with advertisements asking citizens to report anything suspicious they see or hear.

Among those attending the enthronement will be U.S. Vice President Dan Quayle, Supreme Soviet Chairman Anatoly Lukyanov, Prince Charles and Princess Diana of Britain, U.N. Secretary-General Javier Perez de Cuellar and Philippine President Corazon Aquino.

Many smaller nations will send their presidents or prime ministers, in part because of Japan's ranking as the world's largest donor of foreign aid - $6.8 billion in 1989.

One local writer observed that the gathering of world leaders in search of Japanese donations makes the ceremony more like a reading of a will than an enthronement.

Japan took back its invitation to Iraq because of the Aug. 2 invasion of Kuwait. Kuwaiti Prince Nasser, who is living in Saudi Arabia, will attend.

The Japan Socialist Party, the largest opposition political party, has objected to a plan to have the prime minister lead three ''Banzai'' cheers at the end of the enthronement ceremony.

The banzai cheer, which literally means 10,000 years for the emperor, is too closely associated with Japan's military aggression in World War II, the Socialists say.

MANILA, Philippines (NOV. 9) UPI - Troops carrying out a military operation have killed 95 communist guerrillas in an area where an American was kidnapped three weeks ago, officials said Friday.

The operation, centered in the mountainous Luna town 260 miles north of Manila left four soldiers dead, a military report said.

Luna is 20 miles west of Aparri, where American Arvy Duane Drown was abducted Oct. 18, officials said.

It was unclear if the operation was connected with the kidnapping of Drown, but the report by regional commander Brig. Gen. Juanito Aquias said it began late last month.

At least 95 guerrillas of the communist New People's Army were killed in the assault, Aquias reported Friday. He said the Marag Valley in Luna served as the seat of the NPA ''de facto government'' in northern Luzon.

U.S. Embassy spokesman David Andresen said Friday there has been no new development in the case of Drown. He said there has been no contact with the kidnappers.

Relatives of Drown have been informed about the reported abduction, but the U.S. Embassy has declined to reveal the hometown of the American or his personal circumstances, citing the U.S. Privacy Act.

The Philippine military said Drown is an ex-Marine from California who holds a U.S. passport issued in Seattle, Wash. He was first reported by the military to be a missionary, but this was denied by the embassy.

The military said Drown and several Filipinos in a jeep were seized as hostages by communist guerrillas.

The driver of the jeep, Romeo Manlag, 27, told United Press International Friday he and four other Filipinos were freed in the Aparri area a day after they were abducted.

But he said their kidnappers, about 20 youths armed with rifles, told them: ''We're taking the white man. We need him.''

Manlag said Drown had been carrying a substantial amount of money and had hired the Filipinos, including two women and geodetic engineers, to accompany him in a treasure-hunting expedition when the group was kidnapped.

Groups have been searching for the supposed cache of World War II loot tucked away by Japanese Imperial Army Gen. Tomoyuki Yamashita.

Manlag said that after the Filipinos were freed, they returned to the scene of the kidnapping, took their jeep and returned to Manila. He said the group brought back Drown's money, concealed in the jeep.

Andresen said he could not confirm Manlag's story.

Defense Secretary Fidel Ramos has ordered the military to negotiate the release of Drown and enlist the help of local officials in the effort.

#90313u0256 11/09/1990 ~United Press International

MANILA, Philippines (NOV. 9) UPI - The Philippines and the United States Friday ended their second round of talks on the future of strategic U.S. military facilities and agreed to meet again next month in Manila, spokesmen said.

Spokesmen for the two panels reported progress in negotiations and expressed optimism a new agreement would be reached by January.

The Philippines hosts six military facilities, including the sprawling Clark Air Base and Subic Bay Naval complex. Manned by some 14, 500 troops, Clark and Subic are the oldest and largest U.S. facilities overseas.

The 1947 treaty covering the facilities expires Sept. 16, 1991.

''The discussions over the past two days were useful in widening the areas of consensus and narrowing the areas still to be discussed in more detail,'' U.S. spokesman Stanley Schrager said.

He said nothing definite had been decided and ''there will be no agreement until there is an entire agreement.''

In the interim, technical panels will continue meeting to thrash out various

issues in a broader agreement the panels envisioned, including trade, addressing the Philippines' $26 billion foreign debt, education and science and technology.

Schrager said special U.S. negotiator Richard Armitage will return to Washington with ''this general feeling of an increased spirit of cooperation and looks forward personally and professionally to the next round of talks, now scheduled for sometime in December here in Manila.''

Philippine spokesman Rafael Alunan said Manila was standing by its position it would assume ''sovereign control of the military facilities by next year.''

The United States wants a 10- to 12-year extension of basing rights and a limited presence after that.

Alunan said the Philippines welcomed the announcement by Armitage on Wednesday that all U.S. fighter planes will be withdrawn from the Philippines by next year in accordance with Philippine wishes.

He said this was a sign of U.S. ''commitment to work with us for joint use arrangement by next year and for an orderly phaseout of their forces.''

President Corazon Aquino, responding to reporters' questions about the impact of the withdrawal of U.S. jet fighters by next year, said ''the Philippines will be equal to any task that sovereignty requires of us.''

''The demands we press are, as they must always be, consistent both with our capabilities and our national honor and interest,'' Aquino said.

Philippine defense and military officials said the pullout of U.S. jet fighters required Manila to begin a build-up of its air force.

BANGKOK, Thailand (NOV. 9) UPI - A high-level Vatican delegation has arrived

in Vietnam for a weeklong visit seen as a sign of improved relations between the communist government and the Catholic Church, the Vietnam News Agency said.

The agency, in a report dated Thursday, said the delegation arrived Wednesday headed by Cardinal Roger Etchegaray, a representative of Pope John Paul II and president of the Pontifical Commission for Justice and Peace.

It said the delegation was met by government officials from the Government Commission for Religious Affairs and the Protocol Department of the Foreign Ministry.

The Vatican delegation later held talks with officials of the commission and met local Catholic Church officials.

''This morning, the Vatican delegation paid tribute to President Ho Chi Minh at his mausoleum,'' the report said.

The arrival of the delegation caps a year of generally improving relations between the communist government and the country's 4 million to 5 million Catholics.

The government has eased some travel restrictions and allowed greater activity by Catholic officials, but some priests are still under detention.

The government has charged that some church officials have carried out ''anti-socialist propaganda'' to undermine the communist system.

Last year the church and the government clashed over the canonization of 117 Catholic ''martyrs'' killed in Vietnam.

The government said some of those had been executed for their attempts to colonize the country for the French rather than for their religious beliefs.

#90313u0272 11/09/1990 ~United Press International

NEW YORK (NOV. 9) UPI - Federal bank regulators will file claims reaching into the billions of dollars against Drexel Burnham Lambert Inc., for losses incurred by failed thrifts that invested in junk bonds, a published report said Friday.

The claims could reach as high as $10 billion for substantial losses the agencies report were incurred by a number of the nation's largest savings and loan institutions that had invested in high-yield junk bonds, The New York Times reported.

A number of claims would be filed as part of the bankruptcy proceeding of Drexel and a number of its related companies, the Times said. Former employees

also could be named in the suits.

The firm, which grew into a Wall Street powerhouse in the 1980s through the efforts of its junk bond division, headed by Michael Milken, filed for protection from its creditors earlier this year.

A Drexel spokesman would not comment on any possible claim, saying the firm would wait until one is filed, The Times said.

In the plan now under consideration, claims would be heard by U.S. District Judge Milton Pollack, who has presided over the civil case against Drexel since it was filed.

The claims are to be filed by the Federal Deposit Insurance Corp., which insures deposits in the country's savings institutions, and the Resolution Trust Corp., which oversees the savings and loan associations that invested heavily in junk bonds in the 1980s. The collapse of these risky investments is said to account for a large segment of losses in the huge savings collapse, the paper said.

In a filing with the bankruptcy court, lawyers for the FDIC and the RTC said the agencies expect to make ''substantial claims'' against Drexel by Thursday, the deadline for filing all claims, the paper said.

Other claims, against employees and related entities, are expected to be filed in other proceedings.

The action takes place as a number of investors, former clients and government agencies are seeking billions of dollars for what they say was fraud by Drexel and are negotiating with the firm to determing the legal actions to determine how much money they would receive.

The investors and others with claims say they were damaged by stock manipulation, insider trading and other illegal acts by the firm.

#90313u0273 11/09/1990 ~United Press International

(NOV. 9) UPI - President Bush said he will bolster the U.S. presence in the Persian Gulf by an additional 100,000 troops and the Soviet Union toughened its stance against Iraq with Foreign Minister Eduard Shevardnaze conceding military force may be necessary to liberate Kuwait.

The U.S. build-up would include the deployment of an additional corps of tank units, doubling to six the number of aircraft carriers and doubling the number of Marines for possible amphibious attacks.

Defense Secretary Dick Cheney said Thursday the fresh troops would be in place

sometime after Jan. 1.

It has taken about three months to get more than 230,000 U.S. personnel into Saudi Arabia and in the waters and countries surrounding Iraq. That's the number Gen. Norman Schwarzkopf, head of U.S. operations in the region, has said makes him confident he can defend Saudi Arabia against Saddam Hussein's forces.

The U.S. forces and some 200,000 allied troops, including Saudis, Syrians, Egyptians and others, are facing more than 400,000 Iraqi troops.

On Thursday Saddam fired his army chief of staff and replaced him with an Iran-Iraq war hero, bringing to three the number of senior Iraqi officials dismissed since Iraq invaded Kuwait three months ago, an official Iraqi daily reported.

Saddam said he would release more than 240 Polish citizens and 50 more West Europeans held in Iraq and Kuwait. Saddam has set hundreds of foreign hostages free in the past few days in what some diplomats say is an effort to fracture the multinational alliance against him.

In Tokyo, political leaders began discussions Friday on a plan to send Japanese volunteers to the gulf after giving up on a proposal to dispatch Japanese troops.

The mood in the gulf region has turned to thoughts and preparations for war after a whirlwind visit by Secretary of State James Baker, who told Arab leaders the United States was not ruling out a military strike to force Iraqi troops from Kuwait.

Baker met Thursday in Moscow with Shevardnadze, who told reporters it was ''probably impossible to exclude'' the use of military force in the gulf.

''A situation could arise that indeed demands such a decision,'' Shevardnadze said. ''But I think all decisions should be made within the framework of the (U.N.) Security Council.''

Egyptian President Hosni Mubrarak said in an interview that war was inevitable if Saddam did not withdraw his troops from the emirate and that he and the United States were ''not bluffing.''

Kuwait's exiled defense minister said Iraq is in possession of 650 U.S.-made Hawk ground-to-air missiles. And a gulf Arab government official quoted his country's intelligence reports as saying Iraqi scientists were believed to have developed a more powerful strain of the bacteria Bacillus Anthracis, which causes anthrax and highly fatal pneumonia and skin diseases.

A U.N.-affiliated international aid group has even begun stockpiling food on

Cyprus to feed refugees in case the standoff turns into a fight, the Athens News Agency reported. The World Food Program in Rome sent 8, 000 tons of rice, flour and cooking oil to the Mediterranean island for storage.

Bush said the new troop deployment to the gulf region - where an estimated 230,000 American soldiers have already been dispatched in Operation Desert Shield - is needed to ''guarantee adequate an offensive military option should this become necessary.''

In Baghdad, Al Qadissiya, the mouthpiece of the Iraqi Defense Ministry, gave no reason for the ouster of Iraqi army chief of staff Lt. Gen. Nizar al Kazarji, saying only that he would be replaced by Hussein Rashid, a hero of the 1980-88 Iran-Iraq war.

Western diplomats in the region said the reason for the army chief of staff's dismissal was not immediately clear, but that it may indicate trouble in Saddam's inner circle.

''It appears that Saddam is facing opposition to his policy in Kuwait ... after all, any chief of staff must realize that for Iraq to continue standing up to the multinational force in the gulf is suicidal,'' said one envoy, who asked not to be identified.

Two other high level aides to Saddam have left since Iraq's Aug. 2 invasion of Kuwait.

Japanese Prime Minister Toshiki Kaifu announced Thursday he was abandoning his proposal to send non-combat troops to assist U.S.-led forces in the gulf because he could not win the support of a majority in the Diet, or parliament.

But leaders of Kaifu's Liberal Democratic Party and two smaller parties, which together represent a majority, agreed Friday to support an alternative bill which would create a volunteer corps to give non- military support.

Japan's Self Defense Forces will be excluded from any new proposal to send personnel to the gulf, Chief Cabinet Secretary Misoji Sakamoto said.

The new bill will be presented to the Diet in late January or early February, according to government sources quoted by the Kyodo news agency.

In Hong Kong, evangelist Billy Graham called on people around the globe Friday to pray that God will intervene in the Persian Gulf crisis and lead the troubled region to peace.

''There are spiritual forces at work there,'' said Graham, who is in the British crown colony to start a satellite television crusade expected to reach more than 100 million people throughout largely Buddhist Asia. ''I can't answer what they are, but they are at work and it is not going to be a usual

type of situation. It's going to be something we have not seen in our century before.''

#90313u0274 11/09/1990 ~United Press International

(NOV. 9) UPI - Wet weather stretched from central Texas through the Midwest Friday, dousing several areas with more than an inch of rain, while high winds buffeted Washington.

Flash flood watches were in effect for parts of north Texas as rain and thunderstorms also hit Louisiana, Mississippi, Arkansas and Oklahoma and continued moving northeast at 40 mph.

Most areas received about an inch of rain, but in northeast Texas, Longview received 4.1 inches, Kilgore was doused by 3 inches and Gladewater was soaked by 3 1/2 inches.

A band of strong thunderstorms carrying lightning, gusty winds and very heavy rainfall covered an area from west of Baton Rouge, La., to east of Morgan City.

The rain reached up into Missouri, and met temperatures near the freezing mark producing freezing rain. Ice was reported on metal surfaces in Fulton and drivers were warned to be aware of patchy fog and slick roads.

In the Northwest, high winds caused by a strong jet stream swept across most of Washington state Friday with gusts up to 38 mph reported in Hanford.

A flood watch was in effect for the Skagit and Nooksack rivers as heavy rain fell in the North Cascades and Olympic mountains with wet snow about 5,500 feet. Runoff was expected to flood the rivers during the day.

A gale warning was in effect for the waters off the coast of Washington, D.C.

Clear and cool weather covered much of the Northeast with lows in the 30s in New York City, and in the 20s to the north and west, while winds reaching 25 mph whipped through Hartford, Conn.

#90313u0287 11/09/1990 ~United Press International

BEIJING (NOV. 9) UPI - China sharply criticized Taiwan Friday for its re-establishment of diplomatic relations with Nicaragua, accusing Taipei of employing checkbook diplomacy and ''foul means'' to win official recognition from foreign countries.

The broadside came in the first formal statement from the Chinese Foreign Ministry on the announcement Tuesday that Taiwan and Nicaragua had resumed

formal ties after a five-year break during the leftist rule of the now-ousted Sandinista government in Managua.

The statement, carried by the official Xinhua news agency, quoted an unidentified Foreign Ministry spokesman as confirming that China has suspended relations with Nicaragua in protest of the move.

''We are resolutely opposed to the establishment of official relations and exchanges of an official nature with Taiwan by those countries having diplomatic relations with China,'' the ministry spokesman said.

''In recent years, the Taiwan authorities have, in disregard of the overall interests of the Chinese nation, pursued the so-called elastic diplomacy by buying over or using other foul means and induced individual countries to establish or restore diplomatic relations,'' the spokesman said.

The spokesman also called on Nicaragua to ''correct its erroneous decision.''

China views Taiwan as a renegade province. The island has been ruled by the Nationalist Chinese since they fled the mainland ahead of the 1949 communist revolution. Neither Beijing nor Taipei accepts dual recognition from other countries.

Wealthy Taiwan has succeeded in using the lure of loans from its huge foreign exchange reserves to win a switch in recognition from some half a dozen impoverished African and Latin American nations during the past two years.

China, however, also has scored some diplomatic successes, winning recognition from Saudi Arabia and other Persian Gulf states, as well as from Indonesia and Singapore this year.

#90313u0295 11/09/1990 ~United Press International

JERUSALEM (NOV. 9) UPI - Police prevented Moslems from the West Bank and Gaza Strip from entering Jerusalem for Friday prayers as Palestinians observed a general strike to mark the start of the 36th month of the uprising against Israeli occupation.

Police pressed forward with their investigation into anti-Arab reprisals that followed the assassination of right-wing Rabbi Meir Kahane in New York.

Three members of the extremist Kach party founded by Kahane were questioned Friday about the apparent revenge killing of two elderly West Bank villagers hours after Kahane was shot, Israel Radio reported.

Dozens of Kach activists have been called in for questioning in recent days, but Kach party leaders instructed members not to cooperate with investigators.

At least 20 people have been arrested since Kahane's funeral Wednesday during which mobs attacked Arabs, police and journalists.

In the occupied West Bank and Gaza Strip Friday, shops were closed and many Arab workers stayed home in observance of a general strike held the ninth of each month to mark the start of the Palestinian uprising Dec. 9, 1987.

To prevent disturbances, Police stopped West Bank and Gaza Strip Palestinians from entering Jerusalem to attend Friday prayers at the Al Aqsa Mosque on the Temple Mount. Increased police forces were deployed in the walled Old City and Temple Mount area.

Authorities said rioting and incitement by Palestinian activists or Israeli right-wing extremists would not be tolerated.

About 4,000 worshippers attended services that ended without serious incident.

In the Gaza Strip, more than 165,000 Palestinians were confined to their homes by curfew in four refugee camps.

#90313u0300 11/09/1990 ~United Press International

ATLANTA (NOV. 9) UPI - Georgia has been selected for a national pilot program to encourage public school teachers to teach about the role of religion in the development of the United States.

Sponsored by the non-profit First Liberty Institute, the program is intended to correct a glaring absence of religion from most textbooks and course syllabuses.

''It's not expousing any religion,'' said state Superintendent Werner Rogers. ''It's really a recognition of the fact that religion has played a very important role in the development of our nation and continues to today ... How can you teach American history without teaching that people came here to achieve religious freedom.''

First Liberty, an outgrowth of the commission headed by former Supreme Court Chief Justice Warren Berger to celebrate the bicentennial of the Constitution, views the teacher training program as way to have lasting impact on how schools teach civic values, particularly freedom of religion.

Parents, state school board members and First Liberty officials contend that teachers shy away from discussing religon at all because they fear reprisals for promoting it at school.

Because they are afraid to mention God, some textbooks indicate the first Thanksgiving was a time for the Pilgrims to thank the Indians for corn, rather

than to thank God for their survival. Many history books also omit any mention of black churches' role in the civil rights movement.

Charles Haynes, president of the National Council on Religion and Public Education, said teacher fear about discussing religion is denying U.S. students a proper understanding of American history.

Haynes said students need to learn that freedom of conscience is an essential and inalienable American right.

First Liberty selected Georgia for the national pilot program after Rogers expressed interest two years ago. The state Board of Education agreed to the plan Thursday on an 8-1 vote.

Board member Juanita Baranco cast the lone dissenting vote, saying teaching about religion and religious liberty is a ''highly sensitive'' move that should be executed with ''absolute caution.''

Participation in the program by the state's 185 school systems will be voluntary.

#90313u0373 11/09/1990 ~United Press International

BANGKOK, Thailand (NOV. 9) UPI - Vietnam's premier war hero, Gen. Vo Nguyen Giap, boosted by improving relations with China, is favored to be Vietnam's next president in a hotly contested leadership shakeup expected next year, diplomatic sources said Friday.

''Improving relations with China have become a major new factor in Vietnam's internal leadership struggle and Giap is likely to be the first beneficiary,'' said a diplomat who follows Vietnamese affairs.

The diplomat said a struggle is under way within the party to fill the top three leadership posts that are expected to be changed next year.

The struggle is largely behind tightly closed party doors but diplomats say there are indications the main competitors for power are conservative Prime Minister Do Muoi and relatively liberal Foreign Minister Nguyen Co Thach.

Both agree on the need for continued Communist Party dominance and economic reform but they differ in emphasis.

Muoi stresses internal security and better relations with China while Thach calls for faster moves to a market economy and a faster opening to the West.

There have been rumors before about a comeback by the legendary Giap that never came true. But now the 79-year old former history teacher is seen as the

ideal compromise candidate for president, the least powerful of the three top positions.

One of the first comrades of revolutionary leader Ho Chi Minh, Giap is the legendary defense minister who masterminded the French defeat at Dien Bien Phu and played a major role in the defeat of the U.S.-backed government of South Vietnam.

He fell from favor partly because he opposed Vietnam's 1978 invasion of Cambodia, becoming a virtually powerless deputy prime minister with no major party posts.

The short, silver-haired Giap was given a warm welcome when he visited China in September as representative to the Asian games. That visit followed a secret trip to Beijing by Communist Party leader Nguyen Van Linh and Muoi.

Linh, 75, and President Vo Chi Cong, 77, are expected to retire next year.

Liberals in the party would like Muoi, who will be 74 in February, to retire with them but the tough party disciplinarian, now No. 3 in the party, is pushing to take over as party leader, the diplomats said.

The new party leader will be elected at the 7th Party Congress due in the spring of 1991 but some Vietnamese sources have told diplomats that changes in the government posts - president and prime minister - could come sooner.

The sources said Muoi would like to bring up Pham Van Khai, the 56- year-old director of State Planning, as prime minister, while others in the party would like to see Thach, 68, head the government if he cannot move up to the party leadership.

Thach, now No. 6 in the party politbureau, does not have as much following within the party bureaucracy as Muoi.

His hand, however, has been strengthened by successful visits last month to Washington and Tokyo - major successes in breaking some of the international isolation that has hampered Vietnam since the end of the Vietnam War.

But, one diplomat said, Thach suffers from the opposition of the Chinese. The diplomat said Chinese officials in Hanoi have spoken openly about what they called Thach's ''long list of sins against China'' - largely his defense of the Vietnamese invasion of Cambodia.

''Now that the Soviet Union is weakening, Vietnam must pay more attention to China's opinions,'' said a Bangkok-based analyst.

#90313u0423 11/09/1990 ~United Press International
(NOV. 9) UPI - Soviet leader Gorbachev is scheduled to arrive in Germany today on a two-day visit and talks with Chancellor Helmut Kohl. The talks are expected to focus largely on economic issues, including Gorbachev's ambitious program of economic reform.

The New York Times quotes sources who say that federal savings regulators plan to file claims expected to reach in the BILLIONS of dollars against Drexel Burnham Lambert to recover losses from ''junk bond'' investments.

The Philippines and the United States today ended their second round of talks on the future of strategic U-S military facilities. Both sides expressed optimism and agreed to meet again next month in Manila.

South Korean authorities today posted 24-hundred police officers on an island to prevent more riots by villagers who are afrad the government plans a nuclear waste storage dump for their neighborhood.

King Birendra of Nepal today proclaimed a historic new constitution that gives in to public pressure and limits the monarch's powers. The government declared a public holiday to celebrate the new constitution.

#90313u0508 11/09/1990 ~United Press International
LOS ANGELES (NOV. 9) UPI - A 2-year-old boy who unlatched the door of a big rig's sleeper compartment fell to the freeway and was killed, a mishap his father did not notice until he had driven 10 more miles, authorities said Friday.

The boy's father, a Folsom, Calif., resident who requested the Highway Patrol withhold his name, had left the boy in the truck's sleeper berth, but the boy apparently awoke, opened the hatch and fell out, Officer Shirley Gaines said.

The father drove to Santa Fe Springs before he noticed his son missing and requested help.

California Highway Patrol officers re-traced the man's route and found the boy dead of head injuries on the Golden State Freeway near its interchange with the Santa Ana Freeway in the Boyle Heights area about 9 p.m. Thursday, Gaines said.

#90313u0510 11/09/1990 ~United Press International
(NOV. 9) UPI - Stock prices fell for the fourth consecutive session Friday on the Tokyo Stock Exchange as individual investors sold margin positions ahead of a long weekend.

Banks markets and most major businesses will be closed Monday for the enthronement of Emperor Akihito. Trading will resume Tuesday.

The key Nikkei Average of 225 selected issues, which plummeted 530.44 points Thursday, shed another 38.01 points to 22,931.80.

The broader-based Tokyo Stock Exchange Price Index of all listed major shares dropped 14.47 points to 1,707.44.

Declines outpaced advances 725 to 218, while 122 issues remained unchanged.

Trading was slow with turnover estimated at 320 million shares, down from 357 million shares Thursday.

Analysts said the uncertain Persian Gulf situation kept most investors off the trading floor.

Elsewhere, stock prices closed slightly higher on the Hong Kong Stock Exchange after a late round of buying erased day-long losses.

The benchmark Hang Seng Index, which fell 22.75 points Thursday, added 0.48 point to 2932.92.

Among the narrower indexes, financials added 0.73 points, utilities dropped 58.89, industrials gained 22.50 and propeties rose 24.11 points.

Volume was light as an estimated 744 million shares changed hands, Hong Kong dollars, down from 778.7 million Thursday.

In Singapore, stock prices slumped in light trading on the Singapore Stock Exchange amid fresh fears of war breaking out in the Middle East.

The Straits Times Industrial Index, which lost 12.92 points Thursday, fell 7.06 points to 1,088.49. The All Singapore Index fell 1.30 points to 305.32.

Volume amounted to around an estimated 31.7 million shares, compared with 27.9 million shares Thursday.

In Bangkok, stocks rebounded slightly on the Thailand Stock Exchnage despite fears of war in the Middle East.

The Securities Exchange of Thailand Index, which slipped 1.06 points Thursday, rebounded 1.36 points to 662.55.

Volume amounted to around an estimated 1.7 billion Thai shares.

In Australia, a streak of four days of consecutive gains came to an end on the

Sydney Sharemarket.

The All Ordinaries Index, which gained 7.3 points Thursday, fell 13.5 points to 1,328.8. The key index did manage a 37.6-point gain for the week.

The All Industrials Index fell 22.6 points to 1,988.1 and the All Resources Index lost 6.1 points to 817.0.

Volume amounted to around an estimated 109 million shares.

Declines outpaced advances 147 to 91, while 195 stocks remained unchanged.

-30- 2728

#90313u0537 11/09/1990 ~United Press International

WASHINGTON (NOV. 9) UPI - Wholesale prices soared 1.1 percent in October on another huge jump in energy prices as war fears gripped Middle East oil fields the Labor Department said Friday.

Private economists expected an increase of 0.7 percent in the government's closely watched Producer Price Index for the month.

The 1.1 percent jump follows leaps of 1.6 percent in September and 1.3 percent in August in the aftermath of Iraq's invasion of Kuwait and the massing of U.S. and other forces in the embattled region.

A spokesman for the department's Bureau of Labor Statistics said wholesale prices for finished goods have increased 7 percent, adjusted for seasonal factors, since the beginning of the year.

''Large advances in indexes for energy goods accounted for most of the October rises at all three major stages of processing,'' the Labor Department said. ''Also, prices for food items turned up broadly after September decreases.''

By category, wholesale energy prices were up 8 percent in October after rising 13.8 percent in September and 9.5 percent in August.

''Prices for both gasoline and home heating oil continued to rise at a rapid pace, but the change was less than in either of the two previous months,'' the department said. ''The index for natural gas turned down slightly.''

Wholesale food prices increased 0.9 percent in October after dipping 0.9 percent in September and advancing 0.8 percent in August.

''Prices turned up after falling in the previous month for beef and veal, pork eggs, fresh and dried vegetables and pasta,'' the department said.

Not counting energy and food, wholesale prices for other finished goods were

unchanged last month after edging up 0.6 percent in September and 0.3 percent in August, the Labor Department said.

''Before seasonal adjustment, prices increased sharply for both passenger cars and light trucks,'' the department said. ''However, on a seasonally adjusted basis, the passenger car index fell considerably and light trucks inched up marginally.''

Wholesale prices for crude goods, meanwhile, increased a hefty 8.7 percent in October after jumping 4.6 percent in September and 9.3 percent in August.

Wholesale prices for intermediate goods, the step between crude and finished, advanced 1.5 percent last month after jumps of 1.8 percent and 1.3 percent in September and August, respectively.

All the data are adjusted for seasonal factors.

#90313u0551 11/09/1990 ~United Press International

(NOV. 9) UPI - Soviet President Gorbachev flew to Germany today at the invitation of Chancellor Helmut Kohl to sign a new treaty between the Soviet Union and recently unified Germany. The two nations will also sign a treaty on economic and scientific co-operation. Gorbachev was accompanied by Foreign Minister Eduard Shevardnadze, the chief of Soviet military staff, and other senior officials.

One year ago today, East and West Germans were celebrating the removal of the barrier between their two nations. Today's observance of the opening of the Berlin Wall will be a much less festive celebration. There will be an UNveiling of a memorial to the 77 people shot dead while trying to cross the wall to the West and a bronze plaque commemorating the opening of the wall.

Former President Reagan will visit Westminster College in Fulton, Missouri, today to dedicate a monument sculpted by Winston Churchill's granddaughter in observance of the first anniversary of the fall of the Berlin Wall. A crowd of more than five-thousand people is expected to hear Reagan discuss the post-Cold War era. Reagan will receive an honorary degree of Doctor of Laws.

Officials in the Philippines say troops carrying out a military operation have killed 95 communist guerrillas in an area where an American was kidnapped three weeks ago. U-S Embassy spokesman David Andresen says there are no new developments in the abduction of Arvy Drown. The Philippine military said Drown is an ex-Marine from California who holds a U-S passport issued in Seattle.

India's president today invited dissident leader Chandra Shekhar to form a new government, elevating Shekhar to the position of prime minister in the world's

largest democracy. Shekhar is to be sworn in tomorrow, three days after the resignation of Prime Minister V-P Singh. His government collapsed after a month of quarreling over the attempted relocation of a Moslem mosque to make room for a Hindu temple.

President Bush yesterday signed a proclamation designating Nicaragua as a participant in the Caribbean Basin Initiative to provide the former Central American enemy with its trade benefits. In a written statement, White House news secretary Marlin Fitzwter said that Nicaragua's participation in the C-B-I benefits will give its businesses duty-free access to the U-S market for a wide range of goods.

#90313u0576 11/09/1990 ~United Press International

BELGRADE (NOV. 9) UPI - Campaigning ended Friday for unprecedented multi-party elections for the Macedonian Assembly, the first in a series of elections that will decide the political fate of federal Prime Minister Ante Markovic and his pro-reform alliance.

Macedonian law requires a two-day cooling-off period before the republic's 1.27 million eligible voters cast ballots Sunday in a first round of elections for the 120-seat single-chamber legislature.

A second round is set for Nov. 25 for districts in which no candidate wins a majority of first-round votes.

More than 1,140 candidates from 16 political parties and 39 independents were competing in the first elections of their kind in Macedonia since Yugoslavia's southernmost republic was created in 1945 by the victorious communist forces.

Macedonia will be the third of Yugoslavia's six republics to hold multi-party assembly elections this year, spurred by the collapse of strong central communist rule, rising nationalism and the demise of socialism across much of Eastern Europe.

Attention will focus on the Alliance of Reformist Forces, a coalition of progressive parties formed by Markovic in July to fight resistance to his Western-style political and economic program by the leaderships of the major republics of Croatia, Slovenia and Serbia.

Political analysts favor Markovic's alliance and a coalition of Macedonian nationalist groups to reap the largest shares of seats, but no party is expected to win a majority.

Two other major contenders are a party representing the republic's 337,200 minority ethnic Albanians and the ruling communists.

Markovic is regarded as the only politician with a concrete program to transform Yugoslavia into a Western-style democracy and overcome rising nationalist passions that have raised fears that the multi-ethnic nation of 23 million could dissolve in civil war.

The nationalist Croatian and Slovenian administrations and the communist regime of Serbia have been trying to undermine his efforts, fearing Markovic's success will gain him sufficient popular support to implement a new constitution creating a strong federal government.

The federal authorities currently have virtually no power to control the republics.

Analysts said that while the Macedonian contests are the least significant of the series of upcoming elections, the performance of Markovic's coalition could influence its prospects in contests for the assemblies of Bosnia-Hercegovina, Serbia and Montenegro and for the federal Parliament.

''A really poor showing would have serious consequences for Markovic, '' said a Western diplomat. ''A good showing will be significant.''

The elections in Bosnia-Hercegovina are set for Nov. 18, with a second round scheduled for Dec. 2. Serbia and Montenegro are to hold single-round polls on Dec. 9, while no date has been decided for the federal contests.

LIMA, PERU (NOV. 9) UPI - A retired National Police general was found shot and killed, apparently by left-wing Shining Path guerrillas, it was reported Friday.

The body of Gen. Segundo Ramos, 55, was found Thursday morning in a vacant lot near Jorge Chaves International Airport with two bullets in his head, a television station reported.

The killing is believed to be the work of Shining Path guerrillas, a Maoist revolutionary group, according to the report.

In other guerrilla violence, police said 30 guerrillas, four members of a police and army patrol and four civilians with the patrol were killed Thursday in a battle in a mountainous jungle region 200 miles northeast of Lima.

Police said the attackers were probably Shining Path guerrillas, who offer protection to and collect taxes from producers of coca leaves, the raw material from which cocaine is manufactured.

The clash took place only 10 miles from Tingo Maria, the center of a coca producing region.

In a separate development, military sources said the army chief of staff, Gen. Juan Fernandez, was removed and not given a new assignment, a step that will force his eventual retirment.

Fernandez was recently criticized in newspapers for faulty administration of

army funds while head of the Third Army in Arrequipa.

The respected news magazine Caretas said in its latest issue that Fernandez had rented army road construction equipment to private businesses but that the rental money was not returned to the army.

On the political front, the Catholic Church Thursday night issued a statement attacking international aid conditions that require family planning.

''We must reject as very unjust the fact that, in international relations, economic aid given to peoples is conditioned to programs of contraception, sterilization, and abortion,'' a statement from Peruvian bishops said Thursday night.

President Alberto Fujimori, who has attacked a ''sector'' of the Roman Catholic Church as ''medieval,'' Wednesday denied that international agencies were requiring Peru to apply a birth control program as a condition for aid.

But the Health Ministry said it has spent more than a $1 million to distribute free condoms and birth control pills in health centers.

The government has not explained the source of financing of the birth control campaign but newspapers speculate that it is the United Nations.

The vast majority of Peru's 22.3 population lives in extreme poverty but the population growth remains high, at 2.5 percent a year, while the average woman gives birth to 5.2 children in her lifetime.

MOSCOW (NOV. 9) UPI - Mikhail Gorbachev's popularity rating has slid to 21 percent, leading an influential newspaper to conclude that the Soviet leader could probably not win a direct presidential election.

The Moscow News, a popular weekly that generally backs Gorbachev, also spelled out a bold program it said could bolster his support: take away the Communist Party's property, make deeper cuts in military spending, import more food, tighten controls on the KGB and create a coalition government with opposition forces.

An opinion poll published in the newspaper's current issue shows that only 21 percent of those queried agreed with the statement, ''I fully approve of the actions of Gorbachev.''

''If democratic elections were held today, Gorbachev probably would not be able confirm his right to lead the country,'' Moscow News said.

The poll, conducted last month by the National Institute of Public Opinion, showed that Gorbachev's approval rating is less than half its 52 percent last December and has steadily declined - to 44 percent in January, 39 percent in May, 28 percent in July and 23 percent in August.

The drop of 2 points from August to October, an 8.7 percent decline, was his smallest loss of popularity and suggests that his standing could be leveling off at a core support group of about one-fifth of the country.

''In the spring of 1985, Gorbachev possessed an amount of power that many monarchs could envy,'' Moscow News said. ''In the autumn of 1990, he is unable to cope with governing the country, which is out of control.''

The newspaper blamed both Gorbachev and his critics for the president's decline in stature.

''The philistine was taken from his warm bed of the stagnation period (under Leonid Brezhnev) and he will not forgive Gorbachev for the drafts of democracy '' it said.

At the same time, Moscow News said, Gorbachev has been slow to embrace new reforms and has gotten bogged down in personal conflicts with Russian Federation leader Boris Yeltsin, Lithuanian President Vytautas Landsbergis and others trying to buck Moscow's control.

The newspaper, noting Gorbachev's popularity in the West, suggested that Gobachev should use his ''international card'' to get more goods from abroad.

''But it is important that the food deliveries reach the common people and be connected with his name,'' it said.

Domestically, Moscow News said, Gorbachev should confront the Communist Party's vast property holdings and side with the people who, ''angry over inflation, unemployment and high prices, will not reconcile themselves to the luxury of party committees.''

If he takes these steps and challenges the military and the KGB secret police, it said, Gorbachev ''will be able to rely on enterprising and energetic people who will need the president because they will need stability'' as the country moves toward a market economy.

''The last source of power is trust, but it is quickly fading'' for Gorbachev, the newspaper warned.

#90313u0758 11/09/1990 ~United Press International

PEKIN, IL (NOV. 9) UPI - Ten male employees of Sears Roebuck and Co. have

filed a $20 million lawsuit against the retail giant and one of its managers, accusing the supervisor of videotaping the workers while they used the bathroom.

The suit, filed Thursday in Tazewell County Circuit Court, alleges the manager of the Sears store at the Pekin Mall placed the camera in the men's toilet in the automotive department, where he filmed employees from the automotive and receiving departments who used that restroom.

Sears and the store's manager, Peter Fauble of Pekin, were named in the lawsuit.

''The intrusion ... would be highly offensive to a reasonable person, '' the lawsuit said. The plaintiffs have said their privacy was invaded and they suffered humiliation and embarrassment as a result of the filming.

They said they also were filmed without their consent but the suit does not suggest why the filming took place.

The suit, which seeks $20 million in compensatory and punitive damages from Fauble and Sears, said Fauble installed the camera in the men's rest room and ''monitored the most intimate and private activities of the plaintiffs by use of the camera.''

A Sears spokesman would not comment on the 40-count suit but the company would confirm that Fauble no longer worked at the Sears store in Pekin.

The attorneys for the plaintiffs would not comment on the suit.

(NOV. 9) UPI - Shortly after the first of the year, the United States will be sending as many as 100-thousand more troops to the Persian Gulf region. The mood in the gulf region has turned to thoughts and preparations for war after a visit by Secretary of State Baker, who told Arab leaders the United States is NOT ruling out a military strike to force Iraqi troops from Kuwait.

Soviet leader Mikhail Gorbachev arrived in Bonn, Germany, today, exactly one year after the Berlin Wall fell with help from the Soviet leader's policy of reform. While Gorbachev and Chancellor Helmut Kohl will be meeting in Bonn, Berliners will be marking the first annniversary of the fall of the infamous wall.

Police say the Egyptian-born boiler repairman accused of assassinating right-wing Rabbi Meir Kahane was suffering from depression over a dead-end career and may have been taking drugs prescribed by a psychiatrist. Police describe the man as well-educated, with a degree in engineering and apparently

upset with his blue-collar job.

Police in New York say a young man who was arrested for allegedly robbing the wife of a transit police surgeon may be a suspect in the Halloween rampage on Wards Island that left one homeless man dead and nine others injured. A grand jury may charge 18-year-old Leon Robinson in the violent spree when it convenes this morning.

A published report today says federal bank regulators will file BILLIONS of dollars worth of claims against the ''junk bond'' firm of Drexel Burnham Lambert. The claims reportedly will be filed for losses incurred by failed thrifts that invested in junk bonds.

China criticized Taiwan today for its re-establishment of diplomatic relations with Nicaragua. A statement quoted an unidentified Foreign Ministry spokesman as confirming that China has suspended relations with Nicaragua in protest of the move. China accuses Taiwan of employing checkbook diplomacy and ''foul means'' to win official recognition from foreign countries.

It looks like wedding bells will be ringing for Ted Turner and Jane Fonda. A report today says the celebrity couple will announce their engagmenet in December. Sources report that Turner recently bought Fonda an engagement ring at Tiffany's in Los Angeles. The ring is described as an opal flanked by two diamonds. Fonda's publicist told reporters the wedding probably will take place next summer.

As many as 30-thousand cheering fans showed up at Boston's City Hall Plaza yesterday to greet the stars of T-V's long-running hit show ''Cheers.'' Thousands more lined city streets as members of the cast rode to City Hall in a motorcade. The 200th episode of the comedy aired last night ... and cast members were in Boston to celebrate. The show is set in a Boston bar.

#90313u0778 11/09/1990 ~United Press International

WASHINGTON (NOV. 9) UPI - Wholesale prices soared 1.1 percent in October on another huge jump in energy prices as war fears gripped Middle East oil fields the Labor Department said Friday.

Private economists expected an increase of 0.7 percent in the government's closely watched Producer Price Index for the month.

''The bulk of the increase was definitely energy,'' said Michael Niemira, an economist at Mitsubishi Bank in New York. ''Consumers have been paying higher prices for several months now.

''That's likely to continue for the forseeable future until things settle down in the Middle East - if they settle down,'' Niemira said.

The 1.1 percent jump follows leaps of 1.6 percent in September and 1.3 percent in August in the aftermath of Iraq's invasion of Kuwait and the massing of U.S. and other forces in the embattled region.

A spokesman for the department's Bureau of Labor Statistics said wholesale prices for finished goods have increased 7 percent, adjusted for seasonal factors, since the beginning of the year.

''Large advances in indexes for energy goods accounted for most of the October rises at all three major stages of processing,'' the Labor Department said. ''Also, prices for food items turned up broadly after September decreases.''

By category, wholesale energy prices were up 8 percent in October after rising 13.8 percent in September and 9.5 percent in August.

''Prices for both gasoline and home heating oil continued to rise at a rapid pace, but the change was less than in either of the two previous months,'' the department said. ''The index for natural gas turned down slightly.''

Wholesale food prices increased 0.9 percent in October after dipping 0.9 percent in September and advancing 0.8 percent in August.

''Prices turned up after falling in the previous month for beef and veal, pork eggs, fresh and dried vegetables and pasta,'' the department said.

Not counting energy and food, wholesale prices for other finished goods were unchanged last month after edging up 0.6 percent in September and 0.3 percent in August, the Labor Department said.

''Before seasonal adjustment, prices increased sharply for both passenger cars and light trucks,'' the department said. ''However, on a seasonally adjusted basis, the passenger car index fell considerably and light trucks inched up marginally.''

Wholesale prices for crude goods, meanwhile, increased a hefty 8.7 percent in October after jumping 4.6 percent in September and 9.3 percent in August.

Wholesale prices for intermediate goods, the step between crude and finished, advanced 1.5 percent last month after jumps of 1.8 percent and 1.3 percent in September and August, respectively.

All the data are adjusted for seasonal factors.

#90313u0779 11/09/1990 ~United Press International

TYRE, LEBANON (NOV. 9) UPI - A firefight broke out Friday between rival Palestinian factions in a refugee camp in southern Lebanon, killing one gunman and wounding two others, security sources said.

The sources said gunmen in a speedy car attacked the house of a member of the breakaway Fatah Revolutionary Council-Emergency Leadership (FRC-EL) in the refugee camp of Rashidyeh at the outskirts of the port city of Tyre, 46 miles south of Beirut.

The dissident returned fire and killed one of the assailants and wounded two others who managed to escape in their car, they said.

The sources said the firefight was part of ''settling old business'' between the rival factions of the Fatah Revolutionary Council headed by Sabri Al Banna better known as Abu Nidal.

Last June, FRC rebels routed Abu Nidal's followers from the Rashidyeh camp after an attack on the group's headquarters.

The FRC-EL leader, identified by his nom de guerre Sufian, said his faction wanted ''to correct the course of the old ones'' and abide by the policy of Yasser Arafat's Palestine Liberation Organization.

This was the major confrontation to control Abu Nidal's group founded in 1973 after breaking away from Arafat's mainstream Al Fatah movement

Abu Nidal, who tops the West's most wanted list for terrorist operations spanning a decade and a half, has bases in Moslem west Beirut, eastern and northern Lebanon, three regions patrolled by Syrian troops.

Syrian Government leaders say their country maintains no relationship with members of Abu Nidal's faction, having forced them to relocate out of Syria two years ago.

#90313u0784 11/09/1990 ~United Press International

RUSTENBURG, SOUTH AFRICA (NOV. 9) UPI - The largest gathering of church leaders in 30 years ended in disagreement Friday when the white wing of the

Dutch Reformed Church rejected a final communique that carried political recommendations.

During the final moments of debate by about 330 delegates representing 80 denominations, members of the Nederduitse Gereformeerde Kerk unilaterally issued a statement saying they could not accept raising political issues.

The final communique called for a transitional government pending the implementation of a post-apartheid constitution, the immediate release of all political prisoners and an end to discriminatory laws, including the Land Act restricting black ownership of most South African land.

The NGK delegation said it accepted the bulk of the communique issued at the end of the five-day meeting in the northwestern town of Rustenburg but that political views of the other churches were unacceptable.

The developement followed the confession of guilt for apartheid earlier this week by a delegate of the NGK, the wing of the church representing the Dutch-descended Afrikaner that until recently had given a biblical underpinning to apartheid.

The confession and subsequent comments from NGK delegates had suggested rapproachment with the black and mixed-race wings of the Dutch Reformed Church was within reach, but Friday's action appeared to unravel much of what had been put togther.

Delegate Beyers Naude called it a ''shocking and horrifying development'' while Sam Buti, moderator of the black NGK in Africa, described Wednesday's confessions as ''cheap talk of reconciliation.''

Anglican Archbishop Desmond Tutu had a more guarded reaction Friday. He said he still believed the delegates were ''persons of integrity'' and that he hoped the lack of endorsement for the communique ''does not indicate any change of heart.''

It was the first time since 1960 that so many church leaders had come together in a bid to forge a common repsonse to the country's political develpments. In the 1960 meeting, delegates drafted a short-lived unity pact in reponse to the police killings in Sharpeville township.

#90313u0789 11/09/1990 ~United Press International

MASERU, LESOTHO (NOV. 9) UPI - The military ruler of the tiny southern African kingdom of Lesotho announced Friday the election of Prince Mohato Seeisa, the eldest son of deposed King Moshoeshoe II, as the new head of state.

Maj. Gen. Justin Lekhanya confirmed in a statement to the national constituent

Assembly that Seeisa had been elected by Lesotho's 22 principal chiefs and would formally assume his duties on Monday.

He said the Office of the King Order of 1990 would make the 27-year- old lawyer head of state over the mountainous country surrounded entirely by South Africa, but he will have no executive or legislative powers.

Lekhanya announced on Tuesday he had promulgated a law dethroning Moshoeshoe II, who was forced abroad in March after refusing to back the military leader in a power struggle and allegedly plotting against the ruling military council.

Lekhanya, who seized power in a bloodless coup in 1986, said the ousted Moshoeshoe, king since 1960, had ''viblated his oath of office'' and broken laws of Lesotho.

#90313u0814 11/09/1990 ~United Press International

KATMANDU, NEPAL (NOV. 9) UPI - King Birendra proclaimed a historic new constitution Friday that yields to public pressure and limits the monarch's powers in the Himalayan nation he once ruled with absolute authority.

The 44-year-old king made the announcement from his golden serpent throne in the royal palace in a ceremony broadcast by state-owned Nepal Television and Radio Nepal.

But the celebratory mood was marred by a confrontation between police and some 300 members of the Nepal Communist Party during a torchlight procession through the streets of the capital to condemn the new constitution.

The police wielded bamboo sticks and rifles as they charged the demonstrators, who were wearing black armbands and shouting, ''We don't accept the constitution.''

Several demonstrators were injured, witnesses said.

Security was tightened for Birendra's announcement and one traveler, Rajesh Ghimere, who drove 150 miles from his home in Japakpur, said he was frisked by the military at eight points along the road to the capital.

The government declared Friday a public holiday to celebrate the new constitution in the nation of 19 million people that is making the transition

from an absolute royal power to a constitutional monarchy.

''A bold decision by an absolute king,'' trumpeted a banner headline in the independent weekly newspaper ''Nepali Awaj.''

The agreement followed two months of tough negotiations between the government and the palace over the role of the monarch, forced to give up his absolute authority by a bloody eight-week mass movement that toppled the previous partyless regime.

A multi-party coalition government made up of the Nepali Congress Party and seven communist parties was installed seven months ago to oversee the transition to constitutional monarchy.

Demonstrations opposing the partyless system of government began Feb. 18 and rocked the nation, eventually forcing Birendra to agree to limitations on his authority.

Government figures said 52 people died in the demonstrations and rioting, but opposition sources said the death toll was much higher in the clashes between armed police and troops and protesters.

Birendra, who has ruled for 18 years, at first tried to block the move toward a constitutional monarchy by dismissing the partyless government and promising limited reforms.

The move backfired, however, and some 200,000 people in the capital alone took to the streets April 6 to insist that political parties, banned for 29 years, be allowed to function freely in a constitutional monarchy.

The constitutional promulgation ceremony Friday was followed by a reception for 300 people on the sprawling, flag-bedecked lawns of the royal palace.

The kingdom of Nepal, home of Mount Everest, the world's highest mountain, is sandwiched between Asian giants India and China in the lofty Himalayas.

#90313u0828 11/09/1990 ~United Press International

MANILA, Philippines (NOV. 9) UPI - Unidentified men riding a motorcycle bombed the China Airlines office in the capital Friday night, shattering glass panels, ripping off the ceiling and injuring two people, police said.

The 9:25 p.m. bombing came on the eve of President Corazon Aquino's departure for Tokyo to attend the enthronement of Emperor Akihito on Monday.

Rebel soldiers who have tried seven times to oust Aquino have previously mounted terrorist campaigns whenever the president traveled abroad in a bid to

destabilize her government.

Patrolman Mario Mitra said the injured civilians were walking on the sidewalk when the bomb, tossed by two men on the motorcycle, exploded. The pedestrians sustained slight injuries from broken glass shattered by the impact of the blast, he added.

It was the second explosion to hit the CAL office in three months. Friday's blast shattered a glass door and tore down the ceiling and a signboard, police and witnesses said.

Glass panels of a bank across the street were broken and the windshield of a passing jeep was shattered, but no passengers were injured, Mitra said.

He said the blast was so loud he heard it a police station about three blocks away. ''We knew immediately it was a bomb,'' he said.

It was the first bombing incident in the capital since Oct. 23 when suspected communist rebels bombed the offices of two oil companies on the eve of a general strike called by leftist workers to demand pay raises.

The blast brought to 46 the number of bomb explosions in Manila since Aug. 13. Except for the Oct. 23 bombings, the previous incidents were blamed on rebel soldiers.

#90313u0837 11/09/1990 ~United Press International

BONN, GERMANY (NOV. 9) UPI - Soviet leader Mikhail Gorbachev started talks with Chancellor Helmut Kohl on Friday, the first day of a largely symbolic two-day visit exactly one year after the collapse of the Berlin Wall.

''I want to reach out my hand to you in the spirit of cooperation,'' Gorbachev told Kohl as the two sat down for talks expected to focus largely on economic issues and potential German financial assistance for Soviet reforms.

The Soviet leader was not expected to make any specific requests for German credits. But the two delegations were due to sign key agreements on economic, social and general cooperation.

''What will happen in two hours,'' Gorbachev said, ''will have great consequences and could only happen because we live in a world that is not only rapidly changing, but also a world that people are trying to make better and more liveable.''

''It has been a difficult history between our people, but it means a future and I hope a good one,'' Kohl said.

''Much of what has happened in Europe in the last 12 months could not have been possible without you,'' he told Gorbachev, whom he congratulated for winning this year's Nobel Peace Prize.

Earlier in the day Gorbachev held talks with President Richard von Weizsaecker and Foreign Minister Hans-Dietrich Genscher.

On arrival at the presidential residence of Villa Hammerschmidt, Gorbachev and his wife, Raisa, received from Weizsaecker a print by 13th century German artist Albrecht Duerer depicting St. Michael slaying a dragon - meant to symbolize the enourmous task Gorbachev faces in his reform program.

The meeting between Kohl and Gorbachev is the first since July talks in the Soviet Union that cleared the way for Oct. 3 German unification.

While the two leaders met in Bonn Friday, Berliners marked the first anniversary of the opening of the Berlin Wall.

The event marked the culmination of what became known as ''the peaceful revolution'' - a massive pro-democracy protest that brought down East Germany's Stalinist leadership.

Gorbachev added his voice to those of the protesters, when he told the hardline Communist East German leadership during a Oct. 7, 1989, visit to East Berlin that ''life punishes those who come too late''.

Officials in Bonn indicated that Kohl and Gorbachev may also discuss an acceleration of the withdrawal of Soviet troops from the territory that until unification formed East Germany.

The Soviet Union had agreed earlier that the 380,000 troops would leave within four years.

Gorbachev was accompanied by Foreign Minister Eduard Shevardnadze, Prime Minister Stepan Sitarjan and Armed Forces Chief of Staff Mikhail Moissejev.

Later in the afternoon, the German and Soviet delegations were due to sign the treaty on economic cooperation and a 20-year friendship treaty designed to normalize political and social relations between the two states.

Economics Minister Helmut Haussmann said earlier that Gorbachev, who needs to stock up on hard currency to help the ailing Soviet economy, will discuss with Kohl the sale of natural gas and crude oil to Germany.

Kohl is likely to ask Gorbachev details of a proposed economic commission made up of officials of the central Soviet government and of the various republics, sources said.

In return for economic cooperation, sources said Kohl plans to ask Gorbachev to improve conditions for the 2.5 million ethnic Germans living in the Soviet Union to avoid a mass exodus to Germany.

''Kohl knows that small presents weaken the wish to emigrate,'' a government source said.

Since German unification, thousands of ethnic Germans have applied for immigration to Germany.

Polish Prime Minister Tadeusz Mazowiescki met with Kohl Thursday for talks on a border treaty and Gorbachev is the second head to state to meet with the chancellor since unification.

Observers said that the two high-level meetings in one week demonstrate unified Germany's intention to draw Eastern Europe and the Soviet Union closer to Western Europe and the European Community.

''We want to stabilize relations with the Eastern countries and open up to them and hope other EC states will follow suit,'' a government source said.

After a day of talks in Bonn, Gorbachev will travel with his wife for what is being termed ''a private visit'' to Kohl's central German home of Oggersheim and the nearby city of Speyer, where he is scheduled to visit an almost 1,000-year-old cathedral.

MILWAUKEE (NOV. 9) UPI - Officials of the Milwaukee Brewers and Green Bay Packers say the future of professional baseball and football in Milwaukee may be in jeopardy because of a decision by the Milwaukee County Board.

The board voted 22-3 Thursday to scrap plans to have the Brewers take control of Milwaukee County Stadium. That is something the club wants to do because it plans to spend $120 million to build a new stadium, with local government picking up millions in costs for new roads and other improvements for the project.

The board acted after the Brewers withdrew their request because of opposition by the board.

But Brewers President Allen ''Bud'' Selig reacted emotionally to the issue at a luncheon Thursday to announce the club's 1991 schedule.

Selig was responsible for bringing the club to Milwaukee in 1970 to return major league baseball to the city after the Braves moved to Atlanta in the mid '60s. And he said problems the franchise is having working out a stadium deal jeopardize its financial future in Milwaukee.

''This ownership ... is the very ownership that fought unbelievable odds stacked against it to return major league baseball to Milwaukee,'' he said. ''Only in buying a team out of bankruptcty court in Seattle (the expansion

Pilots) were we successful seven days before the opening of the season in April of 1970,'' he said.

''Please don't ignore the lessons of history. They are there for everyone to see.''

The Braves moved to Atlanta because they thought they would be better off financially. Selig stopped short of threatening to move the Brewers out of the city, but he has maintained the club needs a new stadium to increase its revenues so it can remain a viable American League franchise.

The Packers also play one exhibition game and three regular season games in Milwaukee, but Packer President Bob Harlan said Thursday if the Brewers would leave the the club might quit playing in Milwaukee.

''If the Brewers leave town, you are talking about a stadium that is going to stay empty most of the year,'' he said in Green Bay. ''For us to go down there and play four dates at a stadium that I don't think would receive any kind of maintenance whatsoever doesn't make much sense.''

The board voted down the deal because turning over stadium operations to the Brewers would leave the county responsible for $970,999 in funds the club now pays.

The Brewers maintain, however, that would be a short-term loss and the club pumps tens of millions of dollars into the local economy by playing games - something that would be lost if the team folds or moves. Packer games also bring in revenue for local businesses such as hotels, bars and restaurants on game days.

#90313u0863 11/09/1990 ~United Press International

(NOV. 9) UPI - As Germans celebrate the one-year anniversary of the opening of the Berlin Wall today, they will have a visit from a man who was largely responsible for the historic event. Soviet President Gorbachev arrived in Bonn today for two days of talks with German leaders. Gorbachev and Chancellor Helmut Kohl will sign treaties on economic and general co-operation.

Secretary of State Baker left Moscow today after discussing the Gulf crisis with President Gorbachev and Foreign Minister Shevardnadze. Baker headed for London on the sixth leg of his whirlwind tour of the Middle East and Europe to assess support for possible military action against Iraq in response to its invasion of Kuwait.

Israeli troops advanced today outside Israel's self-declared security zone, prompting Lebanese and Palestinian factions to go on full alert. Security sources said an Israeli battalion backed by 40 armored vehicles crossed the

security zone into hills 24 miles south of Beirut. Lebanese resistance forces and Palestinian factions in the southern refugee camps declared the state of full alert among their ranks to confront any possible attack.

Five pople were killed last night in East Texas when a twin-engine plane crashed and burned during a heavy rainstorm. A justice of the peace said the pilot and four passengers were dead at the scene of the crash in a heavily wooded area. He said the plane hit the ground and burned. Three of the five victims were thrown out and two were trapped in the wreckage.

Georgia has been selected for a national pilot program to encourage public school teachers to teach about the role of religion in the development of the United States. The program is sponsored by the First Liberty Institute. Some parents, state school board members and First Liberty officials contend that teachers shy away from discussing religon at all because they fear reprisals for promoting it at school.

C-B-S says correspondent Harry Reasoner will take on a new and less demanding role on the show ''60 Minutes'' after the end of the current television season. At his request, the 67-year-old Reasoner will become editor emeritus and contributing correspondent on ''60 Minutes.'' He and Mike Wallace were the original correspondents for the news magazine when it debuted in 1968.

PRAGUE, CZECHOSLOVAKIA (NOV. 9) UPI - Young Czech women anxious to earn hard currency abroad are being sold into white slavery in Yugoslavia, the Czechoslovak press agency CTK reported Friday.

CTK said the women are lured to work in restaurants, nightclubs and hotels in Yugoslav towns, with promises of salaries of about $270, or close to three times the average Czechoslovak wage.

According to the CTK report, Yugoslavian ''entrepreneurs'' working with Czech gangs visit hotels in Czechoslovakia's economically depressed heartlands, luring the young women with promises of fortunes to be made.

The Czechoslovak middlemen also earn up to $270 for each girl they ship to Yugoslavia.

CTK said the Lux Hotel in Banska Bystrica, Central Slovakia, was a major center for recruiting the women. The Hotel manager refused to take repeated phone calls. A hotel receptionist, who grudgingly admitted the practice existed, refused to give details.

Banska Bystrica police could not be reached for comment, and a spokesman for the Federal police in Prague said they were unaware of the traffic.

The traffic apparently began in the wake of Czechoslovakia's ''velvet revolution'' which overthrew communist rule last November. Passports are now available for the asking, and growing fears of economic hard times at home have pushed many Czechoslovaks to venture abroad to earn hard currency.

White traders now act with relative impunity, as the national police force has been weakened by the weeding out of hardline Communists.

The women are kept as virtual slaves for 12 hours or more a day, reported CTK. Their passports and identity papers are confiscated if they try to return home and many end up turning to prostitution to make ends meet.

CTK said the racket came to light after the shooting death of an 18- year old Moravian woman in Vukovar, Croatia, which prompted a Yugoslav television

documentary on the subject.

''Our girls are beautiful, that is known the world over, so they have a lot of clients,'' CTK said.

The report added that Czechoslovakia's side into economic depression and its low standard of living mean Czech girls are ''criminally cheap.''

''Only Russian and Rumanian women are cheaper,'' CTK reported.

#90313u0873 11/09/1990 ~United Press International

RABAT, MOROCCO (NOV. 9) UPI - French Foreign Minister Roland Dumas arrived in Rabat Friday for talks with King Hassan II aimed at stemming a sharp deterioration in bilateral relations following publication of a book detailing human rights violations in Morocco.

Dumas refused to make any comment before his meeting with King Hassan, saying that ''no one will understand if I made any comment about the state of our relations, the problems of the (Persian) Gulf or the problems of the world.''

The diplomat would say only he was happy to be in Morocco, which he called a friend of France.

Dumas' trip comes one day after French President Francois Mitterrand's wife Danielle met with the wife of a senior official of the Polisario Front to discuss the plight of hundreds of people believed to have disappeared in the Moroccan-controlled Western Sahara.

Mrs. Mitterrand met for nearly an hour with Mrs. Abdel Aziz, wife of the secretary general of the Polisario Front, in the first lady's capacity as a leading light of the French human rights pressure group France-Libertes.

Mrs. Aziz said she wanted ''to show the gratitude of the Saharan people for the solid action of the foundation toward the least fortunate.''

France-Libertes sent trucks carrying food and medicines to Western Saharan refugee camps at Tindouf, Southern Algeria.

Danielle Mitterrand had been scheduled to tour the camps herself earlier this week but she canceled the visit at the last minute, apparently because of deteriorating relations between France and Morocco.

France-Libertes said in a statement that the talks ''focussed on the very difficult conditions of in the Saharan camps with the approach of winter and especially in health, eductaion and nutrition.''

It said it also discussed the plight of the ''disappeared Saharans'' - hundreds of people believed to have vanished in the Western Sahara after being rounded up by Moroccan forces worried about the prospect of a U.N.-brokered referendum on independence for the territory.

Hassan is known to be extremely angry about a new book, ''Our Friend the King'' by journalist Gilles Perrault that details human rights violations in the former French protectorate.

The monarch blames the French government for the publicity the book and its author have received in government-owned media, especially the state-run Antenne 2 network and Radio France International.

Last week Moroccan Prime Minister Azzeddine Lakari denounced in a message to his French counterpart Michel Rocard what he called ''a campaign to denigrate Morocco by the state-owned radio and television netwrors.''

In a dispatch carried by the Moroccan news agency MAP the government in Rabat let it be known that cooperation projects between the two countries could be cancelled.

The government in Rabat was especially angered by Mrs. Mitterrand's plan to fly to southwest Moroccco this week to deliver medicines to refugees of the former Spanish Sahara annexed by Rabat.

The Moroccan Parliament met in close session Thursday to discuss the crisis between Paris and Rabat.

BERLIN (NOV. 9) UPI - Berliners marked the first anniversary of the collapse of the Berlin Wall Friday with low-key celebrations that stood in sharp contrast to the celebrations of Nov. 9, 1989, when huge crowds streamed across the hated Cold War barrier.

Officials laid the cornerstone of a memorial to the 77 people who were shot while trying to cross the wall since it was erected Aug. 13, 1961. Later Friday, a bronze plaque commemorating the opening of the wall was unveiled.

''The 9th of November teaches us that a people who truly want to be free, can successfully enforce their will,'' said West Berlin Mayor Walter Momper.

Many Germans fondly remember the wild scenes of joy that marked the opening of the wall one year ago. Champagne corks popped and people wept openly in the street in disbelief at the ease with which they were able to cross the border that for 28 years was one of the world's most heavily guarded.

Friday's celebration remained low-key, partly because of the observance of another anniversary - that of the night of Nov. 9, 1938, known as the ''Reichskristallnacht,'' in which Nazis terrorized Jews in a grim dress reheasal for the Holocaust.

''The happiness of Germans over the opening of the wall and the unification process must not lead them to forget the burned out synagogues, plundered Jewish businesses and arrested Jews,'' said Heinz Galinsky, chairman of the Central Council of German Jews, at a memorial service in Berlin.

Friday's wall memorial ceremonies also included a re-reading of the East German Communist Party's declaration of freedom of travel, which set off the storming of the hated edifice one year ago.

In the summer and fall of 1989, the East German communist government headed by hardliner Erich Honecker faced its toughest - and final - test when tens of thousands of East Germans fled to the West in one of the largest migrations since World War II.

Simultaneously, massive pro-democracy rallies spread from the city of Leipzig across the entire country. Honecker was forced to resign on Oct. 18 after 18 years of ruling the country with an iron fist.

In a desparate bid to recapture control of the country, Honecker's successor, Egon Krenz, approved new travel regulations stating that East Germans would be allowed to travel on government permits that would be freely available.

Because of a misunderstanding between Krenz and party press spokesman Guenter Schabowski, history was made that same day.

The travel regulations were supposed to be released by the East German news agency at 4 a.m. Nov. 10, but Schabowski read the rule out loud at a chaotic news conference shortly before 7 p.m., Nov. 9.

Asked when the new regulations would become effective, Schabowski hesitated, but finally said with a puzzled look on his face: ''As far as I know ... right away.''

The biggest party in Berlin's history was on and for millions of television viewers worldwide the images of people literally dancing on the wall, represented a grand finale of the Cold War.

#90313u0889 11/09/1990 ~United Press International

BONN, GERMANY (NOV. 9) UPI - There were no huge crowds and no chants of ''Gorby, Gorby'' to greet the Soviet leader on his arrival in Bonn Friday - a sharp contrast to the jubilation that surrounded his last visit in June 1989.

But outside the official residence of the German president, a small group of hard-core supporters of the Soviet leader stood for hours in the bright sunshine to catch a glimpse of the man who was long considered the most popular politician among Germans.

''I drove 800 miles from my home in Muderbolz to see him,'' said Albert Wolf, a 50-year-old farmer from southern Germany.

''He is a fascinating man, because he is trying to change the whole Soviet system and he was essential in implementing these incredible reforms in Eastern Europe,'' said Wolf, who was carrying a stack of books on disarmament.

Wolf said he regretted not seeing Gorbachev during his last visit to Germany, which was marked by massive jubilation and chants of ''Gorby, Gorby''.

''But I watched it all on television,'' he said. Television provided almost non-stop coverage of Gorbachev's June 1989 visit. On Friday, only the regular news bulletins showed pictures of the Soviet leader's arrival at the presidential residence.

A woman among the 200 people gathered outside the residence said, ''We have to be grateful to Gorbachev, he did a lot for us.''

Gorbachev's insistence that East Germany abandon its hard-line communist policies largely fueled the pro-democracy demonstrations that led to the collapse of the Stalinist leadership and the collapse of the Berlin Wall one year ago Friday.

''I feel sorry for him. I don't think he'll make it,'' said Helga Weiss, 54, referring to the growing difficulties Gorbachev faces in the Soviet Union.

As she spoke, a police helicopter hovered overhead - part of a massive police deployment for the protection of the Soviet leader.

#90313u0915 11/09/1990 ~United Press International

LONDON (NOV. 9) UPI - Prime Minister Margaret Thatcher faced a barrage of fresh opposition claims Friday that her leadership mantle has crumbled, citing as proof the crushing defeat of her Conservative Party in two by- elections.

The main opposition Labor Party swept to victory in the northern constituencies of Bradford, where the Conservatives finishd a humiliating third behind the Liberal Democrats, and in Bootle by a firm majority.

''Bradford, brutal and brillant as far as the Labor Party is concerned,'' said Labor leader Neil Kinnock, who considered the results a message to Thatcher to

quit. ''That is the only fair way to describe those results.''

He and other opposition politicians said the voter's verdict, which followed a string of other by-election defeats for the governing party, indicated a base rejection of Thatcher and her 11-year-old administration.

Thatcher must call general elections before mid-1991 and most analysts attribute her 16-point slump in opinion polls to concern about economic stagnation and inflation and rejection of her leadership style.

''I frankly think Mrs. Thatcher has her ears stopped up to prevent her listening to anything because all the messages coming to her are messages she doesn't want to hear,'' said Paddy Ashdown, leader of the Liberal Democrats.

Several junior conservative legislators called for a challenge to Thatcher's leadership following last week's resignation of Deputy Prime Minister Geoffrey Howe in a disagreement over key European Community issues.

Thatcher agreed and Thursday nominated herself for the leadership challenge to be held Nov. 20.

Tony Marlow, a conservative legislator and vocal critic of Thatcher, predicted she will be toppled by conservative legislators.

''I'm almost sure she'll lose the contest,'' he said. ''I think we will have a new prime minister before Christmas.''

But Thatcher's supporters rallied behind her, trying to play down the significance of the election result and declaring that she was under no threat.

''They are protest votes certainly, mid-term votes, they register voter concern and out there we are not very popular at the moment,'' said Conservative Party chairman Kenneth Baker. ''That is what these results indicate.

''I believe the voters' mood will change next year when the benefits of the government's economic policy flow through,'' said Baker. He described Thatcher as ''our greatest asset. She will lead the Conservative Party into the next election and we will win under her leadership.''

#90313u0921 11/09/1990 ~United Press International

ISLAMABAD, PAKISTAN (NOV. 9) UPI - New Prime Minister Nawaz Sharif announced his Cabinet Friday, bringing back a number of officials from the regime of late military President Mohammad Zia-ul Haq.

Sharif, who took office on Tuesday after his alliance's defeat of former prime

minister Benazir Bhutto's party in the Oct. 24 elections, announced a 17-member Cabinet and two advisers. Portfolios have yet to be announced.

Ten of the 19 served under Zia, who ruled for 11 years, eight of them as head of a military government, until his death in a mysterious August 1988 plane crash.

Among them was Yaqub Khan, who was expected to retain the post of foreign minister he held under Zia and under Bhutto. Zia's son, Ijaz ul- Haq, a former banker who was elected to the National Assembly for the first time last month, was also included in the list.

Two members of the new Cabinet, Tariq Mehmoud and Islam Nabi, belong to the Mohajir Qaumi Movement, a key ally of Sharif's Islamic Democratic Alliance and which holds 14 seats in the 217-member Assembly. Two more are former members of Bhutto's Pakistan People's Party.

Sharif, 42, is a wealthy self-made industrialist and former protege of Zia, who appointed him chief minister of Pakistan's largest province of Punjab. He has promised to reduce bureaucracy and encourage free enterprise and rapid industrialization.

Sharif's alliance, a disparate army-backed grouping of parties opposed to Bhutto, scored an unexpected and decisive victory in the elections, winning 105 seats to the PPP's 45. Bhutto, now opposition leader, has charged the win was achieved by ''gross rigging.''

President Ghulam Ishaq Khan, a close ally of Zia and his constitutional successor, dismissed Bhutto's 20-month-old government on Aug. 6, accusing it of corruption and nepotism, dissolved the National Assembly and called new elections.

He also set up Special Disqualification Courts to try Bhutto and members of her administration on charges of misuse of power. If found guilty, they could be barred from politics for seven years.

Sharif has said the investigations into alleged corruption would continue.

-30- 2346

#90313u0945 11/09/1990 ~United Press International

NEW DELHI, INDIA (NOV. 9) UPI - Chandra Shekhar, the dissident leader who helped bring down the government of Prime Minister V.P. Singh, was invited Friday to form a fresh administration.

Shekhar, 63, was to be sworn in as India's eighth prime minister Saturday morning.

President R. Venkataraman extended the invitation to Shekhar to form a government during a half-hour meeting Friday. He told Shekhar that he must prove his majority in the lower house of Parliament by Nov. 20.

Shekhar already has indicated that he has enough parliamentary support to form the government. Former prime minister Rajiv Gandhi, who Thursday declined a presidential offer to put together a government, said he would back a new administration led by Shekhar.

Shekhar claims to have the support of 280 of the 524 legislators in the lower house of Parliament. He presented a list of the lawmakers to the president during Friday's meeting.

A statement released by the presidential palace said Venkataraman was satisfied that Shekhar had solid enough backing to form a ''viable'' government.

''The president is of the considered opinion that it will not be in the national interest to plunge the country into a general election at this time and that every effort should be made to provide the country with a reasonably stable government,'' the statement said.

When asked by reporters if his government would be stable, Shekhar said, ''I hope so.''

He emerged as the leading contender for the prime ministership on Monday when he and former deputy prime minister Devi Lal split Singh's Janata Dal party into two more or less equal factions.

Singh resigned from office Wednesday night after failing to prove his majority during a special session of Parliament. The resignation brought to an end to his 11-month-old, five-party National Front coalition government.

The president accepted the resignation Thursday, but asked Singh to continue in office until a new administration could be assembled.

''I came to the government on issues and it is on issues I am leaving,'' said Singh in a nationally broadcast television speech.

''If some of my actions angered the people, then that anger is part of the burden I must bear. If some of my actions have pleased you then I feel fulfilled,'' said Singh.

He apparently was referring to a controversial job reservation plan to lowcaste Hindus, which sparked widespread violence, including selfimmolations.

The Singh regime was the first Indian government to be defeated by a Parliament vote.

Singh's political fortunes turned bad Oct. 23 when the Hindu fundamentalist Bharatiya Janata Party (BJP) withdrew its crucial support from his coalition government.

The blow came just hours after authorities arrested BJP president L.K. Advani when he failed to heed a government warning to halt a campaign to relocate a Moslem mosque and begin construction of a Hindu temple to honor an important Hindu god.

The government feared the campaign would spark violence between Hindus and Moslems. The BJP pressed ahead with its plan, storming the complex surrounding the mosque in the northern Uttar Pradesh state town of Ayodhya. Clashes between radical Hindus and police in Ayodhya and between members of both religions in six states left more than 200 people dead.

Singh's coalition government ruled with the unusual support of the Communist Party of India (Marxist), its left-wing allies, and the right- wing BJP.

Support of the BJP was necessary for the survival of the coalition, although the party was not a member of the coalition.

#90313u0979 11/09/1990 ~United Press International

BUENOS AIRES, ARGENTINA (NOV. 9) UPI - A suspected drug trafficker who was once photographed carrying tennis star Gabriela Sabattini on a motorcycle was reported Friday to have sought sought asylum in the American Embassy in Buenos Aires.

U.S. Embassy spokesman Will Ostick said ''we have no comment'' on the report and consul Barbara Hemingway was reported in a meeting and could not come to the phone.

Radio Mitre said the suspect, Carlos Savignon Belgrano, Friday sought asylum in the American Embassy because he was a double agent, working for the U.S. Drug Enforcement Administration and therefore subject to retaliation by the drug mob.

Belgrano was photographed in September carrying Sabattini on the back of his motorcycle after she returned in triumph to Buenos Aires after winning the U.S. Open in New York - her first Grand Slam victory.

Prosecutors recognized the photograph and announced they were charging him with smuggling over 1,000 pounds of cocaine into Argentina two years ago in what is called ''Operation Lobster.''

The prosecutors said they had tape recordings of Belgrano talking to the

smugglers.

Sabattini on television said that she didn't know Belgrano very well, describing him as a casual acquaintaince.

Belgrano's lawyer, Martin Gonzalez del Solar, was quoted extensively in the newspaper Clarin Friday as saying in a legal argument that his client was in fact an informant of the Argentine federal police.

#90313u0981 11/09/1990 ~United Press International

NEW YORK (NOV. 9) UPI - Daily News strikers wielding clubs and hammers attacked a truck delivering the newspaper to the Port Authority Bus Terminal on Friday. Six persons, including four police officers, were injured.

Seven men were arrested in one of the most violent outbreaks in the 2-week-old-strike.

Port Authority Police identified the arrested as five security guards hired by the Daily News and two strikers.

''It was a full-scale riot,'' said a Port Authority police officer who asked not to be identified. ''People were jumping the cops. One of the strikers had an ice pick. It took 40 to 50 police about 20 minutes to restore order.''

The violence broke out at at 4:50 a.m. at Eighth Ave. and 41st St. when a News delivery truck pulled up to unload bundles of the tabloid followed by a Daily News car with two security men, said Mildred Schneider, a Port Authority Police spokeswoman.

About 50 demonstrators, identified by Schneider as union strikers, were waiting at the terminal entrance and attacked the driver and the security guards, she said.

''They surrounded the truck and the guards' car and a shouting melee ensued,'' Schneider said. ''Port Authority police were called, but it was difficult to tell who was who and city police had to be called to break up the brawl.''

The Port Authority police officer said two of the security men were wielding steel pipes, adding but it was ''hard to tell who was who without a score card.''

''After a van with 15 more Daily News security guards arrived, there was a lot of punching, kicking, and rolling in the street, and brandishing of pipes, hammers and chucka sticks (two sticks joined by a chain),'' the officer said.

Six persons were injured, Schneider said. Four police officers received minor

injuries and were treated at the scene and two arrested men received more serious injuries and were taken to Bellevue and St. Clare's hospitals.

None of the arrested was immediately identified. Six were charged with inciting riot and criminal possesion of weapons, and the seventh with assaulting a police officer. They were taken to Central Booking for processing and arraignment.

The arrests came little more than 12 hours after George McDonald, president of the Allied Printing Trades Council, denied at a press conference that strikers were involved in any violence.

''Any reports of violence get dumped on us,'' McDonald said. ''There is no concerted effort on the part of the unions for violence, and there has been no violence of any magnitude except for a few sporadic instances.

''You can't blame people for getting excited when outsiders are brought in to take their jobs.''

Nine unions struck the nation's largest circulation tabloid Oct. 26, forcing the news to hire ''replacement'' personnel to continue publication. Negotiations between the union and representatives of the News' corporate parent, the Chicago-based Tribune Co., have continued, with federal mediators also attending, but those talks were described Thursday by union advisor Theodore Kheel as ''merely perfunctory.''

McDonald announced for the first time that striking News workers are ready to make the same contract concessions to the financially strapped newspaper that workers at the New York Post made two months ago to keep their paper alive. This included a four-day work week equivalent to a 20 percent pay cut.

#90313u0992 11/09/1990 ~United Press International

WARSAW, POLAND (NOV. 9) UPI - Poland's six presidential candidates Friday abruptly scrapped plans for a nationwide televised debate after failing to agree on the ground rules, campaign officials for Prime Minister Tadeusz Mazowiecki said.

Talks on arranging the debate ended after the other candidates refused to accept several conditions proposed by the Mazowiecki campaign.

''There will be no debate with the candidates, although we were very willing and very eager to have one,'' said campaign spokesman Adam Szostkiewicz.

Among them were that the debate be conducted with an independent moderator and journalists, that each candidate be given the same questions and the same amount of time to answer them, and that the debate have a precise, clearly

defined character.

''Otherwise, we would have a free-for-all situation in which all the other candidates would attack Mazowiecki,'' Szostkiewicz said.

''This is a very serious thing,'' he said. ''After all the years of communist rule we would rather avoid political showbiz.''

Solidarity leader Lech Walesa, whose fiery style projects a much more energetic image than the sad-eyed, serious Mazowiecki, has been accused by critics of not sufficiently defining what his own program would be if he wins the election Nov. 25.

In Gdansk, a campaign aide to Walesa said it agreed to a six-way debate but without any limitations.

''We didnt want any middleman or any arranging factors in the debate, '' said Jerzy Kobylinski.

Walesa, who was the first to announce his presidential ambitions, has made as the major theme of his campaign his dissatisfaction with many of the policies of Mazowiecki, his former adviser.

He has called for quickly cleaning out the communist bureaucrats that remain in government and he wants to accelerate the immensely complicated process of returning to private hands property that was nationalized or otherwise seized after the communist takeover.

None of the other candidates draws support of more than 6 percent of the population, according to opinion polls.

#90313u1029 11/09/1990 ~United Press International
OSHKOSH, WI (NOV. 9) UPI - The prosecutor in the highly publicized multiple personality rape trial says the case may prove a model for cases involving crime victims with that mental disorder.

Winnebago County District Attorney Joe Paulus made his comments following the conviction Thursday night of Mark Peterson, 29, of Oshkosh, on a charge of second degree sexual assault of a woman claiming to have 46 personalities.

Paulus said the case was the first of its kind in the nation.

''When I first spoke to the victim (months ago), what she wanted more than anything else was to have her day in court and to tell people she was victimized.

''She had that opportunity,'' he said. ''The jury heard it; the whole country heard it.''

Paulus said the case would set a precedent.

''By adding multiple personality disorder as a diagnosis that we will accept and protect, we've extended this guarantee (of justice) to a new class of people who before, were totally misunderstood and often shunned by society.''

It took six and a half hours for the jury of six men and six women to hand down the guilty verdict. Paulus considered that a good sign.

''If it was a short deliberation, there was a good chance he'd be acquitted. The longer they deliberated, the better the chances he'd be found guilty.''

Peterson told reporters he would appeal his conviction and seek a new attorney.

But Paulus said he did not think there was a basis for an appeal.

''From my standpoint, it was a very clean trial. No mistrial issues were raised.''

Paulus said he would examine the pre-sentencing report and consider Peterson's background before making recommendations on a sentence. Peterson has no previous record of sex-related crimes. He could get up to ten years in prison on the second degree sexual assault charge.

Testimony during the trial from defense psychiatrists characterized multiple personality disorder as a ''disease of the month,'' a UFO of which there have been few sightings. Paulus said, ''This is like anything else that's new in society; there's a learning process.''

Jury foreman David Ward, a finance professor at the University of Wisconsin-Oshkosh, said jurors took two ballots before convicting Peterson. The first, he said, was only 8-4 in favor of conviction.

Ward said some jurors believed more than others that the victim had multiple personality disorder.

''I think on the bottom line, we did believe that she did suffer from mental disease, and that the defendant was aware of that.''

Another juror, Cindy Lancaster, Neenah, was skeptical of the woman's claims to have 46 personalities.

''We didn't necessarily agree that she had multiple personality disorder. We knew she was ill.

''Personally, I believe she is a very sick woman. I don't want to say she's faking, but it appears that way.''

In comments after the trial, Peterson maintained that he was the victim in the case. He said he did not think the woman was mentally ill, and did not know about her multiple personalities until after the two had sex.

Sentencing for Peterson is scheduled Dec. 10. He is free on $5,000 signature bond.

#90313u1064 11/09/1990 ~United Press International

COLUMBUS, OH (NOV. 9) UPI - Mail sorters made an unusual discovery when they looked into a cardboard box that had lost its address label - six live breeder chickens.

The chickens, being mailed to an undetermined destination, were turned over to the Capital Area Humane Society Thursday while U.S. Postal Service authorities try to determine who owns the birds.

Officials said the address label apparently came off while the box and other

parcels were being sorted in Columbus's Main Post Office. No other forwarding or return address was on the container, they said.

Gerry Bain, executive director of the humane society, said the chickens probably will be placed on a farm if the owner cannot be located.

#90313u1066 11/09/1990 ~United Press International

BLACKSBURG, VA (NOV. 9) UPI - Sheriff's deputies rushed into a home with guns drawn in response to a series of 911 calls but found out they had been summoned by a tomato.

Authorities became interested last weekend when a Montgomery County dispatcher traced repeated emergency calls to the home of Linda and Danny Hurst.

The Hursts were not home, so police figured someone might have broken in. Deputies went in with their guns drawn and found the house empty.

Then Danny Hurst, who had been called to the scene, found an overripe tomato in a hanging basket dripping juice onto a telephone-answering machine below.

As best police can figure it, the juice from the distressed tomato shorted out the machine's dialing system, causing it to call the Sheriff's Department emergency line.

''It just burst,'' said Montgomery County Chief Deputy Milton Graham. ''Then it called us. I guess it needed help ... or needed cleaning up.''

#90313u1130 11/09/1990 ~United Press International
(NOV. 9) UPI - There are indications today that the Soviet Union is in agreement with the U-S approach to the Persian Gulf crisis. Soviet Foreign Minister Eduard Shevardnadze said in Moscow that military force may be necessary to compel Iraq to leave Kuwait, but he says the super-powers still prefer a peaceful solution to the Gulf conflict.

President Bush and his top economic advisers are at Camp David in the Maryland mountains outside Washington today, mulling over steps they might take to help the economy. The meeting comes ahead of a new economic forecast due next week. It is expected to show further declines for the economy.

Sears and one of its former managers have been hit by a 20-Million- dollar lawsuit filed by 10 male employees at a Sears location in Pekin, Illinois. The employees claim the supervisor videotaped them while they used the men's room in the store's automotive department.

The popular weekly Moscow News is out with a new public opinion poll that shows President Gorbachev's popularity sliding to 21 percent. The magazine says that if a direct presidential election were held now, Gorbachev probably could NOT get elected.

The poll comes as Gorbachev began a two-day symbolic visit to Germany today, exactly one year after the collapse of the Berlin Wall. As he sat down for talks with German Chancellor Helmut Kohl, Gorbachev said- ''I want to reach out my hand to you in the spirit of co-operation.'' And Kohl told Gorbachev- ''Much of what has happened in Europe in the last 12 months could NOT have been possible without you.''

Today marks the first anniversary of the Berlin Wall's collapse, ending 28 years of division for a city and a country. And little evidence remains, less than three miles of what once was a 90-mile barrier. Parts of the wall have been auctioned off, given to world leaders and exhibited in galleries and homes.

In the Philippines, the Manila government and the United States today ended a second round of talks on the future of strategic U-S military facilities. Spokesmen for the two sides reported progress in the talks and expressed optimism a new agreement will be reached in January. Negotiators agreed to meet again next month in Manila.

Also today, Philippine military officials report that 95 communist guerrillas were killed by government troops in an area where an American was kidnapped three weeks ago. The officials say the clash in a mountainous area 260 miles north of Manila also left four soldiers dead. It's NOT clear if the operation was linked to the kidnapping of Arvy Drown.

Security sources in Lebanon say Israeli troops backed by armored vehicles advanced outside their security zone in southern Lebanon and Palestinian factions went on full alert. Earlier, Israeli artillery bombarded several villages where rival Moslem factions have been fighting since last December.

Israeli police are maintaining tight security in Jerusalem today as they keep Moslems from the occupied West Bank and Gaza Strip from entering the city for Friday prayers on the Temple Mount. All of this comes amid a general strike by Palestinians to mark the 36th month of their popular uprising against Israel.

The pilot program of a national project to encourage teachers to discuss the role of religion in the development of the United States will be run in Georgia. The non-profit First Liberty Institute is aiming the program at correcting a glaring absence of any religious discussion in textbooks.

#90313u1150 11/09/1990 ~United Press International

LONDON (NOV. 9) UPI - Stock prices inched higher in lackluster trading Friday on the London International Stock Exchange.

The blue-chip Financial Times 100-stock index, which fell 23.0 points Thursday

added 4.4 points to 2,040.6. The narrower top 30 industrial average gained 7.7 points to 1,582.6.

Volume amounted to around 370 million shares compared with 423 million shares changing hands Thursday.

After gaining nearly 15 points, the FTSE 100 retreated slightly following the U.S. Labor Department report showing wholesale prices soared 1.1 percent in October on another huge jump in energy prices.

Private economists expected an increase of 0.7 percent in the closely watched U.S. Producer Price Index for the month.

The retail sector came under selling pressure following a downgrading by UBS-Phillips & Drew.

The brokerage firm said it was cutting its pretax forecasts for the sector by between 5 percent and 10 percent following a worsening in the British economy over the last three months.

Storehouse added 4 cents to $2.37 while Kingfisher slipped 10 cents to $7.03 on the news.

Unilever dropped 20 cents to $11.62 after reporting lower third quarter profits.

Bass fell 25 cents to $18.73 and Grand Metropolitian slipped 9 cents to $10.54 on what was described as signs of a downturn in the U.S. economy.

Elsewhere in Europe, stock prices on the Frankfurt Stock Exchange ended higher in quiet trading boosted in part by gains in chemical stocks.

The closely watched German Stock Index, which slipped 1.71 points Thursday, gained 12.05 points to 1,381.49.

-30- 1791

#90313u1166 11/09/1990 ~United Press International

(NOV. 9) UPI - The United Nations rejected Friday an Iraqi request to discuss the presence of U.S. troops in the Persian Gulf area and Iraq reiterated its threat to destroy the oil fields in Kuwait and Saudi Arabia.

The U.N. General Assembly's Committee rejected the Iraqi request one day after President Bush ordered another 150,000 U.S. troops to Middle East, which will bring the total American ground forces to nearly 400, 000 by early next year.

The U.N. move marked a rejection of Iraqi efforts to distract attention from its Aug. 2 invasion of Kuwait and onto the growing presence of U.S. troops in

the region.

It was the first time the world body's 29-member committee, which sets the agenda for the 159-nation annual General Assembly session, refused to inscribe an item.

It was also Iraq's first attempt to take the issue to the assembly after repeated condemnations in the Security Council for its invasion of Kuwait.

''We believe that it is necessary to reject the Iraqi request because it distorts the truth, defies the Security Council and undercuts the Council by trying to inscribe the item,'' said U.S. Ambassador to the United Nations Thomas Pickering.

In Tehran, Iranian President Hojatoleslam Ali-Akbar Hashemi Rafsanjani said at Friday prayers he saw no signs of a peaceful solution to the crisis and called on Iraq to withdraw from Kuwait.

Rafsanjani repeated his concern that ''war may break out in the region'' and that ''there are no signs of a peaceful solution'' to the 3-month-old standoff.

Tehran Radio, monitored in Athens, quoted Rafsanjani as telling worshippers the presence of Iraqi troops in Kuwait was ''bringing major losses to the region, including the presence of foreign forces in the Persian Gulf.''

Despite Iraq's recent decision to capitulate to Iran's demands for a comprehensive peace settlement to their 1980-88, Rafsanjani - whose country has a long, U.N.-policed land border with Iraq - pledged not to violate U.N. sanctions against Baghdad.

In London, Secretary of State James Baker met Friday with British Premier Margaret Thatcher and Foreign Secretary Douglas Hurd as he neared the end of a seven-day, eight-nation Mideast-European tour to seek a mandate for the use of military force against Iraq.

Thatcher declared the ''military option'' will be used if Iraq does not withdraw from Kuwait. ''The peaceful solution would be for Iraq to get out of Kuwait. That is a matter for them. We hope they will do it. If not, we will have to take the military option and see that Iraq does leave Kuwait.''

Baker was to meet with NATO Secretary General Manfred Woerner on Saturday in Paris to discuss the gulf situation, among other issues, the NATO press service said.

In Baghdad, Iraq reiterated its threat to destroy vital oil facilities in Kuwait and Saudi Arabia if attacked by the U.S.-led ''

Bush fueled speculation late Thursday that the United States is preparing for war by announcing he would semd more troops to the region.

His announcement came as the Soviet Union toughened its stance when Foreign Minister Eduard Shevardnadze conceded that military force may be necessary to liberate Kuwait.

The official Iraqi news agency, INA, quoted official newspapers as saying the region is ''on the brink of a destructive war if Washington will take the risk of a military operation against Iraq.''

''The price of aggression on Iraq would be high and oil would be part of the price,'' INA said, quoting one newspaper as saying Iraqi troops would "destroy the oil resources for which the Americans had come to plunder and control.''

Saudi Arabia, which contains about 25 percent of the world's known oil reserves, produces 8.2 million barrels of crude a day, most of it sent to the United States, Western Europe and Japan. Kuwait, prior to the Aug. 2 invasion, produced 1.5 million barrels a day.

INA also reported that Iraqi President Saddam Hussein met with an envoy from Cuban President Fidel Castro, who called for a peaceful settlement of the crisis.

The news agency quoted Iraqi officials as denying that Iraq is importing large amounts of medicine in response to an accusation by a U.N. official that Baghdad intended to use the medicine to make biological weapons.

#90313u1190 11/09/1990 ~United Press International

MIAMI (NOV. 9) UPI - A federal judge prepared to hear arguments Friday on whether a network may broadcast government tapes of telephone conversations between deposed Panamanian dictator Manuel Noriega and his defense attorneys.

Cable News Network, which has obtained at least seven of the tapes in Noriega's drug-trafficking case, aired short selections Thursday morning. The broadcast prompted the general's defense attorneys to seek a permanent injunction against airing the material.

Lead defense attorney Frank Rubino, who was ''horrified'' to learn the government had taped conversations between attorneys and Noriega, has asked U.S. District Judge William Hoeveler to issue an injunction permanently banning use of the tapes. Rubino said airing of the tapes would interfere with efforts to give Noriega a fair trial.

On Thursday, Hoeveler issued a temporary order blocking CNN from using the audio tapes and asked them in a non-binding statement from the bench to pledge

not to air the tapes in order to avoid a legal battle.

CNN immediately filed an appeal with the 11th U.S. Circuit Court of Appeals in Atlanta, asking the three-judge panel to lift Hoeveler's temporary injunction.

Dave Maland, a clerk of the appeals court, said Friday the judges have received the legal briefs, but did not expect to rule prior to a hearing scheduled later Friday before Hoeveler on the permanent injunction.

The government has denied that any of the calls taped included conversations between the general and his attorneys. All telephone conversations made by federal prisoners are automatically recorded unless they are speaking with their attorneys.

On Thursday afternoon, CNN played one of the tapes it had obtained for Rubino at his Miami law offices.

''There is absolutely no question in my mind, not only was it a conversation between my office, but that it was a conversation of a privileged nature,'' Rubino said in an appearance Thursday on CNN's ''Larry King Live.'' ''The general was discussing certain witnesses, certain investigative techniques, requesting information as to how our investigation had progressed, and offering us ideas, in fact.''

CNN attorneys have insisted that attempts to block broadcasts of the tapes violates Constitutional guarantees of freedom of the press.

''The disruption of attorney-client privilege was not at CNN's doing. It was the government's doing. We were merely reporting it,'' CNN attorney Terry Bienstock said.

Hoeveler, who was obviously disturbed by any violation of client- attorney privilege, ordered government prosecutors to report on how many tapes had been made of Noriega's conversations with his attorneys.

The judge said he planned to have a federal magistrate review the tapes and then advise him on whether any privileged conversations were recorded.

Runbino expects to file a motion to dismiss the charges against Noriega next week, based on the existence of the tapes.

A 1988 Miami federal indictment against Noriega and 15 other defendants charges them with providing a drug trafficking and money laundering sanctuary for South American drug smugglers. A simultaneous indictment in Tampa accuses him of conspiring with a smuggler to import more than a million pounds of marijuana.

He surrendered in the Dec. 20 U.S. invasion of Panama and was brought to Miami

to stand trial, which is scheduled to begin Jan. 28. If convicted in Miami, he faces a maximum penalty of 145 years in prison and a $1.1 million fine.

#90313u1192 11/09/1990 ~United Press International

DUBLIN, IRELAND (NOV. 9) UPI - Mary Robinson, a leftist politician who plans to extend ''a hand of friendship'' to Northern Ireland, was elected Ireland's seventh and first female president.

Officials said Friday Robinson surged to an 86,000-ballot majority with the help of more than 200,000 second preference votes cast in the Wednesday polling, ending with 817,830 votes. Former Deputy Prime Minister Brian Lenihan secured 731,273 votes, they said.

''My first reaction is one of great joy,'' said a jubilant Robinson. ''Yet I also feel very humble that so many people have placed their trust and confidence in me.''

Robinson capitalized on second preference votes that had been cast for the third candidate, Austin Currie. Irish voters give first and second preferences for president, and if no candidate wins an outright majority, the second preferences given to failed candidiates are factored into the final count.

Prime Minister Charles Haughey was the first to congratulate Robinson.

The campaign had become acrimonious campaign because Lenihan, who was also defense minister, became enmeshed in a controversy over alleged unconstitutional conduct during a 1982 political crisis.

Haughey last week sacked Lenihan in order to defeat a confidence motion spawned by the dispute, which effectively scuttled Lenihan's presidential ambitions. He had been the front-runner, and it was the first time the Fianna Fail party had lost the president's office.

''Six months ago I could have got a 1,000 to 1 odds that Mary Robinson would be elected to the presidency, but anything can happen in Irish politics,'' said Richard Spring, leader of the Labor Party.

The new president will be inaugurated Dec. 3.

Robinson, 46, married and a mother of three, said, ''This is a great day for women.''

Robinson is a lawyer in private practice and served for 20 years in the upper house for the Irish Labor party. She resigned from Labor in 1985 to protest the Anglo-Irish Agreement that gave Dublin a say in the affairs of Northern Ireland, but Robinson objected to because it did not involve the participation

of Northern Irish unionists.

As president, she said she wants to have closer links with the Northern Irish, particularly the Catholics in the poorer regions most afflicted by the protracted rebellion against British rule.

''I would really hope to extend that hand of friendship with no hidden agenda, no strings attached,'' she said.

She twice lost elections to the Dail, or lower house, and as a senator and lawyer has been responsible for changes in Irish civil rights legislation, such as allowing women to sit on juries, guaranteeing equal social welfare rights, and opening up free legal assistance to low income people.

In Catholic-dominated Ireland, she is also known for having liberal views on contraception and abortion.

Officials said 64.1 percent of Ireland's 2.4 million eligible voters cast ballots, considered average for a presidential election, but low by general election standards.

''We're pleased that we held onto our hardcore voters,'' said Labor Minister Bertrum Ahern, Lenihan's supporter and director of elections for the incumbent Fianna Fail party. ''We did not get any votes other than from our rock foundation.''

Alan Dukes, the head of the Fine Gael party which backed Currie, said his group were glad to have been able to contribute to Robinson's victory through the second preference pact.

''This is a clear decision by the Irish people for a different kind of president,'' he said.

Towards the end of her campaign, Robinson distanced herself from the hard left wing of her support, including the Marxist Worker's Party. Labor, the Worker's Party and smaller communist groups are claiming a Robinson win as a victory for the left.

Opponents believe, however, that Robinson galvanized the women's vote across all parties.

WASHINGTON (NOV. 9) UPI - The federal government announced plans Friday to build a 1,000-bed prison in the nation's capital, where a crack cocaine epidemic and America's worst murder rate have taxed local facilities.

Bureau of Prisons Director J. Michael Quinlan said the proposed $80 million Metropolitan Detention Center will hold defendants in the custody of the U.S. Marshals Service while awaiting trial. The facility, to be built within site of the Capitol dome, is designed to help relieve severe overcrowding at the District of Columbia Jail.

''This institution will significantly enhance public safety by taking drug offenders and other violent criminals off the street while they are awaiting trial,'' Quinlan said. ''Its construction will provide federal law enforcement agencies in the D.C. area with additional resources to even more aggressively enforce federal statutes and keep dangerous offenders in custody awaiting trial in federal court.''

Spurred in part by a bloody turf war between crack cocaine dealers, Washington last year had the nation's highest per-capita murder rate, earning it the dubious title of ''murder capital.''

The violence has continued this year, with the lastest FBI Uniform Crime Report showing the district's 218 murders during the first half of 1990 matched last year's record pace of 217.

''This project,'' Quinlan said, ''demonstrates the bureau's continued commitment to safe streets in our nation's capital.''

Quinlan said the D.C. Jail currently holds about 400 federal prisoners under the supervision of U.S. marshals, and those inmates will be moved to the new facility.

He said the bureau also will make 300 beds in the Metropolitan Detention Center available to the D.C. Department of Corrections for local offenders. The District would reimburse the federal government for each prisoner it sends to the new facility.

The net result, Quinlan said, is that the D.C. jail will have space for 700 additional prisoners, ''enabling the District to confine additional local offenders awaiting trial.''

''It would definitely help relieve our overcrowding,'' said Pat Wheeler, spokeswoman for the D.C. Department of Corrections. She said local officials have been working with the federal government on the proposal so they were not surprised by Friday's announcement.

Quinlan said the remaining space at the MDC will be devoted to pre- trial confinement of ''additional dangerous federal offenders'' and to ''accommodate the rapidly growing law enforcement activity in the D.C. area.''

Three proposed sites are being considered for the new prison, which officials hope to have up and running sometime in late 1993. Two of the sites are about

a mile north of the Capitol, and the third is about three-quarters of a mile to the south.

The Bureau of Prisons next week will begin to prepare the required environmental impact study on the affect the prison will have on the area.

Bureau of Prisons spokesman Greg Bogdan said federal officials are trying to arrange meetings next week with neighborhood groups near the three sites to answer questions or concerns they may have.

''Everywhere we site (a prison facility) there's always opposition,'' Bogdan said, adding that the process of picking the final location ''takes some time.''

LONDON (NOV. 9) UPI - The new Miss World is America's Gina Tolleson, who was judged more beautiful than 80 other women from around the world despite a bout with influenza.

Miss Ireland, Siobhan McClafferty, 20, came second, and Miss Venezuela, Sharon Gonzalez, 19, was third in the contest Thursday evening in the London Palladium theater.

''I felt so bad during dress rehearsals that I had to get off stage, and all I could do was pray I would be okay,'' Tolleson said about her flu, which apparently was caused by London's legendary inclement weather.

She succeeds Polish beauty Aneta Kreglicka.

The brown-eyed brunette from South Carolina is a student at the University of Georgia and hopes to work in broadcast journalism. She said she enjoys writing reading, gardening, tennis and tap dancing.

Tolleson will receive more than $78,400 in cash and other prizes during her year-long reign.

All 81 contestants paraded in their evening gowns and swimsuits before the finalists were chosen in the show televized to 50 nations.

LONDON (NOV. 9) UPI - Secretary of State James Baker met Friday with Prime Minister Margaret Thatcher, who declared the ''military option'' will be used if Iraq does not withdraw from Kuwait.

Baker arrived in London after holding discussions in Moscow with President Mikhail Gorbachev and Foreign Minister Eduard Shevardnadze which ended with Soviet and American statements that force may be necessary to dislodge the armies of Saddam Hussein from the emirate.

In London, Baker first visited Foreign Secretary Douglas Hurd, and then spoke with Thatcher in her Downing Street office for more than an hour.

Baker said, ''there are no partial solutions,'' to the crisis, and that his talks with Thatcher had looked at ''ways in which we can preserve and move forward with the unprecedented international concensus that is supporting the United Nations resolutions.''

Thatcher was more strident.

''The peaceful solution would be for Iraq to get out of Kuwait,'' she said. ''That is a matter for them. We hope they will do it. If not, we will have to take the military option and see that Iraq does leave Kuwait.''

Thatcher also hailed ''this great international coaltion to show that aggression does not, cannot and will not pay.''

Baker said while en route to Britain that ''the superpowers will not be divided'' over the Gulf issue, but he would not divulge to reporters if a timetable for military action had been decided.

He flew Friday night to Paris, the seventh leg of his whirlwind tour of the Middle East and Europe to assess support for possible military action by the U.S.-led multinational force being assembled in Saudi Arabia.

NATO Secretary General Manfred Woerner will discuss the situation in the Gulf and East-West arms control negotiations with Baker in Paris Saturday, the NATO press service said Friday.

A statement issued by the NATO press service said Woerner and Baker will also discuss the Western alliance's military strategy as defined by the NATO summit meeting of heads of state and government in London in July.

At its London meeting, the NATO summit issued a declaration saying Europe had entered a new, promising era, as East European countries had embarked on the road toward liberalization and the Soviet Union on a long journey toward a free society.

He later departed for Paris, the seventh leg of his whirlwind tour of the Middle East and Europe to assess support for possible military action by the U.S.-led multinational force being assembled in Saudi Arabia.

Britain plans to have about 16,000 troops stationed in the kingdom alongside

the American and Arab forces, underlining Thatcher's staunch support for Washington since the Aug. 2 invasion of Kuwait.

An official of Baker's delegation was quoted as saying the secretary of state had been convinced during his visit that gulf states would fight alongside the American and British forces in the event of a war.

Egyptian and Syrian commanders have said their mission is to deter and defend any Iraqi attack on Saudi Arabia, a brief that does not include staging an offensive against Iraq. Baghdad has tried to exploit the apparent division, calling on the Arab troops not to take arms against Arab brothers.

The unidentified American official was also reported to have said the Soviet Union was no more optimistic than Washington that force could be avoided to resolve the crisis.

In the Soviet Union, Shevardnadze acknowledged it may take more than political pressure to end the standoff, but said ''all decisions should be made within the framework of the (U.N.) Security Council.''

#90313u1228 11/09/1990 ~United Press International

NACOGDOCHES, TX (NOV. 9) UPI - A twin-engine plane crashed and burned during a heavy rainstorm Thursday night in East Texas, killing five people, the Texas Department of Public Safety said.

A justice of the peace said the pilot and four passengers were dead at the scene of the crash about 6:05 p.m. in a heavily forested area three miles north of FM 225, DPS spokesman David Wells said.

''As they were trying to land there was a very heavy rainstorm,'' Wells said. ''The plane went down before it got to the runway.''

The plane hit the ground and burned, he said. Three of the five people were thrown out and two were trapped in the wreckage.

The airplane was registered with a contracting firm out of Hot Springs, Ark. It left Hot Springs earlier in the day with three passengers and picked up two more in Peachtree City, Ga.

The DPS identified the dead as the pilot, Jim Grisham of Hot Springs, the pilot; Tim Owens and Joe Siedschlag, of Hot Springs, and Mary Angel, 36, and Thomas Angel, 8, both of Peacetree City.

The National Transportation Safety Board was investigating the accident.

(NOV. 9) UPI - Secretary of State Baker is headed to London and talks with British Prime Minister Thatcher as he winds up a tour of the Middle East and Europe. In Moscow earlier in the day, Baker reported that the two super-powers agree that force canNOT be ruled out in the quest to get Iraq out of Kuwait. Soviet Foreign Minister Eduard Shevardnadze says both Washington and Moscow prefer a peaceful solution to the crisis but they are still willing to play the military card, if necessary.

Defense Secretary Cheney renewed his warning for Iraq to get out of Kuwait... even as a major new U-S troop deployment to the Persian Gulf region got under way. The Pentagon is NOT releasing specific figures on the number of troops involved, but it reportedly could be in the neighborhood of 150-thousand. That total would put the U-S force in the Persian Gulf region at about 400-thousand.

Evangelist Billy Graham is calling for world prayer to end the Persian Gulf standoff. Graham said in Hong Kong today that the tension in the Middle East is more than a battle over oil. Graham says that if war breaks out in the troubled region, he doesn't think it can be contained. Graham's call for prayers came as the United States says it will deploy more American troops to Saudi Arabia... and world leaders stepped up demands for Iraq to end its occupation of Kuwait.

President Bush huddled with his top advisers at Camp David today to consider moves to offset a deep recession in the nation's economy. The post-election soul-searching is geared to finding a solution to what Bush yesterday called ''tough times now.'' Bush says he plans to hold a series of meetings with his top aides as well as outside advisers to- quote- ''soften the blow'' of an increasingly sluggish economy.

A rift in the Dutch Reformed Church in South Africa appeared to have been healed until today. But the white wing of the church today rejected a final communique for the largest gathering of church leaders in 30 years because it included political recommendations. The final communique called for a transition government during the drafting of a post apartheid constitution... release of political prisoners, and an end of discriminatory laws.

Diplomatic sources in Thailand say they expect a leadership upheaval in neighboring Vietnam next year. And it could make General Vo Ngyuen Giap the next president of Vietnam. The war hero has pushed for improved relations between Vietnam and China in the past. The 79-year-old former history teacher led the Vietnamese in defeating the French and then the U-S-backed government of what was then South Vietnam.

29-year-old Mark Peterson remains free on a five-thousand-dollar signature bond today, one day after a jury in Oshkosh, Wisconsin, convicted him of raping a woman who claims to have 46 personalities. Peterson showed no emotion

when the jury found him guilty of second- degree sexual assault after a four-day trial. He faces up to 10 years in prison and 10-thousand dollars in fines at his sentencing on December 10th.

The American controversy over 2 Live Crew is mirrored in a Canadian case decided by a jury in Ottawa last night. The jury cleared two albums by the punk rock group ''DayGlo Abortions'' of obscenity charges. The albums are entitled ''Feed Us a Fetus'' and ''Here Today Guano Tomorrow.'' The group was NOT charged in the case, which was filed against the record producer and the distributing company. The jury in the case listened to both albums, which contain lyrics about sex, satanism, bestiality, rape, murder and suicide.

#90313u1259 11/09/1990 ~United Press International

WASHINGTON (NOV. 9) UPI - Defense Secretary Dick Cheney said Friday that new troop deployments to the Persian Gulf are additional forces, not replacements, raising the suggestion that an offensive-designed U.S.-led multinational force could be ready early next year in case orders are issued to drive Iraq from Kuwait.

Cheney's comments to reporters followed the announcement Thursday that the United States would deploy more troops in the region, shifting from a defensive posture to one that could wage war as an offensive force.

According to defense sources, the additional deployment will be more than 100,000 troops and could possibly escalate to between 150,000 and 170,000 when support forces are included. At the very least, the latest action will raise the total U.S. commitment in the region to the vacinity of 400,000 troops. Another 200,000 Saudi and allied forces are in and around Saudi Arabia.

The allied forces are countered by more than 400,000 Iraqi troops.

The Army commitment is estimated at about 260,000 by the time the deployment is completed. The Marine Corps contribution is about 90,000 for amphibious operations and ground warfare.

Exclusive of support ships and other combatants, the six aircraft carriers and two battleships alone will contribute 33,000 sailors. The Air Force has contributed parts of 14 fighter wings, AWACs radar planes and bombers to the operation, but has not hinted at its manpower contribution.

Cheney told reporters the forces now going to the gulf ''should be thought of as a net addition to the forces in the theater. They are not going over there as replacements but rather to be added to the forces that are over there.''

And asked if he was saying there would be a relatively short-term solution to the crisis, Cheney added, ''By sending these forces we're making it very clear

to Saddam Hussein we expect him to comply with the U.N. resolutions and withdraw from Kuwait and we are hopeful we can achieve that peacefully. ... But it is obviously clear we are also preparing the capacity to exercise other options should that become necessary.''

The forces are not expected to be in place and combat ready until after the first of the year, raising the suggestion that by late winter or early spring - if economic sanctions and international pressure has not forced Iraq out of Kuwait - military leaders could present political leaders with a multinational force capable of sweeping Iraq out of Kuwait.

No ceiling has been put on the size of the U.S. force that will be sent in should Iraq refuse to withdraw.

Cheney said half the forces commited to NATO were being sent to the Gulf region.

The deployment to Saudi Arabia and the surrounding waters will far exceed the U.S. deployment of forces to Europe during the Cold War. There were as many as 326,000 U.S. forces in Europe at the height of the Cold War. Some have been drawn down, and half of the roughly 310,000 now there are being deployed to Saudi Arabia.

During a question-and-answer session following a speech to a conservative organization, Cheney distanced himself from calls to threaten to use nuclear weapons on Iraq rather than putting 400,000 American lives in jeopardy.

Addressing a conservative activist who raised the issue, Cheney said, ''In the more than three months (since the deployment) you are the first individual to suggest to me that approach.''

''I think we moved away over the years from the Eisenhower strategy (used to help end the Korean war in 1953). We've moved generally as a matter of national strategy to having a range of responses and having conventional capabilities of the kinds we've deployed is very important. ... We are in the position of adding more capability. We made it clear that the president has a wide range of options if he decides he wants to move more aggressively than we have to date.

''I would not want to argue a strategy based solely on the proposition that the would rely on nuclear weapons in this kind of situation. I think we meed more flexibility,'' said Cheney.

The defense chief said Iraq was an example of how ''modern technology can make a third rate power a first class military threat.''

The occupation of Kuwait, he said, gave Iraq control of one-fifth of the world's proven oil reserves and had Saddam continued down the Gulf coast of

the Arabian peninsula and picked off the Saudi Arabia and the various emirates he could have held two-thirds of the world's proven oil reserves.

''That's not just marketplace clout. That's a strategic sledgehammer. There is no way the civilied world is going to give Saddam Hussein that kind of power over the very lifeline to the world's economy,'' said Cheney.

#90313u1261 11/09/1990 ~United Press International

EASTERN SAUDI ARABIA (NOV. 9) UPI - The guided missile cruiser USS Philippine Sea fired warning shots across the bow of a Sudanese-flagged cargo vessel Friday, then sailors boarded and searched the ship before allowing it to proceed to the Jordanian port of Aqaba.

The incident came as the U.S. Central Command information bureau reported in a statement that a U.S. Army soldier participating in Operation Desert Shield was found dead Thursday in a shower. The cause of the death was unknown.

The statement said authorities were conducting an investigation into the death of the soldier, who was assigned to the 118th Ordinance Detachment of the 11th Air Defence Artillery Brigade. There was no indication he had been slain, the statement said.

A ship participating in the United Nations blockade of Iraq intercepted the Sudanese-flagged cargo vessel Umdurman Friday in the northern Red Sea and asked permission to board the vessel, the information bureau said in another statement.

When the Umdurman refused repeated requests to take on the boarding party, the ship fired warning shots across the cargo vessel's bow, the statement said. It did not identify the nationality of the ship that intercepted the Umdurman.

The guided missile cruiser USS Philippine Sea arrived with a third ship a short time later and fired 50 rounds from a 50-caliber machine gun across the bow of the Umdurman becauseit again refused to accept a boarding party, the statement said.

When the Umdurman still rejected a boarding party, the USS Philippine Sea fired another 50 50-caliber rounds followed by two rounds from a five-inch cannon, the statement said.

A boarding party then traveled to the Umdurman by helicopter. Additional teams from the USS Philippine Sea and another ship went aboard the cargo vessel. The statement said the ship was searched and allowed to proceed to the Jordanian port of Aqaba.

The statement did not say what cargo the vessel was carrying.

Jordan has been suspected of violating the United Nations embargo against Iraq because of the close ties between the kingdom and Iraqi President Saddam Hussein. The Jordanian government, however, denies the claims and says it is abiding by the embargo.
